MANLY FLEISCHMANN,
Administrator.

APPENDIX A — GENERAL INSTRUCTIONS FOR PREPARATION OF FORMS NPAF-98 AND NPAF-99

1. *Where to obtain copies.* Copies of Forms NPAF-98 and NPAF-99 may be obtained at local field offices of the Department of Commerce.

2. *Time of filing.* Supplier's Form NPAF-99 must be filed with NPA on or before the first day of the calendar month immediately preceding the calendar quarter for which authorization is sought. Authorization to deliver will be entered by NPA on a copy of Form NPAF-99, which will be returned to the applicant not less than 10 days prior to the first day of the calendar quarter. Customer's Form NPAF-98 must be filed with NPA on or before the 28th day of each month. Copies of these forms will not be returned to the customer.

FORM NPAF-99

3. Form NPAF-99, Supplier's Schedule of Deliveries: Fill in Form NPAF-99 as indicated. If a supplier is also a consumer, he must file both Forms NPAF-98 and NPAF-99.

FORM NPAF-98

4. Form NPAF-98, Customer's Report of Disposition and Inventory of Sulfur: "Last Month" means the month preceding the month in which the form is filed. "Current Month" means the month in which the form is filed. File a separate form for each supplier.

Table I—Disposition of Sulfur

In column (1), list each disposition of sulfur according to the following categories:

Carbon disulfide.
Ground crude.
Miscellaneous (specify).
Other chemicals (specify).
Pulp and paper.
Resale.
Rubber.
Sulfuric acid.

In columns (2), (3), and (4), fill in data for each disposition listed in column (1).

Table II—Inventory of Sulfur

In columns (6) and (7), list the quantities of crude unprocessed sulfur only.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

ENLISTED MEN ABSENT WITHOUT LEAVE, DESERTERS, AND ESCAPED MILITARY PRISONERS

Sections 536.31, 536.32, 536.33 and 536.34 are rescinded and the following §§ 536.31 and 536.32 substituted therefor:

§ 536.31 *Definitions.* The following definitions will apply for the purposes of this part (see paragraphs 164 and 165, Manual for Courts-Martial, United States, 1951, 16 F. R. 1203).

(a) *Member.* A commissioned officer, warrant officer, or enlisted member of the Army.

(b) *Absence without leave.* The status of a member subject to military law who, without proper authority, fails to go to an appointed place of duty at the time prescribed, or goes from that place, or absents himself or remains absent from his unit, organization, or other place of duty at which he is required to be at the time prescribed.

(c) *Absentee.* A member who is absent without leave.

(d) *Desertion.* Absence without leave accompanied by the intention not to return, or to avoid hazardous duty, or to shirk important service.

(e) *Military prisoner.* A prisoner, whether detained, arraigned, or sentenced, or unsentenced.

(f) *Return to military control.* The turn-over or delivery of an absentee or deserter to the military authorities authorized to receive such absentees or deserters.

(g) *Civil officer.* Civil law enforcement officer.

(h) *Citizen.* Any person whether or not a citizen of the United States, except a civil officer or a member of the uniformed services.

§ 536.32 *Payment for arrest and delivery of members absent without leave, deserters, and escaped military prisoners—*(a) *Services for which payment will be made.* Persons or agencies who return absentees and deserters to military control, when authorized by the appropriate military authority, will be reimbursed reasonable expenses incurred incident to the return of the absentee or deserter not to exceed $50.

(b) *To whom paid.* The payment mentioned in paragraph (a) of this section will be made to the person or persons actually making the arrest of an absentee, a deserter, or an escaped military prisoner and the turn-over or delivery of the member arrested. If two or more persons join in performing these services payment may be made to them jointly. Payment will be made whether the absentee, deserter, or escaped military prisoner surrenders or is apprehended. Payment will not be made made merely for information leading to an arrest, or for an arrest not followed by the return of the member arrested to military control.

(c) *By whom paid.* The payments mentioned in paragraph (a) of this section will be made by disbursing officers or their class B agent officers, and will be in full satisfaction of all expenses of arresting, keeping, and delivering the absentee, deserter, or escaped military prisoner.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 34—CLASSIFSCATION AND RATES OF POSTAGE

REVISION OF RATES OF POSTAGE ON CERTAIN FOURTH-CLASS MAIL

The Interstate Commerce Commission having been requested, on October 13, 1950, pursuant to the provision of the act of September 27, 1950, (Pub. Law 843, 81st Cong., 2d sess.) to consent to the establishment of such rate increases or other reformations (in addition to any specific increases or other reformations heretofore or hereafter authorized or prescribed by law) pursuant to the provisions of section 207 of the act of February 28, 1925, as amended (39 U. S. C. 247), as may be necessary to insure the receipt of revenue from fourth-class mail service sufficient to pay the cost of such service, and such consent having been given by the Interstate Commerce Commission in its decision dated May 11, 1951, Docket No. 30690, *It is hereby ordered*, That, effective October 1, 1951, §§ 34.76 and 34.77 of Title 39, Code of Federal Regulations, be amended to read as follows:

The following regulations are issued under authority of R. S. 161, 396, sec. 1, 25 Stat. 654, secs. 304, 309, 42 Stat. 24, 25, sec. 207, 43 Stat. 1067, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 247, and decision of the Interstate Commerce Commission, dated May 11, 1951, Docket No. 30690.

§ 34.76 *Fourth-class postage rates by zones—*(a) *Local to Eighth Zone, inclusive.* On fourth-class matter (limit of weight over eight ounces to seventy pounds, limit of size one hundred inches in length and girth combined), except catalogs and similar printed advertising matter in bound form weighing more than eight ounces but not exceeding ten pounds, books, library books, publications or records furnished to a blind person under the provisions of the Act of April 15, 1937 (39 U. S. C. 293c), and except controlled circulation publications acceptance of which is authorized under the provisions of the act of July 3, 1948, sec. 203, 62 Stat., 1262 (39 U. S. C. 291b), the rate of postage shall be as follows in the respective parcel post zones:

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 58]

GRADING AND INSPECTION OF DAIRY PRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as hereinafter proposed, of revised rules governing the grading, inspection, sampling, grade labeling, and supervision of packaging of butter, cheese, and other manufactured or processed dairy products, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act of 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

The proposed rules and regulations will supersede the currently effective provisions of Part 55 (7 CFR Part 55), insofar as applicable to butter, cheese, and other manufactured or processed dairy products thereof, since such part is comprised of rules and regulations governing the grading and inspection of both dairy and poultry products. The proposed revision of Part 55 is necessary to provide separate rules and regulations for grading and inspection of dairy products.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same, in duplicate, with the Director, Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after publication of this notice in the FEDERAL REGISTER.

The proposed rules and regulations are as follows:

DEFINITIONS

§ 58.1 *Meaning of words.* Words in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand.

§ 58.2 *Terms defined.* For the purpose of the regulations in this part, unless the context otherwise requires, the following terms shall be construed, respectively, as follows:

(a) *Act.* "Act" means the following provisions of the Department of Agriculture Appropriation Act of 1951 (Pub. Law 759, 81st Cong.), or any future act of Congress conferring like authority:

• • • For enabling the Secretary to investigate and certify, in one or more jurisdictions, to shippers and other interested parties the class, quality, and condition of cotton, tobacco, fruits, and vegetables, whether raw, dried, canned, or otherwise processed, poultry, butter, hay, and other perishable farm products when offered for interstate shipment or when received at such important central markets as the Secretary may from time to time designate, or at points which may be conveniently reached therefrom under such rules and regulations as he may prescribe, including payment of such fees as will be reasonable and as nearly as may be to cover the cost for the service rendered • • •

(b) *Administration.* "Administration" means the Production and Marketing Administration of the Department.

(c) *Administrator.* "Administrator" means the Administrator of the Production and Marketing Administration of the Department, or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated by the Administrator, the authority to act in his stead.

(d) *Applicant.* "Applicant" means an interested party who requests any grading service, appeal grading, or regrading with respect to any product.

(e) *Class.* "Class" means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind, species, or method of processing.

(f) *Condition.* "Condition" means any condition (including, but not being limited to, the state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food) of any product which affects its merchantability.

(g) *Department.* "Department" means the United States Department of Agriculture.

(h) *Grader.* "Grader" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to investigate and certify, in accordance with the act and this part, to shippers of products and other interested parties the class, quality, and condition of such products.

(i) *Grading.* "Grading" means (1) the act of determining, according to the regulations, the class, quality, or condition of any product by examining each unit thereof or a representative sample drawn by a grader or sampler; (2) the act of issuing a grading certificate; or (3) the act of identifying, when requested by the applicant, any product by means of official identification pursuant to the act and this part.

(j) *Grading certificate.* "Grading certificate" means a statement, either written or printed, issued by a grader, pursuant to the act and this part, relative to the class, quality, and condition of products.

(k) *Grading service.* "Grading service" or "continuous inspection" means (1) any grading, in accordance with the act and the regulations, of any product; (2) continuous supervision, including quality control, in any official plant, of the preparation or packaging of any product; (3) any regrading of any previously graded product; or (4) any appeal grading of any previously graded product.

(l) *Inspector.* "Inspector" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to inspect and certify the condition of products.

(m) *Interested party.* "Interested party" means any person financially interested in a transaction involving any grading, appeal grading, or regrading of any product.

(n) *Office of grading.* "Office of grading" means the office of any grader, sampler, or inspector.

(o) *Official identification.* "Official identification" means the symbol represented by a stamp, label, seal, mark, or other device approved by the Administrator, affixed to any product or to any container thereof, stating that the product was graded or inspected and indicating the class, quality, grade, or condition of such product.

(p) *Official plant.* "Official plant" means one or more buildings, or ports thereof, comprising a single plant in which the facilities and methods of operation therein have been approved by the Administrator as suitable and adequate for operation under inspection or grading service and in which inspection or grading is carried on in accordance with the regulations in this part.

(q) *Person.* "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(r) *Product or products.* "Product" or "products" means butter, cheese (whether natural or processed), milk, cream, milk products (whether dried, evaporated, or condensed), and such other perishable farm products as the Secretary may hereafter designate. Such term shall also include any food product which is prepared or manufactured from any of the aforesaid products if such products constitute at least 50 percent, by weight, of all the ingredients used in the preparation or manufacture of such food product.

(s) *Quality.* "Quality" means the inherent properties of any product which determine its relative degree of excellence.

(t) *Regulations.* "Regulations" means the provision of this part.

(u) *Sampler.* "Sampler" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to draw samples of products for grading by a grader or for lot analysis under the act and this part.

(v) *Sampling.* "Sampling" means the act of taking samples of any product for grading.

(w) *Sampling report.* "Sampling report" means a statement, either written or printed, issued by a sampler, identifying samples taken by him for grading.

(x) *Secretary. "Secretary"* means the Secretary of the Department or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in his stead.

(y) *Supervisor of packaging.* "Supervisor of packaging" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to supervise the packaging and grade labeling of products.

ADMINISTRATION

§ 58.3 *Authority.* The administrator shall perform, for and under the supervision of the Secretary, such duties as the Secretary may require in the enforcement and administration of the provisions of the act and this part.

GRADING SERVICE

§ 58.4 *Kind of service.* Any grading service performed in accordance with this part may be for class, quality, and condition, or any combination thereof, and such service shall be subject to supervision at any time by the Administrator.

§ 58.5 *Where grading service is offered.* Any product may be graded, inspected, and sampled wherever a grader, sampler, or inspector is available and the facilities and the conditions are satisfactory for the conduct of the grading service.

§ 58.6 *Filing of application.* An application for grading, inspection, or sampling of a specified lot of any product shall be regarded as filed only when made pursuant to this part.

APPLICATION FOR GRADING, INSPECTION AND SAMPLING

§ 58.7 *Who may obtain grading, inspection and sampling service.* An application for grading, inspection, or sampling service may be made by any interested person, including, but not being limited to, the United States, any State, county, municipality, or common carrier, and any authorized agent of the foregoing.

§ 58.8 *How to make application.* An application for any grading service may be made in any office of grading, or, with any grader, sampler, or inspector at or nearest the place where the service is desired. Such application for service may be made orally (in person or by telephone), in writing, or by telegraph. If an application for grading service is made orally, the office of grading, grader, sampler, or inspector with whom such application is made, or the Administrator, may require that the application be confirmed in writing.

§ 58.9 *Form of application.* Each application for grading, inspecting, or sampling a specified lot of any product shall include such information as may be required by the Administrator in regard to the product and the premises where such product is to be graded, inspected, or sampled.

§ 58.10 *Granting of application.* An application for continuous inspection may be approved only with respect to an official plant.

§ 58.11 *When application may be rejected.* Any application for grading service or sampling service may be rejected by the Administrator (a) whenever the product involvd is owned by, or located on the premises of, a person currently denied the benefits of the act, or (b) for noncompliance by the applicant with the act or the regulations; and each such applicant shall be notified immediately of the reasons for the rejection.

§ 58.12 *When application may be withdrawn.* An application for grading service may be withdrawn by the applicant at any time before the service is performed upon payment, by the applicant, of all expenses incurred by the Administration in connection with such application.

§ 58.13 *Authority of applicant.* Proof of the authority of any person applying for any grading service may be required in the discretion of the Administrator.

§ 58.14 *Accessibility and condition of product.* Each product for which grading service is requested shall be so conditioned and placed as to permit a proper determination of the class, quality, or condition of such product.

§ 58.15 *Disposition of graded product.* Any product, or sample thereof, which has been graded may be returned to the applicant at his request and at his expense if such request was made at the time of application for the grading service. In the event the aforesaid request was not made at the time of application for the grading service, the product or sample may be disposed of in such manner as the Administrator may approve.

§ 58.16 *Basis of grading service.* Products shall be graded in accordance with such standards, methods, and in-

structions as may be issued, or approved, by the Administrator. The supervision of packaging graded products shall be in accordance with such instructions as may be issued, or approved, by the Administrator.

§ 58.17 *Order of service.* Grading service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any such applications which are made by the United States (including, but not being limited to, any instrumentality or agency thereof) and to any application for an appeal grading.

§ 58.18 *Grading certificates and sampling report forms.* Grading certificates (including appeal grading certificates and regrading certificates) and sampling report forms shall be issued on forms approved by the Administrator.

§ 53.19 *Grading certificate issuance.* Each grader and each inspector shall issue a grading certificate covering each product graded; but in no case shall a grader or inspector sign any certificate covering any product not graded by him.

§ 58.20 *Disposition of grading certificates.* The original of any grading certificate, issued pursuant to § 58.19, and not to exceed four copies thereof, shall, immediately upon issuance, be delivered or mailed to the applicant or person designated by him. One copy shall be filed in the office of grading serving the area in which the grading service was performed, and all other copies shall be filed in such manner as the Administrator may approve. Additional copies of any such certificate may be supplied to any interested party as provided in § 58.41.

§ 58.21 *Advance information.* Upon request of an applicant, all or part of the contents of any grading certificate issued to such applicant may be telephoned or telegraphed to him, or to any person designated by him, at applicant's expense.

APPEAL GRADING AND REGRADING

§ 58.22 *When appeal grading may be requested.* An application for an appeal grading may be made by any interested party who is dissatisfied with any determination stated in any grading certificate, if the identity of the samples, or the product, has not been lost; and such application for an appeal grading shall be made within two days following the day on which the grading was performed. Upon approval by the Administrator, the time within which an application for an appeal grading may be made may be extended.

§ 58.23 *How to obtain appeal grading.* Appeal grading may be obtained by filing a request therefor, (a) with the Administrator, (b) with the grader or inspector who issued the grading certificate with respect to which the appeal grading is requested, (c) with the immediate superior of such grader or inspector, or (d) with the officer in charge of any office of grading. The application for appeal grading shall state the reasons therefor and may be accompanied by a copy of the aforesaid grading certificate or any other information the applicant may have secured regarding the product, at the time of grading, from which the appeal is requested. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation may be required.

§ 58.24 *Record of filing time.* A record showing the date and hour when each such application for appeal grading is received shall be maintained in such manner as the Administrator may prescribe.

§ 58.25 *When an application for an appeal grading may be refused.* If it appears to the Administrator that the reasons for an appeal grading are frivolous or not substantial, or that the quality or condition of the products has undergone a material change since the grading from which the appeal is made, or the identical products graded cannot be made accessible for regrading, or the act or this part has not been complied with, the Administrator may refuse the applicant's request for the appeal grading; and such applicant shall be promptly notified of the reason for such refusal.

§ 58.26 *When an application for an appeal grading may be withdrawn.* An application for appeal grading may be withdrawn by the applicant at any time before the appeal grading is made upon payment, by the applicant, of all expenses incurred by the Administration in connection with such application.

§ 58.27 *Order in which appeal gradings are performed.* Appeal gradings shall be performed, insofar as practical, in the order in which applications therefor are received; and any such application may be given precedence pursuant to § 58.17.

§ 58.28 *Who shall make appeal gradings.* An appeal grading of any graded product shall be made by any grader (other than the one from whose grading the appeal is made) designated for this purpose by the Administrator; and, whenever practical, such appeal grading shall be conducted jointly by two such graders.

§ 58.29 *Appeal grading certificate.* Immediately after an appeal grading has been completed, an appeal grading certificate shall be issued showing the results of such appeal grading. Such certificate shall thereupon supersede the grading certificate for the product involved and such supersedure shall be effective as of the time of issuance of the grading certificate with respect to which the appeal is made. Each appeal grading certificate shall clearly set forth the number and the date of the grading certificate which it supersedes. The provisions of § 58.18 to § 58.21, both inclusive, shall, whenever applicable, also apply to appeal grading certificates except that copies of such appeal grading certificates shall be furnished each interested party of record.

§ 58.30 *Regrading of a graded product; application for regrading of a graded product*—(a) *Regrading of a graded product.* Whenever the immediate superior of a grader has evidence that such grader incorrectly graded a product, such superior shall immediately make a regrading of the product.

(b) *Application for regrading of a graded product.* An application for the regrading of any previously graded product may be made at any time by any interested party; and such application shall clearly indicate the reasons for requesting the regrading. The provisions of the regulations relative to grading service shall apply to regrading service.

§ 58.31 *Regrading certificate.* Immediately after a regrading has been completed, a regrading certificate shall be issued showing the results of such regrading; and such certificate shall thereupon supersede, as of the time of issuance of the regrading certificate, the grading certificate previously issued for the product involved. Each regrading certificate shall clearly set forth the number and date of the grading certificate which it supersedes. The provisions of § 58.18 to § 58.21, both inclusive, shall, whenever applicable, also apply to regrading certificates except that copies of such regrading certificates shall be furnished each interested party of record.

§ 58.32 *Superseded certificates.* When any grading certificate is superseded in accordance with this part, such certificate shall become null and void and, after the effective time of the supersedure, shall no longer represent the class, quality, or condition of the product described therein. If the original and all copies of such superseded certificate are not delivered to the person issuing the regrading or appeal grading certificate, he shall notify such persons as he considers necessary to prevent fraudulent use of the superseded certificate.

AUTHORIZATION AND LICENSING OF GRADERS, INSPECTORS, SAMPLERS, AND SUPERVISORS OF PACKAGING

§ 58.33 *Who may be authorized or licensed.* Any person possessing proper qualifications, as determined by an examination for competency, held at such time and in such manner as may be prescribed by the Administrator, may, (a) if an employee of the Department, be authorized by the Secretary, or (b) if not an employee, be licensed by the Secretary, as a grader, inspector, sampler, or supervisor of packaging for the performance of the applicable duties. Each prospective licensee, other than a State employee, shall, prior to the issuance of the license, procure and deliver to the Administration a surety bond, issued by such surety as may be approved by the Administrator, in the amount of $1,000 for the proper performance of the duties of such person as a licensee under the act and this part. Each authorization, and each license, issued by the Secretary shall be countersigned by the Administrator.

§ 58.34 *Suspension or revocation of authority or license.* Pending final action by the Secretary, the Administrator may, whenever he deems such action necessary, suspend the authority or license issued to any person pursuant to this part, by giving written notice of such suspension to such person, accompanied by a statement of the reasons therefor. Within seven days after receipt of the aforesaid notice, such person may file a written appeal with the Secretary, supported by any argument or evidence such person may wish to offer as to why his authority or license should not be suspended or revoked. After the expiration of the aforesaid seven day period and consideration of such argument and evidence, the Secretary will take such action as he deems appropriate with respect to such suspension or revocation.

§ 58.35 *Cancellation of authority or license.* Upon termination of any person's services as a grader, inspector, sampler, or supervisor of packaging, he shall surender the authority or license, issued to him pursuant to this part, for cancellation by the Administrator.

§ 58.36 *Surrender of authority or license.* Each authority, and each license, that is suspended or revoked, or has expired, shall be surrendered by the holder thereof to his immediate superior.

FEES AND CHARGES

§ 58.37 *Payment of fees and charges.* (a) Fees and charges for any grading service shall be paid by the interested party, making the application for such grading service, in accordance with the applicable provisions of this section and § 58.38 to § 58.48, both inclusive; and, if so required by the grader, inspector, or sampler, such fees and charges shall be paid in advance.

(b) Fees and charges for any grading service performed by any grader, inspector, or sampler who is a salaried employee of the Department, shall, unless otherwise required pursuant to paragraph (c) of this section, be paid by the interested party making application for such grading service by check, draft, or money order payable to the Treasurer of the United States and remitted promptly to the Administration.

(c) Fees and charges for any grading service under a cooperative agreement with any State or person shall be paid in accordance with the terms of such cooperative agreement by the interested party making application for any such grading service.

§ 58.38 *On a fee basis.* (a) Unless otherwise provided herein, the fees to be charged and collected for any service (other than for an appeal grading) performed, in accordance with this part, on a fee basis shall be based on the applicable rates specified in § 58.43 to § 58.46, both inclusive.

(b) In the event the aforesaid applicable rates are deemed by the Administrator to be inadequate fully to reimburse the Administration for all costs and other items paid or incurred by the Administration in connection with such service, the fees for such service shall not be based on the rates specified in § 58.43 to § 58.46, both inclusive, but shall be based on the time required to perform such service and the travel of each grader, inspector, sampler, and supervisor of packaging at the rate of $3.60 per hour for the time actually required.

(c) If an applicant requests that grading service be performed (1) on a holiday, he may be charged a rate double the rate otherwise applicable, and (2) on a non-work day, he may be charged a rate one and one-half times the otherwise applicable rate.

§ 58.39 *Fees for grading samples.* The fee to be charged for the grading of each lot of samples of any product shall be based on the actual time required to perform the service and shall be at the rate of $3.60 per hour, with a minimum charge of $1.80 for each such lot of samples.

§ 58.40 *Fees for appeal grading.* The fees to be charged for any appeal grading shall be double the fees specified in the grading certificate from which the appeal is taken: *Provided*, That the fee for any appeal grading requested by the United States, or any agency or instrumentality thereof, shall be the same as set forth in the grading certificate from which the appeal is taken. If the result of any appeal grading discloses that a material error was made in the grading appealed from, no fee shall be required.

§ 58.41 *Fees for additional copies of grading certificates.* Additional copies of any grading certificates, other than those provided for in § 58.20, may be supplied to any interested party upon payment of a fee of $1.50 for each set of five, or fewer copies.

§ 58.42 *Traveling expenses and other charges.* Charges may be made to cover the cost of traveling and other expenses incurred by the Administration in connection with the performance of any grading service.

§ 58.43 *Butter and cheese grading fees.* For each grading or regrading of any lot of butter, cheddar cheese, or swiss cheese, the following fees, on the basis of the net weight of such lot or the actual number of churnings of butter, vats of cheddar cheese, or wheels of swiss cheese comprising such lot, shall be applicable:

(a) When all the packages in any such lot are not individually identified by churning of butter or vat of cheddar cheese, the following fees shall be effective:

For 500 pounds or less	$1.80
For 501 to 1,500 pounds, inclusive	2.70
For 1,501 to 3,000 pounds, inclusive	3.60
For 3,001 to 6,000 pounds, inclusive	4.50
For 6,001 to 10,000 pounds, inclusive	6.50
For 10,001 to 15,000 pounds, inclusive	8.50
For 15,001 to 20,000 pounds, inclusive	10.50
For each additional 10,000 pounds, or fraction thereof, in excess of 20,000 pounds	2.50

(b) When all the packages in any such lot are individually identified by churning of butter or vat of cheddar cheese, the following fees shall be effective:

For 5 or less churnings or vats (total weight less than 18,000 pounds)	$2.00
For each additional churning or vat in excess of 5, an additional charge of	.30
For any lot of butter or cheddar cheese weighing at least 18,000 pounds, the minimum charge shall be	6.00

(c) When all the wheels of swiss cheese are individually identified by vat of swiss cheese, the following fees shall be effective:

For 5 or less wheels	$2.00
For each additional wheel	.20

§ 58.44 *Milk sampling fees.* (a) For each sampling of any lot of dry milk, the following fees shall be applicable:

For 1,500 pounds or less	$1.75
For 1,501 to 3,000 pounds, inclusive	2.50
For 3,001 to 6,000 pounds, inclusive	3.25
For 6,001 to 10,000 pounds, inclusive	4.00
For each additional 10,000 pounds, or fraction thereof, in excess of 10,000 pounds	2.00

(b) For each lot of evaporated or condensed milk, the following fees shall be applicable:

For 50 packages or less	$1.75
For 51 to 200 packages, inclusive	2.50
For 201 to 400 packages, inclusive	3.25
For 401 to 600 packages, inclusive	4.00
For each additional 500 packages, or fraction thereof, in excess of 600 packages	1.00

§ 58.45 *Fees for laboratory analyses.* For each of the following laboratory analyses, the fee referable thereto shall be applicable except as otherwise provided in paragraph (l) of this section.

(a) *Dry milk.*

§ 58.46 *Additional charges.* With respect to any grading service performed in a freight or express car or any other place where the entire lot of the product is not readily accessible to the grader, inspector or sampler, if the time required for the performance of such service is greater than would otherwise be required if the entire lot were readily accessible, as aforesaid, a fee of $4.00 shall be charged in addition to the applicable rates specified in § 58.43 to § 58.45, both inclusive.

§ 58.47 *On a contract basis.* Fees to be charged and collected for any service, other than for an appeal grading, on a contract basis, shall be such as are provided in such contract. The fees to be charged for any appeal grading shall be as provided in § 58.38 to § 58.45, both inclusive.

§ 58.48 *Fees for grading service performed under cooperative agreement.* The fees to be charged and collected for any service performed under cooperative agreement shall be those provided for by such agreement.

MARKING, BRANDING, AND IDENTIFYING PRODUCT

§ 58.49 *Authority to use official identification.* Whenever the Administrator determines that the granting of authority to any person to package any product, graded pursuant to this part, and to use official identification, pursuant to § 58.49 to § 58.57, both inclusive, will not be inconsistent with the act and this part, he may authorize such use of official identification. Any application for such authority shall be submitted to the Administrator in such form as he may require.

§ 58.50 *Approval of official identification.* Any grade label, inspection mark, or packaging material which is to be used as official identification shall be used only in such manner as the Administrator may prescribe; and such label, inspection mark, and packaging material shall be of such form and contain such information as the Administrator may require. No grade label, inspection mark, or packaging material may be used in the identification of any graded or inspected product unless finished copies or samples of such grade label, inspection mark, and packaging material have been approved by the Administrator.

§ 58.51 *Information required on official identification label.* Each grade or inspection label which is to be used as official identification shall conspicuously indicate the U. S. grade of the product it identifies and appropriate terminology if manufactured or processed under continuous inspection. It shall also include the appropriate phrase: "Officially graded," "Officially inspected," "Federal-State graded," or "Government graded." When required by the Administrator, the grade or inspection label shall also include all or any portion of the information set forth in paragraphs (a) and (b) of this section.

(a) The grade identification label on butter packaging material shall be stamped or perforated with the date of grading and the number of the grading certificate issued on the product.

(b) The grade or inspection label on packaging material for dairy products other than butter shall be stamped or perforated with a code number to indicate lot and date packed.

§ 58.52 *Time limit for packaging graded butter with grade identification labels.* Any lot of butter which is graded pursuant to this part may be packaged only within seven days immediately following the date of grading.

§ 58.53 *Supervisor of packaging required.* The official identification of any graded or inspected product, as provided in § 58.50 to 58.57, both inclusive, shall be done only under the supervision of a grader, inspector, or supervisor of packaging. The authority to use grade or inspection identification labels may be granted by the Administrator only to applicants who utilize the services of a supervisor of packaging in accordance with this part.

PREREQUISITES TO PACKAGING PRODUCTS WITH GRADE IDENTIFICATION LABELS

§ 58.54 *Packing and packaging room and equipment shall be clean and sanitary.* Each applicant who is granted the authority to package any product with a grade identification label and who operates, for such purpose, a printing and packaging room, shall maintain the room and the equipment therein in a clean and sanitary condition and, in addition, in accordance with the instructions of the Administrator.

§ 58.55 *Facilities for incubating butter samples required.* Each applicant granted the authority, as aforesaid, to package graded butter with grade identification labels shall provide and maintain a cabinet of suitable construction, equipped with temperature control, for the purpose of incubating samples of graded butter. Suitable facilities for the purpose of cleaning and sterilizing the equipment used in performing such incubation also shall be provided by such applicant.

§ 58.56 *Incubation of butter samples to determine keeping quality.* Samples of butter may be taken by a grader, pursuant to the instructions of the Administrator, from any lot of butter which is submitted for grading and packaging with grade identification labels, for the purpose of determining, by subsequent examination, whether such butter possesses satisfactory keeping quality, as determined by the grader in accordance with such standards as the Administrator may prescribe.

§ 58.57 *Butter of known unsatisfactory keeping quality shall not be eligible for packaging with grade identification labels.* Any butter produced in a creamery whose production of butter, within 30 days prior to current grading, has shown unsatisfactory keeping quality, as evidenced by the keeping quality test pursuant to § 58.56, shall not be packaged with any grade identification label until it is determined, by the grader, that such butter possesses satisfactory keeping quality.

MISCELLANEOUS

§ 58.58 *Fraud or misrepresentation.* Any wilful misrepresentation or deceptive or fraudulent practice found to be made or committed by any person in connection with:

(a) The making or filing of any application for any grading service, appeal, or regrading service;

(b) The use of any grading certificate, issued pursuant to this part, or the use of any official identification;

(c) The use of the words "Government graded," "Officially graded," "Federal-State graded," or words of similar import in the labeling or advertising of any product without stating in conjunction therewith the official U. S. grade of the product;

(d) The use of any of the aforesaid words or an official identification in the labeling or advertising of any product that has not been graded pursuant to this part;

(e) The use of a facsimile form which simulates in whole or in part any official identification for the purpose of purporting to evidence the U. S. grade of any product; or

(f) Any wilful violation of the regulations or the supplementary rules and instructions issued by the Administrator; may be deemed sufficient cause for debarring such person from any or all benefits of the act after opportunity for hearing has been accorded him, and pending investigation and hearing the Administrator may direct, without hearing, that such person shall be denied the benefits of the act.

§ 58.59 *Fraudulent grade labeling practices.* The Administration will not render grading service for any person found or discovered to be wilfully using in the labeling of any product any words, numerals, letters, or facsimile form which simulates in whole or in part any identification purporting to be a grade when such product does not comply with any recognized standards in general use for such grade, and such activity may be deemed sufficient cause for debarring such person from any or all benefits of the act after opportunity for hearing has been accorded him; and pending investigation and hearing the Administrator may direct, without hearing, that such person shall be denied the benefits of the act.

§ 58.60 *Political activity.* All graders, inspectors, and samplers are forbidden during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, state, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, is prohibited. This applies to all appointees, including, but not being limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 58.61 *Report of violations.* Each grader, inspector, sampler, and supervisor of packaging shall report, in the manner prescribed by the Administrator, all violations and noncompliances under the act and this part of which such grader, inspector, sampler, or supervisor of packaging has knowledge.

§ 58.62 *Interfering with a grader, inspector, or sampler.* Any further benefits of the act may be denied any applicant who either personally or through an agent or representative interferes with or obstructs, by intimidation, threats, assault, or in any other manner, a grader, inspector, or sampler in the performance of his duties.

§ 58.63 *Publications.* Publications under the act and this part shall be made in the FEDERAL REGISTER, the Service and Regulatory Announcements of the Department, and such other media as the Administrator may approve for the purpose.

§ 58.64 *Identification.* Each grader, inspector, sampler, and supervisor of packaging shall have in his possession at all times, and present upon request, while on duty, the means of identification furnished by the Department to such person.

HANDLING OF MILK IN KNOXVILLE, TENN., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 12th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments, hereinafter set forth, to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Knoxville, Tennessee, on January 16-20, 1951, pursuant to notice thereof which was issued December 29, 1950 (15 F. R. 9396). A recommended decision with respect to proposed amendments to certain price and transfer provisions of the order considered at the January 1951 hearing was issued March 28, 1951 (16 F. R. 2852). The findings and conclusions with respect to the issues dealt with herein were specifically deferred pending further study and consideration.

The material issues of record remaining for consideration are concerned with the following:

(1) An extension of the marketing area to include certain surrounding towns and places;

(2) A change in the allocation provisions to provide for the classification of a limited quantity of producer milk as Class II milk before assigning other source milk to Class II utilization.

(3) A revision of the payment provisions of the order to incorporate a base-rating plan; and

(4) The inclusion of standard provisions pertaining to retention of records and termination of obligations.

Findings and conclusions. The following findings and conclusions are based upon the evidence introduced at the hearing and the record thereof:

1. The definition of the marketing area should not be changed.

The definition of the "marketing area" in conjunction with the definitions of "producer" and "handler" determine the milk to be subject to the minimum pricing provisions of the order and the milk distributors who must conform with the various order provisions.

The boundaries of the present marketing area coincide with the corporate limits of the city of Knoxville. Handlers proposed that the marketing area be defined to include in addition to the city of Knoxville, the following towns and places, all in the state of Tennessee: Morristown, Jefferson City, Dandridge, Maryville, Alcoa, Loudon, Harriman, Clinton, the county of Knox, and Oak Ridge Directed Operations.

The record indicates that the 13 handlers now subject to the order dispose of more than 35 percent of their total Class I sales outside the present marketing area. These handlers supply approximately 70 percent of the total fluid milk disposed of to consumers in Knox County, Oak Ridge Directed Operations, Alcoa and Maryville—which include approximately 80 percent of the total population of the additional areas proposed. Knoxville handlers also supply a substantial proportion of the fluid milk sales in the other towns proposed.

Knox County is densely populated; the rate of population growth in Knox County, outside the city of Knoxville, and in nearby towns has exceeded that in the city of Knoxville; and historically the entire area is considered as a natural trading area. Although the health ordinances pertaining to the sanitary requirements for the production and handling of milk in the proposed areas are similar to the ordinance in effect for the city of Knoxville and all of the ordinances are patterned after the United States Public Health Milk Ordinance and Code and bottled milk may be labeled "Grade A" in each area, there appears to be differences in the interpretation and administration of the various ordinances. With the exception of Knoxville, most of the health departments permit the sale of milk in their respective areas if it is qualified to be sold in any of the other areas including Knoxville. All milk received from producers for fluid distribution within the city limits of Knoxville, however, must be produced on farms and processed in plants holding permits issued by the Knoxville Health Department.

The principal reason given by handlers for including the above stated places in the marketing area was that purchases of milk by unregulated distributors who dispose of fluid milk in these areas in competition with Knoxville handlers, were at prices less than those required of Knoxville handlers, and that this gave

unregulated distributors a competitive advantage in the procurement of milk.

This claim is not substantiated by the record. A detailed comparison of prices contained in the hearing record shows that the principal competitors in a substantial portion of the proposed area have actually paid somewhat higher prices than Knoxville handlers for that portion of their receipts devoted to fluid disposition.

Prices paid by distributors in several of the proposed areas are influenced by competition for milk from the Kingsport and Chattanooga markets as well as by the level of prices prevailing in the Knoxville market.

Dairy farmers selling milk to some of the distributors, who would be subject to regulation if the marketing area were extended, opposed an enlargement of the marketing area on the basis of an opinion that their returns would be reduced. No direct testimony was presented by Knoxville producers.

The evidence fails to show that a change in the marketing area to include any or all of the proposed towns or places is necessary to carry out the declared purpose of the act.

2. The allocation provisions of the order should not be changed.

Handlers proposed that a quantity of skim milk and butterfat derived from producer milk, equal to 5 percent of total receipts from producers be classified as Class II milk in each month that an equivalent amount of milk is disposed of in Class II uses, except that during the months of relatively rapid seasonal change in receipts 10 percent should be so classified. Under the present allocation provisions, other source milk is allocated first to Class II utilization and producer milk, less allowable shrinkage, is allocated to Class I utilization to the extent of Class I utilization for the entire month.

Handlers contended that because of variations in receipts, fluid sales and bottled milk returns some producer milk must be devoted to Class II uses in nearly all months of the year. Under the Knoxville health ordinance, Grade A condensed milk and nonfat dry milk solids may be used to supplement producer milk in Class I uses. Handlers also may, and do, maintain day-to-day revolving inventories of fluid milk in their plants. Bottled milk is not required to be dated. For these reasons the day-to-day variations in receipts and sales do not appear to result in a serious allocation problem.

Another objection to the present allocation provisions was directed to the months in which receipts usually change rather sharply from the beginning to the end of the month. During these months a handler may have more than an adequate supply of producer milk for Class I uses during part of the month and receives less producer milk than Class I sales during the other part of the month. The monthly basis of accounting has been found to be more practical than bi-monthly or a shorter accounting period. This, of course, may result in the classification of a quantity of producer milk in Class I utilization which may not have been available for such utilization during a portion of the transition months. Handlers who are able to arrange for sufficient milk from producers to fulfill Class I utilization are not confronted with this problem. The long run intention of the regulation is to promote an adequate supply of local producer milk and the proper allocation of this supply among handlers. The present allocation provisions tends to further this intent by offering some incentive for the proper allocation of the available supplies of milk among handlers and for increasing local supplies through increased returns to local producers.

Another objection to the present method of classification and allocation appeared to be related to the method of classifying inventories rather than to the allocation provisions of the order.

For the above stated reasons, the present allocation provisions should not be changed.

3. A "base and excess" plan of distributing among producers the market returns for milk should be employed in connection with the market-wide pool now provided in the order.

There is considerable seasonal variations in the receipts of milk for the Knoxville market, with receipts in the fall and winter months considerably less than in the spring and summer months. The disposition of fluid milk and other products required to be made from approved milk is relatively uniform from season to season; however, data for the market since the promulgation of Order 88 indicate that fluid disposition has been slightly higher at the same season of the year when receipts have been at relatively low levels. Fall shortages and spring excesses result from this situation. A production pattern of milk more nearly fitted to the sales pattern of fluid milk and other fluid products should be encouraged.

Producers testified that a "base and excess" plan which provides returns to each producer related directly to his ability to deliver milk during the fall and winter seasons will encourage a more level production pattern for the market as a whole. Such a plan was widely discussed with producers before the amendment was proposed and a majority of those responding to a questionnaire survey favored such a plan. Prior to World War II some distributors paid producers on a base plan. The plan was discontinued during the war because at that time receipts of milk from local producers were not sufficient to meet market requirements at any season of the year. With the promulgation of Order 88 in 1949, seasonal pricing for producer deliveries was accomplished through seasonal class prices. Producers testified that seasonal pricing has not reduced the seasonal variation in receipts to the extent desired and the proposed base plan is necessary to encourage more even production at a faster rate.

The plan proposed by producers would establish for each producer a base quantity of milk equal to his average daily deliveries of milk during the six month period of September through February (total deliveries divided by the number of days in this period). During these months all producers would be paid the "pool" or uniform price for all deliveries. For each of the other months separate uniform prices for base milk (that delivered by each producer up to but not in excess of his daily "base" times the number of days he delivers in the month) and excess milk would be computed so that Class I sales would be first allocated to base milk. The suggestion was made on the record that some modification of this plan be made in determining bases for producers who enter the market after September 1 but during the fall shortage months of each year. It was proposed that this be accomplished by dividing deliveries by the number of days the producer delivers milk during the base forming period or 90 days whichever is the greater.

A base plan is designed to apportion the total value of the milk purchased by all handlers among producers on the basis of their marketings of milk during a representative period of time. By the application of the base plan it is intended to provide this market with receipts of milk which is correlated with fluid uses in all seasons of the year. For these purposes the plan to be adopted may logically be designed not only to influence the production patterns of old producers but also to influence the time of the year at which new producers will enter the market.

A large degree of flexibility should be incorporated in the base plan without destroying the desired effectiveness. This may be accomplished in part by limiting the effective period of the bases to a reasonable number of months when receipts are expected to be greatest in relation to fluid sales, the establishment of new bases by each producer each year during the months of lowest production, providing for increasing the excess price during those months when Class I utilization exceeds receipts of base milk and by providing for the payment of the uniform market-wide pool price to all producers during all months except the period when bases are applicable.

The months proposed for establishing bases (September through February) appear to be those which are normally the period of lowest production, and should be used for this purpose (§ 988.60). Payments on the base plan, however, need not be made in all other months in order for the plan to be effective. Restricting payments on the base plan to the months of April through July (§ 988.72) will increase the flexibility of the plan and allow individual producers greater opportunity to make adjustments in their production plans. It appears desirable to exclude the months of March and August from the effective base period. Receipts of milk during March are relatively low in relation to fluid sales and the omission of this month will provide the time needed for calculating and announcing individual producers bases prior to the base effective period. Omission of August will permit new producers to enter the market or old producers to adjust their production programs immediately preceding the fall shortage months without direct influence of the base plan during this month.

Producers who enter the market during the fall and winter months when additional milk is usually needed should be permitted to establish a base on the basis of deliveries during a portion of the base forming period. This may be accomplished without destroying equities among producers by determining such bases on the basis of the number of days in the period a new producer is on the market but in any event not less than 90 days (§ 988.60). The plan proposed herein will also permit new producers entering the market when payments are made on the base plan to share with all other producers any Class I sales in excess of deliveries of base milk. Thus a new producer will immediately share in some Class I sales if milk is needed when he enters the market in these months. Payments on a uniform price in all other months (August through March) will provide ample opportunity for new producers to enter the market to meet prospective needs (§ 988.71).

It is necessary to provide certain rules in connection with the establishment and transfer of bases to provide reasonable administrative workability of the plan (§ 988.61). To accomplish this purpose and to preserve the effectiveness of the base plan, transfers of bases should be limited to entire bases of producers who may retire from farming, in cases of death and of joint production arrangements such as landlord-tenant relationships. Since the base plan is effective in determining producer payments in only four of the twelve months of each year, and all producers must establish a new base each year, provisions in addition to those contained herein for the establishment and transfer of bases or to meet unusual situations are not needed.

In order to incorporate the base plan in the order, additional sections also are needed to define base and excess milk (§§ 988.15 and 988.16) and to provide for the announcement of established bases by the market administrator prior to the months bases are applied (§ 988.62). Several conforming changes are necessary in the order provisions relative to reports by handlers, and the computation and announcement of uniform prices by the market administrator. Conforming changes have been made in the following sections of the attached amended order: §§ 988.30 (a) (1) (i), 988.31 (a), 988.73, 988.80, 988.82, 988.83 and 988.85.

4. The order should provide for a limit on the time records must be retained by handlers and for the termination of obligations under the order.

Handlers proposed that the standard provision heretofore incorporated in other milk marketing orders for the "Retention of Records" and "Termination of Obligations" be incorporated in Order 88.

Handlers must retain records in order to prove the utilization of milk and the payments made to producers. It is necessary that these records be kept for a substantial period of time since some transactions are not completed and audited until several months after the milk has been received from producers. Detailed records of this kind soon reach large physical proportions and become burdensome. The order should provide a definite time period within which handlers must maintain their records and after which they will be relieved of so doing. A period of three years is considered necessary and reasonable. If litigation is in progress, however, it may be necessary to require records to be retained for a longer period and provision should be made for this contingency (§ 988.33).

Without a provision for the termination of obligations handlers may file claims which might extend back over many years and which may be in substantial amounts. This creates uncertainties which would endanger the stability of the market and lead to serious inequities. The order should provide that any obligation to pay a handler shall terminate two years after the month in which the milk was received if an underpayment is claimed, or within two years after payment was made if a refund is claimed, unless within such period of time the handler files a petition pursuant to section 8c (15) (A) of the act, claiming such money (§ 988.89). Handlers also need the protection of provisions terminating their obligations to make payments. Since handlers cannot be forewarned always as to contingent liabilities it is extremely difficult and burdensome for them to make adequate provisions therefor by setting up reserves or by taking other precautionary measures (§ 988.89). The obligation of any handler to pay money should, except under certain extraordinary conditions, such as litigation, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable.

It is concluded that in general a period of two years is a reasonable time within which a market administrator should complete his auditing and inspection work and render any billings for money due under the order. Provisions are necessary also to meet such contingencies as failure of the handler to submit required books and records and to deal with situations where fraud or willful concealment of information may be involved (§ 988.89).

5. General. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, regulates the handling of milk in the same manner and is applicable only to persons in the respective classes of industrial and commercial activity specified in the marketing agreement upon which a hearing has been held; and

(c) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers in the Knoxville market. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this recommended decision.

Recommended marketing agreement and order, as amended. The following order, as amended and reissued, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The entire order is being rewritten and reissued to conform with Revised Regulations of the Division of Federal Register issued October 12, 1948. A proposed marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the recommended order.

AUTHORITY: §§ 988.0 to 988.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c.

§ 988.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the priviously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Knoxville, Tennessee, on January 16–20, 1951, upon a proposed marketing agreement and certain proposed amendments to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, That on and after the effective date hereof the handling of milk in the Knoxville, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 988.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended (7 U. S. C. 601 et seq.).

§ 988.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 988.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 988.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 988.5 *Knoxville, Tennessee, marketing area.* "Knoxville, Tennessee, marketing area" hereinafter called the "marketing area" means all the territory within the corporate limits of the City of Knoxville, Tennessee.

§ 988.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and is authorized by its members to make collective sales or to market milk or its products for the producers thereof.

§ 988.7 *Producer-handler.* "Producer-handler" means any person who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area and who processes milk from his own production, distributing all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

§ 988.8 *Delivery period.* "Delivery period" means a calendar month, or the portion thereof during which this part is in effect.

§ 988.9 *Fluid milk plant.* "Fluid milk plant" means the premises and the portions of the building and facilities, approved by the appropriate health authority in the marketing area, which are used in: (a) The receipt and processing or packaging of producer milk, all, or a portion, of which is disposed of from such plant on wholesale or retail routes within the delivery period as Class I milk in the marketing area, or (b) the receipt and cooling of producer milk for shipment to a plant described in paragraph (a) of this section: *Provided*, That any portion of such building or facilities, used for receiving or processing milk or any milk product, required by the appropriate health authority in the marketing area to be kept physically separate from the receiving and processing or packaging of milk for disposition as Class I milk in the marketing area shall not be included.

§ 988.10 *Producer.* "Producer" means any person, except a producer-handler, who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area, and whose milk conforms to the appropriate health standards for milk for fluid consumption, which milk is: (a) Received at a fluid milk plant, or (b) diverted from a fluid milk plant to any milk distributing or milk manufacturing plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

§ 988.11 *Handler.* "Handler" means (a) any person in his capacity as operator of a fluid milk plant, (b) a producer-handler or (c) any cooperative association of producers with respect to producer milk diverted by if from a fluid milk plant to a nonfluid milk plant for the account of such association.

§ 988.12 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant described in § 988.9.

§ 988.13 *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form from a producer-handler or from a source other than producers or other handlers except any nonfluid milk product received and disposed of in the same form.

§ 988.14 *Producer milk.* "Producer milk" means milk produced by one or more producers.

§ 988.15 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of April through July which is not in excess of such producer's daily average base computed pursuant to § 988.60 multiplied by the number of days such producer delivered milk to such handler in such month: *Provided*, That with respect to any producer on "every-other-day" delivery to a fluid milk plant, the days of nondelivery, intervening days of delivery, shall be considered as days of delivery.

§ 988.16 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of April through July which is in excess of base milk received from such producer during such month, and shall include all milk received during such month from a producer from whom no daily average base can be computed pursuant to § 988.60.

MARKET ADMINISTRATOR

§ 988.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 988.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 988.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 988.87, (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 988.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 988.30 or (2) payments pursuant to § 988.80 and § 988.82;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) Publicly announce and notify each handler in writing the prices and butterfat differentials determined for each delivery period as follows: (1) On or before the 6th day after the end of such delivery period the prices and butterfat differentials for each class computed pursuant to §§ 988.51 and 988.52; and (2) on or before the 10th day after the end of such delivery period, the uniform price(s) computed pursuant to §§ 988.71 and 988.72 and the butterfat differentials to be paid pursuant to § 988.85.

REPORTS, RECORDS, AND FACILITIES

§ 988.30 *Reports of receipts and utilization.* On or before the 6th day after the end of each delivery period each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in (1) all receipts at his fluid milk plant(s) within such delivery period of (i) producer milk and for the months of April through July, the aggregate quantities of base and excess milk, (ii) skim milk and butterfat in any form from other handlers, and (iii) other source milk; and (2) milk diverted pursuant to § 988.10 (b); and

(b) The utilization of all skim milk and butterfat required to be reported under paragraph (a) of this section.

§ 988.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows, except that each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request:

(a) On or before the 20th day after the end of the delivery period, his producer pay roll for such delivery period which shall show: (1) The total pounds of milk received from each producer or cooperative association, including for the delivery periods of April through July the total deliveries of base milk and excess milk by each producer, (2) the number of days deliveries are made and if less than a full calendar month, the date of first and last delivery, (3) the average butterfat content of such milk, and (4) the net amount of such handler's payment to each producer or a cooperative association, together with the prices paid, deductions and charges involved.

(b) On or before the first day other source milk is received, his intention to receive such milk and on or before the last day such milk is received, his intention to discontinue such receipts.

§ 988.32 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products handled; (c) verify payment to producers; and (d) make such examinations of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

§ 988.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 988.40 *Basis of classification.* All skim milk and butterfat contained in (a) receipts at a fluid milk plant(s), within such delivery period, of (1) producer milk, (2) skim milk and butterfat in any form from other handlers, and (3) other source milk, and (b) milk diverted pursuant to § 988.10 (b) shall be classified by the market administrator in the classes set forth in § 988.41.

§ 988.41 *Classes of utilization.* Subject to the conditions set forth in § 988.42 through § 938.45 the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat (1) disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream and any cream product, except ice cream mix and (2) not specifically accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat: (1) Used to produce any item other than those specified in paragraph (a) of this section; (2) in inventory variation; (3) disposed of for livestock feed; (4) in actual plant shrinkage of skim milk and butterfat received in producer milk, but not in excess of 2.5 percent of such receipts of skim milk and butterfat, respectively, and (5) in actual plant shrinkage of skim milk and butterfat, respectively, in other source milk received: *Provided*, That if producer milk and other source milk are both received in a fluid milk plant during the same delivery period the shrinkage of skim milk and butterfat, respectively, allocated to producer milk and other source milk shall be computed pro rata according to the proportions of the volumes of skim milk and butterfat, respectively, received from such sources to their total.

§ 988.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

(b) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 988.43 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a fluid milk plant of another handler (except a producer-handler), unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 6th day after the end of the delivery period within which such transaction occurred, but in no event shall the amount classified in any class exceed the total use in such class by the transferee-handler: *Provided*, That if either or both handlers have received other source milk, such milk so disposed of shall be classified at both plants so as to return the higher class utilization to producer milk.

(b) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, except that of a producer-handler, unless (1) the handler claims Class II on the basis of a utilization mutually indicated in writing to the market administrator by both the operator of the nonfluid milk plant and the handler on or before the 6th day after the end of the delivery period within which such transfer occurred, (2) the operator of the nonfluid milk plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant in the use indicated in such statement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I: *Provided further*, That if such plant disposes of fluid cream to another nonfluid milk plant which conforms with the requirements of subparagraphs (1) (2) and (3) of this paragraph, such cream shall be classified as Class II milk.

§ 988.44 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 988.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for each handler for each delivery period shall be the pounds in such class allocated to producer milk received by such handler:

(1) Subtract the shrinkage of skim milk, computed pursuant to § 988.41 (b) (4) from the total pounds of skim milk in Class II milk;

(2) Subtract from the pounds of skim milk remaining in each class, in series beginning with the lowest price Class II milk, the pounds of skim milk in other source milk;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from other handlers and assigned to such class pursuant to § 988.43 (a);

(4) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; or if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class, in series beginning with Class II.

(b) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

MINIMUM PRICES

§ 988.50 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest tenth of a cent) to be used in determining the price for Class I milk pursuant to § 988.51 shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraph (a), (b), or (c) of this section, or § 988.51 (b).

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the delivery period by the companies listed below:

Company and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.

White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the butterfat differential computed pursuant to § 988.85 by 5.

(b) The price per hundredweight computed as follows:

(1) Multiply by 6 the average daily wholesale price per pound of 92-score butter in the Chicago market as reported by the Department of Agriculture during the delivery period;

(2) Add an amount equal to 2.4 times the arithmetical average of the weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on such Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(3) Divide by 7, add 30 percent thereof, and then multiply by 4.

(c) The price per hundredweight computed as follows: Multiply by 4.0 the arithmetical average of daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, add 20 percent thereof, and add to such sum $3\frac{3}{4}$ cents for each full $\frac{1}{2}$ cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids (not including that specifically designated animal feed), spray and roller process, f. o. b. Chicago area manufacturing plants, as reported by the Department of Agriculture during the delivery period, is above 5 cents: *Provided*, That if such f. o. b. manufacturing plant prices of nonfat dry milk solids are not reported there shall be used for the purpose of such computation the arithmetical average of the carlot prices of nonfat dry milk solids delivered at Chicago, Illinois, as reported by the Department of Agriculture during the delivery period; and in the latter event the "5 cents" shall be increased by 1 cent.

§ 988.51 *Class prices.* Subject to the provisions of § 988.52 each handler shall pay producers, at the time and in the manner set forth in § 988.80 through § 988.86, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk computed pursuant to § 988.45:

(a) *Class I Milk.* The price for Class I milk prior to August 1, 1951, shall be the basic formula price plus $1.30 per hundredweight. Effective August 1, 1951, the price for Class I milk shall be the basic formula price plus $1.50 per hundredweight: *Provided*, That, if during the 12 months prior to the month immediately preceding each delivery period, the total volume of milk received from producers by all handlers was more than 110 percent of the total Class I utilization of all handlers during such 12-month period, the Class I price shall be decreased 2.5 cents per hundredweight for each full percentage point that such percentage is more than 110 percent.

(b) *Class II milk.* The price for Class II milk shall be the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the delivery period by the companies indicated below:

Company and Location
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Bowling Green, Ky.
Pet Milk Co., Greenville, Tenn.
Pet Milk Co., Abingdon, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N. C.
Carnation Co., Galax, Va.
Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S. C.

§ 988.52 *Butterfat differential to handlers.* If the weighted average butterfat test of that portion of producer milk which is classified, respectively, in any class of utilization for a handler, pursuant to § 988.45, is more or less than 4.0 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of 1 percent that such weighted average butterfat test is above or below, respectively, 4.0 percent, a butterfat differential (computed to the nearest 10th of a cent), calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply by 1.3 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.15 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10.

DETERMINATION OF BASE

§ 988.60 *Computation of daily average base for each producer.* For the months of April through July of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 988.61.

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through February immediately preceding by the number of days from the first day of delivery by such producer during such months to the last day of February, inclusive, but not less than 90 days.

§ 988.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer, the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

§ 988.62 *Announcement of established bases.* On or before April 1, of each year, the market administrator shall notify each producer and the handler receiving milk from such producer the daily base established by such producer.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 988.70 *Computation of value of milk.* The value of producer milk received during each delivery period by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class for the delivery period by the applicable class price adjusted by the butterfat differential to handlers specified in § 988.52 and adding together the resulting amounts: *Provided*, That if a handler, after subtracting receipts of other source milk and receipts from other handlers, has disposed of skim milk or butterfat in excess of the skim milk or butterfat which has been credited to producers as having been received from them, there shall be added any plus amount computed by multiplying the pounds in each class as subtracted pursuant to paragraphs (a) (4) and (b) of § 988.45 by the applicable class price adjusted by the butterfat differentials to handlers specified in § 988.52.

§ 988.71 *Computation of uniform price.* For the delivery periods of August through March the market administrator shall compute the uniform price per hundredweight for producer milk, on the basis of 4.0 percent butterfat content, as follows:

(a) Combine into one total the value computed pursuant to § 988.70 for all handlers who made the reports prescribed by § 988.30 for such delivery period, except those in default of payments required pursuant to § 988.82 for the preceding delivery period;

(b) Subtract if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85, and multiply the result by the total hundredweight of such milk;

(c) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(d) Divide the resulting amount by the total hundredweight of producer milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against delinquencies in payments by handlers. This result shall be known as the "uniform price" per hundredweight for such delivery period for producer milk containing 4.0 percent butterfat, f. o. b. fluid milk plant.

§ 988.72 *Computation of uniform prices for base milk and excess milk.* For each of the delivery periods of April through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, as follows:

(a) Combine into one total the value computed pursuant to § 988.70 for all handlers who made the reports prescribed by § 988.30 for such delivery period, except those in default of payment required pursuant to § 933.82 for the preceding delivery period;

(b) Subtract if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85, and multiply the result by the total hundredweight of such milk;

(c) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(d) Compute the value on a 4.0 percent butterfat basis of the aggregate

quantity of excess milk for all handlers included in the computation pursuant to paragraph (a) of this section by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in such computation by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(e) Divide the total value of excess milk obtained in paragraph (d) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers.

(f) Subtract the value of excess milk determined by applying the uniform price obtained in paragraph (e) of this section from the value of all milk obtained in paragraph (c) of this section;

(g) Divide the amount obtained in paragraph (f) of this section by the total hundredweight of base milk included in these computations;

(h) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (g) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

§ 988.73 *Notification of handlers.* On or before the 10th day after the end of each delivery period, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of April through July the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 988.71 and 988.72 and the butterfat differential computed pursuant to § 988.85; and

(d) The amounts to be paid by such handler pursuant to §§ 988.82, 988.87 and and 988.88.

PAYMENTS

§ 988.80 *Time and method of payment for producer milk.* (a) On or before the last day of each delivery period each handler shall make payment to each producer for milk received from him during the first 15 days of such delivery period at not less than the Class II price per hundredweight for the preceding delivery period: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association on or before the 2d day before the end of each delivery period an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(b) On or before the 15th day after the end of each delivery period each handler shall make payment to each producer for milk which was received from him during the delivery period at not less than the uniform price computed pursuant to § 988.71, if such delivery period is any of the months of August through March, or at not less than the uniform price for base milk computed pursuant to § 988.72 with respect to base milk received from such producer and at not less than the uniform price for excess milk computed pursuant to § 988.72 with respect to excess milk received from such producer, if such delivery period is any of the months of April through July, subject to the following adjustments: (1) The butterfat differential pursuant to § 988.85, (2) less payment made pursuant to paragraph (a) of this section, (3) less marketing service deductions pursuant to § 988.88, (4) less deductions authorized in writing by the producer, and (5) adjusted for any error in calculating payment to such individual producer for past delivery periods: *Provided*, That if such handler has not received full payment for such delivery period pursuant to § 988.83 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *Provided further*, That the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator: *And provided further*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association, on or before the 13th day after the end of each delivery period, an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

§ 988.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 988.82 and 988.84, and out of which he shall make all payments pursuant to §§ 988.83 and 988.84: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 988.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator any amount by which the total value of his milk computed pursuant to § 988.70 for such delivery period is greater than the value of milk received by such handler from producers during the delivery period, computed at the applicable minimum uniform prices as specified in § 988.71 and § 988.72 adjusted for the butterfat differential provided for in § 988.85.

§ 988.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, or a cooperative association, any amount by which the total value of his milk computed pursuant to § 988.70 for such delivery period is less than the value of milk received by such handler from producers during the delivery period, computed at the applicable minimum uniform prices as specified in §§ 988.71 and 988.72 adjusted for the butterfat differential provided for in § 988.85. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the necessary funds are available.

§ 988.84 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler dicloses errors made in payments to the producer-settlement fund pursuant to § 988.82, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 988.83, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 988.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 988.85 *Butterfat differential to producers.* If, during the delivery period, any handler has received, from any producer or cooperative association, milk having an average butterfat content other than 4.0 percent, such handler, in making payments prescribed in § 988.80 (b), shall add to the uniform price(s) per hundredweight paid to such producer or cooperative association for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or may deduct from the uniform price(s) per hundredweight for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply by 1.2 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10, and then adjust to the nearest one-tenth of a cent.

§ 988.86 *Statement to producers.* In making payments required by § 988.80 each handler shall furnish each producer or cooperative association with a supporting statement in such form that it

may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer including for the months of April through July, the pounds of base milk and excess milk;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 988.80 and 988.85;

(d) The rate which is used in making the payment if such rate is other than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler including any deduction made pursuant to § 988.88, together with a description of the respective deductions; and

(f) The net amount of payment to the producer or cooperative association.

§ 988.87 *Expense of administration.* as his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to receipts; during the delivery period, of (a) milk from producers (including such handler's own production), and (b) other source milk received at a fluid milk plant: *Provided*, That each cooperative association shall pay such pro rata expense on only that milk of producers for which it is a handler.

§ 988.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers pursuant to § 988.80 (b), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers, excepting such handler's own farm production, during the delivery period, and shall pay such deductions to the market administrator not later than the 15th day after the end of the delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the delivery period and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each delivery period, pay over such deductions to the association rendering such services.

§ 988.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before December 1, 1951, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order, shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 988.90 *Producer-handlers.* Sections 988.40 through 988.45, 988.50 through 988.52, 988.60 through 988.62, 988.70 through 988.73, 988.80 through 988.88 shall not apply to a producer-handler.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 988.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 988.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 988.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 988.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating

and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 988.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 988.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 31st day of May 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

PRODUCTS OF FRENCH INDOCHINA

MARKING OF COUNTRY OF ORIGIN

MAY 31, 1951.

The area formerly referred to as French Indochina now comprises three States, namely, the "State of Vietnam," the "Kingdom of Cambodia," and the "Kingdom of Laos."

Acceptable markings to indicate the respective country of origin under the marking provisions of the Tariff Act of 1930, as amended, for articles manufactured or produced in one of these areas are as follows:

State of Vietnam; Vietnam; or Vietnam, Indochina.

Kingdom of Cambodia; Cambodia; or Cambodia, Indochina.

Kingdom of Laos; Laos; or Laos, Indochina.

However, marking with the words French Indochina may be accepted to indicate the country of origin of articles manufactured or produced in any of these areas and which arrive in the United States before the expiration of 90 days after the publication of this decision in the weekly Treasury decisions.

T. D. 47522 (7) and the entry for the area in question in item 3 of Bulletin of Marking Rulings—3 are hereby superseded.

1⅞ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES A-1952

OFFERING OF CERTIFICATES

JUNE 4, 1951.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for certificates of indebtedness of the United States, designated 1⅞ percent Treasury Certificates of Indebtedness of Series A-1952, in payment of which any of the following listed Treasury securities, singly or in combinations aggregating $1,000 or multiples thereof, may be tendered:

Treasury bonds:
2¾ percent bonds of 1951-54, dated June 15, 1936, due June 15, 1954, called for redemption June 15, 1951.

Treasury notes:
1¼ percent notes, Series B-1951, dated March 1, 1950, maturing July 1, 1951.
1¼ percent notes, Series C-1951, dated April 1, 1950, maturing July 1, 1951.
1¼ percent notes, Series D-1951, dated June 1, 1950, maturing July 1, 1951.

II. *Description of certificates.* 1. The certificates will be dated June 15, 1951, and will bear interest from that date at the rate of 1⅞ percent per annum, payable with the principal at maturity on April 1, 1952. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all taxes, now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before June 15, 1951, or on later allotment, and may be made only in Treasury Bonds of 1951-54, called for redemption June 15, 1951, or in Treasury Notes of Series B-1951, Series C-1951 or Series D-1951, all maturing July 1, 1951, which will be accepted at par, and should accompany the subscription. Final interest due June 15 on the called bonds surrendered will be paid, in the case of coupon bonds, by payment of the June 15, 1951 coupons, which should be detached by holders before presentation of the bonds, and in the case of registered bonds, by checks drawn in accordance with the assignments on the bonds surrendered. Treasury Notes of Series B-1951 and Series C-1951 should be surrendered with the July 1, 1951 coupons attached, and accrued interest from January 1, 1951 to June 15, 1951 ($5.69751 per $1,000) will be paid following acceptance of the notes, but not before June 15, 1951. In the case of Treasury Notes of Series D-1951, on which interest is payable with principal, accrued interest from June 1, 1950 to June 15, 1951 ($12.97945 per $1,000) will be paid following acceptance of the notes, but not before June 15, 1951.

V. *Assignment of registered bonds.* 1. Treasury Bonds of 1951-54 in registered form tendered in payment for certificates offered hereunder should be assigned by the registered payees or assignees thereof to "The Secretary of the Treasury for exchange for Treasury Certificates of Indebtedness of Series A-1952 to be delivered to ----------," in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Treasury Department, Division of Loans and Currency, Washington, D. C. The bonds must be delivered at the expense and risk of the holders.

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

Office of International Trade

[Case No. 101]

DAVID ZETLAND CORP. ET AL.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of David Zetland Corporation, David Zetland, 46 Cedar Street, New York, New York; Cordova Export Corporation, William N. Borkan, 1841 Broadway, New York 23, New York; Lloyds Trading Company, H. G. Lloyds, Leon Barsamian, Shell Building, 60 Rue Ravenstein, Brussels, Belgium; respondents, Case No. 101.

This proceeding was begun by the issuance of a charging letter dated October 27, 1950, wherein the Office of International Trade, Department of Commerce, charged respondents with having violated the provisions of the Export Control Act of 1949 (63 Stat. 7) and the regulations promulgated thereunder.

It was alleged in said charging letter that the respondents David Zetland and David Zetland Corporation knowingly caused false representations to be made in three applications for export licenses filed on behalf of said respondents for the exporation of steel roller bearings; that the respondents Lloyds Trading Company H. G. Lloyds, and Leon Barsamian, with wilfull intent, falsely represented, or caused to be represented, in one of said applications that Lloyds Trading Company was the purchaser and ultimate consignee and Belgium the country of ultimate destination of the roller bearings covered by said application; and that upon the issuance of an export license to the respondent Cordova Export Corporation, as licensee, pursuant to the last mentioned application, and a shipment thereunder of 82 roller bearings to Belgium, the respondents caused said 82 roller bearings to be transshipped from Belgium to Switzerland.

The eligibility of the respondents David Zetland and David Zetland Corporation as parties to any validated export licenses or any exportations thereunder was, by the terms of the charging letter, suspended during the pendency of this proceeding.

Upon delivery of the above mentioned charging letter to respondents Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian, in Brussels, Belgium, said respondents filed an answer denying the charges but did not request an oral hearing. The respondents David Zetland, David Zetland Corporation, Cordova Export Corporation, and William N. Borkan requested an oral hearing on the charges without filing a written answer and such hearing was held, at which time the said respondents personally appeared, being represented by counsel, and oral and documentary evidence was presented to the Compliance Commissioner. Evidence in the possession of the Office of International Trade relating to the charges against the respondents Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian was also presented at the hearing. All such evidence, together with the answer filed by the last named respondents, was carefully considered by the Compliance Commissioner who has filed his report thereon dated May 4, 1951, with the Assistant Director for Export Supply, Office of International Trade.

It appears from the record and the Compliance Commissioner's report that the respondent David Zetland Corporation is entirely owned and controlled by the respondent David Zetland and that at all times relative to this proceeding said respondents have been engaged in the United States in the conduct of a general import and export business; that on October 28, 1949, the firm of Gebruder Grob in Zurich, Switzerland, placed an order with said respondents for 656 steel roller bearings, which order Gebruder Grob amended on November 4, 1949, by eliminating certain types of bearings and reducing the total quantity to 541; that, at approximately the same time, the said respondents received another order for a total of 834 ball and roller bearings from the firm of Julius Marks in Zurich, Switzerland; that in an effort to secure the bearings for which it had received orders, said respondents entered into a written agreement with the respondent William N. Borkan who had certain connections with S. K. F. Industries, a firm manufacturing bearings, whereby William N. Borkan agreed to act as intermediary for respondents David Zetland and David Zetland Corporation with S. K. F. Industries in the procurement of approximately $100,000 worth of bearings, in consideration for which service the said William N. Borkan would receive a commission of 5 percent of the total value of the order; that thereafter, on November 22, 1949, an application for an export license was filed by S. K. F. Industries covering 812 roller bearings, of a total value of $109,227.30, for shipment to Gebruder Grob, as purchaser and ultimate consignee, in Zurich, Switzerland, which application contained the notation that David Zetland Corporation was placing such order on behalf of Gebruder Grob and that it was based on a verbal order from William N. Borkan; that the 812 bearings covered by this application included all of those in both the original and revised orders from Gebruder Grob, as well as 156 of the bearings which had been ordered by the firm of Julius Marks; that while the above application was still pending in the Office of International Trade, a second application for an export license was filed on January 11, 1950, by S. K. F. Industries covering the shipment of 82 roller bearings to Danzas and Company, as purchaser and ultimate consignee, in Zurich, Switzerland, which application contained the notation that Electa Trading, Inc., New York City, was placing such order on behalf of Danzas and Company and that it was based on a verbal order from William N. Borkan; that the 82 bearings covered by the second application were a portion of those in the revised order from Gebruder Grob of November 4, 1950, to respondents David Zetland and David Zetland Corporation and were previously included in the first license application; that Electra Trading, Inc., referred to in the sec-

ond application, was the name of a business partnership under which the respondent David Zetland and another individual were operating at the time this application was filed; that at no time did either Electra Trading, Inc., or respondent David Zetland hold an order from Danzas and Company for the 82 bearings covered by said application.

It also appears from the record and the Compliance Commissioner's report that before action was taken by the Office of International Trade on either of the first two applications, the respondent David Zetland communicated by telephone with respondent Leon Barsamian, one of the co-owners of Lloyds Trading Company, a company engaged in the conduct of a general import and export business in Belgium, and as a result of such telephone communication it was agreed that an order for 82 steel roller bearings would be sent by Lloyds Trading Company to Cordova Export Corporation and that Lloyds Trading Company would be designated as the purchaser and ultimate consignee, and Belgium as the country of ultimate destination of said bearings on an application for an export license to be filed by Cordova Export Corporation; that, thereafter, the respondent David Zetland advised William N. Borkan that he had arranged a sale of the bearings to Lloyds Trading Company in Belgium and that Lloyds Trading Company would send Cordova Export Corporation, of which William N. Borkan was the secretary-treasurer, an order for the bearings; that on January 27, 1950, a third application for the bearings was filed, at the direction of respondent David Zetland, said application being signed by respondent William N. Borkan as treasurer of Cordova Export Corporation and naming Cordova Export Corporation as the applicant, Lloyds Trading Company as the purchaser and ultimate consignee, and Belgium as the country of ultimate destination; in accordance with the representations communicated to said Cordova Export Corporation and William N. Borkan by the respondents David Zetland, Lloyds Trading Company and Leon Barsamian; that in accordance with the telephone agreement between respondents David Zetland and Leon Barsamian, and a letter from David Zetland to Leon Barsamian in which formal request was made for the order for 82 bearings to Cordova Export Corporation, such order was sent to Cordova Export Corporation by respondent Lloyds Trading Company; that said order for 82 bearings was sent, and agreement to be designated as purchaser and ultimate consignee of said bearings on a license application to be filed by Cordova Export Corporation made by respondents Lloyds Trading Company and Leon Barsamian without any intention on the part of said respondents either to abide by and fulfill the terms and provisions of said order or to be in fact the purchaser or ultimate consignee of the said bearings, but were done solely at the request of respondent David Zetland and for the purpose of providing Cordova Export Corporation with necessary support for its license application; that, in reliance on the representations of respondents Lloyds Trading Company, Leon Barsamian, and David Zetland contained in the above application for an export license, the Office of International Trade issued a validated export license to Cordova Export Corporation, as licensee, authorizing shipment of the said bearings to Lloyds Trading Company, as the purchaser and ultimate consignee, and Belgium as the country of ultimate destination; that thereafter, on or about February 17, 1950, the respondent Cordova Export Corporation shipped from Philadelphia under the above license 82 steel roller bearings, of a total value of $12,376, to Lloyds Trading Company in Belgium; that a shipper's export declaration covering said shipment declared Lloyds Trading Company to be the ultimate consignee and Antwerp, Belgium, to be the place and country of ultimate destination; that such declarations on the shipper's export declaration were certified true and correct by William N. Borkan, as treasurer and duly authorized officer of the exporter, Cordova Export Corporation; that a letter from the supplier, S. K. F. Industries, to Cordova Export Corporation, relative to this transaction, directed that documents in connection with the said shipment were to be sent to respondent David Zetland.

It further appears from the record and the Compliance Commissioner's report that respondent David Zetland preceded the bearings to Belgium, arriving there on or about February 12, 1950; that on or about February 14, 1950, the respondent David Zetland proceeded from Belgium to Switzerland and there conferred with the firm of Gebruder Grob regarding the purchase of the bearings; that thereafter, on February 22, 1950, the respondent David Zetland, together with the respondents Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian, arranged for a transshipment of the bearings, upon their arrival in Belgium, from that country to Switzerland pursuant to instructions given the respondent David Zetland by the firm of Gebruder Grob; that subsequently, upon the arrival of the 82 bearings at Antwerp, Belgium, the said 82 bearings were in fact transshipped from Belgium to Switzerland in accordance with the arrangements previously made for such transshipment by the respondents David Zetland, Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian; that on April 12, 1950, the respondents David Zetland and David Zetland Corporation received $14,250 from the firm of Gebruder Grob in Switzerland in payment for the 82 bearings which had been transshipped from Belgium to that firm; that by letter dated April 19, 1950, the firm of Gebruder Grob advised the respondents David Zetland and David Zetland Corporation that the 82 bearings which it had received transshipped from Belgium formed a part of Gebruder Grob's original order to said respondents of November 1949; that upon consummation of the transshipment of the bearings from Belgium to Switzerland and payment therefor to respondents David Zetland and David Zetland Corporation, said respondents sent $247.87 to the respondent Lloyds Trading Company, such amount representing a 2 percent commission to the respondent Lloyds Trading Company for its part in the transaction.

It further appears from the record and the Compliance Commissioner's report that the respondents David Zetland and David Zetland Corporation made, or caused to be made, false representations to the Office of International Trade on the three applications filed on behalf of said respondents: that on the first application, said respondents represented that they held an order from the firm of Gebruder Grob for 812 bearings when in fact 156 of these bearings had been ordered by the firm of Julius Marks and not by Gebruder Grob and 115 more, although originally ordered by Gebruder Grob, had been cancelled by that firm prior to the filing of the said application; that on the second application, said respondents represented that they held an order for 82 bearings from the firm of Danzas and Company when in fact they held no order whatsoever from that firm; that on the third application, said respondents represented that Lloyds Trading Company was the purchaser and ultimate consignee, and Belgium the country of ultimate destination of the bearings when none of this was in fact true, such representations being made merely for the purpose of inducing the Office of International Trade to take favorable action on the application and thereby provide respondents David Zetland and David Zetland Corporation with the means for effecting a shipment and subsequent transshipment of the bearings from Belgium to Switzerland in order to fill a portion of Gebruder Grob's order; that all of such false representations made or caused to be made by the respondents David Zetland Corporation and David Zetland, in the three applications for export licenses referred to above, were made with knowledge and intent on the part of said respondents for the purpose of inducing the Office of International Trade to take favorable action on said applications; that upon the shipment of the 82 bearings to Belgium by the respondent Cordova Export Corporation under the export license issued to it by the Office of International Trade, the respondents David Zetland and David Zetland Corporation effected the transshipment of said 82 bearings from Belgium to Switzerland; that respondents David Zetland and David Zetland Corporation, by wilfully making or causing to be made the above mentioned misrepresentations in the three applications for export licenses filed on behalf of said respondents, and by effecting the subsequent transshipment of the 82 bearings from Belgium to Switzerland, did, in each instance, thereby violate the laws and regulations relating to export control.

It further appears from the record and the Compliance Commissioner's report that respondents Lloyds Trading Company and Leon Barsamian, by the agreement of said respondents to send an order from Lloyds Trading Company for 82 steel roller bearings to Cordova Export Corporation and to be designated as purchaser and ultimate consignee of said bearings on an application for an export license to be submitted to the Office of International Trade by Cordova Export Corporation for the shipment of said 82 bearings, falsely represented such order as bona fide and such designation as purchaser and ultimate consignee to be a fact; that said respondents Lloyds Trading Company and Leon Barsamian had no intention at any time of abiding by the terms and provisions of the said order to Cordova Export Corporation or of being in fact the purchaser and ultimate consignee of the 82 steel roller bearings but made such misrepresentations solely for the purpose of providing Cordova Export Corporation with the necessary support for its license application; that by the incorporation of said false representations in the application for an export license filed by respondent Cordova Export Corporation, the respondents Lloyds Trading Company and Leon Barsamian thereby made such false representations to the Office of International Trade; that upon shipment of the 82 steel roller bearings by Cordova Export Corporation to Lloyds Trading Company in Belgium, under the export license issued to the said Cordova Export Corporation pursuant to its application referred to above, the respondents Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian assisted in effecting the transshipment of said 82 roller bearings from Belgium to Switzerland; that respondents Lloyds Trading Company, H. G. Lloyds, and Leon Barsamian, by making or causing to be made, the aforesaid misrepresentations to the Office of International Trade in the application for an export license filed by Cordova Export Corporation, and by assisting in effecting the subsequent transshipment of the 82 steel roller bearings from Belgium to Switzerland, did, in each instance, thereby violate the laws and regulations relating to export control.

It further appears from the record and the Compliance Commissioner's report that respondent Cordova Export Corporation, as licensee on the export license issued by the Office of International Trade pursuant to the application of said respondent on January 27, 1950, and respondent William N. Borkan, as secretary-treasurer of Cordova Export Corporation and duly authorized officer of said corporation in its capacity as exporter under the license, failed to take necessary precautions to see that the 82 bearings authorized for shipment by the license were actually exported in accordance with the specific authorization of said license, said respondents thereby violating the laws and regulations relating to export control.

The Compliance Commissioner has therefore recommended that all outstanding export licenses in which respondents or any of them appear as a party in any capacity, whether as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise, be forthwith revoked and ordered returned to the Office of International Trade for cancellation; that respondents David Zetland Corporation and David Zetland be denied for a period of one year, such period to run from March 1, 1951, respondents Lloyds Trading Company, H. G. Lloyds and Leon Barsamian be denied for a period of nine months, and respondents Cordova Export Corporation and William N. Borkan be denied for a period of 30 days, the privilege of obtaining or using, or participating directly or indirectly, either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party in the obtaining or using of export licenses, including general licenses as well as validated licenses, for shipment from the United States to any destination of any commodity; that said respondents and each of them be declared ineligible to be a party to any exportation from the United States for the periods specified as to each above, and that during such periods, as they apply to the respective respondents, the Office of International Trade issue no export licenses and collectors of customs authenticate no shipper's export declarations, and no exportations be made or permitted, in which said respondents appear or participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity to the exportation of any commodity; and that such denial of export license and forwarding privileges extend, for the periods specified as to each respondent, not only to the said respondents, but also, for like periods, to any person, trade name, firm, corporation, or other business organization with which such respondents or any of them may be now or hereafter related by ownership or control or with which they are any of them may hold a position of responsibility involving the preparation, filing, procurement, or use of any export control documents or the supervision of any persons so engaged.

The report of the Compliance Commissioner has been carefully considered, together with the record in this case, and it appears that the findings of the Compliance Commissioner are supported by the record and that his recommendations are fair and reasonable and should be adopted, except in respect of his recommendations concerning respondents David Zetland Corporation and David Zetland. The Assistant Director for Export Supply has concluded from his study of the record and report of the Compliance Commissioner that respondents David Zetland and David Zetland Corporation have so flagrantly demonstrated by their various actions herein a disregard for the export control law and regulations where they appeared to affect their ability to complete what was, in their view, a desirable export transaction, as to require the imposition of a suspension of all export privileges for the duration of export controls. While the Assistant Director for Export Supply has concluded that this course is necessary in order to safeguard the purposes of export controls, it is his view that respondents David Zetland and David Zetland Corporation may appropriately be afforded the privilege of applying to the Office of International Trade for a modification of such suspension after the expiration of one year from the date of this order. In view of the extent of the suspension of respondents David Zetland and David Zetland Corporation, as determined herein, and because of the temporary suspension heretofore issued and now outstanding against them, it is unnecessary to have such suspension commence as of March 1, 1951.

Now, therefore, It is ordered as follows:

(1) All outstanding export licenses in which respondents or any of them appear as a party in any capacity, whether as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise, are hereby revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondents David Zetland Corporation and David Zetland are hereby denied for the duration of export controls, respondents Lloyds Trading Company, H. G. Lloyds and Leon Barsamian are hereby denied for a period of nine months, and respondents Cordova Export Corporation and William N. Borkan are hereby denied for a period of 30 days, all commencing as of the date of this order, the privilege of obtaining or using, or participating directly or indirectly, either as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity as a party in the obtaining or using of export licenses, including general licenses as well as validated licenses, for shipment from the United States to any destination of any commodity.

(3) Respondents David Zetland Corporation, David Zetland, Lloyds Trading Company, H. G. Lloyds, Leon Barsamian, Cordova Export Corporation and William N. Borkan, and each of them, are hereby further declared ineligible to be a party to any exportation from the United States for the periods specified as to each above, and during such periods the Office of International Trade shall issue no export licenses and collectors of customs shall authenticate no shipper's export declarations, and no exportations shall be made or permitted in which said respondents appear or participate as licensee, consignor, forwarder, intermediate consignee, ultimate consignee, or otherwise in any capacity to the exportation of any commodity.

(4) Such revocation and denial of export license and forwarding privileges shall extend, for the periods specified as to each respondent, not only to the said respondents, but also, for like periods, to any person, trade name, firm, corporation, or other business organization with which such respondents or any of them may be now or hereafter related by ownership or control or with which they or any of them may hold a position of responsibility involving the preparation, filing, procurement or use of any export control documents or the supervision of any persons so engaged.

(5) Respondents David Zetland and David Zetland Corporation are hereby accorded the privilege of applying to the Office of International Trade for modification of this order after the expiration of one year from the date of this order.

Dated: May 28, 1951.

JOHN C. BORTON,
Assistant Director for Export Supply.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

ELECTRIC BOND AND SHARE CO.

ORDER CONTAINING RECITALS IN ACCORDANCE WITH SUPPLEMENT R OF INTERNAL REVENUE CODE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of May, A. D., 1951.

Electric Bond and Share Company ("Bond and Share"), a registered holding company, being the owner of

137,417 shares of the common stock of Florida Power & Light Company ("Florida"), and Bond and Share being under commitment to dispose of said shares, having notified the Commission pursuant to Rule U-44 (c) of the rules and regulations promulgated under the Public Utility Holding Company Act of 1935, of its intention to dispose of 115,508 shares of its holdings of the common stock of Florida through a dividend on the common stock of Bond and Share payable June 30, 1951, to stockholders of record as of May 31, 1951, in shares of the common stock of Florida at the rate of 2.2 shares of the Florida stock for each 100 shares of Bond and Share common stock; and

Said notice also setting forth that fractional shares of the Florida stock will not be delivered but that in lieu thereof Bond and Share will instruct its dividend agent to sell for the account of stockholders the number of shares of Florida stock that would otherwise be delivered as fractional shares and to pay the proceeds from such sale to stockholders of Bond and Share entitled thereto; and Bond and Share having also made arrangements with its dividend agent to facilitate the sale on behalf of stockholders of Bond and Share of small lots of the Florida stock (less than 5 shares) to which such Bond and Share stockholders would be entitled, and to pay the proceeds from such sale to the stockholders entitled thereto; and

Bond and Share having requested that the Commission issue an order containing findings and recitations in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including Section 1808 (f) and Supplement R thereof; and

The Commission having notified Bond and Share pursuant to said Rule U-44 (c) that no declaration need be filed with respect to the proposed transactions.

It is ordered and recited, That the payment by Electric Bond and Share Company as a dividend to its stockholders of 115,508 shares of common stock of Florida Power & Light Company is necessary or appropriate to the integration or simplification of the holding company system of which Electric Bond and Share Company is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and in accordance with the meaning and requirements of the Internal Revenue Code and section 1808 (f) and Supplement R thereof.

By the Commission.

PHILADELPHIA CO. AND EQUITABLE REAL ESTATE CO.

NOTICE OF FILING OF PLAN FOR LIQUIDATION AND DISSOLUTION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 25th day of May 1951.

Notice is hereby given that a joint application has been filed with this Commission relating to a plan for the liquidation and dissolution of Equitable Real Estate Company ("Real Estate"), a nonutility company, by Real Estate and its parent, Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both registered holding companies. Applicants have designated section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 21, 1951, at 5:30 p. m., request the Commission in writing that a hearing be held on such plan, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by the plan which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter the Commission may find that the plan, as filed or as amended, is fair and equitable to the persons affected thereby and necessary to effectuate the provisions of section 11 (b) of the act, and may enter an order approving the plan.

All interested persons are referred to the plan, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Real Estate, a Pennsylvania Corporation, owns and operates a nine-story office building in downtown Pittsburgh, Pennsylvania, commonly known as the Central Office building of the Philadelphia system, which is occupied by Philadelphia and its subsidiaries, by companies formerly gas subsidiaries of Philadelphia, and by Philadelphia's parent, Standard Gas and Electric Company. Real Estate also owns a garage, a parking lot, a frame house and a lot in Pittsburgh, the garage being leased to Equitable Auto Company and Pittsburgh Railways Company, both affiliated companies, and the other properties being leased to non-affiliated interests.

The outstanding securities of Real Estate consist of 20,000 shares of capital stock, par value $50 per share, six noninterest bearing promissory notes in the aggregate unpaid principal amount of $635,000, and a 4 percent mortgage bond, having a remaining unpaid principal amount of $813,680.54 at March 31, 1951, payable in semi-annual installments until November 1957. Philadelphia is the beneficial owner of all of the outstanding shares of capital stock and is also the payee and owner of the six unpaid promissory notes, such notes having matured during the period December 1, 1937, to December 1, 1941, inclusive. The 4 percent mortgage bond, which is secured by a first mortgage on the Central Office building property, is held by Mellon National Bank and Trust Company, Pittsburgh, Pennsylvania.

Real Estate's assets, which consist of cash, marketable securities, receivables and real property, had a value per books at March 31, 1951, of $3,364,076.39 of which $3,258,341.91 represented real property, both figures reflecting the deduction of the applicable property depreciation reserve in the amount of $1,144,296.24. Included in the net amount shown for real property is a net value per books of $2,678,837.30 for the Central Office building property, of which $458,135.13 represents excess cost paid by Real Estate, over the cost of acquisition to the first system company acquiring the property, at the time Real Estate acquired a portion of the property from such company, and of which $503,113.72 represents the remaining balance of an upward revaluation of the property made by Real Estate based upon an appraisal made in 1927. Real Estate's liabilities, other than the outstanding capital stock and notes held by Philadelphia, consist of the publicly held 4 percent mortgage bond in the amount of $813,680.54 and current liabilities of $173,787.67.

The plan proposes that Real Estate will wind up and settle its affairs and dissolve pursuant to the voluntary dissolution provisions of the Pennsylvania Business Corporation Law. In accordance with the provisions of that statute, the plan provides (a) for the assumption by Philadelphia of all of the debts, obligations and liabilities of Real Estate, including Real Estate's obligations under its 4 percent mortgage bond and the release and discharge of Real Estate from all its debts, obligations and liabilities, (b) the transfer, conveyance and distribution in kind to Philadelphia of all of Real Estate's property and assets, subject to all liens and encumbrances on such property and assets, in complete cancellation and redemption of all the outstanding shares of capital stock of Real Estate and (c) the dissolution of Real Estate and the termination of its corporate existence. The plan also provides that the liquidation of Real Estate and the distribution of its assets shall be completed in such manner as to comply with the provisions of section 112 (b) 6) of the Internal Revenue Code.

Applicants state that the property and assets received by Philadelphia from Real Estate will be recorded on the books of Philadelphia at the cost of acquisition thereof to the first company in the Philadelphia holding company system which acquired such property and assets.

Philadelphia and Real Estate state that the transactions proposed are in conformity with Step III of the Plan, dated February 8, 1951, For Compliance By Standard Gas and Electric Company and Philadelphia Company With The Provisions Of Section 11 Of The Public Utility Holding Company Act of 1935, filed with this Commission at File No. 54-191. (See Holding Company Act Release No. 10413.)

Philadelphia and Real Estate state that no Commission other than this Commission has jurisdiction over the proposed transactions involved in carrying out the plan, that no fees will be paid in connection therewith, and that expenses are estimated at not to exceed $500.

Philadelphia and Real Estate request that the Commission's order approving the plan be entered at the earliest practicable date and that the Commission fix September 30, 1951, as the time by which the plan is to be consummated.

By the Commission.

UNITED GAS CORP. ET AL.

ORDER EXTENDING MATURITIES OF CERTAIN SECURITIES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of May, A. D., 1951.

In the matter of United Gas Corporation, United Gas Pipe Line Company, Union Producing Company; File No. 70-2618.

United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, and United's subsidiaries, United Gas Pipe Line Company ("Pipe Line") and Union Producing Company ("Union") having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (a), 7, 9 (a) (1), 10 and 12 thereof with respect to the following proposed transactions:

As of December 31, 1950, United had outstanding $130,994,000 aggregate principal amount of First Mortgage and Collateral Trust Bonds, 1967 and 1970 series, issued under a Mortgage and Deed of Trust dated October 1, 1944, as supplemented. United owns all of the outstanding securities of Pipe Line and Union, which securities are pledged under the Mortgage and Deed of Trust, and include $48,127,000 of Pipe Line's 4 percent first mortgage bonds, due 1962, and $34,000,000 of Union's 6 percent debentures due 1952.

United and Pipe Line propose to enter into an agreement under which Pipe Line will issue to United $48,127,000 principal amount of First Mortgage Bonds, 4 percent series, due 1971, in exchange for and discharge of a like principal amount of Pipe Line's outstanding First Mortgage Bonds, 4 percent series due 1962. The 1971 Bonds of Pipe Line will be deposited with the corporate trustee under United's Mortgage and Deed of Trust, and the 1962 Bonds of Pipe Line will be cancelled and discharged.

United and Union propose to enter into an agreement under which the maturity of $34,000,000 principal amount of Union's 6 percent debentures due March 1, 1952, will be extended to March 1, 1971. Such extension will be effected by authorizing and directing the corporate trustee to appropriately stamp the 6 percent debentures due March 1, 1952.

The application-declaration states that the purpose of the proposed transaction is to bring the maturities of United's subsidiaries' indebtedness into line with the maturities of United's bonds now outstanding as well as those which United contemplates issuing to finance the system's construction and expansion program.

Said application-declaration having been filed on April 24, 1951, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act and that no adverse findings are necessary thereunder; the Commission deeming it appropriate to grant said application and permit said declaration to become effective without the imposition of terms and conditions; and the Commission also deeming it appropriate to grant applicant-declarant's request that the order herein become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act and the rules thereunder, that said application-declaration be, and the same hereby is, granted and permitted to become effective, forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

MICHIGAN-WISCONSIN PIPE LINE CO. AND AMERICAN NATURAL GAS CO.

ORDER AUTHORIZING ISSUANCE OF $20,000,000 RENEWAL NOTES AND 30,000 SHARES OF COMMON STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of May A. D. 1951.

Michigan-Wisconsin Pipe Line Company ("Michigan-Wisconsin"), a nonutility subsidiary of American Natural Gas Company ("American Natural"), a registered holding company, and American Natural having filed a a join application and an amendment thereto, pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 (a) (2) promulgated thereunder, with respect to the following transactions:

In July 1950, pursuant to authorization of this Commission, Michigan-Wisconsin entered into a Credit Agreement with certain Banks (The National City Bank of New York, Central Hanover Bank and Trust Company, New York; and Mellon National Bank and Trust Company, Pittsburgh) under which it has borrowed an aggregate of $20,000,000 on its notes maturing July 1, 1951. Under the terms of the Credit Agreement, at the option of the Company and with the approval of this Commission, the notes may upon ten days written notice be renewed upon the same terms and conditions for a period of one year from July 1, 1951. The Credit Agreement obligates the Company to prepay $3,000,000 principal amount of the loans on or before June 30, 1951, if it has not by June 20, 1951, received $3,000,000 through the sale of its preferred or common stock or through issuance of debt obligations subordinated to the bank loans.

Michigan-Wisconsin proposes, upon approval by the Commission, to extend its bank loans in the principal amount of $20,000,000 for one year or until July 1, 1952, as permitted under the terms of the Credit Agreement. It is anticipated that the bank loans will be retired through permanent financing at an appropriate later time prior to the maturity date, as extended.

To satisfy the provisions of the Credit Agreement and to provide cash funds and an equity base for the contemplated future permanent financing Michigan-Wisconsin proposes at or before the extension of its notes to sell 30,000 shares of its common stock to American Natural for $3,000,000 cash, an amount equal to the aggregate par value thereof. American Natural will make the investment from funds on hand, being available as a result of the sale in the latter part of 1950 of 304,486 additional shares of its common stock.

The application having been filed May 7, 1951, and notice of the filing of said application, as amended, having been issued in the form and manner prescribed by Rule U-23 promulgated under the act, and the last amendment having been filed on May 23, 1951, and the Commission not having received a request for a hearing with respect to said application, as amended, within the time specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, that no adverse findings are necessary thereunder, that no basis appears for imposing any terms and conditions in connection with our order other than those specified by Rule U-24, and deeming it appropriate in the public interest and in the interest of investors and consumers to grant the application, as amended; and

It appearing that the estimated fees and expenses, aggregating $5,550, including counsel fees of $750 payable to Sidley, Austin, Burgess & Smith, and service company fees of $500 payable to American Natural Gas Service Company are not unreasonable and should be approved:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935, that said application, as amended, be, and it hereby is, granted, subject to the terms and conditions prescribed by Rule

U-24, and that this order shall become effective upon its issuance.

By the Commission.

UNITED GAS CORP. AND UNITED GAS PIPE LINE CO.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of May A. D. 1951.

Notice is hereby given that United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, and United's wholly-owned subsidiary, United Gas Pipe Line Company ("Pipe Line"), have filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 and have designated sections 6 (a), 7, 9 (a) (1), 10, and 12 thereof and Rules U-42 and U-50 of the rules and regulations promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

United and its subsidiaries are engaged in a construction program which, it is stated, will require the expenditure of approximately $170,000,000 during the years 1951 and 1952 of which approximately $12,200,000 is to be expended by United and approximately $157,800,000 by Pipe Line.

The application-declaration sets forth an over-all financing program for the contemplated construction as follows: (1) The issuance and sale pursuant to a rights offering of 1,065,330 shares of common stock, (2) the issuance and sale at competitive bidding of $100,000,000 principal amount of First Mortgage and Collateral Trust Bonds, and (3) the refinancing on a long term basis of United's presently outstanding bank loans aggregating $25,000,000 presently due December 31, 1950. Pipe Line in turn proposes the issuance and sale to United of $70,000,000 principal amount of its First Mortgage Bonds and $55,000,000 principal amount of its debentures.

The steps immediately proposed to be taken are as follows:

(1) United proposes to amend its charter so as to increase its authorized common stock, of the par value of $10 per share, from 10,700,000 shares to 12,000,000 shares.

(2) United proposes to offer its stockholders of record as of June 27, 1951, 1,065,330 shares of its common stock, at a price to be determined prior to the offering. Stockholders will be given the right to subscribe for and purchase one share of additional stock for each ten shares held on such record date, and will also be given a conditional over-subscription privilege to subscribe for shares of common stock not subscribed for on the primary offering. The subscription rights and over-subscription privileges will be evidenced by a single form of transferable registered subscription warrant to be issued to stockholders as of the record date. Such warrants will expire approximately 20 days from the date of mailing thereof. The proposed offering will not be underwritten.

The application-declaration states that no fractional shares of common stock will be issued. Warrant holders, through the subscription agent, may purchase such additional subscription rights as are necessary for subscription to one additional full share of stock or may sell subscription rights in excess of those necessary for subscriptions to full shares of stock, such services to be without charge to the stockholders.

Electric Bond and Share Company, as the owner of 2,870,653 shares (26.95 percent) of the common stock of United, has advised United that it intends to exercise its subscription rights entitling it to purchase 287,065 shares of additional common stock, and that it may exercise its over-subscription privilege to the extent that such shares may be alloted to it.

(3) United proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $50,000,000 principal amount of First Mortgage and Collateral Trust Bands __ percent series due 1971, said bonds to be secured by United's Mortgage and Deed of Trust dated as of October 1, 1944 as supplemented by the First, Second and Third Supplemental Indentures and to be supplemented by a Fourth Supplemental Indenture.

Proceeds from the sale of bonds and common stock will be used to purchase securities from Pipe Line as set forth below.

(4) Pipe Line will issue and sell to United $25,000,000 principal amount of its First Mortgage Bonds, 4 percent series, due June 1971, pursuant to its Mortgage and Deed of Trust dated as of September 25, 1944, as supplemented and to be supplemented by the First, Second, Third, Fourth and Fifth Supplemental Indentures. The bonds proposed to be issued to United by Pipe Line will be pledged under United's Mortgage and Deed of Trust.

Pursuant to a Debenture Agreement to be dated as of June 25, 1951, Pipe Line will sell to United $45,000,000 principal amount of Pipe Line's 4½ percent Sinking Fund Debentures due 1971.

Proceeds from the sale of Pipe Line's securities will be used for the following purposes:

(a) To repay $7,000,000 principal amount of 3 percent promissory notes of Pipe Line now owned by United of which $5,000,000 is pledged with the corporate trustee under United's Mortgage, and $2,000,000 is held by United in its securities portfolio.

(b) The balance of approximately $63,000,000 will be available to Pipe Line for use in connection with its construction program and for other general corporate purposes.

United and Pipe Line request approval of the proposed over-all financing program and the issuance of appropriate orders to carry out the step initially proposed, subject to the filing of appropriate amendments with respect to the results of competitive bidding on the proposed sale of United's Bonds.

It appearing to the Commission that it is appropriate in the public interest, and in the interest of investors and consumers, that a hearing be held with respect to said application-declaration, and that said application-declaration shall not be granted or permitted to become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said joint application and declaration pursuant to the applicable provisions of the act and the rules of the Commission be held on June 12, 1951, at 10:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before June 11, 1951, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Edward C. Johnson or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division having advised the Commission that it has made a preliminary examination of the joint application and declaration and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the securities proposed to be issued by United and Pipe Line are reasonably adapted to the security structures and earning power of said corporations, and whether the financing by the issue and sale of such securities is necessary or appropriate to the economic and efficient operation of the businesses in which such corporations are engaged.

(2) Whether the terms and conditions of the securities proposed to be issued are in accordance with the applicable standards of the act, particularly section 7 thereof.

(3) Whether the proposed acquisitions of securities meet the applicable standards of the act, particularly sections 9 (a), 10, and 12 thereof.

(4) Whether the fees and expenses to be paid in connection with the proposed issue and sale of the proposed securities are reasonable.

(5) Whether the proposed accounting treatment with respect to the transactions is appropriate and in conformity with sound accounting principles.

(6) Whether in the event the joint application and declaration shall be granted and permitted to become effective it is necessary or appropriate to impose any terms or conditions to assure compliance with the standards of the act or in the public interest or for the protection of investors or consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on the applicants and declarants herein, and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

APPALACHIAN ELECTRIC POWER CO. AND AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING REGARDING ISSUANCE OF $17,000,000 OF BONDS AND 1,600,000 SHARES OF COMMON STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of May A. D. 1951.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by American Gas and Electric Company ("American Gas"), a registered holding company, and its subsidiary, Appalachian Electric Power Company ("Appalachian"), an electric utility company. The filing designates sections 6, 10, and 12 of the act and Rule U-50 promulgated thereunder as being applicable to the proposed transactions.

Notice is further given that any interested person may not later than June 11, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. At any time after said date, this application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

All interested persons are referred to this application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Appalachian proposes to issue and sell $17,000,000 principal amount of its First Mortgage Bonds ____ percent series, due 1981, to be issued under and secured by Appalachian's present indenture dated as of December 1, 1940, as heretofore supplemented, and to be supplemented by an indenture to be dated as of June 1, 1951. The bonds are to be sold pursuant to the competitive bidding requirements of Rule U-50, for a price to the company of not less than 100 percent nor more than 102¾ percent of the principal amount thereof plus accrued interest.

Appalachian also proposes to issue and sell, and American Gas, the holder of all the issued and outstanding no par value common stock of Appalachian, proposes to acquire, 1,600,000 additional shares of such common stock for a cash consideration of $10,500,000.

The filing states that Appalachian anticipates making expenditures of approximately $29,000,000 in 1951, $41,000,000 in 1952, and $23,000,000 in 1953 for the construction of property additions. In order to finance such construction program, Appalachian will utilize the net proceeds from the sale of the new bonds and the additional common stock together with treasury cash. Appalachian estimates that, based on the present level of earnings and current expectation as to the progress of the construction program, it will be enabled to meet substantially all of the costs of its construction program through the year 1951. Further financing in connection with the construction program will be necessary, but the nature of such financing as well as its date and amount will depend on conditions at the time.

It is anticipated that $5,000,000 of the net proceeds from the sale of securities will be applied to the prepayment, without premium, of a like aggregate principal amount of Notes Payable to Banks, issued for construction purposes.

Appalachian is organized in Virginia and transacts its utility business in that State and in Tennessee and West Virginia. The joint application-declaration states that the issue and sale of the bonds of Appalachian are subject to the jurisdiction of the State Corporation Commission of Virginia and the Tennessee Railroad and Public Utilities Commission and the issue and sale of Appalachian common stock are subject to the jurisdiction of the said Commissions and of the Public Service Commission of West Virginia. According to the filing, orders of the three State Commissions approving the proposed issue and sale of securities will be supplied by amendment to the instant application-declaration upon issuance of such orders.

The filing requests that the order of the Commission herein granting the application and permitting effectiveness to the declaration become effective forthwith upon issuance thereof.

By the Commission.

HARA AND CO.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended and Executive Order 9788, and pursuant to law, after investigation, Vesting Order 53, as amended, is hereby further amended to read as follows:

It is hereby found:

1. That Hara and Company, whose principal place of business is in Yokohama, Japan, is a partnership organized under the laws of Japan, composed of the individuals named in subparagraph 2 hereof, and is a national of a designated enemy country (Japan);

2. That Ryozabura Hara, Tasaburo Hara, Takeo Saigo, Kenichiro Saigo and Sue Hara, whose last known addresses are Yokohama, Japan, are residents of Japan and nationals of a designated enemy country (Japan);

3. That Hara and Company has an established agency or branch office at New York, New York, which is engaged in the conduct of business within the United States and is a business enterprise within the United States;

4. That on February 10, 1942, the War Production Board, pursuant to Requisition WPB No. 2B-WPB-47-55 41, requisitioned 526 bales and 12 books of silk as property of Hara and Company, which silk, at the time of said requisitioning, was not property of said Hara and Company but was owned by The Yokohama Specie Bank, Ltd., New York Agency, in liquidation by the Superintendent of Banks of the State of New York;

5. That the claim for fair and just compensation arising out of the requisitioning referred to in subparagraph 4 hereof was property within the United States of said The Yokohama Specie Bank, Ltd., New York Agency, in liquidation by the Superintendent of Banks of the State of New York;

6. That the claim referred to in subparagraph 5 hereof was vested by Vesting Order 915 which vested excess proceeds of the business and property in the State of New York of The Yokohama Specie Bank, Ltd., including the excess proceeds of all assets of The Yokohama Specie Bank, Ltd., New York Agency, in liquidation as aforesaid;

7. That, pursuant to a turn over directive dated January 6, 1947, the Superintendent of Banks of the State of New York, as liquidator as aforesaid, turned over to the Attorney General of the United States the aforesaid claim of The Yokohama Specie Bank, Ltd., New York Agency;

and it is hereby determined:

8. That the branch office of Hara and Company in New York, New York, is owned and controlled by Hara and Company, Yokohama, Japan, and is a national of a designated enemy country (Japan);

9. That to the extent that Hara and Company, Yokohama, Japan, and its branch office in New York, New York, are not within a designated enemy country, the national interest of the United States requires that they be treated as nationals of a designated enemy country (Japan).

All determinations and action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested all property of any nature whatsoever situated in the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to Hara and Company and its branch office in New York, New York, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States, and

The direction, management, supervision and control of the branch office of Hara and Company in New York, New York, is hereby undertaken, to the extent deemed necessary or advisable from time to time. This order shall not be deemed to limit the power to vary the extent of or terminate such direction, management, supervision or control.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein and in said Vesting Order 53, as amended, shall have and had the meanings prescribed in Executive Order 9095, as amended by Executive Order 9193.

Executed at Washington, D. C., on May 24, 1951.

For the Attorney General.

4. That such property is in the process of administration by George J. Beyer, Trustee, acting under the judicial supervision of the Probate Court of Milwaukee County, State of Wisconsin,

and it is hereby determined:

5. That to the extent that the person named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Anna Rechel, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany or Japan.

Executed at Washington, D. C., on May 18, 1951.

For the Attorney General.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10249

PRESCRIBING REGULATIONS WITH RESPECT TO FOREIGN SERVICE REPORTING FUNCTIONS

By virtue of the authority vested in me by section 311 of the Foreign Service Act of 1946, 60 Stat. 1002 (22 U. S. C. 846), and as President of the United States, I hereby prescribe the following regulations with respect to the reporting functions of the Foreign Service of the United States:

SECTION 1. As used in this order, the words "foreign data" shall mean any data obtained or to be obtained in foreign countries, including reports, statistics, and publications.

SEC. 2. Subject to the provisions of this order, the Department of State shall obtain for any Federal department or agency, through the Foreign Service of the United States, such foreign data as such department or agency may request through the Department of State.

SEC. 3. The Secretary of State is authorized and directed to prepare and maintain, for use in carrying out the purposes of this order, (a) a comprehensive statement of the types of foreign data appropriate to be obtained through the Foreign Service which would be of substantial use to the United States, with due attention in the preparation of this statement to the relative importance of the several types of data, and (b) standards which shall govern the determination by the Department of State to transmit or not to transmit to the Foreign Service, for action, any request for foreign data, and which shall also govern the assignment of priorities by the Department of State to the several requests transmitted by it to the Foreign Service for action. In connection with the preparation of the said statement and standards and any revision thereof, the Department of State shall afford interested Federal departments and agencies opportunity for consultation and shall accord their advice appropriate consideration.

SEC. 4. The Department of State may assign priorities to requests for foreign data, which priorities shall govern the Foreign Service in connection with the furnishing of the requested data; and it may take such measures as may be necessary or appropriate to keep the work falling upon the Foreign Service by reason of the furnishing of data to Federal departments and agencies within the resources of the Foreign Service available for such work. In carrying out the provisions of this section, the Department of State shall, to the extent practicable, be guided by the determinations of any other department or agency requesting foreign data as to the relative priorities of any two or more requests made by such department or agency.

601.1109 Maturity of loans.
601.1110 Schedule of basic specifications and rates.
601.1111 County rates.
601.1112 Delivery of seed to CCC.
601.1113 Settlement.

AUTHORITY: §§ 601.1101 to 601.1113 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1051; 15 U. S. C. Sup. 714, 7 U. S. C. Sup. 1447, 1421.

§ 601.1101 *Purpose.* This supplement states additional specific requirements which, together with those contained in the 1951 C. C. C. Grain Price Support Bulletin 1, 16 F. R. 1987, apply to loans and purchase agreements under the 1951-Crop Winter Cover Crop Seed Price Support Program.

§ 601.1102 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and purchase agreements for all seeds listed in § 601.1110.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available to producers wherever any of the seeds listed in § 601.1110 are grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that such seeds cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available to producers from the time of harvest through December 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* (1) An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing seed listed in § 601.1110 in 1951 as landowner, landlord, tenant, or sharecropper.

(2) Cooperative marketing associations of producers shall be eligible for loans and purchase agreements: *Provided*, That (i) the producer members are bound by contract to market through the association; (ii) the major part of the seed marketed by the association is produced by members who are eligible producers; (iii) the members share proportionately in the proceeds from marketings according to the quantity and quality of seed each delivers to the association; (iv) the seed purchased from nonmembers is segregated at all times to assure that the seed placed under loan or delivered under a purchase agreement is seed grown by producer members; and, (v) the association has the legal right to pledge or mortgage the seed as security for a loan.

§ 601.1103 *Eligible seed.* At the time the seed is placed under loan or delivered under a purchase agreement, the seed shall meet the following requirements:

(a) The seed must have been produced in the continental United States in 1951 by an eligible producer and be one of the kinds and varieties named in § 601.1110.

(b) Except in the case of cooperative marketing associations of producers, the beneficial interest in the seed must be in the person tendering the seed for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the seed was harvested.

(c) It must on the basis of official purity analysis reports, and germination test certificates, based on representative samples taken not more than five calendar months prior to the first day of the month in which the seed is tendered for loan or purchase (and on the basis of official moisture tests where applicable), be equal to or better in every respect than the minimum specifications for the particular kind of seed as shown in § 601.1110, unless the warehouseman, in the case of seed being offered for loan or delivery under a purchase agreement, certifies that the seed is of a quality eligible for price support, shows such quality on the warehouse receipt, and guarantees to deliver to CCC seed of a quality equal to, or better than, that shown on the warehouse receipt.

(d) The seed must not contain noxious weed seeds in excess of the number permitted for sale as planting seed by the State seed law, and rules and regulations pursuant thereto, of the State in which the seed is tendered for loan or delivered under a purchase agreement.

(e) The moisture content of blue lupine seed (determined by an official moisture test, except where quality is guaranteed by the warehouseman) shall not exceed 12 percent at the time the seed is placed under loan, and shall not exceed 14 percent at the time of delivery under a loan or purchase agreement.

(f) The seed must be fumigated if necessary.

§ 601.1104 *Warehouse receipts.* Warehouse receipts representing seed placed under loan or delivered under a purchase agreement must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer or cooperative marketing association of producers, must be properly endorsed in blank so as to vest title in the holder, must be issued by a warehouse approved by CCC under the Seed Storage Agreement, and must show the quantity of eligible seed actually in store in the warehouse.

(b) Where the seed is commingled the warehouseman must guarantee both the quality and the quantity of the seed.

(c) Where the warehouseman guarantees the quality of the seed placed under loan, on either an identity-preserved or commingled basis, each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the kind or variety of the seed, the net weight, and the factors used in determining the quality of the seed.

(d) Where the seed is stored on an identity-preserved basis and the warehouseman does not guarantee the quality, there shall be attached to the warehouse receipt for the lot of seed stored identity-preserved a copy of the official purity analysis report and germination test certificate, and, where moisture is an eligibility requirement, a copy of the official moisture certificate.

(e) Any warehouse receipt representing seed stored on an identity-preserved basis must set forth in the written or printed terms the kind or variety of seed, the lot identity or number, the number of bags and the total net weight.

(f) Warehouse receipts shall carry an endorsement in substantially the following form:

Warehouse charges through January 31, 1952, on the seed represented by this warehouse receipt have been paid or otherwise provided for, and lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt.

§ 601.1105 *Determination of quantity.* All determinations of the quantity of seed delivered under loan or purchase agreement in an approved warehouse under this program shall be made on the basis of the net weight of eligible seed, as specified on the warehouse receipt. The quanity of seed being placed under a farm-storage loan shall be determined by the county committee. The quantity of seed delivered under a farm-storage loan will be the actual net weight of seed.

§ 601.1106 *Determination of quality.* All determinations of quality made by the county committee will be made on the basis of official purity, germination, and moisture tests (where required) of a representative sample. An official test shall be a test made by a Federal or State Seed Testing Laboratory, or by a commercial seed testing laboratory approved by the State committee. A representative sample for determination of quality shall be a sample taken by a licensed State inspector, or where such services are not provided, the county committee shall arrange for a qualified disinterested person to obtain a representative sample. The sample shall consist of equal portions taken from evenly distributed parts of the lot of seed to be sampled.

§ 601.1107 *Loss or damage to seed under farm-storage loan.* Notwithstanding the provisions of § 601.665 of the 1951 C. C. C. Grain Price Support Bulletin 1, and the provisions of the chattel mortgage and the mortgage supplement, the producer will not be responsible for deterioration occurring without fault or negligence on his part or the part of the person in control of the farm-storage structure.

§ 601.1108 *Warehouse and other charges.* CCC will not pay or assume charges for cleaning, fumigation, drying, bagging, sampling, testing and analysis reports, tagging, or other handling or processing operations which are necessary to prepare the seed to meet eligibility requirements for price support; nor will CCC pay or assume storage charges which accrue prior to February 1, 1952, or the date of the warehouse receipt, whichever is later.

§ 601.1109 *Maturity of loans.* Loans mature on demand but not later than January 31, 1952.

§ 601.1110 *Schedule of basic specifications and rates.* The rates at which purchases will be made from producers and the loan and settlement rates shall be computed in accordance with the specifications and rates shown in the following schedule: *Provided*, That, the county rates shown in § 601.1111 shall be used for hairy vetch: *And provided further*, That where seed is delivered to CCC in approved used bags, a bag discount at the rate of 25 cents per 100 pounds capacity shall be applicable.

[1] Price of hairy vetch shall not be discounted due to the presence of woollypod.
[2] Hungarian and purple vetch may qualify as common if at least 80 percent of seed is common vetch.
[3] Roughpeas (Lathyrus hirsutus) commonly called Caley peas, Singletary peas, or wild winter peas. Hairy vetch seed may qualify as roughpeas provided at least 65 percent of the mixture is roughpeas. The following percentages of the applicable hairy vetch price (including area differentials and discounts for quality below the basic price requirements), will be allowed for hairy vetch seed in the mixture:

Hairy vetch in mixture (percent)	*Percent of applicable support price*
5–14, inclusive	50
15–24, inclusive	60
25–34, inclusive	70

[4] Live seed including hard seed.
[5] No requirements specified for this item. However, the total winter legume requirements where specified and the purity requirements must be met in order for seed to be eligible for price support.
[6] Noxious weed seed shall not exceed the quantity permitted for sale as planting seed by the State seed law or regulations of the State in which the seed is delivered to CCC.
[7] Crimson clover containing not more than 5 wild onion bulblets per pound will be eligible for purchase in Kentucky only at a discount of $1 per hundred.
[8] Blue lupine seed with moisture content not in excess of 14 percent may be delivered in satisfaction of loans or on purchase agreements when other eligibility factors are satisfied.

§ 601.1111 *County rates.* (a) The basic county rates for hairy vetch seed will be as follows:

	Cents per pound
Arkansas, all counties	15.20
California, all counties	14.40
Idaho, all counties	14.40
Oklahoma, all counties	14.95
Oregon, all counties	14.40
Texas, all counties	14.90
Washington, all counties	14.40
Other States, all counties	14.70

(b) Farm-storage and warehouse-storage loans will be made at the basic county rate for the county in which the hairy vetch seed is stored. Settlement will be made at the time of delivery under a loan or a purchase agreement at the basic county rate for the approved point of delivery. The applicable county rate will be subject to the discounts shown on the Schedule of Basic Rates and Specifications in § 601.1110.

§ 601.1112 *Delivery of seed to CCC—*(a) *Cleaning, fumigation, and bagging.* Seed delivered to CCC by the producer under a loan or purchase agreement must meet the following requirements or must be represented by a warehouse receipt under which the warehouseman guarantees to meet such requirements: The seed must be cleaned, fumigated if necessary, and packaged in new bags of the quality and net capacity described below; or, if new bags are not available, No. 1 used bags of the same quality or better, and of the same net capacity, as those described below may be used, provided they are thoroughly cleaned before being filled, and are free of holes, patches, or other defects.

(1) Blue lupine, hairy vetch, Willamette vetch, common vetch, and roughpeas:

Type	*Net capacity (pounds)*
(i) 3-harness twill: 38-inch 8-ounce or heavier	100
(ii) Osnaburg which can be probed:	
36-inch 2.35 yard or heavier	100
40-inch 2.11 yard or heavier	100
(iii) Burlap: 10-ounce or heavier	100

(2) Crimson clover:

Type	*Net capacity (pounds)*
(i) Osnaburg which can be probed (seamless or double seam):	
36-inch 2.35 yard or heavier	100
40-inch 2.11 yard or heavier	100
(ii) Seamless cotton:	
13-ounce (20 x 42-inch)	120
16-ounce (20 x 45-inch)	150

(3) Common ryegrass:

Type	*Net capacity (pounds)*
(i) Osnaburg which can be probed:	
36-inch 2.35 yard or heavier	100
40-inch 2.11 yard or heavier	100
(ii) Burlap: 8-ounce or heavier	100

(b) *Tagging.* The seed must be tagged in accordance with the Federal Seed Act for interstate shipments, if ordered loaded out for interstate shipment by CCC.

§ 601.1113 *Settlement.* Where seed is delivered to CCC in accordance with § 601.668 of the 1951 CCC Grain Price Support Bulletin 1, the following additional provisions shall be applicable:

(a) *Farm-storage loans.* Settlement under a farm-storage loan shall be made with the producer at the applicable support price on the basis of the quantity of the seed delivered, and on the basis of the quality of the seed when placed under loan, except that if damage or deterioration has resulted from negligence on the part of the producer or other person having control of the storage structure, settlement shall be made on the basis of the quality and quantity of the seed delivered. (See paragraph (d) of this section.)

(b) *Warehouse - storage loans*—(1) *Quality not guaranteed.* If the seed is stored on an identity-preserved basis and the quality is not guaranteed by the warehouseman, settlement shall be made with the producer at the applicable support price on the basis of the quantity of seed shown on the warehouse receipt and on the basis of the quality of the seed when placed under loan, except as provided in paragraph (d) of this section.

(2) *Quality guaranteed.* If the seed is stored on a commingled or identity-preserved basis and the warehouseman guarantees the quantity and quality, settlement shall be made with the producer on the basis of the quantity and quality of the seed shown on the warehouse receipt.

(c) *Purchase agreements.* If the producer has notified the county committee of his intention to sell seed under a purchase agreement in accordance with the provisions of § 601.668 of the 1951 C. C. C. Grain Price Support Bulletin 1, the seed will be purchased upon delivery at the applicable support price.

(1) *Quality not guaranteed.* If the identity of the seed is preserved and the quality is not guaranteed by an approved warehouseman, settlement will be made on the basis of the quantity of seed actually delivered and the quality shown by official purity analysis reports and germination test certificates based on representative samples taken not more than five calendar months prior to the first day of the month in which the seed is delivered to CCC, except as provided in paragraph (d) of this section.

(2) *Quality guaranteed.* If the seed is stored on a commingled or identity-preserved basis in an approved warehouse and the warehouseman guarantees the quality and quantity of the seed, settlement will be made with the producer on the basis of the quality and quantity of the seed shown on the warehouse receipt.

(d) *Quality determination at time of delivery.* Where the quality of the seed delivered under a loan or purchase agreement is not guaranteed by an approved warehouseman, and the county committee has reason to believe that the lot of seed has been disturbed or damaged so that the purity analysis reports and/or germination test certificates are no longer representative of the quality of the seed, then the quality shall be determined by official purity analysis and germination tests made at the time of delivery. Settlement will be made on the basis of such tests made at the time of delivery, except where CCC assumes loss resulting from damage or deterioration to seed under loan. (See § 601.665 of the 1951 CCC Grain Price Support Bulletin 1 and § 601.1107 of this Supplement 1.)

(e) *Refund of paid-in freight.* Where any seed delivered to CCC has been shipped by the producer, or for him, "in line", as determined by CCC, from point of origin to an approved warehouse for storage where transit privileges are in effect, freight (including transportation tax) at a rate not exceeding the lowest published rate, or the lowest transcontinental rate, where applicable, paid on the inbound rail movement, will be refunded to the producer: *Provided*, That (1) the shipment has been properly registered for transit; (2) the paid railway freight bill or a validated copy thereof, representing the identical seed, is endorsed to CCC in accordance with the covering Tariffs at the transit point, and turned over to CCC; (3) a freight certificate signed by the warehouseman, is turned over to CCC; (4) the refunded freight is limited to the quantity of seed shown on the warehouse receipt; and (5) whenever the support rate for the point of delivery is higher than the support rate for the point of origin shown on the freight certificate, the amount refunded shall be the freight paid on the inbound rail movement less the difference between the support rate for the point of delivery and the support rate for the point of origin. The freight certificate shall show the original shipping point, date and number of waybill, car initials and number, date and number of freight bill, name of the carrier, transit weight, and rate paid in, the total amount of freight paid, and such other information as CCC may require. Refunds for paid-in freight under this paragraph will be made by the appropriate PMA commodity office subsequent to actual delivery of the seed to CCC pursuant to a loan or purchase agreement.

Issued this 31st day of May, 1951.

[Plum Order 2 Amdt 1]

PART 926—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

a. *Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of Santa Rosa plums grown in the State of California.

b. It is, therefore, ordered as follows:

1. The provisions in paragraph (b) (2) of § 936.397 (Plum Order 2; 16 F. R. 4882) shall during the period beginning at 12:01 a. m., P. s. t., June 5, 1951, and ending at 12:01 a. m., P. s. t., October 16, 1951, read as follows:

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

c. Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of Plum Order 2; or (2) as releasing or extinguishing any violation of said Plum Order 2 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

[Peach Order 1]

PART 962—FRESH PEACHES GROWN IN GEORGIA

REGULATION BY SIZE

§ 962.306 *Peach order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962; 15 F. R. 4105), regulating the handling of fresh peaches grown in the State of Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation of the Industry Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of peaches, as hereinafter set forth, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 6, 1951.

A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop thereof, and adequate information thereon was not available to the Industry Committee until May 29, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such peaches was made at the meeting of said committee on May 29, 1951, after consideration of all available information relative to the supply and demand conditions for such peaches, at which time the recommendation and supporting information was submitted to the Department and information concerning such recommendation was disseminated among growers and handlers of such peaches; shipments of such peaches are now being made; in order to effectuate the declared policy of the act, this section should, insofar as practicable, be applicable to all shipments of such peaches during the current fiscal period; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* During the period beginning at 12:01 a. m., e. s. t., June 6, 1951, and ending at 12:01 a. m., e. s. t., September 1, 1951, no handler shall ship:

(1) Any peaches of any variety (except Dixired peaches) of a size smaller than $1\frac{5}{8}$ inches in diameter, except that not more than ten (10) percent, by count, of such peaches contained in any bulk lot or any lot of packages may be of a size smaller than $1\frac{5}{8}$ inches in diameter, but not more than fifteen (15) percent, by count, of such peaches in any individual package in any lot may be of a size smaller than $1\frac{5}{8}$ inches in diameter; and

(2) Any peaches of the Brackett, Early Elberta, Elberta, Early Hale, Hale Haven, Halberta, Hardin's Pride, J. H. Hale, Krummel, Murray Hale, Rio Oso Gem, Southland, Sullivan Elberta, White Hale, or Woodland Cling varieties of a size smaller than $1\frac{3}{4}$ inches in diameter, except that not more than ten (10) percent, by count, of such peaches contained in any bulk lot or any lot of packages may be of a size smaller than $1\frac{3}{4}$ inches in diameter, but not more than fifteen (15) percent, by count, of such peaches in any individual package in any lot may be of a size smaller than $1\frac{3}{4}$ inches in diameter.

(c) *Definitions.* When used in this section, the terms "handler", "ship", and "peaches" shall have the same meaning as when used in the aforesaid amended marketing agreement and order; and the term "diameter" shall have the same meaning as when used in the United States Standards for Peaches (7 CFR 51.312).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Southern Spring Bed Company, Docket 5796, March 22, 1951]

In the Matter of Southern Spring Bed Company, a Corporation; and Richard N. Schwab, Clarence S. Moeckel, Philip L. Peebles, William P. Rocker, and Robert W. Schwab, Jr., Individually and as Officers and Directors; Julian Price, J. B. Taylor, and Thomas H. Williams, Individually and as Officers; and Harrison Jones and Martin E. Kilpatrick, Individually and as Directors Respectively of Southern Spring Bed Company, a Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on July 12, 1950, issued and subsequently served upon the respondents named in the caption hereof its complaint in this proceeding, charging said respondents with the use of unfair methods of competition in commerce and unfair and deceptive acts and practices in commerce in violation of the provisions of that act. After the filing of the respondents' answers to said complaint, a hearing was convened by a trial examiner of the Commission theretofore duly designated by it to take testimony and receive evidence in support of and in opposition to the allegations of the complaint, and at said hearing a stipulation of all of the facts in the case was entered into by and between counsel for the respondents and counsel in support of the complaint. On the basis of the record thus presented (all intervening procedure having been waived), the trial examiner on December 29, 1950, filed his initial decision.

The Commission, having reason to believe that the initial decision was deficient in certain material respects, on February 8, 1951, issued and thereafter served upon the respondent, Southern Spring Bed Company, its order placing this case on the Commission's own docket for review and affording said respondent an opportunity to show cause why the initial decision should not be altered in the manner and to the extent shown by the tentative decision attached to said order. The respondent not having appeared in response to the leave to show cause, this proceeding regularly came on for final consideration by the Commission upon the record herein on review; and the Commission, having duly considered the matter and being now fully advised in the premises, makes the following findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the trial examiner.

It is ordered, That the respondent, Southern Spring Bed Company, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the respondent's bed springs and mattresses, or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using (subject to the permissible limits prescribed by the act of January 5, 1905, as amended by section 4 of the act of June 23, 1910) the words "Red Cross", or any abbreviation or simulation thereof, or the mark of a Greek red cross or any other mark, emblem, sign or insignia simulating a Greek red cross, on the respondent's products; or using said words or said mark in selling or advertising the same;

(a) Unless respondent uses upon the label, whether on the article, wrapper, or carton, and with equal clearness and conspicuousness, in immediate conjunction with said words or said mark, the legend, "This product has no connection whatsoever with The American National Red Cross": *Provided*, That if said words or said mark appear on more than one side of the respondent's article, wrapper, or carton, the respondent shall use said legend, as aforesaid, on each such side; and

(b) Unless the respondent, in each of its written advertisements containing said words or said mark uses the said legend with equal clearness and conspicuousness: *Provided*, That if an advertisement covers more than one page, the respondent shall use said legend as aforesaid on each and every page on which said words or said mark shall appear; and

(c) Unless the respondent, in each of its radio advertisements containing said words or said mark, makes the statement contained in said legend with equal clearness and conspicuousness.

2. Using the word "orthopedic", or any term or expression of like import, as a

[1] Filed as part of the original document.

designation for or as descriptive of its stock bed springs or mattresses;

3. Representing, directly or by implication, that the respondent's bed springs or mattresses are specially built and scientifically designed to meet the specifications of orthopedic surgeons or physicians, or that such springs or mattresses have the approval of any surgeon or physician for use, unless prescribed; or

4. Representing directly or by implication, that the respondent's bed springs or mattresses, when used indiscriminately, may be relied or depended upon to correct any deformity or disease of the human body, or that the use of any such spring or mattress will provide any beneficial effect in orthopedic cases except to the extent that it will help to alleviate the pain and contribute to the comfort of the patient.

It is further ordered, That the respondent, Southern Spring Bed Company, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with it.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HESMER, INC., ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act as amended—Payment or acceptance of commission, brokerage or other compensation under 2 (c):* § 3.800 *Buyers' agents.* I. In connection with the purchase of food products or other commodities in commerce, and on the part of respondent corporation, and its officers, etc., receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon purchase made for said respondent's own account; and, II, in said connection, and on the part of respondent Mitchell (respondent's majority stockholder and president), individually and trading as the Ed. Mitchell Company, or under any other name or trade designation, and on the part of said respondent's agents, etc., receiving or accepting, directly or indirectly from any seller, anything of value as a commission, brokerage or other compensation, or any allowance or discount in lieu thereof, upon purchases made by or for the respondent, Hesmer, Inc., or purchases made by or for any other purchaser for or on whose behalf the respondent, Edward A. Mitchell, is acting in fact as agent, representative, or other intermediary; prohibited.

(Sec. 2 (c), 49 Stat. 1526; 15 U. S. C. 13) [Cease and desist order, Hesmer, Inc., et al., Docket 5815, March 22, 1951]

In the Matter of Hesmer, Inc., a Corporation, and Edward A. Mitchell, Individually, as President of Said Corporation, and Doing Business as the Ed. Mitchell Company

Pursuant to the provisions of an act of Congress entitled "an act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (the Clayton Act), as amended by an act of Congress approved June 19, 1936 (the Robinson-Patman Act (15 U. S. C. 13), the Federal Trade Commission on October 6, 1950, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereof, charging said respondents with having violated subsection (c) of section 2 of said Clayton Act, as amended. After the filing of the respondents' answer a hearing was convened by a trial examiner of the Commission theretofore duly designated by it to take testimony and receive evidence in support of and in opposition to the allegations of the complaint, and at said hearing solely for the purposes of this proceeding a stipulation of all of the facts in the case was entered into by and between counsel for the respondents and the Director of the Commission's Bureau of Antimonopoly. On the basis of the record thus presented (all intervening procedure having been waived), the trial examiner on December 11, 1950, filed his initial decision.

The Commission, having reason to believe that the initial decision was deficient in certain material respects, on January 19, 1951, issued and thereafter served upon the parties its order placing this case on the Commission's own docket for review and affording the respondents an opportunity to show cause why said initial decision should not be altered in the manner and to the extent shown by the tentative decision attached to said order. The respondents not having appeared in response to the leave to show cause, this proceeding regularly came on for final consideration by the Commission upon the record herein on review; and the Commission, having duly considered the matter and being now fully advised in the premises, makes the following findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the trial examiner.

It is ordered, That the respondent, Hesmer, Inc., and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the purchase of food products or other commodities in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from: Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage or other compensation, or any allowance or discount in lieu thereof, upon purchases made for said respondent's own account.

It is further ordered, That the respondent, Edward A. Mitchell, individually and trading as The Ed. Mitchell Company, or trading under any other name or trade designation, and said respondent's agents, representatives and employees, directly or through any corporate or other device, in connection with the purchase of food products or other commodities in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from: Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage or other compensation, or any allowance or discount in lieu thereof, upon purchases made by or for the respondent, Hesmer, Inc., or purchases made by or for any other purchaser for or on whose behalf the respondent, Edward A. Mitchell, is acting in fact as agent, representative, or other intermediary.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with it.

Issued: March 22, 1951.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 17, Amendment 2]

CPR 17—GASOLINES, NAPTHAS, FUEL OILS AND LIQUEFIED PETROLEUM GASES

RESIDUAL FUEL OILS AND BLENDS THEREOF WITH DISTILLATE FUEL OILS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment to Ceiling Price Regulation 17 (16 F. R. 3033) is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment establishes specific ceiling prices for all grades of residual fuel oil at principal Eastern Seaboard ports. This action has been undertaken for two reasons. At the time of the issuance of Ceiling Price Regulation 17, it was the intent of the Director of Price Stabilization to establish specific ceiling prices for petroleum products wherever possible, and as quickly as possible. Specific ceiling prices are administratively desirable because they are precise, easily understood and enforceable. The second reason for the establishment of these specific prices is to make necessary increases in the ceiling prices established for these products under section 21, the formula pricing section of Ceiling Price Regulation 17, which froze such prices at the levels prevailing during the period December 19, 1950 through January 25, 1951. These modifications were found necessary due to substantial increases in tanker transportation costs which were not reflected in ceiling prices established under Ceiling Price Regulation 17. Such modifications will tend to assure the continuation of indispensable supplies and to stimulate the build-up of adequate inventories of residual fuel oil for this key industrial section of the nation.

Residual fuel oil supply and demand. Residual fuel oil is normally supplied by tanker transportation to the Atlantic Seaboard from refinery centers on the United States Gulf Coast and by imports from Venezuela and The Netherlands West Indies. In addition, this area is supplied from local refinery centers which operate on domestic crudes, supplemented by substantial imports of crude oils which, on the average, yield significant quantities of residual fuel oil. This product is a basic industrial fuel used for power generation, military installations, industrial establishments, as a heating fuel for commercial and residential buildings, and as bunker fuel for ships. Continuity in the supply of this vital product must be assured if there is to be no impairment in the operations of facilities dependent upon it for the expanding defense program and for the health and comfort of domestic consumers.

In 1950, demand for residual fuel oil in the East Coast States served principally by the seaboard and refinery points set forth in this amendment, was 752,800 barrels per day. Of this aggregate demand, 43.4 per cent was met by direct imports, 21.6 per cent by transfers from the U. S. Gulf Coast refinery district, 29.1 per cent from production on the East Coast, 5.6 per cent was transferred from the California refinery district, and .3 per cent came from a reduction in stocks on the East Coast. The California refinery district is not a normal source of residual fuel oil for the East Coast, excessive inventories and price conditions which made the 1950 transfers possible have since been removed. Thus, the 1950 supply from this area will not be available in 1951. Refinery operations at the Gulf Coast and the Eastern Seaboard are currently near maximum rated capacity, and additional yields from this production are not to be expected. Only through a change in percentage yields in favor of residual fuel oil from crude runs to stills in these refinery districts can supply of this product be augmented from these sources. At existing ceiling prices for petroleum products, such change would be uneconomic, since refinery realization is much greater for other products. Indeed, the present technological trend in the industry is the reduction of residual fuel oil yields in favor of the more profitable light products, such as gasoline and middle distillates. Therefore, present, as well as prospective demand can only be met by increased imports. Such imports increased from an average of about 200,000 barrels per day in 1949 to 350,000 barrels per day currently.

1950 demand on the East Coast exceeded 1949 demand by approximately 21 per cent. It is estimated by the Petroleum Administration for Defense that East Coast demand in 1951 will be about 810,000 barrels per day or 7.5 per cent greater than 1950 demand. Inventory trends cast considerable doubt on our ability to service this expanding requirement. To meet this requirement, supply must be augmented, demand diminished or a combination of both must take place. At the end of April, 1951, combined East Coast and Gulf Coast inventories of residual fuel oil were 15,100,000 barrels, a reduction of about 1,000,000 barrels or 5.6 per cent from the same period during the previous year. This is the lowest stock position for this combined area for this time of year since April, 1947. A more significant barometer of the adequacy of our inventory position is day's supply of residual fuel oil related to demand. The following table shows day's supply of residual stocks on the East Coast and Gulf Coast, by months, for the years 1947–51.

Day's Supply Residual Fuel Oil, Combined East and Gulf Coasts

Month	Year				
	1947	1948	1949	1950	1951
Jan. 1	21.7	29.3	34.9	29.9	19.3
Feb. 1	18.4	18.2	32.6	20.1	15.7
Mar. 1	17.2	18.3	30.1	17.2	16.4
Apr. 1	17.5	18.3	29.7	17.4	15.1
May 1	17.9	21.2	31.7	18.1	.....
June 1	20.7	23.7	31.6	19.2	.....
July 1	22.6	26.3	30.3	20.4	.....
Aug. 1	26.3	30.2	28.3	21.1	.....
Sept. 1	27.5	31.5	26.0	22.5	.....
Oct. 1	27.1	37.6	26.3	22.3	.....
Nov. 1	26.4	39.3	24.7	21.6	.....
Dec. 1	22.4	35.2	21.9	18.3	.....

It is clear from the foregoing that our stock position this spring relative to demand calculated in day's supply is similarly at its lowest level since the beginning of 1947. It is estimated that if stocks on April 1, 1952 are the same as they are today, they will represent only 14.9 days of supply based on anticipated demand at that time. Moreover, the Petroleum Administration for Defense considers a minimum safe level for entering the winter of 1951–52 to be 28,000,000 barrels at the Gulf and East Coasts as compared with the afore-mentioned level of only 15,100,000 barrels. Normally, inventories start accumulating during this time of year for the following winter. This normal trend is not taking place. Inventories have remained stable during the last month.

Residual fuel oil is in direct competition with other fuels, i. e., gas and coal. To some extent it is possible for both institutional and domestic consumers to substitute such other fuels, principally bituminous coal, in the absence of an adequate supply of residual fuel oil. Such substitution, however, is possible only within limits, and these limits are not sufficient to permit the economy to be endangered by loss of any part of this vital fuel which might threaten. At present relative ceiling prices for residual fuel oil and bituminous coal, there is no incentive for consumers with standby coal facilities, principally utilities, to shift from the use of oil, which is in tight supply, to coal. Indeed, to the extent that oil is available, existing cost relationships favor the substitution of oil for coal. Although it is not possible to

ascertain a precise parity between coal and oil due to the existence of many variable factors such as locational differences, energy yield disparities, particular plants involved, and estimates of handling convenience, the following comparison is roughly indicative of the value relationship between both fuels. Currently, the ceiling price at New York City for a ton of bituminous coal converted to a barrel of No. 6 residual fuel oil equivalent is approximately $2.31. The ceiling price for No. 6 Commercial Standard Specification Residual Fuel Oil at New York Harbor for tank car delivery is $2.15. Thus, existing ceilings for these competitive fuels favor fuel oil by $.16 per barrel, not including the value factor involved in the easier handling of fuel oil. As a result of this price relationship, an augmented demand is being imposed upon a tight fuel oil supply situation already strained by the high level of industrial activity.

Normal pricing structure on East Coast. As indicated above, the East Coast is directly dependent upon tidewater movement for the residual fuel oil it consumes. Accordingly, the cost structure determining the normal selling prices of these products is predicated upon two basic factors: (1) Prices at sources of origin, and (2) prevailing tanker transportation rates from origin to Eastern Seaboard ports. The base period selling price for No. 6 Commercial Standard Specification Fuel Oil, the principal residual fuel oil consumed, was $1.75 per 42-gallon barrel at the U. S. Gulf. This selling price has been frozen into a ceiling under Ceiling Price Regulation 17, together with prices ranging from $2.08 per barrel for tank car or transport truck deliveries at Miami, Florida, the most Southerly fuel oil import point on the East Coast, to $2.23 at Searsport, Maine, the most Northerly point. These prices have been in effect since July, 1950. At that time, East Coast prices were structuralized on the basis of an average transportation rate which reflected approximately the difference between these prices and Gulf Coast prices. Thus, the U. S. Gulf refinery district selling price of $1.75 per barrel for No. 6 Fuel Oil, plus the prevailing tanker rate of 25 to 30 cents per barrel to New York Harbor, the single largest consuming area of fuel oil on the Eastern Seaboard, resulted in a New York Harbor price of $2.00 per barrel. To this delivered tanker cost was added a customary differential of 15 cents per barrel to cover terminal operations, establishing a ceiling price of $2.15 for barge, tank car or transport truck sales. Since July, 1950, although the f. o. b. prices at points of origin have remained stable, as well as prices at Eastern Seaboard ports, there has taken place a steady and substantial increase in transportation rates for tanker movements. From a rate of 25–30 cents per barrel for movement from U. S. Gulf to New York Harbor, the spot market advanced to a peak of $1.31 per barrel during January, 1951. To the extent that any fuel oil importer was totally dependent upon the spot market for the chartering of tankers, he found himself in an untenable position having to sustain an out-of-pocket loss of $1.06 per barrel, representing the spot market increase in tanker rates above the levels upon which East Coast ceiling prices have been established. This rate has since declined reflecting a seasonal softening of charter rates, but it is anticipated that rates will become firmer and may reach the spot market high of January, 1951 as the 1951–52 winter is approached. However, the majority of fuel oil transported is not dependent on the spot market for tonnage. Most importers of residual fuel oil either own tanker tonnage or control tonnage at relatively favorable rates on the basis of long-term charters. This tonnage is insufficient to meet the requirements for importation of the total volume of product required to supply Eastern Seaboard demands, and there is a need for a substantial supplementation of owned and controlled tonnage by these importers who find it necessary, therefore, to secure charters on the open market. The principal suppliers of residual fuel oil have advised the Office of Price Stabilization that term charters for the winter of 1951–52 have been entered into at a cost of approximately 66 cents per barrel, U. S. Gulf to New York Harbor. In addition, individual companies owning tonnage have submitted that their operating costs for this tonnage have advanced between 20 per cent and 80 per cent since the end of World War II.

Control of tanker rates. During the last war, shipping rates were under the control of the War Shipping Administration and were established at a basic rate of approximately 44 cents per barrel for shipments from the U. S. Gulf to New York Harbor with specified differentials for other ports based on location. Under controls instituted by the Office of Price Administration, the difference between maximum prices for residual fuel oils at New York Harbor and maximum prices at the Gulf Coast refinery district reflected this differential. With the abandonment of rate control by the War Shipping Administration and the elimination of price controls of petroleum products in the middle of 1946, the differential between prices at the U. S. Gulf and the East Coast continued to reflect prevailing transportation rates within moderate variations until July, 1950. As previously noted, since July both long and short term charter rates have advanced very considerably above this World War II War Shipping Administration rate and the lower rate upon which current East Coast ceiling prices were established. At the present time, ceiling prices for domestic charter rates are established under the General Ceiling Price Regulation and, therefore, are subject to the control of the Office of Price Stabilization. These rates, in common with ceiling prices for other goods and services covered by the General Ceiling Price Regulation, are frozen at the highest levels charged during the period December 19, 1950, to January 25, 1951 to a purchaser of the same class. During the base period, spot market charter rates had soared to five times their pre-Korean level. Study is under way by the Office of Price Stabilization of the justification for this increase. However, since this is necessarily a time-consuming study involving foreign charters not subject to U. S. jurisdiction and calling for joint consideration by other agencies of government, it is, therefore, deemed unwise and inequitable to forego interim consideration and resolution of the petroleum pricing problem pending completion of this study.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

Representations were made to the Director of Price Stabilization that unless existing ceiling prices of residual fuel oils on the Eastern Seaboard are adjusted to reflect, in part, increased transportation costs, a serious shortage of these products will ensue, particularly as the full impact of the defense effort makes itself felt on the level of industrial activity. Principal importers have emphasized that as existing commitments expire, renewals will be reduced and importation of product held to an absolute minimum. Alternatively, it has been indicated that product will be diverted to more profitable world markets whose demands have also increased concomitant with the allied defense effort. The Petroleum Administration for Defense, the government agency charged with the responsibility for ensuring adequate supplies of petroleum products for the economy, has called attention to the need for stimulating the movement of residual fuel oil to the East Coast. In a letter to the Director, the Petroleum Administrator has stated that any price impediments obstructing the supply of product to, and the accumulation of adequate inventories in this strategic industrial area, should be removed.

On the basis of the foregoing, the Director of Price Stabilization finds that an adjustment in the ceiling prices of residual fuel oil on the Eastern Seaboard is both necessary and warranted. Failure to take such action could impair the defense effort and impose undue hardships on domestic consumers dependent upon this fuel. It should stimulate supply and encourage inventory expansion which usually takes place at this time of year, but instead has remained stable. In addition, percentage yields of residual fuel oil are declining and these adjustments will tend to arrest this trend. Moreover, by adjusting the price relationship between residual fuel oil and other fuels, a more satisfactory balance in the demand relationship between these fuels will be achieved.

With the prospect of an acute supply situation developing this winter, it is desirable and urgent that the industrial establishments, principally utilities, which are equipped to use coal through existing stand-by facilities, maximize such use. According to informed sources, more than twenty million barrels of residual fuel oil a year may be saved through conversions and such conversions will be stimulated by these price adjustments.

The adjustments in ceiling prices herein authorized range from 17 cents per barrel at Miami, Florida, to 31 cents per barrel at Boston, Massachusetts, for No. 6 Commercial Standard Specifications Fuel Oil. In addition, provision is made for similar adjustments in the ceiling prices of all other grades of residual fuel oil. In selecting these amounts, consideration was given to two factors. Firstly, consideration was given to the substantial tonnage either owned or controlled by the importing oil companies which, to this extent at least, makes the spot market charter rates unrealistic. Thus, the amount of out-of-pocket loss suffered by payment of rates in excess of the transportation rates recognized in the ceiling prices established by this amendment, is partially offset. Secondly, in March, 1951, shipping companies entered into a participating pool under the direction of the Maritime Commission designed to make available to the Military Sea Transport Service, tonnage necessary to accomplish military requirements. In establishing this participating pool, the Maritime Commission, after an examination of operating costs of tankers, established a basic rate of 55 cents per barrel, Gulf to New York, for T/2 tankers which have a capacity of about 105,000 barrels of residual fuel oil, and a basic rate of 61 cents per barrel for Liberty Ships which are of smaller tonnage. Based on the T/2 rate, participants in the pool are receiving 11 cents per barrel higher than the basic rate established by the War Shipping Administration during the last war and the rate is approximately 30 cents per barrel higher than the rate upon which the present New York Harbor price structure is established.

The T/2 tanker rate established by the U. S. Maritime Commission appears to provide a fair basis for the adjustment of ceiling prices on the East Coast, necessitated by altered charter rates which have made these ceiling prices unrealistic. Accordingly, the adjustments in ceiling prices permitted by this amendment have been predicated upon the charter rates established for military movements by the U. S. Martime Commission. This action is tentative, pending the completion of studies designed to establish specific tanker rates for civilian movement as well as military movement of petroleum products.

In the judgment of the Director of Price Stabilization the ceiling prices established by this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

AMENDATORY PROVISIONS

Ceiling Price Regulation 17 is amended by deleting the word "(reserved)" and by adding the following to section 21 (a):

SEC. 21. *Residual fuel oils and blends thereof with distillate fuel oils*—(a) *Specific prices*—(1) *No. 6 Commercial Standard Specifications Fuel Oil.* The ceiling prices for No. 6 Commercial Standard Specifications Fuel Oil in bulk lots for delivery into barge and tank car or transport trucks, f. o. b. refineries and Seaboard tanker terminals shall be as follows at the enumerated points below:

Atlantic coast ports	Dollars per 42-gallon barrel	
	Barge	Tank car or transport truck
Searsport, Maine	2.51	2.54
Portland, Maine	2.51	2.54
Portsmouth, New Hampshire	2.51	2.54
Everett, Massachusetts	2.51	2.51
Boston, Massachusetts	2.51	2.51
Fall River, Massachusetts	2.47	2.47
Tiverton, Rhode Island	2.47	2.47
Providence, Rhode Island	2.47	2.47
New London, Connecticut	2.47	2.47
New Haven, Connecticut	2.47	2.47
Bridgeport, Connecticut	2.47	2.47
New York City, New York	2.45	2.45
Philadelphia, Pennsylvania	2.45	2.48
Baltimore, Maryland	2.45	2.48
Norfolk, Virginia	2.49	2.49
Wilmington, North Carolina	2.33	2.36

Jacksonville, Florida	2.28	2.31
Miami, Florida	2.22	2.25
Tampa, Florida	2.16	2.19
Port St. Joe, Florida	2.16	2.19
Panama City, Florida	2.16	2.19

(2) *Other residual fuel oil products.* Any seller who during the base period maintained a customary differential between No. 6 Commercial Standard Specifications Fuel Oil and other residual fuel oil products, such as low sulphur (maximum 1 per cent) No. 6 fuel oil, residual gas enrichment oils, residual No. 4 and 5 fuel oils and special No. 4 residual fuel oils may add to the specific prices set forth above such base period differentials.

(3) *Resellers.* Any reseller, or primary supplier acting as a direct seller to consumers or performing the function of a reseller, whose ceiling prices for residual fuel oils as established under other provisions of this regulation have been increased as a result of subparagraphs (1) and (2) above may add such increases to his ceiling prices.

(4) *Preservation of discounts, differentials, and allowances.* The ceiling prices determined under (1), (2), and (3) above shall in all cases reflect customary discounts, differentials and allowances in effect in the base period to all classes of purchasers.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 4, 1951.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[General Ceiling Price Regulation, Supplementary Regulation 29, Amdt. 1]

GCPR, SR 29—CEILING PRICES FOR CERTAIN SALES AT RETAIL AND AT WHOLESALE

CORRECTION OF EXAMPLE

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 29 to the General Ceiling Price Regulation (16 F. R. 803) is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Supplementary Regulation 29 to the General Ceiling Price Regulation corrects Example 2 in section 3. Example 2 incorrectly determines percentage markup on the basis of the invoice cost of 24⅝¢ from Mill C when it should be determined on the basis of the net invoice cost of 24⅜¢ from Mill B.

AMENDATORY PROVISIONS

Example 2 in section 3 of Supplementary Regulation 29 to the General Ceiling Price Regulation is amended to read as follows:

Example 2. A wholesaler customarily bought unbleached muslin from several mills. In November 1950, he purchased muslin from Mill A at 24⅛ cents net per yard, at which time his selling price was 29 cents net per yard. On December 13, 1950, he purchased a lot of unbleached muslin from Mill B at 24⅜ cents net per yard and established a selling price of 30 cents net per yard. On January 11, 1951, he purchased another lot of the muslin from Mill C at 24⅝ cents net per yard, but did not change his selling price. The 30-cent price became the wholesaler's frozen ceiling price. On February 28, 1951, the wholesaler purchased a lot of muslin from Mill A at 25⅛ cents net per yard; and on April 13, 1951, purchased from Mill B at 25⅜ cents net per yard. The wholesaler recalculates his ceiling price under this section as follows: He finds the percentage markup by reference to the last invoice received from any supplier before establishing the price which became his "frozen" price (i. e., the invoice from Mill B for 24⅜ cents net per yard), and determines his percentage markup with reference to his frozen price ($30-24\frac{3}{8}=5\frac{5}{8}\div 24\frac{3}{8}=23.1\%$) and applies the percentage markup on cost, 23.1%, to the net invoice cost on the last invoice received from each supplier prior to May 28, 1951. He finds that he has received invoices from Mill A on February 28, and from Mill B on April 13, and that as to these suppliers he will have two ceiling prices: for sales of muslin purchased from Mill A his ceiling price will be 30⅞ cents per yard ($25\frac{1}{8}\times .231=5\frac{4}{5}+25\frac{1}{8}=30\frac{7}{8}$ cents); for sales of muslin purchased from Mill B his ceiling price will be 31¼ cents per yard ($25\frac{3}{8}\times .231=5\frac{9}{10}+25\frac{3}{8}=31\frac{1}{4}$ cents).

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective on the 4th day of June 1951.

[General Overriding Regulation 12]

GOR 12—CERTAIN SOLID FUEL EXEMPTIONS

ANTHRAFILT AND SEACOAL FACING

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency Gen-

eral Order No. 2 (16 F. R. 738), this General Overriding Regulation 12 is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation is designed to exempt from price control certain solid fuels. At this time only two specially prepared coals called "anthrafilt" and "seacoal facing" when sold for non-fuel purposes are exempted, but it is anticipated that other items may be added from time to time.

The first of these, "anthrafilt", is prepared from selected sizes of Pennylvania anthracite and is used in lieu of sand and gravel as a filter medium in municipal filters, swimming pool filters, and all types of industrial filters. The total sales of anthrafilt during 1950 amounted to 8,701 tons. The market is very limited, anthrafilt being used only when new filters are built, or when existing filtration plants replace sand and gravel with anthrafilt; replacement is negligible. The product is engineered and sold exclusively by one organization designed to promote non-fuel uses of anthracite coal. While Ceiling Price Regulation 4 now governs Pennsylvania anthracite produced and sold f. o. b. mine, that regulation makes no mention of anthracite when used as a filter medium, and some confusion now exists as to whether or not Ceiling Price Regulation 4 governs the sale of anthrafilt.

While it is anticipated that there will be some increase in the price of anthrafilt if it is exempted from price control, this increase is not expected to go beyond that already granted coal producers as a result of the wage increase granted miners February 1, 1951. Anthrafilt, during the days of the Office of Price Administration, was exempt and no excess price increase was noted.

The other type of coal exempted is known as "seacoal facing" and is prepared by grinding and crushing high grade bituminous coal. For distribution purposes, it is usually packed in 100 lb. bags and sold to foundries for use in molds in the preparation of certain castings. The total use of seacoal facing during 1950 was approximately 100,000 tons, which is a very small part of the 550 to 560 million tons of bituminous coal produced annually. While seacoal facing is an element of cost in the production of castings, it represents less than $\frac{1}{10}$ of 1 percent of the current price of such castings. An extremely competitive situation exists in seacoal facing and as there is no shortage at the present time, nor any foreseeable shortage, it is not expected that exemption from price control will result in any unjustified increase in price. In addition, the Director has concluded that the maintenance of controls on these items would present the Office of Price Stabilization with administrative difficulties which are disproportionate to their significance.

This order exempting these two products also requires that the Office of Price Stabilization, Solid Fuels Branch, Washington 25, D. C., be notified of any price increase at the time such increase is to be put into effect. In this way the Office of Price Stabilization will be kept current with the price situation and will have immediate knowledge of any undue price increases, if such should occur.

REGULATORY PROVISIONS

Sec.
1. Applicability of this regulation.
2. Exemptions.
3. Suspensions.
4. Special treatment.
5. Records.
6. Reporting.
7. Definitions.
8. Reservations.

AUTHORITY: Sections 1 to 8 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *Applicability of this regulation.* This General Overriding Regulation exempts or suspends from price control the sales of certain solid fuels either directly or when sold for certain uses. This regulation also treats specially the sales of certain products or certain sales of products.

SEC. 2. *Exemptions.* No price regulation issued by the Office of Price Stabilization shall apply to the following:

(a) Sales by the producers or distributors of Pennsylvania anthracite when sold and delivered under the trade name, "Anthrafilt", for use as a filter medium. Persons making such sales are subject to the record-keeping (section 5) and reporting (section 6) provisions of this regulation.

(b) Sales by producers or distributors of bituminous coal when sold and delivered as seacoal facing for use on a non-fuel basis in the preparation of molds for castings. Persons making such sales are subject to the record-keeping (section 5) and reporting (section 6) provisions of this regulation.

SEC. 3. *Suspensions.* [Reserved]

SEC. 4. *Special treatment.* [Reserved]

SEC. 5. *Records.* (a) When required by the provisions of sections 2, 3, or 4 of this regulation, those persons making sales referred to in this regulation shall maintain for the inspection of the Director of Price Stabilization for a period of two years all records relating to such sales, indicating elements of cost and receipts.

(b) [Reserved]

SEC. 6. *Reporting.* (a) When required by the provisions of sections 2, 3, or 4 of this regulation, those persons selling the commodities listed in this regulation shall notify the Office of Price Stabilization, Solid Fuels Branch, Washington 25, D. C., within ten days after making any general increase in prices above those in effect on the effective date of this regulation.

(b) [Reserved]

SEC. 7. *Definitions.* The terms in this regulation shall be construed as follows:

(a) "Anthrafilt" means anthracite coal prepared and sold for use as a filter medium under the trade name "Anthrafilt".

(b) "Seacoal facing" means bituminous coal prepared and sold for use in the preparation of molds for castings and not as fuel.

(c) "Distributor" means a person who purchases a solid fuel f. o. b. mine or preparation plant for resale.

(d) "Solid fuel" means bituminous and anthracite coal, coke, briquets, semi-bituminous, sub-bituminous, lignite, Virginia anthracite, whether used for fuel or otherwise.

SEC. 8. Reservations. The Director of Price Stabilization reserves the right (a) to require persons covered by this regulation to submit records in connection with any price increase, and (b) to impose ceiling prices at any time for the sale of commodities listed in this regulation.

Effective date. This General Overriding Regulation shall become effective June 11, 1951.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

EDWARD P. PHELPS, JR.,
Acting Director of Price Stabilization.

REG. X—REAL ESTATE CREDIT

INT. 34—APPRAISED VALUE OF LOT AND RESIDENCE

Where a residence is to be constructed on a lot acquired more than twelve months ago, the "value" of the residential property, in accordance with the provisions of paragraph (i) (2) (ii) (b) of section 2 of Regulation X, is the appraised value of both the lot and residence.

INT. 35—SHORT-TERM CONSTRUCTION CREDITS

Section 5 (b) of Regulation X exempts from the prohibitions of Regulation X certain construction loans having a maturity of not more than 18 months. The Board, in Interpretation 12 (16 F. R. 2506) stated that a note evidencing such a construction loan which has a maturity of less than 18 months may be renewed pending completion of construction if the date of maturity of the renewal is not more than 18 months after the date the credit originally was extended.

It is the opinion of the Board, however, that such a note having a maturity of less than 18 months may not be renewed after the construction has been completed, even if the date of maturity of the renewal is not more than 18 months after the date the credit originally was extended.

[Regulation W, Interpretations 36 and 37]

REG. W—CONSUMER CREDIT

INT. 36—AUTOMOBILE APPRAISAL GUIDES

Certain publishers of automobile appraisal guides designated for purposes of Regulation W plan to publish in forthcoming editions, in addition to the ceiling prices approved by the Office of Price Stabilization (which in general are the average retail prices estimated for January 1951), an estimate of up-to-date, current average retail values. The Board has no objection to the publication of such current figures in the guides and, in fact, considers it desirable. However, until further notice, the appraisal guide value for purposes of Part 4 of section 9 (the Supplement to Regulation W) shall continue to be based on the average retail prices approved by the Office of Price Stabilization for price ceiling purposes.

INT. 37—CREDITS OVER $2,500 OR $5,000

From time to time questions have been received under Regulation W concerning the provisions of sections 7 (a), 8 (j) (5) and (6) which exempt from the regulation instalment credit "in a principal amount" exceeding $5,000 in the case of automobiles, and exceeding $2,500 in other cases.

The views expressed herein shall be regarded as superseding the views expressed in any earlier interpretations under the regulation which may be inconsistent with the views here expressed.

(a) *Whether credits considered individually or collectively.* In certain circumstances, credits may be added and treated collectively as a single credit for the purposes of the foregoing dollar figures. To be considered collectively as a single credit, the indebtedness must not only be incurred between the same Registrant and one customer, but it also must be incurred pursuant to a basic contract between them which governs the indebtedness and which must be relied upon to enforce the indebtedness. Even if there is some kind of basic contract, various items under it cannot be added together to reach the $2,500 (or $5,000) figure if they are represented by individual notes or other evidences of indebtedness that would support an action for the debt without resorting to the basic contract.

The amount stated in the basic contract is not controlling except to the extent that articles have actually been delivered or funds actually been disbursed pursuant to the contract. This may be illustrated by an example in which a Registrant and a customer enter into a contract for the delivery and instalment sale to the customer of, say, 50 refrigerators. Suppose further that each delivery of refrigerators is represented only by a mere receipt that refers back to the original contract and would not support a separate action. In such a case, deliveries under the original, basic contract would be subject to the regulation until the outstanding indebtedness exceeded $2,500. Once that figure was exceeded the entire credit would be exempt. Additional deliveries under the contract while the indebtedness exceeded $2,500 would also be exempt.

The foregoing principles would apply also in the case of instalment leases or instalment loans.

(b) *Continuance of over-$2,500 ($5,000) exemption.* The over-$2,500 (or $5,000) exemption is not lost merely because the principal amount of instalment indebtedness falls below such figure as the obligation is paid down. However, when such indebtedness has fallen below the exemption figure, additions thereto do not get the benefit of the exemption unless they are sufficient to bring the total of the indebtedness above the exemption figure. When the outstanding credit under a leasing or similar contract for financing quantity merchandising has exceeded the exemption amount, substitutions or exchanges of articles that are contemplated by the contract may be made without regard to cash repayments that may in the meantime have reduced the amount of the credit.

[NSA Order No. 33 (SRM-2)]

SRM-2—AUTHORITY AND RESPONSIBILITY OF GENERAL AGENTS TO UNDERTAKE EMERGENCY REPAIRS IN FOREIGN PORTS

Sec.
1. What this order does.
2. General Agents authority.
3. General Agents responsibilities.
4. General provisions.

AUTHORITY: Sections 1 to 4 issued under sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114.

SECTION 1. *What this order does.* This order outlines General Agents responsibilities and limited authority in connection with repairs in foreign ports to vessels operated for the account of the National Shipping Authority under General Agency Agreement.

SEC. 2. *General Agents authority.* The General Agents are hereby delegated authority to undertake for the account of the National Shipping Authority only such emergency repairs outside the Continental United States as may be necessary to enable vessels to complete their voyages, provided the repair costs are not in excess of $5,000.00 per vessel.

SEC. 3. *General Agents responsibilities.* In the event the cost of emergency repairs to a vessel in a foreign port is estimated to exceed $5,000.00, requests for approval shall be transmitted by General Agents by cable or wire addressed to Chief, Division of Ship Repair and Maintenance, Office of Ship Operations, National Shipping Authority, Commerce Building, Washington 25, D. C. and shall include the following information:

(a) The cost and time to effect permanent repairs on a straight time and overtime basis;

(b) The cost and time to effect such temporary repairs on a straight time and overtime basis as will enable the vessel to return to the United States under its own power or under tow;

(c) Whether required repairs can be effected by the use of facilities under the direct control of the Army, Navy, or other agencies of the United States Government, and if so, at what cost and time; and

(d) Where major repairs are involved, a recommendation regarding the advisability of repairing the vessel or abandoning it.

SEC. 4. *General provisions.* The General Agents shall keep the Division of Ship Repair and Maintenance in Washington fully posted in detail as to the nature, extent, cost, and estimated time for completion of all foreign repairs where such repairs are for the account of the National Shipping Authority.

As soon as practicable after completion of either temporary or permanent repairs, the General Agent shall forward to the Division of Ship Repair and Maintenance, Washington, D. C., the following:

(a) A copy of the repair specifications;

(b) An itemized statement of the costs of the repairs supported by copies of invoices;

(c) A copy of the completion certificate showing the repair period, signature of a National Shipping Authority representative (if available), the Agent's technical representative, the Chief Engineer, and the Master of the vessel.

(d) A report indicating the causes and circumstances leading to the repairs.

General Agents shall forthwith instruct their subagents and other representatives in foreign areas and their Masters and Chief Engineers with respect to their operations, pursuant to this directive.

This directive is intended strictly to limit repairs in foreign waters on vessels under National Shipping Authority control to those absolutely necessary to enable the vessels to complete their respective voyages at a port in the United States.

This directive shall not be construed to affect outstanding directives of the Office of the Comptroller.

Effective date: This order shall be effective on the date of publication in the FEDERAL REGISTER.

SECTION 1. *What this order does.* This order outlines General Agents limited authority to arrange for and award contracts for emergency repairs and servicing equipment of vessels operated for the account of the National Shipping Authority under General Agency Agreement.

SEC. 2. *General Agents authority.* The General Agents are:

(a) Hereby delegated authority to arrange for and award contracts for repairs only in emergency situations on vessels operated under the General Agency Agreement for the account of the National Shipping Authority when the aggregate cost of all such repairs in any one continental United States Port is not in excess of $1,000.00.

(b) Also delegated authority to arrange for and order the performance of minor repairs to or servicing of pantry and galley equipment, radios, gyro compasses, fathometers, radio direction finders, Lux fire extinguisher systems, ships clocks, binoculars, barometers, typewriters, adding machines, and any other vessel equipment of a similar nature where the aggregate amount does not exceed $500.00 in any one continental United States Port.

SEC. 3. *General provisions.* (a) The emergency repairs, as covered by Section 2 (a), may be awarded by the General Agents within the limitation specified under either Worksmalrep contract or the Master Lump Sum Repair Contract if the contractor is a holder thereof.

(b) The repairs to or servicing of ships equipment, as covered by section 2 (b), may be awarded by the General Agents within the limitation specified by letter or purchase order.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Order 1; Docket No. 3666]

PARTS 71-78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of May 1951.

It appearing, that pursuant to the Transportation of Explosives Act of March 4, 1921 (41 Stat. 1444), sections 831-835 of Title 18 of the United States Code approved June 25, 1948, and Part II of the Interstate Commerce Act, as amended, the Commission has heretofore formulated and published certain regulations for the transportation of explosives and other dangerous articles.

It further appearing, that in application received we are asked to amend the aforesaid regulations as set forth in provisions made a part thereof.

It is ordered, That the aforesaid regulations for the transportation of explosives and other dangerous articles be, and they are hereby, amended as follows:

PART 71—GENERAL INFORMATION AND REGULATIONS

Amend § 71.13 paragraph (b) (3) (15 F. R. 8263, Dec. 2, 1950), redesignated (a) (3) in 49 CFR 71.13, 1950 Rev., to read as follows:

(3) Shipments of explosive bombs and unfuzed explosive projectiles when not packed in wooden boxes, and large metal containers of incendiary bombs weighing 500 pounds or more, each, may be loaded in stock cars or in gondola cars (flat bottom) when adequately braced. Wooden boxed bombs which, due to size, cannot be loaded in closed cars may be loaded in open top cars but must be protected against accidental ignition.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. Sup. 835)

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAML OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71-78 OF THIS CHAPTER

Amend § 72.5, Commodity list (15 F. R. 8263, Dec. 2, 1950) (49 CFR 72.5, 1950 Rev.) as follows:

Article	Classed as—	Exemption and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Change				
Acetyl benzoyl peroxide, solution	Oxy. M.	No exemption, 73.222.	Yellow	1 quart.
Magnesium peroxide, solid	Oxy. M.	73.153, 73.154	Yellow	100 pounds.
Peracetic acid	Oxy. M.	73.223	Yellow	5 pints.
Rubber shoddy, regenerated rubber, or reclaimed rubber.	F. S.	73.153, 73.201	Yellow	10 pounds.
Zinc peroxide	Oxy. M.	73.153, 73.154	Yellow	100 pounds.
Add				
Antimony pentachloride, solution	Cor. L.	73.242, 73.245	White	5 pints.
Chlorpicrin and methyl chloride, mixture	Pois. A.	No exemption, 73.329 (c).	Poison Gas.	75 pounds.
Formic acid, solution	Cor. L.	73.244, 73.245, 73.289	White	5 gallons.
Tetraethyl dithio pyrophosphate and compressed gas mixture.	Pois. A.	No exemption, 73.334	Poison Gas.	Not accepted.
Tetranitromethane	Oxy. M.	No exemption, 73.203	Yellow	25 pounds.
Thiocarbonyl chloride (see thiophosgene).				
Thiophosgene (thiocarbonyl chloride)	Pois. B.	No exemption, 73.356	Poison	1 gallon

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. Sup. 835)

PART 73—SHIPPERS

1. Cancel first three paragraphs and Note 1 appearing under authority citation for Part 73 (15 F. R. 8275, Dec. 2, 1950) (15 F. R. 8824, Dec. 12, 1950) (49 CFR 73, 1950 Rev.).

2. Add Note 1 to § 73.8 paragraph (a), (15 F. R. 8276, Dec. 2, 1950) (49 CFR 73.8, 1950 Rev.) to read as follows:

NOTE 1: Because of the present emergency and until further order of the Commission, compressed gas cylinders 40 inches in length and 8 inches in diameter, charged with not more than 40 pounds of carbon dioxide or when charged with nitrogen not in excess of 2,000 pounds per square inch, and shipped by or to the Canadian Department of National Defense in accordance with Board of Transport Commissioners for Canada Order No. 76253 dated Mar. 10, 1951, may be shipped to destinations in the United States or through the United States to points in Canada.

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

3. Amend § 73.29 paragraph (a) (15 F. R. 8277, Dec. 2, 1950) (49 CFR 73.29, 1950 Rev.) to read as follows:

§ 73.29 *Empty containers.* (a) Empty cylinders, barrels, kegs, drums, or other containers, previously used for the shipment of any explosive or other dangerous article, as defined in this part, if authorized for reuse must have all openings including removable heads, filling and vent holes, tightly closed before being offered for transportation. Small quantities of the material with which containers were loaded may remain in "empty" containers and when the vapors remaining therein are unstable, it is permissible to add sufficient inert gas to render the vapors stable.

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

4. Amend § 73.53 paragraph (i) (15 F. R. 8286, Dec. 2, 1950) (49 CFR 73.53, 1950 Rev.) to read as follows:

(i) *Ammunition for cannon.* Ammunition for cannon is fixed, semi-fixed or separate loading ammunition which is fired from a cannon, mortar, gun, howitzer or recoilless rifle.

5. Amend § 73.65 paragraph (b) (2) (15 F. R. 8289, Dec. 2, 1950) (49 CFR 73.65, 1950 Rev.) to read as follows:

(2) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums. Net weight not to exceed 200 pounds.

6. Amend § 73.93 paragraph (a) (5) (15 F. R. 8294, Dec. 2, 1950) (49 CFR 73.93, 1950 Rev.) to read as follows:

(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums. Use of these containers will be permitted because of the present emergency and until further order of the Commission.

7. Amend § 73.94 paragraph (e) (15 F. R. 8295, Dec. 2, 1950) (49 CFR 73.94, 1950 Rev.) to read as follows:

(e) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums. Drums having wooden heads must be provided with a strong, sift-proof liner. Use of these containers will be permitted because of the present emergency and until further order of the Commission.

8. Amend § 73.100 paragraphs (b) (p), and (r), (1) (10), and (11) (15 F. R. 8295, 8296, Dec. 2, 1950) (49 CFR 73.100, 1950 Rev.) to read as follows:

(b) Small-arms ammunition, designed to be fired from a pistol, revolver, rifle, or shotgun held by the hand or by the hand and shoulder, or machine guns of caliber less than .75, is fixed ammunition consisting of a metallic or paper cartridge case, a primer and a propelling charge, with or without bullet, shot, tear gas material, or tracer components, but not including bullets loaded with high explosives or incendiary compositions or mixtures.

(p) Toy paper caps, consisting of paper cap ammunition for toy pistols, in sheets, strips, rolls, or individual caps, must not contain more than an average of twenty-five hundredths of a grain of explosive composition per cap and must be packed in inside packages constructed of cardboard not less than 0.013 inch in thickness, metal not less than 0.008 inch in thickness, or noncombustible plastic not less than 0.015 inch in thickness, which shall provide a complete enclosure and the minimum dimensions of each side or end of such package shall be not less than 1/8 inch in height. Unless greater weight of composition is approved by the Bureau of Explosives, the number of caps in these inside packages shall be limited so that not more than 10 grains of explosive composition shall be packed into one cubic inch of space and not exceeding 17.5 grains of the explosive composition of toy caps shall be packed in any inside container. These inner containers must be packed in outside containers as specified in § 73.109.

(r) Common fireworks are manufactured articles designed primarily for the purpose of producing visible or audible pyrotechnic effects by combustion or explosion. Fireworks other than those specifically enumerated in this paragraph are classed as special fireworks (see § 73.88 (d)). Common fireworks must be in the finished state exclusive of mere ornamentation, as supplied to the retail trade and must be so constructed and packed that loose pyrotechnic composition will not be present in packages in transportation. No component part of any article listed in this paragraph which is designed to produce an audible effect (other than propelling or expelling charges) shall contain pyrotechnic composition in excess of 2 grains in weight.

(1) Roman candles, not exceeding ten balls spaced uniformly in the tube, total pyrotechnic composition in each candle not to exceed 20 grams in weight.

* * * * *

(10) Mines and shells of which the mortar is an integral part, total pyrotechnic composition not to exceed 40 grams each in weight.

(11) Firecrackers and salutes with casings, the external dimensions of which do not exceed one and one-half inches in length or one quarter inch in diameter, total pyrotechnic composition not to exceed two grains each in weight.

9. Amend § 73.107 paragraph (c) (15 F. R. 8296, Dec. 2, 1950) (49 CFR 73.107, 1950 Rev.) to read as follows:

(c) Small-arms primers containing anvils must be packed in cellular inside packages, with partitions separating the layers and columns of the primers, so that the explosion of a portion of the primers in the completed shipping package will not cause the explosion of all the primers. They must be packed as prescribed in paragraph (a) of this section or in fiberboard boxes, spec. 12B (§ 78.205 of this chapter), and equipped with corrugated fiberboard liners having Mullen or Cady test equal to or exceeding that of the box. Not more than 5000 primers shall be packed in each fiberboard box.

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

10. Amend § 73.116 paragraph (h) (15 F. R. 8298, Dec. 2, 1950) (49 CFR 73.116, 1950 Rev.) to read as follows:

(h) No cargo tank or compartment thereof used for the transportation of any flammable liquid shall be liquid full. The vacant space (outage) in a cargo tank or compartment thereof used in the transportation of flammable liquids shall be not less than 1 percent; sufficient space (outage) shall be left vacant in every case to prevent leakage from or distortion of such tank or compartment by expansion of the contents due to rise in temperature in transit.

11. Amend § 73.119 paragraphs (a) (9) and (a) (12), (15 F. R. 8298, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

(9) Spec. 21A, 21B, 22A, or 22B (§§ 78.222, 78.223, 78.196, or 78.197 of this chapter). Fiber drums and plywood drums with a single inside glass, earthenware, or metal container of not over 1 gallon capacity in each drum. Inside container must be so cushioned at top, sides, and bottom, as to prevent breakage or leakage in transit.

(12) Spec. 103, 103-W, 103AL-W, 104, 104-W, 104A, 104A-W, 105A300, 105A300-W, 105A400, 105A400-W, 105A500, 105A500-W, 105A600, 105A600-W, ARA-II,[2] ARA-III,[2] ARA-IV,[2] or ARA-IV-A.[2] Tank cars. (§§ 78.265, 78.280, 78.291, 78.269, 78.284, 78.270, 78.285, 78.271, 78.286, 78.272, 78.287, 78.273, 78.288, 78.274, and 78.289 of this chapter.) For cars equipped with expansion domes, manhole closures must be so designed that pressure will be released automatically by starting the operation of removing the manhole cover. (See § 73.432 for shipping instructions.)

12. Amend § 73.119 paragraph (e) (2) (15 F. R. 8299, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

(2) Spec. 103, 103-W, 103AL-W, 104, 104-W, 104A, 104A-W, 105A300, 105A300-W, 105A400, 105A400-W, 105A500, 105A500-W, 105A600, 105A600-W, ARA-II,[2] ARA-III,[2] ARA-IV,[2] or ARA-IV-A[2]. Tank cars. (§§ 78.265, 78.280, 78.291, 78.269, 78.284, 78.270, 78.285, 78.271, 78.286, 78.272, 78.287, 78.273, 78.288, 78.274, and 78.289 of this chapter). Cars having expansion domes must be equipped with manhole closures, identification marks, and dome placards as prescribed in paragraphs (f) (4), (g), (h), and (h) (1) of this section. (See Note 1 of paragraph (f) (3) of this section).

13. Amend § 73.119 paragraph (f) (4) (15 F. R. 8299, 8300, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

(4) Spec. 103, 103-W, 103AL-W, 104, 104-W, ARA-II,[2] ARA-III,[2] or ARA-IV.[2] Tank cars. (§§ 78.265, 78.280, 78.291, 78.269, and 78.284 of this chapter). Cars must have their manhole closures equipped with approved safeguards making removal of closures from manhole openings practically impossible while car interior is subjected to vapor pressure of lading. These cars must be stenciled on each side of domes in line with the ladders, and in a color contrasting to the color of the dome, with the identification mark as prescribed in paragraph (g) of this section.

14. Amend § 73.119 paragraph (h) (15 F. R. 8300, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

(h) *Dome placards.* Spec. 103, 103-W, 103AL-W, 104, 104-W, ARA-II,[2] ARA-III,[2] or ARA-IV.[2] Tank cars. (§§ 78.265, 78.280, 78.291, 78.269, and 78.284 of this chapter). Cars loaded with materials described in paragraphs (e) and (f) of this section must, in addition to the "Dangerous" placards, be protected by special dome placards, at least 4 1/8 by 10 7/8 inches, with legible wording as follows: (No change in dome placard).

15. Add paragraph (a) (6) to § 73.124 (15 F. R. 8301, Dec. 2, 1950) (49 CFR 73.124, 1950 Rev.) to read as follows:

(6) Spec. 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, or 105A600W. Tank cars. (§§ 78.271, 78.286, 78.272, 78.287, 78.273, 78.288, 78.274, or 78.289 of this chapter). Tanks must be restenciled 104A or 104A–W and be equipped with safety valves of the type and size used on 104A and 104A–W tank cars. See Note 1 in § 73.119 (f) (3). (See § 73.432 for shipping instructions.)

16. Amend § 73.138 paragraph (a) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.138, 1950 Rev.) to read as follows:

§ 73.138 *Pentaborane.* (a) Pentaborane must be packed in specification cylinders as prescribed for any compressed gas, except acetylene. Cylinders must be protected with valve protection caps or must be packed in strong wooden boxes and blocked therein so as to protect the valves from injury under conditions ordinarily incident to transportation.

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

17. Cancel paragraph (c) (27) of § 73.153 (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.153, 1950 Rev.).

18. Add paragraphs (c) (27) and (c) (60) to § 73.153, (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.153, 1950 Rev.) to read as follows:

(27) Tetranitromethane.
(60) Acetyl benzoyl peroxide, solution.

19. Amend § 73.154 paragraph (a) (9) (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.154, 1950 Rev.) to read as follows:

(9) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums.

20. Amend § 73.156 paragraph (a) (5) (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.156, 1950 Rev.) to read as follows:

(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums.

21. Amend § 73.163 paragraph (a) (3) (15 F. R. 8305, Dec. 2, 1950) (49 CFR 73.163, 1950 Rev.) to read as follows:

(3) Spec. 21A, 21B, 22A, or 22B (§§ 78.222, 78.223, 78.196, or 78.197 of this chapter). Fiber or plywood drums with inside metal drums, Spec. 2F (§ 78.25 of this chapter).

22. Amend § 73.168 paragraph (a) (2) (15 F. R. 8306, Dec. 2, 1950) (49 CFR 73.168, 1950 Rev.) to read as follows:

(2) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums with inside metal drums, Spec. 2F (§ 78.25 of this chapter).

23. Amend § 73.175 paragraph (a) (4) (15 F. R. 8306, Dec. 2, 1950) (49 CFR 73.175, 1950 Rev.) to read as follows:

(4) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums.

24. Amend § 73.178 paragraph (a) (6) (15 F. R. 8307, Dec. 2, 1950) (49 CFR 73.178, 1950 Rev.) to read as follows:

(6) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums.

25. Amend § 73.195 paragraph (a) (5) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.195, 1950 Rev.) to read as follows:

(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums. Must be externally treated to provide protection against moisture.

26. Amend § 73.197 paragraph (a) (3) (15 F. R. 8309, Dec. 2, 1950) (49 CFR 73.197, 1950 Rev.) to read as follows:

(3) Sheets, rolled, in fiber drums, spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter), having 2 straps applied lengthwise and 1 or more circumferentially; straps at least ½ by 0.02 inch steel.

27. Amend § 73.201 paragraph (a) (4) (5) and (8) and paragraph (b) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.201, 1950 Rev.) to read as follows:

§ 73.201 *Rubber scrap, rubber buffings, rubber shoddy, regenerated rubber or reclaimed rubber.* (a) Rubber scrap, if ground, powdered, or granulated, and the rubber content of which exceeds 45 percent, as determined by subtracting the sum of the percentage of ash and the percentage of acetone extract from 100; rubber buffings from any grade of rubber, irrespective of the percentage of rubber content; and rubber shoddy, regenerated rubber, or reclaimed rubber, must be packed in specification containers as follows (see paragraph (b) of this section):

* * * * *

(4) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes.
(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums.

* * * * *

(8) Spec. 36A, 36B, or 44B (§§ 78.230, 78.231, or 78.236 of this chapter). Bags.

(b) Rubber scrap, rubber shoddy, regenerated rubber, or reclaimed rubber are not subject to Parts 71–78 of this chapter if shipped in the following forms:

(1) Rubber scrap, not ground or ground with cord or fabric insertion.

(2) Rubber shoddy, regenerated rubber, or reclaimed rubber when in the form of dense homogeneous nonporous sheets or rolls, the sheets of thickness of ⅛ inch or greater, packed flat or in rolls, and properly cooled before shipment.

28. Cancel § 73.203 paragraphs (a) and (b) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.203, 1950 Rev.).

29. Add § 73.203 paragraph (a) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.203, 1950 Rev.) to read as follows:

§ 73.203 *Tetranitromethane.* (a) Tetranitromethane must be packed in specification containers as follows:

(1) Spec. 15A or 15B (§§ 78.168 or 78.169 of this chapter). Wooden boxes, gross weight not exceeding 150 pounds, with inside containers which must be: glass bottles not more than 1 quart capacity each, with closures securely fastened and of a type not deteriorated by the contents, each bottle individually packed in a tight metal container and cushioned therein with absorbent incombustible material; or aluminum cans or polyethylene bottles, not more than 5 pounds capacity each, with opening not more than 1.25 inches diameters, fitted with securely fastened screw type closures and gaskets of material not deteriorated by contact with the contents, cushioned with not less than 2 inches of absorbent incombustible cushioning material between the inside containers and any part of the wooden box.

(2) Spec. 6A, 6B, or 6C (§§ 78.97, 78.98, or 78.99 of this chapter). Metal barrels or drums, with inside stainless steel or aluminum drum (or drums) having no opening exceeding 2.5 inches diameter, openings to be securely closed by a screw type gasketed device, with gaskets of material not deteriorated by contact with the contents. The inside drum (or drums) must be cushioned with not less than 2 inches of absorbent incombustible cushioning material; inside drums shall be of not less than 20 gauge metal and shall be tested for leakage before packing in the outside drum.

30. Amend § 73.204 paragraphs (a) (5) and (a) (6) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.204, 1950 Rev.) to read as follows:

(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums with inside metal drums.

(6) Spec. 21A or 21F (§§ 78.222 or 78.223 of this chapter). Fiber drums, net weight not over 250 pounds; drums must have a metal foil (laminated between two sheets of kraft paper with thermoplastic adhesive) moisture and water barrier wound into the sidewall of the drum and located not more than 2 plies from the interior of drum but not to be wound as the first ply; a metal foil moisture and water barrier must also be present in the fiber or wood heading; exterior of drum sidewall must be protected with a water resistant coating; in addition to the tests prescribed by §§ 78.222–4 and 78.223–4 of this chapter, a drum having been given a 4-foot diagonal bottom chime drop must, after being emptied, withstand complete immersion of the bottom in 6 inches of water for 4 hours without leakage to the interior; drums must not be offered for transportation by carriers by water.

31. Amend § 73.206 (paragraph (c) (2), (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.206, 1950 Rev.) to read as follows:

(2) Spec. 17H or 37D (§§ 78.118 or 78.125 of this chapter). Metal drums (single-trip) authorized for cylindrical blocks at least 2 inches in diameter and not less than 6 inches in length, or rectangular blocks not less than 6 inches in length and not less than 2 inches in any other dimension. Net weight not over 30 pounds.

32. Amend § 73.207 paragraph (b) (5) (15 F. R. 8311, Dec. 2, 1950) (49 CFR 73.207, 1950 Rev.) to read as follows:

(5) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums which must be lined or coated, or otherwise treated so as to prevent the entrance of moisture in quantities sufficient to create a hazardous condition in transportation; drums to withstand two drops from height of 4 feet in same spot or one 6 foot drop in place of drop test as provided in Spec. 21A or 21B (§§ 78.222–4 or 78.223–4 of this chapter); maximum loaded capacity 250 pounds net. Use of this container will be permitted because of the present emergency and until further order of the Commission.

33. Amend § 73.222 paragraph (a) (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.222, 1950 Rev.) to read as follows:

§ 73.222 *Acetyl peroxide and acetyl benzoyl peroxide, solution.* (a) Acetyl peroxide must be shipped in solution in a non-volatile solvent and must contain not more than 25 percent by weight of the peroxide. Acetyl benzoyl peroxide must be shipped in solution in a non-volatile solvent and must contain not more than 40 percent by weight of the peroxide. They must be packed in specification containers as follows:

34. Add paragraph (b) to § 73.223 (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.223, 1950 Rev.) to read as follows:

(b) Peracetic acid solutions not exceeding 40 percent strength packed in strong wooden or fiberboard boxes, with not more than one inside glass container not exceeding 1 pint or 1 pound capacity, cushioned with sterile absorbent cotton or other cushioning material which will not react with the contents to generate heat, and with such cushioning material in sufficient quantity to completely absorb the contents of the bottle, are exempt from specification packaging, marking, other than name of contents, and labeling requirements.

35. Amend § 73.227 paragraph (a) (2) (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.227, 1950 Rev.) to read as follows:

(2) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums completely coated on the inside with a suitable wax; or fiber drums having a metal foil (laminated) between two sheets of kraft paper with thermoplastic adhesive moisture and water barrier wound into the sidewall of the drum and located not more than 2 plies from the interior to drum but not to be wound as the first ply; a metal foil moisture and water barrier must also be present in the fiber or wood heading; exterior of drum sidewall must be protected with a water resistant coating; in addition to the tests prescribed by §§ 78.222–4 or 78.223–4 of this chapter, a drum having been given a 4-foot diagonal bottom chime drop must after being emptied, withstand complete immersion of the bottom in 6 inches of water for 4 hours without leakage to the interior.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS: DEFINITION AND PREPARATION

36. Add paragraph (a) (5) to § 73.254 (15 F. R. 8315, Dec. 2, 1950) (49 CFR 73.254, 1950 Rev.) to read as follows:

(5) Spec. MC 310 (§ 78.330 of this chapter). Tank motor vehicles.

37. Amend § 73.261 paragraph (a) (2), (15 F. R. 8316, Dec. 2, 1950) (49 CFR 73.261, 1950 Rev.) to read as follows:

(2) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums with a single inside container consisting of a glass bottle not over 64 fluid ounces capacity filled with not over six pounds by weight of sulfuric acid (approximately 50 fluid ounces by volume). Bottle must be suspended in center of outside container by means of adequate supports and surrounded by bicarbonate of soda in sufficient quantity to fill drum and neutralize contents in the event of breakage.

38. Amend § 73.266 paragraph (f) (15 F. R. 8319, Dec. 2, 1950) (49 CFR 73.266, 1950 Rev.) to read as follows:

(f) Hydrogen peroxide solution in water exceeding 52 percent hydrogen peroxide by weight may also be packed in specification containers as follows:

(1) Spec. 103A–AL–W (§ 78.292 of this chapter). Tank cars. Venting arrangement must be approved by the Bureau of Explosives.

39. Add paragraph (g) to § 73.266 (15 F. R. 8319, Dec. 2, 1950) (49 CFR 73.266, 1950 Rev.) to read as follows:

(g) Hydrogen peroxide solution in water exceeding 52 percent hydrogen peroxide by weight may also be shipped in tank motor vehicles subject to Parts 71–78 of this chapter provided that such shipments are for ultimate use by the Departments of the Army, Navy, and Air Force of the United States Government. Tank motor vehicles must be of design and venting arrangement approved by the Bureau of Explosives.

40. Amend § 73.275 paragraph (a) (1) (15 F. R. 8321, Dec. 2, 1950) (49 CFR 73.275, 1950 Rev.) to read as follows:

(1) Spec. 15A, 12B, 21A, or 21B (§§ 78.168, 78.205, 78.222, or 78.223 of this chapter). Wooden boxes, fiberboard boxes, or fiber drums with inside containers which must consist of polystyrene or polyethylene bottles not over 2 pounds capacity each, closed by means of threaded acid-resistant caps with a resilient gasket or lining impervious to the acid; caps must have at least one complete continuous thread and be wired or sealed to the bottle to prevent turning of cap after bottle is closed for shipment.

41. Amend § 73.289 paragraph (a) (15 F. R. 8323, Dec. 2, 1950) (49 CFR 73.289, 1950 Rev.) to read as follows:

§ 73.289 *Formic acid and formic acid solutions.* (a) Formic acid and formic acid solutions must be packed in specification containers as follows:

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

42. Amend § 73.301 paragraph (f) (2) (15 F. R. 8324, Dec. 2, 1950) (49 CFR 73.301, 1950 Rev.) to read as follows:

(2) Manifolding is authorized for containers of the following gases, provided individual containers are equipped with approved safety devices as required by § 73.34 (f) and further provided that each container is equipped with individual shut-off valve, or valves, which shall be tightly closed while in transit. Manifold branch lines to these individual shut-off valves shall be sufficiently flexible to prevent injury to the valves which otherwise might result from the use of rigid branch lines. When a temperature measuring device is used on a cylinder the manifold shut-off valve shall be deemed the equivalent of the individual shut-off valve; boron trifluoride; hydrogen; hydro-carbon gases (nonliquefied); methane.

43. Amend § 73.309 paragraph (a) (15 F. R. 8327, Dec. 2, 1950) (49 CFR 73.309, 1950 Rev.) to read as follows:

§ 73.309 *Acetylene gas.* (a) Acetylene gas must be shipped in cylinders, spec. 8 or 8AL (§§ 78.59 or 78.60 of this chapter). The cylinders must be filled with a porous material that has been tested with satisfactory results by the Bureau of Explosives, and this material must be charged with a suitable solvent.

44. Amend § 73.314 paragraph (a) Table, (15 F. R. 8328, Dec. 2, 1950) (49 CFR 73.314, 1950 Rev.) to read as follows:

Kind of gas	Maximum permitted filling density, note 1	Required type of tank car, note 2
Change		
Dichlorodifluoromethane	119 125	ICC–106A500, ICC–110A500–W, note 12, ICC–105A300.
Monochlorodifluoromethane	105 110	ICC–106A500, ICC–110A500–W, note 12, ICC–105A300.

45. Amend § 73.314 paragraph (a) Table Note 3 paragraph (b) (15 F. R. 8328, Dec. 2, 1950) (49 CFR 73.314, paragraph (a) Table Note 3 paragraph (b), 1950 Rev.) to read as follows:

(b) Because of the present emergency and until further order of the Commission, and only for shipments made during the months of November to March, inclusive, the following filling densities may be used in lieu of those specified in the table in Note 3 (a).

[No change in table.]

46. Amend § 73.314 paragraph (a) Table Note 12, (15 F. R. 8329, Dec. 2, 1950) (49 CFR 73.314 paragraph (a) Table Note 12, 1950 Rev.) to read as follows:

NOTE 12: Tanks complying with specification 106A500 (§ 78.275 of this chapter), containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., or dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane or monochlorodifluoromethane, or tanks complying with specification 106A600 (§ 78.276 of this chapter), containing hydrogen sulfide, may be transported on trucks or semitrailers only, when securely chocked or clamped thereon to

prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 of this chapter, for rail freight-motor vehicle shipments.

47. Amend § 73.314 paragraph (g) (15 F. R. 8329, Dec. 2, 1950) (49 CFR 73.314, 1950 Rev.) to read as follows:

(g) The maximum quantity of any liquefied gas, except crude nitrogen fertilizer solution, fertilizer ammoniating solution containing free ammonia, methyl chloride, and vinyl chloride, inhibited, loaded into tanks mounted on one car structure must not exceed 60,000 pounds: *Provided*, That for single-unit tank car tanks having water weight capacities not less than 86,240 pounds nor over 90,640 pounds, lagged with 4 inches of corkboard, equipped with one or more safety valves set to open at a pressure of 225 pounds per square inch, the total discharge capacity of which must be sufficient to prevent building up of pressure in the tank in excess of 225 pounds per square inch, mounted on one car structure, tank jackets stenciled ICC–105A300 (§ 78.271 of this chapter) if tanks are forge-welded and ICC–105A300W (§ 78.286 of this chapter) if tanks are fusion-welded, and in all other respects constructed and maintained in full compliance with I. C. C. shipping container specification 105A500 or 105A500W (§§ 78.273 or 78.288 of this chapter), the quantity of liquefied chlorine gas or liquefied sulfur dioxide gas loaded into such tanks must be not more than 110,000 pounds and the quantity of liquefield chlorine gas loaded into such tanks must be at least 107,800 pounds. (See Appendix D to Subpart I of Part 78 of this chapter.)

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

48. Amend § 73.329 paragraph (c) (15 F. R. 8332, Dec. 2, 1950) (49 CFR 73.329, 1950 Rev.) to read as follows:

(c) Chlorpicrin, mixture of chlorpicrin and methyl chloride, or mixtures of chlorpicrin with nonpoisonous liquid, in addition to containers prescribed in paragraphs (a) and (b) of this section, when offered for transportation by carriers by rail freight, highway, or water may be shipped in specification containers as follows:

49. Amend § 73.334 paragraph (a) (15 F. R. 8333, Dec. 2, 1950) (49 CFR 73.334, 1950 Rev.) to read as follows:

§ 73.334 *Hexaethyl tetraphosphate, parathion, tetraethyl dithio pyrophosphate, and tetraethyl pyrophosphate mixtures.* (a) Hexaethyl tetraphosphate, parathion, tetraethyl dithio pyrophosphate, and tetraethyl pyrophosphate mixtures with compressed gas, containing not more than 10 percent by weight of hexaethyl tetraphosphate, parathion, tetraethyl dithio pyrophosphate, or tetraethyl pyrophosphate must be packed in specification containers as follows:

50. Add paragraph (b) (7) to §73.345 (15 F. R. 8334, Dec. 2, 1950) (49 CFR 73.345, 1950 Rev.) to read as follows:

(7) Thiophosgene.

51. Amend § 73.353 paragraph (a) (2) (15 F. R. 8335, Dec. 2, 1950) (49 CFR 73.353, 1950 Rev.) to read as follows:

(2) Spec. 15A, 15B, 15C, 16A, 19A, or 12B (§§ 78.168, 78.169, 78.170, 78.185, 78.190, or 78.205 of this chapter). Wooden, wire-bound wooden, or fiberboard boxes, with inside metal cans containing not over 1 pound each; outage required so can shall not become liquid-full at 130° F. Cans must be of tinplate or lined with suitable material and must have concave or pressure ends. Cans must be able to withstand an interior pressure of 130 pounds per square inch gauge without evidence of leakage or permanent distortion.

52. Add § 73.356 paragraph (a) (15 F. R. 8336, Dec. 2, 1950) (49 CFR 73.356, 1950 Rev.) to read as follows:

§ 73.356 *Thiophosgene.* (a) Thiophosgene must be packed in specification containers as follows:

(1) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes, with inside containers which must be tightly closed glass bottles not exceeding 1 pint capacity each, securely packed in absorbent incombustible cushioning material. Cushioning material must be capable of absorbing entire contents of the container.

(2) Spec. 15A or 15B (§§ 78.168 or 78.169 of this chapter). Wooden boxes, with inside containers which must be tightly closed glass bottles not exceeding 1 quart capacity each, securely packed in absorbent incombustible cushioning material. Cushioning material must be capable of absorbing entire contents of container.

53. Amend § 73.373 paragraph (a) (3) (15 F. R. 8338, Dec. 2, 1950) (49 CFR 73.373, 1950 Rev.) to read as follows:

(3) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums, gross weight 400 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; in addition to tests prescribed by §§ 78.222–4 or 78.223–4 of this chapter, a drum must withstand two drops from a height of 6 feet to solid concrete, the first drop to be made diagonally on bottom chime and the second drop diagonally on the top chime; when heads are made of wood, the grain of the wood must run parallel to concrete surface.

54. Amend § 73.374 paragraph (a) (2), (15 F. R. 8338, Dec. 2, 1950) (49 CFR 73.374, 1950 Rev.) to read as follows:

(2) Spec. 21A or 21B (§§ 78.222 or 78.223 of this chapter). Fiber drums, authorized only for nitrochlorbenzene, para, flaked, gross weight 400 pounds; side walls must be of at least 10-ply construction having strength not less than 1,200 pounds Mullen or Cady test; in addition to tests prescribed by §§ 78.222–4 and 78.223–4 of this chapter, a drum must withstand two drops from a height of 6 feet to solid concrete, the first drop to be made diagonally on the bottom chime and the second drop diagonally on the top chime; when heads are made of wood, the grain of the wood must run parallel to concrete surface.

55. Amend § 73.392 paragraph (c) (15 F. R. 8339, Dec. 2, 1950) (49 CFR 73.392, 1950 Rev.) to read as follows:

(c) Radioactive materials such as ores, residues, etc., of low activity packed in strong tight containers are exempt from specification packaging and labeling requirements for shipment in carload lots by rail freight only provided the gamma radiation or equivalent will not exceed 10 milliroentgens per hour at a distance of 12 feet from any surface of the car and that the gamma radiation or equivalent will not exceed 10 milliroentgens per hour at a distance of 5 feet from either end surface of the car. There must be no loose radioactive material in the car, and the shipment must be braced so as to prevent leakage or shift of lading under conditions normally incident to transportation. The car must be placarded by the shipper as provided in §§ 74.541 (b) and 74.553 of this chapter. Shipments must be loaded by consignor and unloaded by consignee.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. Sup. 835)

PART 74—CARRIERS BY RAIL FREIGHT

1. Add Note 1 to § 74.505 paragraph (a) (15 F. R. 8345, Dec. 2, 1950) (49 CFR 74.505, 1950 Rev.) to read as follows:

NOTE 1: Because of the present emergency and until further order of the Commission, compressed gas cylinders 40 inches in length and 8 inches in diameter, charged with not more than 40 pounds of carbon dioxide or when charged with nitrogen not in excess of 2,000 pounds per square inch, and shipped by or to the Canadian Department of National Defense in accordance with Board of Transport Commissioners for Canada Order No. 76253 dated Mar. 10, 1951, may be shipped to destinations in the United States or through the United States to points in Canada.

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

2. Amend § 74.526 paragraph (b) (1) (15 F. R. 8346, 8347, Dec. 2, 1950) (49 CFR 74.526, 1950 Rev.) to read as follows:

(b) Shipments of explosive bombs and unfuzed explosive projectiles when not packed in wooden boxes, and large metal containers of incendiary bombs weighing 500 pounds or more, each, may be loaded in stock cars or in gondola cars (flat bottom) when adequately braced. Wooden boxed bombs which, due to size, cannot be loaded in closed cars may be loaded in open top cars but must be protected against accidental ignition.

(1) Explosives, class A, must not be loaded, transported, or stored in cars equipped with lighted heaters.

3. Amend § 74.529 paragraph (a) (15 F. R. 8347, Dec. 2, 1950) (49 CFR 74.529, 1950 Rev.) to read as follows:

§ 74.529 *Cars for class B explosives.* (a) Explosives, class B, must not be loaded, transported, or stored in cars equipped with lighted heaters.

4. Amend § 74.532 paragraphs (b), (d), and (e) (15 F. R. 8347, Dec. 2, 1950) (49 CFR 74.532, 1950 Rev.) to read as follows:

(b) Flammable liquids (red label) and flammable gases (red gas label) must not be loaded, transported, or stored in cars equipped with lighted heaters.

(d) Metal barrels or drums containing flammable liquids may be loaded on steel gondola or flat cars or into stock cars, but must not be loaded into hopper bottom cars.

(Note 1 to paragraph (d) remains unchanged.)

(e) Empty cylinders, barrels, kegs, or drums, previously used for the shipment of any dangerous article, as defined in Part 73 of this chapter, must have all openings including removable heads, filling and vent holes properly closed before being offered for transportation. Small quantities of the material with which containers were loaded may remain in "empty" containers and when the vapors remaining therein are unstable, it is permissible to add sufficient inert gas to render the vapors stable.

SUBPART E—HANDLING BY CARRIERS BY RAIL FREIGHT

5. Amend § 74.584 paragraph (a) Table (15 F. R. 8354, Dec. 2, 1950) (49 CFR 74.584, 1950 Rev.) to read as follows:

	Label notation to follow entry of the article on the billing	Placard notation to follow entry of the article on the billing	Placard endorsement must be 3/8 high and appear on the billing near the space provided for the car number
For high explosives, initiating explosives and low explosives, class A, and smokeless powder for small arms in quantity exceeding 50 pounds net weight	None	"Explosives Placard".	"Explosives".
For explosive chemical ammunition containing class A poison gas	Poison gas label	"Explosives and Poison Gas Placard".	"Explosives" and "Poison Gas".
For explosives, class B, except smokeless powder for small arms in quantity exceeding 50 pounds net weight	None	"Dangerous Placard".	"Dangerous".
For explosives, class C	None	None	None.
For flammable liquids	Red label	"Dangerous Placard".	"Dangerous".
For flammable solids	Yellow label	"Dangerous Placard".	"Dangerous".
For oxidizing materials	Yellow label	"Dangerous Placard".	"Dangerous".
For corrosive liquids	White label	"Dangerous Placard".	"Dangerous".
For compressed nonflammable gases in containers other than tank cars	Green label	None	None.
For compressed nonflammable gases in tank cars	None	"Dangerous Placard".	"Dangerous".
For compressed flammable gases	Red gas label	"Dangerous Placard".	"Dangerous".
For poisonous gases or liquids, class A	Poison gas label	"Poison Gas Placard".	"Poison Gas".
For poisonous liquids or solids, class B	Poison label	"Dangerous Placard".	"Dangerous".
For tear gases, class C	Tear gas label	None	None.
For radioactive materials, class D, poison	Radioactive materials label.	"Dangerous class D Poison Placard".	"Dangerous class D Poison".

6. Amend § 74.589 paragraph (g) (7), (15 F. R. 8356, Dec. 2, 1950), redesignated as (h) (7) in 49 CFR 74.589, 1950 Rev., to read as follows:

(7) Loaded flat car.

NOTE: Flat cars equipped with permanently attached ends of rigid construction shall be considered as open-top cars. See subparagraph (8) of this paragraph.

7. Amend § 74.589 paragraph (i) (7) (15 F. R. 8356, Dec. 2, 1950), redesignated as (j) (7) in 49 CFR 74.589, 1950 Rev., to read as follows:

(7) Loaded flat car.

NOTE: Flat cars equipped with permanently attached ends of rigid construction shall be considered as open-top cars. See subparagraph (8) of this paragraph.

8. Add paragraph (a) (1) to § 74.595 (15 F. R. 8357, 8358, Dec. 2, 1950) (49 CFR 74.595, 1950 Rev.) to read as follows:

(1) Small quantities of the material with which the tank car was loaded may remain in the "empty" tank car and when the vapors remaining therein are unstable it is permissible to add sufficient inert gas to render the vapors stable.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. Sup. 835)

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

1. Add Note 1 to § 77.805 paragraph (a) (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.805, 1950 Rev.) to read as follows:

NOTE 1: Because of the present emergency and until further order of the Commission, compressed gas cylinders 40 inches in length and 8 inches in diameter, charged with not more than 40 pounds of carbon dioxide or when charged with nitrogen not in excess of 2,000 pounds per square inch, and shipped by or to the Canadian Department of National Defense in accordance with Board of Transport Commissioners for Canada Order No. 76253, dated March 10, 1951, may be shipped to destinations in the United States or through the United States to points in Canada.

2. Amend § 77.840 paragraph (c) (15 F. R. 8367, Dec. 2, 1950) (49 CFR 77.840, 1950 Rev.) to read as follows:

(c) Tanks complying with specification 106A500 (§ 78.275 of this chapter), containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., or dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane or monochlorodifluoromethane, or tanks complying with specification 106A800 (§ 78.276 of this chapter), containing hydrogen sulfide, may be transported on trucks or semitrailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (1) of this chapter, for rail freight-motor vehicle shipments.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. Sup. 835)

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART C—SPECIFICATIONS FOR CYLINDERS

1. Amend § 78.51–10 paragraph (c) (15 F. R. 8406, Dec. 2, 1950) (49 CFR 78.51–10, 1950 Rev.) to read as follows:

(c) Cylinders with wall thickness less than 0.100 inch, the ratio of tangential length to outside diameter shall not exceed 4.0.

2. Amend § 78.51–17 paragraph (d) (15 F. R. 8407, Dec. 2, 1950) (49 CFR 78.51–17, 1950 Rev.) to read as follows:

(d) *Alternate guided-bend test.* An alternate guided-bend test jig, as illustrated in § 78.51–23 (a) and (b), may be used for testing the soundness of fillet welded lap joints and joggle butt joints. The test specimen shall be bent across the weld as illustrated in sketch A or B for fillet welded lap joints and as illustrated in sketches C and D for joggle butt joints. The specimen shall be bent until the elongation at the outer surface, adjacent to the root of the weld, between the lightly scribed gauge lines—a to b, shall be at least 20 percent; except that this percentage may be reduced for steels having a tensile strength in excess of 50,000 pounds per square inch, as provided in § 78.51–16. No tested specimen shall show a crack, or other defect, as specified in § 78.51–17 (c). The gauge lines shall be lightly scribed before bend-

ing. The amount of elongation may be conveniently determined with a Brinell microscope or any other suitable method may be employed.

3. Amend § 78.51–20 paragraph (a) Table I (15 F. R. 8407, Dec. 2, 1950) (49 CFR 78.51–20, 1950 Rev.) to read as follows:

[1] A heat of steel made under any of the above specifications, chemical analysis of which is slightly out of the specified range, is acceptable, if satisfactory in all other respects, provided the standard permissible variations from specified chemical ranges and limits published in the American Iron and Steel Institute Products Manual, section 10, dated June 1945, are not exceeded or are approved by the Bureau of Explosives.
[2] This designation shall not be restrictive and the commercial steel is limited in analysis shown in the table.
[3] Any suitable heat treatment in excess of 1,100° F., except that liquid quenching is not permitted.
[4] Addition of other elements to obtain alloying effect is not authorized.
[5] Grain size 6 or finer according to A. S. T. M. Spec. E 19–46.
[6] Only fully killed steel authorized.

4. Amend § 78.55–2 paragraph (c) (15 F. R. 8417, Dec. 2, 1950) (49 CFR 78.55–2, 1950 Rev.) to read as follows:

(c) *Size.* The maximum water capacity of this type shall not exceed 12 pounds or 333 cubic inches. The maximum outside diameter of the shell shall be five inches and maximum length of shell 21 inches.

5. Amend § 78.59–12 paragraph (b) (15 F. R. 8420, Dec. 2, 1950) (49 CFR 78.59–12, 1950 Rev.) to read as follows:

(b) Pressure must be maintained for 30 seconds and sufficiently longer to insure complete expansion. Any internal pressure applied after heat-treatment and previous to the official test must not exceed 90 percent of the test pressure.

6. Amend § 78.59–16 paragraph (a) (15 F. R. 3420, Dec. 2, 1950) (49 CFR 78.59–16, 1950 Rev.) to read as follows:

§ 78.59–16 *Porous filling.* (a) Cylinders must be filled with an approved porous material of such structure that it will not disintegrate or sag when wet with solvent or when subjected to normal service. The porous filling material shall be uniform in quality and free of voids, except that a well drilled into the filling material beneath the valve is authorized, provided that such a well be filled with a material of such type that the functions of the filling material are not impaired. Overall shrinkage of the filling material is authorized, provided the total clearance between the cylinder shell and filling material, after solvent has been added, does not exceed ½ of 1 percent of the respective diameter or length but in no case to exceed ⅛ inch measured diametrically and longitudinally and that such clearances do not impair the functions of the filling material. In all cases, the filling material as installed in the cylinder must be approved by the Bureau of Explosives.

7. Amend § 78.60–4 paragraph (a) Table 1 (15 F. R. 8422, 8423, Dec. 2, 1950) (49 CFR 78.60–4, 1950 Rev.) to read as follows:

8. Amend § 78.60–14 paragraph (b) (15 F. R. 8423, Dec. 2, 1950) (49 CFR 78.60–14, 1950 Rev.) to read as follows:

(b) Pressure must be maintained for 30 seconds and sufficiently longer to insure complete expansion. Any internal pressure applied after heat-treatment and previous to the official test must not exceed 90 percent of the test pressure.

9. Amend § 78.60–20 paragraph (a) (15 F. R. 8424, Dec. 2, 1950) (49 CFR 78.60–20, 1950 Rev.) to read as follows:

§ 78.60–20 *Porous filling.* (a) Cylinders must be filled with an approved porous material of such structure that it will not disintegrate or sag when wet with solvent or when subjected to normal service. The porous filling material shall be uniform in quality and free of voids, except that a well drilled into the filling material beneath the valve is authorized: *Provided,* That such a well be filled with a material of such type that the functions of the filling material are not impaired. terial. In all cases, the filling material as installed in the cylinder must be approved by the Bureau of Explosives.

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS, AND BOXES

10. Amend § 78.83–11 paragraph (a) (15 F. R. 8435, Dec. 2, 1950) (49 CFR 78.83–11, 1950 Rev.) to read as follows:

78.83–11 *Marking.* (a) Marking on each container by embossing on head with raised marks, or by embossing on footring on drums equipped with footrings, or on metal plates securely attached to drum by welding after which the part to which the plate is attached must be annealed, as follows:

11. Amend § 78.107–9 paragraph (a) (3) (15 F. R. 8446, Dec. 2, 1950) (49 CFR 78.107–9, 1950 Rev.) to read as follows:

(3) Gauge of metal, Brown and Sharpe, at start of fabrication; rated capacity in gallons; year of manufacture (for example, 7–30–50).

12. Amend § 78.108–9 paragraph (a) (3) (15 F. R. 8447, Dec. 2, 1950) (49 CFR 78.108–9, 1950 Rev.) to read as follows:

(3) Gauge of metal, Brown and Sharpe, at start of fabrication; rated capacity in gallons; year of manufacture (for example, 7–30–50).

13. Amend § 78.109–9 paragraph (a) (3) (15 F. R. 8447, Dec. 2, 1950) (49 CFR 78.109–9, 1950 Rev.) to read as follows:

(3) Gauge of metal, Brown and Sharpe, at start of fabrication; rated capacity in gallons; year of manufacture (for example, 7–30–50).

14. Amend § 78.116–8 paragraph (b) (15 F. R. 8448, 8449, Dec. 2, 1950) (49 CFR 78.116–8, 1950 Rev.) to read as follows:

(b) Closing part (plug, cap, plate, etc. see Note 1) must be of metal as thick as prescribed for head of container: *Provided,* That thinner metal closures or closures of other material are authorized for containers of 12 gallons capacity or less when opening to be closed is not over 2.5" diameter and closures, except threaded metal closures, are fitted with outside sealing devices which cannot be removed without destroying the closure or sealing device. Closures of a material other than metal must be of a type approved by the Bureau of Explosives for use, after satisfactory proof of efficiency.

(Note 1 to paragraph (b) remains unchanged.)

15. Amend § 78.125–5 paragraph (a) Table (15 F. R. 8451, Dec. 2, 1950) (49 CFR 78.125–5, 1950 Rev.) to read as follows:

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS AND MAILING TUBES

21. Amend § 78.205–28 paragraph (a) (15 F. R. 8476, Dec. 2, 1950) (49 CFR 78.205–28, 1950 Rev.) to read as follows:

§ 78.205–28 *Special box; authorized only for wet electric storage batteries of impregnated rubber, asphaltum composition, wooden-battery-box type, or aluminum-case type, having a net weight greater than 75 pounds.* (a) Must comply with this specification except as follows: Must be one-piece type of double wall corrugated fiberboard at least 400-pound test, or solid fiberboard testing at least 400 pounds; boxes may or may not have hand holes provided for in ends of box providing same will not materially weaken box, top of battery to be protected by wood frame, corrugated trays or scored sheets of corrugated fiberboard having minimum test of 200 pounds, top protection must bear evenly on connectors of battery to facilitate stacking of batteries; bottom of batteries to be protected by minimum of one excelsior pad

or double wall corrugated fiberboard pad; sides and ends to be cushioned between batteries and walls of box; combined thickness of cushioning material and walls of box must be not less than ½", cushioning to be of excelsior pads, corrugated fiberboard or other suitable cushioning material; no more than one battery to be packed per box, authorized gross weight 190 pounds.

22. Amend § 78.214–14 paragraph (a) (15 F. R. 8479, 8480, Dec. 2, 1950) (49 CFR 78.214–14, 1950 Rev.) to read as follows:

§ 78.214–14 *Flap closures.* (a) Flaps must butt or have full overlap excepting that inner flaps may overlap ½ inch.

SUBPART I—SPECIFICATIONS FOR TANK CARS

23. Add § 78.291 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.291, 1950 Rev.) to read as follows:

§ 78.291 *Specification for tank cars having fusion-welded aluminum tanks Class ICC–103–AL–W.* This specification covers Class ICC–103–AL–W tank cars having fusion-welded aluminum tanks to which have been added Association of American Railroads details which are not inconsistent therewith. Wherever the word "approved" is used in this specification, it means approval by the Association of American Railroads' Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e)—Procedure.

ICC–1. *Type.* (a) Tanks built under this specification must be cylindrical, with heads dished convex outward, and must have at least one expansion dome with manhole, and such other external projections as are prescribed herein.

AAR–1. *Lagging.* (a) Not a specification requirement. If applied, the tank shell and dome must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.225 B. t. u. per square foot, per degree Fahrenheit differential in temperature, per hour.

AAR–1. (b) Before lagging is applied the tank surfaces to be lagged and the inside surface of the metal jacket shall be painted.

AAR–1. (c) The barrel, ends and dome of tank, except seatings of tanks on bolster and pads of fixtures, shall be lagged with insulating material.

AAR–1. (d) The lagging throughout shall be covered with a metal jacket not less than ⅛ inch in thickness.

AAR–1. (e) Openings through lagging shall be flashed around projections to prevent admission of water. Top of dome shall be so constructed that liquids cannot enter between dome wall and outer shell.

ICC–2. *Bursting pressure.* (a) The calculated bursting pressure, based on the lowest tensile strength of the plate and the efficiency of the longitudinal welded joint, must be at least 300 pounds per square inch.

AAR–2. *Thickness of plates.* (a) The wall thickness in the cylindrical portion of the tank must be calculated by the following formula but in no case shall the wall thickness be less than that specified in paragraph ICC–4.

$$t=\frac{Pd}{2SE},$$

where

t = thickness in inches of thinnest plate.
P = specified min. bursting pressure pounds per square inch.
d = inside diameter in inches.
S = minimum ultimate tensile strength in pounds per square inch in zone adjacent to welds as given below.
E = efficiency of longitudinal welded joint = 90 percent.

Alloy 996A = 9,500 p. s. i.
Alloy 990A = 11,000 p. s. i.
Alloy M1A = 14,000 p. s. i.
Alloy GS11A = 24,000 p. s. i.

ICC–3. *Material.* (a) All plates for tank and expansion dome shall be of an aluminum alloy suitable for fusion welding and not subject to rapid deterioration by the lading.

ICC–3. (b) All rivets must be of aluminum alloy of suitable composition. They must be handled and driven in a manner that will insure the requisite strength.

AAR–3. *Material.* (a) All plates for the tank and expansion dome must conform to Specification A. S. T. M. No. B–178, latest issue (Aluminum and Aluminum Alloy Sheet and Plate for Use in Pressure Vessels).

AAR–3 (b) Aluminum alloy castings must conform to Specification A. S. T. M. No. B–26, latest issue (Aluminum-Base Alloy Sand Castings) or B–108, latest issue (Aluminum-Base Alloy Permanent Mold Castings).

AAR–3. (c) Aluminum alloy forgings must be of suitable composition.

ICC–4. *Thickness and width of plates.* (a) The minimum thickness of plates must be as follows:

	Inch
Bottom sheet	5/16
Shell sheet	½
Expansion dome sheet	½
Tank head (dished)	5/16
Tank head (ellipsoidal)	½
Expansion dome head (dished or ellipsoidal)	½

ICC–4. (b) The minimum width of bottom sheet of tank must be 60 inches, measured on the arc, but in all cases the width must be sufficient to bring the entire width of the longitudinal welded joint, including welds, above the cradle.

AAR–4. (a) For extreme diameter A. A. R. clearance requirements govern.

AAR–4. (b) For tanks built of one piece cylindrical sections, the thickness specified for bottom sheet must apply to the entire cylindrical shell.

AAR–4. (c) Car must have underframe.

ICC–5. *Tank heads.* (a) Tank heads must be of approved contour.

AAR–5. *Tank heads.* (a–1) Tank heads may be dished or ellipsoidal for pressure on concave side.

AAR–5. (a–2) Dished heads must have main inside radius not exceeding ten feet. The inside knuckle radius must be not less than five inches.

AAR–5. (a–3) Ellipsoidal tank head shapes shall be an ellipsoid of revolution in which the major axis shall equal the diameter of the shell and the minor axis shall be one-half of this.

AAR–5. (b–1) The thickness of tank head must be determined by the following formulas but shall in no case be less than that specified in paragraph ICC–4 (a). The following formula shall be used in computing thickness of dished heads:

$$t=\frac{5PL}{6SE},$$

where

t = thickness of plate, inches.
P = bursting pressure, pounds per square inch.
L = main inside radius to which head is dished measured on concave side of head, inches.
S = minimum ultimate tensile strength in pounds per square inch in zone adjacent to welds. (See par. AAR–2 (a).)
E = efficiency of welded joint to shell = 90 percent.

AAR–5. (b–2) The thickness of an ellipsoidal head shall be determined by the following formula:

$$t=\frac{Pd}{2SE},$$

where

t = thickness of plate, inches.
P = specified minimum bursting pressure, pounds per square inch.
d = inside diameter, inches.
S = minimum ultimate tensile strength in pounds per square inch in zone adjacent to welds. (See par. AAR–2 (a).)
E = efficiency of welded joint to shell = 90 percent.

ICC–6. *Welding.* (a) All joints must be fusion welded by a process which investigation and laboratory tests by the Mechanical Division of the Association of American Railroads have proved will produce satisfactory results.

ICC–6 (b) Manhole ring, safety valve flange, and bottom outlet nozzle flange or other attachments may be riveted or fusion welded. Riveted joints must be made metal to metal without interposition of other material. Rivets must be calked inside. For computing rivet areas the effective diameter of a driven rivet is the diameter of its reamed hole, which hole must in no case exceed nominal diameter of rivet by more than 1/16 inch. Use of rivets of less than ⅝" nominal diameter prohibited. Fusion welding for securing these attachments in place must be of double welded butt joint type or double full-fillet lap joint type.

ICC–6. *Calking.* (c) All attachments riveted to the tank must have the rivets and the joints formed by attachments calked on the inside of tank.

AAR–6. *Welding.* (a) Fusion welding to be performed by fabricators certified by Association of American Railroads as qualified to meet the requirements of this specification. All joints must be fabricated by means of fusion welding in accordance with the following requirements:

AAR–6. *Definitions*—(b–1) *Fusion welding.* A process of welding metals in the molten, or molten and vaporous state without the application of mechanical pressure or blows.

AAR–6. (b–2) *Double-welded butt joint.* A joint formed by the fusion of two abutting edges with a filler metal added from both sides of the joint and with reinforcement on both sides. (For permission to remove reinforcements see par. AAR–6 (m–1).)

NOTE: A joint with filler metal added from one side only is considered equivalent to a double-welded butt joint when and if means are provided for accomplishing complete penetration and reinforcement on both sides of the joint.

AAR–6 (b–3) *Full-fillet joint.* A fusion weld of approximately triangular cross section the throat of which lies in a plane disposed approximately 45 degrees with respect to the surface of the parts joined, and built up to the full thickness of the plate or nozzle flange that is being joined to a parallel plate, having the throat not less than 0.7 the thickness of the edge of the plate being welded.

AAR–6. (b–4) *Throat.* The minimum thickness of a weld along a straight line passing through the bottom of the cross sectional space provided to contain a fusion weld.

AAR–6. (b–5) *Single full-fillet lap joint.* A single full-fillet-lap joint is one in which the overlapped edges of two plates are full-fillet welded along one edge only.

AAR–6. (b–6) *Double full-fillet lap joint.* A double full-fillet lap joint is one in which the overlapped edges of the plates to be joined are full-fillet welded at the edge of each plate.

NOTE: When attachments, referred to in paragraph ICC–6 (b) have flanges thicker than the plates to which they are joined, and are secured in place by fillet welds, such welds shall be of the double full-fillet-lap-joint type in which the throat is not less than 0.7 the thickness of the plate to which the attachment is joined.

AAR–6. (b–7) *Plug weld.* A plug weld is one used to join two plates by welding through a hole in one of them to secure a bond and subsequently filling the hole with weld metal. Plug welds to be used only in conjunction with fillet welds.

AAR–6. (c) *Joint efficiency, maximum.* The efficiencies for computing the value of the various types of fusion-welded joints in tanks constructed in conformity with requirements of this specification shall not exceed the following:

Types of joints	*Efficiency of Joint (percent)*
Double-welded butt joint	90.0
Full-fillet joint:	
Single full-fillet lap joint without plug welds. (See fig. 21)	55.0
Single full-fillet lap joint with plug welds. (See fig. 20)	65.0
Double full-fillet lap joint	65.0

NOTE: Strength of fillet welds shall be computed on the throat dimension of the triangular section, using the strength in shear and in conjunction with the stresses given below, multiplied by the joint efficiency given above.

For end welds, the maximum shear stresses shall be 80.0 percent of the minimum ultimate tensile strength given in paragraph AAR–2 (a).

For side welds, the maximum shear stresses shall be 60.0 percent of the minimum ultimate tensile strength given in paragraph AAR–2 (a).

Plug-weld. The maximum load on each plug weld shall be computed for either shear or tension by the following formula:

$$L=0.63\ (d-\tfrac{1}{4})^2\times s,$$

where

L = total maximum load in shear or tension on each plug weld in pounds.
d = diameter of the bottom of the hole in which the plug is made in inches.
s = maximum stress in shear or tension, as the case may be, in pounds per square inch.
s for shear = 80 percent of minimum ultimate tensile strength. (See par. AAR–2 (a).)
s for tension = minimum ultimate tensile strength. (See par. AAR–2 (a).)

Welding must meet the following test requirements:

AAR–6. *Test plates.* (d–1) A test plate of the dimensions shown in figure 10 from aluminum of the same specifications and thickness as the shell plates prepared for welding may be attached to the shell plate being welded, as in figure 9, on one end of one longitudinal joint of each tank so that the edges to be welded in the test plate are a continuation of and duplication of the corresponding edges of the longitudinal joint. In this case the weld metal shall be deposited in the test plates continuously with the weld metal deposited in the longitudinal joint. The plates for test samples may be taken from any part of one or more plates of the same lot of material that is used in the fabrication of welded tanks and without reference to the direction of the mill rolling. As an alternate method, a detach-test plate may be welded as provided for in AAR–6 (d–2). When more than one welding operator is employed on a tank, the required test plates for the individual tanks shall be made by welding operator designated by the inspector.

AAR–6. (d–2) When a test plate is welded for the longitudinal joints, none need be furnished for circumferential joints in the same tank, providing the welding process, procedure, and technique are the same.

AAR–6. (d–3) When there are several tanks being welded in succession, or at any one time, the plate thicknesses of which fall within a range of ¼ inch, each 200 feet of longitudinal and circumferential seams may be considered as the equivalent of one tank and only the test plates required by paragraphs AAR–6 (d–1) and AAR–6 (d–2) need be made, provided they are welded in the same way as the joints in question. When the manufacturer is in the regular and continuous production of ICC–103–AL–W or ICC–103–A–AL–W tanks, only one test plate need be made for one tank out of twenty (20) of any of these classes, provided a minimum of one (1) test plate per week for any of these classes is made.

The test plates shall be so supported that warping due to welding shall not throw the finished test plate out of line by an angle of over five degrees.

AAR–6. *Test specimens.* (e) The coupons for tension and bend test shall be removed as shown in figure 10 and be of the dimensions shown in figures 10 and 11.

AAR–6. *Tension tests.* (f–1) Two types of tension-test specimens are required, one of the joint and the other of the weld metal. The tension specimen of the joint shall be transverse to the welded joint, and shall be the full thickness of the welded plate after the outer and inner surfaces of the weld have been machined to a plane surface flush with the plate.

AAR–6. (f–2) The tensile strength of the joint specimen in figure 10 shall not be less than the minimum ultimate tensile strength in zone adjacent to welds. (See par. AAR–2 (a).)

AAR–6. (f–3) The tension-test specimen of the weld metal shall be taken entirely from the deposited weld metal and shall meet the following requirements:

Tensile strength = at least that of the minimum ultimate tensile strength in zone adjacent to welds. (See par. AAR–2 (a).)

Elongation, minimum in 2", or 4D (D = diameter) for each aluminum alloy must be as follows:

	Percent
Alloy 996A	25
Alloy 990A	28
Alloy M1A	23
Alloy GS11A	5

For plate thicknesses less than ⅝ inch, the all-weld-metal tension test may be omitted.

AAR–6. *Bend tests.* (g–1) The bend-test specimen shall be transverse to the welded joint of the full thickness of the plate and shall be of rectangular cross section with the width 1½ times the thickness of the specimen. The inside and outside surfaces of the weld shall be machined to a plane surface flush with the plate. The edges of this surface shall be rounded to a radius not over 10 percent of the thickness of the plate. The specimen shall be bent cold under free bending conditions until the least elongation measured within or across approximately the entire weld on the outside fibers of the bend-test specimen is not less than the percentages specified in paragraph AAR–6 (f–3).

AAR–6. g–2) When a crack is observed in the convex surface of the specimen between the edges the specimen shall be considered to have failed and the test shall be stopped. Cracks at the corners of the specimen shall not be considered as a failure. The appearance of small defects in the convex surface shall not be considered as a failure if the greatest dimension does not exceed 1/16 inch.

AAR–6. *Specific gravity of weld metal.* (h) No specific gravity test required.

AAR–6. *Retests.* (i–1) Should any of the tests fail to meet the requirements by more than 10 percent, no retests shall be allowed. (See par. AAR–2 (a).)

AAR–6. (i–2) Should any of the tests fail to meet the requirements by 10 percent or less, retests shall be allowed. A second test plate shall be welded by the same operator who welded the plate which failed to meet the test requirements. The retest shall be made on specimens cut from the second plate.

AAR–6. (i–3) The retests shall comply with the requirements. For either of the tension retests, two specimens shall be cut from the second test plate, and both of these shall meet the requirements.

AAR–6. (i–4) When there is more than one specimen of the same type and when one or more of the group specimens fail to meet the requirements, the retest shall be made on an entire group of specimens which shall meet the requirements.

AAR–6. (i–5) If the percentage of elongation of any tension test specimen is less than that specified and any part of the fracture is more than ¾ inch from the center of the gauge length of the two-inch specimen, or is outside of the middle third of the gauge length of the full-size specimen as indicated by the scribe scratches marked on the specimen before testing, a retest shall be allowed.

AAR–6. *Nondestructive tests.* (j–1) All longitudinal and circumferential welded joints of the tank shell shall be examined throughout their entire length by the X-ray method of radiography. When a nozzle, expansion dome or fitting is attached to a tank by a flange or saddle inserted in and butt welded to the shell at the edge of the flange as shown in figure 22, the weld so made shall be radiographed. Radiographic examination of welds attaching other designs of nozzles, expansion domes or fittings to the tank shell may be omitted.

AAR–6. (j–2) Where excess metal is removed welded joints shall be prepared as follows: The weld reinforcements on both the inside and outside shall be ground, chipped and ground, or suitably machined to remove the irregularities of the weld surface so that it merges smoothly into the plate surface. The finished surface of the reinforcement may have a crown of uniform amount not to exceed approximately 1/16 inch.

ARR–6. (j–3) The films obtained by the use of X-rays shall be known as "exographs" or "radiographs".

AAR–6. (j–4) The weld shall be radiographed with a technique which will determine quantitatively the size of defects with thicknesses equal to and greater than two percent of the thickness of the base metal. To determine whether the radiographic technique employed is detecting defects of a thickness equal to and greater than two percent of the thickness of the base metal, suitable thickness gauges or penetrameters shall be placed on the side of the plate nearest the source of radiation and used in the following manner:

AAR–6. (j–4) (1) To determine whether the radiographic technique employed is detecting defects of a thickness equal to and greater than two percent of the thickness of the base material, thickness gauges or penetrameters of the type shown in figure 12 shall be placed on the side of the plate nearest the source of radiation and used as directed.

AAR–6. (j–4) (2) The material of the penetrameter shall be substantially the same as that of the plate under examination.

AAR–6. (j–4) (3) The thickness of the penetrameter shall not be more than two percent of the thickness of the plate.

AAR–6. (j–4) (4) There shall be three holes in each penetrameter of diameters equal respectively to two, three, and four times the penetrameter thickness, but in no case less than $\frac{1}{16}$ inch. The smallest hole must be distinguishable on the radiograph.

AAR–6. (j–4) (5) Each penetrameter shall carry an identifying number representing, to two significant figures, the minimum thickness of plate for which it may be used.

AAR–6. (j–4) (6) The images of these identifying numbers shall appear clearly on the radiograph.

AAR–6. (j–4) (7) Each penetrameter shall be 1¼ inches long and ½ inch wide. (See fig. 12.)

AAR–6. (j–5) Two penetrameters shall be used for each exposure, one at each end of the exposed length, parallel and adjacent to the weld seam with the small holes at the outer ends.

AAR–6. (j–6) The film during exposure shall be as close to the surface of the weld as is practicable. The distance of the film from the surface of the weld on the side opposite the source of radiation shall, if possible, be not greater than one inch. With the film not more than one inch from the weld surface the minimum distance between the source of radiation and the back of the weld shall be not less than 14 inches.

AAR–6. (j–7) There shall also be a plain indication on each film showing the job number, the shell, or shell section, and seam, as well as the manufacturer's identification, symbol or name.

AAR–6. (j–8) If it is necessary to expose the film at a distance greater than one inch from the weld, the following ratio of:

$$\frac{\text{Distance from source of radiation to weld surface toward radiation}}{\text{Distance from weld surface toward radiation to film}}$$

shall be at least 7 to 1.

AAR–6. (j–9) All radiographs shall be free from excessive mechanical processing defects which would interfere with proper interpretation of the radiograph.

AAR–6. (j–10) Identification markers, the images of which will appear on the film, shall be placed adjacent to the weld and their location accurately and permanently stamped near the weld on the outside surface of the shell, or shell section, so that a defect appearing on the radiograph may be accurately located in the actual weld.

AAR–6. (j–11) The radiographs shall be submitted to the inspector. If the inspector requests, the following data shall be submitted with the radiographs: (1) The thickness of the base metal, (2) the distance of the film from the surface of the weld, (3) the distance of the film from the source of radiation.

AAR–6. (j–12) The acceptability of welds examined by radiography shall be judged by comparing the radiographs with a standard set of radiographs for aluminum tanks, which may be obtained by purchase from Secretary, Mechanical Division, Association of American Railroads. In general, the standards of judgment shall be:

(1) Welds in which the radiographs show elongated inclusions or cavities shall be unacceptable if the length of any such imperfection is greater than $\frac{1}{3}T$, where T is the thickness of the weld. If the lengths of such imperfections are less than $\frac{1}{3}T$ and are separated from each other by at least $6L$ of acceptable weld metal, where L is the length of the longest imperfection, the weld shall be judged acceptable if the sum of the lengths of such imperfections is not more than T in a weld length of $12T$.

(2) Welds in which the radiographs show any type of crack or zones of incomplete fusion shall be unacceptable.

(3) Welds in which the radiographs show porosity shall be judged as acceptable or unacceptable by comparison with the standard set of radiographs.

AAR–6. (j–13) A complete set of radiographs for each tank shall be retained for not less than 20 years by the tank builder or by the car owner if he so requests.

AAR–6. *Qualification of welders.* (k–1) The manufacturer shall be responsible for the quality of the welding done by his organization and shall conduct tests of welding operators to determine their ability to produce welds of the required quality.

AAR–6. (k–2) The manufacturer shall satisfy the inspector that all the welding operators employed on a car tank have previously made test plates which comply with the requirements of this specification. Such test plates shall have been made within a period of six months, except that when the welding operator is regularly employed on production work embracing the same process and type of welding the tests may be effective for one year.

AAR–6. (k–3) It is the duty of the inspector to satisfy himself that only welding operators who are proved competent by these tests are used to weld any car tank and that all welding complies with the requirements of this specification.

AAR–6. (k–4) The inspector has the right at any time to call for and witness the making of welding operator's qualification test plates described in this paragraph by any welding operator, employed in connection with the inspector's contract and to observe the physical tests of the test plates. For such qualification tests the thickness of the test plate shall be approximately the thickness of the plate or parts on which the welding operator is to work.

AAR–6. (k–5) The tests conducted by one manufacturer shall not qualify a welding operator to do work for any other manufacturer.

AAR–6. *Preparation for welding.* (l–1) The plates may be cut to size and shape by machining, shearing or saw cutting. Oxygen Arc Method of cutting is allowed providing burned surface is cut back to clean up all evidence of burned edge. The plates or sheets to be joined shall be accurately cut to size and formed. In all cases the forming shall be done by pressure and not by blows, including the edges of the plates forming longitudinal joints of tanks.

AAR–6. (l–2) Particular care should be taken in the layout of joints in which fillet welds are to be used so as to make possible the fusion of the weld metal at the bottom of the fillet. Great care must also be exercised in the deposition of the weld metal so as to secure satisfactory penetration.

AAR–6. (l–3) If the thickness of the flange of a head to be attached to a tank shell by a butt joint exceeds the shell thickness by more than 25 percent (maximum ¼ inch), the flange thickness shall be reduced at the abutting edges either on the inside or the outside, as shown in figure 13 (b), or on both sides, as shown in figure 13 (a). Reduction of abutting edges as illustrated in figure 13 (c) is not permissible.

AAR–6 (l–4) The edges of the plates at the joints shall not have an offset from each other at any point in excess of 25 percent of the thickness of the plate (maximum ⅛ inch for longitudinal seams) and (maximum ¼ inch for girth joints).

AAR–6. (l–5) In all cases where plates of unequal thicknesses are abutted, and have offsets exceeding 25 percent of the plate thickness or ¼" whichever is lesser, the edge of the thicker plate shall be reduced in some manner so that it is approximately the same thickness as the other plate. In longitudinal tank joints the middle lines of the plate thickness shall be in alignment, within the fabricating tolerances specfied in paragraph AAR–6 (l–4).

AAR–6. (l–6) Bars, jacks, clamps, or other appropriate tools may be used to hold the edges to be welded in line. Tack welds may also be used to hold the edges in line, provided these tack welds are removed so that they do not become a part of the joint. The edges of butt joints shall be so held that they will not overlap during welding. Where fillet welds are used, the lapped plates shall fit closely and be kept together during welding.

AAR–6. (l–7) The surfaces of sheets or plates to be welded shall be cleaned thoroughly. When it is necessary to deposit metal over a previously welded surface, any foreign matter thereon shall be removed by a roughing tool, a chisel, an air chipping hammer, or other suitable means to prevent inclusion of impurities in the weld metal.

AAR–6. (l–8) The dimensions and shape of the edges to be joined shall be such as to allow thorough fusion and complete penetration.

AAR–6. (l–9) For double-welded butt joints the reverse sides shall be chipped or ground out so as to secure a clean surface of the originally deposited weld prior to the application of the first bead of welding on the second side. Such chipping or grinding out shall be done in a manner that will insure proper fusion of the weld metal. These requirements are not intended to apply to any process of welding by which proper fusion and penetration are otherwise obtained and no impurities remain at the base of the weld.

AAR–6. (l–10) If the welding is stopped for any reason, extra care shall be taken in restarting to get full penetration to the bottom of the joint and thorough fusion between the weld metal and the plates, and to the weld metal previously deposited.

AAR–6. *Longitudinal joints.* (m–1) Longitudinal joints shall be of the double-welded butt type and shall be reinforced at the center of the weld on each side of the plate by at least $\frac{1}{16}$ inch up to and including $\frac{5}{8}$-inch plate, and up to ⅛ inch for heavier plates. The reinforcement may be removed but if not removed shall be built up uniformly from the surface of the plate to a maximum at the center of the weld. Particular attention is called, however, to the importance of the provision that there shall be no valley or groove along the edge of or in the center of the weld, but that the deposited metal must be fused smoothly and uniformly into the plate surface. (If the reinforcement is built up so as to form a ridge with a valley or depression at the edge of the weld next to the plate, the result is a notch which causes concentration of stress and reduces the strength of the joint.) The finish of the welded joint shall be reasonably smooth and free from irregularities, grooves, or depressions. Where a welded butt joint is made the equivalent of a double-welded butt joint (see note in paragraph AAR–6 (b–2)) by using a backing-up strip and adding filler metal from one side only, the reinforcement shall not be less than $\frac{1}{16}$ inch.

AAR–6. (m–2) Where tanks are made up of two or more courses with welded longitudinal joints, the joints of adjacent courses shall be not less than 60 degrees apart.

AAR–6. *Circumferential joints.* (n) Circumferential joints shall be of double-welded butt type. The details of all of these joints shall conform to the requirements of longitudinal joints given in AAR–6 (m–1).

AAR–6. *Inspection.* (o–1) Purchaser of tanks must provide for inspection by a competent inspector. The manufacturer shall submit the tank for inspection at such stages as may be designated by the inspector.

AAR–6. (o–2) Each tank must also be inspected at the time of the hydrostatic-pressure test by the inspector.

AAR–6. (o–3) The manufacturer shall certify that the welding on the tank has been done only by welding operators who have passed the test requirements and that the same material and technique used in making the tests were employed in fabricating the tank.

AAR–6. *Distortion.* (p) The shell of the completed tank shall be circular within a limit of plus or minus one percent of the inside diameter of the tank.

AAR–6. *Repairs during original welding.* (q–1) Pinholes, cracks, or other defects in welded joints shall be repaired only by chipping or machining out defect and rewelding.

AAR–6. (q–2) After repairs have been made the tank shall again be tested in the regular way, and if it passes the test the inspector shall accept it. If it does not pass the test the inspector can order supplementary repairs, or, if in his judgment the tank is not suitable for service, he may permanently reject it.

ICC–7. *Stress relieving.* Not a specification requirement.

ICC–8. *Tank mounting.* (a) The manner in which tank is supported on and securely attached to the car structure must be approved.

AAR–8. *Anchorage.* (a) See § 78.263 (m) to (p). The requirements of this section must be met by providing aluminum anchors. The total shear value of anchor must not be less than 1,320,000 pounds for cars with rail load limit of 169,000 pounds (single piece anchor). When multiple-piece anchorage is used, the minimum requirements prescribed for a single-piece anchorage shall be increased by 20 percent. When the rail load limit of a tank car is more than 169,000 pounds but does not exceed 210,000 pounds, all minimum requirements for a single-piece anchorage specified herein shall be increased by 25 percent. When the rail load limit of a tank car is over 210,000 pounds, all minimum requirements for single-piece anchorage specified herein shall be increased by 50 percent.

AAR–8. (b) Designs of anchorage employing other means of securement to tank than rivets, as described in § 78.263 may be used if approved.

ICC–9. *Expansion dome.* (a) The expansion dome must have a capacity, measured from the inside top of shell of tank to the inside top of dome or bottom of any vent pipe projection inside of dome, of at least two percent of the total capacity of the tank and dome combined, except that when safety valve or safety vent is applied to side of dome, the effective capacity of dome must be measured from top of safety valve or safety vent opening in the side of dome to inside top of shell of tank.

ICC–9. (b) The opening in manhole ring must be at least 16 inches in diameter. The opening in the tank shell within the dome must be at least 29 inches in diameter, and when the inside diameter of the dome exceeds 29 inches, the opening in the tank shell may be cut out to a diameter sufficiently greater than that of the dome to permit welding of tank shell to the base of the dome or to a tank shell reinforcing plate. Shell of tank about dome must be adequately reinforced.

ICC–9. (c) The dome head must be of approved contour.

AAR–9. (a) The dome shell thickness shall be calculated by the formula, paragraph AAR–2 (a).

AAR–9. (b) The dome head, if dished, must be dished to a radius not exceeding 96 inches. Thickness of the dished dome head shall be calculated by the formula, paragraph AAR–5 (b–1).

AAR–9. (c) Dome head may be an ellipsoid of revolution in which the major axis shall be equal to the diameter of the dome shell and the minor axis shall be one-half of this. The thickness in this case shall be determined by using formula of the main head. (See par. AAR–5 (b–2).)

AAR–9. (d) Tank shell shall be reinforced by the addition of a plate equal to or greater than shell in thickness and the cross sectional area shall exceed metal removed for dome opening, or tank shell shall be reinforced by a seamless saddle plate equal to or greater than shell in thickness and butt welded to tank shell. The reinforcing saddle plate shall be provided with a flued opening having a vertical flange of the diameter of the dome for butt welding shell of dome to the flange. The reinforcing saddle plate shall extend about the dome a distance measured along shell of tank at least equal to the extension at top of tank. Other approved designs may be used. Reinforcement should be computed as shown on figure 24A or figure 24B.

ICC–10. *Closure for manholes.* (a) The manhole cover must be of approved type and designed to make it practically impossible to remove the cover while the interior of the tank is subjected to pressure.

ICC–10. (b) Manhole covers and rings must be of aluminum alloys or other approved materials, cast or wrought.

ICC–10. (c) All covers not hinged to tank must be attached to outside of the dome head, by at least ⅜ inch chain or its equivalent.

ICC–10. (d) All joints between manhole covers and their seats must be made tight against leakage of vapor and liquid by use of gaskets of suitable material.

AAR–10. (a) Bolted type, bolted and hinged type or other approved type manhole cover must be used. See figures 5 and 6.

ICC–11. *Gaging, bottom outlet valve operating, venting, loading, and discharging, and air inlet devices extending through domes of tanks.* (a) Not specification requirements. When installed, these devices, including their valves, must be protected from accidental injury by being set into a securely covered recess, or by means of a cast, pressed, or forged housing of suitable material with cover securely attached. Housing, if welded to dome of tank, must be made of cast, forged or pressed metal and be of good weldable quality in conjunction with metal of dome. Openings in wall of housing must be equipped with screw plugs or other closures. Drain holes permitted. Discharging siphon pipe must be securely anchored.

AAR–11. (a) These devices must be of approved design.

ICC–12. *Venting, loading and discharging, and air inlet devices.* (a) These devices, when installed, must be closed by efficient valves or fittings made of approved materials not subject to rapid deterioration by the lading. Provision must be made for closing the openings of the valves or fittings.

AAR–12. (a) These devices must be of approved design.

ICC–13. *Bottom discharge outlets.* (a) The bottom discharge outlet, when installed, must be made of approved metals not subject to rapid deterioration by the lading, be of approved construction, and be provided with a valve at its upper end and a liquid-tight closure at its lower end.

ICC–13. (b) The valve operating mechanism and outlet nozzle construction must be such as to insure against unseating of valve due to stresses or shocks incident to transportation.

ICC–13. (c) Tanks used for the transportation of poisonous solids, when designed for bottom unloading, must have the openings securely closed against leakage.

AAR–13. (a) Bottom discharge outlet nozzle may be cast, pressed, forged, or built up of plates, pipe or tubing welded together. The nozzle must be of good weldable quality in conjunction with metal of tank.

AAR–13. (b) To provide for the attachment of unloading connections, the outlet valve nozzle, or some affixed attachment thereto, must be equipped with a flange or with external U. S. F. threads, four threads per inch.

AAR–13. (c) For outlet nozzles that project six inches or more from shell of tank a "V" groove must be cut (not cast) in the upper part of outlet valve nozzle at a point immediately below the lowest part of valve to a depth that will leave thickness of nozzle wall at the root of the "V" not over ⅜ inch. In the case of steam jacketed outlet nozzles this groove must be below the steam chamber but above the bottom of center sill construction. Where outlet nozzle is not a single piece, arrangement must be made to provide the equivalent of the breakage groove.

AAR–13. (d) The flange on the outlet nozzle must be of a thickness which will prevent distortion of the valve seat or valve by any change in contour of the shell resulting from expansion of lading, or other causes, and which will insure that accidental breakage of the outlet nozzle will occur at or below the "V" groove.

AAR–13. (e) The valve must have no wings or stem projecting below the "V" groove in the outlet nozzle, unless they are scored or designed to break or bend without unseating valve. The valve and seat must be readily accessible or removable for repairs, including grinding.

AAR–13. (f) The valve operating mechanism must have means for compensating for variation in the vertical diameter of the tank produced by expansion, weight of the liquid contents, or other causes, and should operate from the interior of the tank, but in the event the rod is carried through the dome, leakage must be prevented by packing in stuffing box and cap nut.

AAR–13. (g) In no case must extreme projection of bottom discharge outlet equipment extend to within twelve inches above top of rail. All bottom discharge outlet reducers and closures and their attachments must be secured to car by at least ⅜ inch chain or its equivalent, except that outlet closure plugs may be attached by ¼ inch chain. When the bottom discharge outlet closure is of the combination cap and valve type, the pipe connection to the valve must be closed by a plug or cap.

ICC–14. *Safety valves.* (a) The tank must be equipped with one or more safety valves of approved materials mounted on expansion dome. Total valve discharge capacity must be sufficient to prevent building up of pressure in the tank in excess of 45 pounds per square inch.

ICC–14. (b) One safety valve must be provided for each tank of 6,650 gallons capacity or less, and two safety valves for each tank of over 6,650 gallons capacity.

ICC–14. (c) Each safety valve must be set to open at a pressure of 25 pounds per square inch. (For tolerance see paragraph ICC–18).

ICC–14. (d) Tanks used for the transportation of corrosive liquids, flammable solids, oxidizing materials or poisonous liquids or solids, class B, need not be equipped with safety valves, but if not so equipped must have one safety vent made of approved material at least two inches inside diameter closed with a frangible disc of suitable material, of a thickness that will hold a pressure of 45 pounds per square inch for a period of at least one hour, but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch, may be applied. All tanks equipped with vents must be stenciled "Not for Flammable Liquids."

AAR–14. (a) Safety valve must be of approved design. See paragraph AAR–18. For safety vent, closure of bolted type preferable, see figure 3–A. For screw type safety vent closure, see figure 3.

AAR–14. (b) Safety valves or safety vent flanges, if welded to dome, must be of cast, forged, or pressed metal and be of good weldable quality in conjunction with metal of dome.

ICC-4. (b) The heads may be either torispherical or ellipsoidal in form and one may be reversed dished convex to the pressure, if desired. The thickness of the heads shall be not less than that determined by the following formulae:

(1) For torispherical heads concave to pressure

$$t = \frac{5PL}{6SE}$$

(2) For ellipsoidal heads concave to pressure and having a ratio of major to minor axis of 2 to 1

$$t = \frac{PR}{SE - 0.6P}$$

where

t = minimum thickness in inches of finished head.
P = minimum bursting pressure 1,250 psig.
S = minimum specified ultimate tensile strength of plate material in pounds per square inch.
R = inside radius of vessel.
L = inside radius of dish.
E = 1.0 for heads made from one plate.

The thickness of heads convex to the pressure shall be 1⅔ times the thickness as calculated by the above formulae.

ICC-4. (c) Threads for openings in tank heads must be American Standard Taper, tapped to gauge, clean cut, even and without checks to insure tight joints. If the thickness of the heads is not sufficient to give an adequate length of thread, the thickness must be increased by welding into the head a plate of sufficient thickness and of the same material as the head. The outside diameter of such plate must be at least twice the nominal diameter of the threaded opening.

ICC-5. *Welding.* (a) All joints must be fusion welded by a process which investigation and laboratory tests by the Mechanical Division of the Association of American Railroads have proved will produce satisfactory results.

AAR-5. *Welding.* (a) Fusion welding to be performed by fabricators certified by Association of American Railroads as qualified to meet the requirements of this specification. All joints must be fabricated by means of fusion welding in accordance with the following requirements:

AAR-5. *Definitions*—(b-1) *Fusion welding.* A process of welding metals in the molten, or molten and vaporous state without the application of mechanical pressure or blows.

AAR-5. (b-2) *Double-welded butt joint.* A joint formed by the fusion of two abutting edges with a filler metal added from both sides of the joint and with reinforcement on both sides. (For permission to remove reinforcement see paragraph AAR-5 (m-1)).

NOTE: A joint with filler metal added from one side only is considered equivalent to a double-welded butt joint when and if means are provided for accomplishing complete penetration and reinforcement on both sides of the joint.

AAR-5. (b-3) *Full-fillet joint.* A fusion weld of approximately triangular cross section the throat of which lies in a plane disposed approximately 45 degrees with respect to the surfaces of the parts joined, and built up to the full thickness of the plate or nozzle flange that is being joined to a parallel plate, having the throat not less than 0.7 the thickness of the edge of the plate being welded.

AAR-5. (b-4) *Throat.* The minimum thickness of a weld along a straight line passing through the bottom of the cross sectional space provided to contain a fusion weld.

AAR-5. (b-5) *Single full-fillet lap joint.* A single full-fillet lap joint is one in which the overlapped edges of two plates are full-fillet-welded along one edge only.

AAR-5. (b-6) *Double full-fillet lap joint.* A double full-fillet lap joint is one in which the overlapped edges of two plates are full-fillet-welded at the edge of each plate.

NOTE: When attachment having flanges thicker than the plates to which they are jointed, are secured in place by fillet welds, such welds shall be of the double full-fillet lap joint type in which the throat is not less than 0.7 the thickness of the plate to which the attachment is joined.

AAR-5. (b-7) *Plug weld.* A plug weld is one used to join two plates by welding through a hole in one of them to secure a bond and subsequently filling the hole with weld metal. Plug welds are to be used only in conjunction with fillet welds.

AAR-5. *Joint efficiency, maximum.* (c) The efficiencies for computing the value of the various types of fusion-welded joints in tanks constructed in conformity with requirements of this specification shall not exceed the following:

Type of joint	Efficiency of joint (percent)
Double-welded butt joint:	
With 100 percent radiographic examination	90.0
With radiograph examination of longitudinal joints only	80.0
Full-fillet joint:	
Single full-fillet lap joint without plug welds (see fig. 21)	55.0
Single full-fillet lap joint with plug welds (see fig. 20)	65.0
Double full-fillet lap joint	65.0

NOTE: Strength of fillet welds shall be computed on the throat dimension of the triangular section, using the strength in shear and in conjunction with the stresses given below, multiplied by the joint efficiency given above.

For end welds, the maximum shear stresses shall be 80 percent of the tensile strength of the plate used.

For side welds, the maximum shear stresses shall be 60 percent of the tensile strength of the plate used.

Plug weld. The maximum load on each plug weld shall be computed for either shear or tension by the following formula:

$$L = 0.63\ S\ (d - \tfrac{1}{4})^2$$

where

L = total maximum load in shear or tension on each plug weld, in pounds.
d = diameter of the bottom of the hole in which the plug is made, in inches.
S = maximum stress in shear or tension, as the case may be, in pounds per square inch.

S for shear = 44,000
S for tension = 55,000

Welding must meet the following test requirements:

AAR-5. *Test plates.* (d-1) A test plate of the dimensions shown in figure 10 from steel of the same specification and thickness as the shell plates prepared for welding, may be attached to the shell plate being welded, as in figure 9, on one end of one longitudinal joint of each tank so that the edges to be welded in the test plate are a continuation of and duplication of the corresponding edges of the longitudinal joint. In this case the weld metal shall be deposited in the test plates continuously with the weld metal deposited in the longitudinal joint. The plates for test samples may be taken from any part of one or more plates of the same lot of material that is used in the fabrication of welded tanks and without reference to the direction of the mill rolling. As an alternate method, a detached test plate may be welded as provided for in AAR-5 (d-2). When more than one welding operator is employed on a tank, the required test plates for the individual tanks shall be made by the welding operator designated by the inspector.

AAR-5. (d-2) When a test plate is welded for the longitudinal joints, none need be furnished for circumferential joints in the same tank, providing the welding process, procedure, and technique are the same

AAR-5. (d-3) When there are several tanks being welded in succession, or at any one time, the plate thicknesses of which fall within a range of ¼", each 200 ft. of longitudinal and circumferential seams may be considered as the equivalent of one tank and only the test plates required by paragraph AAR-5 (d-1) and AAR-5 (d-2) need be made, provided they are welded in the same way as the joints in question. The test plates shall be so supported that warping due to welding shall not throw the finished test plate out of line by an angle of over 5 degrees.

AAR-5. (d-4) Where the welding has warped the test plates they shall be straightened before being stress relieved. The test plates shall be subjected to the same stress-relieving operation as required by AAR-5 (p). At no time shall the test plates be heated to a temperature higher than that used for stress relieving the tank.

AAR-5. *Test specimens.* (e) The coupons for tension and bend tests shall be removed as shown in figure 10 and be of the dimensions shown in figures 10 and 11.

AAR-5. *Tension test.* (f-1) Two types of tension test specimens are required, one of the joint and the other of the weld metal. The tension specimen of the joint shall be transverse to the welded joint, and shall be the whole thickness of the welded plate after the outer and inner surfaces of the weld have been machined to a plain surface flush with the plate.

AAR-5. (f-2) The tensile strength of the joint specimen in figure 10 shall not be less than the minimum of the specified tensile range of the plate used. (The tension test of the joint specimen as specified herein is intended as a test of the welded joint and not of the plate. If the specimen breaks in the plate and the weld shows no sign of weakness, the test may be accepted as meeting the requirements even though the stress at which failure occurs is less than the minimum of the specified range.)

AAR-5. (f-3) The tension test specimen of the weld metal shall be taken entirely from the deposited weld metal and shall meet the following requirements:

Tensile strength = at least that of the minimum of the range of the plate which is welded.

Elongation, minimum = 20 percent in 2 inches.

For plate thicknesses less than ⅝ inch, the all-weld-metal tension test may be omitted.

AAR-5. *Bend tests.* (g-1) The bend-test specimen shall be transverse to the welded joint of the full thickness of the plate and shall be of rectangular cross-section with the width one and one-half times the thickness of the specimen. The inside and outside surfaces of the weld shall be machined to a plain surface flush with the plate. The edges of this surface shall be rounded to a radius not over 10 percent of the thickness of the plate. The specimen shall be bent cold under free bending conditions until the least elongation measured within or across approximately the entire weld on the outside fibers of the bend-test specimen is 30 percent.

AAR-5. (g-2) When a crack is observed in the convex surface of the specimen between the edges, specimens shall be considered to have failed and the test shall be stopped. Cracks at the corner of the specimen shall not be considered as a failure. The appearance of all defects in the convex surface shall not be considered as a failure if the greatest dimension does not exceed 1/16 inch.

AAR-5. *Specific gravity of welded metals.* (h) No specific gravity test required.

AAR-5. *Retests.* (i-1) Should any of the tests fail to meet the requirements by more than 10 percent, no retests shall be allowed.

AAR-5. (i-2) Should any of the tests fail to meet the requirements by 10 percent or less, retests shall be allowed. A second test plate shall be welded by the same operator who welded the plate which failed to meet the test requirements. The retest shall be made on specimens cut from the second plate.

AAR-5. (i-3) The retest shall comply with the requirements. For either of the tension retests, two specimens shall be cut from the second test plate, and both of these shall meet the requirements.

AAR-5. (i-4) When there is more than one specimen of the same type and when one or more of the group specimens fail to meet the requirements by 10 percent or less, the retest shall be made on an entire group of specimens, which shall meet the requirements.

AAR-5. (i-5) If the percentage of elongation of any tension test specimen is less than that specified and any part of the fracture more than ¾ inch from the center of the gauge length of the 2-inch specimen, or is outside of the middle third of the gauge length of the full-size specimen as indicated by the scribe scratches marked on the specimen before testing, a retest shall be allowed.

AAR-5. *Nondestructing tests.* (j-1) All longitudinal welded joints in the vessel shall be examined throughout their entire length by the X-ray or the gamma ray method of radiography. Other welded joints need not be examined by radiographic methods provided an efficiency of 80 percent is used in the design of the vessel. If an efficiency of 90 percent is used in the design of the vessel, the circumferential welded joints of the tanks shall also be radiographed. When a fitting is attached to a tank by a flange or plate inserted in and butt-welded to the head at the edge of the flange, the weld so made shall be radiographed. Radiographic examination of welds attaching other designs of nozzles or fittings to the tank head may be omitted.

AAR-5. (j-2) Where excess metal is removed welded joints shall be prepared as follows: The weld reinforcements on both the inside and outside shall be ground, chipped and ground, or suitably machined to remove the irregularities of the weld surface so that it merges smoothly into the plate surface. The finished surface of the reinforcement may have a crown of uniform amount not to exceed approximately 1/16 inch.

AAR-5. (j-3) The films obtained by the use of X-rays shall be known as "exographs", and those obtained by the use of gamma rays as "gamma graphs". Both types of film shall be generally termed "radiographs".

AAR-5. (j-4) The weld shall be radiographed with a technique which will determine quantitatively the size of defects with thicknesses equal to and greater than 2 percent of the thickness of the base metal. To determine whether the radiographic technique employed is detecting defects of a thickness equal to and greater than 2 percent of the thickness of the base metal, suitable thickness gauges or penetrameters shall be placed on the side of the plate nearest the source of radiation and used in the following manner:

AAR-5. (j-4) (1) To determine whether the radiographic technique employed is detecting defects of a thickness equal to and greater than 2 percent of the thickness of the base material, thickness gauges or penetrameters of the type shown in figure 12 shall be placed on the side of the plate nearest the source of radiation and used as directed.

AAR-5. (j-4) (2) The material of the penetrameter shall be substantially the same as that of the plate under examination.

AAR-5. (j-4) (3) The thickness of the penetrameter shall be not more than 2 percent of the thickness of the plate.

AAR-5. (j-4) (4) There shall be three holes in each penetrameter of diameters equal respectively to two, three, and four times the penetrameter thickness, but in no case less than 1/16 inch. The smallest hole must be distinguishable on the radiograph.

AAR-5. (j-4) (5) Each penetrameter shall carry an identifying number representing, in two significant figures, the minimum thickness of plate for which it may be used.

AAR-5. (j-4) (6) The images of these identifying numbers shall appear clearly on the radiograph.

AAR-5. (j-4) (7) Each penetrameter shall be 1½ inches long and ½ inch wide. (See figure 12.)

AAR-5. (j-5) Two penetrameters shall be used for each exposure, one at each end of the exposed length, parallel and adjacent to the weld seam with the small holes at the outer ends.

AAR-5. (j-6) The film during exposure shall be as close to the surface of the weld as is practicable. The distance of the film from the surface of the weld on the side opposite the source of radiation shall, if possible, be not greater than 1 inch. With the film not more than 1 inch from the weld surface the minimum distance between the source of radiation and the back of the weld shall not be less than 14 inches.

AAR-5. (j-7) There shall also be a plain indication on each film showing the job number, the shell, or shell section, and seam, as well as the manufacturer's identification, symbol, or name.

AAR-5. (j-8) If it is necessary to expose the film at a distance greater than 1 inch from the weld, the following ratio of:

$$\frac{\text{Distance of source from radiation to weld surface toward radiation}}{\text{Distance from weld surface toward radiation to film}}$$

shall be at least 7 to 1. When a grid of the Buckey type is employed to reduce scattered radiation, the above ratio may be reduced to 5. These conditions are imposed so as to limit the allowable distortion and magnification of any defects in the welded seam.

AAR-5. (j-9) All radiographs shall be free from excessive mechanical processing defects which would interfere with proper interpretation of the radiograph.

AAR-5 (j-10) Identification markers, the images of which will appear on the film, shall be placed adjacent to the weld and their location accurately and permanently stamped near the weld on the outside surface of the shell, or shell section, so that a defect appearing the radiograph may be accurately located in the actual weld.

AAR-5. (j-11) The radiographs shall be submitted to the inspector. If the inspector requests, the following data shall be submitted with the radiographs: (1) The thickness of the base metal, (2) the distance of the film from the surface of the weld, (3) the distance of the film from the source of radiation.

AAR-5. (j-12) Acceptability of welds examined by radiography shall be judged by comparing the radiographs with a standard set of radiographs which may be obtained by purchase from Secretary, Mechanical Division, Association of American Railroads. In general, the standard of judgment shall be:

(1) Welds in which the radiographs show elongated slag inclusions or cavities shall be unacceptable if the length of any such imperfection is greater than ⅓ T, where T is the thickness of the weld. If the lengths of such imperfections are less than ⅓ T and are separated from each other by at least 6 L of acceptable weld metal, where L is the length of the longest imperfection, the weld shall be judged acceptable if the sum of the lengths of such imperfections is not more than T in a weld length of 12 T.

(2) Welds in which the radiographs show any type of crack or zones of incomplete fusion shall be unacceptable.

(3) Welds in which the radiographs show porosity shall be judged as acceptable or unacceptable by comparison with the standard set of radiographs.

AAR-5. (j-13) A complete set of radiographs for each tank shall be retained for not less than 20 years by the tank builder or by the car owner if he so requests.

AAR-5. *Qualification of welders.* (k-1) The manufacturer shall be responsible for the quality of the welding done by his organization and shall conduct tests of welding operators to determine their ability to produce welds of the required quality.

AAR-5. (k-2) The manufacturer shall satisfy the inspector that all the welding operators employed on a car tank have previously made test plates which comply with the requirements of this specification. Such test plates shall have been made within a period of six months, except when the welding operator is regularly employed on production work embracing the same process and type of welding the tests may be effective for one year.

AAR-5. (k-3) It is the duty of the inspector to satisfy himself that only welding operators who are proved competent by these test plates are used to weld any car tank and that all welding complies with the requirements of this specification.

AAR-5. (k-4) The inspector has the right at any time to call for and witness the making of welding operator's qualification test plates described in this paragraph by any welding operator employed in connection with the inspector's contract, and to observe the physical tests of the test plates. For such qualification tests the thickness of the test plate shall be approximately the thickness of the plate or parts on which the welding operator is to work.

AAR-5. (k-5) The tests conducted by one manufacturer shall not qualify a welding operator to do work for any other manufacturer.

AAR-5. *Preparation for welding.* (l-1) The plates may be cut to size and shape by machining or shearing, or by flame cutting. If shaped by flame cutting, the edges must be uniform and smooth and must be free of all loose scale and slag accumulations before welding. The discoloration which may remain on the flame-cut surface is not considered to be a detrimental oxidation. The plates or sheets to be joined shall be accurately cut to size and formed. In all cases the forming shall be done by pressure and not by blows, including the edges of the plates forming longitudinal joints of tanks.

AAR-5. (l-2) Particular care should be taken in the layout of joints in which fillet welds are to be used so as to make possible the fusion of the weld metal at the bottom of the fillet. Great care must also be exercised in the deposition of the weld metal so as to secure satisfactory penetration.

AAR-5. (l-3) If the thickness of the flange of a head to be attached to a tank shell by a butt joint exceeds the shell thickness by more than 25 percent (maximum 1/4 inch), the flange thickness shall be reduced at the abutting edges either on the inside or the outside, as shown in figure 13 (b), or on both sides, as shown in figure 13 (a). Reduction of abutting edges as illustrated in figure 13 (c) is not permissible. For vessels 36 inches in inside diameter or smaller, the head to shell joints may be a single-welded butt joint with a backing-up strip, or, in cases where the head thickness is at least ⅛ inch greater than the shell thickness, the backing-up strip may be integral with the head flange machined in such a manner as to have the inner edge of the head flange project beyond the end of the shell plate to form a backing-strip as shown in figure 26 (a). The head shall be a snug fit into the shell. If the thickness of the head exceeds the thickness of the

ICC–15. *Fixtures, reinforcements, and attachments not otherwise specified.* (a) All attachments to tank and dome must be applied by approved means. When attachments are riveted the edges of plates must be beveled so that the angle of the calking edge will be between 60 and 70 degrees with the flat surface of the attachment. The extreme calking edge distance, measured from center line of rivet hole, must be at least one and one-half times the diameter of the hole and not more than that distance plus ¼ inch. The joints formed by attachment of all riveted external projections must be calked on the inside. Split calking prohibited. Interior heater systems, when installed, must be so constructed that the breaking off of their external connections will not cause leakage of contents of tanks.

AAR–15. *Heater systems.* (a) See §§ 78.260 to 78.262, inclusive, Tank Car Heater Systems.

AAR–15. (b) Heater system and plug flanges, if welded to tank or dome, must be of cast, forged, or pressed metal and be of good weldable quality in conjunction with metal of tank or dome.

ICC–16. *Plugs for openings.* (a) All plugs must be solid, of cast, rolled or forged metal of approved material with standard pipe thread, and when in contact with lading must be of a length which will screw at least six threads inside the face of fitting or tank. Plugs when inserted from the outside of tank must have the letter "S" at least ⅜ inch in size stamped with steel stamp or cast on the outside surface to indicate the plug is solid.

ICC–17. *Test of tanks.* (a) Each tank must be tested, before being put into service, by completely filling tank and dome with water, or other liquid having similar viscosity, of a temperature which must not exceed 100° F. during the test, and applying a pressure of 60 pounds per square inch. Tank must hold the prescribed pressure for at least 10 minutes without leakage or evidence of distress. All rivets and closures, except safety valves or safety vents, must be in place while test is made.

ICC–17. (b) Calking of welded joints to stop leaks developed during the foregoing tests prohibited. Repairs in welded joints must be made as prescribed in paragraph ICC–6 (a).

ICC–17. (c) *Test of interior heater systems.* Before interior heater systems are placed in service, they must be tested with hydrostatic pressure and must be tight at 200 pounds per square inch.

AAR–17. *Hammer tests.* (a) Not a specification requirement.

AAR–17. (b) If tanks are to be lagged, the hydrostatic test of tank must be made before lagging is applied.

ICC–18. *Tests of safety valves.* (a) Each valve must be tested, before being put into service, by attaching to an air line and applying pressure. The valve must not leak below 20 pounds pressure (see § 73.31 (1), Note 1, of this chapter). The valve must open at the pressure prescribed in paragraph ICC–14 (c) with a tolerance of plus or minus 3 pounds.

AAR–18. (a) The above referred to note in § 73.31 (1) of this chapter reads in part as follows: "Safety valves now used on tank cars are reported to permit slow leakage of vapor and it appears that material changes in the design and construction of these valves are necessary to make them tight • • • the necessary changes must be made with the least possible delay".

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of ten years or less after the original test. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting, or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

AAR–19. (a) For lagged tanks, if the jacket and lagging are not removed, the tank must hold the prescribed pressure for at least 20 minutes. A drop in pressure shall be evidence of leakage, and such portion of the jacket and lagging must be removed as may be necessary to locate the leak and make repairs.

ICC–20. *Marking.* (a) Each tank must be marked, thus certifying that the tank complies with all the requirements of this specification. These marks must be as follows:

ICC–20. (b) ICC–103–AL–W in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal near the center of both outside heads of the tank by the tank builder. This mark must also be stencilled on the tank, or jacket if lagged, in letters and figures at least two inches high by the party assembling the completed car.

ICC–20. (c) Initials of tank builder and date of original test of tank in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in paragraph ICC–20 (b).

ICC–20. (d) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in paragraph ICC–20 (c) by the party assembling the completed car. These marks must also be stencilled on the tank, or jacket if lagged, in letters and figures at least two inches high immediately below the stencilled mark specified in paragraph ICC–20 (b) by the party assembling the completed car.

ICC–20. (e) Date on which the tank was last tested, pressure to which tested, place where test was made, and by whom, stencilled on the tank, or jacket if lagged.

ICC–20. (f) Date on which the safety valves were last tested, pressure to which tested, place where test was made, and by whom, stencilled on the tank, or jacket if lagged.

ICC–20. (g) Date on which interior heater systems were last tested, pressure to which tested, place where test was made, and by whom, stencilled on tank, or jacket if lagged.

ICC–20. (h) Identification mark, illustrated herein, for approved manhole closures must be stencilled on each side of dome, or jacket if lagged, in line with the ladders and in a color contrasting to color of dome.

ICC–20. (i) When a tank car and its appurtenances are designed and authorized for the transportation of a particular commodity only, the name of that commodity followed by the word "only," or such other wording as may be required to indicate the limits of usage of the car, must be stencilled on each side of the tank, or jacket if lagged, in letters at least two inches high, immediately above the stencilled mark specified in paragraph ICC–20 (b).

AAR–20. (a) For all other markings, see figure 1.

ICC–21. *Reports.* (a) Before a tank car is placed in service, the party assembling the completed car must furnish to car owner, Bureau of Explosives, and the Secretary, Mechanical Division, Association of American Railroads, a report in approved form certifying that the tank and its equipment comply with all the requirements of this specification. In case of welded repairs to, alterations of or additions to tanks or equipment therefor from original design and construction, all of which must be approved, there must be furnished to the same parties a report in detail of the welded repairs, alterations or additions made to each tank covered by a particular application, showing the initials and number of each tank involved. Reports of retests must be rendered to the Bureau of Explosives and and car owner.

AAR–21. *Application for approval.* (a) See § 78.259 (f), *Application for approval.*

AAR–21. *Certificate of construction.* (b) See § 78.259 (g), *Certificate of construction.*

AAR–22. *Car structure.* (a) See § 73.63 *Car structure.*

24. Add § 78.292 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.292, 1950 Rev.) to read as follows:

§ 78.292 *Specification for tank cars having fusion-welded aluminum tanks Class ICC–103–A–AL–W.* This specification covers Class ICC–103–A–AL–W tank cars having fusion welded aluminum tanks to which have been added Association of American Railroads details which are not inconsistent therewith. Wherever the word "approved" is used in this specification, it means approval by the Association of American Railroads' Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e)—Procedure.

(a) *General requirements.* Tanks built under this specification must comply with all provisions of Specification ICC–103–AL–W, except as modified in the following paragraphs (paragraph numbers refer to like numbers in § 78.291 Specification ICC–103–AL–W):

ICC–6. (b) Manhole ring, safety vent flange, and bottom washout nozzle flange or other attachments may be riveted or fusion-welded. Riveted joints must be made metal to metal without interposition of other materials. Rivets, if used, must be calked inside. For computing rivet areas, the effective diameter of a driven rivet is the diameter of its reamed hole, which hole must in no case exceed nominal diameter of rivet by more than 1/16". Use of rivets of less than ⅝" nominal diameter prohibited. Fusion-welding for securing these attachments in place must be of double-welded butt joint type or double full-fillet lap joint type.

ICC–9. *Expansion dome.* (a) The expansion dome must have a capacity, measured from the inside top of shell of tank to the inside top of dome or bottom of any vent pipe projecting inside of dome, of at least one percent of the total capacity of the tank and dome combined, except that when safety vent is applied to side of dome, the effective capacity of dome must be measured from top of safety vent opening in the side of dome to inside top of shell of tank.

ICC–9. (b) The opening in manhole ring must be at least 16 inches in diameter. The opening in the tank shell within the dome must be at least 29 inches in diameter, and when the inside diameter of the dome exceeds 29 inches, the opening in the tank shell may be cut out to a diameter sufficiently greater than that of the dome to permit welding of tank shell to the base of the dome or to a tank shell reinforcing plate. Shell of tank about dome must be adequately reinforced. When the tank shell is not cut out to permit welding and the opening in the tank does not exceed 30 inches in diameter, dome pocket drain holes must be provided with nipples projecting inside the tank at least one inch.

ICC–9. (c) The dome head must be of approved contour. The dome head must be of aluminum alloys or other approved materials, cast or wrought.

ICC–10. *Closure for manholes.* (a) The manhole cover must be of approved type and designed to provide a secure closure of the manhole.

ICC–10. (b) Requirements of this paragraph optional.

AAR–10. (a) Bolted type, bolted and hinged type, or other approved type manhole cover must be used.

ICC–11. *Gaging, venting, loading and discharging, and air inlet devices extending through domes of tanks.* (a) These devices when installed must be tightly closed as prescribed in paragraph ICC–12. Protective housing not required, except when the characteristics of the commodity for which the car is authorized are such that these devices must be equipped with valves to provide for the loading, and unloading of the contents. Discharging siphon pipe must be securely anchored.

ICC–12. *Gaging, venting, loading and discharging, and air inlet devices.* (a) These devices when installed must be tightly closed with approved caps, plugs, valves, or other fittings. Provision must be made for closing pipe connections of valves. The venting device must be equipped as prescribed in paragraph ICC–14.

ICC–13. *Bottom discharge outlets.* (a) Bottom outlet for discharge of lading prohibited, but tank may be equipped with a bottom wash-out nozzle of aluminum alloy not subject to rapid deterioration by the lading, which must be of approved construction complying with the following requirements.

ICC–13. (b) The construction and closure of the bottom wash-out nozzle must be such that it is liquid tight and should the nozzle be broken, loss of contents will not occur.

ICC–13. (c) The extreme projection of the bottom wash-out nozzle must be at least 12 inches above the top of rail.

AAR–13. (a) Bottom wash-out nozzle may be cast, pressed, forged, or built up of plates, pipe or tubing welded together. The nozzle must be of good weldable quality in conjunction with metal in tank.

AAR–13. (b) This paragraph does not apply.

AAR–13. (c) For bottom wash-out nozzles that project 6 inches or more from shell of tank, a "V" groove must be cut (not cast) in the upper part of bottom wash-out nozzle at a point immediately below lowest part of inside closure seat to a depth that will leave thickness of nozzle wall at the root of the "V" not over ⅜ in. Where bottom wash-out nozzle is not a single piece, arrangement must be made to provide the equivalent of the breakage groove.

AAR–13. (d) The flange on the bottom wash-out nozzle must be of a thickness which will prevent distortion of the inside closure seat or closure casting by any change in contour of the shell, resulting from expansion of lading, or other causes, and which will insure that accidental breakage of the wash-out nozzle will occur at or below the "V" groove.

AAR–13. (e) The closure casting must not project below the "V" groove in the wash-out nozzle. The closure casting and seat must be readily accessible for repairs, including grinding.

AAR–13. (f) This paragraph does not apply.

AAR–13. (g) This paragraph does not apply.

ICC–14. *Safety devices.* (a) The tank must be equipped with a safety valve or safety vent at least 2 inches inside diameter mounted on top of expansion dome.

ICC–14. (b) At least one safety valve or vent must be provided for each tank.

ICC–14. (c) The safety valve, if used, must be set to open at a pressure of 45 pounds per square inch. (For tolerances see paragraph ICC–18).

ICC–14. (d) If tank is equipped with a safety vent it must be closed with a frangible disc of suitable material of a thickness that will hold a pressure of 45 pounds per square inch for a period of at least one hour but will rupture within eight hours. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement. An additional sealed vent of approved design, to prevent use of unloading pressures in excess of 45 pounds per square inch, may be applied. Tanks may also be equipped with an approved device that will permit continuous venting.

AAR–14. (a) Safety valve must be of approved design. For safety vent, closure of bolted type preferable, see figure 3A. For screw type safety vent closure, see figure 3.

AAR–14. (b) Safety valve or safety vent flanges, if welded to dome, must be of cast, forged, or pressed metal and be of good weldable quality in conjunction with metal of dome.

ICC–15. *Fixtures, reinforcements, and attachments not otherwise specified.* (a) All attachments to tank and dome must be applied by approved means. When attachments are riveted, the edges of plates must be beveled so that the angle of the calking edge will be between 60 and 70 degrees with the flat surface of the attachment. The extreme calking edge distance, measured from center line of rivet hole, must be at least one and one-half times the diameter of the hole and not more than that distance plus ¼ inch. The joints formed by attachment of all riveted external projections must be calked on the inside. All rivet heads on the inside and outside of tank and dome must be calked. Split calking prohibited. Heater systems, when installed, must be so constructed that the breaking off of their external connections will not cause leakage of contents of tanks.

ICC–18. *Tests of safety valves.* (a) Valve must be tested before being put into service, by attaching to an air line and applying pressure. The valve must open at the pressure prescribed in paragraph ICC–14 (c), with a tolerance of minus 3 pounds.

AAR–18. (a) This paragraph does not apply.

ICC–19. *Retests of tanks, safety valves and interior heater systems.* (a) Tanks, safety valves and interior heater systems must be retested as prescribed for original tests in paragraphs ICC–17 and ICC–18, except that commodity to be transported may be used for filling the tank and dome when testing tanks which have not been in service more than 12 years. The first retest must be conducted within four years after the original test, and subsequent retests at four-year intervals up to 12 years of service, thereafter at two-year intervals up to 20 years of service, and annually after 20 years of service. Tanks in service over 12 years must be internally inspected and interior heater systems inspected for defects which would make leakage or failure probable during transit and must be tested with water only. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

ICC–20. (b) ICC–103–A–AL–W in letters and figures at least ⅜" high stamped plainly and permanently into the metal near the center of both outside heads of the tank by the tank builder. This mark must also be stencilled on the tank, or jacket if lagged, in letters and figures at least 2" high by the party assembling the completed car.

ICC–20. (h) This paragraph does not apply.

25. Add § 78.293 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.293, 1950 Rev.) to read as follows:

§ 78.293 *Specification for tank cars having metallic arc fusion-welded steel tanks Class ICC–110A–500–W.* This specification covers Class ICC–110A–500–W tank cars having metallic arc fusion-welded tanks to which have been added Association of American Railroads details which are not inconsistent therewith. Wherever the word "approved" is used in this specification, it means approval by the Association of American Railroads' Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e)—Procedure.

ICC–1. *Type and general requirements.* (a) Tanks built under this specification must be cylindrical with dished heads, one of which may be dished convex to the pressure. All operating fittings must be located in one of the heads, and no openings of any sort are permitted in the cylindrical shell. Tanks must be securely attached to the car structure in a manner such that they may be removed for filling by the consignor and emptying by the consignee. Each tank must have a capacity of at least 1,690 pounds of water and not more than 2,600 pounds of water.

ICC–1. (b) The tanks must be fabricated by approved methods.

ICC–1. (c) For tanks made in foreign countries, a chemical analysis of material and all tests as specified must be carried out within the limits of the United States under the supervision of a competent and disinterested inspector.

ICC–2. *Material.* (a) All plates for the tank must be made of open-hearth or electric furnace boiler plate steel of flange quality, the carbon content of which does not exceed 0.30 percent. The steel shall otherwise conform to the requirements of either the current A. A. R. Specification M–115, entitled Steel, Carbon and Carbon-Silicon, Boiler and Firebox, for Locomotives, Stationary Boilers, and Other Pressure Vessels, or to the current A. S. T. M. Specification A–212, entitled High Tensile Strength Carbon-Silicon Steel Plates for Boilers and Other Pressure Vessels, Grades A and B, Flange and Firebox, or A. S. T. M. Standard Specification A–201 titled Carbon-Silicon Steel Plates of Intermediate Tensile Ranges for Fusion Welded Boilers and Other Pressure Vessels, Grade A, or A. S. T. M. Standard Specifications A–265 titled Low and Intermediate Tensile Strength Carbon Steel Plates of Flange and Firebox Qualities, Grade C. These plates may also be clad with other metals such as nickel, etc.

ICC–2. (b) All plates must have their heat number and the name or brand of the manufacturer legibly stamped on them at the rolling mill.

ICC–2. (c) Tanks made of clad plates must be stenciled "Tank clad with (naming material)."

AAR–2. *Lining.* (a) Not a specification requirement. If applied, must be approved as to material and method of application.

ICC–3. *Thickness of plates.* (a) The wall thickness of the cylindrical portion of the tank must be not less than 11/32" and, in addition, must be not less than that calculated by the following formula:

$$t = \frac{PR}{SE - 0.6P}$$

where

t = thickness in inches of thinnest plate.
P = calculated bursting pressure in pounds per square inch, 1,250 psig min.
R = inside radius in inches.
S = minimum specified ultimate tensile strength of plate in pounds per square inch.
E = efficiency of longitudinal welded joint (see par. ARR–5. (c).)

ICC–4. *Tank heads.* (a) The tank heads must be hot pressed with a straight flange of at least 1½" and with a radius of dish not greater than the diameter of the tank. The inside knuckle radius must be not less than 6 percent of the inside diameter of the vessel.

shell by more than ¼ inch, the thickness of the integral backing-strip shall not exceed ½ inch and the additional flange thickness shall be reduced on the outside, as shown in figure 26 (b).

AAR–5. (l–4) The edges of the plates at the joints shall not have an offset from each other at any point in excess of 25 percent of the thickness of the plate (maximum ⅛ inch).

AAR–5. (l–5) In all cases where plates of unequal thicknesses are abutted, and have offsets exceeding 1/16 inch, the edge of the thicker plate shall be reduced in some manner so that it is approximately the same thickness as the other plate except as noted for head to shell joints in paragraph AAR–5. (l–3). In longitudinal tank joints the middle lines of the plate thickness shall be in alignment, within the fabricating tolerances specified in paragraph AAR–5. (l–4).

AAR–5. (l–6) Bars, jacks, clamps, or other appropriate tools may be used to hold the edges to be welded in line. Tack welds may also be used to hold the edges in line, provided the tack welds are removed so that they do not become a part of the joints. The edges of butt joints shall be so held that they will not overlap during welding. Where fillet welds are used, the lapped plates shall fit closely and be kept together during welding.

AAR–5. (l–7) The surfaces of the sheets or plates to be welded shall be cleaned thoroughly of all scale, rust, or oil and grease for a distance of not less than ½ inch from the welding edge. Grease or oil may be removed with gasoline, lye, or the equivalent. A steel wire scratch brush may be used for removing light rust or scale, but for heavy scale, slag, and the like, a grinder, chisel, air hammer, or other suitable tool shall be used to obtain clean and bright metal. When it is necessary to deposit metal over a previously welded surface, any scale or slag therefrom shall be removed by a roughing tool, chisel, air chipping hammer, or other suitable means to prevent inclusion of impurities in the weld metal.

AAR–5. (l–8) The dimensions and shape of the edges to be joined shall be such as to allow thorough fusion and complete penetration.

AAR–5. (l–9) For double welded butt joints the reverse sides shall be chipped, ground, or melted out so as to secure a clean surface of the originally deposited weld prior to application of the first bead of welding on the second side. Such chipping, grinding, or melting out shall be done in a manner that will insure proper fusion of the weld metal. These requirements are not intended to apply to any process of welding by which proper fusion and penetration are otherwise obtained and no impurities remain at the base of the weld.

AAR–5. (l–10) If the welding is stopped for any reason, extra care shall be taken in restarting to get full penetration to the bottom of the joint and thorough fusion between the weld metal and the plates, and to the weld metal previously deposited.

AAR–5. *Longitudinal joints.* (m–1) Longitudinal joints shall be of the double-welded butt type and shall be reinforced at the center of the weld on each side of the plate by at least 1/16 inch up to and including 5/8 inch plate and up to ⅛ inch for heavier plates. The reinforcement may be removed, but if not removed shall be filled up uniformly from the surface of the plate to a maximum at the center of the weld. Particular attention is called, however, to the importance of the provision that there shall be no valley or grooves along the edge of or in the center of the weld, but that the deposited metal must be fused smoothly and uniformly into the plate surface. (If the reinforcement is built up so as to form a ridge with a valley or depression at the edge of the weld next to the plate, the result is a notch which causes concentration of stress and reduces the strength of the joints.) The finish of the welded joint shall be reasonably smooth and free from irregularities, grooves, or depressions. Where a welded butt joint is made the equivalent of a double-welded butt joint (see note in paragraph AAR–5 (d–2)) by using a backing-up strip and adding filler metal from one side only, the reinforcements shall not be less than 1/16 inch.

AAR–5. (m–2) Where tanks are made up of two or more courses with welded longitudinal joints, the joints of adjacent courses shall be not less than 60° apart.

AAR–5. *Circumferential joints.* (n) Circumferential joints shall be of the double-welded butt type. The details of all of these joints shall conform to the requirements of longitudinal joints given in AAR–5 (m–1) except as specified in AAR–5 (l–3).

AAR–5 *Stress relieving.* (o) Each tank must be stress relieved by heating uniformly to at least 1100° F. The tank shall be brought slowly up to the specified temperature and held at that temperature for a period of time proportioned on the basis of at least one hour per inch of maximum thickness, minimum 1 hour, and shall be allowed to cool slowly in a still atmosphere. Welded attachments must be welded in place before tank is stress relieved. Fusion welded anchors, if applied, must be welded in place before tank is stress relieved. The entire tank must be stress relieved by heating the complete tank as a unit.

AAR–5. *Inspection.* (p–1) Purchaser of tanks must provide for inspection by a competent inspector. The manufacturer shall submit the tank for inspection at such stages as may be designated by the inspector.

AAR–5. (p–2) Each tank must also be inspected at the time of hydrostatic pressure and hammer tests by the inspector.

AAR–5. (5–3) The manufacturer shall certify that the welding on the tank has been done only by welding operators who have passed the test requirements and that the same material and technique used in making the test were employed in fabricating the tank.

AAR–5. *Distortion.* (q) The shell of the completed tank shall be circular within a limit of plus or minus one percent of the inside diameter of the tank.

AAR–5. *Repairs during original construction.* (r–1) Pin holes, cracks, or other defects in welded joints shall be repaired only by chipping, machining, or burning out the defect and rewelding. For metallic arc welding preheating or reheating is not required.

AAR–5. (r–2) Tanks shall be stress relieved after any welding repairs have been made.

AAR–5. (r–3) After repairs have been made the tank shall again be tested in the regular way, and, if it passes the test, the inspector shall accept it. If it does not pass the test the inspector can order supplementary repairs, or, if in his judgment the tank is not suitable for service, he may permanently reject it.

ICC–6. *Stress relieving.* (a) All welding of the tank and of attachments welded directly thereto must be stress relieved as a unit.

AAR–6. *Stress relieving.* (a) See paragraph AAR–5 (o).

ICC–7. *Anchorage.* (a) The manner in which tanks are supported on and securely attached to the car structure must be approved.

ICC–7. *Protective rings.* (b) A plate ring flange must be welded to the outside of each head and extending a greater distance beyond the head than any fitting or attachment to the head, including the housing referred to in the following paragraph. This flange must be at least as thick as the shell plates and must slope or curve inward toward the axis such that the diameter at the outboard end is at least 2 inches less than the maximum diameter.

ICC–8. *Protective housing and cover.* (a) All operating fittings shall be located in one head. Valves and other closures of openings in tank heads, except fusible plug vents and drain plugs, must be protected against accidental injury by a detachable cast or pressed steel housing at least 3/16 inch thick, which must not project beyond the protective ring on the end of the tank and must be securely fastened to tank head. This housing must be provided with an opening having an area equal to the total safety valve or vent discharge area.

ICC–8. (b) The upper head of tanks mounted vertically on the car structure must be completely covered by a light metal cover designed to exclude moisture, cinders, and other foreign matter, and to be displaced by pressure of gas discharged through safety valves or vent.

ICC–9. *Venting, and loading and discharging valves.* (a) These valves must be of approved type, made of metal not subject to rapid deterioration by lading, and must withstand a pressure of 500 pounds per square inch without leakage. The valves must be screwed directly into tank heads or attached to tank heads by other approved methods. Provision must be made for closing the pipe connections of the valves.

ICC–9. (b) Tanks must not be equipped with safety valves or vents, if prohibited for the service in which they are used.

ICC–10. *Safety valves and vents.* (a) The tank must be equipped with one or more safety valves or vents of approved type, made of metal not subject to rapid deterioration by the lading and screwed directly into tank heads or attached to tank heads by other approved methods. The total value of vent discharge capacity must be sufficient to prevent building up of pressure in tank in excess of ¾ of the test pressure; when safety vents of the fusible plug type are used, the required discharge capacity must be available in each head.

ICC–10. (b) Tanks mounted vertically on the car structure must have safety valves, or vents of the frangible disc type, which must be located on the upper head.

ICC–10. (c) Safety valves must be set to open and vents of the frangible disc type must function at a pressure of not exceeding 375 pounds per square inch. Vents of the fusible plug type must function at a temperature of not exceeding 175° F. (for tolerance see paragraph ICC–13).

ICC–11. *Fixtures.* (a) Siphon pipes and their couplings on the inside of the tank head and lugs on the outside of the tank head for attaching the valve protection housing may be fusion welded in place, provided they are properly heat-treated at the time the entire tank is heat-treated. All other fixtures and appurtenances, except as provided for in paragraphs ICC–7, ICC–8, ICC–9, ICC–10, and ICC–11 (b) are prohibited.

ICC–11. (b) A threaded drain plug for cleaning purposes made of metal not subject to rapid deterioration by the lading, not to exceed 2 inches nominal pipe size, may be included in the head concave to the pressure. (See par. ICC–4 (c).)

ICC–12. *Tests of tanks.* (a) After heat treatment each tank must be subjected to a hydrostatic test in a water jacket, or by other accurate method, operated so as to obtain reliable data. No tank shall have been subjected previously to internal pressure within 100 pounds of the final test pressure.

ICC–12. (b) The tank must be prepared for testing by completely filling with water, or other liquid having similar viscosity, having a temperature not exceeding 100° F. during the test.

ICC–12. (c) While subject to a hydrostatic pressure of 375 pounds per square inch, the tank shall be given a thorough hammer impact test. This impact test shall consist of striking the metal at 6 inch intervals on both sides of all butt welded joints and for the full length of the joints. The weight of the hammer in pounds shall approximately equal the thickness of the thinnest plate of the joint in tenths of an inch, but not to exceed 10 pounds. The plates shall be struck with a sharp swinging blow. The edges of the hammer shall be rounded so as to prevent defacing the plate.

ICC–12. (d) Following the impact test the tank shall be hydrostatically tested at a final test pressure of 500 pounds per square inch. The tank must hold this pressure for at least 10 minutes without leakage or evidence of distress.

ICC–12. (e) The pressure gauge must permit reading to an accuracy of 1 percent. The expansion gauge must permit reading of the total expansion to an accuracy of 1 percent. The expansion must be recorded in cubic centimeters.

ICC–12. (f) The permanent volumetric expansion must not exceed 10 percent of the total volumetric expansion at final test pressure.

ICC–12. (g) Following the hydrostatic test each tank must be subjected to an internal air pressure test of at least 100 pounds per square inch under conditions favorable to detection of any leakage. No leaks shall appear.

ICC–12. (h) Caulking of welded joints to stop leaks developed during foregoing tests is prohibited. Repairs in welded joints must be made as prescribed in paragraph ICC–5 (a).

ICC–13. *Tests of safety valves and vents.* (a) Each valve must be tested by air or gas before being put into service and also at intervals as prescribed in paragraph ICC–14. The valve must open at a pressure of not exceeding 375 pounds per square inch and be vapor tight at 300 pounds per square inch, which limiting pressures must not be affected by any auxiliary closure or other combination.

ICC–13. (b) For safety vents of the frangible disc type, a sample of the discs used must burst at a pressure of not exceeding 375 pounds per square inch and be vapor tight at 300 pounds per square inch.

ICC–13. (c) For safety vents of the fusible plug type, a sample of the fusible plugs used must function at a temperature of not exceeding 175° F. and be vapor tight at a temperature of 130° F.

ICC–14. *Retests, alterations, and upkeep of tanks, safety valves, and vents.* (a) Each tank must be subjected, at least once every five years, to the hydrostatic test as prescribed in paragraph ICC 12 (b) and the volumetric expansion test prescribed in paragraphs ICC 12 (d) and 12 (e). A tank must be condemned when it leaks or when the permanent expansion exceeds 10 percent of the total expansion. Report giving data showing the results of these tests must be rendered by party making tests to the owner of the tank and to the Bureau of Explosives, and each tank passing the test must be marked with the date (month and year) plainly and permanently stamped into the metal of one head or flange ring. For example, 1–51 for January, 1951. Dates of previous tests must not be obliterated.

ICC–14. (b) Safety valves must be retested, at least once every 2 years, in the manner prescribed in paragraph ICC–13 (a). Safety vents of the frangible disc and fusible plug types must be inspected after each loaded trip of tank as follows: Remove at least one vent for visual inspection and, if it shows signs of deterioration, all the vents on the tank must be removed and inspected and those which do not meet the requirements must be renewed.

ICC–14. (c) All prescribed markings on tanks must be kept legible. Copy of the said markings, in letters and figures of the prescribed size stamped on a brass plate secured to the tank, is authorized. Markings must not be changed except as follows:

(1) By application of additional marks not affecting the test pressure or water capacity; these must not obliterate previously applied marks.

(2) By application of test pressure marks, or alteration of such marks, to indicate a reduced test pressure; authorized only for tanks that have not failed in the 5-year test.

(3) By change of serial numbers or ownership marks, or both; report in sufficient detail so that previous serial number and ownership mark can be determined for each tank, arranged by lot numbers or by consecutive serial numbers, must be filed with the Bureau of Explosives.

ICC–15. *Marking.* (a) Each tank must be plainly and permanently marked, thus certifying that the tank complies with all the requirements of this specification. These marks must be stamped into the metal of one head or flange ring, in letters and figures at least ⅜ inch high, as follows:

ICC–15. (b) ICC–110A500–W.

ICC–15. (c) Serial number (immediately below foregoing).

ICC–15 (d) Inspector's official mark (immediately below serial number).

ICC–15. (e) Name, mark (other than a trade mark) or initials of company or person for whose use the tanks are being made, which must be recorded with the Bureau of Explosives.

ICC–15. (f) Date of tank test (month and year), such as 1–51 for January, 1951, so placed that dates of subsequent tests may easily be added thereto.

ICC–15. (g) Water capacity—0000 pounds.

ICC–15. (h) When a tank and its appurtenances are designed and authorized for the transportation of a particular commodity only, the name of that commodity, followed by the word "only" or such other wording which may be required to indicate the usage of the tank, must be stenciled on head of the tank containing operating fittings, in letters at least 1 inch high.

AAR–15. (a) For determining water capacity of tank in pounds the weight of a gallon (231 cu. in.) of water at 60° F. in air shall be 8.32828 pounds.

ICC–16. *Inspection and report.* (a) Purchaser of tank must provide for inspection by a competent inspector as follows:

(1) The inspector must carefully inspect all plates from which tanks are to be made and records pertaining thereto, and plates which do not comply with the requirements of this specification must be rejected.

(2) The inspector must secure complete certified records, including chemical analyses and physical tests on samples taken from each heat and steel used in the manufacture of the plate.

(3) The inspector must report capacity in pounds of water and tare weight of each tank and the minimum thickness of tank wall noted.

(4) The inspector must make such inspection as may be necessary to see that all the requirements of this specification are fully complied with, must see that the finished tanks are properly heat treated, and must witness all air and hydrostatic tests.

(5) The inspector must stamp his official mark on each accepted tank immediately below the Serial No. and make certified report (see paragraph ICC–16 (b)), to the builder, to the company or person for whose use the tanks are being made, to the builder of the car structure on which the tanks are to be mounted, if any, to the Bureau of Explosives, and to the Secretary, Mechanical Division, Association of American Railroads.

ICC–16. (b) Inspector's report required herein must be in the following form:

STEEL TANKS

It is hereby certified that drawings were submitted for these tanks under A. A. R. Application for Approval No. _____ and approved by the A. A. R. Committee on Tank Cars under date of _____
Built for _____ Company
Location at _____
Built by _____ Company
Location at _____
Consigned to _____ Company
Location at _____
Quantity _____
Size _____ inches outside diameter by _____ inches long.
Marks stamped into the head or chime of the tank are:
Specification ICC _____
Serial numbers _____ to _____ inclusive.
Inspector's mark _____
Test date _____
Water capacity (see record of Hydrostatic Tests).
Tare Weights (Yes or No). (See Record of Hydrostatic Tests).
These tanks were made by process of _____

The steel used was identified as indicated by the attached list showing the serial number of each tank, followed by the heat number of the plate, head, and bottom used in the tank.

The steel used was verified as to chemical analysis and record thereof is attached hereto. The heat numbers were stamped into the metal.

All material, such as plates, billets, and seamless tubing, was inspected both before and after closing in the ends; all that was accepted was found free from seams, cracks, laminations, and other defects which might prove injurious to the strength of the tank. The processes of manufacture and heat treatment of tanks were supervised and found to be efficient and satisfactory.

The tank walls were measured and the minimum thickness noted was _____ inch. The outside diameter was determined by a close approximation to be _____ inches. The wall stress was calculated to be _____ pounds per square inch under an internal pressure of _____ pounds per square inch.

Hydrostatic tests, bend and tensile tests of material, and other tests as prescribed in this specification were made in the presence of the inspector and all material and tanks accepted were found to be in compliance with the requirements of this specification. Records thereof are attached hereto.

I hereby certify that all of these tanks proved satisfactory in every way and comply with the requirements of Interstate Commerce Specification No. _____

(Signed) _____
Inspector.

ICC–16. (c) Before a tank built under this specification is placed in service, the builder must furnish to the owner, Bureau of Explosives, and the Secretary, Mechanical Division, Association of American Railroads, a report in proper form certifying that the tank and its equipment comply with all the requirements of this specification, including information as to the serial numbers, date of test, and ownership marks on the tanks.

In the event the owner of the tank instead of the builder elects to furnish appurtenances such as valve protection caps, loading and unloading valves, and safety valves or vents of the frangible disc or fusible plug type, the owner must furnish to the Bureau of Explosives and to the Secretary, Mechanical Division, Association of American Railroads, a report in proper form certifying that these appurtenances comply with all the requirements of this specification.

In case of alterations of or additions to tank or equipment therefor from original design and construction or of repairs, there must be furnished to the owner, Bureau of Explosives, and the Secretary, Mechanical Division, Association of American Railroads, a report in detail of the repairs, alterations, or additions made to each tank covered by a particular application, showing the serial number of each tank involved and stating that heat treatment called for by the particular type of repair authorized has been performed and that after repairs, alterations, or additions, the tests prescribed in paragraph ICC–12 were made, results of hydrostatic tests reported, and tanks marked as prescribed in paragraph ICC–14.

Reports of retests must be rendered to the Bureau of Explosives and tank owner.

AAR–16. *Applications for approval.* (a) See § 78.259 (f) *Application for approval.*

AAR–16. *Certificate of construction.* (b–1) See paragraph ICC–16 (b) for forms of certificates to be filed covering tanks only.

AAR–16. (b–2) For form of certificate covering car structure, see § 78.259 (g), *Certificate of construction.*

AAR–17. *Car structure.* (a) See § 78.263 *Car structure.*

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

SEQUOIA-KINGS CANYON NATIONAL PARKS AND LASSEN VOLCANIC NATIONAL PARK; COMMERCIAL AUTOMOBILES AND BUSSES

1. Section 20.8, entitled *Sequoia-Kings Canyon National Parks*, is amended by adding a new paragraph (f) reading as follows:

(f) *Commercial automobiles and busses.* The prohibition against the admission of commercial automobiles and busses to Sequoia and Kings Canyon National Parks, contained in § 1.36 of this chapter (36 CFR 1.36), shall be subject to the following exceptions: Motor vehicles operated on a general, infrequent, and nonscheduled tour on which the visit to the parks is an incident to such tour, carrying only round-trip passengers traveling from the point of origin of the tour, will be accorded admission to the parks upon establishing to the satisfaction of the superintendent that the tour originated from such place and in such a manner as not to provide, in effect, a regular and duplicating service conflicting with, or in competition with, the services provided for the public at or outside of the parks pursuant to contract authorization with the Secretary. Admission to the parks will be accorded such motor vehicles upon payment of a special tour permit fee of $2.00 per passenger-carrying seat in the vehicle.

2. Section 20.11, entitled *Lassen Volcanic National Park*, is amended by adding a new paragraph (f) reading as follows:

(f) *Commercial automobiles and busses.* The prohibition against the admission of commercial automobiles and busses to Lassen Volcanic National

Park, contained in §1.36 of this chapter (36 CFR 1.36), shall be subject to the following exception: Motor vehicles operated on a general, infrequent, and nonscheduled tour on which the visit to the park is an incident to such tour, carrying only round-trip passengers traveling from the point or origin of the tour, will be accorded admission to the park upon establishing to the satisfaction of the superintendent that the tour originated from such place and in such a manner as not to provide, in effect, a regular and duplicating service conflicting with, or in competition with, the services provided for the public at or outside of the park pursuant to contract authorization with the Secretary. Admission to the park will be accorded such motor vehicles upon payment of a special tour permit fee of $1.00 per passenger-carrying seat in the vehicle.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

MISCELLANEOUS AMENDMENTS

1. Section 21.24 is amended to read as follows:

§ 21.24 *Residency.* (a) The law provides that an Allied veteran must be a resident of the United States at the time of filing his application for benefits. Accordingly, no application will be accepted from Allied veterans residing in foreign countries. Where the application or evidence indicates that an Allied veteran is residing outside the United States, eligibility should be denied until such time as he establishes a residence in the United States.

(1) The term "United States" means the several States, Territories, and possessions, and the District of Columbia.

(b) Where an Allied veteran files a claim when residing in a foreign country, the fact that he claims a legal residence or domicile in the United States, or the fact that his application was filed through a United States diplomatic or consular office, is immaterial. In order to establish eligibility, the record must clearly show that the veteran was in actual physical residence in the United States as defined in paragraph (a) (1), of this section at the time of filing his application under either Part VII or Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note), and shall include an affidavit which states explicitly that the veteran was so residing at the time.

2. In § 21.52 the introduction of paragraph (a) and subparagraph (3), paragraphs (b) and (d) are amended as follows:

§ 21.52 *Charges against entitlement*—(a) *General.* Charges against a veteran's period of entitlement will be made in terms of years, months, and days for periods during which the veteran is carried in a training status, including periods comprehended by paragraph (g) of this section and § 21.65, and applying definitions contained in § 21.104 to determine whether charge will be made at a full-time or part-time rate. Such charges will be recorded at the time the authorization action entering the veteran into training is completed, and subsequently revised if circumstances require such action.

* * * * *

(3) Where a course is pursued on a part-time basis, as defined in § 21.104, the resulting period of years, months, and days obtained by subtraction will be multiplied by the appropriate part-time fraction (¼, ½, or ¾). A fraction of more than one-half day in the final result will be counted as 1 day. A fraction of one-half day or less will be disregarded. Entitlement will be charged in all cases, even though the training time is not sufficient to warrant authorization of subsistence allowance. For example, a course which requires less than 3 semester hours (or the equivalent) would result in a ¼ time charge against the veteran's entitlement even though no subsistence allowance would be payable.

* * * * *

(b) *Audit courses in institutions of higher learning.* (1) The charges against entitlement for courses which require all of the work prescribed for other students enrolled for credit, except for taking credit examinations, will be measured on the same basis as if the course were pursued for credit.

(2) The charges against entitlement for courses which require only attendance and listening at class will be measured as one-half of the ordinarily granted semester-hour credit or its equivalent.

* * * * *

(d) *Courses costing in excess of the rate of $500 for an ordinary school year.* An eligible person pursuing a course for which he elects to have payments made in excess of the rate of $500 for a full-time course for an ordinary school year (see paragraph (h) of this section) shall have charges made against his period of entitlement in accordance with paragraph (a) of this section, and an additional period representing 1 day of eligibility for each $2.10 ($500 divided by 238 days equals $2.10 per day) in that part of the cost which is in excess of the rate of $500. For courses being pursued on a part-time basis under this provision of the law, there shall be charged against the veteran's period of entitlement the usual charge for a part-time course and an additional period of 1 day of eligibility for each $2.10 in that part of the cost which is in excess of the relevant proportion of the rate of $500 applicable to a part-time course. For example, a veteran pursues a full-time course during the school year of two semesters which begins on September 24 and ends on June 7, the cost of which amounts to $542. There shall be regularly charged against the veteran's entitlement the period from September 24 to June 7, 8 months and 14 days, but because of the $42 of cost in excess of $500, an additional period of 20 days ($42 divided by $2.10) shall be charged against his entitlement making a total charge of 9 months and 4 days. As a further example, a veteran pursues a half-time course consisting or 6 semester credit-hours during the school year of two semesters beginning September 24 and ending June 7, the cost of which is $292. There shall be regularly charged against his entitlement 4 months and 7 days (one-half of 8 months and 14 days) and an additional period of 20 days because of the $42 of cost in excess of $250. This makes a total charge against the veterans' eligibility of 4 months and 27 days (par. 5, Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12)).

* * * * *

3. In § 21.104, paragraphs (a) and (c) are amended and a title is added to paragraph (b) (1) as follows:

§ 21.104 *Rates of subsistence allowance*—(a) *Full and part-time rates of subsistence allowance for institutional training.* Prior to January 1, 1946, the rates of subsistence allowance for full-time training payable to a veteran without a dependent was $50 per month, and to a veteran with a dependent or dependents, $75 per month. From January 1, 1946, to April 1, 1948, the rates of subsistence allowance payable were $65 per month for a veteran without a dependent, and $90 per month for a veteran with a dependent or dependents. On or after April 1, 1948, the subsistence allowance rates of, or appropriate fractional parts of $75 per month for a veteran without a dependent, $105 per month for a veteran with one dependent, or $120 per month for a veteran with two or more dependents, apply to those veteran-students pursuing full-time or part-time institutional training. On or after August 8, 1946, all subsistence rates are subject to the statutory ceiling limitation on combinations of subsistence allowance and compensation for productive labor, as provided in § 21.145. The rates of subsistence allowance payable to veterans pursuing institutional training will be determined in accordance with the certification of the institution as to training load of the veteran. Subsistence allowance will be authorized only on the basis of certifications showing the extent of the veteran's enrollment in accordance with the following criteria:

(1) *Courses in collegiate institutions.* For undergraduate courses in collegiate institutions, which use a standard unit of credit recognized by educational accrediting associations or recognized by members of such associations to the extent that the standard unit of credit is acceptable at full value and without examination, the determination as to the rate of subsistence allowance payable during any regular quarter or semester will be based on the number of standard semester-hours or the equivalent (quarter-hours, term-hours, etc.) per semester (quarter, term, etc.) for which the veteran is registered for credit in accordance with the following schedule:

(i) 12 or more credit-hours—full-time rates.

(ii) Less than 12 but not less than 9 credit-hours—¾-time rates.

(iii) Less than 9 but not less than 6 credit-hours—½-time rates.

(iv) Less than 6 but not less than 3 credit-hours—¼-time rates.

(v) Less than 3 credit-hours—no subsistence allowance.

(vi) Subsistence allowance for periods other than the regular semester, term, or quarter will be authorized at the full, ¾, ½, or ¼ rates according to the certification of the institution that the veteran is pursuing full-, ¾-, ½-, or ¼-time training. In making such certifications the institution will be expected to observe the criteria set forth in this section. The number of credit-hours for which the veteran must be registered for credit in order to be authorized the full-time rate of subsistance allowance is that number of credit-hours which will require at least 12 standard class sessions of attendance per week or their equivalent in laboratory or field work, research, or other types of prescribed activity. For example: A veteran who is enrolled in a short summer session requiring attendance at 12 standard class sessions per week will be considered in full-time training although he may be registered for or earn as little as 2 or 3 credit-hours for the period involved.

(vii) For courses which are acceptable for credit but for which credit may not be awarded to a veteran-student because of his failure to meet college entrance requirements or for some other equally valid reason, the rate of subsistence allowance payable will be determined upon the same basis as if the course were pursued for credit, provided the veteran performs all of the work prescribed for other students who are enrolled for credit.

(viii) For courses pursued by veterans in a department of an accredited institution of higher learning, such as a technical institute, which department does not grant degrees but which does measure its course in terms of standard credit-hours and can demonstrate that these credits are acceptable at full value by the regular degree-granting elements of the institution, subsistence allowance payable will be determined on the same basis as though the courses were pursued for credit toward a degree.

(ix) Other courses pursued in institutions of higher learning will be measured on the basis of the number of clock-hours required per week in accordance with the schedule contained in subparagraph (3) of this paragraph. These will include but are not limited to secondary courses sometimes offered by extension centers and vocational or adult education departments of institutions of higher learning; for example, high school courses, vocational training courses, etc. Also included in this category are trade or technical courses offered by technical institutes for which the institution of higher learning does not award semester-hours of credit acceptable by the institution in fulfillment of degree requirements.

(x) No subsistence allowance will be paid for courses which the veteran attends only as a listener or auditor since these courses are not acceptible to measurement as to the veteran's progress or accomplishment.

(2) *Graduate courses for which standard units of credit are not granted.* For graduate or advanced professional courses, for which standard units of credit are not given, pursued in collegiate institutions which use a standard unit of credit, subsistence allowance will be authorized at the full, ¾, ½, or ¼ rates, according to the certification of the institution that the veteran is pursuing full-, ¾-, ½-, or ¼-time training.

(3) *Courses on a clock-hour basis.* (i) Prior to October 1, 1950, for courses in all other schools, including high schools, the determination as to the rate of subsistence allowance payable was based on the number of clock-hours of required attendance at the school as certified by the school in accordance with the following schedule:

(*a*) 25 or more clock-hours—full-time rates.

(*b*) Less than 25 but not less than 18 clock-hours—¾-time rates.

(*c*) Less than 18 but not less than 12 clock-hours—½-time rates.

(*d*) Less than 12 but not less than 6 clock-hours—¼-time rates.

(*e*) Less than 6 clock-hours—no subsistence allowance.

(ii) Effective October 1, 1950, a course offered on a clock-hour basis below the college level in which theoretical or classroom instruction predominates shall be considered a full-time course when a minimum of 25 hours per week net of instruction is required (exclusive of shop practice periods and any rest periods but not excluding regularly scheduled supervised study periods or customary 5- or 10-minute intervals between classes for the purpose of changing student or teacher stations as required by the school) and provided that instruction is required for not fewer than 5 days per week. Determinations of the extent of part-time training will be in accordance with the following schedule:

(*a*) Less than 25 but not less than 18 clock-hours of instruction per week—¾ time.

(*b*) Less than 18 but not less than 12 clock-hours of instruction per week—½ time.

(c) Less than 12 clock-hours of instruction per week—¼ time, but no subsistance allowance is payable for less than 6 clock-hours of instruction per week.

(iii) Effective October 1, 1950, as to courses in those schools which commenced operation subsequent to July 13, 1949; and effective July 1, 1951, as to any new or existing course in schools which were in operation for a period of 1 year prior to July 13, 1950, a trade or technical course offered on a clock-hour basis below the college level, involving shop practice as an integral part thereof, will be considered a full-time course when a minimum of 30 hours per week of attendance in the school is required with not more than 30 minutes' rest period per day allowed: *And provided*, That attendance is required for not fewer than 5 days per week. Determinations of the extent of part-time training will be in accordance with the following schedule:

(*a*) Less than 30 but not less than 22 clock-hours of attendance per week—¾ time.

(*b*) Less than 22 but not less than 15 clock-hours of attendance per week—½ time.

(*c*) Less than 15 clock-hours of attendance per week—¼ time, but no subsistence allowance will be payable for fewer than 7 clock-hours of attendance per week. If a school finds it necessary to grant rest periods in part-time courses, the payment of subsistence allowance will be consistent with the basic requirements for full-time training where the aggregate time per day devoted to such rest periods does not exceed the rate of 6 minutes per hour of attendance. For the purpose of this section "a trade or technical course offered on a clock-hour basis below the college level, involving shop practice as an integral part thereof," shall be considered to include only those courses of training for occupations which are customarily learned through apprenticeships or other training on the job, that is, the skilled, semiskilled, and unskilled occupations as listed under first digits 4 through 9, inclusive, in the second edition of the Dictionary of Occupational Titles, dated March 1949.

(4) *Flight courses.* For courses in flight schools, the determination of the subsistence allowance to be paid will be based on the clock-hours of net instruction per week required in accordance with existing instructions, with ground instruction valued at 1 clock-hour for each required hour of classroom ground instruction, and flight instruction valued at 2 clock-hours for each hour of flying time. (The counting as 2 hours of each 1 hour of actual flying time is based on the fact that by common requirement and experience the flight student spends at the school the additional allowed time, before and after actual flying, receiving instruction, advice, etc., from the instructor or in performing duties necessary to starting actual flying or completing the lesson period after flying.) The payment of subsistence allowance will be upon the basis of the anticipated normal program of flight instruction. Weekly adjustments are not required because of extended periods of nonflight weather or compensatory periods of accelerated flying time, provided the veteran holds himself in readiness for instruction, and such instruction is temporarily suspended due to nonflight weather.

(b) *$65 or $90 per month.* * * *

(1) *On-the-job training.* * * *

(c) *Combination courses.* (1) Where the veteran's course includes related training in a separate institution or establishment where Veterans' Administration standards for determination of the extent of training are dissimilar, and the training in the principal institution or establishment is less than full

time, the extent of the course will be determined by converting the related training to its equivalent in value to the measurement required for full-time training in the principal facility and applying the combined total to the appropriate criteria of paragraph (a) or (b) of this section. Value equivalents are computed as follows:

(i) Related institutional training on a clock-hour basis to principal on-the-job training will be 1.44 hours (36÷25) for each clock-hour of instruction; or 1.20 hours (36÷30) for each clock-hour of attendance.

(ii) Related institutional training on a semester-credit basis to principal on-the-job training will be 3 hours (36÷12) for each semester credit of instruction.

(iii) Related on-the-job training to principal institutional training on a semester-credit basis will be ⅓ semester credit (12÷36) for each related hour of on-the-job training.

(iv) Related on-the-job training to principal institutional training on a clock-hour basis will be .694 hours (25÷36) or .833 hours (30÷36) for each on-the-job training hour.

(v) Repeated institutional training on a clock-hour basis to principal institutional training on a semester-credit basis will be .48 credits (12÷25) for each related clock-hour of instruction; or .40 credits (12÷30) for each clock-hour of attendance.

(vi) Related institutional training on a semester-credit basis to principal institutional training on a clock-hour basis will be $2\frac{1}{12}$ hours (25÷12) or $2\frac{1}{2}$ credits (30÷12) for each related semester credit.

(2) Where each type of training, measured independently in accordance with the ¾, ½, or ¼ fractional standards in paragraphs (a) and (b) of this section, provides a greater subsistence allowance than afforded by determinations in accordance with this paragraph, the former will be for application.

(3) In combination of on-the-job training and related institutional training, the increased rates specified in paragraph (a) of this section will not apply unless the institutional part of the training is equivalent independently to a fractional part as defined therein.

(4) The following examples are illustrative of the principles set forth in this paragraph:

(i) A veteran without dependents is pursuing on-the-job training for 34 hours per week with 2 hours of related training in a course comprehended by paragraph (a) (3) (ii) of this section. Subsistence allowance may be authorized at the rate of $65 per month, since the related institutional training is the equivalent of 2.88 hours of on-the-job training (2×1.44). (If the related training consisted of 6 clock-hours per week, subsistence allowance of $67.50 per month would be permitted since the institutional phase would meet the ¼-time requirements of paragraph (a) of this section.)

(ii) A veteran without dependents is pursuing training for 13 hours per week in a course comprehended by paragraph (a) (3) (ii) of this section, and is enrolled in a collegiate institution for 3 semester credits of related training. Subsistence allowance may be authorized at the rate of $75 per month, since the training in the two institutions equals ¾ and ¼ time, respectively, by the standards outlined in paragraph (a) of this section, notwithstanding the fact that conversion of the 3 semester credits of related instruction ($3\times2\frac{1}{12}$) to their equivalent in value to the principal training equals a combined total of only $24\frac{1}{4}$ hours ($18\div6\frac{1}{4}$).

* * * * *

4. Section 21.113 is amended to read as follows:

§ 21.113 *Overpayments of subsistence allowance and other benefits*—(a) *Bar against further education or training on account of outstanding overpayments.* Where a veteran has failed to make arrangements with the finance activity to restore or refund an outstanding overpayment of benefits made under Veterans' Administration laws, and due the government, the registration and research activity may not thereafter reenter the veteran into training. In any such instance, the registration and research activity will be responsible for giving proper notification to the veteran and the institution.

(b) *Liability of institution on account of outstanding overpayments.* Paragraph 5, Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note), provides that in any case where an overpayment of subsistence allowance has been made to a veteran for any period beginning on or after July 13, 1950, and the overpayment, which has not been recovered or waived, is proven in a hearing before the committee on waivers to be the result of willful or negligent failure of the school to report to the Veterans' Administration, as required by applicable regulation or contract, unauthorized or excessive absences from a course in which the veteran has been enrolled, or discontinuance or interruption of a course by the veteran, the amount of such overpayment will constitute a liability of the school for such failure to report. Any amount of subsistence allowance recovered from the school will be reimbursed to the school by the finance activity if the overpayment is subsequently recovered from the veteran. If the overpayment is found not due to the willful or negligent failure of the school to report and is not waived with respect to the veteran, the veteran only will be liable for restoration of the amount of overpayment to the Veterans' Administration. If the overpayment is waived with respect to the veteran or has been recovered from him, the school cannot be held liable.

(c) *Reimbursement to institution.* In any case wherein an overpayment of subsistence allowance has not been waived or recovered from the veteran and has been fully recovered from the school, any future recovery from the veteran is to be refunded to the school. If such a veteran subsequently makes arrangement with the finance officer to restore the amount of overpayment to the Veterans' Administration, for example, a veteran who wishes to reenter a course of education or training, any amount so recovered will be reimbursed to the school.

(d) *Responsibility of the registration and research section.* The registration and research section will be responsible for determining whether there is prima facie evidence to indicate that an overpayment of subsistance allowance is the result of willful or negligent failure on the part of the school to report to the Veterans' Administration unauthorized or excessive absences from the course, or discontinuance or interruption of a course by the veteran. Only those cases in which adequate prima facie evidence is of record will be referred to the finance division and the committee on waivers for possible recovery action against the school.

(1) Examples: Where a school has failed to furnish information within a reasonable period from the date the change or discontinuance occurred and the Veterans' Administration record contains other considerations which indicate repeated failures to furnish information or otherwise to cooperate in complying with Veterans' Administration Regulations, referral to finance would be appropriate. However, where the Veterans' Administration record or other known considerations indicate that a school has an operating procedure that is adequate for reporting to the Veterans' Administration timely and pertinent information, but an isolated instance occurs where the school fails to submit a notice within a reasonable period, it would be proper for a registration officer to conclude that the failure was due to an unavoidable human error as distinguished from willfulness or negligence. On the other hand, where there is no report from the school indicating irregular attendance and it is later discovered by the Veterans' Administration, through an audit conducted of the school, or otherwise, that the school had been either negligent in failing to maintain a record of a student's attendance as required by regulation or contract, or that the school had been willful in that it had not made report to the Veterans' Administration of absences disclosed by the attendance records maintained by the school, it would be proper for the registration officer to determine that the overpayment had resulted from the willful or negligent failure of the school to report.

(e) *Contractual liability.* Nothing in the statute or the regulations of this section changes any liability arising under contracts during any period prior to July 13, 1950.

5. In the Provisional Regulations, § 21.187 is canceled.

§ 21.187 *Application of the provisions of the Servicemen's Readjustment Act, Title II, as amended by section 6 Public Law 610, 81st Congress, approved July 13, 1950.* [Canceled.]

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697-697d, 697f, g, ch. 12 note)

This regulation effective June 6, 1951.

Deputy Administrator.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 32—SOUTHWESTERN REGION

SUBPART—MULESHOE NATIONAL WILDLIFE REFUGE, TEXAS

FISHING

Basis and purpose: On the basis of observations and reports of field representatives of the Fish and Wildlife Service it has been determined that there is an abundant population of fish in certain waters of the Muleshoe National Wildlife Refuge, Texas that can best be harvested by public fishing at certain times during the year without interfering with or disturbing migratory birds and other wildlife frequenting the project.

Inasmuch as the following regulation is a relaxation of the existing prohibition against fishing on the Muleshoe National Wildlife Refuge, publication prior to the effective date is not required (5 U. S. C. 1001 et. seq.).

Effective immediately upon publication in the FEDERAL REGISTER the following subpart and sections are added:

SUBPART—MULESHOE NATIONAL WILDLIFE REFUGE, TEXAS

FISHING

Sec.
32.201 Fishing permitted.
32.202 Entry.
32.203 State fishing laws.
32.204 Use of boats prohibited.
32.205 Temporary restrictions.

AUTHORITY: §§ 32.201 to 32.205 issued under section 10, 45 Stat. 1224; 16 U. S. C. 715i.

§ 32.201 *Fishing permitted.* Noncommercial fishing is permitted in the waters of Upper Goose Lake on the Muleshoe National Wildlife Refuge during the daylight hours of the period from May 30 to September 30 inclusive in any year in accordance with the provisions of §§ 32.202 to 32.205 inclusive.

§ 32.202 *Entry.* Entry upon and use of the Refuge for any purpose are covered by Parts 18 and 21 of this chapter, and strict compliance therewith is required.

§ 32.203 *State fishing laws.* Each person fishing on the Refuge shall comply with the applicable laws and regulations of the state of Texas. Each person fishing in the Refuge shall possess and shall exhibit to any authorized Federal or State official whatever license, if any, is required by law or regulations of the state of Texas, which license shall serve as a Federal permit for fishing in the waters of the Refuge.

§ 32.204 *Use of boats prohibited.* The use of boats or floating devices of any description is prohibited in all Refuge areas except for official purposes.

§ 32.205 *Temporary restrictions.* The Officer in Charge may temporarily suspend fishing in all or part of the Refuge by suitable posting when, in his judgment, such action is necessary for the protection of migratory waterfowl, wildlife concentration, fishes and other aquatic animal life, food and cover plantings for wildlife, or for the carrying out of official operations in such area.

Dated: May 29, 1951.

CLARENCE COTTAM,
Acting Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 952]

[Docket No. AO 234]

HANDLING OF MILK IN THE PROVIDENCE, R. I., MARKETING AREA

NOTICE OF HEARING ON A PROPOSED ORDER AND A PROPOSED MARKETING AGREEMENT

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Antioch Grange Hall, Antioch, Rhode Island (about 3 miles west of Thornton, Rhode Island, on Route 14) beginning at 10:00 a. m., e. d. s. t., June 25, 1951, for the purpose of receiving evidence with respect to a proposed order and a proposed marketing agreement regulating the handling of milk in the Providence, Rhode Island, marketing area as set forth herein below, or any modification thereof. This proposed order has not received the approval of the Secretary of Agriculture.

Proposed by Local Dairymen's Cooperative Association and Providence Sales Committee of New England Milk Producers Association:

1. Proposed Marketing Order regulating the Handling of Milk in the Providence, Rhode Island Marketing Area.

DEFINITIONS

§ 952.1 *General definitions*—(a) *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) *Providence, Rhode Island, marketing area.* "Providence, Rhode Island, marketing area," also referred to as the "marketing area," means the territory included within the boundary lines of the following areas:

(1) The State of Rhode Island, except the Island of Rhode Island, and the towns of Little Compton and Tiverton.

(2) The cities and towns of Attleboro, Bellingham, Blackstone, Douglas, Franklin, Millville, North Attleboro, Plainville, Rehoboth, Seekonk, Uxbridge, Webster and Wrentham, Massachusetts.

(3) The city or town of Stonington, Connecticut.

(c) *Order.* "Order," used with the name of a marketing area other than the Providence, Rhode Island, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) *Month.* "Month" means a calendar month.

§ 952.2 *Definitions of persons*—(a) *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) *Dairy farmer.* "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) *Dairy farmer for other markets.* "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February.

(e) *Producer.* "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 952.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy

farmer who is a producer under the Boston, Lowell, Lawrence, Worcester, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) *Association of producers.* "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) *Handler.* "Handler" means any person who in a given month operates a pool plant, or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) *Pool handler.* "Pool handler" means any handler who operates a pool plant.

(i) *Producer-handler.* "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from dairy farmers except producer-handlers.

(j) *Buyer-handler.* "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products other than cream are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) *Dealer.* "Dealer" means any person who engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) *Consumer.* "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 952.3 *Definitions of plants*—(a) *Plant.* "Plant" means the land, buildings, surroundings, facilities, and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) *Receiving plant.* "Receiving plant" means any plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(c) *Pool plant.* "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 952.20, 952.21, and 952.22 for being considered a pool plant in that month.

(d) *Regulated plant.* "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(e) *City plant.* "City plant" means any plant which is located within 10 miles of the marketing area.

(f) *Country plant.* "Country plant" means any plant which is located beyond 10 miles of the marketing area.

§ 952.4 *Definitions of milk and milk products*—(a) *Milk.* "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, concentrated milk, and reconstituted milk.

(b) *Cream.* "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing or is separated from it by centrifugal force, in all forms including sweet, sour, frozen, and aerated cream, and milk and cream mixtures.

(c) *Skim milk.* "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(d) *Fluid milk products.* "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk either individually or collectively.

(e) *Pool milk.* "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(f) *Outside milk.* "Outside milk" means:

(1) All milk received from dairy farmers for other markets.

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except receipts from New York order pool plants which are assigned to Class I milk pursuant to § 952.27 and from regulated plants under the Boston, Lowell, Lawrence, Worcester, or Springfield orders.

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Boston order, without its intermediate movement to another plant.

(g) *Exempt milk.* "Exempt milk" means milk of a dairy farmer's own production which he delivers in bulk to a plant and for which an equivalent quantity of packaged milk is returned to him during the same month.

(h) *Concentrated milk.* "Concentrated milk" means any unsterilized liquid milk product, other than those products commonly known as evaporated milk and sweetened condensed milk, which is obtained by the evaporation of water from milk and milk to which any other milk product may be added in the process of manufacture. For purposes of this part the weight of the fluid milk products used to produce the concentrated milk shall be used rather than the actual weight of the concentrated milk.

MARKET ADMINISTRATOR

§ 952.10 *Designation of market administrator.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 952.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 952.12 *Duties of the market administrator.* The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 952.71, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(c) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(d) Unless otherwise directed by the Secretary, publicly disclose, within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 2 days after the date on which he is required to perform such acts, has not made reports or payments pursuant to this part;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by the handlers; and

(g) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 952.15 *Classes of Utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 952.16, 952.17, and 952.18, the classes of utilization shall be as follows:

(a) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as or in milk; and other than as or in concentrated milk for fluid consumption, flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 952.16 *Classification of interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 952.25 and 952.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the Boston, Lowell, Lawrence, Worcester, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the Boston, Lowell, Lawrence, Worcester, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the Boston, Lowell, Lawrence, Worcester, or Springfield orders, they shall be classified as Class I milk if retransferred to either of these types of regulated or unregulated plants.

§ 952.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 952.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any other milk or milk products received by a handler which is not pool milk, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 952.20 *Requirements for all receiving plants.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in §§ 952.21 or 952.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued by the applicable state authority of Rhode Island, Massachusetts or Connecticut, or

(b) A permit has been issued to one or more handlers licensed by the applicable health authorities for the sale of Class I milk in the marketing area to receive milk from such plant.

(c) The plant is operated neither as the plant of a producer-handler, nor as a pool plant pursuant to the provisions of the Boston, New York, Lowell, Lawrence, Worcester, or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler unless its operation during October through February was in the handlers' capacity as a producer-handler.

§ 952.21 *Additional requirements for city receiving plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers.

§ 952.22 *Additional requirements for country receiving plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 40 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously from the effective date of this part through February 1952 and any country plant which thereafter is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 952.25 *Assignment of pool handlers' receipts to class I milk.* For the purpose of computing the net quantity of each pool handler's class I milk for which a value is to be computed pursuant to § 952.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 952.27.

(c) Receipts of fluid milk products, other than cream and skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to Providence.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to Providence.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to Providence.

(j) Receipts of skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 952.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 952.25 shall be assigned to Class II milk.

§ 952.27 *Receipts from other federal order plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Lowell, Lawrence, Worcester or Springfield orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class

II milk up to the total Class II uses of fluid milk products other than cream at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 952.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 952.25, 952.26, and 952.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 952.15 952.16, and 952.17.

§ 952.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 952.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 952.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to each producer with the prices, deductions, and charges involved.

§ 952.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 952.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator finds necessary for the purpose specified in this section.

§ 952.36 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASS PRICES

§ 952.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest reported figures available on the next succeeding work day shall be used:

(a) Divide by 0.98 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the year 1926 as the base period.

(b) Divide by 3 the sum of the three latest monthly indexes of department store sales in the Boston Federal Reserve District adjusted for seasonal variations, as reported by the Federal Reserve System, with the years 1935–39 as the base period, and divide the result so obtained by 1.26.

(c) Compute an index of grain-labor costs in the Boston milkshed in the following manner:

(1) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed, as reported by the United States Department of Agriculture, divide by 0.5044 and multiply by 0.6

(2) Compute the weighted average of the monthly composite farm wage rates for the latest available month for Maine, Massachusetts, New Hampshire, and Vermont, as reported by the United States Department of Agriculture, divide by 0.5952, and multiply by 0.4. In computing the weighted average, weigh the respective rates as follows: Maine, 19; Massachusetts, 6; New Hampshire, 7; and Vermont, 77.

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to the preceding paragraphs of this section. Express the result as a whole number by dropping fractions of less than one-half or by raising fractions of one-half or more to the next whole number. The result shall be known as the formula index.

(e) Subject to the succeeding paragraphs of this section, the Class I price per hundredweight at city plants shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Formula index	Class I price per hundredweight		
	Jan.-Feb.-Mar.-July-Aug.-Sept	Apr.-May-June	Oct.-Nov.-Dec.
60–56	$2.70	$2.66	$2.94
57–63	2.72	2.68	3.16
64–70	2.94	2.90	3.38
71–77	3.16	3.12	3.60
78–84	3.38	3.34	3.82
85–91	3.60	3.56	4.04
92–97	3.82	3.78	4.26
98–104	4.04	4.00	4.48
105–111	4.26	4.22	4.70
112–118	4.48	4.44	4.92
119–125	4.70	4.66	5.14
126–132	4.92	4.88	5.36
133–139	5.14	5.10	5.58
140–146	5.36	5.32	5.80
147–152	5.58	5.54	6.02
153–159	5.80	5.76	6.24
160–166	6.02	5.98	6.46
167–173	6.24	6.20	6.68
174–180	6.46	6.42	6.90
181–187	6.68	6.64	7.12
188–194	6.90	6.86	7.34

If the formula index is more than 194 the price shall be increased at the same rate as would result from further extension of this table at the rate of extension of the six highest index brackets.

(f) The Class I price shall be 44 cents more than the price prescribed in paragraph (e) of this section if (under the provisions of the Boston order) less than 33 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents above the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent increase as will result in a Class I price equal to the Class I price for the same month of the preceding year plus 83 cents.

(g) The Class I price shall be 44 cents less than the price prescribed in paragraph (e) of this section if (under the provisions of the Boston order) more than 41 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents below the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent reduction as will result in a Class I price equal to the Class I price for the same month of the preceding year minus 88 cents.

(h) Notwithstanding the provisions of (a)–(g) of this section, the Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(i) The Class I price determined under the preceding paragraphs of this section shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff M No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

§ 952.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section.

(a) Divide by 33.(48) the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month during which such milk is delivered, and multiply the result by 3.7.

(b) Multiply by 7.5 the average price per pound of roller process nonfat dry milk solids for human consumption, in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is received.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	Amount (cents)
January and February	57.5
March and April	69.5
May and June	75.5
July	69.5
August and September	63.5
October, November, and December	57.5

§ 952.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 952.40 and 952.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the State House in Providence, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Providence from the nearest railway shipping point for such plant, whichever is shorter. The applicable differentials shall be those set forth in the following table, as adjusted pursuant to § 952.43:

DIFFERENTIALS FOR DETERMINATION OF COUNTRY PLANT PRICES

A Zone (miles)	B Class I price differentials (cents per cwt.)	C Class II price differentials (cents per cwt.)
0–100	(1)	(1)
101–110	−0.5	−2.5
111–120	−0.5	−2.5
121–130	−0.5	−2.5
131–140	−0.5	−2.5
141–150	−0.0	−2.5
151–160	−1.5	−3.5
161–170	−1.5	−3.5
171–180	−2.0	−3.5
181–190	−2.0	−3.5
191–200	−2.5	−3.5
201–210	−2.5	−5.0
211–220	−2.5	−5.0
221–230	−3.0	−5.0
231–240	−3.0	−5.0
241–250	−3.0	−5.0
251–260	−3.0	−6.5
261–270	−3.5	−6.5
271–280	−3.5	−6.5
281–290	−3.5	−6.5
291 and over	−3.5	−6.5

(1) No differential.

§ 952.43 *Automatic changes in country plant price differentials.* In case the rail tariff for the transportation of milk in 40-quart cans in carlots of 200 or more cans or for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 6 and supplements thereto or revisions thereof, is increased or decreased, the country plant price differentials set forth in the table in § 952.42 shall be correspondingly increased or decreased in the manner and to the extent provided in this section. Such adjustment shall be effective beginning with the first complete month in which the changes in rail tariffs apply. If such rail tariff on milk is changed, the differentials set forth in Column B of the table shall be adjusted to the extent of any such change. If such rail tariff on cream is changed, the differentials set forth in Column C of the table shall be adjusted to the extent of any such change divided by 9.05. Adjustment shall be made to the nearest one-half cent per hundredweight.

§ 952.44 *Use of equivalent prices in formulas.* If for any reason a price, index, or wage rate specified by this part for use in computing class prices and for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 952.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

BLENDED PRICES TO PRODUCERS

§ 952.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 952.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 952.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 952.40, 952.41 and 952.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 952.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 952.25 (f), (i), and (k) by the price applicable pursuant to §§ 952.41 and 952.42.

§ 952.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk, computed pursuant to § 952.50, for each pool handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 952.61 (b) for milk received during each month since the effective date of the most recent amendment to this order;

(b) Add the total amount of payments required from handlers pursuant

to § 952.65 and from buyer-handlers and producer-handlers pursuant to § 952.66;

(c) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 952.61, 952.62, 952.65, 952.66, and 952.67;

(d) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 952.64;

(e) Divide by the total quantity of producer milk for which a value is determined pursuant to paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 952.61 and 952.62. This result, which is the minimum price payable to producers for milk containing 3.7 percent butterfat received from them at city plants, shall be known as the basic blended price.

§ 952.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the country plant price differentials pursuant to § 952.64; and

(c) The names of pool handlers, designating those whose milk is not included in the computations.

PAYMENTS

§ 952.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this paragraph shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 952.61 (a).

§ 952.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 952.50 as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 952.63 and 952.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to: on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 952.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 952.50, as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

§ 952.62 *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payment pursuant to §§ 952.61 (b), 952.65, and 952.66, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Wherever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 952.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 952.63 *Butterfat differential.* Each handler shall, in asking payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10.

§ 952.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 952.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 952.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in any of the following areas, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to § 952.40 and § 952.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price:

(1) The State of Rhode Islands.

(2) That portion of Connecticut east of the Connecticut River.

(3) Bristol, Middlesex, Norfolk, Plymouth and Worcester Counties, and that portion of Hampden County east of the Connecticut River, in Massachusetts.

§ 952.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between Class I and Class II prices pursuant to §§ 952.40, 952.41, and 952.42, effective for the location of freight mileage some of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 952.40, 952.41, and 952.42, effective for the location or freight mileage zone of the handler's plant.

§ 952.66 *Payments on Class I receipts from New York order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the Class I price pursuant to §§ 952.40 and 952.42, effective for the location or freight mileage zone of the plant from which the Class I milk was received by the butterfat differential calculated pursuant to § 952.63.

(b) Adjust the zone Class I–A or I–B price applicable under the New York order by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the New York order plant by the difference in price.

§ 952.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 952.61, 952.62, 952.65, and 952.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

§ 952.68 *Statements to producers.* In making the payments to producers prescribed by § 952.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 952.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 952.69 and 952.70, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

§ 952.69 *Marketing service deductions; nonmembers of an association of producers.* In making payments to producers pursuant to § 952.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 952.70, deduct 4 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 25th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 952.70 *Marketing service deductions; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 952.69, each handler shall, in lieu of the deductions specified in § 952.69, make such deductions from payments made pursuant to § 952.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deductions to such associations.

§ 952.71 *Expense of administration.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this order, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundred weight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

§ 952.72 *Termination of obligation.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books or records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 952.80 *Effective time.* The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 952.81.

§ 952.81 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 952.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 952.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 952.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Taunton.	Wareham.

Proposed by Emile J. Proteau:

6. Delete from the definition of the Providence marketing area the town of Wrentham, Massachusetts.

Proposed by Local Dairymen's Cooperative Association, Inc.:

7. Consider the use of a fall premium plan, with a deduction of 50 cents per hundredweight on all milk delivered by producers in May and June and payback to producers (of the sum so collected) in October and November, in lieu of four seasonal changes each year in the Class I price or a base rating system. Pay-back should be made only to producers of record in May and June.

8. Consider the adoption of Class I price formula either in the form of paragraph (a) or (b) as follows:

(a) The Class I price shall be 29¢ per hundredweight above the Boston annual level or 40¢ above the New York annual level (adjusted to bracket steps), whichever is higher. The New York annual level to be used shall be for 3.7 percent milk delivered to the market, adding the same amount to the 201–210 mile zone price to convert to a delivered price as is added to the Boston 201–210 mile zone price.

(b) The Class I price shall be determined by the following formula:

(1) Compute a formula index as follows:

(i) Current U. S. Wholesale commodity price index divided by index for April 1, 1951, times 20 percent.

(ii) Current index of Providence department store sales, divided by index for 3 months, February–April 1951, times 40 percent.

(iii) Simple average of current monthly farm wage rates in Rhode Island and Connecticut, divided by average for April 1, 1951, times 20 percent.

(iv) Current New England dairy ration prices, divided by average prices for four weeks ending May 25, 1951, times 20 percent.

(2) Multiply $6.46 by above index, divided by 100 and adjust to nearest 22¢ bracket, e. g. $6.24, $6.46, $6.68, $6.90, etc.

(3) Include supply-demand adjustment factor provided by the Boston order.

(4) Use contra-seasonal provision, March–June and September–December as in Boston order.

(5) Use May–June take-out and October–November pay-back under a level production incentive plan (with no take-out in 1951, have seasonal price rise of 44¢ in 1951 only).

(6) *Provided further*, That:

(i) The resulting price shall be not less than 7¢ over Boston and 18¢ over New York annual level (3.7% f. o. b. city plants, with New York price adjusted to nearest bracket).

(ii) The resulting price shall be not more than 51¢ over Boston and 62¢ over New York, except when this provision conflicts with subparagraph (i) of this paragraph.

Proposed by Lyndonville Creamery Co., Inc., Devine's Creamery, Inc., Devine's Milk Laboratories, Inc., and Devine's Mount Hope Farm:

9. Add to the proposed § 952.1 (e) as follows:

(e) *Marketing year.* The "marketing year" means the twelve-months' period from August 1st of each year to July 31st of the following year.

10. Add to § 952.1 the following paragraph (f):

(f) *Emergency period.* "Emergency period" means the period of time for which the market administrator declares that an emergency exists in that the milk supply available to the marketing area from producers is insufficient to meet the demand for Class I milk in the marketing area.

11. Revise § 952.4 (f) (3) to read as follows:

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants under this order or from plants regulated by the Boston Order, which is disposed of to consumers in the marketing area from an unregulated plant.

12. Add to § 952.4 a new paragraph (h) as follows:

(h) *"Emergency milk."* "Emergency milk" means fluid milk products other than cream received at a regulated plant during an emergency period from a plant which was an unregulated plant in the month immediately preceding the month in which the emergency period became effective.

13. Add to § 952.15 a new paragraph as follows:

Receipts of emergency milk. (1) Emergency milk received by a handler whose total use of Class II milk is in excess of 10 percent of the total volume of fluid milk products, other than cream, handled by him shall be assigned to Class II milk to the extent of such excess. For the purpose of this subparagraph, the handler's total Class II milk and total volume handled shall be the total of the respective quantities from the first day on which emergency milk is received by the handler during the month up to and including the last such day in the month.

(2) If the quantity of emergency milk as to which specific Class II use is established is greater than the quantity assigned to Class II milk pursuant to subparagraph (1) of this paragraph, such greater quantity shall be assigned to Class II milk in lieu of the quantity determined under that subparagraph.

(3) Receipts of emergency milk not assigned to Class II milk shall be assigned to Class I milk.

14. Revise § 952.20 (a) to read as follows:

(a) All of the dairy farmers delivering milk to the plant hold certificates of registration issued by the applicable state authorities of Rhode Island, Massachusetts or Connecticut or whose milk is approved by health authorities in the area of production.

15. Substitute for proposed § 952.22 (a) and (b), the following:

(a) Subject to paragraph (b) of this section, each country receiving plant shall be a pool plant in the first month in which ten percent of the handler's total receipts of fluid milk products other than cream are disposed of in the marketing area as Class I milk and shall thereafter be a pool plant for the remaining months of the marketing year in which it is operated. The first year of operation shall be from the promulgation of the order to the following July 31st and thereafter from August 1st to July 31st of the following year.

(b) (1) Each plant which has acquired pool status but from which no Class I milk in the form of milk is disposed of in the marketing area for too successive months in the marketing year shall be a non-pool plant in the second of the two months and in each successive month of the marketing year during which no such Class I milk disposition is made.

(2) Each country plant for which the market administrator has received on or before the sixteenth day of the preceding month the handler's written request for non-pool plant designation shall be a non-pool plant in each month of the marketing year to which the request applies.

16. Add to § 952.41 a paragraph (d) as follows:

(d) During the months in which the butter and cheese adjustment is operative under the Boston Order No. 904, a similar provision shall be operative in this order.

Proposed by Rhode Island Milk Dealers Association:

17. Provide in § 952.20, requirements for all receiving plants, that a receiving plant shall be a pooled plant under the emergency permit procedure of the Rhode Island Department of Health, and the conflict eliminated between the operating of such emergency permit procedure and the pool plant provision of the proposed milk order.

18. In § 952.22 (a), amend the proposal for qualification of a plant to require 15 percent in place of 40 percent of the total receipts, and the months called for under paragraph (c) be November, December, and January.

Proposed by H. P. Hood & Sons:

19. Revise proposed § 952.20 (d) to read:

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through January shall not be a pool plant in any of the following months of February through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through January was in the handler's capacity as a producer-handler.

20. Revise proposed § 952.22 (a) to read:

(a) Each country receiving plant shall be a pool plant in any month in which more than 15 percent of its total receipts of fluid milk products other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk. However, any country receiving plant may be designated by a pool handler as a pool plant if such request is made to the administrator not less than 15 days in advance of the effective date of pooling and if the pool qualification of the plant does not result in the pool handler's total utilization of purchases from producers being less than 50 percent Class I. Any country plant which qualifies as a pool plant under any of the provisions of this paragraph for the first month in which the order is effective, or for any month of October thereafter shall retain its pooled status in each succeeding month in which it ships milk to the marketing area unless the handler requests termination of pool plant designation for the plant.

21. Revise proposed § 952.22 (b) to read:

(b) Any country plant which is a pool plant continuously from the effective date of this order through January 1952 and any country plant which thereafter is a pool plant continuously in each of the months from October through January shall be a pool plant continuously for the following months of February through September regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such eight months' period is received by the market administrator before February 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

22. Amend § 952.65 to provide that payments on outside milk originating at plants outside the 6 New England States and New York shall not be required in respect to such milk received during a period when an emergency has been declared pursuant to Federal Order No. 4.

Proposed by Rhode Island Milk Control Board:

23. Provide that any Federal order regulating the handling of milk in the Providence, Rhode Island, marketing area be issued in the form of an order complementary to an order issued by the Rhode Island Milk Control Board.

Proposed by the Massachusetts Milk Control Board:

24. That, if as a result of this hearing, the Secretary of Agriculture shall determine that any Massachusetts city or town should be included in the Providence, Rhode Island, marketing area, any order issued by the Secretary of Agriculture regulating the handling of milk in such marketing area, shall be an order complementary to a similar order to be issued by the Massachusetts Milk Control Board.

Issued at Washington, D. C., this 1st day of June 1951.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR, Part 29]

PAYMENT OF INCOME TAX BY INSTALLMENT PAYMENTS AND OF TAX WITHHELD AT SOURCE FROM NONRESIDENT ALIENS, RETURNS OF ESTATES, TRUSTS, AND CORPORATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to sections 205 and 219 of the Revenue Act of 1950 (Public Law 814, 81st Cong., 2d Sess.), approved September 23, 1950, and section 305 of the Excess Profits Tax Act of 1950 (Public Law 909, 81st Cong., 2d Sess.), approved January 3, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.52–1 the following:

SEC. 305. FILING OF RETURNS FOR TAXABLE YEARS ENDING AFTER JUNE 30, 1950, AND BEFORE DECEMBER 31, 1950 (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1950).

In the case of a corporation subject to the tax imposed by subchapter D of chapter 1 of the Internal Revenue Code for a taxable year ending after June 30, 1950, but prior to December 31, 1950, such corporation shall after the date of the enactment of this act and before March 15, 1951, make a return for such taxable year with respect to the tax imposed by chapter 1 of the Internal Revenue Code for such taxable year. The return required by this section for such taxable year shall constitute the return for such taxable year for all purposes of the Internal Revenue Code; and no return for such taxable year, with respect to any tax imposed by chapter 1 of such code, filed on or before the date of the enactment of this act shall be considered for any of such purposes as a return for such year. The taxes imposed by chapter 1 of such code (determined with the amendments made by this act) for such taxable year shall be paid on March 15, 1951, in lieu of the time prescribed in section 56 (a) of such code. All payments with respect to any tax for such taxable year imposed by chapter 1 of such code under the law in effect prior to the enactment of this act, to the extent that such payments have not been credited or refunded, shall be deemed payments made at the time of the filing of the return required by this section on account of the tax for such taxable year under chapter 1 deter-

mined with the amendments made by this act.

PAR. 2. There is inserted immediately after § 29.52–2 the following:

§ 29.52–3 *Certain corporation returns for taxable years ending after June 30, 1950, and before December 31, 1950.* The return of a corporation (other than a corporation exempt from the excess profits tax under section 454) for a taxable year ending after June 30, 1950, and before December 31, 1950, shall be filed after January 3, 1951 (the date of enactment of the Excess Profits Tax Act of 1950), and on or before March 15, 1951. Such return shall constitute the return for such taxable year, and no return for such taxable year filed on or before January 3, 1951, shall be considered as a return for such year. The taxes for such taxable year shall be paid on or before March 15, 1951. All payments of tax (including interest, penalties, and additions to the tax) for such taxable year made on or before January 3, 1951, shall be deemed to be payments of tax made at the time of the filing of the return required by this paragraph to be filed on or before March 15, 1951, except to the extent any such payments are credited or refunded prior to the time such return is filed. The provisions of § 29.56–1 (a) shall apply with respect to the payment of such tax by installment payments, and for such purpose, the date prescribed for the payment of the tax as a single payment is March 15, 1951.

PAR. 3. There is inserted immediately preceding § 29.53–1 the following:

SEC. 205. PAYMENT OF INCOME TAX BY INSTALLMENT PAYMENTS, AND RETURNS OF ESTATES AND TRUSTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

• • • • • •

(b) Filing of Returns and Payment of Tax by Fiduciaries of Estates and Trusts.

(1) Section 53 (a) (1) (relating to time for filing returns) is hereby amended to read as follows:

(1) *General rule.* Returns made on the basis of the calendar year shall be made on or before the fifteenth day of March following the close of the calendar year, except that in the case of the return of the fiduciary of an estate or trust, the return shall be made on or before the fifteenth day of April following the close of the calendar year. Returns made on the basis of a fiscal year shall be made on or before the fifteenth day of the third month following the close of the fiscal year, except that in the case of the return of the fiduciary of an estate or trust, the return shall be made on or before the fifteenth day of the fourth month following the close of the fiscal year.

• • • • • •

(3) The amendments made by this subsection shall be applicable only with respect to taxable years ending after the date of the enactment of this act.

PAR. 4. Section 29.53–1, as amended by Treasury Decision 5816, approved December 5, 1950, is further amended as follows:

A. By inserting immediately after subparagraph (7) of the first paragraph thereof the following:

(8) In the case of a return of a fiduciary of an estate or trust for a taxable year ending after September 23, 1950, on or before the 15th day of the fourth month following the close of such year.

B. By inserting at the end thereof the following paragraph: "For provisions relating to the time for filing certain corporation returns for taxable years ending after June 30, 1950, and before December 31, 1950, see § 29.52–3."

PAR. 5. Paragraph (b) of § 29.53–3 is amended by inserting after "December 31, 1941," the following: "and ending before December 31, 1951,".

PAR. 6. There is inserted immediately preceding § 29.56–1 the following:

SEC. 205. PAYMENT OF INCOME TAX BY INSTALLMENT PAYMENTS, AND RETURNS OF ESTATES AND TRUSTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) Payment of Income Tax by Installment Payments. Effective with respect to taxable years ending on or after December 31, 1950, section 56 (b) (relating to installment payments of income tax) is hereby amended to read as follows:

(b) *Installment payments*—(1) *Estates of decedents.* In the case of the estate of a decedent, the fiduciary may elect to pay the tax in four equal installments.

(2) *Corporations.* In the case of a corporation:

(A) *Taxable years ending before December 31, 1954.* The taxpayer may elect with respect to any taxable year ending before December 31, 1954, to pay the tax in four installments, and in such case the amount of the tax paid by each installment shall be determined as follows:

If the taxable year ends—		Each of the first 2 installments shall be the following percentage of the tax	Each of the last 2 installments shall be the following percentage of the tax
On or after—	And before—		
Dec. 31, 1950	Dec. 31, 1951	30	20
Dec. 31, 1951	Dec. 31, 1952	35	15
Dec. 31, 1952	Dec. 31, 1953	40	10
Dec. 31, 1953	Dec. 31, 1954	45	5

(B) *Taxable years ending on or after December 31, 1954.* The taxpayer may elect with respect to any taxable year ending on or after December 31, 1954, to pay the tax in two equal installments.

(3) *Dates for installment payments*—(A) *Four installments.* In any case in which the tax may be paid in four installments, the first installment shall be paid on the date prescribed for the payment of the tax by the taxpayer, the second installment shall be paid on the 15th day of the third month, the third installment on the 15th day of the sixth month, and the fourth installment on the 15th day of the ninth month, after such date.

(B) *Two installments.* In any case in which the tax may be paid in two installments, the first installment shall be paid on the date prescribed for the payment of the tax by the taxpayer, and the second installment shall be paid on the 15th day of the third month after such date.

(4) *Requirement for payment.* If any installment is not paid on or before the date fixed for its payment, the whole of the tax unpaid shall be paid upon notice and demand from the collector.

(b) *Filing of returns and payment of tax by fiduciaries of estates and trusts.* • • •

(2) Section 56 (a) (relating to time for payment of tax) is hereby amended by inserting before the period at the end thereof the following: ", except that in the case of the tax imposed on an estate or trust the tax shall be paid on the fifteenth day of April following the close of the calendar year, or, if the return should be made on the basis of a fiscal year, then on the fifteenth day of the fourth month following the close of the fiscal year".

(3) The amendments made by this subsection shall be applicable only with respect to taxable years ending after the date of the enactment of this act.

PAR. 7. Section 29.56–1, as amended by Treasury Decision 5816, is further amended as follows:

A. By striking out so much of such section as precedes the first sentence and by inserting in lieu thereof the following:

§ 29.56–1 *Date on which tax shall be paid*—(a) *Taxable years ending before December 31, 1950.* The provisions of this paragraph shall apply only with respect to taxable years ending before December 31, 1950. • • •

B. By adding at the end thereof the following:

Notwithstanding the preceding provisions of this paragraph, in the case of an estate or trust the taxable year of which ends after September 23, 1950, the tax shall be paid on or before the 15th day of the fourth month following the close of such year, or, if paid in installments, shall be paid in equal installments on or before such date and on or before the 15th day of the third, sixth, and ninth month following such date.

(b) *Taxable years ending on or after December 31, 1950*—(1) *In general.* (i) With respect to taxable years ending on or after December 31, 1950, the tax, unless it is required to be withheld at the source under section 1622, is to be paid on or before the 15th day of March following the close of the calendar year, or, if the return is made on the basis of a fiscal year, on or before the 15th day of the third month following the close of such fiscal year. See, however, subparagraph (2) of this paragraph with respect to estates and trusts.

(ii) In any case in which an individual taxpayer is entitled to elect, and does so elect, to file as his return Form 1040A, as provided in § 29.51–2, the amount of the tax determined by the collector is to be paid within 30 days after the date of mailing by the collector to the taxpayer of a notice stating the amount payable by the taxpayer and making demand upon the taxpayer therefor.

(iii) In the case of a return (other than a return by a nonresident alien individual who does not have wages subject to withholding under section 1622 or a nonresident foreign corporation) for a fractional part of a year, the tax is to be paid on or before the last day prescribed for the filing of the return (see § 29.53–1). But see § 29.53–3.

(iv) For the time of payment of tax by a nonresident alien individual (except a bona fide resident of Puerto Rico subject to the provisions of section 220) who does not have wages subject to withholding under section 1622, see section 218. In the case of a nonresident alien individual who is a bona fide resident of Puerto Rico during the entire taxable year and thus subject to the provisions of section 220, the tax for taxable years beginning after December 31, 1950, is to be paid at the time provided in the case of United States citizens and residents.

(v) For the time of payment of tax by a nonresident foreign corporation, see section 226.

(2) *Estates and trusts.* In the case of the tax imposed upon an estate or trust, the tax shall be paid on or before the 15th day of April following the close of the calendar year, or, if the return is made on the basis of a fiscal year, on or before the 15th day of the fourth month following the close of the fiscal year.

(3) *Installment payments*—(i) *Estates of decedents.* With respect to estates of decedents, the fiduciary may elect to pay the tax in four equal installments, instead of in a single payment, in which case the first installment shall be paid on or before the date prescribed for the payment of the tax as a single payment, the second installment shall be paid on or before the 15th day of the third month, the third installment on or before the 15th day of the sixth month, and the fourth installment on or before the 15th day of the ninth month, after such date.

(ii) *Corporations; taxable years ending before December 31, 1954.* With respect to taxable years of corporations ending on or after December 31, 1950, and before December 31, 1954, the taxpayer may elect to pay the tax in four installments, and in such case the amount of the tax paid by each installment shall be as follows:

If the taxable year ends—		Each of the first 2 installments shall be the following percentage of the tax	Each of the last 2 installments shall be the following percentage of the tax
On or after—	And before—		
Dec. 31, 1950	Dec. 31, 1951	30	20
Dec. 31, 1951	Dec. 31, 1952	35	15
Dec. 31, 1952	Dec. 31, 1953	40	10
Dec. 31, 1953	Dec. 31, 1954	45	5

The first installment shall be paid on or before the date prescribed for the payment of the tax as a single payment, the second installment shall be paid on or before the 15th day of the third month, the third installment on or before the 15th day of the sixth month, and the fourth installment on or before the 15th day of the ninth month, after such date.

(iii) *Corporations; taxable year ending on or after December 31, 1954.* With respect to taxable years of corporations ending on or after December 31, 1954, the taxpayer may elect to pay the tax in two equal installments, in which case the first installment shall be paid on or before the date prescribed for the payment of the tax as a single payment and the second installment on or before the 15th day of the third month after such date.

(iv) *In general.* If the taxpayer elects to pay the tax in installments, any installment may be paid, at the election of the taxpayer, prior to the date prescribed for its payment. If an installment is not paid in full on or before the date fixed for its payment either by the Internal Revenue Code or by the Commissioner in accordance with the terms of an extension, the whole amount of the tax unpaid shall be paid upon notice and demand from the collector.

In the case of taxpayers other than estates of decedents, and other than corporations, the privilege of installment payments of the tax does not apply with respect to taxable years ending on or after December 31, 1950.

PAR. 8. There is inserted immediately preceding § 29.143–1 the following:

SEC. 219. PAYMENT OF TAX WITHHELD AT SOURCE FROM NONRESIDENT ALIENS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The first sentence of section 143 (c) is hereby amended to read as follows: "Every person required to deduct and withhold any tax under this section shall, on or before March 15 of each year, make return thereof and pay the tax to the collector designated in section 53 (b)."

PAR. 9. Section 29.143–7 is amended by striking out the first sentence of the third paragraph and by inserting in lieu thereof the following: "In every case the tax withheld during a calendar year prior to the calendar year 1950 must be paid to the collector on or before June 15 of the following year. In every case the tax withheld during a calendar year subsequent to the calendar year 1949 must be paid on or before March 15 of the following year."

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 60]

DAVID D. DONIGER & CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, David D. Doniger & Co., Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special Provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's and boys' sportswear distributed by David D. Doniger & Co., Inc., 303 Fifth Avenue, New York 16, N. Y., (hereafter called the "wholesaler") having the brand names "McGregor," "Prep McGregor," and "Wee McGregor" and described in Exhibit "A" of the wholesaler's application dated

3. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the wholesaler after the effective date of this special order.

4. On and after July 5, 1951, David D. Doniger & Co., Inc., must mark each article listed in paragraphs 1, 2, 2 (a), 2 (b), 2 (c), 2 (d), 2 (e), 2 (f), 2 (g), 2 (h), 2 (i), 2 (j), 2 (k), 2 (l), 2 (m), 2 (n), 2 (o), 2 (p), 2 (q), 2 (r), 2 (s), 2 (t) 2 (u), 2 (v), 2 (w), and 2 (x) of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1, 2, 2 (a), 2 (b), 2 (c), 2 (d), 2 (e), 2 (f), 2 (g), 2 (h), 2 (i), 2 (j), 2 (k), 2 (l), 2 (m), 2 (n), 2 (o), 2 (p), 2 (q), 2 (r), 2 (s), 2 (t), 2 (u), 2 (v), 2 (w), and 2 (x) of this special order or changes the retail ceiling price of a listed article, David D. Doniger & Co., Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered in paragraphs 1, 2, 2 (a), 2 (b), 2 (c), 2 (d), 2 (e), 2 (f), 2 (g), 2 (h), 2 (i), 2 (j), 2 (k), 2 (l), 2 (m), 2 (n), 2 (o), 2 (p), 2 (q), 2 (r), 2 (s), 2 (t), 2 (u), 2 (v); 2 (w), and 2 (x) of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the wholesaler shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 61]

NEW YORK KNITTING MILLS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, New York Knitting Mills, Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of wool sweaters manufactured by New York Knitting Mills, Inc., 1410 Broadway, New York 18, New York, having the brand name "Valcuna" and described in the manufacturer's application, dated March 6, 1951. The manufacturer's prices listed below are subject to a discount of 8/10 EOM.

2. Wool sweaters bearing the item numbers 0180, 12252, and 3239 in the manufacturer's application dated March 6, 1951, so long as they have a manufacturer's selling price of $42.00 per dozen shall have a ceiling price at retail of $5.95 per unit.

3. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

4. On and after July 5, 1951, New York Knitting Mills, Inc., must mark each article listed in paragraphs 1 and 2 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1 and 2 of this special order or changes the retail ceiling price of a listed article, New York Knitting Mills, Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraphs 1 and 2 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

H. DAROFF & SONS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, H. Daroff & Sons, Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's clothing manufactured by H. Daroff & Sons, Inc., 2300 Walnut Street, Philadelphia 3, Pennsylvania, having the brand name "Botany '500' Brand, Tailored by Daroff" and described in the manufacturer's application dated March 21, 1951. The manufacturer's prices listed below carry terms of Net 30.

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1, 2 (a) and 2 (b) of this special order or changes the retail ceiling price of a listed article, H. Daroff & Sons, Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraphs 1, 2 (a) and 2 (b) of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

PREMIER KNITTING CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Premier Knitting Co., Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of cashmere sweaters manufactured

by Premier Knitting Co., Inc., 1410 Broadway, New York 18, N. Y., having the brand name "Premier" and described in the manufacturer's application, dated April 20, 1951. The manufacturer's prices listed below carry terms of 8/10 EOM.

$9.20	$15.95
10.25	16.95
11.60	19.95

2. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 5, 1951, Premier Knitting Co., Inc., must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 of this special order or changes the retail ceiling price of a listed article, Premier Knitting Co., Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 65]

JOHN B. STETSON CO., MALLORY DIVISION

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, John B. Stetson Company, Mallory Division, Philadelphia 22, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales after the effective date of this special order by any seller at retail of men's hats, manufactured by John B. Stetson Company, Mallory Division, having the brand name(s) "Mallory", "Emerson", "Wilson", "University Club", "Burton Taylor", Kensington", shall be the proposed retail ceiling prices listed by John B. Stetson Company, Mallory Division, in its application dated March 22, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C.

2. The retail ceiling price of an article fixed in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 5, 1951, John B. Stetson Company, Mallory Division, must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, John B. Stetson Company, Mallory Division, must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. The manufacturer shall annex to that order a notice, listing the cost and discount terms to retailers for each article covered by this order and the corresponding retail ceiling price fixed by this order for an article of that cost. The notice shall be in substantially the following form:

(Column 1) Our price to retailers	(Column 2) Retailer's ceilings for articles of cost listed in column 1
$-------- per --------	unit, dozen, etc.
Terms ------- (net or percent EOM, etc.)	$--------;

Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

EDWARD F. PHELPS, JR.,
Acting Director of Price Stabilization.

JOHN B. STETSON CO., INC., MILLINERY DIVISION

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, John B. Stetson Company, Incorporated, Millinery Division, Philadelphia 22, Pennsylvania, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales after the effective date of this special order by any seller at retail of women's hats manufactured by John B. Stetson Company, Incorporated, Millinery Division, having the brand name(s) "Stetson" and "Mallory", shall be the proposed retail ceiling prices listed by John B. On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the manufacturer's application or changes the retail ceiling price of a listed article, John B. Stetson Company, Incorporated, Millinery Division, must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. The manufacturer shall annex to that order a notice, listing the cost and discount terms to retailers for each article covered by this order and the corresponding retail ceiling price fixed by this order for an article of that cost. The notice shall be in substantially the following form:

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting requirements of the regulations which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1, 2 (a) and 2 (b) of this special order or changes the retail ceiling price of a listed article, Chester H. Roth Co., Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered in paragraphs 1, 2 (a) and 2 (b) of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the wholesaler shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

3. The retail ceiling price of an article stated in paragraphs 1 and 2 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturers after the effective date of this special order. This does not apply to the specific items enumerated in paragraphs 1 (a) and 1 (b) above.

4. On and after July 5, 1951, Williams Hollins & Company, Ltd., and William Hollins & Company, Inc., must mark each article listed in paragraphs 1, 1 (a), 1 (b), and 2 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 3, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 3, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1, 1 (a), 1 (b), and 2 of this special order or changes the retail ceiling price of a listed article, William Hollins & Company, Ltd., and William Hollins & Company, Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturers shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturers had delivered any article covered in paragraphs 1, 1 (a), 1 (b), and 2 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturers shall send a copy of the

amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturers shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which they have delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 5, 1951.

JERKS SOCKS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Jerks Socks, Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's hosiery manufactured by Jerks Socks, Inc., 2612 Gilbert Avenue, Cincinnati 6, Ohio, having the brand name "Jerks Socks," and described in the manufacturer's application dated March 12, 1951. The manufacturer's prices listed below carry terms of Net 30.

MEN'S HOSIERY

Manufacturer's selling price (per dozen pairs)	*Ceiling price at retail (per pair)*
$3.90	$0.55
4.40	.65
5.25	.75
7.25	1.00
8.85	1.25
21.00	2.95

2. Men's hosiery having the style identifications Doggy Clock 620, Swg 621, Arg 622, EC 623, EC 624, Swg 625, Arg 626, Doggy Clock 627, Swg 628, Swg 629, Gym Sock, D 66, Con 67, Con 231, J 236, J 550, D 55, Con 240, J 245, Swa 545 MT, DC 502 ST, DC 544 MT, in the manufacturer's application dated March 12, 1951, so long as they have a manufacturer's selling price of $4.35 per dozen pairs, shall have a ceiling price at retail of $.65 per pair. The manufacturer's prices carry terms of Net 30.

3. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

4. On and after July 5, 1951, Jerks Socks, Inc., must mark each article listed in paragraphs 1 and 2 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR7
Price $--------

On and after August 4, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 4, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulations which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1 and 2 of this special order or changes the retail ceiling price of a listed article, Jerks Socks, Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraphs 1 and 2 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 6, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 70]

INTERNATIONAL LATEX CORP.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, International Latex Corporation has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of girdles, infants' needs, and pillows manufactured by International Latex Corporation, Playtex Park, Dover, Delaware, having the brand name "Play Tex" and described in the manufacturer's application dated March 12, 1951. The manufacturer's prices listed below carry terms of 2/10 ECM, Net 30, F. O. B. Dover, Delaware.

93.00	12.95

2. Infants' needs having the product numbers 1443, 1450, and 1475 in the manufacturer's application dated March 12, 1951, so long as they have a manufacturer's selling price of $10.72 per dozen, shall have a ceiling price at retail of $1.49 per unit, and the manufacturer's price shall carry terms of 2/10 EOM, Net 30, F. O. B. Dover, Delaware.

3. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

4. On and after July 5, 1951, International Latex Corporation must mark each article listed in paragraphs 1 and 2 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 4, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 4, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraphs 1 and 2 of this special order or changes the retail ceiling price of a listed article, International Latex Corporation must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this special order.

5. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraphs 1 and 2 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

6. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

7. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

8. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

9. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 6, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[Delegation of Authority 6, Supplement 9]

CHIEFS OF BRANCHES OF INDUSTRIAL MATERIALS AND MANUFACTURED GOODS DIVISION

REDELEGATION OF AUTHORITY TO REQUEST FURTHER INFORMATION CONCERNING PROPOSED CEILING PRICES

By virtue of the authority vested in me as Director of the Industrial Materials and Manufactured Goods Division of the Office of Price Operations, Office of Price Stabilization by Delegation of Authority No. 6, Supplement 1 (16 F. R. 3672) this delegation of authority is hereby issued.

Authority is hereby delegated to the Chiefs of the Branches of Industrial Materials and Manufactured Goods Division of the Office of Price Operations, Office of Price Stabilization to request further information from a seller who has submitted a proposed ceiling price for approval. This delegation applies wherever a Ceiling Price Regulation permits the seller to operate at the ceiling price proposed by him, whether immediately or after the expiration of a prescribed period of time, unless and until he is notified by the Director of Price Stabilization that the proposed ceiling price has

been disapproved or that more information is required.

This delegation of authority shall take effect on June 6, 1951.

MURRAY D. SMITH,
Director, Industrial Materials and Manufactured Goods Division, Office of Price Stabilization.

FEDERAL COMMUNICATIONS COMMISSION

CHIEF OF BROADCAST BUREAU

DELEGATION OF AUTHORITY

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1951:

It appearing, that the Commission on the 1st day of May 1951 issued an order effective June 4, 1951, establishing the Broadcast Bureau, it is therefore necessary that the authority heretofore delegated by the Commission to its Chief Accountant, Chief Engineer, General Counsel and Secretary or their respective offices now be transferred to the Chief of the Broadcast Bureau with respect to matters within the functions of the Bureau.

It is ordered, Under the authority of the Communications Act of 1934, as amended, that:

1. The delegated authority set forth in the following sections of the Commission's rules is hereby transferred to the Chief of the Broadcast Bureau or, in his absence, the Acting Chief of said Bureau in so far as such delegated authority relates to or is necessary to carry out the functions set forth in the order establishing the Broadcast Bureau: Sections 0.121, 0.122, 0.131, 0.132, 0.141, 0.142, 0.143, 0.144, 0.145, 0.146.

2. With respect to the following sections of the rules which deal with motions, briefs, and other pleadings and procedure in broadcast hearing cases before the Commission, namely: Sections 1.746, 1.747, 1.843 (c), 1.846, 1.848, 1.849, 1.852, 1.853, 1.854, such authority as is provided for the General Counsel is, in any broadcast proceeding, hereby vested in the Chief, or in his absence, the Acting Chief of the Broadcast Bureau.

3. Section 0.112 (d) is amended to read as follows:

(d) All applications or requests for special temporary standard broadcast authorizations except those covered by sections 0.121 and 0.144, and these applications shall be first referred to the Broadcast Bureau for recommendation thereon, and then referred to the Motions Commissioner.

4. Actions taken by the Chief or Acting Chief of the Broadcast Bureau in accordance with the foregoing delegations shall be recorded each week in writing and filed in the official minutes of the Commission.

5. The authorizations issued by the Bureau in accordance with its assigned functions and the delegations of authority transferred hereby shall bear the Seal of the Commission and the signature of the Secretary of the Commission.

This order shall become effective June 4, 1951.

Released: May 31, 1951.

[Docket No. 9672]

SHAWANO COUNTY LEADER PUBLISHING CO. (WTCH)

ORDER AMENDING ISSUES

In re application of the Shawano County Leader Publishing Company (WTCH), Shawano, Wisconsin, for construction permit; Docket No. 9672, File No. BP-7488.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of May 1951;

The Commission having under consideration (1) a petition and supplement thereto filed October 5, 1950, and April 30, 1951, respectively, by the Shawano County Leader Publishing Company requesting reconsideration and grant without hearing of its above-entitled application for construction permit to change facilities of Station WTCH, Shawano, Wisconsin, from 960 kc. with power of 1 kw., daytime only, non-directional to 960 kc., with power of 1 kw., unlimited time, using different directional antennas for day and night operation; and (2) a petition filed June 7, 1950, by May Broadcasting Company, licensee of Station KMA, Shenandoah, Iowa, requesting leave to intervene in the hearing heretofore ordered on the above-entitled application; and

It appearing, that by order of May 18, 1950, the above-entitled application was designated for hearing upon engineering issues among others to determine whether the operation of Station WTCH, as proposed, would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to an excessively high nighttime limitation; unsatisfactory nighttime coverage to the City of Shawano, Wisconsin; and the relative percentage of population residing in the area between the normally protected and the interference-free contours and the population residing in the actual primary service area; and

It further appearing, that in the instant petition it is alleged that the actual nighttime limitation to the operation of Station WTCH, as proposed, would be very much less than as predicted by the methods prescribed in the Commission's Standards; that this allegation is based upon certain measurements of skywave radiation on 960 kc. made in the Shawano area during July and August, 1950; that for reasons heretofore stated in the Commission's decisions In re Application of North Jersey Broadcasting Co., Inc. (WPAT), Paterson, New Jersey, File No. BP-4613, Docket 8285, 4 RR 1247; In re Application of Capitol Broadcasting Corp. (WISH), Indianapolis, Indiana, File No. BP-4979, Docket 7671, 3 RR 1431, 1438; In re Application of Donze Enterprises, Inc. (KSGM), Sainte Genevieve, Missouri, File No. BP-6773—RR-__, measurements of the kind submitted with the instant petition are not suitable for consideration in connection with action on individual applications; and

It further appearing, that in the light of the information now available to the Commission, the Shawano County Leader Publishing Company is legally, technically, financially and otherwise qualified to construct and operate Station WTCH; but that the operation of Station WTCH, as proposed, would be subject to an excessively high nighttime limitation, would not provide adequate service to the City of Shawano, Wisconsin, and would result in a net loss in the population receiving daytime primary service from Station WTCH; and that for these reasons, among others, the Commission is unable to conclude that a grant of the above-entitled application would serve public interest, convenience and necessity; and

It further appearing, that consideration of the above-mentioned petition filed June 7, 1950, by May Broadcasting Company requesting leave to intervene in the proceeding on the above-entitled application has been withheld at the request of the parties pending disposition of the instant petition for reconsideration and grant without hearing; that said petition for leave to intervene is based upon a claim of interference, supported by engineering affidavit, to the operation of Station KMA, Shenandoah, Iowa, beyond said station's normally protected contours; that said petition is supported by an affidavit of Owen Sadler, General Manager of May Broadcasting Company which raises a question of fact whether Station KMA may not be entitled to special protection by virtue of the uniqueness of its program service in the area where it is alleged interference will result from the proposed operation of Station WTCH; that on October 18, 1950, May Broadcasting Company filed a statement in response to the above petition for reconsideration and grant without hearing to the effect that no objection would be raised to a grant of the above-entitled application if such grant were subject to certain conditions with respect to the maximum permissible radiation toward Station KMA; that Shawano County Leader Publishing Company has stated that it would accept a grant upon the requested conditions; but that the above-entitled application has not been amended to conform to said conditions;

It is ordered, That the said petition requesting reconsideration and grant without hearing of the above-entitled application is denied; and that the said petition requesting leave to intervene in the proceedings on the above-entitled application is granted; and

It is further ordered, That the Commission's order of May 18, 1950, designating the above-entitled application for hearing, is amended to include therein the following additional issue:

5. To determine whether the operation of Station WTCH, as proposed, would cause interference within the primary service area of Station KMA, Shenandoah, Iowa, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the extent to which such areas and populations receive primary service from other broadcast stations offering the same general type of program service as Station KMA.

It is further ordered, That May Broadcasting Company, licensee of Station KMA, Shenandoah, Iowa, is made a party to this proceeding; and

It is further ordered, That hearing in this proceeding is scheduled to commence at 10:00 a. m., on the 25th day of July 1951, at Washington, D. C.

VIDALIA BROADCASTING CO. (WVOP)

ORDER CONTINUING HEARING

In re: application of M. F. Brice and R. E. Ledford, d/b as Vidalia Broadcasting Company (WVOP), Vidalia, Georgia, for construction permit; Docket No. 9947, File No. BP-7834.

The Commission having under consideration a petition filed May 25, 1951, by the General Counsel of the Federal Communications Commission for an indefinite continuance of the hearing now scheduled for Friday, June 1, 1951, in Washington, D. C., on the above-entitled application; and

It appearing, that on May 7, 1951, the applicant filed with the Commission a petition which seeks a waiver of hearing procedure on its application pursuant to § 1.391 of the Commission's rules; that the petition will not be ready for consideration by the Commission prior to the date scheduled for hearing in this matter; and

It appearing further, that the applicant has consented to a grant of this petition and to a waiver of § 1.745 of the Commission's rules to permit immediate consideration thereof, and that reasonable dispatch of the Commission's business and the ends of justice will be served by a grant of this petition;

It is ordered, This 28th day of May 1951, that the petition of the General Counsel is granted; and the hearing on the above-entitled application now scheduled for June 1, 1951, in Washington, D. C., is hereby continued without date subject to further order of the Commission.

5th Revised Page 24C.

amending certain schedules heretofore contained in its tariffs applicable to Baseball-Sports Ticker Service, Quotation Service, Baseball-Sports Service, Telemeter Service, and Leased Facilities;

It appearing, that the above revised tariff schedules were developed and filed by Western Union for the purpose of producing additional revenues to offset a proposed increase in operating expenses due to proposed increased wages which the Company is prepared to offer to its employees, conditioned "on its obtaining additional operating revenues in the form of rate increases in an amount sufficient to defray that increased cost";

It further appearing, that the above revised tariff schedules contain certain new and increased charges together with certain new classifications, regulations and practices, and that the Commission is unable to determine from an examination of the above-mentioned tariff schedules whether the charges, classifications, regulations and practices therein contained will be lawful under the Communications Act of 1934, as amended;

It further appearing, that if the above-cited revised tariff schedules are permitted to become effective on the dates specified therein, the rights and interests of the public may be adversely affected thereby;

It is ordered, That, pursuant to sections 201, 202, 204, 205, and 403 of the Communications Act of 1934, as amended, the Commission, upon its own motion and without formal pleading, shall enter upon a hearing and investigation concerning the lawfulness of the charges, classifications, regulations and practices set forth in the above-cited revised tariff schedules;

It is further ordered, That, pursuant to section 204 of the Communications Act of 1934, as amended, the operation of the above-cited revised tariff schedules is hereby suspended until the 1st day of September 1951, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in said tariff schedules or in the charges, classifications, regulations or practices sought to be altered thereby, unless authorized by special permission of the Commission;

It is further ordered, That, without in any way limiting the scope of the investigation, it shall include consideration of the following specific matters:

1. Whether the Commission should permit increases in rates predicated upon increases in operating expenses based on offers by the Company to increase wages which are made contingent upon such increased rates going into effect;

2. Whether the wage increase offers on which the proposed increased operating expenses are predicated:

(a) Have been offered to and accepted by the collective bargaining agents of the employees affected;

(b) Provide for wage increases within the limits permissible under any applicable federal laws or regulations establishing a limitation or ceiling on wage increases;

and, if not, whether the Commission should permit increases in rates predicated upon increased operating expenses based on such offers;

3. The extent, if any, to which the anticipated increased wage expenses should be considered in determining the amount of operating expenses to be allowed in approving rates for the future; and the proper apportionment of such expenses to each of the services rendered by the Company;

4. The justness and reasonableness of the relationships among the charges for the different classes of message telegraph service;

5. The justness and reasonableness of the new minimum charges and related word allowances for the different classes of message telegraph service;

6. The lawfulness under the Communications Act of 1934, as amended, of the serial classification and the charges, regulations, and practices applicable thereto; and the effect on the Company's operating revenues if the serial classification were eliminated;

7. The lawfulness under the Communications Act of 1934, as amended, of the charges, classifications, regulations and practices set forth in the above-mentioned revised tariff schedules;

It is further ordered, That in the event a decision as to the lawfulness of the charges, classifications, regulations and practices herein suspended has not been made during the aforesaid suspension period, and said charges, classifications, regulations and practices set forth in the above-cited tariff schedules go into effect, the Western Union Telegraph Company and its connecting and concurring carriers shall, until further order of the Commission, keep accurate accounts of all amounts charged, collected or received by reason of the charges set forth in said tariff schedules, specifying by whom and in whose behalf such amounts are paid; and shall file with the Commission a report on or before the 10th day of each calendar month, commencing October 10, 1951, showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that the Western Union Telegraph Company and all carriers listed in its suspended tariff schedules as concurring and connecting carriers are hereby made parties respondent to this proceeding; and that a copy hereof be served upon each such respondent; upon all other communication carriers fully subject to the Communications Act; upon the agency of each state which has regulatory jurisdiction with respect to communication rates and services; the National Association of Railroad and Utilities Commissioners; American Communications Association and the Commercial Telegraphers' Union (A. F. L.);

It is further ordered, That a copy of this order shall be served on the American Newspaper Publishers Association, and that it is hereby given leave to intervene and participate fully in the proceeding herein;

It is further ordered, That a hearing be held in this proceeding at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m., on the 25th day of June 1951; that Elizabeth C. Smith is assigned to preside at such hearing, and that the Presiding Officer shall certify the record to the Commission for decision without preparing either a Recommended Decision or Initial Decision;

It is further ordered, That Application No. 937, as amended by telegram filed May 18, 1951, for special tariff permission is denied, in view of the investigation ordered herein.

Released: May 23, 1951.

[Docket No. 9981]

LAWRENCE WILLIAM PEAY, JR.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1951;

The Commission having under consideration the application of Lawrence William Peay, Jr., 1116 Rosine, Houston, Texas for renewal of his radiotelephone first class operator license, which expired March 12, 1950; and

It appearing, that Peay engaged in the operation of an unlicensed television station at Madisonville, Texas, during the period from November 21, 1950, to November 27, 1950, in violation of section 301 of the Communications Act of 1934, as amended; and

It further appearing, that Peay did not hold a valid radio operator license during the period of operation of the station in violation of section 318 of the Communications Act of 1934, as amended; and

It further appearing, that this licensee, on various occasions during the period November 21, 1950, to November 27, 1950, and for approximately 60 days prior thereto while engaging and participating in the operation of the unlicensed television station as aforesaid, rebroadcast television programs transmitted from Station KPRC-TV at Houston, Texas, without the consent of the licensee of Station KPRC-TV in violation of section 325 of the Communications Act of 1934, as amended; and

It further appearing, that the Commission is unable to determine from consideration of the service record appearing on Peay's license whether service performed under the license was of a nature that would permit renewal of the application without examination in accordance with §§ 13.28 and 13.39 of the Commission's rules; and

It further appearing, that the Commission is unable to determine from consideration of the application before it that a grant of a radiotelephone first class operator license to the said Lawrence William Peay, Jr., would be in the public interest with or without an examination:

It is ordered, That pursuant to section 303 (l) of the Communications Act of 1934, as amended, the above entitled application is hereby designated for hearing at a time and place to be specified by a subsequent order of the Commission upon the following issues:

1. To determine the applicant's use of radio transmitting equipment which has not been licensed by the Commission.

2. To determine the applicant's use of radio transmitting equipment while not being the holder of a valid radio operator license issued to him by the Commission.

3. To determine whether the service performed by the applicant under his expired license is sufficient to permit renewal of the applicant's expired license without examination.

4. To determine in the light of the evidence adduced under the issues in this proceeding whether it would be in the public interest to renew Peay's radiotelephone first class operator license either with or without an examination.

CONSOLIDATED EDISON CO. OF NEW YORK, INC., ET AL.

ORDER GRANTING REHEARING AND ORAL ARGUMENT, MODIFYING PREVIOUS ORDER GRANTING REHEARING AND CONSOLIDATING PROCEEDINGS

MAY 29, 1951.

In the matters of Consolidated Edison Company of New York, Inc., Docket Nos. G-1167, G-1604; the Brooklyn Union Gas Company, Docket Nos. G-1171, G-1603; Kings County Lighting Company, Docket Nos. G-1190, G-1602.

Consolidated Edison Company of New York, Inc., the Brooklyn Union Gas Company, and Kings County Lighting Company (Petitioners), on November 29, 1949, filed petitions for rehearing, including oral argument with respect to the Commission's Opinion No. 181 and accompanying order issued October 31, 1949,[1] in which the Commission found the Petitioners to be "natural-gas companies" within the meaning of the Natural Gas Act and authorized the construction and operation by said companies of certain transmission pipe-line facilities, all as more fully described therein.

The Commission by its order issued December 13, 1949, granted the foregoing petitions and provided that the date for such rehearing and oral argument be fixed by further order of the Commission.

On April 4, 1951, Kings County Lighting Company, the Brooklyn Union Gas Company and Consolidated Edison Company of New York, Inc., pursuant to applications filed in Docket Nos. G-1602, G-1603, and G-1604, respectively, were issued certificates of public convenience and necessity to construct and operate certain transmission pipe-line facilities.

On May 3, 1951, Kings County Lighting Company, the Brooklyn Union Gas Company, and Consolidated Edison Company of New York, Inc., filed peti-

tions in Docket Nos. G–1602, G–1603, and G–1604, for rehearing, including oral argument, with respect to the Commission's findings and order issued April 4, 1951. In addition, Petitioners request that the Commission enter an order abrogating said findings and order in connection therewith, for want of jurisdiction. The Petitioners also request that the proceedings in Docket Nos. G–1602, G–1603, and G–1604, be consolidated on rehearing with the presently consolidated proceedings in Docket Nos. G–1167, G–1171 and G–1190.

Consolidated Edison Company of New York, Inc., on May 3, 1951, filed a petition requesting an opportunity to present evidence bearing upon certain changes in the Company's operations which have occurred since the issuance of the Commission's Opinion No. 181 and accompanying order.

The Commission finds: Good cause exists for granting the petitions herein referred to, including consolidation of the above-entitled proceedings inasmuch as the matters involved may concern similar facts and issues.

The Commission orders:

(A) The petitions filed on May 3, 1951, for rehearing, oral argument and consolidation of the above-entitled proceedings, be and the same are hereby granted, said rehearing and oral argument to be held at a time and place to be hereafter fixed by the Commission.

(B) Consolidated Edison Company of New York, Inc., shall be afforded an opportunity, on rehearing, to submit additional evidence to the extent set forth in its petition filed May 3, 1951, in Docket No. G–1167, bearing upon changes in its operations which have occurred since the issuance of the Commission's Opinion No. 181 and accompanying order, which the Examiner shall determine to be relevant and germane to the matters presented and the issues involved.

Date of issuance: June 1, 1951.

[Docket No. G–1622]

NEW YORK STATE NATURAL GAS CORP.

ORDER FIXING DATE OF HEARING

MAY 29, 1951.

On February 26, 1951, New York State Natural Gas Corporation (Applicant), a New York corporation having its principal place of business at New York City, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipeline facilities paralleling Applicant's existing Line No. 14, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on March 10, 1951 (16 F. R. 2237).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on June 18, 1951, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: May 31, 1951.

WEST TEXAS GAS CO.

NOTICE OF APPLICATION

MAY 31, 1951.

Take notice that on May 21, 1951, West Texas Gas Company (Applicant), a Delaware corporation having its principal office in Lubbock, Texas, and authorized to do business in Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of an 800 bhp. addition to its Turkey Creek Compressor Station located in Potter County, Texas.

The proposed facility is stated by Applicant to be the necessary compressor enlargement to increase by approximately 6000 Mcf daily Applicant's transmission capacity out of the Fritch Area of the West Panhandle Field; and will permit operating the Turkey Creek Compressor Station with a 175 psig. suction pressure which will make this gas available for input to the pipe line system. In this connection Applicant has requested El Paso Natural Gas Company (El Paso Natural) for a modification of its Gas Supply Contract No. 7 to permit large peak day inputs to the system from the Goldsmith Source of supply.

Applicant further states the facility is to enable it to serve its market requirements and the market requirements of Southern Union Gas Company's Clovis district during the 1951–52 heating season.

The estimated over-all capital cost of the proposed facility is $120,000, which will be defrayed from funds currently on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of June 1951. The application is on file with the Commission for public inspection.

ASSOCIATED NATURAL GAS CO.

NOTICE OF APPLICATION

MAY 31, 1951.

Take notice that on May 21, 1951, Associated Natural Gas Company (Applicant), a Delaware corporation, of Tulsa, Oklahoma, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipe line facilities hereinafter described.

Applicant proposes to construct approximately 88.25 miles of transmission pipe line and construct necessary compressor facilities in order to transport natural gas for distribution and sale in the communities of Chaffee, Oran, Benton, Morehouse, Charleston, Kilbourn, Bloomfield, Essex, Bernie, Kenneth, Holcomb, Clarkston, and Molden, Missouri.

The estimated cost of the proposed undertaking including facilities, cost of financing and additional working capital requirements, is $2,491,042. Applicant proposes to obtain the funds required by the sale of $1,800,000 of first mortgage bonds, $525,000 from sale of debentures and $560,000 from the sale of common stock.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of June 1951. The application is on file with the Commission for public inspection.

[Docket No. G–1696]

EL PASO NATURAL GAS CO.

ORDER SUSPENDING CHANGES IN RATE SCHEDULES

MAY 29, 1951.

By order issued April 24, 1950, at Docket No. G–1380, the Commission, among other things, suspended the operation and deferred the use until October 1, 1950, of First Revised Sheet No. 22 to El Paso Natural Gas Company's (El Paso) FPC Gas Tariff which proposed changes in El Paso's Rate Schedule G–1. Subsequently, upon motion of El Paso, said First Revised Sheet No. 22 was made effective as of October 1, 1950, in accordance with the Commission's order issued October 3, 1950. These proceedings are still pending.

On April 30, 1951, El Paso filed its First Revised Sheets Nos. 8, 12, 13, 14–A, 15, 17, 19–A and 25, Second Revised Sheets Nos. 4, 6, 11, 19, and 22, and Fourth Revised Sheet No. 10 to its FPC Gas Tariff proposing changes in certain of its Rate Schedules as contained in El Paso's FPC Gas Tariff. The Revised Sheets as filed on April 30, 1951, provide for an increase of approximately $7,200,000 annually in El Paso's charges, which is an increase of approximately eleven percent (11%), based on anticipated sales for the calendar year 1952.

The increased rates provided in said Revised Sheets as filed on April 30, 1951, to El Paso's FPC Gas Tariff have not been shown to be justified, and may be unjust, unduly discriminatory, or preferential, or otherwise unlawful.

Unless the operation of said Revised Sheets is suspended by order of the Commission they will become effective as of June 1, 1951, pursuant to the provisions of the Natural Gas Act and the regulations thereunder.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, a copy of said Revised Sheets, as filed on April 30, 1951, has been sent to each customer which would be affected thereby and also to various State, county, and municipal authorities. Comments have been received from some of such parties. Some of the parties have requested that said Revised Sheets to El Paso's FPC Gas Tariff, as filed on April 30, 1951, be suspended and that the Commission investigate the justness and reasonableness of such proposed rates.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission, pursuant to the authority contained in section 4 of such act, enter upon a hearing concerning the lawfulness of First Revised Sheets Nos. 8, 17, 19–A, and 25, Second Revised Sheets Nos. 4, 6, 11, 19, and 22, and Fourth Revised Sheet No. 10 to El Paso's FPC Gas Tariff, and that said Revised Sheets, and the rate schedules therein contained, should be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, and classifications, subject to the jurisdiction of the Commission, contained in the aforesaid First Revised Sheets Nos. 8, 17, 19–A, and 25, Second Revised Sheets Nos. 4, 6, 11, 19, and 22, Fourth Revised Sheet No. 10, as filed April 30, 1951, to El Paso's FPC Gas Tariff.

(B) Pending such hearing and decision thereon, said First Revised Sheets Nos. 8, 17, 19–A, and 25, Second Revised Sheets Nos. 4, 6, 11, 19, and 22, and Fourth Revised Sheet No. 10, as filed April 30, 1951, to El Paso's FPC Gas Tariff, be and the same are hereby suspended and the use thereof is deferred until November 1, 1951, and until such further time thereafter as said Revised Sheets might be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) [18 CFR 1.8 and 1.37 (f)] of the Commission's rules of practice and procedure.

Date of issuance: May 31, 1951.

[Docket No. G–1697]

NATURAL GAS PIPELINE CO. OF AMERICA

ORDER SUSPENDING PROPOSED RATE TARIFF AND SERVICE AGREEMENTS, AND PROVIDING FOR DATE OF HEARING

MAY 29, 1951.

On April 17, 1951, Natural Gas Pipeline Company of America (Natural Gas Pipeline) filed with this Commission proposed FPC Gas Tariff, First Revised Volume No. 1, superseding its FPC Gas Tariff, Original Volume No. 1, pursuant to Part 154 of the Commission's general rules and regulations, and requesting such proposed rate tariff be permitted to become effective June 1, 1951.

At the same time, Natural Gas Pipeline filed service agreements in the proposed tariff form with 17 of its 19 customers, including three companies distributing gas in the Chicago, Illinois, area presently served by Chicago District Pipeline Company. Natural Gas Pipeline Company to date has not filed a service agreement covering service to Interstate Power Company for resale in Clinton, Iowa, a customer which it was authorized to serve in Docket No. G–1246.

The proposed tariff would increase the cost of gas purchased by all of Natural Gas Pipeline's customers, except those serving the Chicago area, by approximately $2,400,000, or 10 percent, based on anticipated sales for the calendar year 1952.

The proposed tariff contains two rate schedules:

1. Rate Schedule CD–1 for contract demand service:

Demand charge: For the first block of the billing demand, $1.35 per Mcf. For the balance of the billing demand, $2.50 per Mcf.

Commodity charge: For all gas delivered in each day up to an amount equal to the first block of the billing demand, 6.67 cents per Mcf. For all additional gas, 16 cents per Mcf.

2. Rate Schedule I–1 for interruptible service; 16 cents per Mcf.

The first block of the billing demand is different for each of Natural Gas Pipeline's customers. Such block is equal to any customer's presently allocated portion of Natural Gas Pipeline's capacity. The first block of the billing demand is

priced at the presently effective firm rate; the second block is priced at the increased rate indicated above. In effect, it appears that the blocking arrangement will result in establishing 19 separate rates, one for each of the pipeline company's customers.

It appears from the proposed tariff that, on the basis of the sales anticipated for the calendar year 1952, the proposed changes in rates will result in increased charges by Natural Gas Pipeline to 16 of its wholesale customers in the following amounts and percentages:

	Revenue		Increase	Percent
	Present rates	Proposed rates		
Allied Gas Co	$30,448	$48,393	$17,945	58.9
Central Illinois Electric & Gas Co	706,989	876,446	169,457	24.0

United Gas Service Co	12,462	12,466	504	40.4
Wilson Gas Co	14,135	14,444	309	21.9
Wisconsin Southern Gas Co	128,303	140,832	12,529	9.8
Total sales for resale	23,167,593	23,596,437	2,428,844	10.5

Natural Gas Pipeline states that the proposed increases are necessary as a result of the purchase by it of higher priced gas from Texas Illinois Natural Gas Pipe Line Company.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, a copy of said FPC Gas Tariff, First Revised Volume No. 1, has been sent by Natural Gas Pipeline to each customer which would be affected thereby. In response to requests for comments, 12 of Natural Gas Pipeline's customers and one State commission have indicated that they do not have any objection to the proposal.

Unless suspended by order of the Commission, said Natural Gas Pipeline Company of America FPC Gas Tariff, First Revised Volume No. 1, will become effective as of June 1, 1951, pursuant to the provisions of the Natural Gas Act and the general rules and regulations thereunder.

The proposed changes in Natural Gas Pipeline's presently effective FPC Gas Tariff, Original Volume No. 1, as contained in Natural Gas Pipeline's FPC Gas Tariff, First Revised Volume No. 1, may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful, and may place an undue burden upon ultimate consumers of natural gas.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Natural Gas Pipeline Company of America's FPC Gas Tariff, First Revised Volume No. 1, and that said FPC Gas Tariff, First Revised Volume No. 1, and the service agreements filed thereunder be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) A public hearing be held at a date and place hereinafter to be fixed by the Commission concerning the lawfulness of the rates, charges, and classifications, subject to the jurisdiction of the Commission, as set forth in FPC Gas Tariff, First Revised Volume No. 1, filed by Natural Gas Pipeline Company of America.

(B) Pending such hearing and decision thereon, said FPC Gas Tariff, First Revised Volume No. 1, filed in this proceeding by Natural Gas Pipeline Company of America, together with all service agreements filed thereunder, be and they hereby are suspended and the use thereof deferred until November 1, 1951, and until such further time thereafter as such FPC Gas Tariff, First Revised Volume No. 1, and service agreements filed thereunder may be made effective in the manner prescribed by the Natural Gas Act.

Date of issuance: May 31, 1951.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-37]

WASHINGTON GAS AND ELECTRIC CO.

ORDER DECLARING THAT COMPANY HAS CEASED TO BE A HOLDING COMPANY

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of May A. D. 1951.

Washington Gas and Electric Company ("Washington"), a registered holding company and a public utility company, having filed an application for an order under the Public Utility Holding Company Act of 1935 (the "act") declaring that the applicant has ceased to be a holding company; and

The application having recited that, pursuant to the plan of reorganization submitted under section 11 (f) of the act, by Nathan A. Smythe, as trustee in reorganization of Washington under Chapter X of the Bankruptcy Act, which plan was approved by the Commission on January 24, 1949, accepted by the bondholders and general creditors of Washington on April 30, 1949, and confirmed by order of the District Court of the United States for the Southern District of New York on October 5, 1949, and the consummation of which was ordered by said Court by orders dated April 14, 1950, and July 27, 1950, distribution of the common stock of Washington and of its former sole subsidiary, Southern Utah Power Company ("Southern Utah"), a public utility company, has commenced, and that Washington has divested itself of its interest in the common stock of Southern Utah; and

The application having further recited that in lieu of the issuance and sale by Washington of debt securities authorized pursuant to the provisions of the aforementioned plan, over which issuance and sale the Commission, by its order dated January 24, 1949, reserved jurisdiction, Washington now contemplates obtaining approximately $150,000 through the issuance and sale of additional shares of its common stock without par value; and

The Commission's files indicating that there is now pending before the United States Court of Appeals for the Second Circuit an appeal by Washington and Southern Utah from an order of the aforementioned District Court dated December 18, 1950, insofar as such order approved and directed the payment of certain final allowances with respect to the reorganization of Washington; and that the Commission, pursuant to the authorization of the District Court contained in an order dated December 18, 1950, is now conducting an examination and investigation of certain matters and of certain activities of the Trustees of Washington and other persons, as specified in such order of the Court, which examination is relevant, among other things, to the fee allowances which are involved in the pending appeal by Washington and Southern Utah; and

The application indicating that Washington is now solely a public utility company, and that it does not now, directly or indirectly, own, control or hold with power to vote, any outstanding voting securities of a public utility company or of a company which is holding company within the provisions of the act; and

The Commission having issued a notice of filing on November 6, 1950 with respect to said application, said notice having stated that any interested person might, not later than November 20, 1950, request the Commission in writing that a hearing be held on such matter, and the Commission not having received a request for hearing with respect to said application within the period prescribed in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that Washington has ceased to be a holding company, and that it is necessary for the protection of investors that the Commission impose terms or conditions in connection with the termination of the registration of Washington:

It is ordered, Pursuant to the provisions of section 5 (d) of the act, that Washington has ceased to be a holding company, and that, subject to the condition prescribed below, the registration of Washington as a holding company shall cease to be in effect: *Provided, however*, That this order shall be subject to the condition which is prescribed as necessary for the protection of investors, that the Commission shall retain jurisdiction over Washington to entertain such further proceedings, to make such supplemental findings, and to take such further action, including the commencement of investigations under the act, which the Commission may deem necessary or appropriate in connection with fees and expenses with respect to Washington's reorganization and plan, the matters and persons specified in the order of investigation issued by the District Court on December 18, 1950, or any other matters relating to the conduct of the proceedings for the reorganization of Washington and its subsidiaries, and the terms, provisions and amount of all debt securities which may be issued in connection with the plan and the transactions incident thereto, in the same manner and to the same extent as though Washington were still in all respects a registered holding company.

It is further ordered, That upon the filing with the Commission of due proof that Washington has obtained approximately $150,000 through the issuance and sale of additional shares of its common stock, the jurisdiction heretofore reserved over the issuance and sale of debt securities pursuant to the provisions of Washington's plan shall be deemed to have been released.

NIAGARA MOHAWK POWER CORP.

[File No. 70-2636]

NOTICE OF PROPOSED ACQUISITION OF UTILITY ASSETS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of May A. D. 1951.

Notice is hereby given that an application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by Niagara Mohawk Power Corporation ("Niagara Mohawk"), a subsidiary of The United Corporation, a registered holding company. Applicant has designated section 10 of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than June 12, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 12, 1951, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Pursuant to a contract of sale dated April 12, 1951, Niagara Mohawk proposes to acquire the hydro electric power plant, together with the lands, certain water rights and electric generating and other equipment in connection therewith, of Northern New York Power Corporation ("Northern"), a non-affiliate, for the sum of $625,000. The hydro electric power plant, owned by Northern, is located in the town of Minetto, Oswego County, in the State of New York. Niagara Mohawk renders electric service in the territory in which said plant is located and for many years Niagara Mohawk and its predecessors have purchased all of the output of said plant for utilization in what is now the Niagara Mohawk system.

The application states that Northern will require and has petitioned the Public Service Commission of the State of New York for its consent to the transfer of the hydro electric plant to Niagara Mohawk. The application further states that the acquisition by Niagara Mohawk of such plant is not subject to the jurisdiction of that Commission. The order of the Public Service Commission of the State of New York with respect to the petition of Northern will be supplied by amendment to the instant application.

By the Commission.

Washington, Thursday, June 7, 1951

TITLE 3—THE PRESIDENT

PROCLAMATION 2929

CARRYING OUT THE TORQUAY PROTOCOL TO THE GENERAL AGREEMENT ON TARIFFS AND TRADE AND FOR OTHER PURPOSES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

1. WHEREAS (pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended by section 1 of the act of June 12, 1934, by the joint resolution approved June 7, 1943, and by sections 2 and 3 of the act of July 5, 1945 (ch. 474, 43 Stat. 943; ch. 118, 57 Stat. 125; ch. 229, 59 Stat. 410), the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said act of July 5, 1945, until the expiration of three years from June 12, 1945) on October 30, 1947, I entered into a trade agreement with the Governments of the Commonwealth of Australia, the Kingdom of Belgium, the United States of Brazil, Burma, Canada, Ceylon, the Republic of Chile, the Republic of China, the Republic of Cuba, the Czechoslovak Republic, the French Republic, India, Lebanon, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, New Zealand, the Kingdom of Norway, Pakistan, Southern Rhodesia, Syria, the Union of South Africa, and the United Kingdom of Great Britain and Northern Ireland, which trade agreement consists of the General Agreement on Tariffs and Trade and the related Protocol of Provisional Application thereof, together with the Final Act Adopted at the Conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment which authenticated the texts of the said General Agreement and the said Protocol (61 Stat. (Parts 5 and 6) A7, A11 and A2051);

2. WHEREAS, by Proclamation No. 2761A [1] of December 16, 1947 (61 Stat. 1103), I proclaimed such modifications of existing duties and other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States of America as were then found to be required or appropriate to carry out the said trade agreement specified in the first recital of this proclamation on and after January 1, 1948, which proclamation has been supplemented by the proclamations referred to in the second recital of Proclamation No. 2867 [2] of December 22, 1949 (3 CFR, 1949 Supp., p. 55), and by the said proclamation of December 22, 1949, Proclamation No. 2874, [3] of March 1, 1950, Proclamation No. 2884 [4] of April 27, 1950, Proclamation No. 2888 [5] of May 13, 1950, Proclamation No. 2901 [6] of September 6, 1950, Proclamation No. 2908 [7] of October 12, 1950, and Proclamation No. 2912 [8] of October 30, 1950 (3 CFR, 1950 Supp., pp. 21, 28, 32, 51, 63, and 68);

3. WHEREAS, I, HARRY S. TRUMAN, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America, the Republic of Austria, the Kingdom of Belgium, the United States of Brazil, Canada, the Kingdom of Denmark, the Dominican Republic, the French Republic, the Federal Republic of Germany, the Republic of Indonesia, the Italian Republic, the Republic of Korea, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, the Kingdom of Norway, Peru, the Kingdom of Sweden, and the Republic of Turkey are unduly burdening and restricting the foreign trade of the United States of America and that the purposes declared in the said section 350 of the Tariff Act of 1930, as amended by the acts specified in the first recital of this proclamation and by sections 4 and 6 of the Trade Agreements Extension Act of 1949 (63 Stat. 698), will be promoted by a trade agreement between the Government of the United States of America and the Governments

of some or all of the other countries named in this recital;

4. WHEREAS reasonable public notice of the intention to conduct trade-agreement negotiations with the governments of the countries other than the United States of America named in the third recital of this proclamation was given, the views presented by persons interested in such negotiations were received and considered, and information and advice with respect to such negotiations was sought and obtained from the United States Tariff Commission, the Departments of State, Defense, Agriculture, and Commerce, and from other sources;

5. WHEREAS (pursuant to the authority vested in the President by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended by the acts specified in the first and third recitals of this proclamation, the period for the exercise of the authority to enter into trade agreements under the said section 350 having been extended by section 3 of the Trade Agreements Extension Act of 1949 until the expiration of three years from June 12, 1948), the trade-agreement negotiations with the countries named in the third recital of this proclamation having been successfully carried out, on April 21, 1951, I entered, through my duly empowered plenipotentiary, into a trade agreement providing for the accession to the said General Agreement specified in the first recital of this proclamation of the Governments of the Republic of Austria, the Federal Republic of Germany, the Republic of Korea, the Republic of the Philippines, Peru, and the Republic of Turkey, and for the application of the relevant provisions of the said General Agreement to additional schedules of concessions relating to countries already contracting parties thereto, including the countries named in the third recital of this proclamation other than the United States of America and other than those countries previously named in this recital, which trade agreement consists of the Torquay Protocol to the General Agreement on Tariffs and Trade, dated April 21, 1951, including the Annexes thereto, authentic in the English and French languages as indicated therein, a copy of which is annexed to this proclamation;[9]

[9] Not printed in the FEDERAL REGISTER: The English text of the protocol has been published by the Contracting Parties to the General Agreement on Tariffs and Trade, under the title of "The Torquay Protocol to the General Agreement on Tariffs and Trade and the Torquay Schedules of Tariff Concessions", Geneva, 1951. The English text of "Torquay Schedule XX (United States of America)" has been published by the Department of State as Publication 4228 (Commercial Policy Series 136), and will be reproduced in Treasury Decisions (Customs). The text in the languages in which authentic, together with an English translation of those portions authentic in French only, will be published in Treaties and Other International Acts Series and in United States Treaties and Other International Agreements.

[10] See F. R. Doc. 51–6617, *infra*.

6. WHEREAS, in view of the provisions of section 508 of the Philippine Trade Act of 1946 (ch. 244, 60 Stat. 158), no trade-agreement negotiations were entered into by the Government of the United States of America with the Government of the Republic of the Philippines and Article XXXV of the said General Agreement specified in the first recital of this proclamation, as amended by the Protocol Modifying Certain Provisions of the General Agreement on Tariffs and Trade, dated March 24, 1948 (Treaties and Other International Acts Series 1761–1765, p. 49), has been invoked to prevent the General Agreement from applying between the United States of America and the Republic of the Philippines;

7. WHEREAS, the said Torquay Protocol specified in the fifth recital of this proclamation having been signed on behalf of the Government of the United States of America on April 21, 1951, pursuant to paragraph 3 thereof, Schedule XX contained in Annex A thereto will become a schedule to the General Agreement relating to the United States of America on June 6, 1951;

8. WHEREAS, under paragraph 4 of the said Torquay Protocol specified in the fifth recital of this proclamation, a government which has signed the said Torquay Protocol may withhold in whole or in part any concession provided for in the schedule annexed thereto which was initially negotiated with a government which has not signed the said Torquay Protocol;

9. WHEREAS I find that each modification of existing duties and other import restrictions of the United States of America and each continuance of existing customs or excise treatment of articles imported into the United States of America which is hereinafter proclaimed in Part I of this proclamation will be required or appropriate to carry out the said trade agreement specified in the said fifth recital of this proclamation on and after such date as may be notified by the President to the Secretary of the Treasury, and published in the FEDERAL REGISTER,[10] as the date on and after which the President considers such modification or undertaking to continue treatment should not be withheld pursuant to the said paragraph 4 of the Torquay Protocol referred to in the eighth recital of this proclamation;

10. WHEREAS item 781 [part] (Geneva), item 1205 [first] (Geneva), and items 1532 (a) [part] (Geneva) and 1532 (a) in Part I of Schedule XX contained in Annex A to the said Torquay Protocol specified in the fifth recital of this proc-

lamation provide for the withdrawal in part of each of items 781, 1205 [first], and 1532 (a), respectively, in Part I of Schedule XX (original) to the said General Agreement specified in the first recital of this proclamation;

11. WHEREAS (pursuant to the authority vested in the President by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended by the acts specified in the first recital of this proclamation, the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said act of July 5, 1945, until the expiration of three years from June 12, 1945) on October 30, 1947, I entered into an exclusive trade agreement with the Government of the Republic of Cuba (61 Stat. (pt. 4) 3699), which exclusive trade agreement includes certain portions of other documents made a part thereof and provides for the treatment in respect of ordinary customs duties of products of the Republic of Cuba imported into the United States of America;

12. WHEREAS, by Proclamation No. 2764 of January 1, 1948 (3 CFR, 1948 Supp., p. 11), I proclaimed such modifications of existing duties and other import restrictions of the United States of America in respect of products of the Republic of Cuba and such continuance of existing customs and excise treatment of products of the Republic of Cuba imported into the United States of America as were then found to be required or appropriate to carry out the exclusive trade agreement specified in the eleventh recital of this proclamation on and after January 1, 1948, which proclamation has been supplemented by the proclamations referred to in the fourth recital of the said proclamation of December 22, 1949, specified in the second recital of this proclamation, and by the said proclamations of December 22, 1949, March 1, 1950, April 27, 1950, May 13, 1950, September 6, 1950, and October 12, 1950, specified in the second recital of this proclamation;

13. WHEREAS I determine that, in view of the finding set forth in the ninth recital of this proclamation, each of the following amendments, or an appropriate part of such an amendment, of the list set forth in the ninth recital of the said proclamation of January 1, 1948, specified in the twelfth recital of this proclamation, as amended and rectified, will be required or appropriate to carry out the said exclusive trade agreement specified in the eleventh recital of this proclamation on and after the date notified by the President to the Secretary of the Treasury in accordance with Part I (b) (I) of this proclamation with respect to the application of the concession, or of the corresponding part of a concession, in Part I of Schedule XX contained in Annex A to the said Torquay Protocol specified in the fifth recital of this proclamation which is identified in the column at the left of the respective amendment:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended by the acts specified in the first and third recitals of this proclamation, do proclaim as follows:

PART I

To the end that the said trade agreement specified in the fifth recital of this proclamation may be carried out:

(a) Subject to the provisions of subdivision (b) of this Part, such modifications of existing duties and other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States of America as are specified or provided for in paragraphs 1 to 12, inclusive, of the said Torquay Protocol specified in the fifth recital of this proclamation and in Schedule XX contained in Annex A thereto, except the items therein which are identified in the tenth recital of this proclamation, shall be effective on and after June 6, 1951.

(b) The application of the provisions of subdivision (a) of this Part shall be subject to the applicable terms, conditions, and qualifications set forth in paragraphs 1 to 12, inclusive, of the said Torquay Protocol, in Schedule XX contained in Annex A thereto, in Parts I, II, and III of the said General Agreement specified in the first recital of this Proclamation, in Part I of, and the general notes in, Schedule XX (original) thereof, and in the said Protocol of Provisional Application specified in the first recital of this proclamation, including any applicable amendments and rectifications of the said General Agreement; and the application of the said provisions of subdivision (a) shall also be subject to the exception that no rate of duty or import tax shall be applied to a particular article by virtue of this proclamation if, when the article is entered, or withdrawn from warehouse, for consumption—

(I) the date is prior to the date which may be notified by the President to the Secretary of the Treasury and published in the FEDERAL REGISTER as the date on and after which the concession represented by such rate should not be withheld; or

(II) more favorable customs treatment is prescribed for the article by any of the following then in effect: (i) a proclamation pursuant to the said section 350 of the Tariff Act of 1930, as amended, but the application of such more favorable treatment shall be subject to the qualifications set forth in paragraph 3 (d) of the said Torquay Protocol and in the second paragraph of the general notes in Schedule XX contained in Annex A thereto; or

(ii) any other proclamation, a statute, or an executive order, which proclamation, statute, or order either provides for an exemption from duty or import tax or became effective subsequent to April 21, 1951.

PART II

To the end that the said exclusive trade agreement specified in the eleventh recital of this proclamation may be carried out, the list set forth in the ninth recital of the said proclamation of January 1, 1948, as amended and rectified, shall be further amended as specified in the thirteenth recital of this proclamation.

PART III

The said proclamation of December 16, 1947, specified in the second recital of this proclamation, as amended and rectified, and the said proclamations supplemental thereto referred to in the second recital of this proclamation are hereby terminated to the extent that each of items 781, 1205 [first], and 1532 (a) in Part I of Schedule XX (original) of the said General Agreement specified in the first recital of this proclamation, effective on and after July 6, 1951, shall be applied with the modifications provided for in item 781 [part] (Geneva), item 1205 [first] (Geneva), and items 1532 (a) [part] (Geneva) and 1532 (a), respectively, in Part I of Schedule XX contained in Annex A to the said Torquay Protocol specified in the fifth recital of this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this second day of June in the year of our Lord nineteen hundred and [SEAL] fifty-one, and of the Independence of the United States of America the one hundred and seventy-fifth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

EXECUTIVE ORDER 10250

PROVIDING FOR THE PERFORMANCE OF CERTAIN FUNCTIONS OF THE PRESIDENT BY THE SECRETARY OF THE INTERIOR

By virtue of the authority vested in me by section 11 of the act of February 22, 1935, 49 Stat. 33, and section 1 of the act of August 8, 1950, 64 Stat. 419 (Public Law 673, 81st Congress), and as President of the United States, it is ordered as follows:

1. The Secretary of the Interior is hereby designated and empowered to perform the following-described functions of the President without the approval, ratification, or other action of the President:

(a) The authority vested in the President by section 1 of the act of July 10, 1935, ch. 375, 49 Stat. 477 (16 U. S. C. 19), to appoint members of the National Park Trust Fund Board.

(b) The authority vested in the President by section 2059 of the Revised Statutes (25 U. S. C. 62) to discontinue any Indian agency, or transfer the same, from the place or tribe designated by law to such other place or tribe as the public service may require.

(c) The authority vested in the President by section 6 of the act of May 17, 1882, ch. 163, 22 Stat. 88, as amended (25 U. S. C. 63), to consolidate two or more Indian agencies into one, to consolidate one or more Indian tribes, and to abolish such agencies as are thereby rendered unnecessary.

(d) The authority vested in the President by the act of March 1, 1907, ch. 2285, 34 Stat. 1016 (25 U. S. C. 140), to divert appropriations made for certain purposes to other uses for the benefit of the several Indian tribes: *Provided*, that the Secretary of the Interior shall make to the Congress reports required in connection with action taken by him under this provision.

(e) The authority vested in the President by section 5 of the act of February 8, 1887, ch. 119, 24 Stat. 389, as amended (25 U. S. C. 348), by the act of December 24, 1942, ch. 814, 56 Stat. 1081 (25 U. S. C. 348a), by the act of June 21, 1906, ch. 3504, 34 Stat. 326 (25 U. S. C. 391), and by section 3 of the act of January 12, 1891, 26 Stat. 712, as amended by section 3 of the act of March 2, 1917, ch. 146, 39 Stat. 976, to extend trust periods on land patents issued to Indians and to continue restrictions on alienation.

(f) The authority vested in the President by section 2554 (b) of the Internal Revenue Code (26 U. S. C. 2554 (b)) to authorize certain persons in the Virgin Islands to obtain certain drugs for legitimate medical purposes without regard to order forms, and by section 2603 (b) of such Code (26 U. S. C. 2603 (b)) to provide for the registration of and the imposition of special and transfer taxes upon persons in the Virgin Islands who import, manufacture, produce, compound, sell, deal in, dispense, prescribe, administer, or give away marihuana: *Provided*, that the Secretary of the Interior shall perform the functions referred to in this subsection in consultation with the Department of the Treasury.

(g) The authority vested in the President by section 2343 of the Revised Statutes (30 U. S. C. 46) to establish additional land districts and to appoint necessary officers under existing laws when deemed necessary for the public convenience in executing certain provisions of law with respect to mineral lands and mining.

(h) The authority vested in the President by section 2252 of the Revised Statutes as affected by section 403 of Reorganization Plan No. 3 of 1946, 60 Stat. 1100 (43 U. S. C. 121), to order the discontinuance of any land office and the transfer of any of its business and archives to any other land office within the same State or Territory.

(i) The authority vested in the President by section 2250 of the Revised Statutes (43 U. S. C. 125) to discontinue a land office in a land district under certain circumstances and to annex the same to some other adjoining land district.

(j) The authority vested in the President by section 2251 of the Revised Statutes (43 U. S. C. 126) to change the location of the land offices in the several land districts established by law and to relocate the same from time to time at such point in the district as may be deemed expedient.

(k) The authority vested in the President by section 2253 of the Revised Statutes (43 U. S. C. 127) to change and reestablish the boundaries of land districts.

(l) The authority vested in the President by section 2 of the act of March 2, 1917, ch. 145, 39 Stat. 951, as amended (48 U. S. C. 737), to approve the payment out of the Treasury for other purposes of money derived from any tax levied or assessed for a special purpose in Puerto Rico.

(m) The authority vested in the President by section 7 of the act of March 2, 1917, ch. 145, 39 Stat. 954, as amended (48 U. S. C. 748), to convey to the people of Puerto Rico lands, buildings, or interests in lands, or other property owned by the United States, and to accept lands, buildings, or other interests or property by legislative grant from Puerto Rico.

(n) The authority vested in the President by section 3 (b) of the act of March 3, 1925, ch. 426, 43 Stat. 1111, as amended (50 U. S. C. 164 (b)), to approve regulations governing the production and sale of helium for medical, scientific, and commercial use.

(o) The authority vested in the President by section 6 of the act of April 26, 1906, ch. 1876, 34 Stat. 139, to remove from office the principal chief of the Choctaw, Cherokee, Creek, or Seminole tribe or the governor of the Chickasaw tribe, to declare any such office vacant, and to fill any vacancy in any such office arising from removal, disability, or death of the incumbent.

(p) The authority vested in the President by section 28 of the act of April 26, 1906, ch. 1876, 34 Stat. 148, to approve acts, ordinances, or resolutions of the tribal council or legislature of the Choctaw, Chickasaw, Cherokee, Creek, and Seminole tribes or nations, and to approve contracts, involving the payment or expenditure of money or affecting property belonging to any of the said tribes or nations, made by them or any of them or by any officer thereof.

(q) So much of the authority vested in the President by section 5 (a) of the act of February 22, 1925, ch. 18, 43 Stat. 31 (15 U. S. C. 715d (a)), as has not heretofore been delegated to the Secretary of the Interior, to prescribe such regulations as may be found necessary or appropriate for the enforcement of the provisions of that act.

2. The Secretary of the Interior is hereby designated and empowered to perform, without the approval, ratification, or other action of the President, the following functions which have heretofore, under the respective provisions of law cited, required the approval, ratification, or other action of the President in connection with their performance by the Secretary of the Interior:

(a) The authority vested in the Secretary of the Interior by section 1 of the act of June 6, 1942, ch. 380, 56 Stat. 326 (16 U. S. C. 459r), to convey or lease to the States or to the political subdivisions thereof any or all of certain recreational demonstration projects and lands and equipment comprised within such projects or any parts of such projects; and to transfer to other Federal agencies any of the said recreational demonstration areas that may be of use to such agencies.

(b) The authority vested in the Secretary of the Interior by section 3 of the act of July 3, 1918, ch. 128, 40 Stat. 755, as amended, and as affected by section 4 (f) of Reorganization Plan No. II, effective July 1, 1939, 53 Stat. 1433 (16 U. S. C. 704), to promulgate regulations permitting and governing the hunting, taking, capture, killing, possession, sale, purchase, shipment, transportation, carriage, or export of any migratory bird included in the terms of certain conventions, or any part, nest, or egg thereof.

(c) The authority vested in the Secretary of the Interior by section 3 of the act of June 30, 1932, ch. 320, 47 Stat. 446 (48 U. S. C. 321b), to distribute certain duties, authority, and appropriations, and to make rules and regulations with respect to the use of roads, trails, and other works, including the fixing and collection of tolls, in Alaska.

3. As used in this order, the term "functions" embraces duties, powers, responsibilities, authority, or discretion, and the term "perform" may be construed to mean "exercise".

4. All actions heretofore taken by the President in respect of the matters affected by this order and in force at the time of the issuance of this order, including regulations prescribed by the President in respect of such matters, shall, except as they may be inconsistent with the provisions of this order, remain in effect until modified or revoked pursuant to the authority conferred by this order.

Reference is also made to the thirteenth recital of my proclamation of June 2, 1951. It will be noted that items 28 (a) [second], 205 (e), 411, 724, 1530 (c) [first], and 1537 (b) [first], and the relevant part of item 1541 (a) [first], in Part I of Schedule XX to the Torquay Protocol are being notified to you as not being withheld on and after June 6, 1951. Consequently, the modifications of the list in the ninth recital of Proclamation No. 2764 of January 1, 1948, as amended and rectified, which are set forth in the thirteenth recital to the right of these designations will be effective on and after June 6, 1951. Since only a part of item 1558 in Part I of Schedule XX to the Torquay Protocol will not be withheld on and after June 6, 1951, only that part of the amendment, set forth in the thirteenth recital, of item 1558 in the list set forth in the ninth recital of the proclamation of January 1, 1948, will become effective on June 6, 1951, which will result in the application on and after that date of item 1558 in the proclamation of January 1, 1948, with the substitution of ", urunday extract, incense, yeast, and fatty acids derived from vegetable oils, animal or fish oils, or animal fats and greases" for "and urunday extract" within the first parentheses of the description in the item.

Very sincerely yours,

HARRY S. TRUMAN

Honorable JOHN W. SNYDER,
The Secretary of the Treasury.

638.211 Maturity.
638.212 Redemption.
638.213 Rights of CCC upon maturity.
638.214 Disposition of proceeds upon liquidation.
638.215 Personal liability.

AUTHORITY: §§ 638.201 to 638.215 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, sec. 301, 63 Stat. 1053; 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1447.

§ 638.201 *Administration.* The Naval Stores Division, Tobacco Branch, PMA, will supervise the administration of the program. CCC will make a loan to the American Turpentine Farmers Association Cooperative, Valdosta, Georgia (hereinafter referred to as the "Association"), under a Loan Agreement which will enable the Association in turn to make loans to eligible producers on eligible naval stores, to supervise the maintenance of the collateral in storage, to perform related field administration functions, to arrange for redemptions, and to collaborate in the liquidation of unredeemed collateral. The PMA Commodity Office, Atlanta, Georgia, will perform accounting and auditing functions.

§ 638.202 *Eligible producer.* A producer will be eligible for loan if he (a) is a member in good standing of the Association under membership requirements approved by CCC (no producer who is otherwise eligible may be excluded from membership in the Association), (b) is a cooperator in the 1951 Naval Stores Conservation Program of the United States Department of Agriculture or otherwise follows good conservation practices, as determined by such Department, (c) has made satisfactory arrangements to pay any indebtedness to the United States Department of Agriculture or any agency thereof, as evidenced by the registers of indebtedness maintained by the County Committees of the PMA, United States Department of Agriculture, and (d) has executed, and has not breached his obligations under, the Producer's Marketing Agreement (ATFA Form 1-1951), or any other similar agreement.

§ 638.203 *Eligible naval stores.* "Eligible naval stores" are eligible turpentine, eligible rosin and the turpentine and rosin content in eligible oleoresin.

§ 638.204 *Eligible turpentine.* "Eligible turpentine" is gum turpentine which (a) was produced from eligible oleoresin, (b) is free and clear from all liens and encumbrances, (c) has not been theretofore pledged for a loan and in which the beneficial interest is and always has been in the producer, (d) is "water-white" in color, (e) is free from excess resin acids, as evidenced by a total acid number of not more than 0.50, and (f) conforms as to specific gravity to Federal Specifications TT-T-801, to wit: A maximum of 0.875 and a minimum of 0.860 taken at 60 degrees over 60 degrees Fahrenheit.

§ 638.205 *Eligible rosin.* "Eligible rosin" is gum rosin which (a) was produced from eligible oleoresin, (b) grades "G" or better, (c) is free and clear from all liens and encumbrances, (d) has not been theretofore pledged for a loan and in which the beneficial interest is and always has been in the producer, (e) is packed to the net weight approved by CCC, in eligible metal drums, (f) is transparent, (g) is free from visible foreign materials and contains no extraneous matter resulting from chemical or other treatment of the rosin, or of the oleoresin or the trees from which it came, and (h) conforms as to softening point to not less than Federal Specifications LLL-R-626, to wit: 158 degrees Fahrenheit (American Society for Testing Materials Method No. E 28-42T). Rosin must be Federally inspected and weighed or the weights checked prior to tender for loan.

§ 638.206 *Eligible oleoresin.* "Eligible oleoresin" is oleoresin (a) which was produced in 1951 by an eligible producer, (b) which is free and clear from all liens and encumbrances, (c) the turpentine or rosin content in which has not been theretofore pledged for a loan and the beneficial interest in which is and always has been in the producer, and (d) which will yield turpentine of the prescribed quality, and rosin of the prescribed grades and quality. When a producer's eligible oleoresin was commingled with oleoresin produced by other producers in the processing operation, the turpentine and rosin tendered for loan by the producer as representing the processed equivalent of his eligible oleoresin will be deemed to be, if otherwise eligible, eli-

gible turpentine and eligible rosin produced by such producer.

§ 638.207 *Eligible metal drums.* "Eligible metal drums" are drums conforming to the specifications for metal drums approved by CCC and on file in the office of the Association.

§ 638.208 *Availability of loans.* (a) Under the Loan Agreement, CCC will make a loan to the Association for the purpose of enabling the Association to make loans available, or to make loans, to eligible producers of eligible naval stores produced in 1951. The loan to the Association will be in an amount equal to (1) the amount of the loans made by the Association to producers, (2) the administrative and operating expenses, approved by CCC, incurred by the Association in connection with making loans available and the making of loans, and the handling and preservation of pledged naval stores, (3) the storage charges after naval stores are pledged, and (4) an indemnification charge to cover the assumption by CCC of the risk of loss on rosin and rosin content in oleoresin (the storage rate for turpentine includes insurance).

(b) Each producer desiring to obtain loans will execute a Producer's Marketing Agreement with the Association. Each loan will be secured by a pledge by the producer to the Association of eligible turpentine, eligible rosin, or unprocessed turpentine or rosin content in eligible oleoresin, and the Association, in turn, will pledge the same to CCC as security for the loan made by CCC to the Association. Loans on rosin will be made only on full drums thereof, and loans on the rosin content in oleoresin, only upon the equivalent of full drums thereof. No loans will be made later than December 31, 1951.

(c) Eligible naval stores will be deemed tendered for loan by the producer to the Association only when such naval stores have been (1) processed (except where unprocessed turpentine or rosin content in oleoresin is offered for loan), (2) placed in storage in the custody of an approved warehouseman who has executed a Warehouse Agreement (ATFA Form 2–1951), and (3) offered for loan on a Producer's Offer (ATFA Form 3A–1951). If there are any liens or encumbrances on the naval stores offered for loan, proper waivers are required on a Lienholders' Waiver and Agreement (ATFA Form 3–1951).

§ 638.209 *Rate of loan to producers.* The Association will make loans to producers based on the rate of $128.21 per naval stores production unit, comprised of fifty (50) gallons of turpentine and fourteen hundred (1400) pounds of rosin; this rate will remain fixed throughout the loan period. Initially, the production unit rate of $128.21 will be allocated to the individual commodities to provide a loan rate for turpentine of fifty cents (50¢) per gallon of 7.2 pounds in bulk, and a loan rate for rosin of grades X to G, inclusive, of $7.37 per hundred pounds net packed in eligible metal drums. CCC reserves the right to revise such allocation of loan values between turpentine and rosin during the loan period, within the fixed production unit loan rate. The amount which the Association will lend to any producer will be determined by applying the applicable loan rates in effect for turpentine and rosin on the date of the applicable Producer's Offer to the quantities thereof tendered for loan.

§ 638.210 *Storage provisions.* The producer will be required to place naval stores offered for loan in storage in the custody of an approved warehouseman who has executed a Warehouse Agreement with the Association. This Agreement will be assigned by the Association to CCC. All processing charges, including the cost of eligible metal drums for rosin, and all storage and other warehouse charges to the date of tender for loan will be borne by the producer. Storage charges accruing after the naval stores are pledged are payable by CCC, and comprise part of the loan by CCC to the Association.

§ 638.211 *Maturity.* The loan made by CCC to the Association and the loans made by the Association to producers will be due and payable upon demand, or on April 1, 1952, whichever is earlier.

§ 638.212 *Redemption.* (a) Subject to terms and conditions of the Producer's Marketing Agreement, the producer may redeem pledged naval stores, prior to maturity of the loan, upon application to the Association and payment of the redemption price. The producer's right to redeem may be exercised for him and in his behalf by the Association and the producer's exercise of the right of redemption is subject to the prior exercise thereof by the Association. Subject to the terms and conditions of the Loan Agreement, the Association may redeem naval stores pledged by the Association to CCC, upon application to CCC therefor prior to the maturity of the loan and payment of the redemption price.

(b) The redemption price will be the weighted average amount loaned by Commodity to the Association, including applicable expenses and charges, plus interest at the rate of three percent (3%) per annum.

§ 638.213 *Rights of CCC upon maturity.* CCC will have the right at any time after maturity of the loan to sell, assign, transfer and deliver the pledged naval stores, or documents evidencing title thereto, at such time, in such manner, and upon such terms and conditions as CCC may determine.

§ 638.214 *Disposition of proceeds upon liquidation.* CCC will apply the net proceeds from the disposition of pledged naval stores (a) towards satisfaction of accrued interest, (b) towards satisfaction of the principal amount loaned, and (c) towards the satisfaction of any other indebtedness of the association to CCC. In the event that any sum remains after application of these amounts, such sum will be returned to the Association by CCC for disposition by the Association to its producer-member participants, or for and in behalf of its producer-members, on an equitable basis as determined by the Association with the approval of CCC.

§ 638.215 *Personal liability.* The loans will be non-recourse, except that any fraudulent representation by the producer or the Association in the loan documents, or in obtaining a loan, will render him or it subject to criminal prosecution under applicable law, and personally liable for the amount by which the proceeds received upon the disposition of the pledged naval stores are less than the amount of indebtedness incurred by the association with respect thereto.

Issued this 4th day of June 1951.

Vice-President,
Commodity Credit Corporation.

MISCELLANEOUS AMENDMENTS

1. Section 371.11 *Personal baggage and tools of trade* is amended in the following particulars:

Paragraph (a) *Personal baggage licenses*, subparagraph (1) *General provisions* is amended by adding after subdivision (i) a note reading as follows:

NOTE: As used in the regulation, "usual" and "reasonable" quantities and kinds of food should be limited, generally, to the quantities and kinds necessary and appropriate for use by a traveler or members of his immediate family during the outgoing and any immediate return voyage.

Consequently, where a traveler desires to import, under the baggage general license, food in such quantities as to be obviously unsuitable for consumption after he has finished his voyage, or to be distributed as "gifts," such food is not included within the provisions of this general license.

2. Section 373.24 *Statement of past participation in exports for certain commodities* is amended in the following particulars:

Paragraph (b) *Rubber tires and casings* is amended to read as follows:

(b) *Rubber tires and casings.* Any applicant who has pending with the Office of International Trade or who intends to file applications for a license to export truck and bus casings, passenger car casings, off-the-road casings, farm tractor and implement casings, and industrial casings, Schedule B Nos. 206000, 206200, 206430, 206450, 206490 must submit on or before June 15, 1951, the following information:

3. Part 373, Licensing Policies and Related Special Provisions, is amended by adding thereto a new § 373.25 to read as follows:

§ 373.25 *Special provisions for wool rags, waste, and yarns.* Wool rags, woven and knit; wool yarns; and wool waste (journal box packing), Schedule B Nos. 362200, 362600, and 363300, will be licensed for export against export quotas for the second calendar quarter 1951 in accordance with the licensing policy set forth in § 373.1 and the following special provisions:

(a) *Wool rags*—(1) *Definitions.* As used in this section, "high grade wool rags" means new clips of all kinds, white knits, pastel knits, all sweater clips, fine light merinos, pastel coarse light merinos, pastel blankets, white serges and flannels, white paper mill felts, rough khaki, and skirted or stripped khaki; "other wool rags" means wool rags, woven and knit, Schedule B No. 362200, that are not "high grade wool rags."

(2) *Distribution of quota.* The total export quota for the second quarter for wool rags, woven and knit, is 18,000,000 pounds. A maximum of 4,000,000 pounds of high grade wool rags has been allocated for licensing (including approvals of appeals from applications which were rejected because of lack of export quota for the first quarter 1951) against this export quota, and the remainder of the 18,000,000-pound quota will be used for licensing other wool rags.

(3) *Commodity description.* Applications for licenses to export wool rags, woven and knit (whether high grade wool rags or other wool rags) must include a complete description of the rags, showing kind, grade, color, and whether stripped or skirted, to enable the Office of International Trade to determine whether the proposed shipment is high grade wool rags or other wool rags.

(4) *Licensing of high grade wool rags.* High grade wool rags will be licensed for export under the following conditions only and where substantiated by the information and documents set forth below:

(i) Where the license application covers requirements of the U. S. 8th Army, Japanese police, or other requirements for the occupation forces in Japan, in which case the application must be accompanied by a true copy of the Japanese importer's contract to supply the product made from the rags, and a true copy of the certificate from the Procurement Section, Japanese Logistic Command to the Japanese Ministry of International Trade and Industry requesting its assistance in obtaining the wool rags to produce the stated end product. The import authorization (MITI) number must also be shown.

(ii) Proposed exports for which license applications were rejected because of lack of export quota for the first quarter of 1951, where the U. S. exporter's appeal is upheld upon initial review or by the Appeals Board. It has been agreed by OIT and the Appeals Board that appeals from such rejected license applications must be supported by evidence showing that prior to February 20, 1951: the appellant held an order (as defined in § 372.1 (e) (2) of this subchapter) covering the transaction; that the appellant had purchased or acquired the wool rags from sources in the United States; that a letter of credit had been opened; and that an import authorization (where required) had been issued.

(iii) Where the license application covers requirements to fulfill valid contracts between persons in the United States and persons in Japan, for processing wool rags into rugs, which were in effect but uncompleted on February 20, 1951, and which could not be completed because of lack of export quota, applications must be accompanied by documentary evidence of the existence, nature, and status of such contracts, and the import authorization (MITI) number. The documentary evidence must set forth the kinds and grades of rags to be furnished for processing in Japan and the number of square feet of rugs to be returned to the United States.

(5) *Licensing of "other wool rags."* Applications for licenses to export "other wool rags" will be considered only where the proposed shipment does not include any "high grade wool rags." Applications for licenses to export "other wool rags" must include the import authorization number where import authorization is required by the importing country.

(6) *Wool rags, imported.* Applications for licenses to export wool rags which are not the production or manufacture of the United States, and which are imported into the United States without a consumption entry being made, including such imports as have been stored in bonded warehouses, will be considered without regard to quota limitations provided such applications are accompanied by the following certification:

I (we) hereby certify that the wool rags covered by this application are not the production or manufacture of the United States; are (or will be) imported into the United States only for shipment through the United States and/or storage and exportation from the United States; and that no consumption entry for these commodities has been (or will be) made at a United States customhouse.

(b) *Wool waste, journal box packing.* Wool waste, journal box packing, will be licensed only in limited quantities where needed for current maintenance, repair,

[1] This amendment was published in Current Export Bulletin No. 622, dated May 31, 1951, with the exception of the part of the amendment relating to Part 398 which was published in Current Export Bulletin No. 623, dated May 31, 1951.

and operation of railway rolling stock, primarily in foreign countries which have depended historically on United States sources for such requirements. Applications for licenses to export wool waste must clearly indicate that the wool waste is for journal box packing and must be accompanied by a statement as to urgency of need and a statement of the quantity the applicant exported to the named country of destination for this purpose in the calendar year 1950. The statement of the applicant's exports to the named country of destination may be made on Form IT–821 (see Supplement, S–13, for facsimile), and may also include a statement of the applicant's exports to other foreign countries to which he contemplates making exportations to be charged against the second quarter 1951 quota. Applicants need submit such information only once with respect to each country of destination.

(c) *Wool yarns.* Wool yarns will be licensed for export for small shipments of yarn, primarily hand knitting yarn, to countries normally obtaining such yarns from the United States.

This part of the amendment shall become effective as of May 31, 1951.

4. Section 373.51 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended by the addition of a footnote to the submission dates for the third quarter, 1951, of the entry of Steel mill products, except carbon steel, Schedule B Nos. 600700–610800 to read as follows:

[1] Exporters may submit applications, until June 8, 1951, for export licenses to cover third quarter, 1951, hardship requirements for casing, tubing, and drill pipe, seamless and welded, Schedule B Nos. 606250 and 606350, to the Office of International Trade, Washington 25, D. C. Exporters shall note that the quantity of tubulars for which rating authorizations may be issued to meet hardship requirements is limited and sufficient to relieve extreme hardship cases only.

This part of the amendment shall become effective as of May 31, 1951.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.; Pub. Law 33, 82d Cong.)

5. Section 374.51 *Supplement 1: List of restricted commodities* is amended to read as follows:

POSITIVE LIST OF COMMODITIES

All commodities with the processing code NONF.

All commodities with the processing code TNPL.

All commodities with the processing code STEE.

Aviation motor fuels: Schedule B Nos. 501610, 501620, 501640.

Antiknock compounds not of petroleum origin: Schedule B No. 829910.

Carbon black (contact and furnace): Schedule B Nos. 842310, 842350.

Sulfur (crude, crushed, ground, refined, sublimed, and flowers): Schedule B Nos. 571400, 571500.

Coke, except petroleum coke: Schedule B No. 500400.

All other commodities for which quantitative export quotas have been published.

All commodities on Excepted Commodity List under General License GIT (§ 371.9 (c) of this subchapter).

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.; Pub. Law 33, 82d Cong.)

This part of the amendment shall become effective as of May 31, 1951.

6. Part 398, Priority Ratings and Supply Assistance Assigned by OIT, is amended by adding thereto a new § 398.5 to read as follows:

§ 398.5 *Assignment of DO Ratings by OIT for Controlled Materials Plan materials*—(a) *Controlled Materials Plan as applied to exports*—(1) *Controlled Materials Plan.* A Controlled Materials Plan (CMP) governing the distribution of certain metals has been established by the National Production Authority, effective July 1, 1951. This Plan operates under a series of NPA regulations identified as "CMP Regulations" (numbered serially as "CMP Regulation 1," "CMP Regulation 2," etc.).

(2) *Materials covered by CMP.* The Controlled Materials Plan covers copper, steel, and aluminum in the shapes and forms described in Schedule 1 of CMP Regulation 1. (A copy of Schedule 1 of CMP Regulation 1 is printed as Supplement 2 to Part 398.)

(3) *Applicability of CMP to exports.* CMP regulations govern the distribution of controlled materials to all consumers, i. e., exporters as well as domestic U. S. producers using controlled materials. This section sets forth the supplementary rules and procedures which will be followed by the Office of International Trade and exporters in connection with exports of controlled materials to all destinations except Canada.

(b) *Export quotas and priority ratings for controlled materials*—(1) *Assignment of priority ratings for controlled materials.* Under delegation of authority from the National Production Authority, the Office of International Trade will assign priority ratings, as required, to assure delivery of controlled materials within quota limits.

(2) *Assignment of priority ratings.* On and after June 1, 1951, the Office of International Trade will assign priority ratings on licenses issued for controlled materials. (Exception: No priority rating will be assigned on a license based upon an application which indicates that the materials are already in the applicant's possession; however, quantities of controlled materials covered by each such license will be charged against the quota limiting total exports of such controlled materials.) The priority rating will be assigned by the Office of International Trade by endorsing the validated license with the following legend:

By authority of the NPA, the exporter herein named is assigned the right to apply the rating DO ---- to procure the above described material.

DO 36 ratings will be assigned for deliveries of material for ECA countries, and DO 37 ratings for deliveries for all other countries.

(c) *Transitional provisions*—(1) *Shipments during July 1951.* To avoid dislocation of scheduled production, a holder of a validated license issued before June 1, 1951, may continue to export controlled materials in accordance with the terms of such license through July 1951, provided, the material (i) was produced prior to July 1, 1951, and (ii) is loaded aboard an exporting carrier by midnight July 31, 1951.

(2) *Revocation of certain licenses.* With respect to the materials listed below, any valid license issued prior to June 1, 1951, is hereby revoked, effective 12:01 a. m., August 1, 1951, unless revalidated by the Office of International Trade, on or after June 1, 1951.

*647043	Brass and bronze castings and forgings.
*647998	Brass and bronze manufactures, n. e. s.

(3) *Requests for revalidation of outstanding licenses.* If a licensee, holding a validated license for controlled materials issued before June 1, 1951, is unable to complete exportation under the provisions set forth in subparagraph (1) of this paragraph, he may request revalidation of his license by submitting to OIT, Washington, D. C., Form IT–763 "Request for and Notice of Amendment Action" in accordance with the provisions of § 380.2 of this subchapter.

NOTE: In the case of Project Licenses, Form IT–375, "License Application Materials Requirements List," will be submitted to request revalidation.

In addition to the information required on Form IT–763 (or Form IT–375), each request for revalidation shall include:

(i) The statement "CMP Revalidation."

(ii) The amount of material for which revalidation is requested.

(iii) The amended expiration date requested.

(iv) For licenses covering materials marked with an asterisk in the list under subparagraph (2) of this paragraph, a description of the material in sufficient detail to permit its identification under Schedule I of CMP Regulation 1.

NOTE: Quantities of controlled materials covered by revalidation requests approved by OIT will be charged against third quarter quotas. A reserve of third quarter quotas will be held by OIT for consideration of revalidation requests, but no assurance can be given that all such requests will be approved. Such revalidation requests as must be filed should be submitted to OIT as soon as possible.

[5th Gen. Rev. of Export Regs., Amdt. 51 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodity is added to the Positive List:

Dept. of Comm. Sched. B No.	Commodity	Unit	Processing code and related commodity group	G.L.V. dollar value limits	Validated license required
385850	Nylon webbing for parachute harness	------	TEXT	100	RO

This part of the amendment shall become effective as of 12:01 a. m., June 5, 1951.

2. The following revision is made in commodity descriptions. The entries set forth below are substituted for the present entry on the Positive List for "Reflectoscopes, ultrasonic or supersonic, and parts", Schedule B No. 919098. This revision is necessary to conform to Schedule B classification decision made by the Bureau of the Census, but no substantive change is made. The processing code is changed from SATE to GIEQ.

[1] This amendment was published in Current Export Bulletin No. 622, dated May 21, 1951.

Dept. of Comm. Sched. B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
774020	Reflectoscopes, ultrasonic or supersonic	No.	GIEQ	None	RO
775098	Industrial machinery and parts, n. e. s.: Parts for ultrasonic or supersonic reflectoscopes	-------	GIEQ	None	RO

This part of the amendment shall become effective as of May 31, 1951.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, as a result of changes set forth in Part 1 of this amendment which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., June 5, 1951, may be exported under the previous general license provisions up to and including June 30, 1951. Any such shipment not laden aboard the exporting carrier on or before June 30, 1951, requires a validated license for export.

3. Section 399.3 *Appendix C—Commodity Processing Codes* is amended in the following particulars:

The processing codes for certain commodities are amended to read as follows:

Dept. of Com. Sched. B No.	Commodity	Processing code
299600	Vegetable ivory or tagua nuts	CERL
777505	Magnetic sound recorders for use as office appliances, all types, and component parts thereof [1]	ELME
832400	Monosodium glutamate (Ajinomoto) [2]	SUBT
845000	Cream of tartar (synthetic included) [2]	SUBT
886700	Sodium bicarbonate or baking soda [2]	SUBT

[1] The office appliances classified under Schedule B Nos. 775200-7777600 777905 (except those specifically listed above); and 777905-777960, retain the processing code of CDGS.

[2] The industrial chemicals classified under Schedule B Nos. 831450-832400; 832600 (except those specifically listed above); and 832800-832920, retain the processing code of ORGN.

[3] The industrial chemicals classified under Schedule B Nos. 833000-835800; 835900 (except those specifically listed above); 836220-836900; and 836800-837050; retain the processing code of SALT.

The commodity processing codes for ball bearings, and parts; except balls, Schedule B No. 769100; roller bearings, and parts, except rollers, Schedule B No. 769200; balls for bearings, Schedule B No. 769310; and rollers for bearings, Schedule B No. 769315 are changed from GIEQ to GIEQ 3.[2]

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.; Pub. Law 33, 82d Cong.)

LORING K. MACY,
Acting Director,
Office of International Trade.

[F. R. Doc. 51-6573; Filed, June 6, 1951; 8:47 a. m.]

[2] This permits the filing of single applications for Positive List commodities having the same processing code symbol and number. (See § 372.2 (c) of this subchapter.)

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52742]

PART 14—APPRAISEMENT

PART 21—CARTAGE AND LIGHTERAGE

MISCELLANEOUS AMENDMENTS

Under present procedure, when merchandise is to be examined elsewhere than at the public stores, wharf, or other place in charge of a customs officer, the customs regulations require that the transfer shall be made by a bonded (licensed) cartman except as otherwise authorized by the Bureau in certain cases. However, in furtherance of the Department's policy of delegating appropriate administrative functions to collectors of customs and to further simplify customs requirements, it is deemed proper and advisable to authorize collectors to permit merchandise designated for examination at an importer's premises or other place not in charge of a customs officer to be carted, lightered, or carried to any such place by the importer without a cartman's or lighterman's license. The entry bond of the importer as now required to be modified in such cases guarantees that the merchandise shall be held intact at the place to which it will be removed for examination until released from customs custody. No further modification of the bond is necessary.

Accordingly, the following changes are made in the Customs Regulations of 1943:

1. Section 14.2 (d), Customs Regulations of 1943 (19 CFR 14.2 (d)), as amended, is hereby amended by deleting the second sentence.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies secs. 468, 499, 46 Stat. 725, 728, as amended; 19 U. S. C. 1468, 1499)

2. Section 21.1 (a), as amended, § 21.3, and § 21.4 (b), Customs Regulations of 1943 (19 CFR 21.1 (a), 21.3, and 21.4 (b)), are hereby amended as follows:

a. Section 21.1 (a) is amended by changing the letter "C" in the first word to lower case and inserting before it the following: "Except as provided for in §§ 18.3 (d) and 21.4 (b),".

b. Section 21.3 is amended by inserting "(except as provided for in § 21.4 (b))" after the word "purpose".

c. Section 21.4 (b) is amended to read:

(b) Merchandise designated for examination at an importer's premises or other place not in charge of a customs officer may be carted, lightered, or carried to any such place by the importer without a cartman's or lighterman's license, when in the judgment of the collector the revenue will not be endangered. Otherwise, such transfer shall be done by a licensed cartman, who shall be the contract cartman whenever practicable.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interpret or apply sec. 565, 46 Stat. 747; 19 U. S. C. 1565)

Acting Commissioner of Customs.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

MONOSODIUM GLUTAMATE AND OTHER HYDROLYZED VEGETABLE PROTEIN PRODUCTS

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 237, 238; 5 U. S. C. 1002), the following statement of policy is issued:

§ 3.23 *Notice to manufacturers and users of monosodium glutamate and other hydrolzed vegetable protein products.* Following a review of various statements submitted by manufacturers and distributors of monosodium glutamate and various hydrolyzed plant protein products, the following conclusions have been reached:

(a) The facts submitted establish that there are three classes of products to be considered:

(1) Purified monosodium glutamate.

(2) Hydrolyzed proteins (amino acid salts) from which none of the monosodium glutamate has been removed.

(3) Hydrolyzed proteins (amino acid salts), a by-product in the manufacture of purified monosodium glutamate but from which a substantial proportion of the monosodium glutamate has been removed.

(b) The statement of policy published in the FEDERAL REGISTER on June 9, 1949 (21 CFR 3.10; 14 F. R. 3120), is reaffirmed. Monosodium glutamate is the common or usual name of the substance covered in said statement of policy. It need not be declared as an artificial flavoring, but when used as an ingredient of food products should be declared by its common or usual name. It may not be used in a food for which a standard of identity has been promulgated unless the standard or any amendment thereto recognizes it as an optional ingredient. It may not be used under any circumstances in such a way as to conceal damage or inferiority or make the article appear better or of greater value than it is.

(c) (1) The substance described in paragraph (a) (2) of this section has long been designated as "hydrolyzed vegetable protein."

(2) The substance covered by paragraph (a) (3) of this section should have a distinctive name, since one of its original constituents has been partially removed. Manufacturers have suggested that this substance be described as "hydrolyzed vegetable protein with reduced monosodium glutamate content." This designation appears acceptable.

(d) While the substances referred to in paragraph (a) (2) and (3) of this section contain a number of amino acid salts as well as sodium chloride, monosodium glutamate is the ingredient which has been quite generally emphasized, and is best known to consumers under that name. No objection is offered under the Federal Food, Drug, and Cosmetic Act to the addition of a quantitative declaration on the labels of containers of such hydrolyzed vegetable protein or hydrolyzed vegetable protein with reduced monosodium glutamate content showing the percentage amounts of monosodium glutamate, the total of other amino acid salts, salt, and water, if in liquid form, all to be declared in the order of their decreasing percentages. If monosodium glutamate represents a smaller proportion of the substance than the other amino acid salts and salt (sodium chloride), it should be declared last in the list of ingredients.

(e) When the substances described in paragraphs (a) (2) and (3) of this section are used as ingredients in a fabricated food, either may be declared as "salt and hydrolyzed vegetable protein" (or "salt and hydrolyzed plant protein") on the label of the fabricated food product: *Provided*, That where salt is declared as a separate ingredient of the fabricated food, in compliance with section 403 (i) (2) of the act, the word "salt" need not be repeated in connection with the "hydrolyzed vegetable protein" (or "hydrolyzed plant protein") declaration.

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

l-EPHENAMINE PENICILLIN G PREPARATIONS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 371), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq., and 1949 Supp.; 15 F. R. 9446) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1949 Supp.; 15 F. R. 9464) are amended as indicated below:

1. Part 141 is amended by adding the following new sections:

§ 141.43 *l-Ephenamine penicillin G*—(a) *Potency.* Proceed as directed in § 141.1, except in lieu of paragraph (d) of this section dissolve the sample in sufficient methanol before diluting with sterile distilled water to make an appropriate stock solution.

(b) *Sterility.* Proceed as directed in § 141.2.

(c) *Pyrogens.* Proceed as directed in § 141.3, except use physiological salt solution as the diluent and inject 2 milliliters per kilogram of a solution containing 800 units per milliliter.

(d) *Toxicity.* Proceed as directed in § 141.4, except use physiological salt solution as the diluent and inject, in a 10-second interval, 1.0 milliliter of a solution containing 800 units per milliliter.

(e) *Moisture.* Proceed as directed in § 141.5 (a).

(f) *pH.* Proceed as directed in § 141.5 (b), using a saturated aqueous solution prepared by adding 300 milligrams per milliliter.

(g) *Microscopical test for crystallinity.* Proceed as directed in § 141.5 (c).

(h) *Heat stability.* Proceed as directed in § 141.5 (d) (1), except prepare the sample as follows: Dissolve the sample in 5 milliliters of redistilled methanol. Further diute this solution with sufficient 1-percent phosphate buffer pH 6.0 to give a concentration of 2.0 milligrams per milliliter.

(i) *Penicillin G content.* Proceed as directed in § 141.26 (h) using the following formula for calculating the percent of *l*-ephenamine penicillin G:

$$\text{Percent of } l\text{-ephenamine penicillin G} = \frac{\text{N-ethyl piperidine penicillin precipitate} \times .251}{\text{Weight of sample in milligrams}}$$

(j) *Specific rotation.* Accurately weigh approximately 250 milligrams of the sample in a 25-milliliter glass-stoppered volumetric flask and dissolve in about 15 milliliters of absolute methanol, warming if necessary. Cool the solution to 20° C., dilute to 25 milliliters with absolute methanol at 20° C., and mix thoroughly. Transfer the solution to a 200-millimeter tube, determine the angular rotation in a suitable polarimeter, using sodium light or a 5,893 Angstrom filter, and calculate the specific rotation.

§ 141.44 *l-Ephenamine penicillin G in oil*—(a) *Potency.* Proceed as directed in § 141.27 (a), except the last sentence thereof. If it is represented to contain less than 300,000 units per milliliter, its potency is satisfactory if it contains not less than 85 percent of the number of units so represented. If it is represented to contain 300,000 units per milliliter, its potency is satisfactory if it contains not less than 90 percent of the number of units so represented.

(b) *Sterility.* Proceed as directed in § 141.7 (b).

(c) *Moisture.* Proceed as directed in § 141.7 (c).

§ 141.45 *l-Ephenamine penicillin G for aqueous injection*—(a) *Potency.* Proceed as directed in § 141.43 (a). Its potency is satisfactory if it contains not less than 90 percent of the number of units it is represented to contain.

(b) *Sterility.* Proceed as directed in § 141.2, except if it is the aqueous suspension of the drug and it does not contain a preservative incubate all tubes for 14 days.

(c) *Moisture.* Proceed as directed in § 141.5 (a).

(d) *Pyrogens.* Proceed as directed in § 141.3, except use physiological salt solution as the diluent and inject 2 milliliters per kilogram of a solution containing 800 units per milliliter.

(e) *Toxicity.* Proceed as directed in § 141.4, except use physiological salt solution as the diluent and inject, in a 10-second interval, 1.0 milliliter of a solution containing 800 units per milliliter.

(f) *pH*—(1) *Dry mixture of the drug.* Proceed as directed in § 141.5 (b), using a saturated aqueous solution prepared by adding 300 milligrams per milliliter.

(2) *Aqueous suspension of the drug.* Proceed as directed in § 141.5 (b), using the undiluted aqueous suspension.

(Sec. 701, 52 Stat. 1055, 21 U. S. C. 371)

2. Part 146 is amended by adding the following new sections:

§ 146.64 *l-Ephenamine penicillin G (penicillin G l-ephenamine salt)*—(a) *Standards of identity, strength, quality and purity.* *l*-Ephenamine penicillin G is the heat stable crystalline *levo*-N-methyl-1, 2-diphenyl-2-hydroxyethylamine salt of penicillin G, prepared from crystalline penicillin G and crystalline dl-N-methyl-1, 2 -diphenyl-2-hydroxyethylamine hydrochloride (98 percent purity and a melting point of 268.5° C. ±2.5° C.). It contains not less than 85 percent by weight of the *levo*-N-methyl-1, 2-diphenyl-2-hydroxyethylamine salt of penicillin G. It is so purified and dried that:

(1) Its potency is not less than 900 units per milligram;

(2) It is sterile;

(3) It is nonpyrogenic;

(4) It is nontoxic;

(5) Its moisture content is not more than 1.5 percent;

(6) Its pH in a saturated aqueous solution is not less than 5 and not more than 7.5; and

(7) Its specific rotation in methanol at 20° C. is +111°±2.5°.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying the seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so

caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its outside wrapper or container and the immediate container as hereinafter indicated, the following:

(1) The batch mark;

(2) The weight of the drug and the number of units in the immediate container;

(3) The statement "Expiration date ----------," the blank being filled in with the date which is 24 months after the month during which the batch was certified; and

(4) The statement "For manufacturing use only."

(d) *Request for certification; check tests and assays; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in the batch, the weight of the drug and the number of units in each package, and (unless it was previously submitted) the date on which the latest assay of the drug comprising such batch was completed. Such request shall be accompanied or followed by the results of tests and assays made by him for potency, sterility, toxicity, pyrogens, moisture, pH, crystallinity, heat stability, the penicillin G content, and specific rotation.

(2) Such person shall submit with his request a sample containing 10 approximately equal portions of at least 300 milligrams, each taken from different parts of such batch. Each such portion shall be packaged in a separate container and in accordance with the requirements of paragraph (b) of this section.

(3) In connection with contemplated requests for certification of batches of another drug in the manufacture of which it is to be used, the manufacturer of a batch which is to be so used may request the Commissioner to make check tests and assays on a sample of such batch taken as prescribed by subparagraph (2) of this paragraph. From the information required by subparagraph (1) of this paragraph may be omitted results of tests and assays not required for the batch when used in such other drugs. The Commissioner shall report to each manufacturer results of such check tests and assays as are so requested.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) and (3) of this section; and

(2) If the Commissioner considers that investigations other than the examination of such immediate containers are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

§ 146.65 *l-Ephenamine penicillin G in oil*—(a) *Standards of identity, strength, quality, and purity.* *l*-Ephenamine penicillin G in oil is a suspension of *l*-ephenamine penicillin G in refined peanut oil or sesame oil with or without the addition of one or more suitable and harmless dispersing agents. Its potency is 300,000 units per milliliter unless it is packaged and labeled solely for veterinary use. It is sterile. Its moisture content is not more than 1 percent. The *l*-ephenamine penicillin G used conforms to the requirements of § 146.64 (a). Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* The immediate container shall be of colorless transparent glass (unless it is packaged to contain a single dose), so closed as to be a tight container as defined by the U. S. P., shall be sterile at the time of filling and closing, and shall be so sealed that the contents cannot be used without destroying such seal. The immediate container shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. If it is packaged for dispensing, each such container shall contain not less than 1.0 milliliter and not more than 20 milliliters and each shall be filled with a volume in excess of that designated, which excess shall be sufficient to permit the withdrawal and the administration of the volume indicated, whether administered in single or multiple doses.

(c) *Labeling.* Each package shall bear on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container of the package:

(i) The batch mark;

(ii) The number of units per milliliter of the batch;

(iii) The statement "Expiration date ----------," the blank being filled in with the date which is 18 months after the month during which the batch was certified;

(iv) The statements "For intramuscular use only" and "Shake well"; and

(v) The name of each oil used in making the batch, and, if aluminum monostearate is used as the dispersing agent, the quantity used.

(2) On the circular or other labeling within or attached to the package, adequate directions for use and warnings as required by section 502 (f) of the act, including:

(i) Clinical indications;

(ii) Dosage and administration, including site of injection;

(iii) Contraindications; and

(iv) Untoward effects that may accompany administration, including sensitization.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the *l*-ephenamine penicillin G used in making such batch was completed, the number of units in each of such packages, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and that each ingredient used in making such batch conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (4) of this paragraph such person shall submit in connection with his request results of tests and assays of the following, made by him on an accurately representative sample of:

(i) The batch: potency, sterility, and moisture.

(ii) The *l*-ephenamine penicillin G used in making the batch; potency, sterility, pyrogens, toxicity, moisture, pH, crystallinity, heat stability, penicillin G content, and specific rotation.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch: one package for each 500 packages in the batch, but in no case less than 3 packages nor more than 12 packages, collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The *l*-ephenamine penicillin G used in making the batch; 10 packages, each containing approximately 300 milligrams packaged in accordance with the requirements of § 146.64 (b).

(iii) In case of an initial request for certification, one package containing approximately 150 grams of the peanut oil or sesame oil used and one package containing approximately 5 grams of each dispersing agent used.

(4) No result referred to in subparagraph (2) (ii) of this paragraph and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations of this part shall be:

(1) $4.00 for each package submitted in accordance with paragraph (d) (3) of this section; and

(2) If the Commissioner considers that investigations, other than examination of such packages, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations. The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

§ 146.66 *l-Ephenamine penicillin G for aqueous injection*—(a) *Standards of identity, strength, quality, and purity.* *l*-Ephenamine penicillin G for aqueous injection is a dry mixture of *l*-ephenamine penicillin G and one or more suitable and harmless suspending or dispersing agents, with or without one or more suitable and harmless preservatives and buffer substances, or it is an aqueous suspension of *l*-ephenamine penicillin G and one or more suitable and harmless suspending or dispersing agents, buffer substances, and preservatives, except that preservatives are not required if the immediate container is packaged to contain a single dose and is conspicuously so labeled. It is so purified that:

(1) If it is an aqueous suspension of the drug, each container or each milliliter shall contain not less than 300,000 units;

(2) It is sterile;

(3) If it is the dry mixture of the drug, its moisture content is not more than 1.5 percent;

(4) It is nonpyrogenic;

(5) It is nontoxic; and

(6) Its pH in saturated aqueous solution is not less than 5.0 and not more than 7.5.

The *l*-ephenamine penicillin G used conforms to the requirements of § 146.64 (a). Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying such seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. In case it is packaged for dispensing, it shall be in immediate containers of colorless transparent glass, closed by a substance through which a hypodermic needle may be introduced and withdrawn without removing the closure or destroying its effectiveness, unless it is the aqueous suspension of the drug and it is packaged to contain a single dose. If it is the dry mixture of the drug, each such container shall contain 300,000 units, 600,000 units, 900,000 units, 1,200,000 units, 1,500,000 units, or 3,000,000 units, and each may be packaged in combination with a container of a suitable aqueous diluent. If it is the aqueous suspension of the drug, each such container shall contain not less than 1 milliliter (unless it is packaged to contain a single dose) and not more than 10 milliliters, and each shall be filled with a volume in excess of that designated, which excess shall be sufficient to permit the withdrawal and the administration of the volume indicated, whether administered in either single or multiple doses.

(c) *Labeling.* Each package shall bear on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark;

(ii) The number of units in the immediate container;

(iii) The statement "Expiration date ----------," the blank being filled in, if it is the dry mixture of the drug, with the date which is 18 months, or if it is the aqueous suspension of the drug, with the date which is 12 months after the month during which the batch was certified;

(iv) The statement "For intramuscular use only"; and

(v) If the drug contains preservatives, the name and quantity of each preservative used.

(2) On the outside wrapper or container, if it is the aqueous suspension of the drug, the statement "Store in refrigerator not above 15° C. (59° F.)," or "Store below 15° C. (59° F.)."

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing, adequate directions for use and warnings as required by section 502 (f) of the act, including:

(i) Clinical indications;

(ii) Dosage and administration;

(iii) If it is the dry mixture of the drug, the conditions under which suspensions made from such drug should be stored, and the statement "Sterile suspension may be kept at room temperature for 1 week, or in refrigerator for 3 weeks, without significant loss of potency";

(iv) Contraindications; and

(v) Untoward effects that may accompany administration, including sensitization.

If two or more immediate containers are in such package, the number of such circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of *l*-ephenamine penicillin G for aqueous injection shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the *l*-ephenamine penicillin G used in making such batch was completed, the number of units in each of such packages, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor by this section. If such batch, or any part thereof, is to be packaged with a solvent, such request shall also be accompanied by a statement that such solvent conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (5) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: potency, sterility, moisture (unless it is the aqueous suspension of the drug), pyrogens, toxicity, pH.

(ii) The *l*-ephenamine penicillin G used in making the batch: potency, crystallinity, heat stability, penicillin G content, and specific rotation.

(3) Except as otherwise provided by subparagraph (5) of this paragraph, if such batch is packaged for dispensing, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch: one immediate container for each 5,000 immediate containers in such batch, but in no case shall such sample consist of less than 10 or more than 17 immediate containers, collected by taking single immediate containers at such intervals, throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The *l*-ephenamine penicillin G used in making the batch; 3 packages containing approximately equal portions of not less than 500 milligrams each, packaged in accordance with the requirements of § 146.64 (b).

(iii) In case of an initial request for certification, each other ingredient used in making the batch, one package of each containing approximately 5 grams.

(iv) In case of an initial request for the certification of a batch which is to be packaged in combination with an aqueous diluent which is not recognized by the U. S. P., or when any change is made in the composition of such diluent; 5 packages of the diluent included in the combination.

(4) If such batch is packaged for repacking, such person shall submit with his request a sample containing 10 approximately equal portions equivalent to at least 300 milligrams, each taken from different parts of such batch; each such portion shall be packaged in a separate container and in accordance with the requirements of paragraph (b) of this section.

(5) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) and (4) of this section; and

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee

is covered by an advance deposit maintained in accordance with § 146.8 (d).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

This order, which provides for tests and methods of assay and certification of three new antibiotic preparations, *l*-ephenamine penicillin G, *l*-ephenamine penicillin G in oil, and *l*-ephenamine penicillin G for aqueous injection, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay providing for tests and methods of assay and certification of *l*-ephenamine penicillin G, *l*-ephenamine penicillin G in oil, and *l*-ephenamine penicillin G for aqueous injection.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 380]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 375]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CALIFORNIA, ILLINOIS, MICHIGAN, MISSOURI, AND NEW JERSEY

Amendment 380 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 375 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respects:

1. Schedule A, Item 26a, is amended to describe the counties in the Defense-Rental Area as follows:

Alameda County, except the Cities of Hayward, Livermore, Piedmont and San Leandro, and the Town of Pleasanton.

This decontrols the City of Piedmont in Alameda County, California, a portion of the Alameda County, California, Defense-Rental Area.

2. Schedule A, Item 31, is amended to describe the counties in the Defense-Rental Area as follows:

Sutter County; and Yuba County, except the Cities of Marysville and Wheatland, and the portion of Yuba County described as follows:

All North and East of a line beginning at a point on the line between Nevada County and Yuba County where said line is intersected by the south line of Township seventeen (17) North Range six (6) East MDB&M and running thence west along said Township line to the southwest corner of said Township; then north along the west line of Township seventeen (17) and eighteen (18) North, Range six (6) East to the point where said line intersects the line between Butte County and Yuba County.

Butte, except that portion described as follows:

All North and East of a line beginning at a point in the boundary line between Yuba and Butte Counties, California, between T. 18 N., R. 5 E. and T. 18 N., R. 6 E., thence North in Butte County along the east lines of T. 18 N., R. 5 E., T. 19 N., R. 5 E. and T. 20 N., R. 5 E. to NE. corner of T. 20 N., R. 5 E.; thence west along north line of T. 20 N., R. 5 E. to SE. corner of T. 21 N., R. 4 E.; thence north along east lines of T. 21 N., R. 4 E., T. 22 N., R. 4 E., and T. 23 N., R. 4 E. to the NE. corner of T. 23 N., R. 4 E.; thence west along the north lines of T. 23 N., R. 4 E., T. 23 N., R. 3 E., and T. 23 N., R. 2 E. to the boundary line between Butte and Tehama Counties, California.

This decontrols the City of Wheatland in Yuba County, California, a portion of the Marysville-Chico, California, Defense-Rental Area.

3. Schedule A, Item 39c, is amended to describe the counties in the Defense-Rental Area as follows:

Santa Clara County, except the Cities of Morgan Hill, Mountain View, Palo Alto, San Jose, Santa Clara and Sunnyvale, the Town of Los Gatos, and all unincorporated localities.

This decontrols the Cities of Morgan Hill and Sunnyvale in Santa Clara County, California, portions of the San Jose, California, Defense-Rental Area.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 6, Amendment 8]

CPR 6—FATS AND OILS

ALTERNATIVE PRICING METHOD FOR U. S. GOVERNMENT AGENCIES SELLING FAT-BEARING OR OIL-BEARING ANIMAL WASTE MATERIALS UNDER FIXED TERM CONTRACTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order 2 (16 F. R. 738) this Amendment 8 to Ceiling Price Regulation 6 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 2 to Ceiling Price Regulation 6 added, among others, a new section 15 establishing ceiling prices for fat-bearing and oil-bearing animal waste materials. Ceiling prices for such materials were established by section 15 as the highest prices at which such materials were delivered to a purchaser of the same class during the base period from November 7 to December 7, 1951. This section has been interpreted as superseding section 4 (c) of Supplementary Regulation 1 to the General Ceiling Price Regulation which had therctofore exempted from price control sales of scrap, waste, damaged or used materials or commodities by a defense agency.

It has been brought to the attention of the Director of Price Stabilization that some inequities have occurred with respect to the pricing of sales of fat or oil-bearing animal wastes on the part of certain agencies of the United States Government, such as the departments of the Army, Navy, and Air Force, and their various installations, who customarily dispose of waste fats, interceptor grease, animal bones, food scraps and similar wastes under running term contracts, usually on an annual basis for the period of the fiscal year. Many of these agencies are now ready to invite competitive bids for such waste materials for the next fiscal year, but because they were selling them during the base period at prices below prevailing rates, due to prior long-term contract commitments, these agencies would be compelled to offer their waste materials for sale at this time subject to ceiling prices substantially below those now generally prevailing in the case of sales of like materials by other suppliers.

This amendment, therefore, gives government agencies the option of establishing their ceiling prices for fat or oil-bearing animal waste materials by adopting the prices of their most closely competitive seller. The result of this amendment will not only serve to remove the inequities caused by the long-term contracts entered into by some agencies, but will also enable buyers of waste materials covered by this amendment to bid for their acquisition at currently prevailing rates. Moreover, it will provide for government agencies the same flexibility of pricing their sales to private buyers, which is now accorded to private suppliers for their sales to agencies of the United States by General Overriding Regulation 2.

AMENDATORY PROVISIONS

Ceiling Price Regulation 6 is amended in the following respect:

Section 15 is amended by deleting the present section 15 and substituting therefor the following new section to read as follows:

SEC. 15. *Ceiling Prices for fat-bearing and oil-bearing animal waste materials.* (a) Ceiling prices for fat-bearing or oil-bearing animal waste materials are the highest prices at which such materials were delivered to a purchaser of the same class during the period from November 7 to December 7, 1950, inclusive. If such materials were not delivered during this period, the ceiling price shall be the highest price at which such materials were offered for delivery during this period to a purchaser of the same class. This offer must have been in writing. If no such materials were offered for delivery or dealt in during the above period, the ceiling prices for such materials shall be those of the seller's most closely competitive seller of the same class selling the same materials to the same class of purchaser.

(b) As an alternative to the method provided in paragraph (a) of this section, agencies of the United States Government, or any separate selling units of such agencies, who during the period from November 7 to December 7, 1950, inclusive, sold any of the waste materials covered by this section on the basis of fixed term contracts entered into with buyers of such materials prior to November 7, 1950, may determine their ceiling prices for future sales by adopting those of their most closely competitive seller.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 11, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[Ceiling Price Regulation 22, Supplementary Regulation 5]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 5—USE OF FORMULA PRICING BY CONVERTERS OF PAPERBOARD

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 5 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

The segment of the paper industry known as converters of paperboard has historically priced its end products by the interplay of several factors, such as raw material costs, margin, converting and delivery charges. These end products, chiefly boxes made of various grades of paperboard, are similar only to the extent that they are containers. From that point the factors used in the formula vary with each other. Consequently, although during any base period a particular manufacturer had in fact sold or delivered a particular box, he could have by application of his formula provided his customers with ceiling prices for thousands of boxes, if an estimate with respect to such boxes had been requested of him.

Some box manufacturers on the basis of their formulas priced the standard commodities they were in a position to manufacture by publishing price lists, catalogues or manuals which merely reflected the sum total of the factors within the formula. But even in those instances, it was impracticable to list every conceivable size, shape, style or grade of box. However, upon request a price was quickly available for an unlisted item by the application of the formula.

The language in section 6 (c) of Ceiling Price Regulation 22 does not clearly indicate that a converter of paperboard could, in determining his base period price, apply his formula for a particular box the price of which was not announced or in effect in the base period, even though as outlined above, he had a pricing manual in effect during the base period with all of the information necessary to quote a price. To compel these manufacturers to comply literally with the other permissible pricing methods of Ceiling Price Regulation 22, such as sections 30 to 34 would require an infinite number of reports, and thereby render the use of such sections administratively impracticable. The simplest and most efficacious method of arriving at a ceiling price under Ceiling Price Regulation 22 would be to allow a converter of paperboard to determine to what extent his labor and materials costs have increased over his base period costs as permitted under the provisions of Ceiling Price Regulation 22 and apply this increase factor to the price for any commodity which he manufactured or could have manufactured during his base period by the use of his formula.

This method of formula pricing will enable box manufacturers, as well as others included in this segment of the industry, to calculate very quickly their ceiling prices under Ceiling Price Regulation 22 for all their formula pricing commodities. It merely extends to section 6 (c) of Ceiling Price Regulation 22 their historical pricing method, which any tailored regulation would be obliged to incorporate in arriving at ceiling prices.

This permitted use of formula pricing will obviate the necessity for many manufacturers to use sections 32 and 33 which relate generally to new commodities, new categories, new sellers and new classes of purchasers. To the extent sections 32 and 33 are not used the reporting requirements thereunder are waived.

In the judgment of the Director of Price Stabilization, the provisions of this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950 and to relevant factors of general applicability.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Formula pricing for base period.
3. Changes in reporting.

AUTHORITY: Sections 1 to 3 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply Title IV, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950, Supp.

SECTION 1. *What this supplementary regulation does.* (a) This supplementary regulation modifies section 6 of Ceiling Price Regulation 22 by permitting

converters of paperboard to determine their base period prices by the application of their pricing formulas in effect during the base period. The use of section 2 of this regulation will facilitate certain reporting requirements, as described in section 3.

(b) All other provisions of Ceiling Price Regulation 22 are unaffected by this supplementary regulation.

SEC. 2. *Formula pricing for base period.* A converter of paperboard who manufactures any commodity therefrom, such as boxes, laminated sheets, drums, pails, tubes and related products, and who cannot determine a base period price for all such commodities which he manufactures under section 6 (a), (b) or (c) of CPR 22, may use his pricing formula, in effect during the base period to satisfy the requirements of "a price list, catalogue, or similar statement" under section 6 (c). Such pricing formula must have been in writing or contained in some price list, catalogue or manual which reflected his raw material cost, margin, conversion and delivery charges in effect during his base period. In using such formula there is no requirement in this supplementary regulation for any deliveries of such commodities.

SEC. 3. *Change in reporting.* If you determine any or all of your base period prices under this supplementary regulation, then (a) for those commodities, the base period prices of which are determined under section 2 of this regulation, the provisions of sections 32 and 33 of CPR 22 are waived, and (b) you need not report in Item 8 of OPS Public Form 8 all products whose ceiling prices are higher than those under the General Ceiling Price Regulation, but only three standard items which you actually sold or delivered during the base period.

Effective date. This supplementary regulation shall become effective on July 2, 1951, or such earlier date between May 28, 1951 and July 2, 1951, as you may select. If you select such an earlier date, the regulation becomes effective as to you upon that date for all of your commodities covered by the supplementary regulation.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

TITLE 41—PUBLIC CONTRACTS

Chapter III—Committee on Purchases of Blind-Made Products

PART 301—PURCHASES OF BLIND-MADE PRODUCTS

CLEARANCES

Section 301.6 *Clearances* is revised to read as follows:

§ 301.6 *Clearances.* (a) The Federal Supply Service may grant to any ordering office a clearance to purchase from commercial sources any item listed in the Schedule when the Federal Supply Services determines that a clearance is necessary to meet emergency requirements. Two copies of any such clearance issued, together with a statement as to the emergency involved, will be sent by the Federal Supply Service to National Industries for the Blind within thirty days after issuance thereof.

(b) Any ordering office may purchase from commercial sources any item listed in the Schedule to meet requirements (1) of military necessity which require delivery within two weeks (2) that are less than a single unit or (3) that are for use outside the continental United States.

(c) Whenever an ordering office has requested an allocation from National Industries and in reply has been furnished with a statement by the National Industries listing items that none of the agencies for the blind can furnish within the period specified in the request for an allocation the ordering office may purchase the items, and quantities thereof, listed in the statement from commercial sources; *Provided*, That purchase action to secure such items is instituted within thirty days from the date of the statement by National Industries or within such further period as may be indicated in the statement by National Industries.

FEDERAL POWER COMMISSION

[Docket No. G-1148]

PHILLIPS PETROLEUM CO.

ORDER GRANTING MOTION FOR OMMISSION OF INTERMEDIATE DECISION PROCEDURE AND FIXING DATE FOR ORAL ARGUMENT

MAY 31, 1951.

At the conclusion of the hearing in this matter, Commission staff counsel made an oral motion before the Presiding Examiner, pursuant to § 1.30 (c) of the rules of practice and procedure, requesting that the intermediate decision procedure be omitted. This motion was concurred in by counsel for respondent and all counsel present. In concurring in the motion for omission of the intermediate decision procedure, counsel for respondent requested oral argument before the Commission and all counsel joined in this request.

The Presiding Examiner has fixed June 22, 1951, as the date for the filing of initial briefs and July 5, 1951 for the filing of reply briefs. The motions for the omission of the intermediate decision procedure and for oral argument have been referred to the Commission for its consideration.

The Commission finds: Good cause exists for omitting the intermediate decision procedure and for setting the matter for oral argument.

The Commission orders:

(A) The motion for omission of the intermediate decision procedure be and the same is hereby granted.

(B) The matters involved and the issues presented in this proceeding be and the same are hereby set for oral argument before the Commission commencing at 10:00 a. m., e. d. s. t., on July 9, 1951, in Conference Room "B" of the Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C.

Date of issuance: June 1, 1951.

By the Commission.

[Docket No. M-33]

SOUTH ATLANTIC STEAMSHIP LINE, INC.

NOTICE OF HEARING ON APPLICATION TO BAREBOAT CHARTER GOVERNMENT-OWNED, WAR-BUILT, DRY-CARGO VESSELS

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held at Washington, D. C., on June 12, 1951, at 10 o'clock a. m., e. d. s. t., in Room 4823 Department of Commerce Building, before Examiner Robert Furness, upon the application of South Atlantic Steamship Line, Inc., to bareboat charter two Victory-type AP-2 Cargo vessels for use in applicant's existing berth service, Trade Route No. 11 between South Atlantic ports of the United States, including Hampton Roads ports, and ports in the United Kingdom and Atlantic Europe, and for calls eastbound only at Philadelphia and/or Baltimore as cargo offers to load bulk grain in liner parcels and/or armed services cargo for United Kingdom and/or Continent Bordeaux-Hamburg range.

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessels are proposed to be chartered is required in the public interest and would not be adequately served without the use therein of such vessels, and with respect to the availability of privately-owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service.

All persons having an interest in such application will be given an opportunity to be heard if present.

The parties may have oral argument before the examiner immediately following the close of the hearing, in lieu of briefs, and the examiner will issue a recommended decision. Parties may have seven (7) days within which to file exceptions to or memoranda in support of the examiner's recommended decision, but the Board reserves the right to determine whether oral argument on exceptions will be granted and whether briefs in connection therewith will be received.

Dated: May 27, 1951.

By order of the Federal Maritime Board.

ADMINISTRATOR OF FEDERAL SECURITY AGENCY ET AL.

DELEGATION OF AUTHORITY TO PROCESS APPLICATIONS UNDER NPA ORDER M-4

1. Pursuant to the authority under the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Orders 10161 (15 F. R. 6105) and 10200 (16 F. R. 61), and Defense Production Administration Delegation 1 (16 F. R. 738), the following functions to be performed pursuant to NPA Order M-4 (Construction) are delegated to each of the persons named in Table 1, with power to redelegate and to authorize successive redelegations with respect to the categories of construction set forth in said table opposite his name:

(a) To receive, consider, pass upon, and take action in his own name, including appellate action, upon applications for authorization to commence construction, pursuant to section 6 of NPA Order M-4;

(b) To receive, consider, pass upon, and take action in his own name, including appellate action, upon applications for adjustment or exception based upon a claim of unreasonable hardship, or upon a claim that prohibition of the construction is not in the interest of the national defense, pursuant to section 11 of NPA Order M-4.

2. Notwithstanding paragraph 1 of this delegation, the authority delegated hereby does not include any category of construction specified in List A of NPA Order M-4, except that the Administrator of the Federal Security Agency and the Administrator for Veterans Affairs may take action with respect to such a category if such construction is required as part of an integrated hospital program.

3. Notwithstanding paragraph 1 of this delegation, the authority delegated hereby does not include the approval of the commencement of construction of any office building, administration building, retail store, retail outlet, or service store unless such construction is an integral part of a category of construction respectively specified in Table I.

4. Any authorization, adjustment, or exception under NPA Order M-4 issued by any delegate named in this delegation pursuant to any of the foregoing paragraphs must be correlated with the delegate's activities under the Controlled Materials Plan of the National Production Authority; and the projects approved by each delegate, and the allotment of controlled materials made therefor, will be charged against the total construction program and allotments approved for such delegate by the Defense Production Administration.

5. Insofar as it is inconsistent herewith, this delegation supersedes NPA Delegation No. 7.

6. As used in this delegation, the terms "petroleum," "gas," "solid fuels," "electric power," "metals and minerals," "food," "domestic transportation," "storage," and "port facilities" have the same meanings as are set forth in Executive Order 10161.

7. Any action taken under this delegation shall be signed in the name of the delegate or redelegate by the individual taking such action and shall be authenticated by the signature of such individual together with the title of his position.

This delegation shall take effect on June 7, 1951.

SET-UP PAPER BOX INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, partnerships, corporations, associations, or other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the set-up paper box industry, to present to the Commission such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose copies of the proposed rules may be obtained upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than June 28, 1951. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., d. s. t., June 28, 1951, in Room 332, Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D. C., to any person who desires to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry for which these rules are proposed is composed of persons, firms, corporations and organizations engaged in the business of manufacturing, selling, or offering for sale of boxes fabricated from noncorrugated paperboard of the set-up (noncollapsible) type. Such boxes are used extensively in the distribution and marketing of shirts, hosiery, proprietary drugs, and numerous other products.

Issued: June 4, 1951.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

PAUL KAYE

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of June A. D. 1951.

In the matter of Paul Kaye, 60 E. 42d Street, New York, New York.

This proceeding was instituted pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether Paul Kaye, a registered dealer, willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder and, if so, whether it is in the public interest to revoke his registration.[1]

The proceeding was instituted on March 15, 1951, by notice and order for hearing, a copy of which was sent by registered mail to Kaye. Despite receipt of the registered letter, Kaye did not appear personally or through a representative at the time and place designated in the notice, nor did he file a motion to change the place of hearing.

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press and by distribution to persons on our mailing list.

Kaye's registration became effective on September 8, 1944, and has not been withdrawn, cancelled, revoked or suspended. Our records show that he did not file the required reports during any year from 1946 through 1950.

In a letter dated March 26 1951, wherein he acknowledged receipt of the registered notice, and in copies of two letters enclosed in the March 26 letter, Kaye indicated that in 1946 he was advised of the necessity for filing financial reports, but that his records were in the Attorney General's office. However, this fact of itself did not excuse his failure to file financial reports for the years 1947 through 1950. We therefore find that Kaye was fully apprised of the necessity for filing financial reports and that he willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of his failure to do so for the years 1947 through 1950.

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke his registration. However, in view of the fact that Kaye was not present at the hearing and to avoid any possible prejudice to him, our order will provide that the revocation of his registration be without prejudice to a motion on his part to reopen the proceeding and to seek, upon a proper showing, to set aside the order of revocation.

Accordingly, it is ordered, That the registration of Paul Kaye as a dealer be, and it hereby is, revoked without prejudice to a motion by said Paul Kaye to reopen the record in the proceeding and, upon a proper showing, to set aside the order of revocation.

By the Commission.

[1] Section 15 (b) provides in part:

"The Commission shall, after appropriate notice and opportunity for hearing, by order • • • revoke the registration of any broker or dealer if it finds that such • • • revocation is in the public interest and that (1) such broker or dealer • • • (D) has willfully violated any provision • • • of this title, or of any rule or regulation thereunder."

NORTH AMERICAN CO. ET AL.

MEMORANDUM OPINION AND ORDER DENYING PETITION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of June A. D. 1951.

In the matter of The North American Company and its subsidiary companies, File No. 59-10; The North American Company, File No. 54-82; North American Light & Power Company Holding Company System and The North American Company, File No. 59-39; North American Light & Power Company, File No. 54-50; Illinois Power Company, File No. 54-147.

On May 7, 1951, we issued a memorandum opinion and order in the above entitled proceedings in which we held, among other things, that an application by Amelie A. Wallace and John Wallace for an allowance for fees and expenses should be denied for the reason that they had not made any contribution for which they should be compensated. The Wallaces have filed a petition for a reconsideration of their application for allowances and for a rehearing in which they might establish on the record by examination of those members of the Commission's staff who have knowledge thereof the steps taken by the staff with respect to the program proposed by the Wallaces in a letter written to this Commission in 1941.

The petition for reconsideration and rehearing presents nothing new and is in effect merely a reargument of matters already considered. Applications on behalf of the Wallaces to subpoena and examine former members of our staff were presented during the proceedings. It has been our consistent policy not to permit inquiry into the steps taken by our staff in the course of its exploration into questions relating to the formulation of a plan of reorganization under section 11 or other forms of compliance with the act.

Accordingly, it is ordered, That the petition of Amelie A. Wallace and John Wallace in the above entitled proceedings for reconsideration and rehearing be, and it is hereby is, denied.

By the Commission.

UNION ELECTRIC CO. OF MISSOURI AND UNION ELECTRIC POWER CO.

ORDER PERMITTING ACQUISITION BY REGISTERED HOLDING COMPANY OF ADDITIONAL SHARES OF COMMON STOCK OF SUBSIDIARY

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of June A. D. 1951.

Union Electric Company of Missouri ("Union"), a registered holding company and an electric utility subsidiary of The North American Company, also a registered holding company, and Union Electric Power Company ("Union Electric Power"), a wholly owned electric utility subsidiary of Union, having filed with this Commission an application-declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("act") and particularly sections 6 (b), 9 (a) and 10 thereof and Rule U-44 thereunder, with respect to the following proposed transactions:

Union Electric Power proposes to issue and sell to Union from time to time during the period ending December 31, 1952, $7,000,000 aggregate par value of additional shares of its Common Stock, of the par value of $20 per share, which will be pledged by Union with the trustee of Union's mortgage securing its First Mortgage and Collateral Trust Bonds. Union Electric Power proposes to use the proceeds from the sale of its stock for the construction of new facilities and to reimburse its treasury for monies previously expended for such purpose.

The proposed issuance and sale of common stock by Union Electric Power have been approved by the Illinois Commerce Commission and the acquisition of such common stock by Union has been approved by the Missouri Public Service Commission.

Applicants-declarants estimate that the fees and expenses incident to the proposed transactions will aggregate $13,300, including $2,000 for legal services.

Said amended application-declaration having been duly filed and notice of such filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said amended application-declaration within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, that no adverse findings are necessary, that the fees and expenses in the estimated amounts are not unreasonable, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

BIRMINGHAM ELECTRIC CO.

ORDER GRANTING APPLICATION TO ACQUIRE PROMISSORY NOTES IN CONNECTION WITH SALE OF TRANSPORTATION PROPERTIES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of May 1951.

Birmingham Electric Company ("Birmingham"), a public utility company and an indirect subsidiary of The Southern Company, a registered holding company, having filed an application, and amendments thereto, pursuant to sections 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

This Commission on August 24, 1950, entered an order whereby Alabama Power Company, a public utility subsidiary of The Southern Company, was permitted to acquire certain capital stock of Birmingham. Such order provided, in effect, that Alabama Power Company shall dispose, not later than August 31, 1951, of any direct or indirect interest in the transportation properties and business owned by Birmingham. On May 2, 1951, Birmingham notified this Commission, pursuant to the provisions of Rule U-44 (c) under the act, that it has entered into an agreement dated April 10, 1951 with a group of Birmingham businessmen for the sale of its transportation properties and business. The Commission determined that no declaration was required to be filed in connection with the proposed sale. The details with respect to the proposed sale are more fully set forth in Holding Company Act Releases No. 10551. The proposed sale and abandonment of its transportation business by Birmingham upon consummation of such sale have been authorized by the Alabama Public Service Commission.

Part of the consideration to be received by Birmingham under the terms of the agreement is to consist of $800,000 principal amount of purchase money obligations of an Alabama corporation to be organized by the purchasers and to which Birmingham will transfer the real estate upon which are located the transportation offices, garages, shops and storage yards used by Birmingham in its transportation business. Such obligations will be dated as of the date of transfer of Birmingham's property to be sold, will be secured by a first mortgage on all of the property of the new Alabama corporation, will bear interest at the rate of 4½ percent per annum, payable annually, will mature twelve years after date and will be amortized at the rate of $25,000 per annum for the first four years and at the rate of $50,000 thereafter.

Said application having been filed on May 2, 1951, and amendments having been filed on May 23, 1951 and on May 28, 1951, notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that said amended application satisfies the requirements of the applicable provisions of the act and the rules thereunder, that no adverse findings are necessary in connection with the proposed transaction, that the estimated fees and expenses are not unreasonable, and that the amended application should be granted without the imposition of terms and conditions other than those contained in Rule U-24; and the Commission deeming it appro-

priate to grant the request of applicant that said order herein become effective upon the issuance thereof:

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of said act that the amended application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

NEW ENGLAND POWER CO. AND LOWELL ELECTRIC LIGHT CORP.

ORDER AUTHORIZING ISSUANCE OF PROMISSORY NOTES

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 31st day of May A. D. 1951.

New England Power Company ("NEPCO") and The Lowell Electric Light Corporation ("Lowell"), subsidiary public utility companies of New England Electric System, a registered holding company, having filed applications-declarations, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 and Rule U-42 (b) (2) promulgated thereunder, with respect to the following transactions:

NEPCO proposes to issue under the terms and provisions of a bank loan agreement to five banks, namely, The First National Bank of Boston, The Chase National Bank of the City of New York, Central Hanover Bank and Trust Company, Irving Trust Company and The New York Trust Company, from time to time but not later than December 31, 1951, promissory notes in the aggregate principal amount up to but not exceeding $12,000,000. Said notes will mature April 1, 1952, and will bear interest at not less than 2½ percent per annum nor more than 2¾ percent per annum. The proceeds from said notes will be used by NEPCO to finance temporarily its construction program through 1951.

Lowell proposes to issue under the terms and provisions of a bank loan agreement to the above named banks, from time to time but not later than November 1, 1951, promissory notes in an aggregate amount up to but not exceeding $2,700,000. Lowell's new notes will mature April 1, 1952 and will bear interest at not less than 2½ percent nor more than 2¾ percent. Of the proceeds to be derived from said notes, $2,100,000 will be used to retire an equivalent principal amount of notes now outstanding, and the balance to finance temporarily its construction program through 1951.

NEPCO's bank agreement provides, among other things, for commitment commissions at the rate of ¼ of 1 percent per annum on the average daily difference between the amount of the banks' commitment and the amount borrowed thereunder while, in the case of Lowell, no commitment commission will be paid.

Each of the applicants-declarants states that if any permanent financing is done before the maturity date of the notes proposed to be issued, it will apply the proceeds from such financing in reduction of, or in total payment of, promissory notes authorized and then outstanding and the amount of notes, authorized but then unissued, if any, will be reduced by the amount, if any, by which such permanent financing exceeds the amount of promissory notes at the time outstanding.

The applications-declarations state that incidental services in connection with the proposed transactions will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $1,000 for each of the applicants-declarants, or the aggregate sum of $2,000. Other expenses, including out-of-pocket expenses and counsel fees of The First National Bank of Boston, as Agent for the five lending banks and the printing of the bank loan agreements, are estimated not to exceed $700 for NEPCO and $400 for Lowell, or the aggregate sum of $1,100.

The applications-declarations further state that no state commission has jurisdiction over the proposed transactions.

Each of the applicants-declarants request that the Commission's order herein become effective forthwith upon issuance.

Said applications-declarations having been duly filed on May 2, 1951, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said applications-declarations within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said applications-declarations that the requirements of the applicable provisions of the act and rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications-declarations be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said applications-declarations be, and hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

LAWRENCE GAS AND ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE OF PROMISSORY NOTES

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 31st day of May A. D. 1951.

Lawrence Gas and Electric Company ("Lawrence"), a public utility subsidiary company of New England Electric System, a registered holding company, having filed a declaration, pursuant to section 7 of the Public Utility Holding Company Act of 1935 and Rule U-42 (b) (2) promulgated thereunder, with respect to the following transactions:

Lawrence proposes, under the terms and provisions of a bank loan agreement, to issue to five banks, namely, The First National Bank of Boston, The Chase National Bank of the City of New York, Central Hanover Bank and Trust Company, Irving Trust Company and The New York Trust Company, from time to time but not later than December 31, 1951, promissory notes in an aggregate principal amount up to but not exceeding $2,000,000. Said notes will mature April 1, 1952 and will bear interest at the rate of not less than 2½ percent per annum nor more than 2¾ percent per annum. The proposed bank loan agreement provides, among other things, for the payment of commitment commissions at the rate of ¼ of 1 percent per annum for the period from May 15, 1951, to December 31, 1951, on the average daily difference between the amount of the banks' commitments and the amount borrowed.

The proceeds to be derived from the proposed notes will be used by Lawrence for the payment of $100,000 face amount of presently outstanding promissory notes and to finance temporarily its construction program through the year 1951 and to pay for the conversion costs in connection with the distribution of natural gas which the company expects will be available in the latter half of 1951.

Lawrence proposes that if any permanent financing is done, or if all or substantially all of its gas properties are sold, before the maturity of the notes proposed to be issued, it will apply the proceeds therefrom in reduction of, or in total payment of, notes then outstanding, and the balance of such amount of notes then authorized but unissued, if any, will be reduced by the amount, if any, by which such permanent financing, or the proceeds from the sale of gas properties, exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed transactions will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $1,000. Other expenses, including out-of-pocket expenses and counsel fees of The First National Bank of Boston, as Agent for the five lending banks and the printing of the bank loan agreements, are estimated not to exceed $400.

The declaration further states that no state commission has jurisdiction over the proposed transactions.

Lawrence requests that the Commission's order herein become effective upon issuance.

Said declaration having been duly filed on May 4, 1951, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said declaration within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said declaration, be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

INDIANA & MICHIGAN ELECTRIC CO.

NOTICE OF PROPOSED BORROWING OF FUNDS FROM CERTAIN BANKING INSTITUTIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the first day of June A. D. 1951.

Notice is hereby given that Indiana & Michigan Electric Company ("Indiana & Michigan"), an electric utility subsidiary company of American Gas and Electric Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935, and has designated section 6 (b) of the act as being applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Indiana & Michigan proposes to borrow not to exceed in the aggregate $7,000,000, from time to time prior to December 31, 1952, from certain banking institutions and to issue notes in evidence thereof. The proposed borrowings will be made in the indicated amounts from the following banks:

Name of Bank and Address	*Amount*
Irving Trust Co., New York, N. Y.	$2,250,000
Guaranty Trust Co. of New York, New York, N. Y.	2,250,000
Bankers Trust Co., New York, N. Y.	1,250,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	1,250,000

The notes to be issued by Indiana & Michigan evidencing such borrowings will be dated as of the date the money is borrowed in each case and will mature 9 months or less after the date of issuance. It is expected that the initial borrowing will be in the aggregate amount of $2,000,000 and will be made on or before July 1, 1951. The notes evidencing such initial borrowing will bear interest from the date thereof at the then current prime credit rate which is presently 2½ percent per annum. Subsequent borrowings will bear interest from the respective dates thereof at the then current prime credit rate. In that connection, Indiana & Michigan states that at least 10 days prior to each proposed subsequent borrowing, it will file an amendment to its application setting forth the amount of the proposed borrowing and the rate of interest to be charged thereon. Applicant requests that each such amendment become effective 10 days after the filing thereof without further order of the Commission, provided no action is taken by the Commission with respect thereto within such 10 day period.

Indiana & Michigan further states that the notes may be prepaid from time to time in whole or in part without premium. No finders fees or commissions are to be paid by Indiana & Michigan.

The proceeds from the proposed borrowings will be used to enable Indiana & Michigan to proceed with its construction program during the years 1951 and 1952. The applicant states that a program of permanent financing will be undertaken by the company in 1952 which will provide, among other things, for the payment of the then outstanding notes.

The application states that the Public Service Commission of Indiana has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 14, 1951, at 5:30 p. m. e. d. s. t. request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application, as filed or as subsequently amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary: Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 14, 1951, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

WASHINGTON WATER POWER CO.

NOTICE OF PROPOSED BORROWING OF FUNDS FROM CERTAIN BANKING INSTITUTIONS

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 31st day of May 1951.

Notice is hereby given that The Washington Water Power Company ("Washington"), an electric utility subsidiary of American Power & Light Company, a registered holding company, has filed an application with this Commission under the Public Utility Holding Company Act of 1935 and has designated section 6 (b) of said act as being applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Washington proposes to borrow from Guaranty Trust Company of New York, Mellon National Bank and Trust Company of Pittsburgh, Pennsylvania, and Seattle First National Bank (Spokane and Eastern branch), Spokane, Washington, under a revolving credit, an aggregate principal amount of not to exceed $25,000,000, from time to time prior to June 15, 1954, and to issue notes in evidence thereof. The notes evidencing the loans would bear interest, from their respective dates until they become due, at the rate of 2¾ percent per annum until June 15, 1952, and 2⅞ percent thereafter to maturity. All such notes would mature not later than June 15, 1954. Each of the above-named banks would participate in the proposed borrowings in amounts not to exceed those designated in the Credit Agreement between the three banks and Washington. Under the Credit Agreement, Washington would pay a commitment fee of ½ of 1 percent per annum on the daily average unused amount of such commitment to June 15, 1954.

Washington proposes to use a portion of the proceeds from the above-mentioned loans to repay the entire balance of the Company's 2 percent bank loans from Seattle-First National Bank (Spokane and Eastern branch), of which a maximum principal amount of $7,150,000 will be outstanding prior to their maturity on October 31, 1951. The balance of the proceeds would be used to meet necessary expenditures to be incurred in connection with the Company's construction program.

Washington states that it proposes to take the first step toward a permanent financing program in the latter part of 1951 or early in 1952, at which time the Company proposes to issue first mortgage bonds to the maximum amount possible and to retire a large part of all of the bank loans of the Company then outstanding. The Company further states that, conditioned upon earnings being sufficient, it proposes thereafter to issue additional first mortgage bonds to the extent possible and the proceeds from such additional bonds would be used toward reducing the Company's bank loans. Washington states that, at the time of its first permanent debt financing, it will pursue a program for the complete refinancing of all of the bank loans and such program will provide for the retirement of the Company's presently outstanding $6 Preferred Stock.

The applicant states that the notes may be prepaid from time to time in whole or in part. No finder's fees or commissions are to be paid by Washington.

JUN 11 '51

The applicant further states that the Washington Public Service Commission and the Public Utilities Commission of the State of Idaho have jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 13, 1951, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application, as filed or as subsequently amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 13, 1951, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

HERMAN AHRENS

In re: Trusts under will of Herman Ahrens, deceased. File No. D-28-12981; E. T. sec. 17117.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Marie Bock, Martin A. Borgfeldt, Anna Borgfeldt Kahrs, Johann H. Borgfeldt, Georg F. Borgfeldt, and Henry R. Muhler, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the issue, names unknown, of Marie Bock, and the issue, names unknown, of Maria Borgfeldt, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of Henry Ahrens, deceased, and in and to the trusts established under the will of Henry Ahrens, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by John Rademacher, as surviving trustee, acting under the judicial supervision of the Surrogate's Court of Bronx County, New York;

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the issue, names unknown, of Marie Bock, and the issue, names unknown, of Maria Borgfeldt, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 18, 1951.

Subchapter E—Account Servicing

PART 372—SECURITY SERVICING AND LIQUIDATIONS; FARM OWNERSHIP LOANS

SUBPART E—MANAGEMENT AND DISPOSITION OF ACQUIRED FARMS

TAXATION ON ACQUIRED FARMS

Section 372.83 (d) in Title 6, Code of Federal Regulations (14 F. R. 5704), is amended to provide for payment, under certain circumstances, of taxes on acquired farms which represent assets of State Rural Rehabilitation Corporations, and as so amended reads as follows:

§ 372.83 *State Office routine subsequent to acquisition of farms.* * * *

(d) *Taxation on acquired farms.* Except as provided in this subpart, the Farmers Home Administration is required, in accordance with section 50 (a) of the Bankhead-Jones Farm Tenant Act, as amended, to pay taxes on farms acquired on behalf of the Government which are determined to be suitable for Title I purposes, and, in accordance with section 50 (b) of the act, to make payments in lieu of taxes on farms acquired on behalf of the Government which are determined to be unsuitable for Title I purposes.

(1) Taxes will be paid on acquired real property which represents an asset of a State Rural Rehabilitation Corporation, provided:

(i) There is in effect an agreement, entered into pursuant to section 2 (f) of the Rural Rehabilitation Corporation Trust Liquidation Act (Public Law 499, 81st Cong.), between the Government and the State Rural Rehabilitation Corporation or the agency or official designated by the State legislature, whereunder the corporation or such agency or official has authorized the Government to pay such taxes, and

(ii) The real estate would be taxable under State laws if it had been transferred to such corporation or agency or official under section 2 (d) of the Rural Rehabilitation Corporation Trust Liquidation Act, with no return transfer to the United States under section 2 (f) of the act.

(2) In the absence of such an agreement under section 2 (f) of the Rural Rehabilitation Corporation Trust Liquidation Act, tax payments will not be made on acquired farms which represent assets of a State Rural Rehabilitation Corporation.

(Sec. 41, 60 Stat. 1066, sec. 4, Pub. Law 499, 81st Cong.; 7 U. S. C. 1015. Interprets or applies sec. 50, 60 Stat. 1070, sec. 2, Pub. Law 499, 81st Cong.; 7 U. S. C. 1024.)

DERIVATION: § 372.83 contained in FHA Instruction 465.5.

Subchapter F—Miscellaneous Regulations

PART 386—DISPOSAL OF RESERVED MINERAL INTERESTS

SUBPART A—SALES

DEPOSITS OF PART OF PURCHASE PRICE NOT REQUIRED

Section 386.4 in Title 6, Code of Federal Regulations (16 F. R. 1929), is amended to delete the requirement for deposits in connection with sales of mineral interests in fair market value areas, by revoking paragraph (b) (7) and renumbering subparagraphs (8) and (9) as (7) and (8) of paragraph (b), and by amending paragraphs (c) and (d) (2) (i) to read as follows:

§ 386.4 *Sales in fair market value areas.* * * *

(c) *Transmitting application and offer dockets to the State Office.* When Form FHA–990 and surface title evidence are delivered to the County Supervisor in proper form, he will:

(1) Prepare a fair market value appraisal report reflecting the appraisal by the County Committee and County Supervisor as required in paragraph (e) (2) of this section.

(2) Transmit to the State Director the original of Form FHA–990, the original appraisal report by the County Committee and County Supervisor, and the required title evidence.

(d) *Processing dockets in State Office and closing sales.* * * *

(2) *Docket showing applicant to be eligible.* * * *

(i) If the offer represents the fair market value, the State Director will accept the application and offer and will execute and forward to the County Supervisor the original of Form FHA–65.... and any abstract of title submitted

by the applicant as evidence of his surface title, together with closing instructions. The County Supervisor will close the sale transaction in the manner required by the closing instructions. The amount of the sale price will be collected at the time of closing the sale, in the form of cash, a cashier's check, certified check, or United States Postal Money Order. The County Supervisor will issue Form FHA-37 to the purchaser.

(60 Stat. 1064, sec. 4, Pub. Law 499, 81st Cong.; sec. 6, Pub. Law 760, 81st Cong.; 7 U. S. C. and Sup. 1015. Interprets or applies secs. 2, 43, 60 Stat. 1062, 1067, sec. 2, Pub. Law 499, 81st Cong.; secs. 1, 2, 3, 5, 7, Pub. Law 760, 81st Cong.; 7 U. S. C. 1001 note, 1017)

DERIVATION: § 386.4 contained in FHA Instruction 481.1.

Date: May 25, 1951.

[1951 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Hay and Pasture Seed]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1951-CROP HAY AND PASTURE SEED LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1951 crop of hay, pasture and range grass seeds named in § 601.1060. The 1951 C. C. C. Grain Price Support Bulletin 1, (16 F. R. 1987) issued by Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1951, is supplemented as follows:

Sec.
601.1051 Purpose.
601.1052 Availability of price support.
601.1053 Eligible seed.
601.1054 Warehouse receipts.
601.1055 Determination of quantity.
601.1056 Determination of quality.
601.1057 Loss or damage to seed under farm-storage loan.
601.1058 Warehouse and other charges.
601.1059 Maturity of loans.
601.1060 Schedule of basic specifications and rates.
601.1061 Delivery of seed to CCC.
601.1062 Settlement.

AUTHORITY: §§ 601.1051 to 601.1062 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1051; 15 U. S. C. Sup. 714, 7 U. S. C. Sup. 1447, 1421.

§ 601.1051 *Purpose.* This supplement, comprised of §§ 601.1051 to 601.1062, states additional specific requirements which, together with those contained in the 1951 C. C. C. Grain Price Support Bulletin 1, 16 F. R. 1987, apply to loans and purchase agreements under the 1951-Crop Hay and Pasture Seed Price Support Program.

§ 601.1052 *Availability of price support.*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and purchase agreements for all seeds listed in § 601.1060.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available to producers wherever any of the seeds listed in § 601.1060 are grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that such seeds cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available to producers from the time of harvest through January 31, 1952, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Where additional time is needed to determine the quality of any eligible variety of seed, the completion of applicable documents and the disbursement

on loans may be delayed until such later date as may be approved by the State PMA committee, but not later than March 15, 1952, in the case of seeds other than range grass seeds, and not later than August 31, 1952, in the case of range grass seeds: *Provided, however,* That such later dates will be approved only for producers who have applied for loans on or before January 31, 1952.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing seed listed in § 601.1060 in 1951 as landowner, landlord, tenant, or sharecropper.

Cooperative marketing associations of producers shall be eligible for loans and purchase agreements: *Provided,* That (1) the producer members are bound by contract to market through the association; (2) the major part of the seed marketed by the association is produced by members who are eligible producers; (3) the members share proportionately in the proceeds from marketings according to the quantity and quality of seed each delivers to the association; (4) the seed purchased from nonmembers is segregated at all times to assure that the seed placed under loan or delivered under a purchase agreement is seed grown by producer members; and, (5) the association has the legal right to pledge or mortgage the seed as security for a loan.

§ 601.1053 *Eligible seed.* At the time the seed is placed under loan or delivered under a purchase agreement, the seed shall meet the following requirements:

(a) The seed must have been produced in the continental United States in 1951 by an eligible producer and be one of the kinds and varieties named in § 601.1060.

(b) Except in the case of cooperative marketing associations of producers, the beneficial interest in the seed must be in the person tendering the seed for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the seed was harvested.

(c) It must on the basis of official purity analysis reports, and germination test certificates, based on representative samples taken not more than five calendar months prior to the first day of the month in which the seed is tendered for loan or purchase, be equal to or better in every respect than the minimum specifications for the particular kind of seed as shown in § 601.1060, unless the warehouseman, in the case of seed being offered for loan or delivery under a purchase agreement, certifies that the seed is of a quality eligible for price support, shows such quality on the warehouse receipt, and guarantees to deliver to CCC seed of a quality equal to, or better, than that shown on the warehouse receipt.

(d) The seed must not contain noxious weed seeds in excess of the number permitted for sale as planting seed by the State seed law, and rules and regulations pursuant thereto, of the State in which the seed is tendered for loan or delivered under a purchase agreement, and must conform with the requirements concerning noxious weed seed in § 601.1060.

§ 601.1054 *Warehouse receipts.* Warehouse receipts representing seed placed under loan or delivered under a purchase agreement must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer or cooperative marketing association of producers, must be properly endorsed in blank so as to vest title in the holder, must be issued by a warehouse approved by CCC under the Seed Storage Agreement, and must show the quantity of eligible seed actually in store in the warehouse.

(b) Where the seed is commingled the warehouseman must guarantee both the quality and the quantity of the seed.

(c) Where the warehouseman guarantees the quality of the seed placed under loan, on either an identity-preserved or commingled basis, each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the kind or variety of the seed, the net weight, and the factors used in determining the quality of the seed.

(d) Where the seed is stored on an identity-preserved basis and the warehouseman does not guarantee the quality, there shall be attached to the warehouse receipt for the lot of seed stored identity-preserved a copy of the official purity analysis report and germination test certificate.

(e) Any warehouse receipt representing seed stored on an identity-preserved basis must set forth in the written or printed terms the kind or variety of seed, the lot identity or number, the number of bags and the total net weight.

(f) Warehouse receipts shall carry an endorsement in substantially the following form:

Warehouse charges through April 30, 1952, (September 30, 1952, in the case of range grass seed) on the seed represented by this warehouse receipt have been paid or otherwise provided for, and lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt.

§ 601.1055 *Determination of quantity.* All determinations of the quantity of seed delivered under loan or purchase agreement in an approved warehouse under this subpart shall be made on the basis of the net weight of eligible seed, as specified on the warehouse receipt. The quantity of seed being placed under a farm-storage loan shall be determined by the county committee. The quantity of seed delivered under a farm-storage loan will be the actual net weight of seed.

§ 601.1056 *Determination of quality.* All determinations of quality made by the county committee will be made on the basis of official purity and germination tests of a representative sample. An official test shall be a test made by a Federal or State Seed Testing Laboratory, or by a commercial seed testing laboratory approved by the State committee. A representative sample for determination of quality shall be a sample taken by a licensed State inspector, or where such services are not provided, the county committee shall arrange for a qualified disinterested person to obtain a representative sample. The sample shall consist of equal portions taken from evenly distributed parts of the lot of seed to be sampled.

§ 601.1057 *Loss or damage to seed under farm-storage loan.* Notwithstanding the provisions of § 601.665 of the 1951 C. C. C. Grain Price Support Bulletin 1, and the provisions of the chattel mortgage and the mortgage supplement, the producer will not be responsible for deterioration occurring without fault or negligence on his part or the part of the person in control of the farm-storage structure.

§ 601.1058 *Warehouse and other charges.* CCC will not pay or assume charges for cleaning, drying, bagging, sampling, testing and analysis reports, tagging, or other handling or processing operations which are necessary to prepare the seed to meet eligibility requirements for price support; nor will CCC pay or assume storage charges which accrue prior to May 1, 1952 (prior to September 30, 1952, in the case of range grass seed), or the date of the warehouse receipt, whichever is later.

§ 601.1059 *Maturity of loans.* Loans mature on demand but not later than April 30, 1952 (September 30, 1952, in the case of range grass seed).

§ 601.1060 *Schedule of basic specifications and rates.* The rates at which purchases will be made from producers and the loan and settlement rates shall be computed in accordance with the specifications and rates shown in the following schedule: *Provided, That,* where seed is delivered to CCC in approved used bags, a bag discount at the rate of 25 cents per 100 pounds capacity shall be applicable.

SUPPLEMENT TO THE SCHEDULE OF BASIC RATES, SPECIFICATIONS AND DISCOUNTS APPLICABLE TO 1951 HAY, PASTURE, AND RANGE GRASS SEED

NOXIOUS WEED-SEED REQUIREMENTS

In addition to the prescribed eligibility requirements, seed must meet the following requirements with respect to noxious weed seed:

a. The seed shall not contain noxious weed seeds in excess of the number permitted for sale as planting seed by the State seed law and rules and regulations pursuant thereto of the State in which the seed is delivered to C. C. C.

b. In addition to a, above, the seed shall not contain any of the following prohibited noxious weed seeds:

Common name	*Botanical name*
Austrian fieldcress	Rorippa austriaca.
Bindweed	Convolvulus Arvensis.
Camelthorn	Alhagi (camelorum) pseudalhagi.
Canada thistle	Cirsium arvense.
Globepodded balleress, whitetop	Cardaria pubescens.
Horsenettle [1]	Solanum carolinense.
Johnson grass	Sorghum halpense.
Leafy spurge	Euphorbia esula.
Nutgrass	Cyperus rotundus.
Perennial sowthistle	Sonchus arvensis.
Purple nightshade [1]	Solanum elaeagnifolium.
Quackgrass	Agropyron repens.
Russian knapweed	Centaurea repens (pierls).
Whitetop	Cardaria (Lepidium) draba.
Wild onion	Allium spp.

c. In addition to a and b above, the seed shall not contain any of the following noxious weed seeds in greater number or collectively, than the proportions shown below, using either the number or weight proportion as is reported on the analysis report:

(1) 1 noxious weed seed to 10,000 agricultural seeds or 50 per pound:

Common name	*Botanical name*
Bermuda grass, devilgrass	Cynodon dactylon.
Bindweed, hedge	Convolvulus septum.
Blue lettuce, chicory lettuce [2]	Lactuca pulchella.
Chufa, nutgrass	Cyperus esculentus.
Dodder	Cuscuta spps.
Iberian star thistle [2]	Centaurea iberica.
Marijuana [2]	Cannabis sativa.
Perennial mustard, whitetop [2]	Lepidium latifolium.
Poison hemlock [2]	Conium maculatum.
Poison milkweed [2]	Asclepias galioides.
Poverly weed [2]	Pranseria discolor.
Puncturevine, caltrop [2]	Tribulus terrestris.
St. Johnswort, Klamath weed [2]	Hypericum perforatum.
Water hemlock [2]	Cicuta maculata.

[1] Horsenettle and purple nightshade, in lespedeza seed, are classed as prohibited noxious weed seeds only when present in excess of 500 seeds per pound.

[2] Not classified as a noxious weed seed in lespedeza seed.

Wild barley, Squirrelgrass [1]	Hordeum murinum.
Wild flax [1]	Camelina sativa.
Wild morning-glory	Ipomoea Spp.
Wild radish [1]	Raphanus raphanistrum.
Wire grass	Paspalum distichum.

(2) 1 noxious weed seed to 5,000 agricultural seeds, or 100 to the pound:

Common name	Botanical name
Barberry [1]	Berberis spps.
Barberry [1]	Mahonia spps.
Black nightshade [1]	Solanum nigrum.
Buffalo-bur [1]	Solanum rostratum.
Butterprint, velvetweed [1]	Abutilon theophrasti.
Corncockle	Agrostemma githago.
Cutleaf nightshade	Solanum triflorum.
Daisy, oxeye, field daisy	Chrythanthemum leucanthemum.
Deathweed, povertyweed [1]	Iva axillaris.
Flowering spurge [1]	Euphorbia corollata.
Hairy gaura [1]	Gaura villosa.
Hairy nightshade [1]	Solanum villosum.
Mustard, charlock, wild mustard	Brassica spps.
Perennial groundcherry [1]	Physalis subglabrata.
Scarlet gaura [1]	Gaura coccinea.
Scented gaura [1]	Gaura odorata.
Shiny spurge [1]	Euphorbia lucida.
Spreading dogbane [1]	Apocynum androsaemifolium.
Texas blueweed	Helianthus ciliaris.
Wavy-leaved gaura [1]	Gaura sinuata.
Yellowcress [1]	Rorippa sylvestria.

(3) 1 noxious weed seed to 2,000 agricultural seeds or 200 per pound:

Common name	Botanical name
Chicory [1]	Chicorium intybus.
Franseria povertyweed [1]	Franseria tenuifolia.
Giant ragweed [1]	Ambrosia trifida.
Halogeton [1]	Halogeton glomeratus.
Hoary alyssum [1]	Berteroa incana.
Malta starthistle [1]	Centaurea melitensis.
Smaller burdock, Clotbur [1]	Arctium minus.
Purple Star thistle, Caltrops [1]	Centaurea calcitrapa.
Wild oat	Avena fatua.
Wild carrot	Daucus carota.
Wintercress, yellow rocket [1]	Barbarea vulgaris.

(4) 1 noxious weed to 1,000 agricultural seeds or 300 per pound:

Common name	Botanical name
Alkali mallow [1]	Sida hederacea.
Australian Burnweed, Fireweed	Erechtites preanthoides.
Austrian peaweed [1]	Swainsona salsula.
Ball mustard [1]	Neslia paniculata.
Bassia [1]	Bassia hyssopifolia.
Bladder campion [1]	Silene cucubalus.
Blueweed, Blue thistle [1]	Echium vulgare.
Catchfly, night-blooming catchfly [1]	Silene noctiflora.
Chess, Cheat	Bromus spp.
Cocklebur [1]	Xanthium spp.
Common ragweed [1]	Ambrosia artemisifolia.
Corn sowthistle [1]	Sonchus arvensis.
Cornflower, Cornflower [1]	Stephanomeria virgata.

[1] Not classified as a noxious weed seed in Regpedeza seed.

(3) Big, little, and sand bluestem; blue, and side-oats grama, and natural component mixtures thereof where provided for; and Buffalo grass:

Type	Net capacity (pounds)
(i) Burlap or jute: 10-ounce or heavier	50 or 30
(ii) Osnaburg which can be probed:	
36 inch 2.35 yard or heavier	50 or 30
40 inch 2.11 yard or heavier	50 or 30

(b) *Tagging.* The seed must be tagged in accordance with the Federal Seed Act for interstate shipments, if ordered loaded out for interstate shipment by CCC.

§ 601.1062 *Settlement.* Where seed is delivered to CCC in accordance with § 601.668 of the 1951 C. C. C. Grain Price Support Bulletin 1, the following additional provisions shall be applicable:

(a) *Farm-storage loans.* Settlement under a farm-storage loan shall be made with the producer at the applicable support price on the basis of the quality of the seed delivered, and on the basis of the quality of the seed when placed under loan, except that if damage or deterioration has resulted from negligence on the part of the producer or other person having control of the storage structure, settlement shall be made on the basis of the quality and quantity of the seed delivered. (See par. (d) of this section.)

(b) *Warehouse-storage loans* — (1) *Quality not guaranteed.* If the seed is stored on an identity-preserved basis and the quality is not guaranteed by the warehouseman, settlement shall be made with the producer at the applicable support price on the basis of the quantity of seed shown on the warehouse receipt and on the basis of the quality of the seed when placed under loan, except as provided in paragraph (d) of this section.

(2) *Quality guaranteed.* If the seed is stored on a commingled or identity-preserved basis and the warehouseman guarantees the quantity and quality, settlement shall be made with the producer on the basis of the quantity and quality of the seed shown on the warehouse receipt.

(c) *Purchase agreements.* If the producer has notified the county committee of his intention to sell seed under a purchase agreement in accordance with the provisions of § 601.668 of the 1951 C. C. C. Grain Price Support Bulletin 1, the seed will be purchased upon delivery at the applicable support price.

(1) *Quality not guaranteed.* If the identity of the seed is preserved and the quality is not guaranteed by an approved warehouse, settlement will be made on the basis of the quantity of seed actually delivered and the quality shown by official purity analysis reports and germination test certificates based on representative samples taken not more than five calendar months prior to the first day of the month in which the seed is delivered to CCC, except as provided in paragraph (d) of this section.

(2) *Quality guaranteed.* If the seed is stored on a commingled or identity-preserved basis in an approved warehouse and the warehouseman guarantees the quality and quantity of the seed, settlement will be made with the producer on the basis of the quality and quantity of the seed shown on the warehouse receipt.

(d) *Quality determination at time of delivery.* Where the quality of the seed delivered under a loan or purchase agreement is not guaranteed by an approved warehouseman, and the county committee has reason to believe that the lot of seed has been disturbed or damaged so that the purity analysis reports and/or germination test certicates are no longer representative of the quality of the seed, then the quality shall be determined by official purity analysis and germination tests made at the time of delivery. Settlement will be made on the basis of such tests made at the time of delivery, except where CCC assumes loss resulting from damage or deterioration to seed under loan. (See § 601.665 of the 1951 C. C. C. Grain Price Support Bulletin 1 and § 601.1057 of this Supplement 1.)

(e) *Refund of paid-in freight.* Where seed delivered to CCC has been shipped by the producer, or for him, "in line", as determined by CCC, from point of origin to an approved warehouse for storage where transit privileges are in effect, freight (including transportation tax) at a rate not exceeding the lowest published rate, or the lowest transcontinental rate, where applicable, paid on the inbound rail movement, will be refunded to the producer: *Provided,* That (1) the shipment has been properly registered for transit; (2) the paid railway freight bill or a validated copy thereof, representing the identical seed, is endorsed to CCC in accordance with the covering tariffs at the transit point, and turned over to CCC; (3) a freight certificate signed by the warehouseman is turned over to CCC; and (4) the refunded freight is limited to the quantity of seed shown on the warehouse receipt. The freight certificate shall show the original shipping point, date and number of waybill, car initials and number, date and number of freight bill, name of the carrier, transit weight, and rate paid in, the total amount of freight paid, and such other information as CCC may require. Refunds for paid-in freight under this paragraph will be made by the appropriate PMA commodity office subsequent to actual delivery of the seed to CCC pursuant to a loan or purchase agreement.

Issued this 5th day of June 1951.

Acting Vice President,
Commodity Credit Corporation.

Approved: June 5, 1951.

PART 664—TOBACCO

SUBPART—1951 TOBACCO LOAN PROGRAM

Statement with respect to the tobacco loan program for the 1951-52 marketing year—1951 crop—formulated by the Commodity Credit Corporation and Production and Marketing Administration (hereinafter referred to as "CCC" and "PMA").

Sec.
664.301 Administration.
664.302 Level of loans.
664.303 Availability of price support.
664.304 Deduction from loans.
664.305 Interest rates, recourse and distribution of net gains.
664.306 Maturity date.
664.307 Eligible producer.
664.308 Eligible tobacco.

AUTHORITY: §§ 664.301 to 664.308 issued under 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 101, 63 Stat. 1051; 7 U. S. C. Sup., 1441.

§ 664.301 *Administration.* This program will be administered by the Tobacco Branch, Production and Marketing Administration, under the general direction and supervision of the President, Commodity Credit Corporation. The program will be carried out in the field by producer cooperative associations or other responsible organizations (hereinafter referred to as "cooperatives") under contract with CCC, acting for groups of producers. The names of such cooperatives may be obtained from the Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

CCC will make loans to cooperatives which in turn will make advances to eligible producers either directly or through auction warehouses. Loans made to cooperatives will include not only the initial loan value of the tobacco, but also advances for services performed in receiving, packing, storing, and marketing of tobacco pledged for loan. Cooperatives will be authorized to enter into contracts for these services through the usual trade channels.

§ 664.302 *Level of loans.* As required by statute, the level of price support to eligible producers shall be 90 percent of parity on those types of tobacco for which marketing quotas are in effect, except that fire-cured and dark air-cured (including Virginia sun-cured) tobacco shall be supported at 75 percent and 66⅔ percent, respectively, of the level for Burley tobacco. The loan level for Puerto Rican tobacco is established at 90 percent of parity based on the sliding scale formula contained in the Agricultural Act of 1949. There is shown below the percentage of parity and the cents per pound loan levels for each type or kind of tobacco based on the parity index as of March 15, 1951, which were announced on April 13, 1951, as the minimum loan levels for the 1951 crop. The cents per pound loan levels will be computed as of the beginning of the marketing year, which is July 1, 1951, for flue-cured and October 1, 1951, for the other kinds of tobacco. Price support will be made available to eligible producers on the 1951 crop of each type or kind of tobacco at the higher of (a) the cents per pound level shown below, or (b) the level computed as of the beginning fo the marketing year. Schedules of loan rates by grades for each type or kind of tobacco will be announced as supplements to this statement after parity as of the beginning of the marketing year is known.

Loans will not be available on those types of tobacco for which quotas have been disapproved by producers; namely, Maryland, type 32, and Pennsylvania Seedleaf, type 41.

	1951 percent of parity level	1951 minimum loan level
Flue-cured, types 11-14	90	59.1
Burley, type 31	90	49.1
Fire-cured, types 21-23	75 percent of burley rate.	37.0
Dark air-cured, types 35-36	66⅔ percent of burley rate.	32.9
Virginia sun-cured, type 37	66⅔ percent of burley rate.	32.9
Miami Valley (Ohio) filler, types 42-44	90	26.1
Puerto Rican, type 46	90	(
Connecticut Valley broadleaf binder, type 51	90	54.9
Connecticut Valley Hav. seed binder, type 52	90	53.9
New York and Pennsylvania Hav. seed binder, type 53	90	27.8
Southern Wisconsin binder, type 54	90	27.0
Northern Wisconsin binder, type 55	90	33.3

[1] The cents per pound loan level for the 1951 crop of Puerto Rican tobacco will be announced based on the parity index as of Oct. 1, 1951. Since October 1 is prior to the normal planting time and is also the beginning of the marketing year, the actual loan level announced would also serve as the minimum loan level announcement.

§ 664.303 *Availability of price support.* Loans to eligible producers for tobacco pledged for loans will be made in the following manner:

(a) *Auction market area.* The producer will deliver the tobacco to an auction warehouse in the usual manner. The producer generally will receive the advances from the warehouseman for any tobacco placed under loan at the time the warehouseman settles with the producer for the entire quantity of the producer's tobacco that has been displayed for inspection and offered for sale on any one day's auction market. The warehouseman, in turn, will be reimbursed by the cooperative with funds borrowed from CCC.

(b) *Non-auction market area.* Producers in non-auction market areas will deliver tobacco to central receiving points designated by the appropriate cooperative. The producer will receive the advance directly from the cooperative for any tobacco pledged for loans after the tobacco has been graded by U. S. D. A. inspectors.

(c) *Period of loans.* No advances will be made to producers on tobacco tendered for loan prior to or after the dates set forth below:

	Earliest date	Latest date
Flue-cured	July 1, 1951	Feb. 28, 1952
Burley	Nov. 1, 1951	Apr. 30, 1952
Fire-cured	do	Do.
Dark air-cured	do	Do.
Virginia sun-cured	do	Do.
Cigar filler and binder (except Puerto Rican)	Sept. 1, 1951	July 31, 1952
Puerto Rican	Feb. 1, 1952	Sept. 30, 1952

§ 664.304 *Deduction from loans.* The cooperatives will be required to bear a portion of the overhead costs in connection with the loan operation. In the auction marketing areas, the fee is 12 cents per hundred pounds. For this purpose, the cooperatives will be authorized to charge the producer an equivalent amount. Such charges may be collected by a deduction from the advance made to the producer on his tobacco or by arrangements with the auction warehouseman under which they will collect such charges and remit to the cooperative. In the non-auction market areas, the fee will be established at a rate commensurate with the relative cost of the service performed by the cooperative.

§ 664.305 *Interest rates, recourse, and distribution of net gains.* The loans made to the cooperatives will bear interest at the rate of 3 percent per annum and be non-recourse both as to principal and interest except in the case of misrepresentation, fraud, or failure to carry out the terms of the contract. As tobacco loses its identity as to original ownership through commingling in the packing process, producers will not be able to redeem their tobacco once it has been pledged for loan. After all of the tobacco of one crop pledged for loan by any cooperative is marketed, any net gains will be distributed by the cooperative to the producers who placed the tobacco under loan, or will be disposed of in such other manner as may be authorized by the cooperative's contract with its members, if such disposition is approved by CCC.

§ 664.306 *Maturity date.* Loans made under the program will mature on demand but not later than June 30, 1954, unless extended by CCC.

§ 664.307 *Eligible producer.* An eligible producer is one who has an interest in the tobacco produced on a farm for which the harvested acreage, as determined by the county committee and entered on the marketing card at the time of issuance of the marketing card for the farm, is not in excess of the acreage allotment for the farm.

As Puerto Rican tobacco is not under U. S. marketing quotas, all producers of this type of tobacco are considered eligible producers for the purpose of this program.

§ 664.308 *Eligible tobacco.* Eligible tobacco shall be U. S. and Puerto Rican tobacco (as defined in the Agricultural Adjustment Act of 1938, as amended) of the 1951 crop which (a) has been properly identified in accordance with applicable tobacco Marketing Quota Regulations on a valid memorandum of sale issued from a "Within Quota" Marketing Card, where quotas are in effect; (b) has been delivered to the cooperative by the original producer prior to sale to any other person; (c) is in sound and merchantable condition; (d) is of a type for which a loan level is provided in § 664.302; and (e) is free and clear of any and all liens and encumbrances.

Issued this 5th day of June 1951.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 39—UNITED STATES STANDARDS FOR GRADES OF NONFAT DRY MILK SOLIDS[1]

On March 14, 1951, notice was published in the FEDERAL REGISTER (F. R. Doc. 51-3288; 16 F. R. 2398) regarding the issuance of United States Standards for Grades of Nonfat Dry Milk Solids, pursuant to the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950). After consideration of all relevant matters presented, including the proposals in the aforesaid notice, the standards hereinafter set forth with respect to nonfat dry milk solids are hereby promulgated under the aforesaid authority.

The promulgation of these standards will provide the Department with standards relative to "nonfat dry milk solids"—heretofore referred to as "dried skim milk"—for use in connection with its grading and inspection services and purchases of nonfat dry milk solids, and make available to the dairy industry official standards for its use. Such standards supersede that part of the Tentative United States Standards for Grades of Dried Skim Milk and Dried Whole Milk, approved May 14, 1943, that prescribed the standards for "dried skim milk."

The standards are as follows:

DEFINITION

Sec.
39.1 Nonfat dry milk solids.

U. S. GRADES

39.2 Nomenclature of U. S. grades.
39.3 Basis for determination of U. S. grades.
39.4 U. S. grades.

TEST METHODS

39.5 Test methods.

AUTHORITY: §§ 39.1 to 39.5 issued pursuant to Pub. Law 759, 81st Cong.

DEFINITION

§ 39.1 *Nonfat dry milk solids.* "Nonfat dry milk solids" or "defatted milk solids" (made by the spray process or the atmospheric roller process) is the product resulting from the removal of fat and water from milk, and contains the lactose, milk proteins, and milk minerals in the same relative proportions as in the fresh milk from which made. It contains not over 5 percent by weight of moisture. The fat content is not over 1½ percent by weight.

(a) The term "milk", when used in this part, means milk produced by healthy cows that has been pasteurized before or during the manufacture of the nonfat dry milk solids.

U. S. GRADES

§ 39.2 *Nomenclature of U. S. grades*—(a) *Nomenclature.* The nomenclature of U. S. grades is U. S. Extra and U. S. Standard.

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 39.3 *Basis for determination of U. S. grades.* The U. S. grades of nonfat dry milk solids are determined hereunder on the basis of flavor and odor, physical appearance, bacterial estimate, butterfat content, moisture content, scorched particle content, solubility index, and titratable acidity.

§ 39.4 *U. S. grades*—(a) *U. S. Extra.* The requirements of the U. S. Extra grade differ for nonfat dry milk solids made by the spray process from that made by the atmospheric roller process.

(1) *U. S. Extra; spray process.* Nonfat dry milk solids manufactured by the spray process conform to the following requirements:

(i) Flavor and odor (applies equally to the reliquefied form): Sweet, and has not more than slight cooked flavors and odors.

(ii) Physical appearance: Is white or light cream color; free from lumps that do not break up under slight pressure; and practically free from brown and black scorched particles.

(iii) Bacterial estimate: Not more than 50,000 per gram.

(iv) Butterfat content: Not more than 1.25 percent.

(v) Moisture content: Not more than 4.00 percent.

(vi) Scorched particle content: Not more than 15.00 mg.

(vii) Solubility index: Not more than 1.25 ml.

(viii) Titratable acidity: Not more than 0.15 percent.

(2) *U. S. Extra; roller process.* Nonfat dry milk solids manufactured by the roller process conform to the requirements in subparagraph (1) of this paragraph, except that the solubility index is not more than 15.0 ml., and the scorched particle content is not more than 22.5 mg.

(b) *U. S. Standard.* The requirements of the U. S. Standard grade differ for nonfat dry milk solids manufactured by the spray process from that manufactured by the atmospheric roller process.

(1) *U. S. Standard; spray process.* Nonfat dry milk solids manufactured by the spray process conform to the following requirements:

(i) Flavor and odor (applies equally to the reliquefied form): Has not more than slight scorched and other slight unnatural flavors and odors (including, but not being limited to storage flavors and odors) and has no offensive flavors and odors.

(ii) Physical appearance: Is white or light cream color; free from lumps that do not break up under moderate pressure; and contains brown and black scorched particles to not more than a moderate degree.

(iii) Bacterial estimate: Not more than 100,000 per gram.

(iv) Butterfat content: not more than 1.5 percent.

(v) Moisture content: Not more than 5.00 percent.

(vi) Scorched particle content: Not more than 22.5 mg.

(vii) Solubility index: Not more than 2.00 ml.

(viii) Titratable acidity: Not more than 0.17 percent.

(2) *U. S. Standard; roller process.* Nonfat dry milk solids manufactured by the roller process conform to the requirements prescribed in subparagraph (1) of this paragraph, except that the solubility index is not more than 15.0 ml., and the scorched particle content is not more than 32.5 mg.

§ 39.5 *Test methods.* (a) The test methods contained in Methods of Laboratory Analyses for Dry Whole Milk and Nonfat Dry Milk Solids, Production and Marketing Administration, United States Department of Agriculture, May 1951 (Mimeo.), are used to determine bacterial estimate, butterfat content, moisture content, solubility index, and titratable acidity.

(b) The test method used to determine scorched particle content is as follows:

(1) *Spray process nonfat dry milk solids.* (i) Reliquefy 25 grams of spray process nonfat dry milk solids in approximately 250 ml. of warm sediment-free water. Mix thoroughly until the product is uniformly dispersed. Filter the entire solution through a standard 1¼" lintine disc (1⅛" filtering surface). Rinse the mixing container with sediment-free water and pass the rinse through the disc.

(ii) The scorched particle content of the nonfat dry milk solids is determined by visually comparing the discs obtained in subdivision (i) of this subparagraph with the United States Scorched Particle Standards for Dry Milks (16 F. R. 923).

(2) *Roller process nonfat dry milk solids.* (i) Place 200 ml. of a hot (80°–90° C.) 10 percent sodium citrate solution in the mixing jar of a high speed mixer (such as, a Waring Blender). Turn on the mixer and add 25 grams of roller process nonfat dry milk solids. Add approximately 0.5 ml. of diglycol laurate (defoaming agent). Mix for 30 seconds and filter (aspirator or pressure type filtering apparatus necessary) immediately through a 1½" lintine disc (1⅛" filtering surface). Rinse mixing container with hot water, and pass all rinsings through the filter disc.

(ii) The scorched particle content of the nonfat dry milk solids is determined by visually comparing the discs obtained in subdivision (i) of this subparagraph with the United States Scorched Particle Standards for Dry Milks (16 F. R. 923).

Done at Washington, D. C., this 5th day of June 1951, to become effective 30 days after publication in the FEDERAL REGISTER. These U. S. Standards shall, upon becoming effective, supersede that part of the Tentative United States Standards for Grades of Dried Skim Milk and Dried Whole Milk, approved May 14, 1943, that prescribed the standards for "dried skim milk."

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART B—UNITED STATES STANDARDS FOR GRADES OF PROCESSED FRUITS, VEGETABLES, AND OTHER PRODUCTS[1]

UNITED STATES STANDARDS FOR GRADES OF CANNED SWEETPOTATOES

On February 10, 1951, a notice of proposed rule making was published in the FEDERAL REGISTER (16 F. R. 1285) regarding a proposed revision of the United States Standards for Grades of Canned Sweetpotatoes (7 CFR 52.662). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following revised United States Standards for Grades of Canned Sweetpotatoes are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950):

§ 52.662 *Canned sweetpotatoes.* Canned sweetpotatoes means canned sweetpotatoes as defined in the definitions and standards of identity for canned vegetables (21 CFR, 52.990), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(a) *Colors of canned sweetpotatoes.* (1) Yellow.

(2) Golden.

(b) *Styles of canned sweetpotatoes.* (1) "Whole" or "whole sweetpotatoes" means canned sweetpotatoes that retain the approximate original conformation of the prepared sweetpotatoes.

(2) "Pieces" or "pieces of sweetpotatoes" means canned sweetpotatoes that consist of cut units (including, but not being limited to, sweetpotatoes that are halved longitudinally) or broken units.

(3) "Mashed" or "mashed sweetpotatoes" means canned sweetpotatoes that are wholly comminuted or crushed.

(4) Any combination of two or more of the following styles constitutes a style: Whole, pieces, or mashed.

(c) *Types of packs of canned sweetpotatoes.* In addition to styles, canned sweetpotatoes are usually processed as any one of the following types of packs:

(1) In a liquid packing medium.

(2) "Vacuum-pack (without packing media)."

(3) "Solid-pack" (or "dry-pack").

(d) *Grades of canned sweetpotatoes.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of canned sweetpotatoes that possess a good color; that are practically uniform in shape and size or possess good consistency, as applicable; that are practically free from defects; that possess a good character; that possess a normal flavor and odor; and that score not less than 85 points when scored in accordance with the scoring system outlined in this section.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(2) "U. S. Grade C" or "U. S. Standard" is the quality of canned sweetpotatoes that possess a fairly good color; that are fairly free from defects; that possess a fairly good character; that possess a normal flavor and odor; and that are of such quality with respect to shape and size or consistency as to score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "U. S. Grade D" or "Substandard" is the quality of canned sweetpotatoes that fail to meet the requirements of "U. S. Grade C" or "U. S. Standard."

(e) *Recommended designations of liquid media and Brix measurements.* "Cut-out" requirements for liquid media are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. It is recommended that sweetpotatoes packed in sirup have the following indicated "cut-out" Brix measurement for the respective sirup designation, as applicable, and which designations are included in, but are not limited to, the following for canned sweetpotatoes in a liquid packing medium:

Designation	*Brix measurement*
Extra heavy sirup	30° or more.
Heavy sirup	25° or more, but less than 30°.
Light sirup	18° or more, but less than 25°.
In water	packed in water.

(f) *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled as full as practicable with sweetpotatoes and that the product and packing medium, if any, occupy not less than 90 percent of the volume of the container.

(g) *Recommended minimum drained weight.* (1) The minimum drained weight recommendations in Table I of this section are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(2) The drained weight recommendations in Table I of this section are not applicable to canned sweetpotatoes packed as "vacuum-pack (without packing media)" or as "solid-pack" (or "dry-pack").

(3) The drained weight of canned sweetpotatoes is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch±3% square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and the sweetpotatoes less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

TABLE I—RECOMMENDED MINIMUM DRAINED WEIGHTS OF SWEETPOTATOES IN A LIQUID PACKING MEDIUM

Container size or designation:	*Drained weight ounces*
No. 2	14
No. 2½	19
No. 3 vacuum or squat (404 x 307)	15
No. 10	72

(h) *Ascertaining the grade.* (1) The grade of canned sweetpotatoes may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, shape and size or consistency, absence of defects, and character.

(2) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	*Points*
(i) Color	20
(ii) Shape and size or consistency	20
(iii) Absence of defects	40
(iv) Character	20
Total score	100

(3) "Normal flavor and odor" means that the product is free from objectionable odors and objectionable flavors of any kind.

(i) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Color.* (i) Canned sweetpotatoes that possess a good color may be given a score of 17 to 20 points. "Good color" means a reasonably bright characteristic color (either yellow or golden) and that there may be reasonable variations of such characteristic color in the units, in each unit, or in the mass.

(ii) If the canned sweetpotatoes possess a fairly good color, a score of 14 to 16 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the color may be variable in the units, in each unit, or in the mass and that the color may be slightly dull but is not off-color.

(iii) Canned sweetpotatoes that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Shape and size or consistency.* (i) Whole and pieces (whether packed singly or in combination) packed in a liquid packing medium or as "vacuum-pack (without packing media)" that are practically uniform in shape and size may be given a score of 17 to 20 points; and canned sweetpotatoes packed as "solid-pack" (or "dry-pack") that possess a good consistency may be given a score of 17 to 20 points. "Practically uniform in shape and size" and "good consistency" have the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

(*a*) *Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)."* "Practically uniform in shape and size" means that the units of a single style may vary moderately in shape and that the weight of the largest unit, irrespective of style, is not more than three times the weight of the second smallest unit, irrespective of style.

(*b*) *Whole, pieces, and mashed (whether packed singly or in combination) packed as "solid-pack" (or "dry-pack").* "Good consistency" means that the sweetpotatoes possess a stiff consistency which may show a slight separation of free liquid.

(ii) If whole and pieces (whether packed singly or in combination) packed in a liquid packing medium or as "vacuum-pack (without packing media)" are fairly uniform in shape and size, a score of 14 to 16 points may be given; or if the canned sweetpotatoes packed as "solid-pack", or "dry-pack") possess a fairly good consistency, a score of 14 to 16 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in shape and size" and "fairly good consistency" have the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

(*a*) *Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)."* "Fairly uniform in shape and size" means that the units of a single style may vary considerably in shape and that the weight of the largest unit, irrespective of style, is not more than four times the weight of the second smallest unit, irrespective of style.

(*b*) *Whole, pieces, and mashed (whether packed singly or in combination) packed as "solid-pack" (or "dry-pack").* "Fairly good consistency" means that the sweetpotatoes possess a thick consistency but may not be free flowing.

(iii) Canned sweetpotatoes that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or from other defects.

(i) Canned sweetpotatoes that are practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that the product contains not more than a slight amount of particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or other defects which do not affect materially the appearance or the edibility of the product.

(ii) If the canned sweetpotatoes are fairly free from defects, a score of 28 to 33 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the particles of peel, secondary rootlets, untrimmed fibrous ends, discolored areas, or other defects may be definitely noticeable but are not so prominent as to affect seriously the appearance or the edibility of the product.

(iii) Canned sweetpotatoes that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Character.* The factor of character refers to the texture and condition of the flesh, the degree of freedom from tough or coarse fibers, the tenderness of the canned sweetpotatoes, and the tendency of sweetpotatoes packed in a liquid packing medium or as "vacuum-pack (without packing media)" to retain their apparent original conformation and size without disintegration.

(i) Canned sweetpotatoes that possess a good character may be given a score of 17 to 20 points. "Good character" has the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

(*a*) *Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)."* "Good character" means that the units possess a uniformly smooth texture, are practically free from tough or coarse fibers, and may be soft to firm but hold their apparent original conformation and size without material distintegration.

(*b*) *Whole, pieces, and mashed packed as "solid-pack" (or "dry-pack").* "Good character" means that any units present possess a uniformly smooth texture, are practically free from tough or coarse fibers, and may be soft to firm and that any mashed sweetpotatoes present possess a uniformly smooth texture, practically free from tough or coarse fibers.

(*c*) *Mashed.* "Good character" means that the mass possesses a uniformly smooth texture and is free from tough or coarse fibers.

(ii) If the canned sweetpotatoes possess a fairly good character, a score of 14 to 16 points may be given. Canned sweetpotatoes that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" has the following meanings with respect to the following styles and types of packs of canned sweetpotatoes:

(*a*) *Whole and pieces (whether packed singly or in combination) in a liquid packing medium or "vacuum-pack (without packing media)."* "Fairly good character" means that the units possess a fairly uniform texture, may possess a few tough or coarse fibers, may be variable in tenderness but are not tough, may be very soft to very firm, and may possess slight or partial disintegration of the units.

(*b*) *Whole, pieces, and mashed packed as "solid-pack" (or "dry-pack").* "Fairly good character" means that any units present possess a fairly uniform texture, may possess a few tough or coarse fibers, may be variable in tenderness but are not tough, and may be very soft to very firm and that any mashed sweetpotatoes present possess a fairly uniform texture, may be coarse but are practically free from lumps, and may possess a few tough or coarse fibers.

(*c*) *Mashed.* "Fairly good character" means that the mass possesses a fairly uniform texture, may be coarse but is free from lumps, and that not more than a few tough or coarse fibers may be present.

(iii) Canned sweetpotatoes that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(j) *Tolerances for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of canned sweetpotatoes, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(i) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; UNITED STATES SPECIFICATIONS FOR CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

SUBPART C—FORMS AND INSTRUCTIONS

Notice is hereby given of the authorized forms, designs and wording which are approved to be used as official identification with respect to graded products and inspected and certified products, pursuant to § 70.11 *Identifying and marking products* of the rules governing the grading and inspection of poultry and edible products thereof (7 CFR Part 70; 16 F. R. 5210) which were issued pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

In order that interested persons may know in advance the authorized forms, designs, and wording of the official identification which will be approved for use in connection with graded products and inspected and certified products, it has been deemed advisable to set forth herein the examples of the various grade marks and inspection marks which are satisfactory to the Administration. The forms and designs of the official identification presented herein are the same as those which were in effect prior to the effective date hereof, except for a modification in § 70.201 (a) hereof, which permits the use of the grade mark for ready-to-cook poultry only in instances when such product is marked to indicate that it has been inspected either by Federal or other acceptable authority.

The Administration finds that it is impractical, unnecessary, and contrary to the public interest to give a 30 days' notice of the effective date of these regulations for the reason that (1) its provisions are substantially the same as those currently in effect; (2) the poultry regulations authorizing the promulgation by the Administrator of the official identification for graded and inspected and certified products, become effective July 1, 1951, and it is imperative that the authorized forms, designs and wording

of the official identification be made effectively usable in conjunction therewith; (3) compliance with the provisions of this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereinafter specified; and, (4) reasonable time is permitted under the circumstances for the preparation for such effective date; and therefore, the form, design, and wording of official identification hereinafter set forth are to become effective July 1, 1951, after publication in the FEDERAL REGISTER.

§ 70.201 *Forms of official identification.* Subject to the requirements in § 70.11 *Identifying and marking products* of the rules governing the grading and inspection of poultry and edible products thereof:

(a) *Form of grade marks.* The grade marks approved for use pursuant to § 70.11 (b) of the regulations on a graded product shall be contained within a shield of the form and design indicated in the examples in Figure 1 hereof. The information (including the form and arrangement of its wording) which is required in such marks shall be: (1) The class of the product or whether the product is "young" or "mature" (or "old"), (2) whether dressed or ready-to-cook, (3) its U. S. grade, and

(4) one of the following phrases: "Federal-State graded," "Government graded," or a phrase of similar import. In addition, the plant number of the official plant shall be set forth if it does not appear on the packaging material. Such other material as the Administrator may approve may also be included within such shields. However, the grade mark for read-to-cook poultry may be used only when the product is identified as having been inspected by Federal inspectors or by inspectors of any other inspection system acceptable to the Administration.

(b) *Form of inspection mark.* The inspection mark approved for use on inspected and certified edible products shall be contained within a circle and contain the following wording: "Inspected for Wholesomeness by U. S. Department of Agriculture." The form and arrangement of such wording shall be as indicated in the example in Figure 2 hereof. In addition, the plant number of the official plant shall be set forth if it does not appear on the packaging material.

(c) *Combined form of grade mark and inspection mark.* With respect to any product which was inspected and graded, a combined form of grade mark and inspection mark is approved for use pursuant to § 70.11 (b) and (c) of the regulations. Such combination form shall contain applicable wording and be of the form and design as indicated in the example in Figure 3 hereof. In addition, the plant number of the official plant shall be set forth if it does not appear on the packaging material. Such other material as the Administrator may approve may be included as a part of the combined form of grade mark and inspection mark. Separate forms of the grade mark and the inspection mark may be used in lieu of the combined form of grade mark and inspection mark.

(d) *Identification of certain dressed poultry.* With respect to dressed poultry which has been graded or inspected for condition only, the form of identification approved for use shall contain the wording "Dressed Poultry Processed Under USDA Sanitary Standards. Not USDA Graded for Quality or USDA Inspected for Wholesomeness" and set forth the applicable plant number. All labels using such identification shall be numbered serially or with a lot number indicating the day of the year the poultry was packed. The required wording, the plant number, and the serial or lot number shall be set forth in the manner indicated in the example in Figure 4 hereof and within the outline of a rectangle of the form and design illustrated.

Amendment 13, May 28, 1951, 16 F. R. 5051.

Amendment 14, May 31, 1951, 16 F. R. 5119.

SECTION 1. *What this regulation does.* The purpose of this regulation is to establish ceiling prices for all commodities and services (except those specifically exempt) upon the basis of prices in effect during the period from December 19, 1950 to January 25, 1951, inclusive. This period is referred to as the "base period." With respect to those food, agricultural and related commodities exempt under the provisions of section 14 (s), however, the applicable "base period" used after removal of the exemption to establish the ceiling price under section 3 of this regulation shall be the most recent five-week period preceding the date the Director of Price Stabilization deletes the commodity from the list of agricultural commodities in Section 11 (a).

[Section 1 amended by Amdts. 7 and 13]

SEC. 2. *Applicability, effective date and prohibitions.* — (a) *Applicability.* The provisions of this regulation are applicable to the United States, its Territories and possessions and the District of Columbia.

(b) *Effective date.* This regulation is effective immediately.

(c) *Prohibitions.* After the date of this order, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any commodity or service at a price exceeding the ceiling price established by this regulation.

SEC. 3. *General ceiling prices.*—(a) *Ceiling prices for all sellers for commodities or services sold in base period.* Your ceiling price for sale of a commodity or service is the highest price at which you delivered it during the base period to a purchaser of the same class. If you did not deliver the commodity or service during the base period, your ceiling price is the highest price at which you offered it for base period delivery to a purchaser of the same class. The offer must have been made in writing and communicated to a substantial number of customers, but in the case of a retailer may have been made by display. If you are a manufacturer or a wholesaler, you cannot, unless permitted by paragraph (b) (1) of this section use a price as your ceiling price to a class of purchaser unless you made at least 10 percent by dollar volume of your total deliveries of the commodity during the base period to that class of purchasers at that price or at a higher price.

(b) *General increase by manufacturers and wholesalers.* If you are a manufacturer or wholesaler of a commodity, you may apply the following provisions in determining your ceiling prices.

(1) *General increases to all of a class of purchasers.* If, before or during the base period, you announced in writing and put into effect a price increase for a class of purchasers by making some deliveries to that class at the higher price and no deliveries at a lower price (except pursuant to written firm commitments made before the price increase), the increased price becomes your ceiling price for that class of purchaser, even though less than 10 percent of your base period deliveries to that class were made at the higher price.

(2) *General increases to several classes of purchasers.* If, before or during the base period, you announced in writing, and communicated to the trade or a substantial number of customers in your customary way, a general increase of prices for base period delivery to more than one class of purchasers and if you made deliveries which, under the preceding paragraphs of this section, established the increased price or prices as the ceilings to all purchasers of one or more classes and if you made no deliveries to the other classes (except pursuant to written firm commitments made before the price increase), then the announced increased prices are your ceiling prices for all classes of purchasers for whom increases were announced.

(3) *General increases on several items.* If before or during the base period you announced in writing a price increase on a list of commodities, and if you made deliveries which, under the preceding paragraphs of this section, established the increased price or prices as the ceilings to all classes of purchasers of one or more of the commodities covered by the price list, and if those commodities accounted during the year 1950 for at least 30 percent of your dollar sales of the commodities covered by the price list, then the price list prices are your ceiling prices for all the items on the list.

[Section 3 amended by Amdts. 2 and 5.]

NOTE: Ceiling prices revised by Amdts. 2 or 5 became effective March 7, 1951.

SEC. 4. *Manufacturers' ceiling prices for new commodities falling within categories dealt in during the base period.* (a) If you are a manufacturer of a commodity which you did not deliver or offer for delivery during the base period but which falls within a "category" in which you dealt during the base period, determine your ceiling price by applying to your current unit direct cost the percentage markup you are currently receiving on a "comparison commodity."

Your current unit direct cost for the commodity being priced and for the comparison commodity shall consist of the total unit direct labor and direct material cost for each. The comparison commodity must be in the same category as the commodity being priced; must be a commodity for which your ceiling price was determined under section 3; and must be of the commodities in that category with lower current unit direct costs, the one most nearly like the commodity being priced. If there is no commodity in the category having a lower current unit direct cost, your comparison commodity is the one with the same or higher current unit direct cost which is most nearly like the commodity being priced. If you are no longer manufacturing any commodities which meet the above standards for a comparison commodity, the commodity which you dealt in during the base period, in the same category, which is most nearly like the commodity being priced, is your comparison commodity, but the current unit direct cost of the base period commodity must be computed by using current material prices and wage rates.

(b) To determine your ceiling price you ascertain the percentage markup for the comparison commodity by comparing its current unit direct cost with its ceiling price. You determine your ceiling price on the new commodity by applying this markup to your current unit direct cost for the new commodity. The ceiling price so determined remains your ceiling price on all subsequent sales.

(c) Category means a group of commodities which are normally classed together in your industry for purposes of production, accounting, or sales. You are required by section 16 of this regulation to prepare a list of your categories

and in applying the pricing provisions of this section, you should refer to this list. You might, for example, have a category such as one of the following: glass containers; fractional horsepower motors; brass mill products; millwork; print cloth yarn fabrics; screw machine products; ball bearings; textile machinery; women's and misses' blouses; house and barn paints; motor oils.

SEC. 5. *Wholesalers' and retailers' ceiling prices for new commodities falling within categories dealt in during base period.* (a) If you are a wholesaler or retailer and wish to determine a ceiling price for a commodity which you did not deliver or offer for delivery during the base period, but which falls within a "category" in which you dealt during the base period, you determine your ceiling price by applying to your net invoice cost the percentage markup you are currently receiving on a "comparison commodity."

The comparison commodity must be in the same category as the commodity being priced; must be a commodity for which your ceilng price was determined under section 3; and must be, of the commodities in that category with lower costs, the one most nearly like the commodity being priced. (If you have no commodity in the category with a cost below that of the commodity being priced, your comparison commodity is the one with the same or higher cost which is most nearly like the commodity being priced.) The percentage markup of the comparison commodity must be determined with reference to your most recent net invoice cost for that commodity. The ceiling price so determined remains your ceiling price for all subsequent sales of that commodity.

(b) Category means a line of merchandise, a merchandise department, or a group of commodities which are normally classed together in your trade for selling, buying, merchandising or accounting. You are required by section 16 of this regulation to prepare a list of your categories and in applying the pricing provisions of this section you should refer to this list. You might, for example, have a category such as one of the following: men's clothing; men's furnishings; infants' wear; canned fruits; cosmetics and toiletries; frozen foods, notions; musical instruments; women's coats and suits; cotton piece goods; major household appliances; women's house dresses; office furniture; hand tools.

SEC. 6. *Ceiling prices for commodities in new categories; for new services; and for new sellers.* (a) If you are pricing a commodity which is in a different category from any dealt in by you during the base period or if you are selling a service which cannot be priced under section 3, your ceiling price is the same as the ceiling price of your most closely competitive seller of the same class selling the same commodity or service to the same class of purchaser.

Once you have determined your ceiling prices under this section you may not redetermine them. Before selling any commodity or service for which you have determined a ceiling price under this section you must file the report required by paragraph (b) with the Director of Price Stabilization, Washington 25, D. C., and, in addition, you must observe the following requirements:

(1) *If you are a manufacturer,* you may not sell the commodity until ten days after mailing your report; thereafter you may sell the commodity at your proposed ceiling price unless and until notified by the Director of Price Stabilization that your proposed ceiling price has been disapproved or that more information is required.

(2) *If you are a wholesaler,* you may not sell the commodity until thirty days after mailing the report; thereafter you may sell the commodity at your proposed ceiling prices unless and until you are notified by the Director of Price Stabilization that your proposed ceiling price has been disapproved or that more information is required.

(3) *If you are a retailer or are selling a service,* you must prepare and maintain for the commodities or services being priced under this section the records required of you under section 16. You may begin sales of the new commodities and services as soon as you have prepared these records and mailed the required report to the Director of Price Stabilization, Washington 25, D. C., and may continue to sell them unless and until notified by the Director of Price Stabilization that your ceiling prices have been disapproved or that more information is required. If, as a retailer, you feel that because of the large number of new commodities which you propose to sell, an item by item price comparison would be too burdensome, you may apply to the Director of Price Stabilization for an alternative method of establishing ceiling prices. Your application should contain the information required in paragraph (b) together with a complete statement of the formula proposed and your reasons demonstrating that it will result, on the average, in ceiling prices no higher than those of your most closely competitive sellers. In such a case you may not begin sales of any commodity with reference to which the application has been made until the Director of Price Stabilization has fixed a method for establishing your ceiling prices.

(b) *Required report if you are pricing under this section.* Your report should state the name and address of your company; the new categories in which the commodities fall and the most comparable categories dealt in by you during the base period; the name, address and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; a statement of your customary price differentials; and, if you are starting a new business, a statement whether you or the principal owner of your business are now or during the past twelve months have been engaged in any capacity in the same or a similar business at any other establishment, and if so, the trade name and address of each such establishment. Your report should also include the following:

(1) *If you are a manufacturer:* Your proposed ceiling price and the specifications of the commodity you are pricing; the manufacturing processes involved; your unit direct costs; and the types of customers to whom you will be selling.

(2) *If you are a wholesaler:* Your proposed ceiling price and your net invoice cost of the commodity being priced; the names and addresses of your sources of supply, the function performed by them (e. g., manufacturing, distributing, etc.), and the types of purchasers to whom they customarily sell; the types of customers to whom you plan to sell; and a statement showing that your proposed ceiling price will not exceed the ceiling price your customers paid to their customary sources of supply.

(3) *If you are selling a service:* Your proposed ceiling price and a description of the most comparable service delivered by you during the base period showing your present direct labor and materials costs and ceiling price for it.

SEC. 7. *Sellers who cannot price under other sections.* If you claim that you are unable to determine your ceiling price for a commodity or service under any of the foregoing provisions of this regulation (which, in the opinion of the Director of Price Stabilization, provides adequate pricing instructions for virtually all transactions), you may apply in writing to the Director of Price Stabilization, Washington, 25, D. C., for the establishment of a ceiling price. This application shall contain an explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the commodity or service, and the nature of your business; your proposed ceiling price and the method used by you to determine it; and the reason you believe the proposed price is in line with the level of ceiling prices otherwise established by this regulation. You may not sell the commodity or service until the Director of Price Stabilization, in writing, notifies you of your ceiling price.

SEC. 8. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or revise ceiling prices reported or proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 9. *Customary price differentials.* Your ceiling prices, when determined, shall reflect your customary price differentials, including discounts, allowances, premiums and extras, based upon differences in classes or location of purchasers, or in terms and conditions of sale or delivery.

SEC. 10. *Exporters and importers*—(a) *Exporters.* Sales by persons exporting commodities from the United States (or its territories and possessions) are subject to the provisions of this regulation. If the ceiling price is determined by the seller for domestic purchasers, it may be adjusted pursuant to section 9 to take account of the seller's customary differentials for export sales.

(b) *Importers.* Sales made within the territorial jurisdiction of the United States, its territories and possessions, of Commodities imported by the sellers from other countries are subject to the provisions of this regulation.

(c) *Special provision for importers with existing purchase commitments.* (1) If you resell a commodity which you import in substantially the same form (except for services normally performed by importers such as sorting or packaging), or sell that commodity after simple processing operations by you, such as wool scouring or coffee roasting, you may adjust a ceiling price determined under section 3 for any such commodity which is delivered to you pursuant to a contract dated on or before January 26, 1951, to offset an increase in landed cost since the base period. The amount of the permitted increase is the dollar and cents amount by which your current landed cost per unit exceeds your highest base period landed cost for the commodity.

(2) If you are adjusting your ceiling prices under this section for any of the commodities listed below, you must within ten days after your first sale at the new price, file with the Director of Price Stabilization, Washington 25, D. C., a report showing your base period price, current foreign invoice price and total landed costs of commodities repriced. This paragraph applies to importers of the following kinds of commodities: Non-ferrous metals; ferro-alloys; minerals; raw agricultural products; textile fibres and fabrics; chemicals; metal scrap, crude and semi-finished steel; lumber and pulp.

(3) The landed cost means the foreign invoice price plus the following expenses actually incurred: (i) transportation costs; (ii) customs duties or import taxes; (iii) other commodity taxes; (iv) dock charges; (v) clearance; (vi) insurance; (vii) letter of credit expenses; and (viii) any customary buying commission to a purchasing agent outside the continental United States.

(b) *Processors and Manufacturers.* This section applies to you only if:

(1) You sell a product which you process from one or more of the listed agricultural commodities (or from a product processed from them), the prices of which are below the legal minimum, and you are not, as to that processing operation, a manufacturer covered by the Manufacturers' General Ceiling Price Regulation (CPR 22), *and*

(2) The cost to you of a current customary purchase of the listed agricultural commodity (or the product processed therefrom) exceeds the highest price you incurred or paid during the base period. In such case you may increase the ceiling price (as otherwise determined in this regulation) for your product by the dollar-and-cent difference per unit between the highest price incurred or paid by you for a customary purchase during the base period and the cost to you of the most recent customary purchase.

If you have previously increased the ceiling price for your product, you may increase your present ceiling price for the product by the dollar-and-cent difference per unit between the price upon which your last previous increase was based and the cost to you of the most recent customary purchase.

You may not, however, after May 30, 1951, put the ceiling price increase into effect unless and until you have first sold an amount of your product at least equal to the quantity of finished product owned by you at the close of business on the day you otherwise would have been entitled to put that ceiling price increase into effect under this section, except that this sentence shall not apply to sales on commodity exchanges (as defined in paragraph (e) of this section.)

Example: You are a processor of evaporated milk, a product processed from a listed agricultural commodity.

The highest price paid by you for a customary purchase of manufacturing milk in the base period was $3.80 per cwt. The cost to you of the most recent purchase is $4.00 per cwt.—a difference of 20 cents or $\frac{2}{10}$ cent per lb. At the time you made the $4.00 purchase you have an inventory of 100 cases of evaporated milk.

If you use 94 lbs. of milk to produce a case of evaporated milk, you are entitled to increase your maximum price per case by 18.8 cents per case (94 x $\frac{2}{10}$ cent). But you may not put that increase into effect until after you have first sold 100 cases.

If, subsequent to this adjustment, the price you pay for a customary purchase of manufacturing milk should increase to $4.10—a further increase of $0.10 per cwt. or $\frac{1}{10}$ cent per lb.—you may, after first selling the number of cases equal to your inventory on the date you made the $4.10 purchase, add an additional 9.4¢ to your maximum price per case (94 x $\frac{1}{10}$ cent).

(3) (i) If (1) you are a producer-processor, and (2) you cannot otherwise determine your ceiling price under subsection (b) (2) above because you do not customarily purchase any amount of a listed agricultural commodity from independent producers wholly unaffiliated with you, you may, for purposes of subsection (b) (2), use as your costs the prices (with adjustment for difference in delivery costs) paid for a customary purchase by your nearest competitor. Such competitor must be one who receives delivery of the same quality of the commodity as you do, in the same quantities (baskets, tons, carloads, etc.), at firm prices for processing.

(ii) If (1) you are a processor who purchases the listed agricultural commodity under "open" price or deferred payment contracts, which relate the price you pay the producer to facts unknown both at the time the raw agricultural commodity is delivered to you, and at the time of sale of the processed product, and (2) you cannot otherwise determine your ceiling price under subsection (b) (2) above because you do not customarily purchase any amount of a listed agricultural commodity at prices finally determined at the time of sale, you may, for purposes of subsection (b) (2), use as your costs the prices (with adjustment for differences in delivery costs) paid for a customary purchase by your nearest competitor. Such competitor must be one who receives delivery of the same quality of the commodity as you do, in the same quantities (bushels, tons, carloads, etc.), at firm prices for processing.

(iii) If (1) you are a producer-owned cooperative processor, and (2) you cannot otherwise determine your ceiling price under subsection (b) (2) above because you do not customarily purchase any amount of a listed agricultural commodity from independent producers wholly unaffiliated with you, you may increase your ceiling price (as determined under the other sections of this regulation) for products processed from such commodities if the entire dollar-and-cent increase in total gross sales revenue derived from that increase in your ceiling price is passed back to producers within 30 days after the end of each normal accounting period. The amount so passed back must be in addition to the full amount you would normally have passed back to producers had you sold the processed product at the ceiling price determined under the other sections of this regulation.

(c) *Distributors.* This section applies to you only if:

(1) You buy and resell in substantially the same form one or more of the listed agricultural commodities or a product processed from them, and

(2) The cost to you of a current customary purchase of that commodity or product exceeds the highest price you incurred or paid for it during the base period.

In such case you may increase your ceiling price (as otherwise determined in this regulation) for the commodity or product by the dollar-and-cent difference per unit between the highest price incurred or paid by you for a customary purchase during the base period and the cost to you of the most recent customary purchase.

If you have previously increased your ceiling price for the commodity or product, you may increase your present ceiling price for that commodity or product by the dollar-and-cent difference per unit between the price upon which your last previous increase was based and the cost to you of the most recent customary purchase.

(d) *Method for Computing "Parity" Adjustments Where No Customary Purchase Was Made During the Base Period.* If you cannot figure your increase under subsections (b) and (c) above because you made no customary purchase during the base period, then the highest price you paid during the most recent five-week period prior to the base period in which you made a customary purchase shall be your highest price within the meaning of Section 11 (b) (2) and 11 (c) (2).

(e) *Method for Computing "Parity" Adjustments Where Prices Have Been Based Customarily on Commodity Exchange Quotations.* In case any of the above listed commodities or products processed from them are traded regularly upon a recognized commodity exchange that maintains daily records of transactions or quotations, and if it has been both your own practice and the general practice of your industry to figure selling prices on the basis of commodity exchange quotations, the increase per unit you are entitled to add under subsections (b) and (c) shall be the difference in dollars and cents between (1) the quotation upon which your ceiling price under this regulation was based, and (2) the comparable current quotation.

(f) *Notice of "Parity" Adjustment Increases.* (1) If you are a processor or a manufacturer to whom the provisions of Section 11 (b) (2) are applicable, you may not increase your ceiling price for such commodity until you first notify the Director of Price Stabilization, Washington 25, D. C., by registered mail giving the following information:

(i) Your existing ceiling price and the description of the commodity;

(ii) The highest price you paid for a customary purchase (or, if applicable, the commodity exchange quotation) of the commodity during the base period, or, if you have previously increased your price, then the price upon which you based your existing ceiling price;

(iii) The new cost or new commodity exchange quotation, whichever is applicable;

(iv) The increased ceiling price.

In the case of increased cost of ingredients, furnish the figures substantiating the conversion of your increase in cost to the increase in the ceiling price of the commodity.

(2) If you are either a producer-processor pricing under Section 11 (b) (3) (i), or a processor operating under "open" price or deferred payment contracts and pricing under Section 11 (b) (3) (ii), you may not increase your ceiling price for such commodity until you first notify the Director of Price Stabilization, Washington 25, D. C., by registered mail giving the following information:

(i) The name and address of your nearest competitor selected pursuant to Section 11 (b) (3) (i) or Section 11 (b) (3) (ii);

(ii) The highest price paid for the listed agricultural commodity in the base period by your nearest competitor, or his ceiling price (determined before application of this Section 11), or your dollar-and-cent per unit margin in the base period (determined by taking your ceiling price, as determined under this regulation before application of Section 11, and subtracting from it the highest per unit price paid by your nearest competitor for a customary purchase in the base period).

(iii) The current price paid for a customary purchase of the listed agricultural commodity by your nearest competitor.

(iv) Your ceiling price, as determined under this regulation, before application of this Section 11.

(v) The increased ceiling price.

In the case of increased cost of ingredients, furnish the figures substantiating the conversion of your increase in cost to the increase in the ceiling price.

(3) If you are a cooperative-processor pricing under Section 11 (b) (3) (iii), you may increase your ceiling price without first giving any notice, but must, within 30 days after the end of each normal accounting period during which you increased your ceiling price, notify the Director of Price Stabilization, Washington 25, D. C., by registered mail giving the following information:

(i) The amount retained by you per unit of the processed commodity sold in the last normal accounting period before February 1, 1951.

(ii) The amount passed back to producers per unit of the processed commodity sold in the last normal accounting period before February 1, 1951.

(iii) The amount retained by you per unit of the processed commodity sold in the most recent normal accounting period.

(iv) The amount passed back to producers per unit of the processed commodity sold in the most recent normal accounting period.

(g) *Effect of Notification of "Parity" Adjustment.* Upon mailing the notification required in paragraph (f) above, you may charge the new ceiling price. If, in the judgment of the Director of Price Stabilization, the increase is deemed unreasonable, excessive or otherwise improper, he may disapprove the price and restore the old ceiling price or establish a new ceiling price and may apply it retroactively.

(h) *Effect of Removal From List of Agricultural Commodities.* This section shall cease to apply to a commodity if, after consultation with the Secretary of Agriculture, the Director of Price Stabilization determines that the requirements of the Defense Production Act of 1950 are satisfied as to such commodity. The ceiling price for the seller of any product processed from any such commodity shall thereafter be determined under the provisions of this regulation, except that, if such ceiling price is determined under Section 3, the "base period" shall be the most recent five-week period preceding the date the Director of Price Stabilization deletes the commodity from the list. Such ceiling prices shall become effective on the date determined by the Director.

Notwithstanding anything contained in this subparagraph (h) to the contrary, the ceiling price for fluid milk, which is sold and bought pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended, or any marketing agreement, license or order, or provision thereof or amendment thereto, shall be no less than the price determined pursuant to that Act, and, for purposes of such sales and purchases only, fluid milk shall be deemed to remain on the list of agricultural commodities.

[Section 11 amended by Amdts. 1, 7, 10, 13 and 14]

SEC. 12. *Group of retail sellers under common control.* A group of retail sellers under common ownership or control which had an established practice of centrally determining uniform prices during the base period for some or all of their categories of commodities or services, may treat the entire group of retail sellers as one seller for the purpose of (a) computing ceiling prices for the commodities or services for which this practice existed and (b) complying with the record-keeping, reporting and filing provisions of this regulation.

The ceiling prices shall be the uniform centrally determined prices. Records shall be centrally kept, listing the names and addresses of all retail sellers of this group. If a group of retail sellers determines ceiling prices under this section, each retail outlet which is a member of the group must continue to abide by the ceiling prices under this section. The permission granted by this section may be withdrawn by the Director of Price Stabilization from any group of retail sellers upon consideration of the price records maintained by such group and such reports as he may require.

SEC. 13. *Highest price line limitation for manufacturers of wearing apparel and consumer durable goods—(a) Manufacturers with base period sales.* If you manufacture certain wearing apparel or consumer durable goods falling within a list of categories which will be issued shortly you may not, after the effective date prescribed in the supplementary order, sell a comodity in any such category at a price higher than your ceiling price determined under section 3 for a commodity in that category.

Example: Your base period ceiling prices for women's rayon dresses were $5.75, $6.75 and $8.75. You will not be permitted to sell any women's dresses at a price in excess of $8.75.

(b) *Manufacturers without base period sales.* If you did not deliver during the base period, or offer in writing for delivery during the base period, any commodity in a particular category listed, you must apply to the Director of Price Stabilization, Washington 25, D. C., for a highest price line limitation for the category which you wish to sell.

SEC. 14. *Exemptions and exceptions.* This regulation does not apply to the following:

(a) Prices or rentals for real property;

(b) Rates or fees charged for professional services;

(c) Prices or rentals for:

(1) Materials furnished for publication by any press association or feature service;

(2) Books, magazines, motion pictures, periodicals, or newspapers, other than as waste or scrap;

(d) Rates charged by any person in the business of operating or publishing a newspaper, periodical, or magazine, or operating a radio-broadcasting or television station, a motion picture or other theatre enterprise, or outdoor advertising facilities;

(e) Rates charged by any person in the business of selling or underwriting insurance;

(f) Rates charged by any common carrier or other public utility;

(g) Margin requirements on any commodity exchange;

(h) Sales of bonds, stocks, and other evidences of indebtedness representing monetary obligations only;

[Paragraph (h) amended by Amdt. 4]

(i) Sales of stamps and coins, precious stones, paintings, other objects of art, and commodities made prior to 1850;

(j) Sales of used personal or household effects by a private owner;

(k) Sales and deliveries at a bona fide auction of used household or personal effects, except that this exception shall not apply to any sale at auction conducted in, by, or for a retail or wholesale establishment regularly engaged in the business of selling such commodities other than by auction.

(l) Indian and Eskimo handicraft objects which are produced by the manual skill of American Indians, Alaskan Indians or Eskimos.

(m) Sales and deliveries of damaged commodities by insurance companies, transportation companies, or agents of the United States Government or by any other person engaged in reconditioning and selling damaged commodities received, in direct connection with the adjustment of losses, from insurance companies, transportation companies, or agents of the United States Government: *Provided,* That such person is engaged principally and primarily in such business and is not engaged in selling new or second-hand commodities for his own account.

(n) Sales or deliveries of commodities made or produced by the seller at his home, solely for his own account, without the assistance of hired employees, if the total of such sales or deliveries does not exceed $200 in any one calendar month.

(o) Services the rates of which are regulated by the Department of Agriculture under the Stockyards and Packers Act.

(p) Sales of abandoned or confiscated property by Government agencies or pursuant to a court decree.

(q) Sales of commodities or services the ceiling prices of which are now or subsequently established by other regulations or orders of the Director of Price Stabilization or by voluntary agreements approved in accordance with the provisions of Section 708 of the Defense Production Act of 1950.

(r) Sales of military and strategic commodities but only to the extent specified by supplementary regulations or orders which will be issued defining the scope of this exemption.

(s) The following food, agricultural and related commodities (including any that may be imported):

(1) (i) The following commodities only when sold by the producers thereof: Eggs, dry edible beans and peas, and popcorn. In addition, any other agricultural commodity in its raw or natural state, or if the commodity is not customarily sold by producers generally in its raw or natural state, in the first form or state beyond the raw or natural state in which it is customarily sold by producers generally.

(ii) The exemption established by this subparagraph shall not apply to sales, other than by producers, of any agricultural commodity not now listed in section 11 (a) or hereafter deleted by the Director of Price Stabilization from the section 11 (a) list. The ceiling price for sales, other than by producers, of any commodity hereafter deleted from the section 11 (a) list shall, after such deletion, be determined under the provisions of this regulation, except that, if such ceiling price is determined under section 3, the "base period" shall be the most recent five-week period preceding the date the Director of Price Stabilization deletes the commodity from the list. Such ceiling prices shall become effective on the date determined by the Director.

[Paragraph (1) amended by Amdts. 1, 7, 13 and 14]

(2) Any commodity grown and processed on the farm when sold by the farmer if the total of such sales and deliveries does not exceed $200 in any one calendar month.

(3) Raw wool when sold by the producer and mohair when sold by the producer.

[Paragraph (3) amended by Amdt. 13]

(4) Cotton when sold by the producer of that commodity.

(5) American-Egyptian cotton and extra long staple cotton grown outside the United States.

NOTE: Contracts for the sale of extra long staple cotton grown outside the United States executed on or after February 11, 1951, shall not be deemed in violation of the General Ceiling Price Regulation.

[Paragraph (5) amended by Amdt. 9]

(6) All live animals.

(7) All fresh fruits, including berries and tree nuts, and all fresh vegetables.

[Paragraph (7) amended by Amdt. 13]

(8) Fresh fish, seafood and game, and frozen fish and shellfish.

[Paragraph (8) amended by Amdt. 11]

(9) Seeds including hay, pasture, legume and covercrop seeds and other seeds.

(10) Crude pine gum when sold by the producer.

[Paragraph (10) amended by Amdt. 1]

(11) The following oil seeds or nuts, their oils and fatty acids or combinations of these oils so long as the oils remain in a form customarily designated by the trade as "oil":

Babassu kernels.	Ouricury kernels.
Babassu oil.	Ouricury oil.
Cacao butter.	Palm oil.
Cashew nut shell liquid.	Palm kernels.
Castor beans.	Palm kernel oil.
Castor oil.	Perilla seeds.
Cod oil.	Perilla seed oil.
Cohune kernels.	Poppyseed.
Cohune oil.	Poppyseed oil.
Coquito kernels.	Rapeseed, rapeseed oil.
Coquito oil.	Rubberseed.
Copra.	Rubberseed oil.
Cocoanut oil.	Sesame seed.
Hemp seed.	Sesame oil.
Hemp seed oil.	Shark oil.
Kapok seed.	Sperm oil.
Kapok seed oil.	Sunflower seed.
Muru-muru kernels.	Sunflower seed oil.
Muru-muru oil.	Tucum kernels.
Oiticica oil.	Tucum oil.
Olive oil, edible, sulphur and other inedible.	Tung oil.
	Whale oil.

[Paragraph (11) amended by Amdt. 1]

(12) Flue cured tobacco, types 11 to 14, when sold by the producer.

(13) Cotton seed when sold by the producer.

(14) Dried figs, raisins and prunes when sold by the producer.

(15) Broom corn when sold by the producer.

(16) Sugarcane, and sugar and liquid sugar (as defined in the Sugar Act of 1948).

[Paragraphs (12), (13), (14), (15), (16) added by Amdt. 1]

(17) Cut greens when used for decorative purposes, such as ferns and the boughs and leaves of trees and shrubs; nursery stock; and natural flowers and floral products, such as cut flowers, flowering plants, foliage plants, and bulbs for planting purposes.

[Paragraph (17) added by Amdt. 8]

(18) All domestically produced and imported geese, guineas, squabs, pigeons, quail, partridges, pheasants, rabbits and hares, whether, in processed or unprocessed form, and at all levels of purchase and sale, provided that the feathers of geese are not covered by this exemption.

[Paragraph (18) added by Amdt. 12]

SEC. 15. *Amendments, protests and interpretations.* The Director of Price Stabilization may issue supplementary regulations modifying or implementing this regulation as he deems appropriate. Price Procedural Regulation No. 1 sets forth the circumstances and the manner in which you may obtain an official interpretation of this regulation; file a protest; or petition for an amendment. If the Director of Price Stabilization determines that adjustments are necessary to prevent or correct hardships or inequities and can be put into effect consistently with the objectives of the Defense Production Act of 1950, he will issue appropriate amendments or supplementary regulations providing for such adjustments.

SEC. 16. *Records.* This section tells you what records you must preserve and what additional records you must prepare.

(a) *Base period records.* (1) You must preserve and keep available for examination by the Director of Price Stabilization those records in your possession showing the prices charged by you for the commodities or services which you delivered or offered to deliver during the base period, and also sufficient records to establish the latest net cost incurred by you prior to the end of the base period in purchasing the commodities (if you are a wholesaler or retailer).

(2) In addition, on or before March 22, 1951, you must prepare and preserve a statement showing the categories of commodities in which you made deliveries and offers for delivery during the base period; or if you sold services you must prepare and preserve a statement listing the services which you delivered or offered to deliver during the base period.

[Paragraph (2) amended by Amdts. 3 and 5]

(3) On or before March 22, 1951, you must also prepare and preserve a ceiling price list, showing the commodities in each category (listing each model, type, style, and kind), or the services, delivered or offered for delivery by you during the base period together with a description or identification of each such commodity or service and a statement of the ceiling price. Your ceiling price list may refer to an attached price list or catalogue. If you are a retailer you may satisfy the requirement of this paragraph (3) by recording on your purchase invoices, covering the commodities (including every model, type, style, and kind) delivered or offered for delivery by you during the base period, the price at which you sold, or offered the commodities for delivery, during the base period.

[Paragraph (3) amended by Amdts. 3 and 5]

(4) You must also prepare and preserve a statement of your customary price differentials for terms and conditions of sale and classes of purchasers, which you had in effect during the base period.

(5) If you operate a restaurant, you are required to preserve all menus used by you during the last ten days of the base period and all menus hereafter used by you.

(b) *Current records.* If you sell commodities or services covered by this regulation you must prepare and keep available for examination by the Director of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the prices which you charge for the commodities or services. In addition, you must prepare and preserve records indicating clearly the basis upon which you have determined the ceiling price for any commodities or services not delivered by you or offered for delivery during the base period. If you are a retailer you are required to preserve your purchase invoices and to record thereon both your initial selling price and the section of this regulation under which you have determined your ceiling price.

(c) In certain situations, other sections of this regulation require additional records to be prepared or submitted.

SEC. 17. *Sales slips and receipts.* Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each commodity or service sold, and the price received for it.

SEC. 18. *Evasion.* Any practice which results in obtaining indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie in agreements and trade understandings.

SEC. 19. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after January 26, 1951, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 20. *Separate statement of taxes.* In addition to your ceiling price, you may collect the amount of any excise, sales or similar taxes paid by you as such only if, during the base period, you stated and collected such taxes separately from your selling price. In the case of such a tax imposed by law which is not effective until after January 26, 1951, you may collect the amount of the tax actually paid as such by you, in addition to your ceiling price, if not prohibited by the tax law. You must in all such cases state separately the amount of the tax.

SEC. 21. *Penalties.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

SEC. 22. *Definitions and explanations.* This General Ceiling Price Regulation and the terms which appear in it shall be construed in the following manner, unless otherwise clearly required by the context:

Business establishment. This term refers to the physical location of the store, shop or other place of business in which commodities are manufactured or sold or at or from which commodities or services are supplied.

Class of purchaser or purchaser of same class. This term refers to the practice adopted by a seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, shopper, retailer, Government agency, public institutions or individual consumer) or for purchasers located in different areas or for purchasers of different quantities or grades or under different terms or conditions of sale or delivery.

Commodity. This term includes commodities, materials, articles, products, supplies, components, and processes.

Delivered. A commodity shall be deemed to have been delivered during a specified period if during that period it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser. A service shall be deemed to have been delivered or supplied during the specified period if during the period it was completed or in process.

Director of Price Stabilization. This term extends to any official (including officials of regional or local offices) to whom the Director of Price Stabilization by order delegates the function, power or authority referred to in this regulation.

Exporter. This term means any person selling a commodity priced under this regulation either directly or through an agent and delivering or shipping to a place outside the United States, its territories and possessions.

Importer. This term means the person by whom a commodity is imported and who first sells it after importation.

Imported. A commodity is imported which is transported from a place outside to a place inside the United States, its territories or possessions, for sale within such area.

Manufacturer. This term refers to any person who is engaged in business other than as a wholesaler or retailer.

Most closely competitive seller of the same class. Your most closely competitive seller of the same class is the seller with whom you are in most direct competition even though he may perform a different function with respect to the commodity or service (e. g., if you are a wholesaler of a commodity, your most closely competitive seller may be a manufacturer; or, if you are a retail supplier of a service, your most closely competitive seller may be a wholesaler). You are in direct competition with another seller who sells the same types of commodities or services to the same classes of purchaser in similar quantities, on similar terms and, if you are selling a commodity, you supply approximately the same amount of service.

Net invoice cost. This term refers to your invoice cost less any discount or allowance you took or could have taken. It does not include separately stated charges such as freight, taxes, etc.

Offering price. The price at which a commodity or service was offered means the price quoted in the seller's price list, or if he had no price list, the price which he regularly quoted in any other manner. This regulation requires that an offer for sale other than at retail must have been in writing. For sales of commodities at retail the offer must have been made at the immediate point of sale (e. g., the shelves or counters). The term offering price does not include a price intended to withhold a commodity or service from the market or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

Person. This term includes any individual, corporation, partnership, association or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any other government or their political subdivisions or agencies.

Records. This term means books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

Restaurant. This term refers to any establishment in which meals, food items, or beverages are sold and served primarily for consumption on or about the premises (hotels, soda fountains, boarding houses, lunch wagons, etc., are included).

Sale at retail and retailer. Sale at retail means a sale to an ultimate consumer other than an industrial or commercial user. A seller who in the regular course of business makes sales at retail is a retailer.

Sale at wholesale and wholesaler. Sale at wholesale means a sale by a person who buys a commodity and resells it, without substantially changing its form, or who supplies a service, to an industrial or commercial user, or to any person other than the ultimate consumer. A seller who in the regular course of business makes sales at wholesale is a wholesaler.

Sell. This term includes sell, supply (with respect to either commodities or services), dispose, barter, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms buy and purchase shall be construed accordingly. Nothing in this regulation shall be construed to prohibit the making of a contract or offer to sell a commodity or service at (a) the ceiling price in effect at the time of delivery or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery.

Seller. This term includes the seller of any commodity or service. Where a seller makes sales or supplies services through more than one selling unit (other than salesmen making sales at uniform price) each such separate place of business shall be deemed to be a separate seller.

Service. This term includes any service rendered or supplied, otherwise than as an employee.

Unit direct cost. This term means labor and material costs which enter directly into the product. It does not include factory overhead, or indirect manufacturing expenses, administrative, general or selling expenses.

You. The pronoun you as used in this regulation indicates the person subject to the regulation.

Calculations of ceiling prices involving fractions. Fractions of a cent remaining after the total price for a quantity sold has been calculated shall be dropped if less than a half cent and increased to the nearest higher cent if a half cent or more.

[Sec. 22 amended by Amdts. 2, 6 and 7]

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MICHAEL V. DISALLE,
Director of Price Stabilization.

Chapter XII—Defense Minerals Administration, Department of the Interior

[Mineral Order 8]

MO-8—MOLYBDENUM CONCENTRATES

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives and consideration has been given to their recommendations.

Sec.
1. What this order does.
2. Definitions.
3. Restrictions on deliveries.
4. Application by foreign consumers.
5. Allocations.
6. Exemption.
7. Restriction on use by producers.
8. Records and audits.
9. Adjustments and exceptions.
10. Communications.
11. Violations.

AUTHORITY: Sections 1 to 11 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61.

SECTION 1. *What this order does.* The purpose of this order is to conserve and provide for an equitable distribution of the limited supply of molybdenum concentrates so as best to serve the interests of the national defense program and essential civilian production. It permits delivery of molybdenum concentrates only upon the expressed authorization of the Defense Minerals Administration. It applies equally to domestic shipments and to exports for foreign consumption. The use and consumption of molybdenum concentrates by producers is restricted.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, or division thereof, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government, and authorized representatives thereof.

(b) "Molybdenum concentrates" means and includes:

(1) All natural molybdenum ore containing 30 percent or more of molybdenum.

(2) All natural molybdenum concentrates containing 30 percent or more of molybdenum in the mineral form.

(c) "Use" means the conversion of molybdenum concentrates into any molybdenum product including, but not limited to, molybdenum oxides, ferromolybdenum, and all primary molybdates.

SEC. 3. *Restrictions on deliveries.* (a) After June 30, 1951, no person shall deliver or accept delivery of molybdenum concentrates in any calendar month except in accordance with the written authorization of the Defense Minerals Administration issued for that month.

(b) Any person seeking an allocation of molybdenum concentrates shall make application to the Defense Minerals Administration not later than the 15th day of the month preceding the month in which delivery is sought. An application for an allocation for delivery in July 1951 must be filed not later than June 15, 1951. The Defense Minerals Administration may from time to time change the dates for filing applications, in which case all interested parties will be notified.

(c) Deliveries authorized for a specific month may not be made or received in a subsequent month.

(d) An application for an allocation shall be filed in the form of a letter containing the following information: (Data as to quantity shall be in terms of pounds of contained molybdenum.) (1) Name and address of applicant, (2) location of plant for which allocation is requested, (3) quantity of molybdenum concentrates sought, (4) quantity of molybdenum concentrates on hand or in transit, and (5) name and address of supplier, if any.

SEC. 4. *Application by foreign consumers.* (a) Applications of consumers located in the following countries shall be filed with the Economic Cooperation Administration:

Austria.
Belgium (and oversea territories) and Luxembourg.
Denmark.
France (and oversea territories).
Western Germany.
Greece.
Iceland.
Italy.
Netherlands.
Norway.
Portugal.
Sweden.
Switzerland.
Trieste.
Turkey.
United Kingdom (and oversea territories).
Jugoslavia.
Burma.
China (Taiwan).
Korea.
Indo-China.
Indonesia.
Thailand.
Philippines.

Applications of consumers located in Canada shall be filed with the Department of Defense Production, Ottawa, for forwarding to the Canadian Division of the National Production Authority. Applications of all other foreign consumers shall be filed with the Office of International Trade. Such applications shall meet the informational and filing requirements contained in section 3 of this order and such other requirements as the aforesaid Government agencies may prescribe.

(b) No application of a foreign consumer shall be considered by the Defense Minerals Administration (1) unless filed in accordance with paragraph (a) of this section and (2) it bears the endorsement of the Government agency processing the application.

SEC. 5. *Allocations.* The Defense Minerals Administration shall allocate the supply of molybdenum concentrates by directing deliveries of specific amounts to specific applicants. Such direction shall require a supplier to make delivery to the extent of the applicant's purchase order within the limits of the directive.

SEC. 6. *Exemption.* Exempted from the provisions of section 3 of this order are deliveries to any person whose total receipts from all sources during the calendar month in which such deliveries are received are not thereby made to exceed 200 pounds of molybdenum concentrates, and who delivers a signed certification to his supplier as follows: "Certified under DMA Order MO–8". Such certification constitutes a representation to the supplier and to the Defense Minerals Administration that the purchaser is authorized under the provisions of this order to accept delivery of molybdenum concentrates as permitted in this order and that his receipt of the shipment in the amount requested, during the month of the specified delivery, will not bring his total receipts of molybdenum concentrates during that month above 200 pounds.

SEC. 7. *Restriction on use by producers.* No person producing molybdenum concentrates shall use or consume molybdenum concentrates in any calendar month except in accordance with the written authorization of the Defense Minerals Administration. Applicants for such authorization shall comply with the informational requirements and filing procedure set forth in section 3 of this order.

SEC. 8. *Records and audits.* Each person participating in any transaction covered by this order shall retain in his possession for at least 2 years records of receipts and deliveries in sufficient detail to permit inspection and audit by representatives of the Defense Minerals Administration to determine that the provisions of this order have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained provided such records supply and adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

SEC. 9. *Applications for adjustments or exceptions.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 10. *Communications.* All communications concerning this order shall be addressed to the Defense Minerals Administration, Department of the Interior, Washington 25, D. C.

SEC. 11. *Violations.* Any person who wilfully violates any provision of this order, or who furnishes false information or conceals any material fact in the course of operation under it, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control, and to deprive him of further priorities assistance.

This order shall take effect upon publication in the FEDERAL REGISTER.

JAMES BOYD,
Administrator,
Defense Minerals Administration.

Chapter XVIII — National Shipping Authority, Maritime Administration, Department of Commerce

[NSA Order 32 (SRM–1)]

SRM–1—EXPENDITURE CONTROL AND DISTRIBUTION OF JOB ORDERS AND WORKSMALREP CONTRACTS

Sec.
1. What this order does.
2. Responsibilities of Heads of Local Offices, Division of Ship Repair and Maintenance.
3. Responsibilities of General Agents.
4. General provisions.

AUTHORITY: Sections 1 to 4 issued under sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114.

SECTION 1. *What this order does.* In view of the ever present possibility that commitments being made by General Agents and by the field offices of the Division of Ship Repair and Maintenance for the maintenance and repair of vessels, which in the aggregate may exceed the allotment of funds available for these purposes, and in order to stay within available appropriations, this Order requires a definite and prescribed procedure to be followed with respect to the preparation of repair documents and the prompt reporting, controlling and accounting of all commitments and expenses in connection therewith.

SEC. 2. *Responsibilities of Heads of Local Offices, Division of Ship Repair and Maintenance.* The Heads of such local Offices shall:

(a) Where work is awarded by a responsible field representative, Division of Ship Repair and Maintenance, prepare at least five (5) copies of the Job Order, Supplemental Job Order or Worksmalrep Contract for distribution as follows:

(1) One (1) executed copy to be retained by the issuing office.

(2) One (1) executed copy to be furnished the contractor.

(3) One (1) executed copy to be attached to the voucher for payment.

(4) One (1) executed copy to be forwarded to the office of the Chief of the appropriate District Office. (This item applies to distribution from Local Offices only.)

(5) One (1) unexecuted copy to be forwarded to the office of the Chief, Division of Ship Repair and Maintenance, Washington, D. C.:

(i) Within twenty-four (24) hours after the receipt of contractor's itemized prices when work is awarded as a result of a competitive bid, or

(ii) Within twenty-four (24) hours after agreement has been reached on prices for work awarded on a negotiated price basis.

SEC. 3. *Responsibilities of General Agents.* The General Agents shall:

(a) Where the cost of work is within the General Agent's authorized limitation as to amount and where the work is awarded by the General Agent prepare at least five (5) copies of each Job Order, Supplemental Job Order or Worksmalrep Contracts for distribution as follows:

(1) One (1) executed copy to be retained by the General Agent.

(2) One (1) executed copy to be furnished to the Contractor.

(3) One (1) executed copy to be attached to the voucher for payment.

(4) One (1) executed copy to be forwarded to the Local or District Office, Division of Ship Repair and Maintenance, as the case may be.

(5) One (1) unexecuted copy to be forwarded direct to the office of the Chief, Division of Ship Repair and Maintenance, Washington, D. C.

(i) Within twenty-four (24) hours after the receipt of contractor's itemized prices when work is awarded as a result of competitive bids, or

(ii) Within twenty-four (24) hours after agreement has been reached on prices for work awarded on a negotiated price basis.

SEC. 4. *General provisions.* (a) General Agents and District Managers and Heads of Local Offices, Division of Ship Repair and Maintenance, are cautioned that they are strictly accountable and responsible for the preparation of complete, detailed and fully descriptive specifications, in order that the greatest possible degree of competition may be obtained on each job to minimize the amount of work awarded at negotiated rather than competitive prices.

(b) In the preparation of Job Orders, Supplemental Job Orders and Worksmalrep Contracts the itemized prices, together with costs by Group Numbers as set forth and described below are to be inserted thereon:

No.	Classification
41	*Maintenance repairs.* (Deck, engine and steward's department repairs resulting from ordinary wear and tear.)
42	*Original installation of, repairs to, and/or removal of special service or national defense features.*
44	*Conversions.* (Conversion of vessels to troop carriers, hospital ships, and for other special purposes.)
51	*Alterations and additions.* (Additional equipment, such as, spar decks, special trade route requirements, heavy lift equipment, change of cargo or passenger space, increasing speed of vessel, and other structural changes.)
52	*Strengthening of newly constructed vessels.* (Strengthening of vessels according to program.)
54	*Damage repairs.* (Claimed as a result of enemy action, heavy weather, stranding, collision, fire, stevedore damage, ice damage, and other damages.) NOTE: All items chargeable to each separate casualty to be properly identified and segregated both with respect to casualty and cost.
63	*Builders' and vendors' guaranty work.* (Repairs and replacements chargeable to builders and vendors of equipment—separate cost to be furnished for each item.)
64	*Repair contractors' guarantee items.* (Repairs to correct deficiencies due to faulty workmanship and/or materials incident to prior repairs performed under provisions of Master Repair Contract where responsible contractor was properly put on notice and was unable to effect necessary corrections due to location of vessel.)
65	*Other costs.* (Temporary lights, tugs to shift vessel while in contractor's yard, and other miscellaneous work requiring distribution of costs over more than one group.)
66	*Miscellaneous expenses applicable to voyage operating expense.* (Removal of cargo debris, garbage disposal, fresh water when not required for testing purposes, cleaning cargo and other tanks where no repairs or alterations are involved, and other similar expenses.)

(c) In no event shall the execution of formal Job Order or Worksmalrep Contracts be delayed after the contractor has furnished breakdown of costs and after the expenditure has been authorized.

(d) The copy of the Job Order, Supplemental Job Order or Worksmalrep Contract which is to be furnished the office of the Chief, Division of Ship Repair and Maintenance, Washington, D. C., shall be forwarded direct without supporting specifications at the close of the day upon which issued. The envelope in which these Job Orders, Supplements and Worksmalrep Contracts are forwarded to Washington should be identified as to its contents by the insertion on its front side of the words "Job Orders". In the event no Job Orders, Supplemental Job Orders, or Worksmalrep Contracts are issued during the day, an envelope, in the above form, shall be forwarded to the office of the Chief, Division of Ship Repair and Maintenance, containing statement to the effect that "no Job Orders, Supplemental Job Orders, or Worksmalrep Contracts" were issued during that particular day.

(e) A copy of all Purchase Orders and priced Warehouse Delivery Tickets shall be forwarded to the office of the Chief, Division of Ship Repair and Maintenance, as soon as available, in the same manner as prescribed above, and shall bear the Job Order and Contract Number in connection with which the material was used.

(f) General Agents and District Manager and Heads of Local Offices, Division of Ship Repair and Maintenance, shall also be held strictly accountable and responsible for exceeding their limitations on expenditures without securing prior approval in conformance with prevailing regulations and in advance of the issuance of original or supplemental Job Orders. All responsible field representatives, Division of Ship Repair and Maintenance, are hereby directed to withhold approval of work awarded by General Agents in excess of their existing limitations without prior reference to such appropriate field representative. When it becomes necessary for a responsible field representative, Division of Ship Repair and Maintenance, to withhold approval of an expenditure incurred by a General Agent in excess of prescribed limitations, complete details concerning the circumstances, together with such explanation as the General Agent's representative has to offer shall be referred to the Chief, Division of Ship Repair and Maintenance.

(g) It is absolutely essential that the daily reporting of repair commitments or expenditures as described above be carried on without fail and without deviating from these instructions by all Local Offices, Division of Ship Repair and Maintenance, as well as all General Agents. Strict compliance with these instructions is required.

Effective date. This order shall be effective on date of publication in the FEDERAL REGISTER.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 3-6]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC

STALLING DEMONSTRATION

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 4th day of June 1951.

In promulgating on April 30, 1951, Amendment 3-5 to Part 3 relating to stalling requirements, it was the Board's intention, in the interest of clarity, to revert to the original language of the regulation effective prior to January 15, 1951. The original regulation established alternative standards for the stall maneuver, depending upon whether or not the airplane possessed adequate stall warning characteristics. Through inadvertence, Amendment 3-5 of § 3.120 (e) was promulgated without reference to the standard required where adequate stall warning was present. Since adequate stall warning characteristics have been made mandatory by Amendment 3-4, effective January 15, 1951, the appropriate standard to be applied is the one previously required when there were present adequate stall warning characteristics, and, indeed, the need for the alternative standard no longer exists. We have been advised that aircraft manufacturers have generally complied with the alternate standard applicable when adequate stall warning was present and that for most current aircraft the other standard is impractical. For these reasons this amendment sets forth a single standard for the stall maneuver, which is intended to make it possible during recovery to prevent more than 15 degrees roll or yaw by the normal use of controls and to require the excess of pitch or loss of altitude over certain limits to be noted in the Airplane Flight Manual. This is substantively the same standard which prior to January 15, 1951, was effective for those airplanes which had adequate stall warning characteristics.

[1] 16 F. R. 1059.

For the reasons stated above, notice and public procedure hereon are impracticable and contrary to the public interest, and since this regulation imposes no burden on anyone, the Board finds that good cause exists for making this regulation effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 3 (14 CFR, Part 3, as amended) effective June 4, 1951:

By amending paragraph (e) of § 3.120 to read as follows:

§ 3.120 *Stalling demonstration.* • • •

(e) During the recovery portion of the maneuver, it shall be possible to prevent more than 15 degrees roll or yaw by the normal use of controls, and any loss of altitude in excess of 100 feet or any pitch in excess of 30 degrees below level shall be entered in the Airplane Flight Manual.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 603, 52 Stat. 1007, 1009; 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

Secretary.

Subchapter A—Civil Air Regulations

PART 60—AIR TRAFFIC RULES

[Supp. 3, Amdt. 13]

STANDARD INSTRUMENT APPROACH PROCEDURES

Under sections 205 and 601 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board is empowered to delegate to the Administrator of Civil Aeronautics the authority to prescribe rules, regulations, and standards which promote safety of flight in air commerce, and the Administrator of Civil Aeronautics is empowered to make and amend such general or special rules, regulations, and procedures as he deems necessary to exercise and perform his powers and duties under the act. Under § 60.46 of the Civil Air Regulations the Civil Aeronautics Board has authorized the Administrator of Civil Aeronautics to prescribe standard instrument approach procedures.

Acting pursuant to the foregoing statutes and regulations, standard instrument approach procedures were prescribed. Those procedures are hereby amended. This amendment is made effective without delay, in order to promote safety of the flying public. Compliance with the notice, procedures and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

1. The low frequency range procedures prescribed in § 60.45-4 are amended to read in part:

EXECUTION IN DUPLICATE OF FORMS USED IN CONNECTION WITH PETITIONS FOR NATURALIZATION

MAY 17, 1951.

The following amendments to Chapter I, Title 8 of the Code of Federal Regulations, are hereby prescribed:

1. The third sentence of § 332.2, *Preliminary application and petition for naturalization*, is amended to read as follows: "In addition, the petitioner shall execute in duplicate an affidavit on Form N-420 before either a representative of the Service or the clerk of the naturalization court, and the original and duplicate thereof shall be attached to the original and duplicate petitions for naturalization, respectively, at the time the petition is filed."

(Secs. 37, 327, 54 Stat. 675, 1150; 8 U. S. C. 458, 727)

2. The last two sentences of paragraph (b) of § 335.3, *Final hearing of petition; notice by clerk of court; effect of objection; waiver of notice*, are amended to read as follows: "If a waiver is granted, notice thereof shall be executed in duplicate by the district director on Form N-424. The original Form N-424 shall be filed with the clerk of the naturalization court and the duplicate copy retained in the field office file."

3. The fifth sentence of paragraph (a) of § 335.5, *Exception from alien enemy classification*, is amended to read as follows: "If, after such investigation, the district director is satisfied of the loyalty to the United States of the petitioner, he shall issue a cerificate of loyalty on Form N-438 in duplicate, the original to be filed in the appropriate naturalization court and the duplicate to be retained in the field office file."

(Secs. 37, 327, 54 Stat. 675, 1150; 8 U. S. C. 458, 727)

4. Section 361.3 is amended to read as follows:

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 51-20]

LIMIT SWITCHES AND EMERGENCY DISCONNECT SWITCHES IN CONTROL CIRCUITS OF LIFEBOAT WINCHES

A notice regarding proposed changes in the regulations for limit switches and emergency disconnect switches was published in the FEDERAL REGISTER dated February 27, 1951, 16 F. R. 1831, as Item II on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on March 27, 1951, in Washington, D. C. All the comments submitted were considered and where practicable were incorporated into the regulations.

The purpose of the amendments to 46 CFR 59.3a (b), 60.21a (b), 76.15a (b), 94.14a (b), and 160.015-3 (k) is to have the requirements for limit switches and emergency disconnect switches in the control circuits for lifeboat winches on existing vessels and new vessels to be the same, to require effective means for cutting off the electric power to lifeboat winches. During the last five years the records of the Coast Guard show there have been thirty accidents caused by defective limit switches. These thirty casualties have resulted in three deaths, eighteen persons injured, and considerable property damage. During this same period two men were killed and seven were injured as a result of being struck by spinning crank handles while in the act of hand cranking the davits to their final position.

The extension of the application of the regulations to installations on existing vessels and revision of requirements for limit switches and emergency disconnect switches are in the interest of safety of life at sea.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective ninety days after date of publication of this document in the FEDERAL REGISTER.

Subchapter G—Ocean and Coastwise; General Rules and Regulations

PART 59—BOATS, RAFTS, BULKHEADS, AND LIFESAVING APPLIANCES (OCEAN)

Section 59.3a (b) is amended to read as follows:

§ 59.3a *Mechanical means for lowering.* * * *

(b) (1) Winches proposed for use in new installations shall be of an approved type and constructed in accordance with Subpart 160.015 of Subchapter Q (Specifications) of this chapter.

(2) All existing vessels fitted with gravity davits and winches shall comply with the requirements contained in § 160.015-3 (k) of Subpart 160.015 of Subchapter Q (Specifications) of this chapter not later than July 1, 1952.

PART 60—BOATS, RAFTS, BULKHEADS, AND LIFESAVING APPLIANCES (COASTWISE)

Section 60.21a (b) is amended to read as follows:

§ 60.21a *Mechanical means for lowering.* (See § 59.3a of this subchapter, as amended, which is identical with this section.)

(R. S. 4405, as amended, 4488, as amended; 46 U. S. C. 375, 481. Interprets or applies R. S. 4491, as amended, 49 Stat. 1544, sec. 3, 54 Stat. 347, sec. 5, 55 Stat. 244, as amended; 46 U. S. C. 1, 489, 367, 1333, 50 U. S. C. app. 1275)

Subchapter H—Great Lakes; General Rules and Regulations

PART 76—BOATS, RAFTS, BULKHEADS, AND LIFESAVING APPLIANCES

Section 76.15a (b) is amended to read as follows:

§ 76.15a *Mechanical means for lowering.* (See § 59.3a of this chapter, as amended, which is identical with this section.)

(R. S. 4405, as amended, 4488, as amended; 46 U. S. C. 375, 481. Interprets or applies R. S. 4491, as amended, 49 Stat. 1544, sec. 3, 54 Stat. 347, sec. 5, 55 Stat. 244, as amended; 46 U. S. C. 1, 489, 367, 1333, 50 U. S. C. app. 1275)

Subchapter Q—Specifications

PART 160—LIFESAVING EQUIPMENT

SUBPART 160.015—LIFEBOAT WINCHES FOR MERCHANT VESSELS

Section 160.015-3 (k) is amended to read as follows:

§ 160.015-3 *Construction of lifeboat winches.* * * *

(k) Limit switch and emergency disconnect switch requirements:

(1) A main line emergency disconnect switch shall be provided, the opening of which will disconnect all electrical potential to the lifeboat winch. This switch shall be located in a position accessible to the person in charge of the boat stowage, and for gravity davit installations, shall be in a position from which the movement of both davit arms can be observed as they approach the final stowed position.

(2) Where power driven winches are used with gravity davits, two limit switches, one for each davit arm, shall

be provided to limit the travel of the davit arms as they approach the final stowed position. These switches shall be connected in series, they may be connected in either the control or the power circuit, and they shall be so arranged that the opening of either switch will disconnect all electrical potential of the circuit in which the switches are connected. These switches shall be arranged to stop the travel of the davit arms not less than 12 inches from their final stowed position and they shall remain open until the davit arms move outboard beyond the tripping position of the switches.

(3) Other arrangements equivalent in design and safety will be given special consideration.

(R. S. 4465, as amended, 4483, as amended; 46 U. S. C. 375, 481. Interprets or applies R. Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

Subchapter F—Merchant Ship Sales Act of 1946

[Gen. Order 60, Supp. 21, Amdt. 2]

PART 299—RULES AND REGULATIONS. FORMS, AND CITIZENSHIP REQUIREMENTS

SUBPART C—CHARTER OF WAR-BUILT VESSELS TO CITIZENS

NET VOYAGE PROFIT

Procedure to be followed by Charterers in the rendition to the Commission (now Maritime Administration, Department of Commerce), of Final Accountings under Warshipdemiscout 203 and Shipsalesdemise 303 Bareboat Charter Agreements.

It is ordered, That § 299.37-4 *Net voyage profit* in Subpart C of this chapter (General Order 60, Supplement 21) published in the FEDERAL REGISTER issue of March 30, 1950 (15 F. R. 1789-1796) be and it hereby is amended as follows:

1. By deleting that certain statement appearing at the end of subparagraph (4) of paragraph (b), which reacs: "Post redelivery expenses, to the extent hereafter determined by the Commission to have been reasonably and necessarily incurred in connection with the conduct of the operation of the chartered vessels, will be made the subject of a supplement hereto."

2. By adding at the end of paragraph (e) a new paragraph which shall read as follows:

(f) *Post redelivery overhead expenses.* Post redelivery overhead expenses, to the extent determined by the Maritime Administration to have been reasonably and necessarily incurred in connection with the conduct of the operation of the chartered vessels after redelivery of the last vessel under the last Warshipdemiseout 203 or Shipsalesdemise 303 Agreement in effect prior to July 1, 1950 (excluding charters covering only passenger vessels), will be taken into account in the determination of "net voyage profit" thereunder, subject to the following conditions:

(1) That the charterer shall demonstrate to the satisfaction of the Maritime Administration, by presentation of statements fully supported by actual cost records or other sound accounting evidence, that such expenses were, in fact, necessarily and properly incurred in the conduct of the business of the chartered vessels and were not attributable to the conduct of other business of the charterer.

(2) That post redelivery overhead expenses shall be deemed to include only such overhead expenses as are directly attributable to the completion and finalization of accounting for bareboat charter operations (excluding any cost of submitting final statements of additional charter hire for which allowances are elsewhere provided), the processing and settlement of inventories, and the processing of and accounting for claims.

(3) That post redelivery overhead expenses, to the extent allowed hereunder, may be allocated directly to operations under the bareboat charter agreements involved on the basis of the relation that the number of vessel days applicable to each accounting period under each agreement (or addendum with respect to which a separate determination of additional charter hire is required to be made) bears to the total vessel days under all such agreements (or addenda) for all such periods.

(4) That statements of post redelivery overhead expenses shall be submitted to the Maritime Administration not later than June 30, 1951, or within six (6) months after redelivery of the last vessel under the bareboat charter agreement involved, whichever later occurs: *Provided, however*, That upon application of the charterer the Administration may extend, for such further period as in its judgment is warranted by the circumstances in any instance, the time limit prescribed in this subparagraph for the submission of such statements.

Statements of post redelivery overhead expenses may be integrated into the statements required by § 299.37-5 if the submission of the latter mentioned statements will not thereby be delayed; otherwise, supplementary accountings embodying statements of post redelivery overhead expense should be submitted.

(Sec. 204, 49 Stat. 1987, as amended, sec. 5, 55 Stat. 244, sec. 12, 60 Stat. 49; 46 U. S. C. 1114, 50 U. S. C. App., 1275, 1745)

Dated: June 5, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Exchange Authority

[17 CFR, Part 3]

SPECIAL PROVISIONS APPLICABLE TO COTTON

NOTICE OF PROPOSED AMENDMENTS

Notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), that the Secretary of Agriculture is considering the issuance of amendments to §§ 3.16 and 3.17 (e) of the regulations promulgated under the Commodity Exchange Act (17 CFR 3.16, 3.17 (e)).

The proposed amendment to § 3.16 would eliminate the present requirement that reports on Form 304 be filed as of the close of business on July 31 of each year.

The proposed amendment to § 3.17 (e) would require that reports made by any person on Form 304 show such person's fixed-price spot-cotton positions (both long and short). The proposed amendment thus would eliminate the present provision of § 3.17 (e) which conditions the reporting of fixed-price spot-cotton positions on the holding or controlling of 20,000 bales or more of open contracts in any one cotton future on any contract market.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendments shall file the same with the Administrator, Commodity Exchange Authority, United States Department of Agriculture, Washington 25, D. C., not later than 5:30 p. m., e. d. t., on the 20th day after the publication of this notice in the FEDERAL REGISTER.

Issued this 5th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

U. S. STANDARDS FOR ALMONDS IN THE SHELL

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Almonds in the Shell under the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with M. W. Baker, Deputy Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t., on the thirtieth (30) day after the publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.456 *Standards for almonds in the shell*—(a) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of almonds in the shell which are of similar varietal characteristics, clean, fairly bright, fairly uniform in color, which are free from loose hulls, pieces of shells, chaff and foreign material and free from damage caused by discoloration, adhering hulls broken shells, or other means. The kernels shall be well dried, free from decay, rancidity, insect injury, and free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) Unless otherwise specified, the minimum thickness of the almond shall be not less than 28/64 of an inch.

(ii) In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(*a*) *For external defects.* Ten percent, by count (except that loose hulls, chaff, pieces of shells and foreign material shall be determined by weight), for almonds which fail to meet the requirements of the grade, other than for variety and size: *Provided*, That, not more than 2 percent, by weight, shall be allowed for loose hulls, chaff, pieces of shells and foreign material, including not more than one-half of this amount, or 1 percent, that will pass through a screen with 24/64 inch round openings;

(*b*) *For dissimilar varieties.* Five percent, by count, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*c*) *For size.* Five percent, by count, for almonds which fail to meet the size requirements; and

(*d*) *For internal defects.* Ten percent, by count, for almonds which fail to meet the grade requirements: *Provided*, That, not more than one-half of this amount, or 5 percent, shall be allowed for kernels affected by decay, rancidity, insect injury and damage by mold.

(2) *U. S. No. 1 Mixed.* U. S. No. 1 Mixed consists of almonds in the shell which meet the requirements of U. S. No. 1 grade, except that the varieties are mixed, but may include not more than 1 percent of bitter almonds mixed with sweet almonds.

(3) *U. S. No. 2.* U. S. No. 2 consists of almonds in the shell which meet the requirements of U. S. No. 1 grade, except that an additional tolerance of 20 percent shall be allowed for discoloration.

(4) *U. S. No. 2 Mixed.* U. S. No. 2 Mixed consists of almonds in the shell which meet the requirements of the U. S. No. 2 grade, except that the varieties are mixed, but may include not more than 1 percent of bitter almonds mixed with sweet almonds.

(b) *Unclassified.* Unclassified consists of almonds which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances and determination of the grades.* The tolerances for the foregoing grades are to be applied to the entire lot, and a composite sample shall be taken for determining the grade. However, any container or group of containers in which the almonds are found to be materially inferior to those in the majority of the containers shall be considered a separate lot.

(1) In determining the grade of a lot of almonds, the percentage of loose hulls, pieces of shells, chaff and foreign material is first determined on the basis of weight. Then a stated number of nuts is counted out (depending upon the size of the lot) from the composite sample. These almonds are next examined for size, dissimilar varieties and external defects. The same nuts are then cracked and examined for internal defects.

(d) *Definitions.* (1) "Similar varietal characteristics" means that the almonds are similar in shape and are reasonably uniform in degree of hardness of the shells. For example, hard-shelled varieties shall not be mixed with semi-soft-shelled, soft-shelled and paper-shelled varieties; and semi-soft-shelled varieties shall not be mixed with soft-shelled and paper-shelled varieties; and soft-shelled varieties shall not be mixed with paper-shelled varieties. Likewise, bitter almonds shall not be mixed with sweet almonds.

(2) "Clean" means that the individual almond is practically free from dirt and other foreign matter.

(3) "Fairly bright" means that the almonds show good characteristic color.

(4) "Fairly uniform color" means that the shells do not show excessive variation in color.

(5) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the almonds. Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Discoloration which is distinctly gray to black, when affecting more than one-eighth of the surface of the shell in the aggregate, but normal color variations, such as reddish or brown between varieties, and within some varieties, are not to be considered as discoloration;

(ii) Adhering hulls, when covering more than 5 percent of the shell surface in the aggregate;

(iii) Broken shells, when a portion of the shell is missing or fractured to the

extent that moderate pressure will cause the kernel to become dislodged;

(iv) Mold, when affecting the kernel, except when white or grayish in color and easily rubbed off with the fingers;

(v) Gum, when a film of shiny, resinous appearing substance covers more than one-eighth of the surface of the kernel;

(vi) Shriveling, when the kernel is excessively thin for its size, or when materially withered, shrunken, leathery, tough or partially developed: *Provided*, That, partially developed kernels are not considered damaged if more than three-fourths of the pellicle is filled with meat; and,

(vii) Brown spot on the kernel, either single or multiple, when the affected area is more than the equivalent of a circle one-eighth inch in diameter.

(6) "Well dried" means that the kernel is firm and brittle and not pliable or leathery.

(7) "Decay" means that the kernel is putrid or decomposed.

(8) "Rancidity" means that the kernel is noticeably rancid to the taste.

(9) "Insect injury" means that the insect, web, or frass is present or there is visible evidence of insect injury.

(10) "Thickness" means the greatest distance between the two flat surfaces of the shell. The minimum thickness shall be determined by passing the almonds through slotted openings with sufficient length to permit the almonds to go through lengthwise.

Done at Washington, D. C., this 5th day of June 1951.

Acting Assistant Administrator, Production and Marketing Administration.

U. S. STANDARDS FOR SHELLED ALMONDS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Shelled Almonds under the authority contained in the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with M. W. Baker, Deputy Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m. e. s. t. on the thirtieth (30) day after the publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.457 *Standards for shelled almonds*—(a) *Grades*—(1) *U. S. Fancy.* U. S. Fancy consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from injury caused by chipped and scratched kernels, and free from damage caused by mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size).

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) For dissimilar varieties. 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) For doubles. 3 percent;

(*c*) For kernels injured by chipping or scratching. 5 percent;

(*d*) For foreign material. Two-tenths of 1 percent (0.20%);

(*e*) For particles and dust. One-tenth of 1 percent (0.10%); and,

(*f*) For other defects. 2 percent, including not more than one-fourth of this amount, or one-half of 1 percent (0.50%), for serious damage.

(2) *U. S. Extra No. 1.* U. S. Extra No. 1 consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size).

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) *For doubles.* 5 percent.

(*c*) *For kernels damaged by chipping or scratching.* 5 percent;

(*d*) *For foreign material.* Two-tenths of 1 percent (0.20%);

(*e*) *For particles and dust.* One-tenth of 1 percent (0.10%); and.

(*f*) *For other defects.* 4 percent, including not more than one-fourth of this amount, or 1 percent, for serious damage.

(3) *U. S. No. 1.* U. S. No. 1 consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size.)

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) *For doubles.* 15 percent;

(*c*) *For kernels damaged by chipping or scratching.* 10 percent;

(*d*) *For foreign material.* Two-tenths of 1 percent (0.20%);

(*e*) *For particles and dust.* One-tenth of 1 percent (0.10%); and.

(*f*) *For other defects.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for serious damage.

(4) *U. S. Select Sheller Run.* U. S. Select Sheller Run consists of shelled almonds which are of similar varietal characteristics, whole, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, split and broken kernels, particles and dust, and which are free from damage caused by chipped and scratched kernels, mold, gum, shriveling, brown spot, or other means. (See size requirements and tolerances for size.)

(i) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) *For doubles.* 25 percent;

(*c*) *For kernels damaged by chipping and scratching.* 20 percent;

(*d*) *For foreign material.* Two-tenths of 1 percent (0.20%);

(*e*) *For particles and dust.* One-tenth of 1 percent (0.10%);

(*f*) *For split and broken kernels.* 15 percent: *Provided*, That, not more than one-third of this amount, or 5 percent, shall be allowed for pieces which will pass through a round opening $\frac{2}{64}$ inch in diameter; and,

(*g*) *For other defects.* 3 percent, including not more than one-third of this amount, or 1 percent, for serious damage.

(6) *U. S. No. 1 Whole and Broken.* U. S. No. 1 Whole and Broken consists of shelled almonds which are of similar varietal characteristics, clean, well dried, which are free from decay, rancidity, insect injury, foreign material, doubles, particles and dust, and which are free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) In this grade not less than 30 percent, by weight, of the kernels shall be whole. Doubles shall not be considered as whole kernels in determining the percentage of whole kernels.

(ii) Unless otherwise specified, the minimum diameter shall be not less than $\frac{20}{64}$ of an inch. (See other size requirements and tolerances for size).

(iii) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For dissimilar varieties.* 5 percent, including not more than one-fifth of this amount, or 1 percent, for bitter almonds mixed with sweet almonds;

(*b*) *For doubles.* 35 percent;

(*c*) *For foreign material.* Three-tenths of 1 percent (0.30%);

(*d*) *For particles and dust.* One-tenth of 1 percent (0.10%);

(*e*) *For undersize.* 5 percent; and,

(*f*) *For other defects.* 5 percent, including not more than three-fifths of this amount, or 3 percent, for serious damage.

(7) *U. S. No. 1 Pieces.* U. S. No. 1 Pieces consists of shelled almonds which are not bitter, which are clean, well dried, which are free from decay, rancidity, insect injury, foreign material, particles and dust, and which are free from damage caused by mold, gum, shriveling, brown spot, or other means.

(i) Unless otherwise specified, the minimum diameter shall be not less than $\frac{5}{64}$ of an inch. (See other size requirements and tolerances for size).

(ii) In order to allow for variations incident to proper grading and handling, the following tolerances, by weight, shall be permitted:

(*a*) *For bitter almonds mixed with sweet almonds.* 1 percent;

(*b*) *For foreign material.* Three-tenths of 1 percent (0.30%);

(*c*) *For particles and dust.* 1 percent; and,

(*d*) *For other defects.* 5 percent, including not more than three-fifths of this amount, or 3 percent, for serious damage.

(b) *Mixed varieties.* Any lot of shelled almonds consisting of a mixture of two or more dissimilar varieties which meet the other requirements of any of the grades of U. S. No. 1, U. S. Select Sheller Run, U. S. Standard Sheller Run, U. S. No. 1 Whole and Broken may be designated as: "U. S. No. 1 Mixed;" "U. S. Select Sheller Run Mixed;" "U. S. Standard Sheller Run Mixed;" or "U. S. No. 1 Whole and Broken Mixed," respectively; but no lot of any of these grades may include more than 1 percent of bitter almonds mixed with sweet almonds.

(c) *Unclassified.* Unclassified consists of shelled almonds which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Size requirements.* The size may be specified in terms of range in count of whole almond kernels per ounce or in terms of minimum, or minimum and maximum diameter. When a range in count is specified, the whole kernels shall be fairly uniform in size, and the average count per ounce shall be within the range specified. Doubles and broken kernels shall not be used in determining counts. Permissible count ranges per ounce are shown below but a narrower or wider range may be specified: *Provided*, That, the kernels are fairly uniform in size.

Count range per ounce	*Count range per ounce*
16 to 18, inclusive	26 to 28, inclusive
18 to 20, inclusive	27 to 30, inclusive
20 to 22, inclusive	30 to 34, inclusive
22 to 24, inclusive	36 to 40, inclusive
23 to 25, inclusive	40 to 50, inclusive
24 to 26, inclusive	50 and smaller

(e) *Tolerances for size.* When a range is specified as, for example, "18/20," no tolerance for counts above or below the range shall be allowed.

(i) When the minimum, or minimum and maximum diameters are specified, a total tolerance of not more than 10 percent, by weight, may fail to meet the specified size requirements: *Provided*, That, not more than one-half of this amount, or 5 percent, may be below the minimum size specified.

(f) *Application of tolerances.* The tolerances for the grades are to be applied to the entire lot, and a composite sample shall be taken for determining the grade. However, any container or group of containers in which the almonds are found to be materially inferior to those in the majority of the containers shall be considered a separate lot.

(g) *Definitions.* (1) "Similar varietal characteristics" means that the kernels are similar in shape and appearance. For example, long types shall not be mixed with short types, or broad types mixed with narrow types, and bitter almonds shall not be mixed with sweet almonds. Color of the kernels shall not be considered, since there is often a marked difference in color of kernels of the same variety.

(2) "Whole" means that there is less than one-eighth of the kernel chipped off or missing, and that the general contour of the kernel is not materially affected by the missing part.

(3) "Clean" means that the kernel is practically free from dirt and other foreign substance.

(4) "Well dried" means that the kernel is firm and brittle, and not pliable or leathery.

(5) "Decay" means that the kernel is putrid or decomposed.

(6) "Rancidity" means that the kernel is noticeably rancid to the taste.

(7) "Insect injury" means that the insect, web, or frass is present or there is visible evidence of insect injury.

(8) "Foreign material" means pieces of shell, hulls or other foreign matter which will not pass through a round opening $\frac{5}{64}$ of an inch in diameter.

(9) "Doubles" means kernels that developed in shells containing two kernels. One side of a double kernel is flat or concave.

(10) "Split or broken kernels" means seven-eighths or less of complete whole kernels but which will not pass through a round opening $\frac{5}{64}$ of an inch in diameter.

(11) "Particles and dust" means fragments of almond kernels or other material which will pass through a round opening $\frac{5}{64}$ of an inch in diameter.

(12) "Injury" means any defect which more than slightly affects the appearance of the individual almond, or the general appearance of the lot. The following shall be considered as injury:

(i) Chipped and scratched kernels, when the general appearance of the lot is more than slightly affected, or when the affected area on an individual kernel aggregates more than the equivalent of a circle one-eighth inch in diameter.

(13) "Damage" means any defect which materially affects the appearance of the individual kernel, or the general appearance of the lot, or the edible or shipping quality of the almonds. Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(i) Chipped and scratched kernels, when the general appearance of the lot is materially affected, or when the affected area on an individual kernel aggregates more than the equivalent of a circle one-quarter inch in diameter;

(ii) Mold, when affecting the kernel, except when white or grayish in color and easily rubbed off with the fingers;

(iii) Gum, when a film of shiny, resinous appearing substance covers more than one-eighth of the surface of the kernel;

(iv) Shriveling, when the kernel is excessively thin for its size, or when materially withered, shrunken, leathery, tough or partially developed, provided that partially developed kernels are not considered damaged if more than three-fourths of the pellicle is filled with meat; and,

(v) Brown spot on the kernel, either single or multiple, when the affected area aggregates more than the equivalent of a circle one-eighth inch in diameter.

(14) "Serious damage" means any defect which makes a kernel or piece of kernel unsuitable for human consumption, and includes decay, rancidity, insect injury and damage by mold.

(15) "Diameter" means the greatest dimension of the kernel, or piece of kernel at right angles to the longitudinal axis. Diameter shall be determined by passing the kernel, or piece of kernel through a round opening.

(16) "Fairly uniform in size" means that, in a representative sample, the weight of 10 percent, by count, of the largest whole kernels shall not exceed

1.70 times the weight of 10 percent, by count, of the smallest whole kernels.

U. S. STANDARDS FOR GRADES OF CANNED GREEN BEANS AND CANNED WAX BEANS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of the United States Standards for Grades of Canned Green Beans and Canned Wax Beans, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1521, et seq.) and the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759, 81st Cong., approved September 6, 1950). This revision, if made effective, will be the fifth issue by the Department of Grade Standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

§ 52.165 *Canned green beans and canned wax beans*—(a) *Identity.* (1) "Canned green beans" means canned green beans as defined in the definitions and standard of identity for canned green beans (21 CFR, Cum. Supp., 51.10; 13 F. R. 3725), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(2) "Canned wax beans" means canned wax beans as defined in the definitions and standard of identity for canned wax beans (21 CFR, Cum. Supp., 51.15; 13 F. R. 5725), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(3) "Canned beans" means canned green beans or canned wax beans.

(4) "Whole green beans" or "whole wax beans" means canned beans consisting of whole pods, including pods which after removal of either or both ends are less than 2¾ inches in length, or transversely cut pods not less than 2¾ inches in length.

(5) "Unit" means an individual green bean or wax bean, or portion of either, in canned beans.

(b) *Styles of canned beans.* (1) "Whole" means canned beans that are not arranged in any definite position in the container.

(2) "Whole vertical pack" means canned beans that are packed parallel to the sides of the container.

(3) "Whole asparagus style" means canned beans consisting of pods that are cut at both ends, are of substantially equal lengths, and are packed parallel to the sides of the container.

(4) "Sliced lengthwise" or "French style" means canned beans consisting of pods that are sliced lengthwise.

(5) "Cut" or "cuts" means canned beans consisting of pods that are cut transversely into pieces less than 2¾ inches, but not less than ¾ inch, in length, and may contain shorter end pieces which result from cutting.

(6) "Short cut" or "short cuts" means canned beans consisting of pieces of pods of which not less than 75 percent are less than ¾ inch in length and not more than 1 percent are more than 1¼ inches in length.

(7) "Mixed" or "mixture" means a mixture of two or more of the following forms of canned beans: "whole;" "sliced lengthwise;" "cuts;" or "short cuts."

(c) *Grades of canned beans.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not materially affected in appearance by sloughing of the epidermis; are very young and tender; and are of such quality with respect to clearness of liquor, uniformity of color, and absence of defects as to score not less than 90 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade B" or "U. S. Extra Standard" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not materially affected in appearance by sloughing of the epidermis; possess a reasonably uniform typical color; are young and reasonably tender; are reasonably free from defects; and are of such quality with respect to clearness of liquor as to score not less than 75 points when scored in accordance with the scoring system outlined in this section.

(3) "U. S. Grade C" or "U. S. Standard" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not seriously affected in appearance by sloughing of the epidermis; possess a fairly uniform typical color; are nearly mature and fairly tender; possess a fairly good liquor; are fairly free from defects; and score not less than 60 points when scored in accordance with the scoring system outlined in this section.

(4) U. S. Grade "D" or "Substandard" is the quality of canned beans that fail to meet the requirements of "U. S. Grade C" or "U. S. Standard."

(5) "U. S. Grade D—below standard in quality, good food—not high grade" or "substandard—below standard in quality, good food—not high grade" or "U. S. Grade D—below standard in quality, excessive number very short pieces" or "substandard—below standard in quality, excessive number very short pieces" or "U. S. Grade D—below standard in quality, excessive number blemished units" or "substandard—below standard in quality, excessive number blemished units" or "U. S. Grade D—below standard in quality, excessive number unstemmed units" or "substandard—below standard in quality, excessive number unstemmed units" or "U. S. Grade D—below standard in quality, excessive foreign material" or "substandard—below standard in quality, excessive foreign material," is the quality of canned beans that fall below the standard of quality of canned green beans (21 CFR Cum. Supp., 51.11; 13 F. R. 3726) or the standard of quality of canned wax beans (21 CFR Cum. Supp., 51.16; 13 F. R. 3728), as the case may be.

(d) *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned beans be filled with green beans or wax beans, as the case may be, as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the total capacity of the container.

(e) *Recommended drained weight.* The drained weight recommendations in Table No. I of this section are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of green beans or wax beans, as the case may be, is determined by emptying the contents of the container upon a circular sieve of proper diameter containing 8 meshes to the inch (0.097-inch square openings) and allowing to drain for 2 minutes. A sieve 8 inches in diameter is used for No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the No. 3 size can.

TABLE NO. I—RECOMMENDED DRAINED WEIGHTS IN OUNCES, OF GREEN BEANS AND WAX BEANS

Container size or designation	Styles of canned beans			
	Whole	Whole vertical pack or whole asparagus style	Sliced lengthwise	Cuts, short cuts, or mixtures
No. 1 E	6½		6½	
No. 1 Tall	9½		9½	
No. 300	8½		8½	
No. 303	9½		9½	
No. 2	11½	12½	12	11½
No. 2½	16½	18	17½	16½
No. 10	61		65	58

(f) *Types of canned beans.* The type of canned beans is not incorporated in the grades of the finished product, since the type of canned beans is not a factor of quality for the purpose of these grades. The type of canned beans is dependent upon the type of beans packed in the container and is described as round type or flat type.

(1) "Round type canned green beans" are canned beans consisting of round type green beans having a width not greater than 1½ times the thickness of the bean. "Round type canned wax beans" are canned beans consisting of round type wax beans having a width not greater than 1½ times the thickness of the bean.

(2) "Flat type canned green beans" are canned beans consisting of flat type green beans having a width greater than 1½ times the thickness of the bean. "Flat type canned wax beans" are canned beans consisting of flat type wax beans having a width greater than 1½ times the thickness of the bean.

(g) *Sizes of green beans or wax beans in canned beans.* The size of green beans or wax beans is not a factor of quality of canned beans for the purpose of these grades. The size of a green bean or wax bean is determined by measuring the shorter diameter of the bean transversely to the long axis at the thickest portion of the pod. The designations of the various sizes of round type and flat type green beans or wax beans packed as canned beans are shown in Table No. II of this section.

TABLE NO. II—SIZES OF GREEN BEANS AND WAX BEANS IN CANNED BEANS

Size of beans (inches in thickness)	Round type beans in various styles of canned beans			Flat type beans in whole, cut, or short cut beans	
	Number designation	Whole beans, word designation	Cut or short cut beans, word designation	Number designation	Word designation
Less than 11/64 inch in thickness	Size 1	Tiny	Small	Size 2	Small.
11/64 inch to, but not including, 13/64 inch in thickness	Size 2	Small	do	Size 3	Medium.

27/64 inch or more in thickness	Size 6	Extra large	Extra large	Size 6	Extra large.

(h) *Ascertaining the grade.* (1) The grade of canned beans may be ascertained by considering, in addition to the requirements of the respective grade, the following factors: Clearness of liquor, color, absence of defects, and maturity. The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
(i) Clearness of liquor	10
(ii) Color	15
(iii) Absence of defects	35
(iv) Maturity	40
Total score	100

(2) "Normal flavor and normal odor" means that the canned beans are free from objectionable flavors and objectionable odors of any kind.

(i) *Ascertaining the rating of each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, "32 to 35 points" means 32, 33, 34, or 35 points).

(1) *Clearness of liquor.* (i) Canned beans that possess a practically clear liquor may be given a score of 9 to 10 points. "Practically clear liquor" means that the liquor may possess a slight tint of yellow-green to green color and that not more than a trace of suspended material and sediment is present.

(ii) If the canned beans possess a reasonably clear liquor, a score of 7 to 8 points may be given. "Reasonably clear liquor" means that the liquor may be cloudy and contain a small quantity of sediment.

(iii) If the canned beans possess a fairly good liquor, a score of 5 to 6 points may be given. "Fairly good liquor" means that the liquor may be dull in color, but not off-color; may be cloudy; or may possess a noticeable accumulation of sediment.

(iv) Canned beans that possess a liquor that is definitely off-color for any reason, is excessively cloudy, or contains a seriously objectionable quantity of sediment may be given a score of 0 to 4 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Color.* (i) Canned beans that possess a practically uniform bright typical color may be given a score of 14 to 15 points. "Practically uniform bright typical color" means that the canned beans possess a color that is bright and typical of very young and tender green beans or wax beans, as the case may be, or similar varietal characteristics with not more than 5 percent, by count, which vary markedly from this color.

(ii) If the canned beans possess a reasonably uniform typical color, a score of 12 to 13 points may be given. "Reasonably uniform typical color" means that the canned beans possess a color that is typical of young and reasonably tender green beans or wax beans, as the case may be, of similar varietal characteristics with not more than 10 percent, by count, which vary markedly from this color.

(iii) Canned beans that possess a fairly uniform typical color may be given a score of 10 to 11 points. Canned beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly uniform typical color" means that the canned beans possess a color that is typical of nearly mature and fairly tender green beans or wax beans, as the case may be, of similar varietal characteristics with not more than 15 percent, by count, which vary markedly from this color.

(iv) Canned beans that are definitely off-color or fail to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 9 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* (i) The factor of absence of defects refers to the degree of freedom from extraneous vegetable matter, loose seed and pieces of seed, unstemmed units, ragged-cut units, split units, small pieces of pods, units damaged by mechanical injury, and units blemished by scars, pathological injury, insect injury, or blemished by other means.

(a) "Blemished unit" means any unit in which the aggregate area affected exceeds the area of a circle ⅛ inch in diameter.

(b) "Seriously blemished" means blemished to such an extent that the appearance or eating quality of the unit is seriously affected.

(c) "Extraneous vegetable matter" means leaves, detached stems, and other similar vegetable matter.

(d) "Ragged-cut unit" means a section of a pod that has a very ragged edge, or a section of a pod that is partially cut.

(e) "Practically intact" means that not more than 5 percent, by weight, of the units in a container are split into two parts.

(f) "Reasonably intact" means that not more than 10 percent, by weight, of the units in a container are split into two parts.

(g) "Small pieces of pods" means pieces of pods less than ½ inch in length.

(h) "Damaged by mechanical injury" means broken or damaged to such an extent that the appearance or eating quality of the unit is seriously affected.

(ii) Canned beans that are practically free from defects may be given a score of 32 to 35 points. "Practically free from defects" has the following meanings with respect to the following styles of packs of canned green beans or canned wax beans:

(a) *Whole or cut.* "Practically free from defects" means that the units are practically intact; the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

any combination of not more than 5 ragged-cut units and units damaged by mechanical injury; and

Not more than 5 ragged-cut units, 5 in cut style, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(b) *Sliced lengthwise.* "Practically free from defects" means that the pods are well sliced; the combined weight of all defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems; and

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished.

(c) *Short cuts.* "Practically free from defects" means that the units are practically intact; the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury; and

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished.

(d) *Mixed when not containing pods that are sliced lengthwise.* "Practically free from defects" means that the units are practically intact; the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury; and

Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(e) *Mixed when containing pods that are sliced lengthwise.* "Practically free from defects" means that the pods that are sliced lengthwise are well sliced and that all other units are practically intact; and with respect to each mixture that the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished; and

Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(iii) If the canned beans are reasonably free from defects, a score of 27 to 31 points may be given. "Reasonably free from defects" has the following meanings with respect to the following styles of canned beans:

(a) *Whole or cut.* "Reasonably free from defects" means that the units are reasonably intact; the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished; and

Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(b) *Sliced lengthwise.* "Reasonably free from defects" means that the pods are reasonably well sliced; the combined weight of all defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished.

(c) *Short cuts.* "Reasonably free from defects" means that the units are reasonably intact; the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished;

Not more than 10 ragged-cut units, 10 units damaged by mechanical injury, or any combination of not more than 10 ragged-cut units and units damaged by mechanical injury; and

Not more than 60 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(d) *Mixed when not containing pods that are sliced lengthwise.* "Reasonably free from defects" means that the units are reasonably intact; the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished;

Not more than 10 ragged-cut units, 10 units damaged by mechanical injury, or any combination of not more than 10 ragged-cut units and units damaged by mechanical injury; and

Not more than 60 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(e) *Mixed when containing pods that are sliced lengthwise.* "Reasonably free from defects" means that the pods that are sliced lengthwise are reasonably well sliced and that all other units are practically intact; and with respect to each mixture that the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished; and

Not more than 60 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(iv) If the canned beans are fairly free from defects, a score of 22 to 26 points may be given. Canned beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" has the following meanings with respect to the following styles of canned beans:

(a) *Whole or cut.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished.

(b) *Sliced lengthwise.* "Fairly free from defects" means that the pods are fairly well sliced; the combined weight of all defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of the units;[2] and

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished.

(c) *Short cuts.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished; and

There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(d) *Mixed when not containing pods that are sliced lengthwise.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished; and

There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(e) *Mixed when containing pods that are sliced lengthwise.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of the units;[2] and

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished.

[2] Determined as outlined in the standards of quality of canned green beans (21 CFR, Cum. Supp., 51.11; 13 F. R. 3726) and canned wax beans (21 CFR, Cum. Supp., 51.16; 13 F. R. 3728) promulgated under the Federal Food, Drug, and Cosmetic Act.

There are not more than 6 unstemmed units per 12 ounces, drained weight, of the units;[2] and

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished.

(c) *Short cuts.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished; and

There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(d) *Mixed when not containing pods that are sliced lengthwise.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished; and

There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(e) *Mixed when containing pods that are sliced lengthwise.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished; and

There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(v) Canned beans that fail to meet the requirements of subdivision (iv) of this subparagraph may be given a score of 0 to 21 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(vi) Canned beans that fall below the standard of quality of canned green beans (21 CFR, Cum. Supp., 51.11; 13 F. R. 3726) or the standard of quality of canned wax beans (21 CFR, Cum. Supp., 51.16; 13 F. R. 3728), as the case may be, shall not be graded above U. S. Grade D—below standard in quality, good food—not high grade, or substandard—below standard in quality, good food—not high grade, or U. S. Grade D—below standard in quality, excessive number very short pieces, or substandard—below standard in quality, excessive number very short pieces, or U. S. Grade D—below standard in quality, excessive number blemished units, or substandard—below standard in quality, excessive number blemished units, or U. S. Grade D—below standard in quality, excessive number unstemmed units, or substandard—below standard in quality, excessive number unstemmed units, or U. S. Grade D—below standard in quality, excessive foreign material, or substandard—below standard in quality, excessive foreign material, as the case may be, regardless of the total score for the product (this is a limiting rule).

(4) *Maturity.* (i) The factor of maturity refers to the degree of development of pods and seeds and the tenderness of the pods.

(a) "Trimmed pod" means any pod from which there has been trimmed off as far as the end of the space formerly occupied by seed, any portion of the pod from which seed have become separated.

(b) "Tough strings" means strings or pieces of string at least ½ inch in length which will support a ½ pound weight for not less than 5 seconds.

(c) "Fibrous material" means the properly prepared, dried cellulose material obtained from deseeded pods, including strings broken or unbroken.

(ii) Canned beans that are very young and tender may be given a score of 35 to 40 points. "Very young and tender" means that the units are full-fleshed for the variety, tender and not fibrous; the seeds are in the early stages of maturity; and not more than 5 percent, by count, of the units possess tough strings.

(iii) If the canned beans are young and reasonably tender, a score of 29 to 34 points may be given. Canned green beans or canned wax beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Young and reasonably tender" means that the units may, to some extent, have lost their fleshy structure; the seeds may have passed the early stages of maturity and have not reached the late stages

of maturity; are not fibrous; and not more than 10 percent, by count, of the units may possess tough strings.

(iv) If the canned beans are nearly mature and fairly tender, a score of 23 to 28 points may be given. Canned green beans or canned wax beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Nearly mature and fairly tender" means that the units may have lost, to a considerable extent, their fleshy structure, and that:

The trimmed pods contain not more than 25 percent, by weight, of seed and pieces of seed;[2]

The deseeded pods contain not more than 0.15 percent, by weight, of fibrous material;[2] and

Not more than 20 percent, by count, of the units may possess tough strings except that in case there are present units at least $2^{7}/_{64}$ inch or more in diameter, there are not more than 12 strings or pieces of strings in 12 ounces, drained weight, which will support a ½ pound weight for not less than 5 seconds.[2]

(v) Canned beans that fail to meet the requirements of subdivision (iv) of this subparagraph may be given a score of 0 to 22 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(vi) Canned beans that fall below the standard of quality of canned green beans (21 CFR, Cum. Supp., 51.11; 13 F. R. 3726) or the standard of quality of canned wax beans (21 CFR, Cum. Supp., 51.16; 13 F. R. 3728), as the case may be, shall not be graded above U. S. Grade B—Below standard in quality, good food—not high grade, or Substandard—Below standard in quality, good food—not high grade, regardless of the total score for the product (this is a limiting rule).

(j) *Tolerance for certification of officially drawn samples.* When certifying samples that have been officially drawn and which represent a specific lot of canned green beans or canned wax beans, the grade for such lot will be determined by averaging the total score of all containers, if:

(i) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by a reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

WHEAT

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO MARKETING QUOTAS FOR 1952 CROP OF WHEAT AND OF NATIONAL ACREAGE ALLOTMENT FOR THE 1952 CROP OF WHEAT

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1332, 1333, 1335), the Secretary is preparing to determine whether marketing quotas are required to be proclaimed for the 1952 crop of wheat, and to determine and proclaim the national acreage allotment for the 1952 crop of wheat.

Section 333 of said act provides that the national acreage allotment shall be that acreage which the Secretary determines will, on the basis of the national average yield for wheat, produce an amount thereof adequate, together with the estimated carry-over at the beginning of the marketing year for such crop and imports, to make available a supply for such marketing year equal to a normal year's domestic consumption and exports plus 30 per centum thereof; but such allotment for any year shall not be less than 55 million acres. Section 332 of said act requires that the national acreage allotment for the 1952 crop of wheat be proclaimed not later than July 15, 1951.

Section 335 of said act provides that whenever in the calendar year 1951 the Secretary determines (1) that the total supply of wheat for the 1951–52 marketing year will exceed the normal supply for such marketing year by more than 20 per centum or (2) that the total supply of wheat for the 1950–51 marketing year is not less than the normal supply for such marketing year and that the average farm price for wheat for three consecutive months of such marketing year does not exceed 66 per centum of parity, the Secretary shall, not later than July 1, 1951, proclaim such fact and a national marketing quota shall be in effect on the marketing of wheat during the 1952–53 marketing year.

As defined in section 301 of the act, for the purpose of these determinations, "total supply" for any marketing year is the carry-over of wheat for such marketing year, plus the estimated production of wheat in the United States during the calendar year in which such marketing year begins and the estimated imports of wheat into the United States during such marketing year; "normal supply" for any marketing year is the estimated domestic consumption of wheat for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus the estimated exports of wheat for the marketing year for which normal supply is being determined plus 15 per centum of such consumption and exports; "normal year's domestic consumption" of wheat is the yearly average quantity of wheat that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption; "normal year's exports" of wheat is the yearly quantity of wheat produced in the United States that was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports; "marketing year" for wheat is the period July 1–June 30; and "national average yield" of wheat is the national average yield of wheat for the ten calendar years preceding the year in which such national average yield is used, adjusted for abnormal weather conditions and for trends in yields.

In preparing to make such determinations and proclamations, the Secretary has under consideration sections 304 and 371 (b) of the act which authorize increases in or terminations of marketing quotas and acreage allotments for any of the several commodities to which farm marketing quotas are applicable in case the Secretary finds such action necessary to protect consumers, to meet a national emergency, or to provide for a material increase in exports.

Prior to making any of the foregoing determinations with respect to the 1952 crop of wheat, consideration will be given to any data, views, and recommendations

pertaining thereto which are submitted in writing to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 5th day of June 1951.

[SEAL] HAROLD K. HILL,
Acting Administrator.

[Docket No. AO-166-A14]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Sinton Hotel, Fourth and Vine Streets, Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., June 12, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by Cincinnati Sales Association, Inc. and Cooperative Pure Milk Association.

1. Amend § 965.41 (a) by including "concentrated milk" therein as a Class I product.

2. Amend § 965.51 (a) by adding thereto the following: *"Provided*, That the price so computed for Class I milk shall be adjusted by an amount determined on a market-wide basis of supply and demand in the following manner: Divide the total gross Class I sales (less interhandler transfers) for the second and third months preceding by total receipts of milk from producers for the same months, multiply by 100, and round to the nearest point. For each point change the gross Class I percentage utilization so computed is more or less than the gross Class I percentage utilization so computed for the same two months of 1949, add or subtract, respectively, two cents for each of the months of April, May and June; three cents for each of the months of January, February and March; and four cents for each of the months of July, August, September, October, November and December."

Proposed by Robert N. Gorman on behalf of a group of handlers.

4. Amend § 965.51 (a) by adding thereto the following: *"Provided*, That there shall be subtracted from the price of Class I milk so computed 50 cents for any month which is immediately preceded by six months during which on a market-wide basis the percentage of the total receipts of milk received from producers which was classified as Class I and Class II was less than the percentage of the total receipts of milk received from producers which was classified as Class I and Class II (computed under current order provisions) during the same six months of 1950."

5. Amend § 965.51 (b) by adding thereto the following: *"Provided*, That there shall be subtracted from the price of Class II milk so computed 50 cents for any month which is immediately preceded by six months during which on a market-wide basis the percentage of the total receipts of milk received from producers which was classified as Class I and Class II milk was less than the percentage of the total receipts of milk received from producers which was classified as Class I and Class II (computed under current order provisions) during the same six months of 1950."

6. Amend that portion of § 965.51 (c) which precedes subparagraph (1) thereof to read as follows:

(c) The price for Class III milk shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph.

It has been represented that an emergency exists in the market with respect to these proposals. Accordingly, this hearing has been called for the purpose of receiving evidence with relation thereto.

Copies of this notice of hearing, the said order, as amended, and the said marketing agreement may be procured from the Market Administrator, 152 East Fourth Street, Cincinnati, Ohio, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated June 4, 1951, at Washington, D. C.

Assistant Administrator.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR, Part 330]

SPECIAL CLASSES OF PERSONS WHO MAY BE NATURALIZED: FORMER UNITED STATES CITIZENS

PROCEDURAL CHANGES

MAY 25, 1951.

Pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), notice is hereby given of the proposed issuance by the Commissioner of Immigration and Naturalization, with the approval of the Attorney General, of the following rule relating to procedural changes in the processing of an application submitted by a person who is desirous of being naturalized under section 323 of the Nationality Act of 1940. In accordance with subsection (b) of said section 4, interested persons may submit to the Commissioner of Immigration and Naturalization, Room 1063, Temporary Federal Office Building X, Nineteenth and East Capitol Streets NE., Washington 25, D. C., written data, views and arguments relative to the substantive provisions of the proposed amendment. Such representations may not be presented orally in any manner. All relevant material received within 20 days following the day of publication of this notice will be considered.

Section 330.6 of Chapter I, Title 8 of the Code of Federal Regulations, is hereby amended to read as follows:

§ 330.6 *Person who lost citizenship of the United States through service in one of the Allied Armies during the First or Second World War.* A person who, while a citizen of the United States and during the First or Second World War, entered the military or naval service of any country at war with a country with which the United States was or is at war, who lost citizenship of the United States by reason of any oath or obligation taken for the purpose of entering such service, or by reason of entering or serving in such armed forces, and who intends to reside permanently in the United States, may be naturalized by taking the oath of renunciation and allegiance specified in section 335 of the Nationality Act of 1940. For the purposes of this section, the Second World War shall be deemed to have commenced on September 1, 1939, and shall continue until such time as the United States shall cease to be in a state of war. Such oath may be taken before any naturalization court, and any person

described in this section who has lost United States citizenship during the Second World War may also take the oath before any diplomatic or consular officer of the United States abroad. Preliminary application to take the oath shall be made on Form N-428 and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The eligibility of an applicant to take the oath shall be investigated by a member of the Service and appropriate recommendation made to the naturalization court. The application to the court shall be made on Form N-409, in triplicate, the original of Form N-409 being retained as a part of the court record and the duplicate and triplicate forwarded to the district director or officer in charge with duplicates of other naturalization papers filed and issued. The district director or officer in charge shall retain the duplicate and forward the triplicate to the Department of State. The taking of such oath before a diplomatic or consular officer abroad shall be in accordance with such regulations as may be prescribed by the Department of State. Any person who has been naturalized a citizen of the United States under this section may make application for a certificate of naturalization in the manner provided in Part 378 of this chapter.

ORDER SCHEDULING HEARING

In re applications of Western Broadcasting Associates, Modesto, California, Docket No. 7938, File No. BP-5336; Maxon B. Sayre and George Stevens, Jr., d/b as West Side Radio, Tracy California, Docket No. 9944, File No. BP-7802; for construction permits.

The Commission having under consideration a petition by Western Broadcasting Associates filed on May 28, 1951, requesting a continuance of the hearing on the engineering issues in the above-entitled matter now scheduled for May 31, 1951, in Washington, D. C.; and

It appearing that Commission Counsel and counsel for Queen City Broadcasting Company, licensee of Station KIRO, have consented to a continuance of the hearing on the engineering issues; and

It further appearing that counsel for West Side Radio has consented to immediate consideration of this petition but has opposed the petition on the ground that it was not filed sufficiently in advance of the scheduled hearing date; and

It further appearing that the consulting engineer for petitioner has professional commitments in the field and away from Washington, D. C., which will not permit him to come to Washington, D. C., until the time of the Commission hearing on the proposed allocation of television channels now scheduled for July 9, 1951; and

It further appearing that the hearing with respect to the non-engineering issues in this proceeding is presently scheduled for June 25, 1951, at Modesto, California, and June 27, 1951, at Tracy, California;

It is hereby ordered, This 29th day of May 1951, that the petition is hereby granted insofar as it requests a continuance of the hearing on engineering issues and denied insofar as it requests that a date be established for the hearing on the engineering issues shortly after the commencement of the aforementioned television hearing; and

It is further ordered, That the hearing shall be held with respect to non-engineering issues at 10:00 a. m., on June 25, 1951, at Modesto, California, and June 27, 1951, at Tracy, California, and the hearing with respect to engineering issues shall be held in Washington, D. C., at a date subsequent to July 9, 1951, to be hereafter specified.

HELENA KROLL

In re: Estate of Helena Kroll, deceased. File No. 017-663.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That George Baues, whose last known address was, on April 19, 1951, Germany, was on such date a resident of Germany and a national of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of George Baues, who there is reasonable cause to believe were residents of Germany on April 19, 1951, were on such date nationals of a designated enemy country (Germany);

3. That the total sum of $374.13 was paid to the Attorney General of the United States by von Briesen & von Briesen, Forwarding Agents;

4. That the said sum of $374.13 was accepted by the Attorney General of the United States on April 19, 1951, pursuant to the terms of the Trading With the Enemy Act, as amended;

5. That the said sum of $374.13 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

6. That to the extent that the person named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of George Baues, were not within a designated enemy country on April 19, 1951, the national interest of the United States required that such persons be treated as nationals of a designated enemy country (Germany) on April 19, 1951.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property by acceptance as aforesaid.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 18, 1951.

[Vesting Order 17921]

MARIE GUNZINGER AND AMERICAN NATIONAL BANK OF DENVER

In re: Trust Indenture, dated April 6, 1934, by and between Marie Gunzinger, Settlor, and The American National Bank of Denver, Trustee, as amended. File No. D-28-12972.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Conrad Bantel; Mrs. Helene Lieb, nee Nagel; Willy Nagel; and Mrs. Berta Spengler, nee Nagel, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the issue, names unknown, of Conrad Bantel, and of Katharina Nagel, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That an undivided two-thirds (2 2ds) interest in and to all property of any kind or character whatsoever in the possession, custody or control of The American National Bank of Denver, Denver, Colorado, as trustee under an indenture of trust, dated April 6, 1934, by and between Marie Gunzinger, settlor, and The American National Bank of Denver, trustee, as amended, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof and the issue, names unknown, of Conrad Bantel, and of Katharina Nagel, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, subject to all lawful fees and disbursements chargeable thereto of The American National Bank of Denver, as trustee under an indenture of trust, dated April 6, 1934, by and between Marie Gunzinger, settlor, and The American National Bank of Denver, trustee, as amended, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 24, 1951.

For the Attorney General.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10251

SUSPENSION OF THE EIGHT-HOUR LAW AS TO LABORERS AND MECHANICS EMPLOYED BY THE DEPARTMENT OF DEFENSE ON PUBLIC WORK ESSENTIAL TO THE NATIONAL DEFENSE

WHEREAS by Proclamation No. 2914 of December 16, 1950, I proclaimed the existence of a national emergency, which requires that the military, naval, air, and civilian defenses of this country be strengthened as speedily as possible; and

WHEREAS by section 1 of the act of August 1, 1892, 27 Stat. 340, as amended by the act of March 3, 1913, 37 Stat. 726 (40 U. S. C. 321), the service or employment of all laborers and mechanics employed by the Government of the United States upon any public work of the United States is limited to eight hours in any one calendar day, except in case of extraordinary emergency; and

WHEREAS I find that as to public work being performed by the Department of Defense an extraordinary emergency exists:

NOW, THEREFORE, by virtue of the authority vested in me by section 1 of the said act of August 1, 1892, as amended by the said act of March 3, 1913, and as President of the United States, I hereby suspend for the duration of the national emergency proclaimed by me on December 16, 1950, the above-mentioned provisions of law prohibiting more than eight hours of labor in any one calendar day by laborers and mechanics employed by the Government of the United States as to all work performed by laborers and mechanics employed by the Department of Defense on any public work which is essential to the national defense: *Provided*, That the wages of all laborers and mechanics so employed by the Department of Defense shall be computed on a basic day rate of eight hours of work with overtime to be paid at time and one-half for all hours of work in excess of eight hours in any one day.

Executive Order No. 9898 of October 14, 1947, as amended by Executive Order No. 9926 of January 17, 1948, and as extended by Executive Orders No. 9974 of July 1, 1948, No. 10064 of June 30, 1949, and No. 10135 of June 30, 1950, is hereby superseded; but nothing contained in this order shall prejudice any action heretofore taken under or pursuant to the said Executive Order No. 9898 as amended and extended.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Elberta Peach Order 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.400 *Elberta Peach Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Elberta Peach Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Elberta peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 15, 1951. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop and adequate information thereon was not available to the Elberta Peach Commodity Committee until May 16, 1951; recommendation as to the need for, and the extent of, regulation of shipments of such peaches was made at the meeting of said committee on May 16, 1951, after consideration of all available information relative to the supply and demand conditions for such peaches, at which time the recommendation and supporting information was submitted to the Department; necessary supplemental data for consideration in connection with the specification of the provisions of this section were not available until May 25, 1951; shipments of the current crop of such peaches are expected to begin on or about June 28, 1951, and this section should be applicable to all shipments of such peaches in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 15, 1951, and ending at 12:01 a. m., P. s. t., September 17, 1951, no shipper shall ship:

(i) Any package or container of Elberta peaches containing peaches which are not well matured (as such term is defined in subparagraph (2) of this paragraph), with a tolerance of twenty-five (25) percent, by count, for peaches which are mature but not well matured in addition to any tolerance for immature peaches allowed by the U. S. No. 1 grade;

(ii) Any package or container of Elberta peaches containing peaches which are smaller than a size that will pack 72 peaches of the size known commercially as size 70 in a No. 12B California peach box in accordance with the requirements prescribed for a standard pack: *Provided*, That with respect to each individual load of Elberta peaches shipped by a handler a quantity of packages and containers of Elberta peaches not in excess of five (5) percent, by count of the packages and containers comprising the respective load, may contain peaches that are of a size not smaller than a size that will pack 78 peaches of the size known commercially as size 75 in a No. 12B California peach box in accordance with the requirements prescribed for a standard pack: *Provided further*, That, for the purpose of determining whether ripe Elberta peaches meet the aforesaid minimum size requirements, such peaches shall be fairly tightly packed rather than tightly packed, as prescribed for a standard pack; and the aforesaid sizes known commercially as size 75 and size 70 are defined more specifically in subparagraphs (3) and (4), respectively, of this paragraph; or

(iii) Any package or container of Elberta peaches containing peaches which do not meet the requirements of the U. S. No. 1 grade: *Provided*, That (a) with respect to ripe Elberta peaches which are not smaller than size 75, as aforesaid, the requirements of such grade shall not include freedom from damage, other than serious damage, caused by bruises;

and (b) with respect to Elberta peaches which are not smaller than the size known commercially as size 55, a tolerance of 5 percent for defects not causing serious damage shall be allowed in addition to the tolerances provided for such grade; and the aforesaid size known commercially as size 55 is defined more specifically in subparagraph (5) of this paragraph.

(2) "Peaches which are well matured" means peaches which, at the time of picking (i) are not hard; (ii) have shoulders and sutures well filled out; (iii) when ring cut, have flesh that separates from the pit readily and cleanly, and is red colored next to the pit; and (iv) have skin and flesh yellowish green to yellow in color. "Peaches which are not hard" yield to moderate pressure at least slightly at the suture and tip and at least very slightly elsewhere.

(3) As used in this section, the size of Elberta peaches known commercially as size 75 is defined more specifically as being the size that will pack the aforesaid California peach box in accordance with the aforesaid standard pack specifications with two tiers, each having three rows of six peaches each and three rows of seven peaches each with no peach small enough to pass through, without using pressure, a rigid ring of inside diameter of 2¼ inches.

(4) As used in this section, the size of Elberta peaches known commercially as size 70 is defined more specifically as being the size that will pack the aforesaid California peach box in accordance with the aforesaid standard pack specifications with two tiers having six rows of six peaches each with no peach small enough to pass through, without using pressure, a rigid ring of inside diameter of $2^{3}/_{8}$ inches.

(5) As used in this section, the size of Elberta peaches known commercially as size 55 is defined more specifically as being the size that will pack the aforesaid California peach box in accordance with the aforesaid standard pack specifications with two tiers, one tier having two rows of five peaches each and three rows of six peaches each and the other tier having two rows of six peaches each and three rows of five peaches each with no peach small enough to pass through, without using pressure, a rigid ring of inside diameter of $2^{3}/_{4}$ inches.

(6) Each shipper, prior to making each shipment of Elberta peaches, shall, during the period set forth in subparagraph (1) of this paragraph, have the peaches included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Elberta Peach Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Elberta Peach Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Elberta peaches contained in each such lot or shipment: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Elberta Peach Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meaning as given to the respective term in said amended marketing agreement and order; the terms "bruises," "defects," "damage," "serious damage," "standard pack," "tightly packed," "fairly tightly packed" shall have the same meaning as when used in the United States Standards for Peaches (7 CFR 51.312); the terms "No. 12B California peach box" shall have the same meaning as set forth in section 828.25 of the Agricultural Code of California; and the term "individual load" means the total number of packages and containers of Elberta peaches loaded into a railroad car, truck, or other means of conveyance.

[Lemon Reg. 385, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.4 2 (Lemon Regulation 385, 16 F. R. 5156) are hereby amended to read as follows:

(ii) District 2: 700 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 7th day of June 1951.

[Lemon Reg. 386]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.493 *Lemon Regulation 386*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 6, 1951; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 10, 1951, and ending at 12:01 a. m., P. s. t., June 17, 1951, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 700 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 385 (16 F. R. 5156), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 7th day of June 1951.

[Orange Reg. 375]

PART 966—ORANGES GROWN IN CALIFORNIA OR IN ARIZONA

LIMITATION OF SHIPMENTS

§ 966.521 *Orange Regulation 375*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California, or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on June 7, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) Subject to the size requirements in Orange Regulation 372 (7 CFR 966.518; 16 F. R. 4678), the quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning 12:01 a. m., P. s. t., June 10, 1951, and ending at 12:01 a. m., P. s. t., June 17, 1951, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1: Unlimited movement;

(b) Prorate District No. 2: 1,275 carloads;

(c) Prorate District No. 3: Unlimited movement;

(d) Prorate District No. 4: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1: No movement;

(b) Prorate District No. 2: Unlimited movement;

(c) Prorate District No. 3: No movement;

(d) Prorate District No. 4: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is set forth below and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," "Prorate District No. 3," and "Prorate District No. 4" shall each have the same meaning as given to the respective terms in § 966.107, as amended (15 F. R. 8712), of the current rules and regulations (7 CFR 966.103 et seq.), as amended (15 F. R. 8712).

TITLE 8—ALIENS AND NATIONALITY

Chapter IV—Displaced Persons Commission

PART 702—SELECTION AND ELIGIBILITY

SUBVERSIVES AND UNDESIRABLES

Paragraph (f) of § 702.8 of Chapter IV, Title 8 (16 F. R. 3031) is hereby amended to read as follows:

§ 702.8 *Subversives and undesirables.*

* * *

(f) Has voluntarily borne arms in armed forces or auxiliary organizations against the United States or its Allies on the Western Front (including North Africa and Italy) during that period of World War II beginning on December 3, 1941; a person shall not be deemed so to have served voluntarily if he establishes that he was compelled against his will to serve in armed forces or auxiliary organizations, against the United States or its Allies on the Western Front. A person who establishes that he has been inducted into the armed forces (1) when under 16 years of age or (2) by operation of law, official act, proclamation, order, or decree, may be deemed, prima facie, not to have served voluntarily in such armed forces during the period covered by such compulsory service. The term "borne arms" shall apply to persons who served in armed forces or auxiliary organizations.

The foregoing amendment shall be effective upon the date of publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 (a) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making is found to be contrary to the public interest because Public Law 774, 80th Congress (62 Stat. 1009), as amended by the act of June 16, 1950, which was implemented by the regulations which became effective on June 17, 1950, and the amendment to the regulations which became effective on April 7, 1951, and which is further implemented by the foregoing amendment, and the execution of functions of the Displaced Persons Commission under that statute would be unduly impeded by such notice. For the same reason it is found that the provisions of section 4 (c) of the Administrative Procedure Act providing for delayed effective date are inapplicable.

(Sec. 8, 62 Stat. 1012, as amended; 50 U. S. C. App., 1957. Interprets or applies sec. 13, 62 Stat. 1014; 50 U. S. C. App., 1962)

Chairman,
Displaced Persons Commission.

Correction

In F. R. Document 51-6576, appearing in the issue for Thursday, June 7, 1951, at page 5395, make the following changes:

1. In the fourth line of § 141.43 delete the words "of this section".

2. In the fifth line of § 141.43 (h), the word "diute" should read "dilute".

3. In the ninth line of § 146.64, "dl-N-methyl-1" should read "*dl*-N-methyl-l".

4. Delete the comma following the word "intervals" in the seventh line of § 146.66 (d) (3) (i).

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5843]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

TIME FOR FILING RETURNS OF INCOME FOR 1950 EXTENDED IN THE CASE OF CERTAIN U. S. EMPLOYEES

PARAGRAPH 1. Pursuant to the authority contained in section 53 (a) (2) of the Internal Revenue Code, an extension of time for filing the return of income for the calendar year 1950 is hereby granted up to and including September 15, 1951, in the case of a citizen who during such calendar year was an employee of the United States or of any agency thereof, whether civilian, military, or naval, and who is required to file a return of income for such year solely because of the amendment made to section 251 of the Internal Revenue Code by section 220 of the Revenue Act of 1950, approved September 23, 1950. See §§ 29.53-1 to 29.53-5, inclusive, of Treasury Regulations 111 for the time and place for filing returns.

PAR. 2. This Treasury decision shall be effective upon its being filed for publication in the FEDERAL REGISTER.

Because this Treasury decision merely relieves certain taxpayers from a requirement respecting the filing of returns of income for the calendar year 1950, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of such act.

Acting Commissioner of Internal Revenue.

Approved: June 6, 1951.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter A—Aid of Civil Authorities and Public Relations

PART 503—ARREST AND CONFINEMENT OF PERSONS NOT SUBJECT TO MILITARY LAW

APPREHENSION AND RESTRAINT

Section 503.1 is rescinded and the following substituted therefor:

§ 503.1 *Persons not subject to military law.* Persons not subject to military law may be apprehended or restrained by members of the Army Establishment, as follows:

(a) *General.* All members of the Army Establishment have the ordinary right and duty of civilians to assist in the maintenance of the peace. Where, therefore, a felony or a misdemeanor amounting to a breach of the peace is being committed on a military reservation, it is the right and duty of every member of the military service, as of every civilian, to apprehend the perpetrator no matter what his status.

(b) *Restraint.* The restraint imposed by paragraph (a) of this section will not exceed that reasonably necessary, nor extend beyond such time as may be required to dispose of the case by orderly transfer of custody to civil authority or otherwise, under the law.

(c) *Ejection.* Persons not subject to military law who are found within the limits of military jurisdiction in the act of committing a breach of regulations, not amounting to a felony or a breach of the peace, may be removed therefrom upon order from the commanding officer and ordered by him not to reenter. For penalty imposed upon reentrance after ejection, see act June 25, 1948 (62 Stat. 1765; 18 U. S. C. 1382), as amended.

Subchapter E—Organized Reserves

PART 561—OFFICERS' RESERVE CORPS

APPOINTMENT IN WOMEN'S ARMY CORPS SECTION

Section 561.19 is amended to read as follows:

§ 561.19 *Appointment in the Women's Army Corps section*—(a) *Grade of appointment in Active Reserve*—(1) *For appointment in Organized Reserve to fill vacancies in ORC program units.* Initial appointments normally will be in the grade of second lieutenant. However, where detail of WAC personnel to another section is authorized, qualified applicants may apply for appointment in the WAC section and concurrent detail to an appropriate section. In cases of authorized detail, grade of appointment in the WAC section will be the same grade as authorized for the appointment of male applicants of similar qualifications.

(2) *For appointment in Volunteer Reserve.* (i) In the grade of second lieutenant under a continuing program, within quotas to be announced periodically by the Department of the Army for each army area.

(ii) In grades up to and including captain for qualified applicants whose services are desired for active military service for basic branch (WAC) requirements in the Army.

(b) *Limitation on appointments in Active Reserve*—(1) *For Organized Reserve.* Appointments will be made only to fill a vacancy in a unit of the ORC troop program when:

(i) The applicant is considered qualified to perform the normal duties of the vacancy.

(ii) Assignment of WAC personnel is in conformity with special regulations.

(iii) There is no qualified officer of appropriate grade available for the assignment.

(2) *For Volunteer Reserve.* (i) Appointment as second lieutenant under the continuing program indicated in paragraph (a) (2) (i) of this section, will be made within authorized quotas when:

(*a*) Applicant is qualified for training in a potential military occupational specialty for which training facilities exist.

(*b*) Applicant's residence will permit full participation in the training.

(ii) Applications for appointment and concurrent active military service may be accepted when services are desired for basic branch (WAC) requirements for active military service and when qualified officers of the Active or Inactive Reserve are not available.

(c) *General requirements.* Applicants must meet the requirements of §§ 561.2 to 561.10.

(c) *Special requirements.* (1) For appointment applicant must have a baccalaureate degree from an accredited college or university recognized by the Federal Security Agency, United States Office of Education, as listed in part 3, Educational Directory, Higher Education, must be within the age group and have a minimum of qualifying experience, as follows:

Officer grade	Age group (years)	Qualifying experience (years)
Second lieutenant	21-27	4
First lieutenant	28-33	7
Captain	34-39	11

(2) Area commanders may grant a waiver of college degree for those individuals having 120 or more satisfactory semester hours gained through attendance at an accredited college or university. Such waiver will be made a part of the individual's application.

(3) Applicants must have had qualifying experience as follows:

(i) For appointment and concurrent detail to an appropriate section, as indicated under paragraph (a) (1) of this section, must meet the requirements prescribed for appointment in the section to which detail is requested.

(ii) For appointment and concurrent active military service, must have a background of experience in teaching, business, recreation, personnel administration, advertising or other fields requiring leadership and supervision of personnel.

(e) *Application.* Individuals applying for appointment or for appointment and concurrent active military service will submit applications and allied forms as required by § 561.13.

(f) *Other WAC appointments.* (1) Former WAC officers, female officers, and former female officers of other Armed Forces of the United States may apply for appointment in the WAC section of the Officers' Reserve Corps under § 561.14.

(2) Qualified female enlisted reservists and WAC enlisted personnel may apply for appointment under § 561.15.

(g) *Appointment for detail to Army security section or Military Intelligence section.* The provisions of §§ 561.2 to 561.10 which pertain to appointments in the Army Security and Military Intelligence sections of the Officers' Reserve Corps are applicable to applicants for appointment in the WAC section who request appointment to fill vacancies in Military Intelligence or Army Security units of the ORC troop program.

Subchapter C—Procurement

PART 590—GENERAL PROVISIONS

PART 591—PROCUREMENT BY FORMAL ADVERTISING

PART 592—PROCUREMENT BY NEGOTIATION

MISCELLANEOUS AMENDMENTS

The following amendments to Subchapter G are issued.

1. Part 590 is amended by adding §§ 590.354 to 590.354-5, as follows:

§ 590.354 *Synopses of proposed procurements.*

§ 590.354-1 *Statement of policy.* (a) It is the policy of the Army that, consistent with security requirements, negotiated and advertised procurements exceeding $10,000 made in the continental United States be publicized when such procurements are scheduled to be opened eighteen days or more from date of issue. Synopses of Proposed Procurements, designed to furnish potential suppliers with sufficient information to determine whether they will be interested in bidding or quoting will be prepared in accordance with the instructions set forth in §§ 590.354 to 590.354-5.

(b) Policies with respect to dissemination of information to unsuccessful bidders and offerors concerning awards are set forth in §§ 401.407, 591.407 and 592.150 of this chapter. Instructions pertaining to synopses of awards are set forth in §§ 591.451 to 591.451-3 and 592.151 of this subchapter.

§ 590.354-2 *Applicability.* In accordance with the policy stated in § 590.354-1, instructions in §§ 590.354 to 590.354-5 shall apply to all proposed procurements (including procurements for the construction, alteration or repair of buildings, bridges, roads, or other kinds of real property), whether negotiated or formally advertised, when:

(a) The estimated amount exceeds $10,000;

(b) The procurement is unclassified and dissemination of information with respect thereto does not constitute a security risk.

(c) The opening of bids, proposals or quotations, or the last date for submission of proposals or quotations, is scheduled eighteen days or more following the date of issuance of the invitations for bids or the requests for proposals (quotations) and

(d) The procurement is effected by any purchasing office in the continental United States, including (1) principal purchasing offices listed in § 591.451-3 of this subchapter and (2) all other field purchasing offices and activities located in the continental United States.

§ 590.354-3 *Action by purchasing offices.* (a) Purchasing offices will prepare and forward synopses of proposed procurements at the earliest practicable time prior to issuance of invitations for bids or requests for proposals (quotations), or prior to commencement of negotiations in any form; and, in any event, immediately upon completion of final drafts of any written solicitation.

(b) Synopses will be teletyped at the end of each day (or as they occur), in accordance with instructions contained in § 590.354-4 to the following address: Synopsis, Commerce Department, Field Service, Chicago, Illinois.

(c) Where access to the Army Command and Administrative Network (ACAN) is not available, synopses will be dispatched via air mail to the following address: Field Service, Administrative Office, U. S. Department of Commerce, Room 1014, 610 South Canal Street, Chicago 7, Illinois.

(d) A copy of each synopsis forwarded will be made available at purchasing offices for examination by interested persons. Such copies will contain columnar headings and a statement to the effect that further information will be supplied upon request, if available and when consistent with security requirements.

§ 590.354-4 *Instructions for teletyping of synopses.* Synopses teletyped pursuant to § 590.354-3 (b), will be prepared for transmission as follows:

(a) The first line of the text of the message will state the number of the synopsis being sent. Synopses will be numbered consecutively.

(b) The second line of the text of the message will state the name and location of the purchasing office straight across the page (not to exceed 70 typewriter spaces) continuing on the next line if necessary.

(c) The description of the item being procured will be in capital letters, using the dash for commas and will not exceed 31 typewriter spaces. If 31 spaces are insufficient, additional lines may be used. The description will be clear, concise, abbreviated wherever possible, with a minimum number of words for description but sufficient for understanding by interested parties; it will consist of a minimum general description of the item procured and will include, when appropriate, commonly used names of supply items, basic materials from which fabricated, general size or dimensions, etc., but will not include information which, in the opinion of the purchasing office may constitute a security risk. Citation to specification and/or drawing numbers or other identifying data will be included, if this information does not constitute a security risk and will assist prospective suppliers in determining whether or not they are interested in the procurement.

(d) The column designating the quantity begins on typewriter space 32 and will not exceed 10 spaces. Every effort will be made to center the quantity between spaces 32 and 41. If 10 spaces are insufficient to include desired statement relative to quantity, additional lines may be used. Quantity to be procured will be indicated, except that the quantity may be omitted when, in the opinion of the purchasing office, the inclusion of such data may constitute a security risk. Indications of quantity such as "more than --------" or "less than --------" etc., may be used at the discretion of the purchasing office.

(e) The column designating the invitation or request number begins on typewriter space 42 and will not exceed 16 spaces. Every effort should be made to center the invitation or request number between spaces 42 and 57. Invitations for Bids numbers will be followed by the letter "B". Requests for proposals or quotations will be indicated by the letter "Q" or, if numbered, the number will be followed by the letter "Q". If there is not sufficient space in the column for the distinguishing letter, it may be typed on the succeeding line.

(f) The column designating the opening date (or last date for submission of proposals or quotations) begins on typewriter space 58 and will not exceed 13 spaces. Every effort should be made to center this date between spaces 58 and 70.

(g) Columner headings will be omitted.

(h) Strict adherence to the above instructions will be required of each reporting office inasmuch as the receiving machines will automatically cut stencils at the time the message is received. Deviations will cause the format of the synopsis printed by the Department of Commerce to be out of line.

(i) Each reporting office will discuss the instructions contained in §§ 590.354 to 590.354-5 with its communications office so that the manner in which the message is to be transmitted is thoroughly understood by the office preparing the message and the communications office.

§ 590.354-5 *Contents of synopses when not teletyped.* Synopses airmailed pursuant to § 590.354-3 (c), will contain the same information required for synopses which are teletyped, as prescribed in § 590.354-4, in substantially the same form. In addition to the information prescribed in § 590.354-4, appropriate columnar headings will be used.

2. Part 591 is amended as indicated below:

a. Section 591.202-5 is rescinded and the following substituted therefor:

§ 591.202-5 *Synopses of invitation for bids.* Synopses of invitations for bids will be prepared by purchasing offices located in the continental United States in accordance with the requirements of §§ 590.354 to 590.354-5 of this subchapter.

b. The first sentence of § 591.251 (a) is amended by changing the address of the Procurement Information Center to read "Procurement Information Center, Office of the Under Secretary of the Army, Old Post Office Building, Twelfth Street and Pennsylvania Avenue NW., Washington 25, D. C.".

c. Section 591.451-3 is amended by changing the words "synopses of invitations for bids as required by § 591.202-5." on the fourth and fifth lines to read "synopses of proposed procurements as required by §§ 590.354-590.354-5 of this subchapter.".

3. Part 592 is amended by rescinding § 592.151 and substituting the following §§ 592.151 to 592.151-2 in lieu thereof:

§ 592.151 *Synopses of proposed procurements and awards.*

§ 592.151-1 *Synopsis of proposed procurements.* Synopses of proposed negotiated procurements will be prepared by purchasing offices located in the continental United States in accordance with the requirements of §§ 590.354 to 590.354-5 of this subchapter.

§ 592.151-2 *Synopsis of awards.* A weekly "synopsis of Awards" unclassified negotiated contracts in amounts of $25 000 or more will be prepared in accordance with instructions contained in §§ 591.451 to 591.451-3 of this subchapter by each of the purchasing offices listed in § 591.451-3.

Chapter XI—National Guard and State Guard, Department of the Army

PART 1102—STATE GUARD REGULATIONS

A new Part 1102 is added to Chapter XI, as follows:

Sec.
1102.1 Purpose.
1102.2 Definitions.
1102.3 Status of State Guard.
1102.4 State Guard and Federal Service.
1102.5 Employment, general.
1102.6 Employment in cooperation with Federal Forces.
1102.7 Arms and equipment.
1102.8 Uniforms.
1102.9 Training.
1102.10 Training tests and regulations.
1102.11 Direction and inspection by Federal agencies.
1102.12 Correspondence and reports.

AUTHORITY: §§ 1102.1 to 1102.12 issued under 64 Stat. 1072; 32 U. S. C. Sup. 194.

SOURCE: §§ 1102.1 to 1102.12 contained in AR 915-10, May 14, 1951.

§ 1102.1 *Purpose.* The regulations in this part specify the nature, status, and availability of State military forces other than National Guard; indicate the assistance which the Department of the Army has been authorized to furnish to the several States or Territories in the equipping, arming, and training of State Guards; and provide with respect to those forces such Federal regulations as are deemed necessary and appropriate under the law. .

§ 1102.2 *Definitions.* For the purpose of this part the following definitions apply:

(a) *Internal security.* Internal security is defined as all measures in peace and war, other than military defense, to prevent enemy inspired action against United States resources, industries, and institutions, and to protect life and property in the event of a domestic emergency.

(b) *State.* The term "State" means any State or Territory of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, or the Canal Zone.

(c) *State Guard.* The term "State Guard" means any force organized under subsection (b) of 64 Stat. 1072 (32 U. S. C. Sup. 194) and in accordance with this part, irrespective of the actual name assigned to the force by the State.

(d) *State internal security forces.* The term "State internal security forces" means all forces and/or agencies of State or municipal governments which are capable of undertaking internal security missions and are assigned such missions. These include, but are not limited to, State Guards.

§ 1102.3 *Status of State Guard—(a) Force status.* The State military force (State Guard) contemplated by this part, organized under the foregoing statutory authority and of the constitution and laws of the State concerned and this part, is solely a State organization. It is not subject to call, order, or draft, as such force, into the military service of the United States. It is not subject to Federal regulation, control, or supervision other than as provided expressly, or by reasonable implication, by 64 Stat. 1072 (32 U. S. C. Sup. 194). The only control the Department of the Army will exercise over this force will be in prescribing regulations pertaining to organization, standards of training, instruction, discipline, and care and maintenance of Federal equipment. The Department of the Army will:

(1) Assist and advise State authorities in the organization, training, instruction, and equipping of this force;

(2) Issue certain equipment in accordance with § 1102.7; and

(3) Advise and coordinate with State authorities in matters pertaining to employment of this force, in accordance with provisions of this part and other pertinent regulations or directives.

(b) *Mission.* The appropriate mission of State Guards during the absence of the National Guard in Federal service is conceived to be to provide an adequately trained force for employment within the boundaries and jurisdiction of their respective States as directed by the State executive or other appropriate agency thereof, to:

(1) Maintain laws, suppress disorders, and protect life and property.

(2) Meet such domestic emergencies as may arise within the State.

(3) Guard and protect vital industries, installations, and facilities when other means such as local police or privately owned protection are deemed inadequate.

(4) Prevent or suppress fifth column activities, in conjunction with, or in support of, other State or local law enforcement agencies or Federal agencies.

(5) Cooperate and coordinate with Federal military authorities and forces engaged in active military operations or charged with internal security missions within the State.

(6) Cooperate with the Federal military authorities in information and observation duties and in extreme emergencies assist in the evacuation of civilians.

(7) Perform such other duties as may be assigned by the State executive under the constitution or laws of the State.

(c) *Organization.* Planning for and the conduct of military operations against hostile military forces are responsibilities of the Federal Armed Services. Operations and activities of State Guards contemplated by this part are, in consonance with the mission outlined above, analogous to and supplemental to those of law-enforcement agencies. State Guard units will be organized under T/O 19-56 and T O 19-57 (Tables of Organization, Department of the Army) as internal security battalions with headquarters and headquarters detachments, internal security companies, and such higher headquarters as are determined to be necessary by the State military authorities. The total strength of these units in each State to receive Federal equipment and aid will be determined by the Department of the Army and published by the Chief, National Guard Bureau.

§ 1102.4 *State Guard and Federal service—(a) General.* Membership in the State Guard does not constitute

ground for individual exemption from Federal military service under Federal law. Accordingly, the State authority concerned should provide for the prompt discharge from the State Guard of such of its members as are inducted, enlisted, ordered, or otherwise engaged in the active military service of the United States.

(b) *Federal military officers.* Reserve officers not on active duty and Regular Army retired officers not on active duty may be enrolled or commissioned in a State Guard force organized under section 61, National Defense Act, as amended, without jeopardy to their Reserve or retired status, but such enrollment or commission in the State Guard force will not prevent their being ordered to active Federal service.

(c) *National Guard personnel.* Enlisted and commissioned personnel of the National Guard who have been released from active military service of the United States may be enlisted or commissioned in State Guards without jeopardy to any status that they may have in the National Guard of the United States if there is no local National Guard unit to which they may be assigned. Service in the State Guard under such conditions will not interfere with their being ordered to active Federal service.

(d) *Enlisted Reserve Corps.* Members of the Enlisted Reserve Corps not on active duty may be enrolled or commissioned in a State Guard without jeopardy to their Reserve status. Service in the State Guard will not interfere with their being ordered to active Federal duty.

§ 1102.5 *Employment, general*—(a) *Authority of State*—(1) *Employment.* The State Guard is an element of the executive department of the State government. It is employed by the Governor, or by such official as the Governor may designate, upon such missions and duties as may be deemed appropriate, subject to the limitations imposed by law. It may be employed outside of the territorial boundaries of its State, where authorized by laws of the States concerned or when arrangements for similar cooperative action have become legally effective by agreement between States.

(2) *Limitations upon authority of State.* Employment by the State of its State Guard, or any part thereof, is limited, in general, only by pertinent provisions of the Federal Constitution (for example, fourteenth amendment), by the territorial boundaries of the State, and by the supremacy of the Federal Government in its proper fields of action. The authority of the State to maintain its State Guard ceases upon the relief from active Federal service of all elements of its National Guard, or upon the expiration date of the enabling legislation.

(b) *Responsibility within the Department of the Army.* (1) The Chief, National Guard Bureau, participates with other agencies of the Army Staff in the formulation of the program for Army participation in the development and maintenance of State Guards; administers that program; and maintains Department of the Army records concerning State Guard personnel, units, equipment, and armament.

(2) Commanding generals of continental armies are charged with the responsibility for assisting State authorities in the training of State Guards to the end that they may be used more efficiently in the accomplishment of the missions assigned.

(3) Commanding generals of continental armies are designated as the military authority to advise and assist State and local authorities in the use and employment of State Guards. In unified commands, this same function will be performed by the commander of the Army forces, under the direction and supervisory control of the unified commander, unless otherwise directed.

§ 1102.6 *Employment in cooperation with Federal Forces*—(a) *Assignment of missions.* Actual operating missions will be assigned to State Guards only by appropriate State authorities. However, the requirement for coordination of local and State internal security operations with operations of Federal Armed Forces is obvious. In order to prepare in advance for such coordination and to insure the integration of State internal security planning with plans of the Federal military services, appropriate army commanders will request State authorities to assign to State Guards a mission of coordinating and cooperating with Federal military authorities. In the accomplishment of cooperative missions, it is not contemplated that State Guards will be commanded by nor their operations and activities otherwise controlled by Federal military authorities, but rather that they will undertake and carry out such missions as may have been previously planned by mutual agreement or which the State may agree to undertake on request of a Federal military commander. In this regard, the fact is emphasized that by organization, equipment, and training, State Guards are designed and qualified for law enforcement operations, rather than for sustained combat operations against hostile armed forces.

(b) *Conflict of missions.* (1) It is imperative, in the interest of national defense, that the employment by the State of State Guards should not interfere with or impede Federal functions or activities. It is likewise essential that State forces, of whatever category, when functioning in their proper sphere, should be unhampered in fulfilling their missions. To the end that the interests of the United States and of the State be preserved, the highest degree of cooperation should be maintained between the Federal and local officials concerned.

(2) One or the other of two situations may arise in this regard. In one instance, Federal military forces and State forces may be operating in the same locality. Although each force may be acting within its proper authority, and although no question of conflict or responsibility may arise, the coordination of the activities of the respective forces is essential. In the other situation contemplated, conflict of views may exist as to the responsibility, whether Federal or State, for a particular mission. In such case, if the commanders of the Federal forces and the State authorities are unable to effect an agreement, the matter should be referred to the appropriate military defense commander or commanding general of the Army area. Although the latter's decision is not binding upon the State authorities, unless Federal martial rule in fact then prevails in the affected locality, the State authorities should conform to that decision in the light of the paramount Federal concern with the over-all problem of national defense.

§ 1102.7 *Arms and equipment*—(a) *General.* Arms, ammunition, and equipment considered essential to the mission of the State forces will be issued by the Department of the Army to the extent that such equipment is determined to be available for that purpose under existing Department of the Army priorities. Equipment issued under the provisions of this part will remain the property of the United States, will be subject to inspection by authorized representatives of the Department of the Army, and may be recalled by the Department of the Army at any time to meet higher priority requirements. Equipment not otherwise available to the State forces, and which has been determined to be excess to Department of the Army requirements, may be purchased from the Department of the Army by the several States in accordance with existing laws governing the sale of United States property.

(b) *Bond.* The issue of equipment to a State for the use of its State Guard is subject to the acceptance of and continuous coverage by a bond considered as adequate in all respects by the Department of the Army. The penalty of the bond to be required in each case will depend upon the value of the Federal property issued and will be determined by the Department of the Army, between a maximum limit of $10,000 and a minimum limit of $5,000. The Chief, National Guard Bureau, will furnish WD AGO Form 601 (Bond Form for State Guard Property Officer) to State authorities upon request. Executed bonds will be forwarded to the Chief, National Guard Bureau, for acceptance by the Department of the Army. Custody of current bonds will be in the Treasury Department. In general, the bonding of State Guard property officer will conform to AR–35–220 (Army regulations governing surety bonds).

(c) *Accountability.* The issue of Department of the Army property under this part is contingent upon appointment of an accountable officer by the State concerned and the provision of adequate facilities for the care and safekeeping of such property.

(1) The several States must make adequate provision to account for the property and to protect it from deterioration, loss, or damage by fire, theft, or weather.

(2) Pending publication of regulations pertaining to State Guard accounting system, the accounting system will conform with SR 130–420–1 (Special regulations of the Army governing supply and accounting procedure. Where the terms "USP & DO" and "National Guard" appear throughout the regulation, the terms "SGPO" and "State Guard" will be substituted therefor.

(3) The accountable officer will be responsible for the requisition, receipt, storage, and issue of all Department of the Army property contemplated by this part which is in the custody of the State. He will make such returns and reports as may be required by the Department of the Army.

(4) Upon relief from office, a State Guard property officer may request by letter to the Chief, National Guard Bureau, that his bond be terminated. Such request will be accompanied by a copy of the orders relieving him from duty and appointing a successor who must be bonded on or before the effective date of his appointment.

(5) The audit of the property accounts of the State Guard property officer is a responsibility of the Army Audit Agency.

(d) *Issue.* The heads of technical services will determine availability of supplies and equipment for issue or sale to the several States in accordance with the criteria established by this part.

(1) The Chief, National Guard Bureau, will advise the appropriate heads of technical services of the items and quantities of equipment which are required for use by the State forces, will compile and publish lists of available items to the army commanders and the several States, and will provide for equitable distribution of available property.

(2) Initial requisitions from the several States for issue of supplies and equipment under this part will be submitted to the continental Army and oversea commanders who will review for conformance with the conditions upon which Federal support is predicated. Discrepancies will be adjusted with the appropriate State authorities and requisitions will be forwarded by army and oversea commanders to the Chief, National Guard Bureau, who will edit them in order to ascertain whether the total of the items requisitioned and on hand exceeds the amount authorized for the strength approved for Federal aid for the State concerned. Approved requisitions then will be forwarded to the respective heads of technical services for supply action.

(3) Requisitions for additional increments and/or replacements will be forwarded by the State Guard property officer direct to the Chief, National Guard Bureau.

(4) In emergencies, where prior communication with the Department of the Army is not feasible, army and oversea commanders may issue essential items of equipment to State forces from sources under their control. In such cases, the Department of the Army will be notified (ATTN: G4) at the earliest possible date of the items and quantities issued and the circumstances.

(e) *Disposal of property.* The continental army and oversea commanders will appoint officers of the Army of the United States as inspectors and surveying officers. Properly bonded State Guard property officer will be shown as the accountable officer on all property disposal forms. Federal property issued to the States for use by State Guard, which becomes lost, damaged, destroyed, or which becomes unserviceable or unsuitable for further use in the service, will be disposed of as prescribed in chapter 4, SR 130–420–1. Excess Department of the Army property in the possession of the several States will be reported to the Chief, National Guard Bureau, for redistribution or return to Department of the Army custody.

(f) *Sale or excess issue.* Requests by the several States for issue of equipment in excess of authorized allowances and requests to purchase items of equipment will be prepared and routed in accordance with paragraph (d) of this section. Such requests will be supported by suitable justification and the comments and recommendations of the army or oversea commander will be indorsed thereon. Purchase requests, after approval by the Department of the Army, will be submitted by the States direct to the designated supply sources accompanied by a money order or State check.

(g) *Expenses.* All expenses incident to the issue, recall, or sale of Department of the Army property under this part will be borne by the States concerned, except that the Federal Government will pay the transportation cost of recalled property. Shipments from Department of the Army installations will be made on commercial bills of lading, transportation charges collect, to a centrally located point within the State.

(h) *Maintenance.* Maintenance services, not otherwise available to State forces, will be accomplished by Department of the Army installations on a reimbursable basis to the extent consistent with existing workloads and Department of the Army repair priorities. Such services will be limited to Department of the Army property issued under this part. Maintenance services performed under this part will be billed to the appropriate States by the fiscal officers of the installations rendering the service.

(i) *Safeguarding of small arms ammunition and other Federal property.* Continental army and oversea commanders will determine whether or not storage for Federal property is adequate and secure in accordance with the provisions of National Guard Regulations 75–3 (Care and Safekeeping of Federal Property). When such storage is not considered adequate and secure, the continental army and oversea commander will take necessary action to insure proper safeguard by the State concerned, or will initiate necessary action through the Chief, National Guard Bureau, to have the issued arms and ammunition withdrawn and returned to the appropriate Army depot.

(j) *Acquisition of arms and equipment by State from sources other than the Department of the Army.* Subject to limitations regarding the character of uniforms to be worn and subject to compliance with generally recognized requirements as to the safety, suitability, and proper use as combat weapons of certain arms, the Department of the Army has no objection to open-market purchases by the State of such articles of arms and equipment as are not available for issue or sale by the Department of the Army, nor does it object to contracts for the fabrication of necessary uniforms or equipment between the State and industrial establishments not engaged in manufacturing supplies for the Armed Forces. However, if supplies essential to the proper equipment and maintenance of the State Guard can be secured only in competition with Federal procurement agencies, the State adjutants general should refer the problem to the National Guard Bureau through the continental army and oversea commanders for assistance. The Chief, National Guard Bureau, after receipt of request, will assist in securing priority clearance on articles or materials needed by the State Guard and, with investigation, the propriety of articles or materials thus desired. Such requests must have the approval of the State adjutant general prior to submission to the National Guard Bureau for further processing.

§ 1102.8 *Uniforms*—(a) *General.* The uniform prescribed and furnished by the State for its State Guard will be unmistakably different from that of any Federal military force. Should the States decide to use the uniform clothing of the Army of the United States, it will be altered as required by paragraphs (b), (c) and (d) of this section, before being worn.

(b) *Ease of identification.* The State Guard uniform should permit ready identification of the wearer as a member of the State Guard of his State. To this end the use of color material different from that of the United States Army, Navy, Air Force, and Marine Corps uniform is encouraged. Army clothing in the possession of State Guards, including officers' uniforms, issued or purchased, and clothing which may in the future be issued to them, will be altered to the extent necessary to render it readily distinguishable at a glance from any uniform in use by Federal Armed Forces. The necessary alterations may be accomplished within the discretion of the States. Buttons bearing distinctive Federal designs will be replaced. Alterations will the accomplished without expense to the Federal Government and without interference with the procurement or production of more essential war materials, or constituents or components thereof.

(c) *Insignia.* Except insignia denoting grade and that authorized herein, the wearing of buttons, cap devices, cord edge braid, hat cords, and other insignia authorized for use on uniforms of the Federal forces (including the National Guard) is not permitted.

(1) State Guard personnel will wear on each outer coat (overcoat, mackinaw), service coat, and shirt, on the upper part of the outer half of the left sleeve, with top of insignia $\frac{1}{2}$ inch below the shoulder seam, one distinctive shoulder sleeve insignia bearing the designation of the State Guard concerned. This insignia will be, if round, at least $2\frac{1}{2}$ inches in diameter; if square, at least 2 inches square; if triangular, at least of an equivalent surface area,

(2) The authorized State Guard cord edge braid of distinctive weave, silver for officers, silver and green for enlisted personnel will be worn by State Guard members, if any cord edge braid is worn.

(3) States may authorize State Guard personnel who served oversea in World War I between April 6, 1917, and November 11, 1918, in World War II between December 7, 1941, and September 2, 1945, or in Korea from June 27, 1950, to an undetermined future date, to wear on the right shoulder sleeve any one of the shoulder sleeve insignia of the units of the United States Army to which they were assigned.

(d) *Sleeve braid.* Unless the State Guard uniform is wholly unlike any uniform authorized for wear by Federal military forces, including the National Guard, distinctive sleeve braid will be worn by officers only, on the service coat, and will be of any desired color except brown, gold, yellow, black, or forest green.

(e) *Officers' uniform purchase.* Certain articles of regulation Army Officers' uniform may be purchased from the Philadelphia Quartermaster Depot by State Guard officers with an identification evidenced by signed authority from the adjutant general of the appropriate State. Sleeve braid, cord edge braid, and distinctive Federal buttons will be removed prior to delivery. State Guard personnel are not authorized to purchase uniforms at Army exchanges.

(f) *Wearing of decorations.* The appropriate order of precedence for wear by State Guard personnel is:

(1) United States decorations or ribbons.

(2) United States service medals or ribbons.

(3) State decorations or ribbons.

(4) State service medals or ribbons.

(5) Foreign decorations.

§ 1102.9 *Training*—(a) *General.* Detailed instructions for the training of State Guard organizations are such as may be prescribed and published by State and State Guard authorities, based upon directives, regulations, and training programs issued by the Department of the Army.

(b) *Scope of training.* Training should be planned and conducted with a view to the earliest preparation, consistent with thoroughness, of State Guard organizations and members for the accomplishment of missions prescribed by competent authority. A single standard of individual proficiency should form the basis of all instruction within the unit in order that all members of the unit shall have received essentially the same training. Training of the unit as a coordinated group should thus be attained more readily. The special nature of contemplated law enforcement functions should be a factor in the determination of the type and degree of special training prescribed for the organization and its members. Every effort should be made to make the training of State Guards interesting and realistic. The applicatory method of training to develop proficiency should be used at every opportunity. Conditions and situations which might confront the State Guards should be simulated as closely as possible in problems and exercises. Imagination and ingenuity should be used to develop and conduct practical and realistic problems and alerts. The value of this type of training cannot be overemphasized.

(c) *Responsibility for training.* Training is a function of command. Each State Guard unit commander, under the supervision of the next higher authority, is responsible for the discipline, morale, and training proficiency of his command. He should be permitted such freedom of selection of types and methods of instruction and such determination of the sequence and duration of instruction periods as are consistent with his primary responsibility for the results attained.

(d) *Training objectives.* Training objectives should be prescribed by State authority, by the State Guard commander, and by State Guard unit commanders in the descending order of authority. Training objectives should also be in accordance with the missions assigned by State authorities and missions accepted by the State authorities at the request of Federal commanders.

(e) *Funds.* Funds are made available to army commanders to cover any expenses of the United States incident to the training of State Guards, provided such expenses are not prohibited by statute or instructions issued by the Department of the Army, when training is an integral part of a program established by the commanding general of the army concerned. Control over the obligation and use of these funds is a responsibility of the army commander.

(f) *Requirements.* The minimum training requirements of each State Guard unit and of each member thereof will be as indicated in an approved training program for that unit.

§ 1102.10 *Training texts and regulations.* Such Department of the Army training literature and other publications as may be available and suitable for the accomplishment of training objectives specified in training programs and for guidance in administrative matters will be furnished by the Department of the Army.

§ 1102.11 *Direction and inspections by Federal agencies.* Although the State Guard is a State force to be used under State control on missions assigned by the State, its State tasks may be of importance to the national interest and it may be assigned by the State the task of cooperating with Federal forces on missions of Federal interest. To give proper direction to preparation for such tasks under the authority of the Secretary of the Army to prescribe standards of training, the following facilities are available:

(a) The Department of the Army will furnish through the National Guard Bureau from time to time suggested State Guard training programs designed as a general guide to promote thorough and uniform training of all State Guard units.

(b) Army commanders will lend advisory assistance in training to the State Guard and may furnish various training aids and/or provide suitable instructors when available.

(c) The necessary inspection of State Guard organizations is a function of Army commanders. With the mutual cooperation of the State adjutants general they will conduct annually inspections of all Federal property, and such other inspections as may be requested by State authorities and deemed necessary by the commanding general of the Army concerned. Reports of inspection will be made on a form furnished by the National Guard Bureau and a copy of each report furnished the Bureau.

§ 1102.12 *Correspondence and reports*—(a) *General.* Army Regulations and National Guard regulations relating to correspondence and reports should be observed wherever applicable. In order to avoid confusing administrative matters of the State Guard with those of the Regular Army and the National Guard, forms, letterheads, and other printed, mimeographed, or typed communications should contain the official designations, conspicuously placed, of the State Guard or State Guard unit to which such papers pertain. In cases where the designation of a State force maintained under this part does not contain the words "State Guard," returns, reports, and correspondence relative thereto should, to facilitate identification, follow the legal State designation with appropriate words in parentheses: for example, Virginia Protective Force (State Guard), New York Guard (State Guard), Colorado Defense Force (State Guard), Michigan State Troops (State Guard), Oklahoma Internal Security Force, (State Guard), and District of Columbia Constabulary Reserve (District Guard).

(b) *Channels of communication.* Communication between State authorities and the Department of the Army on matters pertaining to State Guards or other State internal security forces will be conducted as follows:

(1) *Between State authorities and the Chief, National Guard Bureau.* Direct correspondence where action within the purview of an army commander is not required.

(2) *Between State authorities and army commanders.* Direct correspondence where action within the purview of an army commander is concerned.

(3) *Between army commanders and the Department of the Army.* Direct to the Chief, National Guard Bureau.

(c) *Returns and reports*—(1) *Monthly returns.* Upon the organization of a State Guard unit, the appropriate State authority will submit direct to the Chief, National Guard Bureau, with an information copy to the commanding general of the army area, an initial consolidated strength return showing home station, the numbers and types of units, and the strength of each unit in officers and enlisted men. A roster of officers assigned to units will be submitted initially and changes thereafter will be reported without delay. Returns thereafter will be indicated by National Guard Bureau instructions.

(2) *Other reports.* From time to time additional or special reports covering information deemed essential will be called for by the Chief, National Guard Bureau.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
Acting The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Amendment 8]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

UPHOLSTERY FELT MADE OF COTTON LINTERS OR COTTON WASTE AND SISAL PADS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 8 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Upholstery felt and sisal pads are used by manufacturers of upholstered commodities such as chairs, studio couches and bedding. Upholstery felt is chiefly made of cotton linters or cotton waste. Sisal pads are made from sisal fibre which is an imported material. CPR 22 in its present form permits those manufacturers who manufacture their own upholstery felt and sisal pads to calculate the change in net cost of the raw materials used in the manufacture of upholstery felt and sisal pads up to March 15, 1951, in determining their "materials cost adjustment" for the purpose of computing their ceiling prices on their end products under Ceiling Price Regulation 22. Manufacturers, however, making the same end products who do not have the facilities for manufacturing their own upholstery felt or sisal pads and are obliged to purchase these from suppliers, are only permitted to calculate the changes in the net cost of these manufacturing materials up to December 31, 1950, in determining their "materials cost adjustment." These latter are primarily the small manufacturers in the industry. To eliminate the difference in the treatment of the two groups of manufacturers, this amendment to CPR 22 adds upholstery felt made of cotton linters or cotton waste and sisal pads to the manufacturing materials whose changes in net cost may be calculated up to March 15, 1951, in determining the "materials cost adjustment."

In the judgment of the Director of Price Stabilization this amendment is generally fair and equitable and is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

AMENDATORY PROVISION

Ceiling Price Regulation 22 is amended by adding a new paragraph 7 to Appendix B to read as follows:

7. Upholstery felt made of cotton linters or cotton waste, and sisal pads.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment shall become effective June 8, 1951.

HAROLD LEVENTHAL,
Acting Director of Price Stabilization.

[CPR 22, Interpretations 19-32]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

INTERPRETATIONS UNDER THE MANUFACTURERS' GENERAL CEILING PRICE REGULATION

The following interpretations under the Manufacturers' General Ceiling Price Regulation (CPR 22) were issued through June 1, 1951.

CPR 22, INT. 19—APPLICABILITY OF CPR 22 TO WHOLESALERS AND RETAILERS (GENERAL)

Ceiling prices for wholesalers and retailers are not covered by CPR 22. The effect of CPR 22, CPR 30 and other manufacturing regulations upon the ceiling prices of wholesalers and retailers are to be determined by looking to GCPR, SR 29 to GCPR, CPR 7, 14, 15, 16, and other applicable regulations.

CPR 22, INT. 20—LOCATED IN THE UNITED STATES (SECTION 1)

The clause "manufacturer located in the United States" in section 1, CPR 22, refers to the location of the manufacturing facilities of the manufacturer and not to the location of the manufacturer's main office. Thus, a manufacturer whose main office is in Seattle, Washington, but whose plants are located entirely in Alaska is not a manufacturer located in the United States. Further, a manufacturer who has some plants within the United States and some without the United States is a manufacturer located in the United States only to the extent of the plants located in the United States.

CPR 22, INT. 21—SUBSEQUENT ELECTION TO USE CPR 22 (SECTION 1)

A manufacturer who has elected not to use CPR 22 as permitted by section 1, may thereafter again exercise his option and elect to use CPR 22. He must, however, first file a Public Form No. 8 and comply with the provisions of CPR 22.

CPR 22, INT. 22—USE OF BASE PERIOD PRICE AND SUBSEQUENT USE OF CPR 22 (SECTION 3)

A manufacturer who does not calculate either his labor cost adjustment or his materials cost adjustment, and instead, uses his base period price as his ceiling price under the regulation, as is permitted by section 3 (a), CPR 22, may thereafter make his calculations and establish a new ceiling price under CPR 22. In such case, he would be required by section 46 (b) to file a new Public Form No. 8.

CPR 22, INT. 23—FRINGE BENEFITS NOT INCLUDED IN ANNUAL FACTORY PAYROLL (SECTION 8 (a))

Fringe benefits may not be included in determining annual "factory payroll" under section 8 (a), CPR 22. However, increases in the cost of fringe benefits are taken into account under section 8 (c), which provides that such increases may be added to "recomputed payroll."

CPR 22, INT. 24—MANUFACTURING MATERIALS—TOOLS, JIGS, DIES, AND FIXTURES (SECTION 10)

Inquiries have been received as to whether increased tooling costs may be taken into consideration in calculating the materials cost adjustment under CPR 22. In particular, these inquiries have come from manufacturers of household refrigerators and washing machines and concern the tools, dies, jigs, fixtures and related items which are changed when new models are introduced. Section 10 of CPR 22 defines "manufacturing materials." In addition to a material entering directly into the commodity being priced, the term "manufacturing material" also includes a material "used directly in the manufacturing processes from which the commodity results". The quoted portion of the definition was intended to cover, among other things, expendable tools which are consumed in the manufacturing process. This was pointed out in the Statement of Considerations to CPR 30 (Machinery and Related Manufacturing Goods). Because of the importance of these items in the machinery field, the definition of "manufacturing material" in section 14 of CPR 30 provided specifically that dies, fixtures, patterns and other listed items were covered, but "only if they are permitted to be included as expense items for Federal tax purposes."

Under this test, only items whose normal useful life is one year or less and whose costs are allowed to be treated as expenses for income tax purposes are covered. However, tools, dies, jigs, fixtures and related items, such as those used by manufacturers of household refrigerators and washing machines and which are used over a period of *more* than one year or whose normal useful life is more than one year, are not included within the definition of "manufacturing material" in section 10 of CPR 22. They are not, therefore, to be included in calculating the materials cost adjustment under CPR 22. This is so even if in a particular instance the Bureau of Internal Revenue may permit such items to be treated as expense items because of a manufacturer's historical practice of so treating them. Customarily, these items would be capitalized and depreciated over the period of their use and would not be treated as expense items. It is believed that this test is a workable one and is also commonly understood in industry.

CPR 22—INT. 25—MANUFACTURING MATERIAL (SECTION 10)

Materials and sub-contracted industrial services used in replacing, maintaining or expanding a manufacturer's plant and equipment are excluded from

the term "manufacturing material" by section 10, CPR 22. Section 10 excludes all such materials and services, whether or not their use is directly dependent upon the rate of manufacture of the commodity being priced, and in addition excludes any other materials or supplies the use of which is not directly dependent upon the rate of manufacture of the commodity being priced.

CPR 22—INT. 26—EXCLUSION OF MANUFACTURING MATERIALS FROM CALCULATIONS (SECTION 11)

It seems that some manufacturers have misconstrued the manner in which to calculate materials cost adjustment, so that changes in net cost of some materials are mistakenly given effect even though they have omitted these materials from their calculations under the provisions of section 11, CPR 22. Section 11 permits a manufacturer to exclude from the calculation of his materials cost adjustment those manufacturing materials which are not significant or whose cost has not decreased between the prescribed dates. Where such materials are excluded, however, they must be excluded from all calculations. The provisions of the regulation are clear on this point. Materials cost adjustment is obtained by multiplying the change in net cost per unit of each manufacturing material by the physical amount of each such manufacturing material. This method obviously precludes the application of change in net cost to excluded manufacturing materials. Any method of calculation which leads to a contrary result is not permitted under the regulation.

CPR 22—INT. 27—FREIGHT RATES (SECTION 28)

Interpretation 1 under GCPR, which concerns freight rates, is not applicable to commodities subject to CPR 22. Section 28, CPR 22, and Interpretation 1 under CPR 22 are applicable as to freight rates under CPR 22.

CPR 22—INT. 28—"WOULD HAVE" OPERATED AT A LOSS (SECTION 43)

Under section 43 of CPR 22 a seller may not apply for an adjustment until after one month's operation under the regulation. The language "would have been conducted at a loss" relates to the situation of a person who was not manufacturing in his customary quantities and proportions but would have lost money if he had been manufacturing in customary quantities and proportions.

CPR 22—INT. 29—REPORT NOT REQUIRED FOR COMMODITY NO LONGER MANUFACTURED (SECTION 46 (b))

CPR 22 does not require the filing of Public Form No. 8 for a commodity sold during the base period but which is no longer being made or sold. If that commodity is subsequently manufactured and offered for sale the manufacturer must first, of course, file the form and comply with the provisions of CPR 22.

CPR 22—INT. 30—NET SALES—INVENTORY NOT INCLUDED (SECTION 47)

"Net sales," as defined in section 47, is not synonymous with the "value" of goods produced. Thus, in determining net sales under section 8 (a), a manufacturer should not include commodities which were manufactured during his fiscal year ended December 31, 1950 but which were not sold during that year.

CPR 22—INT. 31—SYNTHETIC TEXTILE FIBERS AND YARNS (APPENDIX A (i) (2))

Paragraph (i) (2) of Appendix A exempts "synthetic textile fibers and yarns" from coverage of CPR 22. This exemption applies only to a synthetic staple fiber, tow, or continuous filament yarn as produced by the initial manufacturer. The exemption does not include plied, spun, or otherwise processed synthetic yarns or fabrics made from synthetic fibers or yarns.

CPR 22—INT. 32—MARCH 15 DATE FOR COMMODITIES LISTED IN APPENDIX A (APPENDIX B)

Appendix B, par. 1, CPR 22, provides that the change in net cost of a manufacturing material may be calculated up to March 15, 1951 if it is one of the "commodities listed in Appendix A." The only "commodities listed in Appendix A" are those commodities listed in paragraph (b) and subsequent paragraphs of Appendix A. The provisions of paragraph (a) of Appendix A exempting certain *sales* from the coverage of CPR 22, is not the listing of commodities which carry a March 15 date. Accordingly the March 15 date does not apply to commodities such as machinery products under CPR 30, or textiles under CPR 37, which are not listed in Appendix A, although paragraph (a) of Appendix A exempts their sale from CPR 22 because they are covered by a separate numbered regulation. On the other hand, fats and oils, also covered by a separate numbered regulation (CPR 6), are among the commodities actually listed in Appendix A, and therefore take a March 15 date under Appendix B.

[General Overriding Regulation 10, Amendment 1]

GOR 10—ADJUSTMENTS OF CEILING PRICES FOR MANUFACTURERS

ADJUSTMENTS FOR A SEPARATE PLANT OR FACTORY

Pursuant to the Defense Production Act of 1950 (Public Law 774, 81st Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to General Overriding Regulation 10 (16 F. R. 4454) is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to GOR 10 expands the coverage of that regulation so as to permit a manufacturer to apply for adjustment of his ceiling prices where such prices would require him to operate at a loss with respect to his manufacturing operations in a separate plant or factory. Prior to this amendment, he could apply only if his operations on his entire business would be conducted at a loss because of ceiling price limitations.

The same considerations which applied to the issuance of GOR 10 in general are applicable to this amendment, and any adjustments granted on the basis of loss operations of a separate plant or factory will be subject to the same conditions and limitations as those applicable to an adjustment based on over-all operations. However, because of the variations which might occur where a separate plant or factory is involved, it is provided that no allocation of central office expenses may be included in calculating a loss on the operations of a separate plant or factory.

This amendment also revises the definition of manufacturer so as to make it clear that the regulation applies to any seller who is engaged in business other than as a wholesaler or retailer. This definition is the same as the definition of manufacturer in the General Ceiling Price Regulation.

AMENDATORY PROVISIONS

General Overriding Regulation 10 is amended as follows:

1. The first sentence in section 1 is amended by deleting the word "over-all" and by adding at the end of that sentence the following: "either for his entire business or for a separate plant or factory."

The first sentence of section 1 as so amended will therefore read as follows: "This regulation permits a manufacturer to apply for an upward adjustment of his ceiling prices established under any other regulation, if as a result of such ceiling prices, the manufacturer would be forced to operate at a loss with respect to his manufacturing operations, either for his entire business or for a separate plant or factory."

2. Section 2 (a) (1) is amended by deleting the word "over-all" and by adding the following: "either for his entire business or for a separate plant or factory, provided that no portion or proration of central office costs or expenses may be included in calculating such loss for a separate plant or factory."

Section 2 (a) (1) as so amended will therefore read as follows:

SEC. 2. *Who may apply.* (a) A manufacturer may file an application for adjustment under this regulation where: (1) His existing ceiling prices would require him to operate at a loss with respect to his manufacturing operations, either for his entire business or for a separate plant or factory, provided that no portion or proration of central office costs or expenses may be included in calculating such loss for a separate plant or factory; and

3. Section 2 (b) is amended by deleting the word "over-all", by adding a comma after the word "operations", and immediately thereafter inserting the following: "either for his entire business or for a separate plant or factory,".

4. Section 3 (c) is amended by adding thereto the following sentence: "If the manufacturer is seeking an adjustment on the basis of a loss with respect to the operations of a separate plant or factory, this profit and loss statement for a recent period should cover his operations in that plant or factory, should indicate that no portion or proration of central office costs or expenses has been included in calculating the loss for the separate plant or factory, and should be accompanied by a profit and loss statement for his entire business covering the same recent period."

5. In section 7 the definition of manufacturer is amended to read as follows:

"Manufacturer" means any person who is engaged in business other than as a wholesaler or retailer.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment is effective June 7, 1951.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

[NPA Order M-26, Amdt. 1, June 7, 1951]

M-26—PACKAGING CLOSURES

MISCELLANEOUS AMENDMENTS

This amendment to NPA Order M-26, as amended April 6, 1951, is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this amendment consultation with industry representatives was found to be impracticable due to the necessity for prompt action to clarify the meaning and intent of certain provisions of said order.

NPA Order M-26, as amended April 6, 1951, is hereby amended in the following respects:

1. The text of schedules I and II appearing at the end of said order is hereby deleted and the following text inserted in lieu thereof:

SCHEDULE I—PACKAGING CLOSURES MADE OF TIN PLATE

(The term "food" as used in schedules I and II of this order means "food" as defined in Executive Order 10161, September 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp., and in the Memorandum of Agreement between the Administrator of the National Production Authority, United States Department of Commerce, and the Administrator of the Production and Marketing Administration, United States Department of Agriculture, 16 F. R. 3410.)

Class and product	Tin-plate specifications (maximum pounds of tin coating per base box)
1. All food products for human consumption (except malt beverages and nonalcoholic beverages, each as defined in class 4 of this schedule) if preserved in a hermetically sealed container made sterile by heat	1.50
2. Olives, pickles, relishes, sauces, vinegar, french dressing, flavoring extracts, spices, mustard, horseradish, and cherries	.75
3. All other products, food or otherwise (except malt beverages and nonalcoholic beverages, each as defined in class 4 of this schedule)	.50
4. Malt beverages (meaning and including only beer, ale, porter, near beer, and mixtures thereof; and nonalcoholic beverages (meaning and including only soft drinks, still or carbonated; unflavored waters, still, or naturally or artificially carbonated; beverage drinks consisting of fruit or vegetable juice or juices or a combination thereof where less than 85 percent by weight of the product is pure fruit or vegetable juice or juices or a combination thereof; and sterilized milk drinks made with powdered milk)	.25

SCHEDULE II—PACKAGING CLOSURES MADE OF ALUMINUM

Class and product	Quota
1. Fluid milk products with or without flavorant, including cultured milk but not including cheese products	Unlimited.
2. Anesthetic solutions, antibiotics, biologicals, blood plasma, parenteral solutions, prescriptions, and sulfonamides	Unlimited.
3. All other food products for human consumption, except wines, distilled spirits, and nonalcoholic beverage drinks consisting of fruit or vegetable juice or juices or a combination thereof where less than 85 percent of the weight of the product is pure fruit or vegetable juice or juices or a combination thereof	100 percent.
4. All drug products not included in class 2, and all waters as used for health purposes	100 percent.
5. All other products, food or otherwise, including wines, distilled spirits and nonalcoholic beverage drinks consisting of fruit or vegetable juice or juices or a combination thereof where less than 85 percent of the weight of the product is pure fruit or vegetable juice or juices or a combination thereof	65 percent.

2. For the purpose of conforming the language of paragraph (b) of section 3 of said order to the terminology of schedule II as amended by this amendment, the third sentence in said paragraph (b) is hereby deleted and the following sentence inserted in lieu thereof:

Where the percentage of that numerical quantity is specified as "unlimited" on schedule II, that percentage is applicable only to a packer who used, or commenced conversion to the use of, packaging closures made of aluminum for use in packing fluid milk products as included in class 1, schedule II, prior to November 27, 1950, and for use in packing the products included in class 2, schedule II, prior to April 6, 1951.

Chapter I—Public Health Service, Federal Security Agency

PART 21—COMMISSIONED OFFICERS

SUBPART R—DETERMINATIONS OF STATUS OF DEPENDENT PARENTS FOR PURPOSES OF BASIC ALLOWANCE FOR QUARTERS

This part is amended by adding thereto the following subpart:

SUBPART R—DETERMINATIONS OF STATUS OF DEPENDENT PARENTS FOR PUPOSES OF BASIC ALLOWANCE FOR QUARTERS

Sec.
21.381 Definitions.
21.382 Entitlement.
21.383 Proof of dependency.
21.384 Adopted parent.
21.385 Stepparent.
21.386 Parent "in loco parentis."
21.387 Determinations.

AUTHORITY: §§ 21.381 to 21.387 issued under secs. 102, 362, 63 Stat. 804, 812, as amended; 37 U. S. C., Sup., 231, 252.

§ 21.381 *Definitions.* For purposes of this subpart the term "parent" shall include a natural father or mother, a father or mother by adoption, a stepfather or stepmother, and any person, including a former stepfather or stepmother, who has stood "in loco parentis" to an officer at any time for a continuous period of not less than five years during the minority of such officer. A stepparent-stepchild relationship shall be deemed to be terminated by the stepparent's divorce from the blood parent, but shall not be deemed to be terminated by the death of the blood parent.

§ 21.382 *Entitlement.* An officer shall be entitled to basic allowance for quarters because of a dependent parent upon the presentation of appropriate evidence, as required in this subpart, to establish the fact (a) that the parent is a parent as defined in § 21.381, and (b) that the parent is dependent upon the officer for over half of his or her support.

§ 21.383 *Proof of dependency.* If any person is claimed as a dependent parent, the officer shall submit form PHS 1637–2 (BF). In addition, the parent concerned shall submit an affidavit on form PHS 1637–3 (BF). The parent's affidavit shall be filed to cover the period from the date basic allowance for quarters is claimed to the date of execution of the affidavit, such period to be not less than one month.

§ 21.384 *Adopted parent.* If the parent claimed as a dependent is a parent by adoption, there shall be submitted, in addition to the evidence required by § 21.383, certified court orders of adoption or such other evidence as is acceptable to establish legally the fact of adoption.

§ 21.385 *Stepparent.* If the parent claimed as a dependent is a stepparent, the stepparent must submit, in addition to the affidavit required by § 21.383, a sworn statement to the effect that he or she married the blood parent of the officer and that he or she has not been divorced from such blood parent.

§ 21.386 *Parent "in loco parentis."* If the parent claimed as a dependent has an "in loco parentis" status, the officer, in addition to the evidence required by § 21.383 to be submitted by him, shall submit a sworn statement setting forth all circumstances relevant to proof of the relationship as may be prescribed by the Surgeon General.

§ 21.387 *Determinations.* Determinations of dependency and parental status, as required by this subpart, may be made by such officers and employees of the Public Health Service as may be designated by the Chief, Division of Finance, Public Health Service.

Dated: June 4, 1951.

[SEAL] LEONARD A. SCHEELE,
Surgeon General.

Approved: June 4, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 924]

[Docket No. AO 225]

HANDLING OF MILK IN DETROIT, MICHIGAN, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Highland Park, Michigan, during the period June 5–16, 1950, pursuant to notice thereof duly published in the FEDERAL REGISTER (15 F. R. 3105, Doc. 50–4290), upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Detroit, Michigan, marketing area.

Upon the basis of the evidence introduced at the hearing, and the record thereof, the Assistant Administrator, Production and Marketing Administration, on February 28, 1951, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on March 6, 1951 (16 F. R. 2084, Doc. 51–2492). A tentative decision was thereafter issued by the Secretary of Agriculture on May 11, 1951, and the notice of filing such tentative decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on May 16, 1951 (16 F. R. 4551, Doc. 51–5680).

Ruling on exceptions. Within the period for filing exceptions a number of producer cooperatives and milk distributors filed exceptions to certain of the findings, conclusions and actions recommended by the Assistant Administrator, and to the tentative decision issued by the Secretary of Agriculture. In arriving at the findings, conclusions and recommended regulatory provisions of this decision, each of the exceptions to the recommended decision of the Assistant Administrator, Production and Marketing Administration, and to the tentative decision of the Secretary of Agriculture were carefully and fullly considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions, and actions decided upon herein are at variance with the exceptions, such exceptions are overruled.

Preliminary statement. The major issues developed at the hearing were concerned with the following matters:

(1) Whether the handling of milk produced for the Detroit, Michigan, marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk or its products;

(2) Whether marketing conditions justify the issuance of a milk marketing agreement or order;

(3) The extent of the marketing area;

(4) What milk should be covered for pricing purposes;

(5) The classification of milk;

(6) The level of class prices to be paid and the methods for determining such prices;

(7) The type of pool to be used and a base rating system of distributing returns to producers; and

(8) Administrative provisions.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing and on the record thereof, it is hereby found and concluded that:

(1) *Character of commerce.* The handling of milk in the Detroit, Michigan, marketing area is in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in the handling of milk and its products.

A total of 64 dairy farms located outside the State of Michigan regularly supply milk to the Detroit market. During the month of April 1950, 45 of these farms located in Ohio and Indiana delivered over a half million pounds of milk to Detroit receiving plants, or at the rate of over six million pounds per year. Three dairy plants in Indiana and one in Ohio hold permits from the Detroit Department of Health to furnish sweet cream for consumption in Detroit.

During the months of high production, large quantities of Detroit inspected milk produced on dairy farms which supply milk for city consumption in other seasons of the year are diverted to manufacturing plants in Ohio and Indiana. One cooperative in the year of 1943 delivered over 4½ million pounds of such milk to a plant in Indiana. In 1949 movements of milk from the Detroit market to plants in Ohio totaled about 10 million pounds and in the first 5 months of 1950 amounted to over 5 million pounds. There are 36 dairy manufacturing plants located within the Detroit milkshed and purchasing milk from dairy farmers in competition with Detroit milk distributors. Several of these plants also handle surplus milk from the Detroit market. All of these plants manufacture dairy products, and a substantial portion of these products are disposed of in other states. Large quantities of Detroit inspected milk, exceeding 60 million pounds in 1949 and 30 million pounds in the first 5 months of 1950, were moved to certain of these manufacturing plants by one cooperative. Additional large amounts of milk are manufactured in plants operated by milk distributors. This milk is manufactured into evaporated milk, cheese, butter, and nonfat dry milk solids, a large proportion of which is disposed of outside of the State of Michigan.

Milk is distributed on routes operated from Detroit plants in direct competition with milk distributed from Toledo, Ohio, plants in the City of Monroe and at other points. The milksheds of the Detroit and Toledo markets overlap over an area of 4 counties and dairy farmers frequently shift from one market to the other. The Detroit milkshed also overlaps that of Fort Wayne, Indiana, and Cleveland, Ohio.

Milk, cream and dairy products processed in Detroit plants are furnished to interstate carriers for consumption in various states and in Canada. Seven Detroit milk distributing plants have been certified by the U. S. Public Health Service for processing milk and milk products for sale for consumption outside the state at the request of interstate carriers. These carriers include two railroads, the Pullman Company, four airlines and nine steamship companies.

From the foregoing it is evident that substantial volume of milk in the Detroit, Michigan, market is moved physically in interstate commerce in the form of milk and milk products and that the handling of milk in the market directly burdens, obstructs, or affects interstate commerce in milk or its products.

(2) *Need for an order.* An order regulating the handling of milk in the Detroit, Michigan, marketing area should be issued.

A large proportion of the milk consumed in the Detroit area is marketed by a cooperative association of dairy farmers. A price for milk marketed by the cooperative and used for fluid sales is arrived at for each month by bargaining. A lower price then applies to a small amount of milk in addition to that used for fluid sales and the remainder is sold at the average price paid by certain dairy manufacturing plants.

A number of Detroit milk distributors buy milk from dairy farmers who are not members of a cooperative. The record indicates that this milk is paid for at the average price paid for all milk to cooperative members, or a lower price. By purchasing close to needs for fluid sales, it is possible for these distributors to buy milk at a considerably lower cost on a utilization basis than that of distributors who buy from the cooperative. This is true because the cooperative and certain distributors assume the responsibility of carrying sufficient milk to supply the market in the periods of lowest production. Distributors who do not assume this responsibility are able to buy milk used largely for bottled milk sales at the average price paid to cooperative producers, which average price reflects a large volume of milk at the manufacturing price in the months of high production. This buying advantage has led to lower resale prices, the loss of business by distributors who buy higher cost milk, and demands that the price of milk for fluid use be lowered to cooperative buyers to permit competition with distributors who buy without regard to utilization.

This unstabilizing influence has been greatly aggravated by a widening of the spread between the price of milk for fluid use and the average producer price for all milk. In April 1948 the cooperative price to distributors for milk for fluid use was $4.90 and the average price paid producers for all milk was $4.76, a difference of 14 cents. In April 1950 the corresponding prices were $4.20 and $3.72 or an advantage of 48 cents to a buyer able to buy milk for fluid sales at the cooperative average price and an even greater advantage in case less than this average price was paid.

The price paid for milk used for manufacturing by cooperative buyers was $4.11 in April 1948, and $2.86 in April 1950, an increase in the spread between fluid and manufacturing milk prices from 60 cents to $1.32. This price trend greatly increased the advantage of distributors who may buy some milk for fluid use at the manufacturing price.

Statements of payments to producers for milk by buyers who do not buy through the cooperative covering several months in 1950 were submitted. One distributor had paid one producer from 35 to 38 cents per hundredweight less than the cooperative average price, another distributor paid from 19 to 34 cents less and a third paid from 34 to 38 cents less. Fall purchases of additional milk by one of these distributors to supplement his supply from producers indicate a fluid milk usage of producer milk above the average of the market.

The price advantage of buyers who do not purchase milk through a cooperative not only has forced cooperative buyers to exert continual pressure for lower prices, but also has encouraged buyers to sever business relations with the cooperative and take advantage of the lower cost milk available by direct purchase from dairy farmers at the cooperative average price or lower. One handler of a substantial volume of milk has recently taken this step after buying through a cooperative for many years. This trend, if continued, will supplement the pressure for lower prices in bringing about demoralization of the market.

The effect of these conditions in causing market instability is shown in the record of prices and milk supply over the last 3 years. In the 8-month period of June 1947 through February 1948, the Class I price negotiated by the cooperative dropped from $1.62 above the price paid by manufacturing plants to 71½ cents above. Under pressure of a shortage of milk, this negotiated price then increased to a high of $2.32 above the manufacturing price in March 1949. Then as the supply of milk in relation to market needs increased steadily, the negotiated price fell to $1.05 above the manufacturing milk price in May, 1950. While those wide price variations were occurring, the supply of milk was first so reduced that an average of 92 percent of producer milk was used in Class I in the months of November 1947 through January 1948 compared with 84 percent in the corresponding period a year earlier. This shortage was followed by relatively high prices and increasing production until during the corresponding months of 1949–50, less than 71 percent of producer milk was disposed of as Class I.

The cooperative has not been able to sell milk even to regular buyers on a complete utilization basis. Only milk used for fluid sales is priced on the basis of utilization and additional milk is classified on a bargained percentage basis without regard to utilization. This lack of complete pricing according to utilization results in differences in costs to the various distributors for milk for uses other than fluid sales which also contributes to market instability.

In the Ann Arbor portion of the area, producers have been unable to sell milk on any utilization plan. A certain price is set by bargaining for milk deliveries up to a "base" established for each producer, and additional deliveries are paid for at the manufacturing milk price. The record indicates that this method of buying results in a lower cost to these distributors for milk for fluid sales than the cost to distributors in other parts of the Detroit area.

Dairy farmers supplying the Detroit area who are not cooperative members, over 2,000 in number, have no facilities for regularly checking the accuracy of weights or butterfat tests of milk sold.

No complete statistics are available as to total sales of milk and milk products in the Detroit market or as to total receipts of milk in the market. Negotiated prices must be fixed without full knowledge of the needs of the market or of the supply of milk available. A marketing order would make available complete and accurate market statistics, provide for payment for milk according to use and for verification by audit of all handlers' utilization of milk, and for the checking of weights and butterfat tests.

A milk marketing order is needed in the Detroit area to establish and maintain orderly marketing and a level of prices which will insure an adequate supply of pure and wholesome milk, and to prevent the development of disorderly and chaotic conditions.

(3) *Extent of the marketing area.* The marketing area should include the cities of Detroit, Dearborn, Ypsilanti, Ann Arbor, Pontiac, Mount Clemens, Marine City, St. Clair and Fort Huron and adjacent areas of high population density. This area would cover the territory within the boundaries of 15 townships in St. Clair County, 7 townships in Macomb County, 12 townships in Oakland County, 3 townships in Washtenaw County, 2 townships in Monroe County, and all of Wayne County.

Proponents of the order proposed a considerably larger marketing area cov-

ering a number of rural townships and a few additional small towns. Certain milk distributors proposed an extension of the area to the north along the Lake Huron shore to include Worth and Lexington townships in Sanilac County. Certain distributors objected to including the cities of Ypsilanti and Ann Arbor.

The townships of Lexington and Worth in Sanilac County should not be included in the marketing area. There are no thickly populated areas in these townships except the Lake Huron shore line in the summer season and the small city of Croswell and the village of Lexington. It was not shown that a marketing order is needed to promote orderly marketing in this area. There was no showing that orderly marketing of milk in the Detroit area is influenced by milk distribution in these townships. No request was made by dairy farmers supplying milk to distributors in this area that it be included in the marketing area.

The cities of Ann Arbor and Ypsilanti and surrounding territory should be included in the marketing area. Milk is distributed from plants in or near these cities; which are located near the thickly populated suburban area west of Detroit, in competition with routes operated from Detroit plants. Because of the wide seasonal variations in milk consumption in these cities due to the large student population, distributors are dependent upon the Detroit market for much of their milk supply. Over 6½ million pounds of milk from Detroit receiving stations was supplied to Ann Arbor distributors in the two years of 1948 and 1949. Milk is purchased by Ann Arbor and Ypsilanti distributors from producers without regard to use and apparently at lower prices than if bought on a use basis at the class prices prevailing in the Detroit market. Attempts by the cooperative to have such purchases made on a use basis have failed. The need for a marketing order to bring about orderly milk marketing seems greater in the Ann Arbor-Ypsilanti area than in other parts of the proposed marketing area.

Rural areas and small towns not near to the large cities should not be included in the marketing area. Thirty-one additional townships in St. Clair, Macomb, Oakland, Washtenaw, and Monroe Counties, which are relatively thinly populated and include some 16 small towns and villages, were within the marketing area as proposed. Health regulations with respect to milk in effect in the cities are not applicable in much of the area. It is not considered necessary to include these 31 rural townships in the marketing area to promote orderly marketing of milk in Detroit and nearby cities.

The marketing area as outlined above embraces a contiguous, heavily populated territory served by milk distributors whose routes overlap and intermingle and which constitutes a single milk market, all parts of which are subject to substantially the same conditions and influences. Health regulations with regard to milk are substantially the same in all major municipalities in the area and milk produced on farms approved by the Detroit Health Department is permitted to be sold in all parts of the area. Differences in seasonal consumption in various parts of the area tend to make all of the area dependent on milk produced under Detroit inspection, which is diverted to any part of the area where needed. Failure to include any part of this territory in the marketing area would tend to disrupt orderly milk marketing in the whole area.

(4) *Milk to be priced.* All milk approved by health authorities for regular sale in the marketing area should be priced under the order. A "handler" is defined as the operator of a plant in which milk is processed and from which such milk is disposed of on a route in the marketing area as Class I milk, or a plant which is approved by health authorities of marketing area cities for handling milk for fluid consumption. To avoid including in the pool a plant which never supplies milk to the marketing area a country plant must move to a bottling plant at least 10 percent of its dairy farm supply of milk in the two short supply months of November and December. The handler definition describes the kinds of plants to which farmers deliver milk for fluid uses in the greater Detroit market.

A number of plants disposing of Class I milk on routes in the marketing area receive milk directly from dairy farms. The larger part of the supply, however, is received at country plants and reshipped to city bottling plants. The country plant may be owned and operated by the operator of the city bottling plant or by another person. All of these country plants receive milk only from dairy farms approved by the Detroit Health Department. Receipt of milk from any other source at one of these plants disqualifies the entire plant supply for use in Detroit and other marketing area cities which accept Detroit inspection. By defining a handler as the operator of either an approved country plant or a bottling plant, the handling of all milk regularly approved for consumption in the marketing area is made subject to regulations by the order.

The land boundary of the marketing area extends over 185 miles. A few small milk plants located outside the marketing area dispose of some milk on routes extending into the area. If the amount of such milk is not large, its sale has little or no effect on the marketing of milk in the area. Application of order pricing and payment provisions of these distributors would entail effort and expense and would not contribute to orderly marketing in the area. Prices appropriate in the marketing area might not be appropriate in the localities where most of the sales of these distributors be made. It was proposed that handlers operating bottling plants outside the marketing area and disposing of not more than an average of 600 pounds of Class I milk per day in the area in any month be exempt for that month from all except the reporting and auditing provisions of the order. Limitation of the exemption to handlers disposing of not more than 600 pounds of Class I milk in the marketing area daily, less than one economical route, and transferring no milk to other handlers would furnish adequate protection from unfair competition to fully regulated handlers and guard against any threat to orderly milk marketing in the area. It is concluded that such an exemption should be provided.

The sales area for the Toledo milk market which is regulated by a Federal milk marketing order is very close to the Detroit market at certain points. It appears that certain handlers who have a preponderance of their fluid sales in the Toledo market may have more than 600 quarts of sales per day in the Detroit market. Since these handlers are already regulated under the Toledo order it is not necessary to require them to meet the full obligations of handlers under the Detroit order. An exemption is therefore provided for handlers whom the Secretary determines to be regulated by another Federal order and whose sales are primarily in the other market.

A cooperative which operates a number of country plants receiving Detroit inspected milk has also arranged by contract for the receiving, weighing and cooling of member milk at certain plants not owned or operated by the cooperative. In each case the contracting plant handles no milk except that handled for the cooperative, and the disposition of such milk is entirely under the direction of the cooperative, in most cases being moved from the receiving plant in trucks owned and operated by the cooperative. Payments to producers for this milk are made at a blend price computed on uses of this and other milk marketed by the cooperative. It was proposed that in such cases the order provide that the milk be considered as received at a plant operated by the cooperative and the cooperative thus be made the handler for such milk.

The order provides for the verification of weights and butterfat tests of producer milk, for auditing of producer payrolls, and for determination of the disposition of producer milk. When producer milk is moved in bulk from the plant to which it is delivered by the producers, the identity of each producer's milk is lost. The person operating the plant where the milk is first received must therefore be responsible for weighing and testing the milk, maintaining records of such weights and tests and also records of the disposition of milk received, and usually records of payments to producers. If such person is not a handler under the order he cannot be held responsible for performing the functions listed above. He need not give the market administrator access to the plant or make available to him records of receipts and disposition of milk or facilities for verifying weights and tests. It appears that the person operating each plant which receives milk from producers must be made a handler if the provisions of the order are to be carried out. If the arrangement between a cooperative and the owner of a plant does not make the cooperative the operator of the plant, then the operator of the plant cannot be relieved of his handler status because of the arrangement. On the other hand, if the arrangement is of such a character as to make the cooperative the operator of the plant, or the part of the plant in which

producer milk is received, then no special provision of the order is needed to make the cooperative the handler with respect to this milk.

Special provision is made for handlers who produce milk and receive no milk from other producers or cooperative associations. Defined as "producer-handlers," such handlers are exempted from all provisions of the order except reporting and auditing.

A "producer" is defined as any dairy farmer who produces milk which is delivered to a plant operated by a handler. This definition will identify all of the dairy farmers whose milk deliveries are regarded as a part of the normal Detroit area fluid milk supply. Although most producers will hold permits from a health authority in one of the major cities in the marketing area, there may be some small sections of the marketing area under the jurisdiction of health authorities which do not issue dairy farm permits. A health authority permit is therefore not specified for determining producer status. It is provided that a dairy farmer delivering milk to a plant not operated by a handler may retain producer status if such milk has been diverted from a handler plant. This would permit milk to be diverted to nonhandler manufacturing plants during the surplus season and still be priced and pooled under the order.

Definitions of "producer milk" and "other source milk" are included to distinguish between the regular supply for the fluid market and occasional receipts from other sources. Other source milk may be surplus from another fluid milk market or milk from a plant which is primarily a manufacturing plant. If such other source milk is disposed of as Class I milk in the marketing area a payment on that quantity at the difference between the manufacturing milk price and the Class I price should be required in order to curb any incentive for handlers to drop regular producer supplies of milk to purchase manufacturing milk at a price advantage.

"Route" is defined as a delivery, including a sale from a store, of a Class I product to a wholesale or retail stop or stops, except to a handler. The handler exception avoids qualifying a plant as a handler when deliveries are only made to other handlers. This would prevent a plant from qualifying as a handler and participating in the market pool merely by delivering some milk to a handler plant inside the marketing area.

The provisions of a base and excess plan of payment requires a definition of "base," "base milk," and "excess milk." Other standard terms are defined for the purpose of facilitating subsequent provisions of the order.

(5) *Classification of milk.* Milk should be classified in two classes reflecting the principal differences in the value of milk for different uses.

(a) *Classes.* Class I should include all skim milk and butterfat disposed of for consumption as milk, skim milk, buttermilk, or flavored milk, plant loss of producer milk in excess of 2 percent, and skim milk and butterfat not accounted for in Class II utilization. Class II should include skim milk and butterfat (1) disposed of for consumption as fluid cream (2) used to produce cottage cheese, ice cream or ice cream mix, or (3) contained in dried whole milk, nonfat dry milk solids, whole or skimmed evaporated or condensed milk, sweetened or unsweetened, butter, cheese, or livestock feed, or in milk dumped or in plant loss of producer milk not in excess of 2 percent of all producer milk and all plant loss of other source milk.

All classification proposals included milk and flavored milk for fluid consumption in Class I. Producers proposed that skim milk and buttermilk for fluid consumption be in Class I and handlers proposed that these products be in Class II. Representatives of health departments of the larger cities involved testified that such skim milk and buttermilk are required to be made from milk approved for fluid uses. It is concluded that milk required to meet the sanitary standards for fluid consumption and the products required to be made from such milk (flavored milk, and skim milk and buttermilk for fluid consumption) should be in Class I.

Testimony indicated that there are no farm inspection requirements for milk disposed of in most of the marketing area in any form other than as milk, flavored milk, skim milk, and buttermilk for fluid consumption. Cottage cheese, and cream used for fluid consumption or for ice cream in Detroit must be made in approved plants but the farms producing the milk used in these products are not inspected by city health authorities. There was no showing of any specific difference in the quality of milk used to produce cream and cottage cheese for use in the marketing area and the quality of milk manufactured into evaporated milk, cheese and other products in the various manufacturing plants in the milkshed. Handlers proposed that all products other than those requiring farm inspected milk to be included in one class. There does not appear to be justification, on the basis of the quality of milk required for their production, for different classification for milk used to produce cream and the various manufactured products. Butterfat and skim milk used in cream and all manufactured dairy products and in livestock feed and plant loss are therefore classified as Class II.

Both producers and distributors proposed a separate classification for so-called "distress" milk resulting from production in excess of market needs, which often must be disposed of at lower prices than received for milk for general manufacturing uses. A large amount of the milk not needed for fluid sales is handled by a cooperative which has limited manufacturing facilities. A substantial volume is also received by distributors who have no manufacturing facilities. The disposition of this milk in the spring months of heavy production has been a serious problem. Since manufacturing plants are operating at close to capacity at that time, disposition of this milk may require these plants to operate in excess of normal capacity, involving high cost overtime rates. In some cases it must be transported to distant plants. The choice of plants to which this milk may be diverted may be limited and sometimes it is accepted only at prices lower than those paid for milk from regular supply sources.

The problem of disposing of surplus milk has been met in recent years by providing a class (Class II–B) for all milk received by a distributor in excess of a certain amount, at a price lower than Class II–A, which includes all manufactured milk. Distributors proposed to continue this practice by an order provision that in any month when total market receipts of producer milk exceed 147 percent of market Class I utilization, all producer milk received by any handler in excess of 125 percent of his Class I utilization (provided the handlers' Class I utilization was 60 percent or more of his producer milk receipts in the preceding October, November and December) be Class IV milk, to be priced lower than Class III milk. Producers, however, proposed to meet the problem by providing a Class III made up of plant loss, dumped milk and all manufactured products other than ice cream and cottage cheese to be priced relatively low but somewhat higher than the Class IV proposed by the distributors.

The distributors' proposal does not provide that milk be classified in accordance with the form in which or the purpose for which it is used, but would base classification in part upon the amount of milk received and the amount used in another class. The producer proposal would place a large proportion of the milk used for manufacturing in the lowest price class although there may be no disposal problem with respect to much of this milk.

The record indicates that while the so-called "distress milk" price was in effect for several months in 1949, it was discontinued at the end of October of that year and had not again been used up to the time of the hearing (June, 1950). Also no such lower price was used in 1948 or 1946 and was in effect only 3 months in 1947. For six months prior to June, 1950, the supply of producer milk in relation to Class I utilization had decreased each month as compared with the corresponding month of the preceding year. The problem of surplus milk disposal normally occurs only in the spring months of heavy production. These facts indicate that at least for several months after the order may become effective, a price lower than the Class II price will not be needed to permit disposal of excess milk. It is concluded that a special class for "distress milk" at a price lower than the Class II price should not be provided and no provision should be made for a lower Class II price under certain supply conditions.

Producers proposed that plant loss up to 2 percent of producer milk received be allowed in the lowest price class, any in excess of this amount to be in Class I. Handlers proposed that all plant loss be in the lowest class, claiming that loss of the milk is sufficient incentive to keep such losses at a minimum and that the penalty of Class I pricing of any in excess of 2 percent is not justified. Data submitted indicate that with plant operation of average efficiency, the loss nor-

mally does not exceed 2 percent. Unlimited allocation of plant loss to Class II would place a premium on unaccounted for milk and encourage incomplete records of Class I utilization. Plant losses of producer milk in excess of 2 percent should be included in Class I.

It was proposed that in the case of milk moved from a country plant operated by a cooperative to a bottling plant, the 2 percent plant loss be allowed at the bottling plant. No reasons were given for limiting this provision to plants operated by a cooperative. It would seem that since part of the plant loss may be incurred at each plant, the allowance might more logically be divided between the plants. However, the proposed method avoids the problem of determining a fixed allocation of plant loss between the two handlers. The country plant operator may recover any receiving loss in his handling charge, and present charges probably cover this cost. It is concluded that the proposed provision, without the cooperative limitations, as well as the standard provisions for prorating loss between producer and other source milk, and allowing loss on diverted producer milk at the plant where actually received, should be included in the order.

(b) *Milk transfers.* Provision is made for classification of milk transferred between handlers, handlers and persons not handlers, and between cooperative plants and handlers. In the case of transfers between handlers not involving a cooperative plant, transfer is permitted in any agreed class in which the transferee plant has utilization in an amount equal to or greater than the amount so transferred, after allocating any other source milk to the lowest value use, since under a market-wide pool the classification of milk transferred between handlers may represent any agreed producer milk use without affecting the payment to producers. Each handler involved in a transfer is required to report the agreed classification, otherwise milk transfers are classified as Class I and cream transfers as Class II.

In the case of transfers from a handler plant to a plant not operated by a handler, a requirement that producer milk be allocated to the highest value uses in the transferee plant might increase the difficulty of disposing of surplus milk. Operators of some such non-handler plants have Class I uses and might refuse to handle surplus milk from the Detroit market if such milk would be allocated to their highest value uses. It is concluded that, as proposed, transfers from a handler plant to a plant not operated by a handler in the form of milk or skim milk be in Class I and in the form of cream be in Class II, but that such transfers shall be classified as mutually agreed by the transferor and transferee if the handler reports the transfer in such class, the transferee has use in the agreed class in an amount at least equal to the amount transferred or disposes of butterfat and skim milk to another plant which has such uses in the month. Books and records must be maintained at the plant at which the classification is made adequate to permit the market administrator to verify the reported utilization. In case the agreed utilization in the transferee plant exceeds the total of such utilization in the plant, the excess should be applied to the next higher priced class.

A number of country plants receiving Detroit inspected milk are operated by a cooperative association. Milk is transferred from these plants by tank truck to a large number of handler bottling plants. This milk is now classified for purposes of pricing at the pro rata classification of all producer milk in the bottling plant. Although classification has been on a relatively simple two class, hundredweight basis, market experience has shown that about a month is required to get the utilization reports from all the various buyers and to prorate the transferred milk to each class. Final settlement has not been made until the second month after delivery of the milk.

It is recommended herein that utilization of all handlers, including cooperatives, be reported not later than the 5th working day of the month following receipt of the milk, and that a uniform price based on these utilization reports be computed and announced not later than the 11th. It was considered improbable that the cooperative could collect utilization reports from the large number of handlers involved, compute other source milk allocation, prorate cooperative transfers of producer milk over remaining utilization, combine the results into a utilization report for the cooperative and submit it to the administrator in the 5 days allowed. Furthermore, any audit adjustments in classification for each handler involved would require an adjustment between the handler and the cooperative and a second adjustment between the cooperative and the equalization fund of the market-wide pool.

To simplify the procedure of accounting for such transfers, and to facilitate the reporting of utilization by the date specified, it was proposed that handlers operating bottling plants be required to pay the cooperative association a minimum of the base price for the month for such milk. In computing the cooperative equalization account the value of such bulk milk transferred to bottling plants at the base price would be added to the class values of other utilization.

This proposal would not affect the final cost of milk to handlers or the return to producers, and differs from settlement between the cooperative and transferee handlers at a pro rata or an agreed classification only in the method of handling a relatively small difference between the value of the transferred milk at the pro rata or agreed classification and such value at the base price. This difference would be reflected in the handler's payment made to or received from the equalization account. The recommended procedure would provide the same assurance of payment for milk marketed to handlers through a cooperative plant as for milk delivered directly by producers, and would result in payment for milk by each handler at his utilization value with a minimum of accounting requirements. The use of the base price in computing the equalization account charges and credits for such transferred milk is recommended because it would result in initially charging each handler at the approximate utilization value of the milk and, therefore, relatively small settlements with the equalization fund would be required.

It was proposed that a cooperative not be a handler with respect to milk transferred in bulk to a handler operating a bottling plant. A cooperative operating a plant which first receives milk from producers must be responsible for all records of milk receipts and of payments and therefore should be a handler with respect to all producer milk received at such plant.

Since some handlers combine operations which utilize other source milk and producer milk in the same plant, it is necessary to provide a method for allocating such other source milk to the various classes of utilization. Since producer milk includes all milk which is regularly available for fluid disposition in the marketing area, the method of allocating provides that such producer milk shall be allocated to the higher value uses to the extent that such uses are available.

(6) *Class prices.* Since the Detroit fluid milk market supply is obtained from a region in which large quantities of milk are delivered to plants which manufacture various milk products, it is necessary that the price for the fluid market be closely related to the level of prices being paid at competing manufacturing plants. There are some differences from time to time between the prices paid at plants manufacturing different products. Therefore, the Class I price should be related to that particular manufacturing milk price which represents the best outlet for manufacturing milk at any particular time. The method of accomplishing this has been to relate the Class I price to a series of basic formula prices which represent different kinds of manufacturing milk prices. Special differentials should be added to the highest of the prices determined by 4 separate alternate price formulas to determine the Class I price for each month.

(a) *Basic formula price.* Producers proposed 4 alternate basic formulas for use in determining the Class I price based on prices of butter and powder, butter and cheese, prices paid dairy farmers by 18 midwest dairy manufacturing plants and by 5 Michigan dairy manufacturing plants. Distributors made the same proposal and also proposed use of the same basic formulas in slightly modified form, and the 18 midwest plant price only.

The first 3 of the price formulas included in the producer proposal are widely used for determining Class I prices in milk markets under Federal regulation. The use in this order of these price formulas with appropriate Class I price differentials would correlate the Detroit Class I price with Class I prices in other markets such as Toledo and Cleveland. No objection was made to the use of the average of prices paid by certain Michigan manufacturing plants as an alternate basic formula, but there was disagreement as to which specific plants should be used. A number of different plants were proposed for inclusion, and the use of 7 plants instead of 5 was suggested. The following considerations should govern the selection of these plants so far as possible:

(1) Cooperative plants should not be included since their pay price to farmers usually includes only part of the return for milk, the remainder being paid as a patronage dividend which is not reflected in the reported pay price.

(2) Plants operated by a handler under the order should not be included because prices should be determined wholly independent of the actions of any handler.

(3) The plants selected should represent as wide a variety of manufactured products as possible.

(4) The plants should be so located as to represent all parts of the milkshed.

The use of 7 plants involves the possible difficulty of getting prompt payments reports, and it is improbable that the added quotations would influence the average price appreciably or make it more representative of manufacturing milk values in the area. The reporting of pay prices by the plants selected is voluntary and the use of any plant pay price in this formula will depend on consent of the plant operator to report his average pay price.

The following 5 Michigan plants appear to most nearly meet the requirements set forth above and should be used in determining the basic formula price.

Company	Location	Products
Fairmont Foods Co.	Bad Axe	Butter, condensed milk, ice cream mix.
Kraft Cheese Co.	Clare	Cheese.
Carnation Milk Co.	Sheridan	Evaporated milk.
Grand Ledge Milk Co.	Grand Ledge	Nonfat dry milk solids, sweet cream.
Pet Milk Co.	Hudson	Evaporated milk.

Use of the highest formula price as the basic formula price would base the Class I price on the most favorable manufacturing use for milk in each month. In an area where all important dairy products are manufactured, fluid milk markets must compete for milk with plants making the highest value products. The Class I price should therefore be based on the formula representing the highest value for milk for manufacturing.

(b) *Class I price.* The Class I price should be determined by adding $1.35 to the basic formula price. This added differential should be increased 15 cents when a shortage of producer milk for Class I utilization is indicated by the ratio of receipts of producer milk to Class I utilization in the second 2 preceding months and decreased by 15 cents when an excess supply of milk is so indicated. An additional 15 cents should be added or subtracted for each additional full five percentage points decrease or increase in the ratio of producer milk receipts to Class I utilization.

Producers proposed a Class I price differential of $1.40 to be added to the basic formula price each month. Distributors proposed various differentials varying seasonally, which would average about $1.10 over the year, and one to be determined each month by a supply-demand formula. It was testified that a large proportion of the milk supply for the Detroit area is received at country stations and reshipped to bottling plants. The country station location differentials proposed by producers average 17 cents per hundredweight so that the Class I price reflected in the price to most producers at the point of milk delivery would average 17 cents below the marketing area price. This must be taken into account in setting the Class I differential.

Data covering an estimated 80 percent of the market value of milk deliveries indicate that the average number of producers supplying the market increased 1.5 percent from 1948 to 1949, while the average milk deliveries per producer increased 2 percent. In the same period, however, average daily Class I sales increased 5 percent. For the three years 1947 through 1949 producer milk deliveries averaged 135 percent of total Class I sales. The Class I price negotiated by the cooperative during this 3 year period averaged $1.39 over the proposed basic formula price. For the year 1947 the Class I price in Detroit averaged $1.23 above manufacturing milk prices as represented by the recommended basic formula price, and for the first 8 months of 1948 averaged only 86 cents above. These relatively low prices were associated with a decline in milk receipts in relation to sales. For the 12 month period ending with July 1948 Class I sales averaged 81 percent of producer milk receipts and during the period from November 1947 through February 1948 the market was short of milk.

Deliveries of milk to the Detroit market seem to respond readily to changes in the relationship of Detroit prices to prices for manufacturing milk. When the differential between the two prices has been large deliveries to Detroit have increased. When the price differential has narrowed deliveries have fallen off. Manufacturing milk prices dropped sharply after August, 1948, and the Class I price was increased, with the result that for the 9 month period from September 1948 through May 1949, the differential between Detroit Class I prices and manufacturing prices averaged $2.05 per hundredweight. This period of relatively high Class I prices brought about a reversal of the downward trend of milk receipts in relation to sales. For the year of 1949 Class I sales averaged 69 percent of producer milk receipts compared with 80 percent for 1948, and the supply each month exceeded that in the corresponding month of 1948. In the 12 month period of June 1949 through May 1950, the Class I price averaged $1.41 above the proposed basic formula price. During the first 7 months of this period, producer milk receipts increased in relation to Class I sales to a high point in December 1949 in which month only 70 percent of producer milk was sold as Class I compared with over 84 percent in December 1948. The maximum effect of the high differential between Detroit prices and manufacturing prices from October 1948 through May 1949 and of other factors such as favorable weather and ample feed supplies seems to have been reached by the end of 1949.

During the first 5 months of 1950 the excess of milk receipts over the corresponding months of 1949 decreased and receipts in May 1950 were below May 1949. During this period the Class I price was at approximately the level above manufacturing milk prices which producers proposed be fixed by the order. The record of milk receipts and Class I sales would seem to indicate that a Class I differential as high or higher than that proposed would be necessary to insure an adequate supply of milk. However, a number of provisions of the order other than the Class I price would have the effect of increasing the average return to producers. Distributors not in the present pool but who would be handlers under an order have a higher average Class I utilization than those now pooled. A higher butterfat differential would increase the return somewhat for Class I milk. The Class II order price recommended would probably return somewhat more for milk for these uses than was realized in 1949. Payment for all milk on a complete classified use basis would probably increase the average price to producers for all milk somewhat, and an audit verification of all handlers' uses would tend to have the same result.

Considering all of the factors discussed above, it is concluded that a Class I price differential of $1.35, subject to a supply-demand adjustment as recommended below, will attract to the Detroit market area an adequate supply of milk meeting the applicable health standards.

A proposal was made that the Class I price differential be adjusted monthly in relation to changes in the ratio of producer milk receipts to Class I utilization. Such a provision appears desirable but the proposal made should be modified somewhat. There are objections, for instance, to relating a current period to a 1947–48–49 base period, as proposed, as a measure of the time and amount of price changes desirable. During this 3 year period producer milk deliveries were 135 percent of Class I utilization, a larger supply than necessary to insure sufficient milk for Class I utilization in the short supply months. The 3 year period was one of wide variations both in prices and in production. The Class I price ranged from 58 cents above the proposed basic formula price to $2.32 above and producer milk receipts ranged from 107 percent of Class I utilization in December 1947 to 143 percent in December 1949. For these reasons the 1947–49 period does not seem to be suitable either as an indication of an appropriate Class I price differential, or as a guide to the normal seasonal variations in the ratio of receipts to Class I utilization.

The object of a supply-demand price adjustment in this market is to bring about an automatic price increase when the supply of producer milk is at such a level in relation to Class I utilization that a shortage in the months of seasonally low production is indicated, and a price decrease when the supply may be expected to be substantially above Class I needs in the low production months. These price changes should be made as soon as possible after an oversupply or shortage is indicated, as a lag of a few months may result in increased prices in the spring months of high production as a result of a shortage the previous winter. A minimum lag of 2 months appears necessary, allowing computation in the current month of the market supply-demand relationship in the preceding month to be applied to the Class I price in the next following month.

It was testified that a minimum milk supply for the market of 115 percent of Class I utilization is needed in any one month to provide adequate milk for Class I uses because of unequal distribution among handlers and daily and weekly variations in receipts and sales. A supply of more than 130 percent of Class I utilization in the shortest supply month would indicate a supply larger than needed. An upward price adjustment would be indicated if the market supply of producer milk in the shortest supply month might be expected to fall below 115 percent of Class I utilization and a downward adjustment indicated if this supply might be expected to exceed 130 percent of Class I utilization. Monthly data on daily average deliveries per farm indicate a fairly uniform seasonal variation in production each year. The supply-demand ratio for other months which would correspond to 122.5 percent, the midpoint of the 115 percent—130 percent range, in the shortest supply month may therefore be computed by adjusting this ratio by a standard seasonal variation in producer milk deliveries computed as an average of the seasonal variation of the most recent 5 years. A Class I price increase is then indicated at a full 7.5 percentage points below the adjusted ratio and a decrease at a full 7.5 percentage points above the adjusted ratio, as computed for each month. It may be necessary to revise the standard seasonal adjustment after data becomes available on the seasonal production of all producers supplying the market. If the seasonal variation in the production of all producers shows a wide divergence from that indicated by the data now available, it may be necessary to postpone the effective date of the supply-demand adjustment until complete data is available. The possibility of erratic price movements due to temporary influence may be largely removed by use of a 2-month period instead of one month, and is so provided.

Producer milk receipts in relation to sales and to producer prices over the last 4 years indicate that the proposed 3 cents per percentage point is a desirable rate of supply-demand adjustment of the Class I price differential after providing a 15-cent change for the first full 7.5 percentage point variation. A period of 9 months during which the Class I price averaged about 82 cents above the recommended basic formula price coincided with a period of milk shortage. Another period of 8 months during which the Class I price averaged about $2.12 above the recommended basic formula price coincided with and was followed for several months by an oversupply of milk. These data indicate that a range of Class I price differentials somewhat less than these extremes is desirable. A price change of 15 cents for the first 7.5 percentage points variation in the ratio, and an additional 15 cents for each 5 percentage points, when applied to the supply-demand ratios of the last 4 years gives a top differential of $1.80 (in 3 months only) and a low (in 3 months only) of 90 cents. It is unlikely that either of these extremes would have been reached had the recommended pricing plan been in effect during these years, since the computed range of 90 cents to $1.80 is based on production responses to Class I price differentials ranging from a low of 58 cents to a high of $2.32. The range which might be expected from the use of a 15-cent adjustment for each 5 percentage points probably would not exceed $1.05 to $1.65 which appears appropriate to stimulate an ample supply of producer milk and at the same time avoid a large surplus.

To remove the possibility of a succession of increases and decreases if the ratio should fluctuate slightly above and below the level at which a price change is effected, it is provided that after a price change occurs a change in the ratio of an additional ½ percentage point is required to bring about a succeeding change in the opposite direction.

(c) *Class II price.* The Class II price should reflect the value of milk for general manufacturing uses in the Detroit milkshed. The average of the prices paid by 5 Michigan dairy manufacturing plants, as recommended for use as an alternate basic formula price, will normally reflect the value of milk in the Detroit area which is not used for fluid milk sales. Much of this milk is diverted to manufacturing uses in the various plants in the milkshed, and the 5 plant average price will usually be representative of the prices received for this milk, because of the selection of the plants as discussed in connection with the basic formula price.

It is possible, however, that due to the limited number of plants which it is practical to use, and the limited area represented, that prices paid by these plants may be lower at times than the market prices of manufactured dairy products would justify. As a safeguard against temporarily depressed prices in the local area, an alternate Class II price based on the market prices of butter and nonfat dry milk solids should be provided. A formula used in many milk markets under Federal regulation for pricing milk for manufacturing uses is recommended. This formula determines butterfat values at the average price of 92-score butter at Chicago plus 20 percent and skim milk values at the average price of spray and roller process nonfat dry milk solids at Chicago area plants less a manufacturing cost allowance of 5.5 cents per pound and converted to skim milk equivalent by use of a yield factor of 8.5 pounds of powder per hundredweight. Use of this formula price as an alternate Class II price would insure a price in line with national values of manufactured dairy products during any periods when the price paid by the particular local plants selected might be abnormally low for any reason.

(d) *Method of pricing.* Producers proposed that butterfat and skim milk be classified and priced separately. Distributors objected to butterfat and skim milk pricing, and proposed that the utilization in each class in hundredweight be priced at a 3.5 percent hundredweight price, adjusted to average test of the class by use of the producer butterfat differential, which averages about 112 percent of the Chicago 92-score butter price. They contended that resale prices of the various products marketed are adjusted to this method of pricing milk, which has been in use in the market for many years. This method of pricing tends to encourage consumption of butterfat, they claimed, by fixing a relatively low cost for high butterfat content products. Producers claimed that all handlers should pay the same price for all butterfat and skim milk used in any one class and that the relative values of butterfat and skim milk in each class should be the relative values in the open market as shown by market prices of butter and nonfat dry milk solids. These relative values should change from month to month as market values change. The additional cost of producing milk of the quality required for Class I products should be allocated to Class I butterfat and skim milk in proportion to the market values of butterfat and skim milk for manufacturing uses. They pointed out that the distributors' proposal allocated all of this additional cost to the skim milk.

Computing the proposed prices by the method suggested by distributors, for the month of April 1950, skim milk in Class I would have cost $1.99, 3.2 percent milk $4.03 and 5.0 percent milk $5.24. The added fat would cost less than the price proposed for butterfat in the Class II formula. In Class II, 100 pounds of 40 percent cream would have cost $26.71 while the 40 pounds of butterfat in this cream would be worth $28.70 at the butterfat value in the proposed Class II formula (Chicago 92-score butter plus 20 percent). Under the pricing method proposed by producers, the corresponding prices would have been 74 cents for skim milk, $3.96 for 3.2 percent milk, $5.78 for 5 percent milk and $29.01 for 40 percent cream.

The proposed methods of pricing milk on a hundredweight basis or a butterfat and skim milk basis represent alternate accounting methods and do not determine the cost of milk to handlers or the return to producers. In view of the market custom of hundredweight accounting and pricing, it appears that a continuation of this method of pricing by the terms of the order is desirable. Class prices should be expressed as hundredweight prices, and the price for each class should be adjusted to the actual butterfat test of the class by use of the butterfat differentials recommended below.

The classification and allocation of producer milk should be on a skim milk and butterfat basis. Because of the wide variation in the butterfat test of the various products, it is probable that the skim milk from producer milk will frequently be utilized in a different class than the butterfat from the same milk. Classification of skim milk and butterfat separately is necessary to accomplish complete classification according to use. It is also necessary to allocate producer skim milk and butterfat separately in order to give producer milk preference over other source milk in the higher value uses.

(e) *Handler butterfat differential.* The Class I butterfat differential proposed by distributors places a low value on butterfat in Class I milk relative to the hundredweight value of the milk. On the other hand, the producer proposal would price such butterfat relatively high, particularly in view of pricing practices prevailing in the market. The proposed Class I and Class II price formulas would have resulted in the last 3 years in a Class I price for 3.5 percent milk ranging from 23 percent to 32 percent above the Class II price. A Class I butterfat differential set at 20 cents per pound of butterfat above the producer butterfat differential recommended herein would result in a Class I differential ranging between 20 and 30 percent above the Class II butterfat differential, depending on the level of butter prices. A differential so determined would range from 25 to 35 cents above the Chicago 92-score butter price. At price levels of April 1950 this would provide a Class I butterfat differential of 85 cents per pound compared with 65 cents proposed by distributors and $1.015 proposed by producers. It is concluded that the addition of 2 cents to the one-tenth pound producer butterfat differential, which is based on the price of 92-score butter at Chicago, will provide an appropriate Class I butterfat differential.

Since formulas are provided for determining the butterfat and skim milk values in one of the alternate Class II prices, the butterfat differentials in this case should be the butterfat value determined by the formula. In the event the 5 plant average pay price is the effective Class II price, an equivalent butterfat differential may be determined by assigning to the butterfat, as proposed, the percentage represented by the butter portion of the butter-powder formula in the same month. This may be accomplished by dividing the butter formula by the hundredweight butter-powder price, multiplying the 5 plant price by the resulting percentage and dividing by 35.

(f) *Location adjustments.* Adjustments for delivery location are provided with respect to payments to producers for milk delivered (1) at country plants (i. e. plants from which no route deliveries are made into the marketing area) located more than 34 miles from the Detroit City Hall and (2) at plants from which route deliveries are made into the marketing area if such plants are located more than 34 miles from the nearest point on the periphery of the marketing area. A credit to handlers at the same rate is provided on milk moved from a country plant to plants operating routes in the marketing area not in excess of Class I disposition of such milk at the receiving plant, and on milk disposed of as Class I milk from the country plant other than to a handler. No location adjustments are provided for plants operating routes in the marketing area and located inside or less than 34 miles outside the marketing area, on payments to producers for milk received or as credits on milk disposed of as Class I or moved to bottling plants.

It was proposed that producer and handler location adjustment rates now in effect be incorporated in the order. For more than 20 years a location adjustment has been applied to milk received at country plants for re-shipment to city bottling plants in the Detroit area. This adjustment, based on the distance of the country plant from some point in the marketing area, has been deducted from the marketing area delivery price in making payments to farmers delivering milk to country plants, and a credit at the same rate has been allowed to country plant operators on milk moved to city plants.

In the earlier years these location adjustment rates were increased several times, reaching a high in 1930 when they ranged from 24 cents per hundredweight at 25 miles or less to 81 cents at 90 miles from the basing point. During the following 9 years the rates were lowered 4 times, to a low which ranged from 12 cents at 45 miles or less to 19 cents at points over 94 miles from the basing point, which rates prevailed for the two years following September 1, 1939.

The slightly higher schedule proposed, which has been in effect since October 1, 1947, provides an adjustment of 14 cents on milk received at or moved from a plant located in a zone 34 miles to 49 miles from the Detroit City Hall by shortest road distance, and an additional 1 cent per hundredweight for each additional 8 mile zone with a limit of 21 cents, which applies to any location beyond 97 miles. While no data were given on milk hauling costs, the proposed rates were considered adequate to cover cost of transporting the milk by tank truck from the receiving plant to city bottling plants. No allowance was proposed for the zone within 34 miles of the city hall as milk produced within this zone may be delivered more economically directly to city bottling plants.

The location allowance is limited to a maximum of 21 cents which is the allowance applicable to the zone starting at 97 miles from the Detroit City Hall. Ample milk for the market is available within the area included in the 8 zones for which mileage rates are provided and very little milk is moved from beyond 97 miles. The movement of milk for unnecessarily long distances at the producer's expense would not be economical. The proposed maximum rate of 21 cents would not discourage the movement of milk from reasonable distances beyond the 97 miles as the economies of the long haul would to some extent offset the lower rate per mile.

Both the Grand Boulevard and the city hall in Detroit were proposed as basing points for location adjustments. Mileage may be determined more readily from a single point than from a street extending many miles. The Detroit City Hall is therefore specified as the basing point for all distance differentials. Zone distances 4 miles greater than now in use based on the Grand Boulevard are provided to allow for the distance of between 3 and 4 miles between the two basing points. The shortest road distance as determined by the market administrator was proposed for fixing the zone location of country plants and appears satisfactory for this purpose. The location adjustments as proposed would apply to all producer milk delivered to qualifying country plants in each zone and it appears would result in a fair value for such milk in relation to the value of milk delivered at city bottling plants.

It was proposed by producers that handlers operating receiving plants in the location adjustment area receive a credit computed by applying the applicable zone route to all milk moved to marketing area bottling plants regardless of the use classification of the milk so moved. Handlers proposed that the customary method of pricing milk be continued and this method, in effect, allows the location adjustment credit on 107 percent of Class I utilization. This results from adjusting the city price of Class II–B milk, which includes all producer milk in excess of 107 percent of Class I milk, by adding the average location adjustment of 17 cents to the Class II–B price formula. While the location adjustment credit is allowed on all milk moved to city bottling plants, it is in effect removed from Class II–B milk by increasing the marketing area price by the average location adjustment. This method of pricing manufacturing milk is not recommended.

Producers should not be required to bear the cost of transporting manufacturing milk from country plants to city plants. Milk may usually be manufactured more economically in country plants, and if a handler chooses to transport milk into the city for manufacture he should pay the cost of transportation. The handler location adjustment should apply therefore only to milk moved to bottling plants for Class I use. The use of milk moved from country plants would be determined by pro-rating to such milk the classification of all producer milk in the bottling plant (after first allocating other source milk to the lowest value uses).

In most cases some milk must be moved to bottling plants in excess of Class I needs and distributors proposed that the transportation allowance apply to some amount of milk in excess of 100 percent of Class I utilization. While it is true, as pointed out above, that present allowances cover 107 percent of present Class I utilization, the order Class I would include certain products not presently included in Class I. The transportation allowance would therefore apply to approximately the same volume of milk as the present allowance, which testimony indicated is generally considered satisfactory.

Because of the large size of the marketing area, some bottling plants located in the marketing area would also be in

a zone to which a location adjustment would apply. It was proposed that the producer location adjustment apply to milk delivered to such plants as well as that delivered to country receiving plants. It was further proposed by distributors that handlers disposing of Class I or Class II producer milk from plants located in a location adjustment zone, including bottling plants in the marketing area, receive a credit on such milk at the rate of the handler location adjustment applicable to the zone. Producers also proposed such a credit, but that it be applicable only at plants located more than 65 miles from the Detroit City Hall.

The portion of the marketing area including the city of Ann Arbor would be in the first location adjustment zone (34 to 49 miles from the Detroit City Hall) and that including Port Huron and nearby cities would lie in the first 3 zones (34 to 65 miles from the Detroit City Hall). As proposed, producers delivering milk to Ann Arbor bottling plants would receive 14 cents less than for milk delivered within the 34 mile zone, and those delivering to plants in Port Huron and nearby areas would receive 14 to 16 cents less. As proposed by handlers, a handler credit of like amount would be allowed on Class I and Class II disposition from these plants. Under the producers' proposal, however, no credit on Class I and Class II disposition would be allowed within the 65-mile zone, which would exclude all plants within the marketing area.

All parts of the marketing area are dependent upon the entire production area for a year around supply of milk. While part of the milk for the Ann Arbor and Port Huron areas is supplied by nearby farms, both areas depend for a large amount of milk on country plants which are part of the supply system for the entire marketing area. The prices necessary to attract an adequate supply of milk for the entire area should apply therefore to all parts of the area.

Location adjustments to producers are provided to adjust the amount paid for milk which is not delivered to city bottling plants to allow for the additional cost of moving such milk from the plant where it is delivered by the producer to the area where it is to be distributed and should not apply to milk delivered by a producer to a bottling plant distributing milk in or near the marketing area unless the bottling plant is located an appreciable distance from the marketing area. No location differentials are recommended at points nearer than 34 miles to the Detroit City Hall. The same distance is appropriate for determining the application of a location differential to plants operating routes in the marketing area, except the distance should apply to the nearest point by highway to the boundary of the marketing area. It is provided that location adjustments, both producer and handler, apply to milk delivered to plants more than 34 miles from the Detroit City Hall, and in the case of plants operating routes in the marketing area, also located more than 34 miles from the boundary of the marketing area by shortest highway distance.

Handler plants receiving milk approved for sale in the marketing area may dispose of Class I milk in localities outside the marketing area. It was testified that the Detroit market is the dominant factor in the determination of prices in the entire milkshed. Hence, the Detroit marketing area Class I price, less the applicable location adjustment, would represent approximately the value of Class I milk disposed of from any plant in the Detroit milkshed. It is provided that a handler shall receive a credit with respect to Class I milk disposed of, other than to another handler, from a plant outside the marketing area from which a route is not operated in the marketing area at the rate of the location adjustment for the zone in which the plant is located. This credit is made applicable only at plants located more than 34 miles from the nearest point by highway to the boundary of the marketing area in the case of plants disposing of milk on routes in the marketing area. No allowance is provided for Class II milk since this milk would be mostly used in manufactured products and its value would not decrease at locations more distant from Detroit.

(g) *Transportation credits.* No transportation credits in addition to the zone location adjustment should be allowed to handlers on Class I milk disposed of, or on Class II milk moved for manufacturing.

It was proposed that a credit be allowed to a handler on any bulk, unpasteurized milk moved to a person other than a handler at a location 65 miles or more from the Detroit City Hall for Class I utilization computed at a rate of 17 cents for the 65 to 73 mile zone from the Detroit City Hall and increased one cent for each additional 8-mile zone. It was testified that the proposal was intended to permit disposal of milk during the summer season to milk distributors in distant resort areas at a price not in excess of the Detroit Class I price at the handler's receiving plant.

This proposal conflicts with the proposal discussed above to allow a credit on any Class I disposition other than to another handler from certain plants at the rate of the location differential applicable to the plant. This proposal, in effect, would require producers to pay the transportation cost to any point more than 64 miles from Detroit where a handler might choose to dispose of bulk Class I milk. If Class I milk from the Detroit area is needed in a distant market, it appears that the cost of transporting the needed milk should be borne by the market which is short of milk and not by the milk producers of the area from which the milk is supplied.

It was also proposed that a credit be allowed to handlers on milk transported from the plant where it is received from producers to another plant for manufacture at a rate of 6 cents per hundredweight for distances of ½ mile to 5 miles between the receiving plant and the manufacturing plant and at the rate of 1 cent for each additional 6 miles or fraction thereof with a maximum allowance of 18 cents per hundredweight.

In the Detroit market some milk distributors receive all of their milk needs from producers, either at a city bottling plant or at country plants, and manufacture the receipts in excess of their fluid milk needs into dairy products, generally at the plant where the milk is received from producers. If it is necessary to move any of the milk to another plant for manufacture, the transportation cost is paid by the distributor. Other distributors buy part or all of their milk from a producers cooperative association and assume no responsibility for disposing of milk in excess of their needs for fluid sales. The cooperative must arrange for converting the surplus milk which these distributors would otherwise be required to handle into manufactured products and in doing so must move substantial quantities from the country plants where it is received from producers to other plants for manufacture. It is expected, therefore, that the cooperative would be the main recipient of the transportation credits under this proposal.

If the proposed credits were provided for in the order, some of the costs which the cooperative must bear in the disposal of surplus milk would be defrayed out of the equalization pool and ultimately reflected in a lower return to all producers. A number of handlers have arranged to dispose of all surplus milk incident to their operations without the necessity of transporting milk at the expense of producers. The level of surplus milk prices which is provided is designed to cover the cost of converting surplus milk into manufactured dairy products. Any extra costs which the cooperative must bear appear to be due to additional services performed for certain distributors such as furnishing milk in the exact amounts needed for Class I uses, maintaining country receiving plants, keeping an adequate supply of milk available at all times and handling the disposal of any milk not needed by these distributors. It appears that these extra costs should be reflected in the cost of milk to the distributors who receive the additional services rather than be charged to producers through pool credits. The charge for manufacturing milk should be the same for all handlers, including cooperatives, without special allowances or credits applicable to particular methods of handling this milk.

(7) *Payments to producers*—(a) *Type of pool.* Market-wide pooling of all proceeds of producer milk was proposed and no objection was made to this type of pool. The nature of the market requires a uniform price to all producers representing the value of all market utilization to fairly compensate producers for their contribution to the market supply. Some distributors buy as closely as possible to their needs and carry little or no surplus in the high production months. A cooperative handles a large portion of the spring surplus production and supplies many distributors with milk as needed. Distributors in the Ann Arbor area buy from producers less milk than needed for a large portion of the year, and depend on additional purchases of milk in bulk from a cooperative. Some country plants supply milk for fluid distribution only in a few months of low production but maintain an available supply at all times. Producers supplying these various handler plants contribute equally to making available a year around supply of milk but would

receive widely varying returns under an individual handler pool method of payment.

Handlers are required to make payments for all producer milk received at the uniform base price for base milk and the excess price for excess milk, as explained below, either to producers directly or to a cooperative association for milk delivered by member producers. In the case of producers for whom a cooperative acts as marketing agent, payments may be made to the producer or to the cooperative, as agreed between the cooperative and the handler. Payments to a cooperative for producer milk delivered in bulk are required to be made at the uniform base price for the reasons set forth in the discussion of transfers.

(b) *Base-excess plan.* A "base plan" for returning the proceeds of milk sales to producers in a way which will encourage more uniform seasonal production is provided. Milk is to be paid for on the basis of deliveries during the August–December period.

A base plan has been in use in the Detroit market since 1950 and a proposal was made to incorporate this plan in the order in substantially the form now in use. It was shown that at the time the base plan of payment was introduced 20 years ago, milk deliveries to the market in the highest production month were 175 percent of deliveries in the lowest month. After 10 years of operation of the plan (1940), milk receipts in the highest production month were only 126 percent of the lowest month. During the next 5 years wartime demand and higher prices apparently somewhat offset the base plan incentive for even seasonal production. By 1945 the seasonal variation in milk receipts as measured by the percentage relationship of the highest month to the lowest month had increased to 146 percent. In the following 4 years seasonal variation in production improved and in 1949 the high month was down to 134 percent of the low month. If the seasonal variation of 1930 had prevailed in 1949, and November deliveries had been only adequate for market needs (115 percent of Class I utilization), deliveries in June would have been over 201 percent of Class I and in volume over 60 million pounds of milk in excess of Class I needs. It was stated that in view of the difficulty experienced in disposing of the actual market surplus in 1949 when June receipts exceeded Class I utilization by only 30 million pounds, a completely demoralized market might have resulted without the influence of the base plan on seasonal production.

Basically, the plan provides that each producer will receive approximately the marketing area Class II price for milk delivered each month in excess of a daily average amount, the producer's "base", which base is the daily average of shipments of the producer for the period of August through December of the previous year, the "base period." For milk deliveries not in excess of base, a "base price" is paid which is computed by dividing total market base milk deliveries into the remaining returns for all producer milk marketed during the month after deducting the value of the excess milk.

The plan as proposed by the cooperative differed from the simplified outline above in two major respects: (1) in the case of a daily average of base period deliveries lower than the base already held by a producer, the new base would be the previous base less any amount by which 90 percent of the previous base exceeds the average daily base period deliveries, and (2) once during each year a producer may elect to give up his base and to establish a new base under the method proposed for establishing the base of a new producer.

It was proposed that a new producer entering the market, or a producer electing to give up his base, be paid for a certain percentage of his milk during each of the first three full months of delivery at the base price and the remainder at the excess price. These percentages are fixed for each month at a somewhat lower percentage of base and higher percentage of excess than the normal market average of all producers for the month. The average daily amount of milk paid for as base milk over the three-month period would determine the producer's daily base until a new base is established. The percentages proposed are now in use in the market and reflect the difference in seasonal production patterns of old producers and new producers as determined from market experience. The low spring percentages are necessary if producers are to be given the option of establishing a new base in order to prevent producers having a wide seasonal variation from receiving higher payments than justified by establishing two bases each year. The recommended percentages of milk deliveries to be paid for at the base price, 75 percent for February, 70 percent for March, 80 percent for April and July and 40 percent for May and June, are appropriate for making payments in these months to new producers and to producers who elect to establish new bases. Payments during the base period, however, should be at the market blend price as discussed below. Base should be established on deliveries during the base period at 80 percent of deliveries. This would give old shippers the option of establishing a new base on 100 percent of daily average deliveries in the 5 months of August through December or 80 percent of deliveries in the 3 months of October, November and December.

In the Detroit market the months of lowest production in relation to fluid milk sales are normally October, November, December and January. The base period proposed includes August and September which are usually months of more plentiful supply than are January and February, and does not include January. These months appear to have been selected to offset the lag in production responses which requires the stimulas to fall and winter production to become effective some months in advance of the period of shortest production in relation to market needs. A base period extending through January and February would tend to result in higher production in the spring months of oversupply. Deliveries of base milk in the 5 months of the base period averaged over 87 percent of Class I sales in the last 4 years, and over 91 percent in 1946 and 1947, which indicates the desirability of shifting production to those months. It is concluded that the proposed base forming period should be adopted except that deliveries for only 122 days during the period be required. This would allow for a producer starting delivery not later than September 1, and for limited lapses in delivery during the period.

Continuation of producer payments on the base and excess plan during the base forming months was proposed. The base-excess plan was proposed as an incentive for more even seasonal production, the objective being to encourage each producer to produce more of his total year supply of milk in the late summer and fall months and less in the spring months. The plan, therefore, should not discourage increased fall production by requiring payment for all or part of higher production at the excess price. It was proposed that a new producer, or an old producer desiring to establish a new base, be paid during the base forming months at the base price for 80 percent of his milk deliveries and at the excess price for 20 percent. However, no penalty should be imposed during these months when the supply of milk is shortest in relation to demand, either on new shippers entering the market or on old shippers who desire to increase the level of their milk deliveries. It is concluded, therefore, that during the base forming months a new shipper, or an old shipper who relinquishes his base, should be paid the market blend price for all milk delivered during up to 3 of these months, and a base then be established at 80 percent of the average daily deliveries during 3 months. If deliveries are made for 4 or 5 of the base forming months, a new base of 100 percent of such average deliveries would become effective February 1. Only 80 percent of a producer's deliveries are allowed as base when the base is established on three months deliveries. Such deliveries are made at the uniform price. Deliveries of milk for two of the base forming months in the case of old shippers and one or two months in the case of new shippers are made under the previous base or the newly established 80 percent base in establishing a base on 100 percent of his deliveries. These provisions will require re-examination after data are available on the results of their operation to determine the possible restrictive tendencies.

The proposal that bases be reduced by the difference between the average base period deliveries, and 90 percent of the previous base was the result of long experience in the market which has shown that such an adjustment eliminates most cases of inequity and dissatisfaction because of reductions in base due to accident, disease, weather, feed quality and other conditions more or less beyond the control of the producer.

A producer may desire to change his level of production and should not be required to receive payment for the higher production at the excess price until the next February 1st. It was proposed that producers be permitted to re-establish a base in line with their

normal production level by allowing any producer to relinquish his base and to establish a base as a new producer once during each year. This would make the plan more flexible and would take care of cases of abnormally low production during the base period due to unsual circumstances.

A period of one month is allowed following the end of the base period to computate new bases. Every producer (except those who have been on the market less than 3 months) receives a new base on February 1 computed as the average of daily deliveries during the base forming months, or 80 percent of average daily deliveries in 3 months.

It was proposed that bases in use on the effective date of the order be applicable, subject to the approval of the market administrator, until the next February 1. However, the record indicates that there are some 2,000 producers who would have no base. It was proposed that the market administrator collect data on deliveries of these producers for the previous base forming months, or the first 3 months of delivery, and compute bases as if the order had been in effect during the base forming months of the previous year. Aside from the difficulties of collecting the data and making the computations in the brief period allowed, and the probable lack of some necessary records, which make the proposal impractical if not impossible to carry out, the proposal, in effect, would make certain provisions of the order retroactive to periods several months before the order would become effective. The last objection also applies to requiring payments on bases already established previous to the effective date of the order.

It is provided that all milk be paid for at a uniform price until bases have been established by deliveries during the first base period after the order becomes effective. This, of course, would not prevent a cooperative from re-pooling the returns for milk of its members and making payments on such base and excess plan as it may elect.

Rules have been provided for the handling of bases under certain circumstances. It is provided that any producer who fails to deliver milk to a handler for 45 consecutive days shall lose his base.

(c) *Producer butterfat differential.* Payments to producers must be adjusted for butterfat content. The proposed butterfat differential, based on the market price of 92-score butter at Chicago, has been in use in the market since 1941. This differential appears to have resulted in a supply of producer milk of satisfactory butterfat test for the needs of the market, and it is recommended as a provision of the order. Order prices are set for 3.5 percent milk as prices have always been announced for milk of this test in the market, and the basic test of 3.5 percent apparently requires a minimum of adjustment to arrive at prices for actual tests of producer milk.

(8) *Administrative provisions* — (a) *Administrative assessments.* The act provides that the cost of administering a milk marketing order shall be financed by assessments on handlers subject to the order. An assessment of 2 cents per hundredweight of milk received from producers was proposed for the purpose. Although a considerable volume of cream from sources other than producers is received, testimony indicates that a fair apportionment of the administrative costs among handlers may be arrived at by basing the assessment on receipts of producer milk only. Normally, little or no other source milk is received as milk at handler plants. Should the rate of 2 cents per hundredweight prove more than adequate to cover costs of administering the order, it is provided that the Secretary may prescribe a lesser amount.

(b) *Marketing services.* To verify payments to producers at required rates, it is necessary to determine that butterfat tests and weights are accurate. To promote orderly marketing and encourage the production of an adequate supply of milk of satisfactory quality, it is necessary to furnish information regarding the market to individual producers. The cost of these market services should be paid by the producers who receive the benefits. Cooperative associations may be performing these services for members. It is provided, therefore, that in making payments to producers who are members of cooperatives determined by the Secretary to be performing such services, handlers shall deduct and pay to the cooperative such deductions as are authorized by the members of the cooperative. In the case of producers who are not receiving such services from their cooperative, the service should be performed by the market administrator with funds provided by a deduction from payments to such producers. It was proposed that a deduction of 5 cents per hundredweight be provided for this purpose. No testimony opposed such a deduction or indicated that a different rate should be provided.

Data on costs of furnishing these services to producers not serviced by cooperatives indicate that such costs would be relatively high. These producers deliver milk to 89 plants which are scattered over a wide area. It was estimated that butterfat check-testing costs under these conditions would be over 60 cents per test. It is provided that a deduction of 5 cents per hundredweight be made from payments to producers not receiving market services from a cooperative of which they are members and paid to the market administrator to be used for performing such services, and that this rate of 5 cents may be lowered by the Secretary if experience proves a lesser amount to be sufficient.

(c) *Other administrative provisions.* The other provisions cover administrative procedures necessary to carry out the pricing and payment requirements of the order, and for the liquidation of accounts in the event of suspension or termination of the order. Appointment of a market administrator is provided for and his powers and duties are prescribed. The computations to be made by the market administrator in determining class prices and the uniform and base price are set forth. A producer-equalization account is provided and the method of determining payments due to and from this account outlined so that each handler's payments to or receipts from this account, together with his payments to producers or cooperatives for milk will equal the value of his producer milk at the class prices. Handlers are required to permit verification by audit of all utilization of milk and milk products. Handlers are required to preserve all necessary records to show receipts, utilization and payments for a period of three years. This is considered long enough to allow for all necessary verification and at the same time not burden handlers with an unreasonable volume of old records. Records involved in any litigation, however, must be retained until released by the market administrator.

The termination of any obligation of a handler regarding any payment required by the order or of the market administrator to pay any handler is provided at the end of two years. Exceptions in the case of handler obligations are made in cases of notification of the obligation by the market administrator, failure or refusal of a handler to submit records, or transactions involving fraud or willful concealment of facts. A definite date for terminating obligations prevents the filing of claims which might extend back many years and involve substantial amounts. The resulting uncertainty could cause serious inequities and endanger the stability of the market. Handlers cannot be forewarned as to contingent liabilities and it is extremely difficult and burdensome for them to make adequate provision therefor by setting up reserves or by taking other precautionary measures. It is concluded that in general a period of two years is a reasonable time in which the market administrator should complete his audits and render billings for money due under the order.

Payments to producers have customarily been made on the 15th of the month following that in which the milk was received. It is considered desirable to continue this practice, as a shorter time is impractical considering the necessary reports and computations to be made. Producers should not be required to wait longer than 15 days when payment can be made within that time. Dates specified for announcement of class prices, submission of handler reports, announcement of uniform prices and equalization fund obligations are so set as to permit payments to producers by the 15th of the following month.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, the available supplies of feeds, and other economic conditions which effect market supply and demand, for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of March 1951 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of a marketing agreement or an order regulating the handling of milk in the Detroit, Michigan, marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," and "Order Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order which will be published with this decision.

This decision filed at Washington, D. C., this 6th day of June 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order Regulating Handling of Milk in Detroit, Michigan Marketing Area [1]

AUTHORITY: §§ 924.1 to 924.102 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 924.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products, handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 2 cents per hundredweight or such amount not exceeding 2 cents per hundredweight as the Secretary may prescribe, with respect to all producer milk (including such handler's own production) received during the month.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 924.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

§ 924.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 924.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 924.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 924.5 *Detroit, Michigan, marketing area.* "Detroit, Michigan, marketing area," hereinafter referred to as the "marketing area," means all territory, including incorporated municipalities,

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

within the outer boundaries of the townships of Burtchville, Grant, Greenwood, Kenockee, Wales, Clyde, Fort Gratiot, Kimball, Fort Huron, St. Clair, China, East China, Ira, Cottrellville and Clay in St. Clair County, the townships of Chesterfield, Sterling, Clinton, Harrison, Warren, Erin, and Lake in Macomb County, the townships of White Lake, Waterford, Pontiac, Avon, Commerce, West Bloomfield, Bloomfield, Troy, Novi, Farmington, Southfield, and Royal Oak in Oakland County, the townships of Ann Arbor, Superior and Ypsilanti in Washtenaw County, the townships of Ash and Berlin in Monroe County and all of Wayne County, all in the State of Michigan.

§ 924.6 *Handler.* "Handler" means:

(a) A person who operates a plant in which milk is pasteurized or packaged for distribution in the marketing area and from which Class I milk is disposed of during the month on a route(s) in the marketing area;

(b) A person who operates a plant other than one described in paragraph (a) of this section which is approved by the Department of Health of the City of Detroit, Ann Arbor, Pontiac or Port Huron for the handling of milk for consumption as Class I milk in the marketing area, except such a plant from which less than 10 percent of its dairy farm supply of milk is moved to a plant described in paragraph (a) of this section in each of the months of November and December of each year after 1950.

§ 924.7 *Producer.* "Producer" means a dairy farmer who produces milk which is received directly from the farm at a plant described in § 924.6 (except such plant as described in § 924.101) or is diverted for a handler's account from such a plant to a plant not described in § 924.6.

§ 924.8 *Producer-handler.* "Producer-handler" means a person who is a handler and who produces milk, but receives no milk from other producers or from a cooperative association.

§ 924.9 *Producer milk.* "Producer milk" means milk delivered by one or more producers.

§ 924.10 *Other source milk.* "Other source milk" means all skim milk and butterfat received by a handler in any form, other than that contained in producer milk.

§ 924.11 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, duly organized as such under the laws of any State which the Secretary determines:

(a) To be qualified under the standards set forth in the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act;"

(b) To have full authority in the sale of milk of its members; and

(c) To be engaged in making collective sales or marketing milk or its products for its members.

§ 924.12 *Base.* "Base" means a quantity of milk, expressed in pounds per day, determined for each producer as provided in § 924.70.

§ 924.13 *Base milk.* "Base milk" means milk delivered by a producer each month which is not in excess of his base multiplied by the number of days on which milk is delivered during the month, and all milk delivered by a producer prior to February 1, 1952.

§ 924.14 *Excess milk.* "Excess milk" means milk delivered by a producer each month in excess of his base milk.

§ 924.15 *Route.* "Route" means a delivery (other than to a handler) including a sale from a store of a Class I product to a wholesale or retail stop(s).

MARKET ADMINISTRATOR

§ 924.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by, the Secretary.

§ 924.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions;

(d) To recommend amendments to the Secretary.

§ 924.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 924.86:

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 924.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this part, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 924.30 and 924.31, or (2) payments pursuant to §§ 924.80 and 924.84.

(g) Calculate a base for each producer in accordance with § 924.70 and advise the producer and the handler receiving the milk of such base;

(h) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(i) Audit records of all handlers to verify the reports and payments required pursuant to the provisions of this part, and

(j) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month, the minimum class prices for the preceding month computed pursuant to § 924.51 and 924.52, and the handler butterfat differential computed pursuant to § 924.53, and

(2) On or before the 11th day of each month the uniform price, the price for base milk and the price for excess milk for the preceding month, computed pursuant to §§ 924.62, 924.63, and 924.64, and the producer butterfat differential computed pursuant to § 924.82.

REPORTS, RECORDS, AND FACILITIES

§ 924.30 *Monthly reports of receipts and utilization.* On or before the 5th working day of each month, each handler shall report to the market administrator for the preceding month, in the detail and on forms prescribed by the market administrator, the following with respect to (a) all producer milk received, (b) all skim milk and butterfat in any form received from other handlers, and (c) all other source milk (except any nonfluid milk product which is disposed of in the same form as received) received at a plant(s) described in § 924.6:

(1) The quantities of butterfat and skim milk contained in such receipts, and their sources;

(2) The utilization or disposition of such receipts; and

(3) Such other information with respect to such receipts and their utilization or disposition as the market administrator may prescribe.

§ 924.31 *Other reports.* (a) Each producer-handler and each handler described in § 924.101 shall make reports at such time and in such manner as the market administrator may request.

(b) On or before the 20th day of each month each handler who received milk from producers shall report his producer payroll for the preceding month which shall show:

(1) The pounds of base milk and pounds of excess milk received from each producer, and the percentage of butterfat contained therein;

(2) The amount and date of payment to each producer (or to a cooperative association); and

(3) The nature and amount of each deduction or charge involved in the payments referred to in subparagraph (2) of this paragraph.

§ 924.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, skim milk and other contents of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 924.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That, if within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 924.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received at a handler plant (a) in milk from producers or from a cooperative association (except as provided in § 924.43 (c)), (b) in any form from other handlers and (c) in other source milk required to be reported pursuant to § 924.30 shall be classified (separately as skim milk and butterfat) in the classes set forth in § 924.41.

§ 924.41 *Classes of utilization.* Subject to the conditions set forth in §§ 924.42 and 924.43 the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat (1) disposed of for consumption in fluid form as milk, flavored milk, skim milk or buttermilk; and (2) not accounted for as Class II utilization.

(b) Class II utilization shall be all skim milk and butterfat (1) disposed of for fluid consumption as sterilized flavored milk drings or sweet or sour cream; or (2) used to produce ice cream or ice cream mix, cheese (including cottage cheese), dried whole milk, nonfat dry milk solids, evaporated or condensed whole or skim milk, sweetened or unsweetened disposed of in bulk or in hermetically sealed cans, butter, or livestock feed, or dumped; or (3) in shrinkage of producer milk up to 2 percent of receipts from producers; or (4) in shrinkage of other source milk.

§ 924.42 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred by a handler to another handler without first having been received for the purpose of weighing and testing in the transferrer handler's plant shall be included in the receipts at the plant of the transferee handler for the purpose of computing his shrinkage and shall be excluded at the plant of the transferrer handler in computing his shrinkage.

(c) Producer milk received at a plant from which a route is not operated in the marketing area and transferred in bulk from such plant to a plant from which a route is operated in the marketing area shall be subtracted from the producer milk receipts at the first plant and added to the producer milk receipts at the second plant in computing shrinkage.

§ 924.43 *Transfers.* (a) Skim milk and butterfat disposed of by a handler to another handler (except as provided in paragraph (c) of this section, other than a handler described in § 924.101, in the form of milk or skim milk shall be Class I utilization, unless Class II utilization is indicated by both handlers in their reports submitted pursuant to § 924.30: *Provided*, That in no event shall the amount so classified in Class II be greater than the amount of producer milk used in such class by the transferee handler after allocating other source milk in his plant in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk or skim milk by a handler to a person not a handler or to a handler described in § 924.101 shall be Class I utilization unless all of the following conditions are met:

(1) Class II utilization is indicated by the handler in his report submitted pursuant to § 924.30, and a statement certifying to such Class II utilization is received by the market administrator from the operator of the plant to which such milk or skim milk is moved not later than the last day of the month following the month of such movement.

(2) The operator of such plant had actually used in the month of such movement an equivalent amount of skim milk and butterfat in Class II, or moved such amount to another plant not operated by a handler which meets the requirements of subparagraph (3) of this paragraph and utilized in the month an equivalent amount of skim milk and butterfat in Class II.

(3) The operator of the transferee plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such Class II utilization.

(c) Producer milk transferred in bulk from a plant operated by a cooperative association from which no milk is disposed of on a route(s) in the marketing area to a plant as described in § 924.6 (a), except a plant as described in § 924.101, shall be deducted before classification of producer milk at the plant of the transferor cooperative and shall be included in producer milk classified at the plant of the transferee handler.

§ 924.44 *Responsibility of handlers and reclassification.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 924.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I and Class II utilization for such handler.

§ 924.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers.

(a) Subtract from the total pounds of butterfat in Class II utilization, the pounds of butterfat shrinkage allowed pursuant to § 924.41 (c) (3);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk;

(c) Subtract from the remaining pounds of butterfat in each class, the pounds of butterfat received from other handlers (except from a cooperative as set forth in § 924.43 (c)) in such classes pursuant to § 924.43 (a); and

(d) Add to the remaining pounds of butterfat in Class II utilization the pounds subtracted pursuant to paragraph (a) of this section;

(e) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 924.47 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 924.46.

MINIMUM PRICES

§ 924.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I utilization shall be the highest of the prices computed pursuant to paragraphs (a), (b), (c), and (d) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the U. S. D. A.

Present Operator and Location
Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Cooperville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month; subtract 3 cents, add 20 percent thereof and multiply by 3.5.

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the U. S. D. A., deduct 5.5 cents and then multiply by 8.2.

(c) The price per hundredweight resulting from the following formula:

(1) Multiply by 6 the simple average as computed by the market administrator of the daily average wholesale selling prices per pound of Grade A (92-score) bulk creamery butter (using the midpoint of any price range as one price) at Chicago as reported by the U. S. D. A. for the month;

(2) Add an amount equal to 2.4 times the simple average as published by the U. S. D. A. of prices per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, on the trading days that fall within the month.

(3) Divide by 7, add 30 percent thereof, and then multiply by 3.5.

(d) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator:

Present Operator and Location
Kraft Cheese Co., Clare, Mich.
Fairmont Foods Co., Bad Axe, Mich.
Carnation Milk Co., Sheridan, Mich.
Grand Ledge Milk Co., Grand Ledge, Mich.
Pet Milk Co., Hudson, Mich.

§ 924.51 *Class I milk price.* (a) Except as provided in paragraph (b) of this section, the minimum price per hundredweight to be paid by each handler, f. o. b. his plant as described in § 924.6 for milk of 3.5 percent butterfat content received from producers or from cooperative associations, during the month, which is classified as Class I utilization shall be the basic formula price plus $1.35.

(b) Beginning in the third month after this order becomes effective, the percentage which total receipts of producer milk by all handlers during the next two preceding months is of total Class I utilization of all handlers during such period shall be computed each month by the market administrator, and for the following month the Class I price shall be decreased 15 cents if such percentage is 7.5 percentage points or more above the average of the percentages for the corresponding months in the following schedule and increased 15 cents if such percentage is 7.5 percentage points or more below the average of the percentages for the corresponding months in such schedule and the Class I price shall be decreased or increased an additional 15 cents for each additional full 5 percentage points which such ratio of producer milk receipts to Class I utilization is above or below such average percentage: *Provided*, That when the price has been so decreased or increased it shall not be next increased or decreased, respectively, in the following month unless such percentage is ½ percentage point higher or lower, as the case may be, than the percentage at which such price change would otherwise be made.

Month	*Percentages*	*Month*	*Percentages*
January	122.5	July	149.8
February	126.5	August	145.5
March	134.1	September	140.6
April	144.3	October	131.0
May	159.3	November	123.4
June	167.5	December	125.9

§ 924.52 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant as described in § 924.6 for milk of 3.5 percent butterfat content received from producers or from a cooperative association, during the month, which is classified as Class II utilization, shall be the higher of the prices as computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the average price per pound of butter as described in paragraph (b) (1) of § 924.50 by 1.2 and then by 3.5.

(2) From the simple average of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, in barrels for human consumption f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the U. S. D. A., subtract 5.5 cents and then multiply by 8.2.

(b) The price per hundredweight as described in § 924.50 (d).

§ 924.53 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to §§ 924.51 and 924.52, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent the amounts determined as follows:

(a) *Class I milk.* Add 2 cents to the producer butterfat differential determined pursuant to § 924.82.

(b) *Class II milk.* Divide the amount computed pursuant to § 924.52 (a) (1) by the price computed pursuant to § 924.52 (a), multiply the price determined pursuant to § 924.52 (b) by the resulting percentage and then divide by 35 and round off to the nearest one tenth cent.

DETERMINATION OF PRICE TO PRODUCERS

§ 924.60 *Computation of value of milk for each handler.* (a) Subject to paragraph (c) of this section, the value of producer milk received during the month by each handler shall be a sum of money computed by the market administrator by multiplying by the applicable class price adjusted pursuant to § 924.53 the total combined hundredweight of skim milk and butterfat received in producer milk allocated to each class pursuant to §§ 924.46 and 924.47, adding together the resulting amounts, and if such handler has a utilization greater than has been accounted for as received from all sources, add an amount computed by multiplying any such excess utilization classified pursuant to § 924.46 (c) and § 924.47 by the applicable class prices.

(b) Each handler who has other source milk allocated to Class I pursuant to § 924.46 and § 924.47 shall pay to the producer equalization fund each month an amount computed by multiplying the hundredweight of milk so allocated by the difference between the Class I and Class II prices for the month adjusted by the butterfat differentials provided in § 924.53 to the butterfat test of such other source milk.

(c) A handler who receives milk from producers (1) at a plant located outside the marketing area and more than 34 miles by shortest highway distance from the Detroit City Hall and from which no milk is disposed of on a route in the marketing area or (2) at a plant which is located outside the marketing area and more than 34 miles by shortest highway distance from the boundary of the marketing area and from which milk is disposed of on a route in the marketing area shall receive a credit with respect to producer milk disposed of as Class I utilization other than to a handler, and with respect to producer milk moved in bulk from such plant to a plant from which milk is disposed of on a route in the marketing area, computed on the weight of milk so moved which is not in excess of the amount of such milk classified as Class I utilization in the plant to which such milk is moved (pro rating to such milk the utilization of all producer milk received at such plant) at the rate for the applicable zone as determined by the market administrator, as follows:

Zone No.	Shortest road distance from Detroit City Hall	Rate per hundredweight
1	More than 34 miles but not more than 49 miles	$0.14
2	More than 49 miles but not more than 57 miles	.15
3	More than 57 miles but not more than 65 miles	.16
4	More than 65 miles but not more than 73 miles	.17
5	More than 73 miles but not more than 81 miles	.18
6	More than 81 miles but not more than 89 miles	.19
7	More than 89 miles but not more than 97 miles	.20
8	More than 97 miles	.21

§ 924.61 *Computation of the 3.5 percent value of all producer milk.* For each month, the market administrator shall compute the 3.5 percent value of producer milk by:

(a) Combining into one total the individual values of milk of all handlers, computed pursuant to paragraph (a) of § 924.60;

(b) Adding the aggregate value of all allowable producer location adjustments computed at the rates for the appropriate zones as provided in § 924.81;

(c) Adding or subtracting any charges or credits pursuant to § 924.90 (a) or (b);

(d) Adding, if the weighted average butterfat test of all producer milk represented in paragraph (a) of this section is less than 3.5 percent, or subtracting if the weighted average butterfat test of such milk is more than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such average butterfat test from 3.5 percent by the butterfat differential provided in § 924.82 multiplied by 10;

(e) Adding not less than one-half of the unobligated balance in the producer-equalization fund.

§ 924.62 *Uniform price.* For each month the uniform price shall be computed by:

(a) Dividing the amount computed pursuant to § 924.61 by the hundredweight of milk received from producers represented by the values included in § 937.61 (a); and

(b) Subtracting not less than 4 cents or more than 5 cents.

§ 924.63 *Excess milk price.* For each month the excess milk price shall be determined by adding 17 cents to the Class II price determined pursuant to § 924.52.

§ 924.64 *Computation of uniform price for base milk.* (a) Multiply the total pounds of excess milk and milk to be paid for at the excess milk price pursuant to § 924.70 (b) for the month by the excess milk price.

(b) Multiply the total amount of milk to be paid for at the uniform price pursuant to § 924.70 (b) by the uniform price for the month.

(c) Subtract the total values arrived at in paragraphs (a) and (b) of this section from the total 3.5 percent value of all producer milk arrived at in § 924.61;

(d) Divide the resultant value by the total hundredweight of base milk and milk to be paid for at the base price pursuant to § 924.70 (b); and

(e) Subtract not less than four cents nor more than five cents. The resultant hundredweight price shall be the uniform price of base milk of 3.5 percent butterfat content received at plants described in § 924.6.

§ 924.65 *Notification.* On or before the 11th day after the end of each month the market administrator shall notify each handler of:

(a) The amounts and values of his milk in each class and the total of such amounts and values;

(b) The base of any producer delivering milk to the handler which was not used in making payments for the previous month;

(c) The amount due such handler from the producer-equalization fund or the amount to be paid by such handler to the producer-equalization fund, as the case may be; and

(d) The totals of the minimum amounts to be paid by such handler pursuant to §§ 924.80, 924.84, 924.86, 924.87, and 924.90.

BASE RULES

§ 924.70 *Determination of base.* (a) A producer who delivered milk on at least 122 days during the period August 1 through December 31, inclusive, of any year after 1950 shall have a base computed by the market administrator to be applicable, subject to § 924.72, for the 12 months' period beginning the following February 1, equal to his daily average milk deliveries from the date on which milk was first delivered in the period to the end of such August 1–December 31 period: *Provided*, That a producer who had a base previous to August 1 and whose average of daily deliveries for the August 1–December 31 period is less than such base shall have a base computed by subtracting from his previous base any amount by which 90 percent of his previous base exceeds such average of daily deliveries.

(b) A producer who has no base shall be paid during the first three full months he is a producer the uniform price in each of the months of August through December and in other months, in the price applicable to base milk for the following percentages of his milk deliveries and the price applicable to excess milk for the remainder of his deliveries: 75 percent for January and February, 70 percent for March, 60 percent for April and July and 40 percent for May and June. At the conclusion of the first three full months' delivery, a base shall be established in the following manner: Multiply the total deliveries in the months of August through December by .8, in January and February by .75, in March by .7, in April and July by .6, and in May and June by .4. Add the amounts so computed and divide by the number of days in which milk was delivered during the three months.

(c) From the effective date of this order until bases are established pursuant to this section, producers and cooperative associations shall be paid the uniform price for all milk delivered.

§ 924.71 *Application of bases.* (a) A base shall apply to deliveries of milk by the producer for whose account milk was delivered during the base period, and upon death may be transferred to a member or members of the deceased producer's immediate family.

(b) Bases may be transferred under the following conditions upon written notice by the holder of the base to the market administrator on or before the last day of the month that such base is to be transferred:

(1) Upon retirement or entry into military service of a producer, the entire base may be transferred to a member or members of his immediate family.

(2) Bases may be held jointly and if such joint holding is terminated the base may be transferred as specified in writing to the market administrator by the joint holders to a person or persons who maintain a dairy herd or herds on the same farm.

(c) A producer who does not deliver milk to a handler for 45 consecutive days shall forfeit his base.

§ 924.72 *Establishing a new base.* A producer with a base, by notifying the market administrator that he relinquishes such base, may establish a new base pursuant to § 924.70 (b) once during the 12-month period ending December 31, the period for establishing a new base to begin the first day of the month in which such notification is received by the market administrator.

PAYMENT FOR MILK

§ 924.80 *Time and method of payment.* On or before the 15th day after the end of each month each handler who received milk from producers or from a cooperative association shall pay for milk received during such month to each producer, or to a cooperative association for milk received from such association or from producers for the account of such association, the uniform price as provided in § 924.70 (b) and (c) or the base price for base milk and for milk to be paid for at the base price pursuant to § 924.70 (b) and milk transferred pursuant to § 924.43 (c), and the excess price for excess milk and milk to be paid for at the excess price pursuant to § 924.70 (b), adjusted by the butterfat differential pursuant to § 924.82 and any location adjustment pursuant to § 924.81: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 924.85, he shall not be deemed to be in violation of this section if he reduces uniformly to all producers and cooperative associations his payments per hundredweight by a total amount not in excess of the reduction in payments due from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this section next following that on which such balance of payment is received from the market administrator.

§ 924.81 *Location adjustments to producers.* In making payments to producers or cooperative associations pursuant to § 924.80 a handler may deduct with respect to all milk received by him from producers at a plant located outside the marketing area and more than 34 miles by shortest highway distance from the Detroit City Hall, as determined by the market administrator, and if milk is distributed from such plant on a route(s) in the marketing area, also located more than 34 miles by the shortest highway distance from the boundary of the marketing area, the amount per hundredweight applicable to the zone in which such plant is located as set forth in § 924.60 (c).

§ 924.82 *Producer butterfat differential.* In making payments pursuant to § 924.80, the base price and excess price or the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 3.5 percent, as the case may be, by a butterfat differential of 7 cents when the average price of butter as described in § 924.50 (b) (1) is 60 cents, which differential shall be increased one-half cent for each full 5 cents variance in such price of butter above 60 cents and decreased one-half cent for each full 5-cent variance in such price of butter below 64.99 cents.

§ 924.83 *Producer equalization fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-equalization fund" into which he shall deposit all payments received pursuant to § 924.84 and out of which he shall make all payments pursuant to § 924.85.

§ 924.84 *Payments to the producer-equalization fund.* On or before the 13th day after the end of each month, each handler

(a) whose value of milk is required to be computed pursuant to § 924.60 (a) shall pay to the market administrator any amount by which such value for such month (in the case of a cooperative association which is a handler plus the value of any milk transferred as provided in § 924.43 (c) at the price for base milk for the month adjusted pursuant to § 924.82) is greater than the minimum amount required to be paid by him pursuant to § 924.80, and

(b) who is required to make payment pursuant to § 924.60 (b) shall pay such amount to the market administrator.

§ 924.85 *Payment out of the producer-equalization fund.* On or before the 14th day after the end of each month, the market administrator shall pay to each handler any amount by which the value of milk for such handler for the month pursuant to § 924.60 (a) (in the case of a cooperative association which is a handler plus the value of any milk transferred as provided in § 924.43 (c) at the price for base milk for the month adjusted pursuant to § 924.82) is less than the total minimum amount required to be paid by him pursuant to § 924.80, less any unpaid obligations of such handler to the market administrator pursuant to § 924.84: *Provided*, That if the balance in the producer-equalization fund is insufficient to make all payments to all such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 924.86 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 13th day after the end of each month two cents per hundredweight, or such amount not exceeding two cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of milk from producers, including milk of such handler's own production.

§ 924.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 924.80 for milk received from each producer (including milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct five cents per hundredweight, or such amount not exceeding five cents per hundredweight as the Secretary may prescribe, and, on or before the 13th day after the end of each month, shall pay such deductions to the market administrator. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 924.80 as may be authorized by such producers, and pay such deductions on or before the 13th day after the end of the month to the cooperative association rendering such services of which such producers are members.

ADJUSTMENT OF ACCOUNTS

§ 924.90 *Payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due:

(a) To the market administrator from such handler,

(b) To such handler from the market administrator, or

(c) To any producer or cooperative association from such handler,

the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 924.91 *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 924.84, 924.85, 924.86, 924.87, and 924.90 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

APPLICATION OF PROVISIONS

§ 924.100 *Milk caused to be delivered by cooperative associations.* Milk referred to in this part as received from producers by a handler shall include milk of producers caused to be delivered to such handler by a cooperative association.

§ 924.101 *Handler exemption.* A handler who operates a plant located outside the marketing area from which class I milk is disposed of on a route(s) within the marketing area but from which the disposition of Class I milk on all routes operating wholly or partly within the marketing area averages less than 600 pounds per day for the month, and from which no milk is transferred to other handlers, or a handler whom the Secretary finds is subject, during the delivery period, to another Federal order, and whose disposition of Class I milk in the other Federal marketing area exceeds that in the Detroit marketing area, shall be exempted for such month from all provisions of this part except §§ 924.31, 924.32 and 924.33.

§ 924.102 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 924.31, 924.32, 924.33 and 924.60 (b).

TERMINATION OF OBLIGATIONS

§ 924.110 *Termination of obligations.* (a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or association, or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books or records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 924.120 *Effective time.* The provisions of this part, or of any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 924.121 *When suspended or terminated.* The secretary shall, whenever he finds that this part, or any provision thereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision thereof.

§ 924.122 *Continuing obligations.* If, upon the suspension or termination of any of all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 924.123 *Liquidation.* Under the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers, in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 924.130 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 924.131 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

ORDER OF SECRETARY DIRECTING THAT REFERENDUM BE CONDUCTED AMONG PRODUCERS SUPPLYING MILK TO DETROIT, MICHIGAN, MARKETING AREA; AND DESIGNATION OF AN AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order regulating the handling of milk in the Detroit, Michigan, marketing area) who, during the month of March 1951 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

Hobart E. Crone is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 25th day from the date this referendum order is issued.

Done at Washington, D. C., this 6th day of June 1951.

HANDLING OF MILK IN DAYTON-SPRINGFIELD, OHIO, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Hotel Miami, Second and Ludlow Streets, Dayton, Ohio, beginning at 10:00 a. m., e. s. t., June 13, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Dayton-Springfield, Ohio, marketing area.

These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by Miami Valley Milk Producers Association:

1. Amend § 971.5 (b) (1) by adding thereto the following: "*Provided further*, That if during the preceding months of September, October, November, December, January and February, the total volume of milk received from producers is less than 120 percent of the total Class I and Class II utilization of all handlers during such period, the Class I price for the following months of September, October, November, December, January and February shall be increased 4 (four) cents per hundredweight for each percentage point that such percentage is less than 120 percent."

2. Amend § 971.5 (c) (1) by adding thereto the following: "*Provided further*, That if during the preceding months of September, October, November, December, January and February, the total volume of milk received from producers is less than 120 percent of the total Class I and Class II utilization of all handlers during such period, the Class II price for the following months of September, October, November, December, January and February shall be increased 4 (four) cents per hundredweight for each percentage point that such percentage is less than 120 percent."

3. Amend the proviso in § 971.5 (d) (1) to read as follows: "*Provided*, That the

HANDLING OF MILK IN NEOSHO VALLEY KANSAS-MISSOURI) MARKETING AREA

NOTICE OF REOPENING OF HEARING ON PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER; CORRECTION

In F. R. Document 51-6300, appearing in the FEDERAL REGISTER issue of June 1, 1951, add "Wilson" between the words "of" and "Woodson" in column 3, paragraph 1, line 5 on page 5136, so that the said paragraph, as corrected, reads as follows:

§ 928.6 *Neosho Valley marketing area.* "Neosho Valley marketing area", herein-

price per hundredweight of butterfat made into butter shall be computed for all months by multiplying the average price of butter computed pursuant to paragraph (a) (2) (i) of this section by 120, and then subtracting $5.00."

4. Amend § 971.5 (d) (2) to read as follows:

(2) The price per hundredweight of such skim milk shall be computed by dividing the amount computed pursuant to paragraph (a) (3) (ii) of this section by 0.965, and (i) for the months of April, May, June and July, subtracting 20 cents, (ii) for all other months except March, August and September, adding 20 cents.

Proposed by Kenneth L. Rush on behalf of handlers:

5. Delete § 971.5 (d) (2) and substitute the following:

(2) The price per hundredweight of such skim milk shall be computed as follows: Calculate the arithmetical average of the carload per pound prices of roller process nonfat dry milk solids in barrels for human consumption, f. o. b., Wisconsin shipping points for the weeks ending within such month as reported by the Department of Agriculture; deduct 5.5 cents; multiply the result by 8.2; and divide by .965; and (i) for the months of April, May, June and July subtract 20 cents, (ii) for all other months except March, August and September add 20 cents.

Proposed by Miami Valley Milk Producers Association:

6. Amend § 971.4 (a) to include concentrated milk as a Class I product.

7. Amend § 971.4 (d) (iii) to read as follows:

(iii) As Class I milk, Class II milk, Class III milk, Class III butterfat (butter), in that sequence if transferred by a handler to a person other than a handler who distributes milk in fluid form or manufactures milk products: *Provided*, That if the selling handler on or before the 7th day after the end of the month during which the transfer was made furnishes to the market administrator a statement which is signed by the buyer and the seller that such skim milk or butterfat was used as a product covered by Class II milk or Class III milk, such skim milk or butterfat shall be classified in the highest price class use of the receiver, subject to verification by the market administrator.

8. Amend § 971.10 (a) to provide that marketing services deduction shall not exceed 6 cents per hundredweight.

It has been represented that an emergency exists in the market with respect to these proposals. Accordingly, this hearing has been called for the purpose of receiving evidence with relation thereto.

Copies of this notice of hearing, the said order, as amended, and the said marketing agreement may be procured from the Market Administrator, 434 Third National Bank Building, Dayton, Ohio, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: June 6, 1951, at Washington, D. C.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

RESERVOIRS OF REGION 7

PUBLIC USE REGULATIONS

JUNE 4, 1951.

The following regulations supersede those dated April 26, 1949, and published in the FEDERAL REGISTER of May 25, 1949. They have been established to assure safest and fullest possible public use of Bureau of Reclamation reservoirs under the jurisdiction of the Regional Director, Region 7, compatible with the uses and primary purposes for which the reservoirs were constructed. These areas are in part public playgrounds and should be enjoyed to the fullest extent. Adherence to these regulations will help assure that enjoyment.

The Regional Director will issue, prior to the public use season, an annual list of the public use areas to which these regulations apply. This list becomes a part of the Public Use Regulations.

1. *Permits*—(a) *Boating permit.* Any person desiring to place a boat (including all types of floating craft) on any of the reservoirs listed must first obtain a boating permit. These permits may be obtained by contacting any one of the Bureau of Reclamation offices shown on the public use area list as a permit issuing office for the specific reservoir or reservoirs involved. The permittee must have his permit available for inspection at all times while using his boat on any of the reservoirs. Permits shall continue in force until the end of the calendar year during which they are issued, unless revoked for a violation of laws or of the public use regulations. Permits may be transferred with the boat at no additional cost upon sale of the boat, provided notice of that sale is furnished the Bureau of Reclamation at the office of issue. Permits for boats for hire are issued for specific reservoirs only.

PERMIT RATES BY BOAT CLASSES

I. Boats for personal use:
A. Manually operated craft—$1.
B. Sailboats and motorboats with over-all length of 16 feet or less—$2.
C. Sailboats and motorboats with over-all length of more than 16 feet and not more than 26 feet—$4.
D. Sailboats and motorboats with over-all length of more than 26 feet—$6.

II. Boats for hire (including boats operated for fee or profit either as direct charge to a second party or as incident to other services provided to the second party):
A. Manually operated craft—$2.
B. Sailboats and motorboats with over-all length of 16 feet or less—$4.
C. Sailboats and motorboats with over-all length of more than 16 feet and not more than 26 feet—$8.
D. Sailboats and motorboats with over-all length of more than 26 feet—$12.

The Bureau of Reclamation may restrict or prohibit the operation of boats on any of the reservoirs and may also designate the size and class of boats which may be operated thereon as local conditions may require. Otherwise, all types of boats are allowed on the reservoirs, with the exception of what is commonly known as a houseboat.

Manually operated craft are all craft whose movement through the water during the boating year is dependent entirely upon manual propulsion.

Sailboats are craft whose movement through the water at any time during the boating year is dependent upon the use of sails.

Motorboats are craft whose movement through the water at any time during the boating year is dependent upon the use of an inboard or outboard motor or engine. Some boats might be classified as both sailboats and motorboats as defined, but separate differentiation need not be made here since the same permit classes include both types of boats.

Over-all length is the longest distance between the two outer extremities of the boat or any permanent structure attached thereon.

Permission to place boats for hire on a reservoir for one year does not guarantee the permittee the same privilege for the following year or years.

(b) *Dock, pier, boathouse, mooring permit.* No boathouse or landing float, pier, or other docking or mooring device shall be installed without a written permit. The design and location of such a facility is subject to the approval of the Bureau of Reclamation. It is also subject to relocation or removal at the discretion of the Bureau.

(c) *Compliance with Federal and State laws.* The operations of each permittee shall at all times be conducted in accordance with all applicable Federal and State laws and the rules and regulations issued thereunder. Failure of the permittee to abide by any of the terms or conditions of any applicable Federal or State laws, or rules and regulations issued thereunder, shall cause the permit to be subject to immediate termination at the option of the United States.

2. *Safety equipment requirements.* (a) Each manually operated craft, sailboat, or motorboat in use at any time between sunset and sunrise shall carry a lantern or other suitable light visible all around the horizon.

(b) Each manually operated craft, sailboat, or motorboat must be provided with the following:

(1) Paddles or oars.

(2) Efficient life preservers equal in number to the number of persons being carried. Inflated life preservers do not satisfy this requirement.

(3) A ready means of hand bailing or, if this would be impossible or impractical due to the boat's size or construction, adequate bilge pumps.

(c) Metal boats of any type must have sufficient air chambers, tanks, or flotation gear to safely hold up the boat when filled to proper carrying capacity should accident or other emergency necessitate their doing so.

(d) Motorboats with inboard engines must have:

(1) A flame arrester on the carburetor, if the combustion air is taken from below the deck line or from the engine compartment.

(2) A provision for adequate ventilation of the engine compartment.

(3) One of the following types of fire extinguishers or equivalent:

1 quart carbon tetrachloride
or
1¼ gallons foam
or
4 pounds CO_2

(e) Motorboats with outboard engines must have mufflers or silencing devices.

3. *General traffic rules.* (a) When boats are approaching each other headon or so nearly as to endanger collision, it shall be the duty of each to turn to the right to pass the other.

(b) When two boats are crossing so as to involve risk of collision, the boat which has the other on her right side shall keep out of the way of the other boat.

(c) A boat overtaking any other boat shall keep out of the way of the overtaken boat.

(d) The following takes precedence when a meeting occurs between two boats of different classifications: Manually operated craft take precedence over all other craft. Sailboats take precedence over motorboats but must give way to manually operated craft. Motorboats must give way to all other types of craft.

(e) No boat can approach closer than 200 feet to any dam, spillway, outlet works, or power plant, unless duly authorized by the Bureau of Reclamation. Further restrictions may be designated where necessary.

(f) All boats must be operated in such a manner so as not to endanger the lives or property of other persons or inconvenience occupants of other boats.

4. *Safety rules and procedures.* (a) The number of people riding in a boat shall not exceed its proper carrying capacity.

(b) In case of distress, three quickly repeated signals repeated at regular intervals should be used. These signals could be made by calling, whistling, waving a flag or lighted flashlight, or by other means.

(c) All boats used for passenger service must be operated at all times by a competent and experienced operator.

(d) Boats which, in the opinion of the representative of the Bureau of Reclamation, whose opinion shall be final and conclusive, are not properly constructed, operated, or maintained, shall not be permitted to be placed or remain on the waters of the reservoirs.

(e) Small boats shall be securely anchored or tied up when not in use. Boats found floating loose on the reservoir may be taken up, and the permittee shall be liable to the United States for any expense incurred in making the boat secure. Owners thereof shall be liable to the United States for any damage done by their boat to works of the United States. Boats shall not be left in the reservoir proper during the winter months.

5. *Regattas and racing.* Regattas and racing are prohibited unless duly authorized by the Bureau of Reclamation.

6. *Public boat launching and landing.* The Bureau of Reclamation may restrict certain areas, when and where necessary, for the exclusive purpose of public boat launching and landing.

7. *Violation of regulations pertaining to boating.* The permit of any person violating any of the foregoing regulations may be revoked, and such person shall remove his personal property from the reservoir and adjacent lands.

8. *Swimming.* Swimming is permitted at designated areas only.

9. *Camping.* The Bureau of Reclamation may restrict or prohibit camping when and where necessary. Campers shall occupy only those sites designated by the Bureau of Reclamation or its representatives and limitations may be established on the time allowed for camping in any public camping area. Campers shall keep their campsites clean. The digging or levelling of the ground in any campsite without permission is prohibited. Camps must be completely razed and sites cleaned before campers depart from the campsite.

10. *Picnicking.* Picnicking is allowed on the United States lands adjacent to the reservoir except when and where the Bureau of Reclamation finds it necessary to restrict or prohibit such use. Any area used for picnicking must be cleaned after using.

11. *Hunting and fishing.* Hunting and fishing are permitted upon compliance with the laws, rules, and regulations prescribed by the State concerned, but subject to such additional regulations as may be issued by the United States in order to protect the reservoir or other project features or to protect the area as a Fish and Wildlife Service refuge if it has been so established: *Provided, however*, That no hunting will be permitted on any Bureau of Reclamation lands lying within the exterior boundaries of Rocky Mountain National Park.

12. *Fircarms.* The carrying of firearms is prohibited on reservoirs or on United States lands adjacent to the reservoirs, except when and where hunting is allowed in compliance with section 11 above.

13. *Cars.* Cars must be confined to roads and parking areas. Roads must not be used for parking where parking areas have been designated.

14. *Airplanes.* Airplanes must not land on or take off from the reservoirs.

15. *Fires.* The Bureau of Reclamation may restrict or prohibit, when and where necessary, the building of fires. Where fires are allowed, there may be built only where they will not damage live trees, shrubs, grass, or other plants. Fires may not be left unattended and must be extinguished before leaving. Only dead trees and brush may be used for fires where firewood has not been furnished. Lighted matches, cigarettes, cigars and ashes should never be thrown on the ground without first being extinguished.

16. *Sanitation.* Refuse, garbage, rubbish, or waste of any kind shall not be placed or thrown in the reservoir waters or on any of the United States lands adjacent to the reservoir, but shall be burned or buried or disposed of at designated points or places assigned for the sanitary disposal thereof. The Bureau of Reclamation may restrict or prohibit the use of water closets, lavatories, drains, sinks, and other devices which discharge into the waters of a reservoir. Where necessary, areas will be designated for the disposal of bilge waters containing oil and grease.

17. *Damage to property.* The destruction, injury, defacement, or removal of public property or vegetation (trees, shrubs, and other plants), rock, or minerals is prohibited.

18. *Construction of facilities and changing reservoir shoreline.* The installation or construction of any facility on the United States lands adjacent to the reservoir or any change in the shoreline of the reservoirs is prohibited unless due authority is given by the Bureau of Reclamation for such installation, construction or change to be made.

19. *Private notices and advertisements.* Private notices and advertisements shall not be posted, distributed, or displayed on the United States lands adjacent to a reservoir except such as the Bureau of Reclamation may deem necessary for the convenience and guidance of the public using the area for recreational purposes.

20. *Establishment of businesses on Bureau of Reclamation lands.* No person, firm, or corporation or their representatives shall engage in or solicit any business on a reservoir or the United States lands adjacent to the reservoir without permission in writing from the Bureau of Reclamation or in accordance with terms of a lease or concession contract with the Bureau of Reclamation.

21. *Concession and other charges to public.* Any concession or other business operating on a reservoir or on United States lands adjacent to a reservoir must post the charges for its services, refreshments, and other items in conspicuous places. All prices shall be within reason and be approved by the Bureau of Reclamation.

22. *Order.* No person who is under the influence of intoxicating liquor or narcotic drugs shall be permitted upon Government lands adjacent to the reservoirs, in boats on the water, or in or upon the waters of the reservoir.

23. *Disorderly conduct.* Persons who render themselves obnoxious by disorderly conduct or by bad behavior will be removed from the Government lands adjacent to the reservoirs or from the waters or from on the waters of the reservoirs.

24. *Waiver of liability.* The main purpose of Reclamation reservoirs is to impound water for irrigation and other regulatory purposes. Accordingly, any person at any time going in or upon the waters thereof or upon any of the structures of lands upon the margin thereof, or upon adjacent lands belonging to the United States, and held in reserve for the use in connection therewith, whether as lessee, contractee, or permittee of the United States, or otherwise, thereby assumes all risks of injury to or death of himself by damage to or destruction of property resulting directly or indirectly, wholly or in part, from said reservoir or appurtenant structures, or their construction, operation, and control by the United States.

Federal Maritime Board

[Docket No. S-23]

LYKES BROS. STEAMSHIP CO., INC.

NOTICE OF HEARING

Application of Lykes Bros. Steamship Co., Inc., for increase in maximum number of subsidized sailings on Line D (Lykes Orient Line), Trade Route No. 22.

Notice is hereby given that a public hearing will be held under section 605 (c) of the Merchant Marine Act, 1936, as amended, in the Department of Commerce Building, Washington, D. C., before Examiner F. J. Horan, on a date hereafter to be announced, upon an application of Lykes Bros. Steamship Co., Inc., for an increase in the maximum number of subsidized sailings on its Line D (Lykes Orient Line), Trade Route 22, from 24 per annum to 48 per annum, with an increase in the maximum number of sailings that shall include ports in the Netherlands East Indies and Straits Settlements (including Malay States) from 12 per annum to 24 per annum.

The purpose of the hearing is to receive evidence relevant to the following: (1) Whether the application is one with respect to a vessel or vessels to be operated on a service, route, or line served by citizens of the United States which would be in addition to the existing service, or services, and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the act additional vessels should be operated thereon; (2) whether the application is one with respect to a vessel operated or to be operated in a service, route, or line served by two or more citizens of the United States with vessels of United States registry, and, if so, whether the effect of the subsidy contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in competitive services, routes, or lines, and (3) whether it is necessary to enter into such contract in order to provide adequate service by vessels of United States registry.

The hearing will be conducted in accordance with the Board's rules of procedure (12 F. R. 6076).

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Board accordingly on or before June 20, 1951, and should file intervening petitions in accordance with the rules of procedure.

Dated: June 6, 1951.

By order of the Federal Maritime Board.

[Docket No. M-32]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF FURTHER HEARING ON APPLICATION TO BAREBOAT CHARTER GOVERNMENT-OWNED, WAR-BUILT, DRY-CARGO REFRIGERATED VESSELS

Notice is hereby given that a further hearing will be held in the above-entitled proceeding on June 15, 1951, at 10:30 a. m. of that day in Room 4821, Department of Commerce Building, Washington, D. C., before the Federal Maritime Board upon the supplemental application of American President Lines, Ltd. (a subsidized operator) to operate under bareboat charter the Government-owned, war-built, dry-cargo refrigerated vessels, the S. S. *Shooting Star* and S. S. *Lightning* in the trans-Pacific trade on such routes and with such itineraries as may be directed by the Military Sea Transportation Service, Department of the Navy, including the port of Adak, Alaska. In the certification and recommendation of the Board dated May 24, 1951, in this proceeding, the Board directed that this proceeding remain open for a reasonable time in the event any party desires to apply for operation of the vessels in a broader trading area.

The purpose of this hearing is to receive further evidence pursuant to section 3, Pub. Law 591, 81st Congress with respect to whether the service for which such vessels are to be operated under bareboat charter is required in the public interest and is not adequately served, and with respect to the availability of privately owned, American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service; and pursuant to section 805 (a), Merchant Marine Act, 1936 (46 U. S. C. 1223 (a)) with respect to whether such supplemental application will result in unfair competition to any person, firm or corporation operating exclusively in the domestic coastwise or intercoastal service or be prejudicial to the objects and policy of the Merchant Marine Act, 1936.

All persons, firms or corporations having an interest in this proceeding may request permission to intervene at the opening of the hearing and will be given an opportunity to be heard.

Interested parties may have oral argument before the Federal Maritime Board immediately after the close of the hearing in lieu of briefs and exceptions, and the decision of the Board will be final.

Dated: June 6, 1951.

By order of the Federal Maritime Board.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 7, Section 43, Special Order 71]

MAIDEN FORM BRASSIERE CO., INC.

CEILING PRICES AT RETAIL

Statement of considerations. In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Maiden Form Brassiere Co., Inc., has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during that period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of foundation garments manufactured by Maiden Form Brassiere Co., Inc., 200 Madison Avenue, New York 16, New York, having the brand name "Maidenform" and described in the manufacturer's application, dated March 5, 1951. The manufacturer's prices listed below carry a discount of 8, 10 EOM.

FOUNDATION GARMENTS

Manufacturer's selling price (per dozen)	*Ceiling price at retail (per unit)*
$4.00	$0.50
6.00	.75
8.00	1.00
9.50	1.25
12.00	1.50
13.50	1.75
15.00	2.00
18.00	2.50
21.00	3.00
24.00	3.50
27.00	4.00
36.00	5.00

2. The retail ceiling price of an article stated in paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this special order.

3. On and after July 9, 1951, Maiden Form Brassiere Co., Inc., must mark each article listed in paragraph 1 of this special order with the retail ceiling price under this special order, or attach to the article a label, tag, or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7
Price $--------

On and after August 8, 1951, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to August 8, 1951, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in paragraph 1 of this special order or changes the retail ceiling price of a listed article, Maiden Form Brassiere Co., Inc., must comply, as to each such article, with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60-day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of the special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the special order, the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first 6 months period following the effective date of this special order and within 45 days of the expiration of each successive 6 months period, the manufacturer shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that 6 months period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the seller is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

Effective date. This special order shall become effective June 9, 1951.

MICHAEL V. DISALLE,
Director of Price Stabilization.

OPP BROADCASTING CO., INC. AND COVINGTON BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of The Opp Broadcasting Company, Inc., Opp, Alabama, Docket No. 9983, File No. BP-8072; Covington Broadcasting Company, Inc., Opp, Alabama, Docket No. 9982, File No. BP-8013; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1951;

The Commission having under consideration the above-entitled applications each requesting a permit to construct a new standard broadcast station to operate on frequency 860 kilocycles, with 1 kilowatt power, daytime only at Opp, Alabama;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on July 27, 1951, at Washington, D. C., upon the following issues:

1. To determine the legal, technical,

financial and other qualifications of the corporate applicants, their officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

BLUE RIDGE BROADCASTING CO. (WGGA) AND LAMAR LIFE INSURANCE CO. (WJDX)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Blue Ridge Broadcasting Company (WGGA), Gainesville, Georgia, Docket No. 9984, File No. BP-7661; Lamar Life Insurance Company (WJDX), Jackson, Mississippi, Docket No. 9935, File No. BP-7909; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1951;

The Commission having under consideration the above-entitled applications of Blue Ridge Broadcasting Company requesting a construction permit to change the facilities of Station WGGA, Gainesville, Georgia, from frequency 1240 kilocycles, 1 kilowatt 5 kilowatts-LS power, unlimited time to frequency 550 kilocycles, 5 kilowatts power, unlimited time, to install new transmitter, change transmitter location and install directional antenna for day and night use (DA-2) and of Lamar Life Insurance Company to change the facilities of Station WJDX, Jackson, Mississippi, from frequency 1300 kilocycles, 250 watts power, unlimited time to frequency 550 kilocycles, 500 watts 5 kilowatts-LS power, unlimited time, to install new transmitter, change transmitter and studio location and install directional antenna for night use and also having under consideration a petition filed on March 30, 1951, by Harding College, licensee of Station WHBQ, Memphis, Tennessee, requesting that the said application of Lamar Life Insurance Company be designated for hearing and that petitioner be made a party to the proceeding; and

It is ordered, That the said petition is granted and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on July 31, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicants, their officers, directors and stockholders to construct and operate Stations WGGA and WJDX as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Stations WGGA and WJDX as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WJDX as proposed, would involve objectionable interference with Station WHBQ, Memphis, Tennessee, and whether the operations of Stations WGGA and WJDX as proposed would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Stations WGGA and WJDX as proposed, would involve objectionable interference with any existing foreign broadcast stations and, if so, the nature and extent of such interference.

6. To determine whether the operation of Stations WGGA and WJDX as proposed, would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of Stations WGGA and WJDX as proposed, would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the assignment of stations where objectionable interference would be received to a field intensity contour greater than that specified for stations of their Classes, population residing within the 250 and 500 mv m contours of Station WGGA operating as proposed and to nighttime coverage of the Jackson Metropolitan District by Station WJDX operating as proposed.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That Harding College, licensee of Station WHBQ, Memphis, Tennessee is made a party to the proceeding with reference to the application of Lamar Life Insurance Company only.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WDXE, as proposed and the proposed station would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station WDXE, as proposed and the proposed station would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station WDXE, as proposed, and the proposed station would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JUNE 5, 1951.

On March 19, 1951, El Paso Natural Gas Company (Applicant), a Delaware corporation of El Paso, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act authorizing the construction and operation of approximately 5.3 miles of loop line from Gulf Oil Corporation's Eunice plant to Applicant's Eunice plant in Lea County, New Mexico, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on April 4, 1951 (16 F. R. 2942).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on June 25, 1951, at 9:30 a. m. (e. d. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: June 6, 1951.

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JUNE 5, 1951.

On April 19, 1951, El Paso Natural Gas Company (Applicant), a Delaware corporation, having its principal place of business in El Paso, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing the construction and operation of a meter station near Laveen, Arizona, for the transportation and sale of natural gas by Applicant for resale in that community, as fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on May 3, 1951 (16 F. R. 3933).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on June 25, 1951, at 9:45 a. m. (e. d. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application; provided, however, that the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: June 6, 1951.

CALIFORNIA PACIFIC UTILITIES CO.

NOTICE OF APPLICATION

JUNE 5, 1951.

Take notice that on May 22, 1951, California Pacific Utilities Company (Applicant), a California corporation of San Francisco, California, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 14½ miles of 4-inch pipeline between Needles, California, and a point on the 34-inch transmission line of Pacific Gas and Electric Company in San Bernardino County, California, near Topock, Arizona.

Applicant proposes to transport natural gas to its distribution system in Needles, California. Applicant presently serves its customers in the city of Needles, California, with manufactured gas.

The estimated cost of the proposed facilities is $120,000 which will be financed initially with general funds of Applicant and temporary bank loans.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 25th day of June 1951. The application is on file with the Commission for public inspection.

[Docket No. G–1694]

CITY GAS CO. OF PHILLIPSBURG, N. J.

NOTICE OF APPLICATION

JUNE 5, 1951.

Take notice that City Gas Company of Phillipsburg, N. J., a New Jersey corporation having its principal office at No. 57 Main Street, Flemington, New Jersey, filed on May 25, 1951, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the delivery of 1700 Mcf of natural gas per day reserved under Docket G–1012 for Applicant from a point on the Coatesville-Port Jervis line of The Manufacturers Light and Heat Company near Easton, Pennsylvania, to a point on the distribution system of Applicant at Phillipsburg, New Jersey.

Under an agreement with The Manufacturers Light and Heat Company entered into on May 22, 1951, Applicant proposes to purchase for transmission to its local distribution system up to 1700 Mcf per day of natural gas. This amount will be supplied to The Manufacturers Light and Heat Company by Texas Eastern Transmission Corporation, which was previously directed to supply Applicant up to 1700 Mcf per day of natural gas contingent upon a showing by Applicant that this amount of natural gas can be economically delivered to it (Federal Power Commission Opinion No. 206 and accompanying order, issued February 27, 1951, Federal Power Commission Docket No. G–1012, In the Matter of Texas Eastern Transmission Corporation).

Applicant states that it plans to create a new corporation to be known as The Penn-Jersey Pipe Line Company for construction and operation of approximately 6 miles of a 6⅝-inch pipeline from a point on Manufacturers' Coatesville-Port Pervis line to a point on the distribution system of Applicant, and that an application for a certificate will be filed with the Commission by Penn-Jersey Pipe Line Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 25th day of June 1951. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[No. 30822]

INCREASED PASSENGER FARES, SOUTHERN RAILROADS, 1951

JUNE 5, 1951.

By petition dated May 25, 1951, the common carriers by railroad in the South, listed below, request this Commission to authorize petitioners to increase between stations on their lines their interstate one-way basic passenger fares by 10 percent, or to approximately 3.85 cents per mile in parlor and sleeping cars, and 2.75 cents per mile in coaches, with a minimum one-way fare of 25 cents; to increase their round-trip fares on the basis of 180 percent of the increased one-way fares, so as to approximate 3.465 cents per mile in sleeping and parlor cars and 2.475 cents per mile in coaches; to increase such fares between stations on their lines and stations on connecting lines sufficiently to reflect the proposed increases on their lines; and to increase excess baggage charges by applying the present excess baggage scale to the increased one-way basic fares for transportation in sleeping and parlor cars.

Petitioners further ask that they be granted special permission to make such increased fares effective by publication, on five days' notice; that the Commission modify its outstanding order in Docket No. 11703, Intrastate Rates Within Illinois, 59 I. C. C. 350, to the extent necessary to enable petitioners to make effective the increased fares herein proposed on intrastate traffic in the State of Illinois; and that where the application of such increased fares would result in creating new departures or changing existing departures from Section 4 of the Interstate Commerce Act, the Commission, by the entry of special orders, authorize such departures.

The petition above described has been docketed as No. 30822, Increased Passenger Fares, Southern Railroads, 1951, and is assigned for public hearing before Commissioner J. Haden Alldredge at the offices of the Georgia Public Service Commission, Atlanta, Ga., on July 2, 1951, at 9:30 o'clock a. m., United States Standard Time (or 9:30 o'clock a. m. local daylight saving time, if that time is observed).

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioners, the Governors and the rate regulatory authorities of the States traversed by petitioners, and at the same time copies have been posted in the office of the Secretary of the Commission at Washington, D. C., for public inspection, and filed with the Director, Division of the Federal Register, Washington, D. C.

CIL FIELD HAULERS ASSN., INC.

APPLICATION FOR APPROVAL OF AGREEMENT

JUNE 6, 1951.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed June 4, 1951, by: Ewell H. Muse, Jr., Attorney-in-Fact, P. O. Box 1014, Nash Building, Austin 66, Tex.

Agreement involved: An agreement between and among common carriers by motor vehicle relating to rates, rules, and regulations for the transportation in interstate or foreign commerce of oilfield, refinery, and pipe line machinery, materials, supplies and equipment, and of heavy or cumbersome machinery and commodities requiring special equipment for loading, unloading, or transportation, between points in the United States; and procedures for the joint initiation, consideration, and establishment thereof.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

SECURITIES AND EXCHANGE COMMISSION

NEW YORK CURB EXCHANGE

NOTICE OF PROPOSAL TO DECLARE EFFECTIVE A PLAN FILED FOR DISPOSAL OF CERTAIN DOCUMENTS

Notice is hereby given that the Securities and Exchange Commission has under consideration a plan filed by the New York Curb Exchange pursuant to § 240.17a-6 (Rule X-17A-6) under the Securities Exchange Act of 1934 for disposal of the following material filed with that Exchange pursuant to the stated sections of the act or the rules and regulations thereunder:

(1) Applications and reports pursuant to sections 12 and 13 which have been on file for more than five years.

(2) Documents and reports pursuant to sections 14 and 16 which have been on file for more than five years after the termination of listing and registration of all equity securities of a registrant on the New York Curb Exchange.

However, in the case of a registrant the listing and registration of all of whose securities have been terminated on the New York Curb Exchange by reason of their listing and registration on the New York Stock Exchange, the complete registration file for the securities and reports filed pursuant to section 16, then on file with the New York Curb Exchange will, at the request of the registrant or the New York Stock Exchange, be transferred to the New York Stock Exchange at the time registration of the securities on that Exchange becomes effective. In these cases, documents filed pursuant to section 14 will not be so transferred but will be disposed of in accordance with the provisions of (2) above.

The New York Curb Exchange proposes to commence the disposition of the specified material as soon as practicable after the Commission has declared its plan effective. The plan also contemplates that thereafter, regular disposition will be made of similar material in May of each year.

The Commission proposes to declare the plan of the New York Curb Exchange effective on condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors so to do, the Commission may suspend or terminate the effectiveness of said plan by sending at least ten days' written notice to the Exchange.

These proposals are made pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 17 (a), 23 (a), and 24 (b) thereof and Rule X-17A-6 thereunder. Interested persons are invited to submit their views and comments in writing to the Securities and Exchange Commission, 425 Second Street NW., Washington, D. C., on or before June 22, 1951.

GREEN MOUNTAIN POWER CORP.

MEMORANDUM OPINION AND ORDER APPROVING MODIFICATIONS OF AMENDED PLAN

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 31st day of May A. D. 1951.

The Commission in its findings and opinion and order dated May 3, 1951,[1] approved an amended plan of Green Mountain Power Corporation ("Green Mountain"), a public utility subsidiary company of a registered holding company, under section 11 (e) of the Public Utility Holding Company Act of 1935. This plan provided, among other things, for cumulative voting for directors.[2]

On May 4, 1951, at the request of Green Mountain, the Commission applied to the United States District Court for the District of Vermont for an order enforcing and carrying out the terms and provisions of the plan. The Court, by order, set June 4, 1951, as the date on which the hearing on this application would be held.

On May 18, 1951, the State of Vermont adopted an amendment to its General Corporation law.[3] This amendment permits a Vermont corporation to file its original articles of association with a provision therein providing for cumulative voting for directors, but prohibits an existing corporation from amending its articles of association to so provide. On May 29, 1951, Green Mountain filed an amendment modifying its plan wherein, among other things, it deleted from its plan and the proposed amendments to its Articles of Association the provisions providing for cumulative voting for directors. The provision in the plan providing an alternative procedure for the selection of the initial board of directors retains the cumulative voting feature.

The Commission's findings of May 3, 1951, described Green Mountain's proposed common stock financing and now, as then, the Commission recognizes the importance of this financing. It is a fundamental part of the plan, and Green Mountain's construction program is dependent upon its consummation. It is now well settled, and the Commission has consistently required, that plans, proposed under section 11 (e) of the act to effectuate a fair and equitable distribution of voting power among security holders, should provide for cumulative voting for directors except under very unusual circumstances. However, it appears that if Green Mountain attempted to organize a new corporation which would provide its stockholders with cumulative voting rights without violating the Vermont statute, or attempted in the enforcement proceedings to override or contest the statute, such steps would delay the common stock financing. We have weighed the clear benefits to be derived from cumulative voting for directors against the detrimental effect of a delay in Green Mountain's financing program. In these circumstances we find it in the public interest and in the interest of investors to approve the proposed modifications of the amended plan.

Telegrams supporting the proposed amendment have been filed by the protective committees representing Green Mountain's preferred stockholders, the only present stockholders affected by this amendment, and such telegrams are part of the record before the Commission, and, consequently, part of the record which will be before the United States District Court for the District of Vermont. While in the Commission's opinion the proposed amendment is a modification of Green Mountain's reorganization plan, under the circumstances it is not such a substantial modification affecting Green Mountain's stockholders as to require further notice or a further opportunity for hearing before the Commission, particularly in view of the express provision in the plan as heretofore approved permitting such modification with the consent of the Commission at any time prior to approval by the Court.

This memorandum opinion and order should not be construed as evidencing any change in our announced and settled policy with respect to cumulative voting in appropriate cases or as indicating the view that the necessity of an early consummation of a financing program can be urged as a reason for not taking such time as might be necessary to secure for stockholders the beneficial rights of cumulative voting. This case is unique in that the timing of the legislative enactment has given the management no opportunity to make the substantial changes in its reorganization procedure necessary to provide for cumulative voting.

The other proposed modifications are minor in character and need not be recited here. We take no exception thereto.

We find that the amended plan of Green Mountain, as modified by the subsequent amendment, is necessary to effectuate the provisions of section 11 (b) and fair and equitable to the persons affected thereby.

It is ordered, Pursuant to section 11 (e) and the applicable sections of the act, that the amended plan of Green Mountain, as modified by the amendment filed May 29, 1951, be, and the same hereby is, approved, subject, however, to the terms and conditions and the reservations of jurisdiction set forth in the Commission's order of May 3, 1951, herein.

By the Commission.

Secretary.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

ORDER AUTHORIZING ISSUANCE AND SALE OF BONDS AND NOTES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of May A. D. 1951.

Public Service Company of New Hampshire ("Public Service"), a public utility subsidiary of New England Public Service Company, a registered holding company, having filed an application, and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder, with respect to the following transactions:

Public Service proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $3,000,000 principal amount of First Mortgage Bonds, Series F, ___ percent, due 1981. The interest rate on said bonds (to be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be received by the company (to be not less than 100 percent nor more than 102.75 percent of the principal amount of said bonds) are to be determined at competitive bidding. The bonds are to be issued under and secured by the company's Original Indenture of Mortgage dated January 1, 1943, as supplemented by various Indentures, and by a proposed Sixth Supplemental Indenture to be dated June 1, 1951. The net proceeds from the sale of the bonds will be applied to reduce short-term borrowings incurred for interim financing of the company's construction program.

Public Service further proposes to issue or renew, from time to time, beginning July 1, 1951 until December 31, 1951, notes having a maturity of nine months or less up to the maximum of $7,100,000 at any one time outstanding (including notes outstanding as of May 4, 1951 in the amount of $5,450,000). The company anticipates that it will be able to borrow the required funds at an interest rate of not exceeding 2¾ percent per annum. It states that, if the interest rate on any of the notes should exceed 2¾ percent, it will file an amendment to its application at least five days before the execution and delivery of such note, and asks that such amendment shall become effective without further order of the Commission at the end of the five-day period unless the Commission shall have notified the company to the contrary. The proceeds from such borrowings will be used to pay for construction and for other corporate purposes through December 31, 1951.

The total estimated fees and expenses to be paid by Public Service in connection with the proposed transactions amount to $30,000, including printing costs of $9,500, Trustee's fees and expenses of $4,250, accountants' fees of $1,400 and counsel fees of $9,000.

The said application having been filed on May 4, 1951 and the last amendment thereto having been filed on May 28, 1951, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said application within the period of time specified in said notice, or otherwise, and not having ordered a hearing thereon; and

It appearing that the New Hampshire Public Service Commission has authorized the proposed issuance and sale of the bonds, subject to a report and supplemental order with respect to the results of competitive bidding, and that applicant has undertaken to file in this proceeding a copy of the order of the Vermont Public Service Commission, after its entry, authorizing the proposed issuance and sale of the bonds to the extent that such bonds are issued on account of property or expenditures within Vermont; and it also appearing that the New Hampshire Public Service Commission has authorized the issuance or renewal of the notes to the extent that such notes evidence indebtedness incurred more than twelve months prior to the maturity date of such notes; and

It further appearing to the Commission that the record is incomplete with respect to the fees of counsel for Public Service and independent counsel for the underwriters, and the Commission deeming it appropriate to reserve jurisdiction with respect to such fees; and

The Commission finding with respect to said application, as amended, that the requirements of the applicable provisions of the Act and Rules promulgated thereunder are satisfied and that the estimated fees and expenses, other than fees of counsel for Public Service and independent counsel for the underwriters, are not unreasonable; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application, as amended, be granted without the imposition of terms and conditions, other than those specified below, and further deeming it appropriate to grant applicant's request that the order herein insofar as it relates to the issuance and sale of bonds become effective upon its issuance and insofar as it relates to the issuance or renewal of notes become effective on July 1, 1951:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application, as amended, be, and the same hereby is, granted, subject to the terms and conditions prescribed in Rule U-24 and to the following additional terms and conditions:

(1) That Public Service shall have obtained proper authorization of the proposed issuance and sale of the bonds from the Vermont Public Service Commission and shall have filed a copy of the order in this proceeding;

(2) That the proposed sale of bonds by Public Service shall not be consummated (a) until the supplemental order of the New Hampshire Public Service Commission with respect to the results of competitive bidding has been entered and made a part of the record herein and (b) until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record in this proceeding and a further order entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for such purpose;

(3) That jurisdiction be reserved with respect to the payment of fees and expenses of counsel for Public Service and independent counsel for the underwriters incurred or to be incurred in connection with the proposed transactions.

It is further ordered, That this order insofar as it relates to the issuance and sale of bonds shall become effective upon its issuance and insofar as it relates to the issuance or renewal of short-term notes shall become effective on July 1, 1951.

By the Commission.

UNION ELECTRIC CO. OF MISSOURI AND MISSOURI POWER & LIGHT CO.

ORDER GRANTING AUTHORITY TO SELL UTILITY ASSETS TO NON-AFFILIATED PUBLIC UTILITY COMPANY

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 4th day of June 1951.

Union Electric Company of Missouri ("Union"), a registered holding company and a public utility company, and its public utility subsidiary, Missouri Power & Light Company ("Missouri Power"), all of whose outstanding common stock is owned by Union, having filed a joint declaration and an amendment thereto pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-44 (a) promulgated thereunder, with respect to the following proposed transactions:

Missouri Power proposes to sell its electric properties located at Clinton, Missouri to Missouri Public Service Company ("Missouri Public"), a non-affiliated public utility company, for a purchase price of $650,000 in cash, including $17,569.30 on account of the transfer of materials and supplies and merchandise on hand for resale and $709.59 for certain other investments, pursuant to an agreement of sale between said companies, dated January 18, 1951. A copy of said agreement is on file with the Commission.

The net book cost (depreciated original cost) at December 31, 1950, of the electric properties to be sold was $289,580. Missouri Power proposes to credit the excess of the purchase price over the depreciated book cost to earned surplus on its books of account.

The declaration, as amended, states that this transaction is proposed to facilitate compliance with the terms of an order of this Commission, dated December 28, 1950 (Holding Company Act Release No. 10320), whereby the acquisition of all the common stock of Missouri Power by Union was permitted, subject to the condition, inter alia, that the Clinton electric properties be disposed of within six months, since such properties could not be retained under the standards of Section 11 of the Act.

The declarants state that the net proceeds of the sale will be expended for the construction by Missouri Power of a new substation near Moberly, Missouri, which it alleges will further integrate its system with that of Union.

The declaration, as amended, further states that the expenses of Missouri Power in connection with the sale are estimated at not more than $100.

The proposed transactions have been approved by the Missouri Public Service Commission.

It is requested that the order of this Commission approving the sale conform to the requirements of Supplement R of Chapter I of the Internal Revenue Code, as amended.

Said amended joint declaration having been duly filed and notice of said filing having been given in the form and manner prescribed by Rule U-23, promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said joint amended declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint declaration as amended that the requirements of the applicable provisions of the Act and Rules thereunder are satisfied, that no adverse findings are necessary in connection with the proposed transactions, that the estimated expenses are not unreasonable, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint declaration, as amended, be permitted to become effective, and the Commission deeming it appropriate to grant the declarants' request that the order herein conform to the requirements of Supplement R of Chapter I of the Internal Revenue Code, as amended:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act that the said joint declaration, as amended, be, and hereby is permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered and recited and the Commission finds that (a) the proposed sale by Missouri Power to Missouri Public of Missouri Power's electric properties located in the City of Clinton, Missouri, and vicinity, consisting of certain real estate, electric distribution system, and street lighting systems located in said City and vicinity, and automobiles, trucks, furniture, equipment, materials, supplies and merchandise in connection with the operation of such systems (such properties being more fully described in a contract of sale between the parties dated January 18, 1951, and on file with the Commission) for a consideration of $650,000, and (b) the proposed expenditure by Missouri Power of the net proceeds of such sale (exclusive of $17,569.30 to be received on account of the transfer of materials and supplies and merchandise on hand for resale) for the construction of a new substation near Moberly, Missouri, for the purpose of further integrating its electric system with that of Union, all as authorized or permitted by this order of the Commission, and in obedience thereto, are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and are necessary and appropriate to the integration of the holding company system of which Missouri Power and Union are members.

By the Commission.

NEW ENGLAND GAS AND ELECTRIC ASSN.

ORDER AUTHORIZING ISSUANCE AND SALE OF ADDITIONAL COMMON SHARES PURSUANT TO SUBSCRIPTION OFFER TO COMMON SHAREHOLDERS

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 31st day of May A. D. 1951.

New England Gas and Electric Association ("Negea"), a registered holding company, having filed a declaration and amendments thereto pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 (the "act") and Rule U-50 (a) (1) promulgated thereunder with respect to the following proposed transactions:

Negea proposes to offer to the holders of its outstanding common shares of record at the close of business on May 31, 1951, the right to subscribe for 197,394 additional common shares on the basis of one such additional common share for each eight common shares owned, at a price of $13.00 per share. The holders of common shares on the record date will also be given the privilege of subscribing, at the subscription price, subject to

allotment on a pro rata basis for any of such additional shares not subscribed for through the exercise of rights, on the basis of one additional share for each share owned. Both the right to subscribe and the additional subscription privilege will be evidenced by transferable warrants. Warrants for full shares will be in registered form; fractional share warrants will be in bearer form. No fractional shares are to be issued, but fractional warrants may be combined for the purchase of full shares.

While the offering of common shares will not be underwritten, Negea, to facilitate the offering proposes to procure the services of security dealers to solicit subscriptions to purchase the additional common shares being offered. After requesting twelve securities dealers to submit proposals as to the basis, including compensation, on which they would act as Dealer Manager, Negea selected The First Boston Corporation. The fee to be paid to The First Boston Corporation for acting as Dealer Manager is 5.5 cents per common share issued as a result of solicitation by participating dealers. Participating dealers (including The First Boston Corporation) will receive from the company 20 cents per common share issued upon the exercise of warrants where the name of the participating dealer appears on the exercised warrant (or where the company is satisfied that such fee should be paid). The maximum aggregate amount payable to participating dealers with respect to the subscription of any one registered holder of warrants is to be limited to $300.

The filing states that a portion of the proceeds of the proposed sale of common shares will be used to retire $1,000,000 of short-term bank indebtedness which was incurred to enable Negea to acquire common stock of certain of its subsidiaries, and that any excess over the amount required for such purpose will be set aside for the purpose of acquiring additional common stocks of subsidiaries.

Said declaration having been filed on May 10, 1951, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said declaration, as amended, be and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

HARVEY E. ANDERSON ET AL.

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 4th day of June A. D. 1951.

In the matter of Harvey E. Anderson, 1013 Grand Avenue, Kansas City, Mo.; Gallagher & Company, 17 Court St., Buffalo, New York; D. W. Hampton, 524 W. 8th Street, Oklahoma City, Oklahoma; G. L. Maycroft Co., Hibbing, Minnesota; J. Bertram Quinn, Room 516, 308 West Washington Street, Chicago, Illinois; Steinauer & Co., Inc., First National Bank Bldg., Lincoln, Nebraska.

These are proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the registrants named above, each of whom is registered as broker and dealer or as a dealer only, willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder and, if so, whether it is in the public interest to revoke their registrations.[1]

The proceedings were instituted by the issuance of separate notices and orders for hearing, copies of which were sent by registered mail to the addresses last furnished us by the registrants. These registered notices were returned to us by the Post Office Department with notations indicating that the registrants could not be found at the addresses given.[2]

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press, and by distribution to persons on our mailing list.

The registrations of the registrants have not been withdrawn, cancelled, revoked or suspended, and as of the institution of the proceedings were in full force and effect. Our records show that the registrants failed to file the required reports during all or some of the years from 1943 through 1950.

Upon review of the records in these proceedings we have concluded that each of the registrants violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of failure to file such reports. We conclude also that such violations were willful within the meaning of section 15 (b).[3]

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke the registration of each of the registrants. However, in view of the fact that our records do not show whether any of them actually received personal notice of the scheduled hearings, and to avoid any possible prejudice to them, our order will provide that the revocation of registrations be without prejudice to a motion on the part of any registrant to reopen the proceedings and to seek, upon a proper showing, to set aside the order of revocation applicable to said registrant.[4]

Accordingly, it is ordered, That the registrations of Harvey E. Anderson, Gallagher & Company, D. W. Hampton, G. L. Maycroft Co., J. Bertram Quinn, and Steinauer & Co., Inc., be, and they hereby are, revoked without prejudice to a motion by any of the said registrants to reopen the record in the proceeding and, upon a proper showing, to set aside the order of revocation applicable to said registrant.

By the Commission.

[1] Section 15 (b) provides in part:
"The Commission shall, after appropriate notice and opportunity for hearing, by order * * * revoke the registration of any broker or dealer if it finds that such * * * revocation is in the public interest and that (1) such broker or dealer * * * (D) has willfully violated any provision * * * of this title, or of any rule or regulation thereunder."

[2] Our orders and notices instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to certain designated dates. Pursuant to this provision the orders and notices were published in the FEDERAL REGISTERS of March 16 and 22, April 18 and 21, 1951. 16 F. R. EMILIO SYLVESTER

In re: Estate of Emilio Sylvester, also known as Emilio Ernesto Borjas Sylvester Stelzer, deceased. File No. F-63-12933.

Vesting Order 17300 dated February 6, 1951 is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Edgar Sylvester, also known as Edgar Burchard Gustav Karl Sylvester, as Edgar Sylvester Beyerlein, and as Edgar Burchard Gustav Karl Sylvester Beyerlein, and Mrs. Gertrude Siebel, also known as Mrs. Gertrud Sylvester Beyerlein de Siebel, and as Gertrud Anna Helga Sylvester Beyerlein, who on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, have been residents of Germany, are nationals of a designated enemy country (Germany);

2. That the following described property in the possession, custody or control

of Guaranty Trust Company of New York, 140 Broadway, New York, New York, as depositary thereof for the account of Credit Suisse, Zurich, Switzerland, namely:

(a) $2,000, United States of Brazil 3⅜ percent External Sinking Fund Bonds of 1927 due October 15, 1979, Bonds numbered M279-21511 at $1,000, P. V. each, together with any and all rights thereunder and thereto; $400, United States of Brazil 3⅜ percent Funding Bonds of 1931 due October 1, 1979, dated October 1, 1931, Bonds numbered 77767, 21007 8 and 21049 at $100 each, together with any and all rights thereunder and thereto;

(b) 5 shares The Chesapeake and Ohio Railway Company common stock, par value $25, Certificate No. 0358508, dated September 12, 1944; registered in the name of Schmidt & Co., together with all declared and unpaid dividends thereon; and

(c) That certain debt or other obligation of the said Guaranty Trust Company of New York, 140 Broadway, New York, New York, arising out of an account maintained in said Bank for Credit Suisse, Zurich, Switzerland, in an amount equal to that which is credited by Credit Suisse, Zurich, Switzerland, to the estate of Emilio Sylvester, also known as Emilio Ernesto Borjas Sylvester Stelzer, deceased, together with the right to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the aforesaid Edgar Sylvester, also known as Edgar Burchard Gustav Karl Sylvester, as Edgar Sylvester Beyerlein, and as Edgar Burchard Gustav Karl Sylvester Beyerlein, and Mrs. Gertrude Siebel, also known as Mrs. Gertrud Sylvester Beyerlein de Siebel, and as Gertrud Anna Helga Sylvester Beyerlein, be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof subject to all lawful fees and disbursements of Credit Suisse, Zurich, Switzerland chargeable thereto and of Guaranty Trust Company of New York, 140 Broadway, New York, New York, as depositary of the aforesaid property, held for the account of Credit Suisse, Zurich, Switzerland, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 18, 1951.

For the Attorney General.

FEDERAL REGISTER

VOLUME 16 NUMBER 113

Washington, Tuesday, June 12, 1951

TITLE 3—THE PRESIDENT

PROCLAMATION 2930

FLAG DAY, 1951

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Congress, by a joint resolution approved on August 3, 1949 (63 Stat. 492), has set aside June 14 of each year as Flag Day, in commemoration of the adoption of the flag of the United States by the Continental Congress on June 14, 1777; and

WHEREAS this emblem has always stood for freedom and independence; and

WHEREAS these blessings were won by the American people, and have been preserved for a century and three-quarters, by courage, faith, and vigilance; and

WHEREAS in the Far East the American flag, together with that of the United Nations, is now flying alongside the flags of other countries in the same enduring struggle for freedom and independence:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby direct that the flag of the United States be displayed on all Government buildings on Flag Day, Thursday, June 14, 1951, and I call upon the people to observe that day with special patriotic ceremonies designed to give expression to our reverence for the flag and the ideals it symbolizes.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventh day of June in the year of our Lord nineteen hundred and [SEAL] fifty-one, and of the Independence of the United States of America the one hundred and seventy-fifth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

AUTHORITY: §§ 726.230 to 726.260 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply 52 Stat. 38, 47, 48, 65, 66, as amended; 7 U. S. C. 1301, 1313, 1314, 1372, 1373, 1374, 1375.

GENERAL

§ 726.230 *Basis and purpose.* Sections 726.230 to 726.260 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of fire-cured, dark air-cured, and Virginia sun-cured tobacco during the 1951–52 marketing year. Prior to preparing §§ 726.230 to 726.260, public notice (16 F. R. 3588) of their formulation was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to §§ 726.230 to 726.260 which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 726.231 *Definitions.* As used in §§ 726.230 to 726.260, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended.

(b) "Carry-over" tobacco means, with respect to a farm, tobacco produced prior to the beginning of the calendar year 1951, which has not been marketed or which has not been disposed of under § 726.243.

(c) Committee: (1) "Community committee" means the group of persons elected within a community as the community committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the community.

(2) "County committee" means the group of persons elected within a county as the county committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the county.

(3) "State committee" means the group of persons designated as the State committee of the Production and Marketing Administration, charged with the responsibility of administering Production and Marketing Administration programs within the State.

(d) "Dealer" or "buyer" means a person who engages to any extent in the business of acquiring tobacco from producers without regard to whether such person is registered as a dealer with the Bureau of Internal Revenue.

(e) "Director" means Director or Acting Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture.

(f) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Assistant Administrator for Production, Production and Marketing Administration, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with work stock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(g) "Field assistant" means any duly authorized employee of the United States Department of Agriculture, and any duly authorized employee of a county committee whose duties involve the preparation and handling of records and reports pertaining to tobacco marketing quotas.

(h) "Floor sweepings" means scraps, leaves, or bundles of tobacco, generally of inferior quality, which accumulate on the warehouse floor and which not being subject to identification with any particular lot of tobacco are gathered up by the warehousemen for sale. Floor sweepings shall not include tobacco defined as "pick-ups."

(i) "Leaf account tobacco" means all tobacco purchased by or for a warehouseman and "leaf account" shall include the records required to be kept and copies of the reports required to be made under §§ 726.230 to 726.260 relating to tobacco purchased by or for a warehouseman and resales of such tobacco.

(j) "Market" means the disposition in raw or processed form of tobacco by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. "Marketing" and "marketed" shall have corresponding meanings to the term "market."

(k) "Nonwarehouse sale" means any first marketing of farm tobacco other than by sale at public auction through a warehouse in the regular course of business.

(l) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(m) "Person" means an individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a State or any agency thereof.

(n) "Pick-ups" means (1) any tobacco sorted and reclaimed from leaves or bundles which have fallen to the warehouse floor in the usual course of business, or (2) any tobacco previously purchased at auction but not delivered to the buyer because of rejection by the buyer, lost ticket, or any other reason, and which is not turned back to a dealer

other than the warehouseman and shall include tobacco delivered to the buyer but returned by the buyer to the warehouseman, and which is not turned back to a dealer other than the warehouseman.

(o) "Producer" means a person who, as owner, landlord, tenant, share cropper, or laborer is entitled to share in the tobacco available for marketing from the farm or in the proceeds thereof.

(p) "Pound" means that amount of tobacco which, if weighed in its unstemmed form and in the condition in which it is usually marketed by producers, would equal one pound standard weight.

(q) "Resale" means the disposition by sale, barter, exchange, or gift inter vivos, of tobacco which had been marketed previously.

(r) "Sale day" means the period at the end of which the warehouseman bills to buyers the tobacco so purchased during such period.

(s) "Secretary" means the Secretary or Acting Secretary of Agriculture of the United States.

(t) "Suspended sale" means any first marketing of farm tobacco at a warehouse sale for which a memorandum of sale is not issued by the end of the sale day on which such marketing occurred.

(u) "Tobacco" means each one of the kinds of tobacco listed below comprising the types specified, as classified in Service and Regulatory Announcements No. 118 (7 CFR 30.4 and 30.5) of the Bureau of Agricultural Economics of the United States Department of Agriculture:

Fire-cured tobacco, comprising types 21, 22, 23, and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37.

Any tobacco that has the same characteristics and corresponding qualities, colors, and lengths as either fire-cured, dark air-cured or Virginia sun-cured tobacco shall be considered respectively, either fire-cured, dark air-cured, or Virginia sun-cured tobacco regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco.

(v) "Tobacco available for marketing" means all tobacco produced on the farm in the calendar year 1951 plus any carry-over tobacco, less any tobacco disposed of in accordance with § 726.243.

(w) "Tobacco subject to marketing quotas" means any fire-cured, dark air-cured, or Virginia sun-cured tobacco marketed during the period October 1, 1951, to September 30, 1952, inclusive, and any fire-cured, dark air-cured, or Virginia sun-cured tobacco produced in the calendar year 1951 and marketed prior to October 1, 1951.

(x) "Trucker" means a person who engages to any extent in the business of trucking tobacco to market and selling it for producers regardless of whether the tobacco is acquired from producers by the trucker.

(y) "Warehouseman" means a person who engages to any extent in the business of holding sales of tobacco at public auction at a warehouse.

(z) "Warehouse sale" means a marketing of tobacco by a sale at public auction through a warehouse in the regular course of business, and shall include all lots or baskets of tobacco marketed in sequence at a given time.

§ 726.232 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Assistant Administrator for Production, Production and Marketing Administration.

§ 726.233 *Extent of calculations and rule of fractions.* (a) The acreage of tobacco harvested on a farm in 1951 shall be expressed in tenths and fractions of less than one-tenth acre shall be dropped. For example, 4.56 acres would be 4.5 acres.

(b) The percentage of excess tobacco available for marketing from a farm, hereinafter referred to as the "percent excess," shall be expressed in tenths and fractions of less than one-tenth shall be dropped. For example, 12.59 percent would be 12.5 percent.

(c) The amount of penalty per pound upon marketings of tobacco subject to penalty, hereinafter referred to as the "converted rate of penalty," shall be expressed in tenths of a cent and fractions of less than a tenth shall be dropped, except that if the resulting converted rate of penalty is less than a tenth of a cent, it shall be expressed in hundredths and fractions of less than a hundredth shall be dropped. For example, 3.68 cents per pound would be 3.6 cents and 0.068 cent per pound would be 0.06 cent.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 726.234 *Amount of farm marketing quota.* (a) The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment established for the farm in accordance with §§ 726.211 to 726.229, 1023 (Fire, Air, and Sun-51)-3, Fire-cured, Dark Air-cured, and Virginia Sun-cured Tobacco Marketing Quota Regulations, 1951-52 Marketing Year, as amended (15 F. R. 5874, 16 F. R. 3886). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1951 times the farm acreage allotment.

(b) The excess tobacco on any farm shall be (1) that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1951 times the number of acres harvested in excess of the farm acreage allotment, plus (2) any excess carry-over tobacco. The acreage of tobacco determined for a farm for the purpose of issuing the correct marketing card for the farm as provided in § 726.236 shall be considered the harvested acreage for the farm unless the farm operator furnishes proof satisfactory to the county committee that a portion of the acreage planted will not be harvested or that a representative portion of the production of the acreage harvested will be disposed of other than by marketing.

§ 726.235 *No transfers.* There shall be no transfer of farm marketing quotas.

§ 726.236 *Issuance of marketing cards.* A marketing card shall be issued for each farm having tobacco available for marketing. Subject to the approval of the county committee, two or more marketing cards may be issued for any farm. All entries on each marketing card shall be made in accordance with the instructions for issuing marketing cards. Upon the return to the office of the county committee of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the county committee to have been lost, destroyed, or stolen.

(a) *Within Quota Marketing Card (MQ-76—Tobacco).* A within quota marketing card authorizing the marketing without penalty of the tobacco available for marketing shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1951 is not in excess of the farm acreage allotment and any excess carry-over tobacco from any prior marketing year can be marketed without penalty under the provisions of § 726.242 (b).

(2) If all excess tobacco produced on the farm is disposed of in accordance with § 726.243 (b), or

(3) If the tobacco was grown for experimental purposes on land owned or leased by a publicly owned agricultural experiment station and is produced at public expense by employees of the experiment station, or if the tobacco was produced by farmers pursuant to an agreement with a publicly owned experiment station whereby the experiment station bears the costs and risks incident to the production of the tobacco and the proceeds from the crop inure to the benefit of the experiment station: *Provided*, That such agreement is approved by the State committee prior to the issuance of a marketing card for the farm.

(b) *Excess Marketing Card (MQ-77—Tobacco).* An excess marketing card showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued unless a within quota card is required to be issued for the farm under paragraph (a) of this section, except that if the farm operator fails to disclose or otherwise furnish, or prevents the county committee from obtaining any information necessary to the issuance of the correct marketing card, an excess marketing card shall be issued showing that all tobacco from the farm is subject to the rate of penalty set forth in § 726.245.

§ 726.237 *Person authorized to issue marketing cards.* The county committee shall designate one person to sign

marketing cards for farms in the county as issuing officer. The issuing officer may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each such person shall place his initials immediately beneath the name of the issuing officer as written by him on the card.

§ 726.238 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from a farm shall be entitled to the use of the marketing card issued for the farm for marketing his proportionate share.

§ 726.239 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from a farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 726.240 *Invalid cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted or incorrect;

(3) It is lost, destroyed, stolen, or becomes illegible; or

(4) Any erasure or alteration has been made and not properly initialed.

(b) In the event any marketing card becomes invalid (other than by loss, destruction, or theft, or by omission, alteration, or incorrect entry which cannot be corrected by a field assistant), the farm operator, or the person having the card in his possession, shall return it to the office of the county committee at which it was issued.

(c) If an entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by a field assistant, then such card shall become valid.

§ 726.241 *Report of misuse of marketing card.* Any information which causes a field assistant, a member of a State, county, or community committee, or an employee of a State or county committee, to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the county or State committee.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

§ 726.242 *Extent to which marketings from a farm are subject to penalty.* (a) Marketings of tobacco from a farm having no carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows: Divide the acreage of tobacco harvested in excess of the farm acreage allotment and not disposed of under § 726.243 by the total acreage of tobacco harvested from the farm.

(b) Marketings of tobacco from a farm having carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows:

(1) Determine the number of "carry-over" acres by dividing the number of pounds of "carry-over" tobacco from the prior years by the normal yield for the farm for that year.

(2) Determine the number of "within quota carry-over" acres by multiplying the "carry-over" acres (subparagraph (1) of this paragraph) by the "percent within quota" (i. e., 100 percent minus the "percent excess") for the year in which the "carry-over" tobacco was produced, except that if the excess portion of the carry-over tobacco is disposed of under § 726.243 the "percent within quota" shall be 100.

(3) Determine the "total acres" of tobacco by adding the "carry-over" acres (subparagraph (1) of this paragraph) and the acreage of tobacco harvested in the current year.

(4) Determine the "excess acres" by subtracting from the "total acres" (subparagraph (3) of this paragraph) the sum of the 1951 allotment and the "within quota carry-over" acres (subparagraph (2) of this paragraph).

(5) Determine the percent excess by dividing the "total acres" into the "excess acres" (subparagraph (4) of this paragraph).

(6) Those persons having an interest in the carry-over tobacco for a farm shall be liable for the payment of any penalty due thereon.

(c) For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the applicable rate of penalty by the percent excess obtained under paragraph (a) or (b) of this section. The memorandum of sale issued to identify each such marketing shall show the amount of penalty due.

§ 726.243 *Disposition of excess tobacco.* The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by either of the following methods:

(a) By storage of the excess tobacco, the tobacco so stored to be representative of the entire 1951 crop produced on the farm, and posting of a bond approved by the county committee and the State committee in the penal sum of twice the rate of penalty per pound set forth in § 726.245 times the quantity of excess tobacco stored. Penalty at the applicable full rate per pound on marketings of excess tobacco shall become due upon the removal from storage of the excess tobacco, except that an amount of such tobacco in storage equal to the normal production of the acreage by which the 1952 harvested acreage plus any acreage added with respect to any excess carry-over tobacco for the farm pursuant to § 726.242 (b) is less than the 1952 allotment may be removed from storage and marketed penalty free.

If the 1951 harvested acreage is less than the 1951 allotment an amount of any tobacco from the farm which was placed under storage for a prior marketing year equal to the normal production of the acreage by which the 1951 harvested acreage plus any acreage added with respect to any excess carry-over tobacco for the farm pursuant to § 726.242 (b) is less than the 1951 allotment may be marketed penalty free.

(b) By furnishing to the county committee satisfactory proof that excess tobacco representative of the entire crop will not be marketed.

§ 726.244 *Identification of marketings.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the 1951 marketing card (MQ-76—Tobacco or MQ-77—Tobacco) issued for the farm on which the tobacco was produced. In addition, in the case of nonwarehouse sales, each marketing shall also be identified by an executed bill of nonwarehouse sale (reverse side of memorandum of sale).

(a) *Separate display on warehouse floor.* Any warehouseman upon whose floor more than one kind of tobacco is offered for sale at public auction shall display each such kind of tobacco separately and shall make and keep records that will insure a separate accounting of each of such kinds of tobacco sold at auction over the warehouse floor.

(b) *Memorandum of sale.* If a memorandum of sale is not executed to identify a warehouse sale of producer's tobacco by the end of the sale day on which the tobacco was marketed, the marketing shall be a suspended sale, and, unless a memorandum identifying the tobacco so marketed is executed on or before the last warehouse sale day of the marketing season or within four weeks after the date of marketing, whichever comes first, the marketing shall be identified by MQ-82—Tobacco, Sale Without Marketing Card, as a marketing of excess tobacco. The memorandum of sale or MQ-82—Tobacco shall be executed only by a field assistant or other representative of the State committee with the following exceptions:

(1) A warehouseman, or his representative, who has been authorized on MQ-78—Tobacco, may issue a memorandum of sale to identify a warehouse sale if a field assistant is not available at the warehouse when the marketing card is presented. Each memorandum of sale issued by a warehouseman to cover a warehouse sale shall be presented promptly by him to the field assistant for verification with the warehouse records.

(2) A dealer, or his authorized representative, operating a regular receiving point for tobacco who keeps records showing the information specified in § 726.252 and who has been authorized on MQ-78—Tobacco, may issue memoranda of sale covering tobacco delivered directly to such receiving point and marketed to such dealer.

The authorization on MQ-78—Tobacco to issue memoranda of sale may be withdrawn by the State committee from any warehouseman or dealer if such action is determined to be necessary in order to properly enforce the provisions of §§ 726.230 to 726.260. The authorization shall terminate upon receipt of written notice setting forth the State committee's reason therefor.

Each excess memorandum of sale issued by a field assistant shall be verified by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown to be due has been correctly computed and such warehousemen or dealer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur in executing the memorandum of sale.

(c) *Bill of nonwarehouse sale.* Each nonwarehouse sale shall be identified by a bill of nonwarehouse sale completely executed by the buyer and the farm operator.

Each bill of nonwarehouse sale covering any marketing shall be presented to a field assistant for the issuance of a memorandum of sale and for recording in MQ–79—Tobacco.

§ 726.245 *Rate of penalty.* (a) The penalty per pound upon marketings of excess tobacco subject to marketing quotas shall be twelve (12) cents per pound in the case of fire-cured tobacco (types 21, 22, 23, and 24), nine (9) cents per pound in the case of dark air-cured tobacco (types 35 and 36), and fourteen (14) cents per pound in the case of Virginia sun-cured tobacco (type 37).

(b) With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that percentage of each lot of tobacco marketed which the tobacco available for marketing in excess of the farm quota is of the total amount of tobacco available for marketing from the farm.

§ 726.246 *Persons to pay penalty.* The person to pay the penalty due on the marketing of tobacco subject to penalty shall be determined as follows:

(a) *Warehouse sale.* The penalty due on marketings by a producer through a warehouse shall be paid by the warehouseman who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Nonwarehouse sale.* The penalty due on tobacco purchased directly from a producer other than at public auction through a warehouse shall be paid by the purchaser of the tobacco who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Marketings through an agent.* The penalty due on marketings by a producer through an agent who is not a warehouseman shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Marketings outside United States.* The penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer.

§ 726.247 *Marketings deemed to be excess tobacco.* Any marketing of tobacco under any one of the following conditions shall be deemed to be a marketing of excess tobacco:

(a) *Warehouse sale.* Any warehouse sale of tobacco by a producer which is not identified by a valid memorandum of sale on or before the last warehouse sale day of the marketing season or within four weeks following the date of marketing, whichever comes first, shall be identified by a MQ–82—Tobacco and shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(b) *Nonwarehouse sale.* Any nonwarehouse sale which (1) is not identified by a valid bill of nonwarehouse sale (reverse side of memorandum of sale) and (2) is not also identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the date of purchase, or if purchased prior to the opening of the local auction markets, is not identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the first sale day of the local auction markets, shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the purchaser of such tobacco.

(c) *Leaf account tobacco.* The part or all of any marketing by a warehouseman which such warehouseman represents to be a leaf account resale, but which when added to prior leaf account resales, as reported under §§ 726.230 to 726.260, is in excess of prior leaf account purchases shall be deemed to be a marketing of excess tobacco unless and until such warehouseman furnishes proof acceptable to the Director or State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(d) *Dealer's tobacco.* The part or all of any marketing of tobacco by a dealer which such dealer represents to be a resale but which when added to prior resales by such dealer is in excess of the total of his prior purchases as reported on MQ–79—Tobacco shall be deemed to be a marketing of excess tobacco unless and until such dealer furnishes proof acceptable to the Director or State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the dealer.

(e) *Marketings not reported.* Any resale of tobacco which under §§ 726.230 to 726.260 is required to be reported by a warehouseman or dealer but which is not so reported within the time and in the manner required by §§ 726.230 to 726.260 shall be deemed to be a marketing of excess tobacco unless and until such warehouseman or dealer furnishes a report of such resale which is acceptable to the Director or State committee. The penalty thereon shall be paid by the warehouseman or dealer who fails to make the report as required.

(f) *Producer marketings.* If any producer falsely identifies or fails to account for the disposition of any tobacco produced on a farm, an amount of tobacco equal to the normal yield of the number of acres harvested in 1951 in excess of the farm acreage allotment shall be deemed to have been a marketing of excess tobacco from such farm. The penalty thereon shall be paid by the producer.

§ 726.248 *Payment of penalty.* (a) Penalties shall become due at the time the tobacco is marketed, except in the case of tobacco removed from storage as provided in § 726.243 (a), and shall be paid by remitting the amount thereof to the State committee not later than the end of the calendar week following the week in which the tobacco became subject to penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

(b) If the penalty due on any warehouse sale of tobacco by a producer as determined under §§ 726.230 to 726.260 is in excess of the net proceeds of such sale (gross amount for all lots included in the sale less usual warehouse charges), the amount of the net proceeds accompanied by a copy of the warehouse bill covering such sale may be remitted as the full penalty due. Usual warehouse charges shall not include (1) advances to producers, (2) charges for hauling, or (3) any other charges not usually incurred by producers in marketing tobacco through an auction warehouse.

(c) Nonwarehouse sales shall be subject to the converted rate of penalty for the farm on which the tobacco was produced without regard to the net proceeds of the sale.

§ 726.249 *Request for return of penalty.* Any producer of tobacco after the marketing of all tobacco available for marketing from the farm, and any other person who bore the burden of the payment of any penalty, may request the return of the amount of such penalty which is in excess of the amount required under §§ 726.230 to 726.260 to be paid. Such request shall be filed with the county committee within two (2) years after the payment of the penalty.

RECORDS AND REPORTS

§ 726.250 *Producer's records and reports*—(a) *Report on marketing card.* The operator of each farm on which tobacco is produced in 1951 shall return to the office of the county committee each marking card issued for the farm whenever marketings from the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the locality in which the farm is located. Failure to return the marketing card within the time specified (after formal notification) shall constitute failure to account for disposition of tobacco marketed from the farm and in the event that a satisfactory account of such disposition is not furnished otherwise, the allotment next established for such farm shall be reduced as provided in the fire-cured, dark air-cured, and Virginia sun-cured tobacco marketing quota regulations for determining acreage allotments and normal yields, 1952–53 marketing year.

(b) *Additional reports by producers.* In addition to any other reports which may be required under §§ 726.230 to 726.260, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment or even

though no allotment was established for the farm) shall upon written request by registered mail from the State committee and within 15 days after the deposit of such request in the United States mails, addressed to such person at his last known address, furnish the Secretary a written report of the disposition made of all tobacco produced on the farm by sending the same to the State committee showing, as to the farm at the time of filing said report, (1) the number of acres of tobacco harvested, (2) the total production of tobacco, (3) the amount of tobacco on hand and its location, and (4) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of the marketing. Failure to file the report as requested or the filing of a report which is found by the State Committee to be incomplete or incorrect shall constitute failure of the producer to account for disposition of tobacco produced on the farm and the allotment next established for such farm shall be reduced as provided in the fire-cured, dark air-cured, and Virginia sun-cured tobacco marketing quota regulations for determining acreage allotments and normal yields, 1952–53 marketing year.

§ 726.251 *Warehouseman's records and reports*—(a) *Record of marketing.* Each warehouseman shall keep such records as will enable him to furnish the Director or the State committee with respect to each warehouse sale of tobacco made at his warehouse the following information:

(1) The name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a sale by a producer, and in the case of a resale the name of the seller.

(2) Date of sale.

(3) Number of pounds sold.

(4) Gross sale price.

(5) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s); and in addition with respect to each individual basket or lot of tobacco constituting the warehouse sale the following information:

(6) Name of purchaser.

(7) Number of pounds sold.

(8) Gross sale price.

Records of all purchases and resales of tobacco by the warehouseman shall be maintained to show a separate account for:

(i) Nonwarehouse sales by farmers of tobacco purchased by or on behalf of the warehouseman.

(ii) Purchases and resales for the warehouse leaf account.

(iii) Resales of floor sweepings.

(iv) Resales of pick-ups, with respect to both subparagraphs (1) and (2) as defined in § 726.231(n)

Any warehouseman or any other person who grades tobacco for farmers shall maintain records which will enable him to furnish the State committee the name of the farm operator and the approximate amount of tobacco obtained from the grading of tobacco from each farm.

In the case of resales for dealers, the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each warehouse sale by a producer or the number of the warehouse bill(s) covering each such sale shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale and bill of nonwarehouse sale.* A record in the form of a valid memorandum of sale or a sale without marketing card shall be obtained by a warehouseman to cover each marketing of tobacco from a farm through the warehouse and each nonwarehouse sale of tobacco purchased by or for the warehouseman. For a nonwarehouse sale of tobacco purchased by or for a warehouseman, no memorandum of sale shall be issued unless the bill of nonwarehouse sale on the reverse side of the memorandum is executed. Any warehouseman who obtains possession of any tobacco in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such tobacco.

(d) *Suspended sale record.* Any warehouse bills covering farm tobacco for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills "Suspended," write thereon the serial number of the suspended sale, and record the bills on MQ–83—Tobacco, Field Assistant's Report: *Provided*, That if a field assistant is not available, the warehouseman may stamp such bills "Suspended" and deliver them to a field assistant when one is available.

(e) *Warehouse entries on dealer's record.* Each warehouseman shall record on MQ–79—Tobacco the total purchases and resales made by each dealer or other warehouseman during each sale day at the warehouse, and enter his initials in the space provided. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1951 the entry on MQ–79—Tobacco shall clearly show such fact.

(f) *Record and report of purchases and resales.* Each warehouseman shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing:

(1) All purchases of tobacco directly from producers other than at public auction through a warehouse (nonwarehouse sales).

(2) All purchases and resales of tobacco at public auction through warehouses other than his own.

(3) All purchases of tobacco from dealers other than warehousemen and resales of tobacco to dealers other than warehousemen.

(g) *Season report of warehouse business.* Each warehouseman shall furnish the State committee not later than thirty (30) days following the last sale day of the marketing season a report on MQ–80—Tobacco, Auction Warehouse Report, showing (1) for each dealer or buyer, as originally billed, the total pounds and gross amount of tobacco purchased and resold on the warehouse floor; (2) the total pounds and gross amount of "loan tobacco" billed to any association; (3) the total pounds and gross amount of all leaf account tobacco purchased and resold and of all pick-ups (§ 726.231 (n) (1) or (2)), or floor sweepings sold by the warehouseman at public auction over his own warehouse floor; (4) the pounds and estimated value of all tobacco on hand at the time of filing the report and whether such tobacco represents leaf account tobacco, pick-ups (§ 726.231 (n) (1) or (2)), or floor sweepings; (5) the total pounds and gross amount of all tobacco purchased directly from farmers other than at public auction through a warehouse; and (6) the total pounds and gross amount of all purchases over other warehouse floors or from dealers other than warehousemen and all resales over other warehouse floors or to dealers other than warehousemen.

(h) *Report of penalties.* Each warehouseman shall make reports on MQ–81—Tobacco, Report of Penalties, showing for each sale of tobacco subject to penalty (1) the name of the farm operator; (2) the memorandum number; (3) the name of the county in which the farm is located; (4) the farm serial number; (5) the number of pounds sold; (6) the applicable converted rate of penalty; and (7) the amount of penalty due on each such sale. MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the State committee not later than the end of the calendar week following the week in which the tobacco became subject to penalty.

(i) *Report of resales.* Each warehouseman shall make reports on MQ–86—Tobacco, Report of Resales, showing for each resale of tobacco at auction on the warehouse floor (1) the warehouse bill number; (2) the name of the warehouse bill; (3) the name of the seller, or in the case of a resale for the warehouse whether such resale represents leaf account tobacco, pick-ups, or floor sweepings; (4) the registration number and State of the person making the resale; (5) the number of pounds sold; and (6) the gross amount for the sale. MQ–86—Tobacco shall be prepared for each sale day and forwarded to the State committee not later than the end of the calendar week following the week in which the tobacco was resold.

(j) *Additional records and reports by warehousemen.* Each warehouseman shall keep such records and furnish such reports to the State committee, in addition to the foregoing, as the Director may find necessary to insure the proper identification of the marketings of tobacco and the collection of penalties due thereon as provided in §§ 726.230 to 726.260.

§ 726.252 *Dealer's records and reports.* Each dealer, except as provided in § 726.253, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address, and registration number.* Each dealer shall properly execute and the field as-

sistant shall detach and forward to the State committee "Receipt for Dealer's Record" contained in MQ–79—Tobacco which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing all purchases and resales of tobacco made by or for the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1951, the fact that such tobacco was bought by him and carried over from a crop produced prior to 1951.

(c) *Report of penalties.* Each dealer shall make a report on MQ–81—Tobacco, Report of Penalties, showing for each purchase of tobacco subject to penalty (1) the name of the farm operator; (2) the memorandum number; (3) the name of the county in which the farm is located; (4) the farm serial number; (5) the number of pounds purchased; (6) the applicable converted rate of penalty; and (7) the amount of penalty due on each such purchase. MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the State committee not later than the end of the calendar week following the week in which the tobacco became subject to penalty.

(d) *Memorandum of sale and bill of nonwarehouse sale.* A bill of nonwarehouse sale and a memorandum of sale from the 1951 marketing card issued for the farm on which the tobacco was produced shall be obtained by a dealer to cover each purchase of tobacco directly from a producer other than at auction through a warehouse. No memorandum of sale shall be issued identifying such purchase unless the bill of nonwarehouse sale, on the reverse side of the memorandum of sale, has been executed.

(e) *Additional records.* Each dealer shall keep such records in addition to the foregoing as will enable him to furnish the Director of the State committee with respect to each lot of tobacco purchased by him the following information:

(1) The name of the warehouse through which the tobacco was purchased in the case of a warehouse sale; the name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a nonwarehouse sale; and the name of the seller in the case of purchases directly from warehousemen or other dealers.

(2) Date of purchase.

(3) Number of pounds purchased.

(4) Gross purchase price.

(5) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s); and with respect to each lot of tobacco sold by him the following information:

(6) Name of the warehouse through which the tobacco was sold in the case of a warehouse sale, and the name of the purchaser if other than a warehouse sale.

(7) Date of sale.

(8) Number of pounds sold.

(9) Gross sale price.

(10) In the event of a resale of tobacco bought by him and carried over from a crop produced prior to 1951 the fact that such tobacco was so bought and carried over.

All reports shall be forwarded to the State committee not later than the end of the week following the calendar week covered by the reports.

§ 726.253 *Dealers exempt from regular records and reports.* Any dealer or buyer who does not purchase or otherwise acquire tobacco except (a) at warehouse sales, or (b) directly from dealers other than warehousemen, and who does not resell in the form in which tobacco ordinarily is sold by farmers more than 10 percent of such tobacco so purchased by him shall not be subject to the provisions of § 726.252: *Provided, however,* That any such dealer or buyer who purchases tobacco (a) at nonwarehouse sale, or (b) from a warehouseman other than at warehouse sale shall be subject to the provisions of § 726.252 with respect to such purchases. Each such dealer or buyer shall make such reports to the Director, in addition to the foregoing, as he may find necessary to enforce §§ 726.230 to 726.260 and each dealer or buyer who is not subject to the provisions of § 726.252 shall make such reports to the Director as he may find necessary to enforce §§ 726.230 to 726.260.

§ 726.254 *Records and reports of truckers and persons redrying, prizing, or stemming tobacco.* (a) Every person engaged to any extent in the business of trucking tobacco for producers shall keep such records as will enable him to furnish the Director or State committee a report with respect to each lot of tobacco received by him showing (1) the name and address of the farm operator, (2) the date of receipt of the tobacco, (3) the number of pounds received, and (4) the place to which it was delivered.

(b) Every person engaged to any extent in the business of redrying, prizing, or stemming tobacco for producers shall keep such records as will enable him to furnish the Director a report showing (1) the information required above for truckers, and in addition, (2) the purpose for which the tobacco was received, (3) the amount of advance made by him on the tobacco, and (4) the disposition of the tobacco.

Each such person shall make such reports to the Director as he may find necessary to enforce §§ 726.230 to 723.260.

§ 726.255 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any records or make any report as a warehouseman, dealer, trucker, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 726.256 *Failure to keep records or make reports.* Any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing, or stemming tobacco for producers, who fails to make any report or keep any record as required under §§ 726.230 to 726.260, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under §§ 726.230 to 726.260 within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided,* That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Director.

§ 726.257 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report but not so furnished, any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing, or stemming tobacco for producers shall make available for examination upon written request by the State committee or Director, such books, papers, records, accounts, cancelled checks, correspondence, contracts, documents, and memoranda as the State committee or Director has reason to believe are relevant and are within the control of such person.

§ 726.258 *Length of time records and reports to be kept.* Records required to be kept and copies of reports required to be made by any person under §§ 726.230 to 726.260 for the 1951–52 marketing year, shall be kept by him until September 30, 1954. Records shall be kept for such longer period of time as may be requested in writing by the Director or State committee.

§ 726.259 *Information confidential.* All data reported to or acquired by the Secretary pursuant to the provisions of §§ 726.230 to 726.260 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members of community committees, and by all members and employees of county committees, and only such data so reported or acquired as the Assistant Administrator for Production, Production and Marketing Administration, deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the act.

§ 726.260 *Redelegation of authority.* Any authority delegated to the State committee by §§ 726.230 to 726.260 may be redelegated by the State committee.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 6th day of June 1951. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

AUTHORITY: §§ 953.0 to 953.92 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c.

§ 953.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order and the findings and determinations made in connection with the issuance of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Los Angeles, California, on May 15, 1951, upon proposed amendments to the marketing agreement, as amended, and to Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the States of California and Arizona. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of lemons grown in the States of California and Arizona in the same manner as, is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held;

(3) The said order, as amended and as hereby further amended, prescribes so far as practicable, such different terms, applicable to different production areas, as are necessary to give due recognition to the differences in production and marketing of lemons grown in the States of California and Arizona; and

(4) The said order, as amended and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of the act, and the issuance of several orders applicable to any subdivision of such regional production area would not effectively carry out the declared policy of the act.

(b) *Additional findings.* It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that:

(1) The said order, as amended, and as hereby further amended, will provide an incentive for export sales of lemons other than to Canada;

(2) The opportunity for marketing lemons in such export markets will occur in the next 60 to 90 days, or during the summer months; and

(3) In view of the imminence of the export marketing season and the short period available for marketing, it is imperative in order to accomplish the purposes of the said order, as amended, and as hereby further amended to alleviate the existing surplus, create new markets and enhance the returns to producers that it be made effective upon publication in the FEDERAL REGISTER.

(c) *Determinations.* It is hereby determined that:

(1) The agreement amending the marketing agreement, as amended, regulating the handling of lemons grown in the States of California and Arizona, upon which the aforesaid hearing was also held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping lemons covered by said order, as amended and as hereby further amended) who, during the period November 1, 1949, to October 31, 1950, handled not less than 80 percent of the volume of lemons covered by said order, as amended, and as hereby further amended;

(2) The issuance of this subpart, amending the aforesaid order as amended, is favored and approved by producers who, during the determined representative period (November 1, 1949, to October 31, 1950), produced for market at least two-thirds of the volume of lemons produced for market within the States of California and Arizona within the said period; and

(3) The issuance of this subpart, amending the aforesaid order as amended, is favored and approved by at least three-fourths of the producers who, during the aforesaid representative period, were engaged, within the States of California and Arizona, in the production for market of lemons grown in such states.

It is therefore ordered, That, on and after the effective date hereof, the handling of lemons grown in the States of California and Arizona shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid amended order as hereby amended as follows:

DEFINITIONS

§ 953.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States of America.

§ 953.2 *Act.* "Act" means Public Act No. 10, 73d Congress (48 Stat. 31), as amended and as reenacted and amended by the Agricultural Marketing Agree-

ment Act of 1937 (50 Stat. 246), as amended.

§ 953.3 *Person.* "Person" means an individual, partnership, corporation, association, legal representative, or any organized group of individuals.

§ 953.4 *Lemons.* "Lemons" means all varieties of lemons grown in the State of California or in the State of Arizona.

§ 953.5 *Grower and producer.* "Grower" and "producer" are synonymous and mean any person who produces lemons for market.

§ 953.6 *Handler.* "Handler" means any person (except a common carrier of lemons owned by another person), who handles lemons in fresh form.

§ 953.7 *Handle.* "Handle" means to transport, ship, sell, or in any other way to place lemons in the current of interstate commerce or commerce with Canada, or so as directly to burden, obstruct, or affect such interstate commerce or such commerce with Canada.

§ 953.8 *Carload.* "Carload" means a quantity of lemons equivalent to 406 packed boxes of lemons.

§ 953.9 *Box.* "Box" means a standard lemon box which has inside dimensions of 10 inches in depth, 13 inches in width, and 25⅝ inches in length.

§ 953.10 *Season and fiscal year.* "Season" and "fiscal year" are synonymous and mean the twelve-month period beginning on November 1 of each year and ending October 31 of the following year.

§ 953.11 *Committee.* "Committee" means the Lemon Administrative Committee established pursuant to § 953.20.

§ 953.12 *Available lemons.* "Available lemons" means all lemons available for current shipment, as determined pursuant to § 953.53.

§ 953.13 *Central marketing organization.* "Central marketing organization" means any organization which markets the lemons for more than one handler pursuant to a written contract between such organization and each such handler.

ADMINISTRATIVE BODY

§ 953.20 *Establishment and membership.* A Lemon Administrative Committee, consisting of six members, is hereby established. For each member of the committee there shall be an alternate member who shall have the same qualifications as the member.

§ 953.21 *Term of office.* The initial members and alternate members shall hold office for a term beginning on the date designated by the Secretary and ending October 31, 1942, or until their successors are selected and have qualified. Thereafter, the term of office of members and alternate members shall begin on the first day of November and continue for two years or until their successors are selected and have qualified. The Secretary may, by order issued not later than September 1 of any year, direct that the term of office of the members and alternate members then serving shall expire on October 31 following the date of such order, or as soon thereafter as their respective successors are selected and have qualified.

§ 953.22 *Nominations.* (a) Any cooperative marketing organization, or the growers affiliated therewith, as may be provided pursuant to paragraph (e) of this section, which marketed more than sixty percent of the total volume of lemons marketed in fresh form during the fiscal year which ends on the date nearest to the date on which nominations for members and alternate members of the committee are to be submitted, shall nominate not less than six growers for three members and six growers for three alternate members of the committee.

(b) All cooperative marketing organizations which are not qualified under paragraph (a) of this section, or the growers affiliated therewith, as may be provided pursuant to paragraph (e) of this section, shall nominate not less than two growers for a member and two growers for an alternate member of the committee.

(c) All lemon growers who are not included under paragraph (a) or (b) of this section shall nominate not less than two growers for a member and two growers for an alternate member of the committee.

(d) When voting for nominees, each grower shall be entitled to cast one vote, which vote shall be cast on behalf of himself, his agents, subsidiaries, affiliates, and representatives.

(e) The time, method, and manner of nominating members and alternate members of the committee shall be prescribed by the Secretary.

(f) Nominations for the initial members and alternate members of the committee may be made prior to, and, in any event, shall be submitted to the Secretary not later than fifteen days after, the effective date of this subpart. Nominations for successors to the initial members and alternate members of the committee shall be submitted to the Secretary not later than fifteen days preceeding the date of expiration of the terms of the members and alternate members.

(g) The five members of the committee selected by the Secretary pursuant to paragraph (a) of § 953.23, shall meet upon a date designated by the Secretary and, by a concurring vote of at least four members, shall nominate two persons for a member and two persons for an alternate member of the committee, which persons shall not be growers or handlers, or employees or agents of a grower or a handler, or in any other way associated directly with the lemon industry.

§ 953.23 *Selection.* (a) From the nominations submitted pursuant to paragraph (a) of § 953.22, the Secretary shall select three members and three alternate members of the committee. From the nominations submitted pursuant to paragraphs (b) and (c) of § 953.22, the Secretary shall select one member and one alternate member of the committee from each of the groups of nominations.

(b) From the nominations made pursuant to paragraph (g) of § 953.22, the Secretary shall select one member and one alternate member of the committee.

§ 953.24 *Failure to nominate.* In the event nominations are not made pursuant to, and within the time specified in, § 953.22, the Secretary may select the members and alternate members of the committee, without regard to nominations, which selection shall be made on the basis of the representation provided for in § 953.23.

§ 953.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 953.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate member, a successor for his unexpired term shall be selected by the Secretary from nominations made in the manner specified in § 953.22. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in § 953.23.

§ 953.27 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence, unless such member has designated another alternate member, who has been nominated by the same group which nominated the member; in which event, the alternate member so designated shall serve in the absence of the member who designated him. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 953.28 *Procedure.* (a) A majority of the committee shall constitute a quorum, and any action of the committee shall require four concurring votes.

(b) The committee may provide for voting by telegraph, telephone, or other means of communication; and any such vote so cast shall be confirmed promptly in writing.

§ 953.29 *Expenses and compensation.* The members of the committee, and their respective alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under § 953.30, and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $5.00 for each day, or portion thereof, spent in attending meetings of the committee.

§ 953.30 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 953.31 *Duties.* It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any grower or handler;

(b) To keep minutes, books, and records which will clearly reflect all of the acts and transactions of the committee, including all transactions and operations pursuant to §§ 953.50 through 953.62. Such minutes, books, and records shall be subject to examination at any time by the Secretary;

(c) To investigate the growing, shipping, and marketing conditions with respect to lemons, and to assemble data in connection therewith;

(d) To furnish to the Secretary such available information as he may request;

(e) To select a chairman and such other officers as may be necessary, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(f) At the beginning of each fiscal year, to submit to the Secretary a budget of its expenses for such fiscal year, together with a report thereon;

(g) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other times as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart, and a copy of each such report shall be furnished to the Secretary;

(h) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the salaries and define the duties of such persons;

(i) Subject to the continuing right of the Secretary to take such other action as may be necessary, to appear in and defend any legal proceeding against the committee, its members, or alternate members (whether any such proceeding is against them as individuals or as members or alternate members of the committee), or any officers or employees of such committee, arising out of the exercise of their powers or the performance of their duties pursuant to the provisions of this subpart; and the action of the committee in connection with any such defense shall be binding upon all the members and alternate members of the committee; and

(j) To perform such duties as may be assigned to it by the Secretary in connection with the administration of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes, Public Act No. 320, 74th Congress approved August 24, 1935 (49 Stat. 774), as amended.

§ 953.32 *Obligation.* Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds, together with all books and records, in his possession, to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this subpart.

EXPENSES AND ASSESSMENTS

§ 953.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out the functions of the committee pursuant to the provisions of this subpart during each fiscal year. The funds to cover such expenses shall be acquired by levying assessments as provided in § 953.41.

§ 953.41 *Assessments.* (a) Each handler who first handles lemons shall, with respect to the lemons so handled by him, pay to the committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of lemons handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of lemons handled by all handlers as the first handlers thereof, during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers.

(b) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Such increase shall be applicable to all lemons handled during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

§ 953.42 *Accounting.* (a) If, at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year. If any handler ceases to handle lemons he may demand payment of such refund, in which case such sum shall be paid to him.

(b) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

§ 953.43 *Funds.* All funds received by the committee pursuant to any provisions of this subpart shall be used solely for the purposes specified in this subpart and shall be accounted for in the manner provided in this subpart. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

REGULATION

§ 953.50 *Marketing policy.* At the beginning of each fiscal year, the committee shall prepare and submit to the Secretary a report setting forth its proposed policy for the marketing of lemons during such fiscal year. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, the committee shall formulate a new marketing policy and shall submit a report thereon to the Secretary. The committee shall notify handlers of the contents of such reports.

§ 953.51 *Recommendations for regulation.* (a) It shall be the duty of the committee to investigate the supply and demand conditions for lemons. Whenever the committee finds that such conditions make it advisable to regulate, pursuant to § 953.52, the handling of lemons during any week of the fiscal year, it shall recommend to the Secretary the quantity of lemons which it deems advisable to be handled during such week in each district defined in § 953.64. Thereafter, the committee shall promptly report such findings and recommendations, together with supporting information, to the Secretary.

(b) In making such recommendations, the committee shall give due consideration to the following factors: (1) Quantity of lemons in storage; (2) lemons on hand in, and en route to, the principal markets; (3) trend in consumer income; (4) present and predicted weather conditions; (5) present and prospective prices of lemons; and (6) other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 953.52, has fixed the quantity of lemons which may be handled during such week, the committee may, if it deems such action advisable because of unusual or unforeseen changes in the demand for lemons, recommend to the Secretary that such quantity be increased for such week. Any such recommendation, together with supporting information, shall be submitted promptly to the Secretary.

§ 953.52 *Issuance of regulations.* Whenever the Secretary shall find, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of lemons which may be handled during a specified week in each district, as aforesaid, will tend to effectuate the declared policy of the act, he shall fix such a quantity of lemons which may be handled during such week in each such district, which quantity may, at any time during such week, be increased by the Secretary. The committee shall be informed immediately of any such regulation issued by the Secretary and shall promptly give adequate notice thereof to handlers.

§ 953.53 *Prorate bases.* (a) As used in this section, "handler" means the person who is, or proposes to be, the person who handles lemons as the first handler

thereof; and each such handler shall submit to the committee, at such time as may be designated by it, a written application for a prorate base and for allotments, as provided in this subpart.

(b) Whenever the committee proposes to make recommendations for regulation, pursuant to § 953.51, it shall, with respect to each handler who has filed an application for a prorate base, compute the quantity of available lemons which, as of 12:01 a. m., on the Sunday nearest the date on which such computation is made, meets the requirements of marketing under applicable laws. Such computation shall be made every two weeks, beginning with a date in each fiscal year to be fixed by the committee, and continuing so long as such recommendations are proposed. In computing each handler's available lemons, the committee shall consider only such lemons as the handler owns or has contracted to buy, or has authority to market under a written contract.

(c) In computing the quantity of lemons which, for the applicable two-week period, each handler has available for current shipment, the committee shall compute the quantity of lemons which each handler has picked from the trees and has assembled at an established shipping point within the area of production.

(d) In the event any handler has lemons which he desires to market in channels other than fresh-fruit channels in the United States and Canada, he may request the committee to compute the number of weeks that such lemons could be held in storage, under commercial storage conditions, and, at the expiration of such period, would meet the requirements for marketing under applicable laws. Any such lemons shall be in containers and shall be assembled at one or more of the central points which may be approved by the committee. If the said handler is satisfied with the committee's computation, he shall give the committee written notification thereof and shall dispose of such lemons in channels other than fresh-fruit channels in the United States and Canada. The committee shall include such lemons as a part of the available lemons of such handler for the number of weeks computed, and such lemons shall not be included thereafter in any computation made pursuant to paragraph (c) of this section.

(e) Any handler who submits evidence satisfactory to the committee that such handler has lemons available for current shipment during the applicable two-week period, but, because of unavailable facilities, the quantity of such lemons cannot be computed satisfactorily, pursuant to paragraph (c) of this section, the committee shall compute, pursuant to uniform rules adopted by the committee and approved by the Secretary, the quantity of lemons which each such handler has available for current shipment during such period.

(f) The quantity of each handler's available lemons, as computed pursuant to this section, shall be reported by the committee to the Secretary and shall constitute the recommendation of the committee as the quantity of lemons to be used by the Secretary in determining the prorate base for each such handler: *Provided*, That such quantity may be adjusted by (1) the deduction of any undershipments, as provided for in § 953.58, or (2) the addition of any overshipments, as provided for in § 953.57, in the event any such handler makes an undershipment or an overshipment during the week preceding that in which such quantity was computed. Such report shall be made on the basis of the total quantity of each handler's available lemons in each of the aforesaid districts.

(g) Upon the basis of the recommendations and reports submitted by the committee, or other available information, the Secretary shall fix a prorate base for each handler who has made application therefor to the committee. Such prorate base shall represent the ratio between the quantity of each such handler's available lemons in a district, as aforesaid, and the quantity of all such handlers' available lemons in the same district, and shall be applicable for the two-week period immediately following the week in which it is fixed by the Secretary.

(h) During any two-week period in which a prorate base is effective for a handler, the committee may recommend to the Secretary that the prorate base of such handler be modified. In any such case, the committee shall submit a report to the Secretary showing the reasons therefor. Upon the basis of such recommendation and report, or other available information, the Secretary may modify the prorate base of any handler.

(i) The Secretary shall notify the committee of the prorate base fixed for each handler, and of any modifications thereof, and the committee shall give adequate notice to each handler of the prorate base fixed for him, or of any modification thereof.

(j) Any handler who has reason to believe that the computation made by the committee with respect to the quantity of such handler's available lemons is not accurate, may appeal to the Secretary for a recomputation thereof. Any such appeal shall be supported by evidence which shall show the inaccuracy of the committee's computation. Whenever a handler takes such an appeal to the Secretary, the handler shall, at the same time, notify the committee of such appeal and submit to the committee a copy of the evidence in support thereof. Upon receipt thereof, the committee shall immediately submit a report to the Secretary, setting forth the manner in which the quantity of the handler's available lemons was computed, and other data pertinent to a determination on the appeal.

§ 953.56 *Allotments.* Whenever the Secretary has fixed the quantity of lemons which may be handled during any week in a district, as aforesaid, and has fixed the handlers' prorate bases, the committee shall calculate the quantity of lemons which may be handled by each such handler during such week. The said quantity shall be the allotment of each such handler and shall be in an amount equal to the product of the handler's prorate base and the quantity of lemons fixed by the Secretary as the quantity which may be handled during such week in such district. The committee shall give adequate notice to each handler of the allotment computed for him pursuant to this section.

§ 953.57 *Overshipments.* During any week for which the Secretary has fixed the quantity of lemons which may be handled, any handler (when not required to reduce the quantity of lemons which he may handle, as provided in this section) may handle, in addition to his allotment, an amount of lemons equivalent to ten percent of said allotment, or one carload, whichever is greater. The quantity of lemons handled in excess of a handler's allotment (but not exceeding the quantity permitted to be handled, as provided in this section) shall be deducted from his allotment for the next week in which the handling of lemons is regulated under this subpart. If such allotment is in an amount less than such excess quantity of lemons permitted to be handled by a handler, such quantity handled in excess of his allotment shall be deducted from succeeding weekly allotments until such excess has been entirely offset.

§ 953.58 *Undershipments.* If a handler during any week handles a quantity of lemons less than his allotment for that week, such handler may, in addition to his allotment for the next succeeding week, handle only during such next succeeding week, a quantity of lemons equivalent to such undershipment.

§ 953.59 *Allotment loans.* (a) A handler for whom a prorate base has been established may lend allotments to other handlers: *Provided*, That such loans are confined to the same district, as defined in § 953.64, and evidenced by a bona fide written agreement, filed with the committee within 48 hours after the agreement has been entered into, under the terms of which such allotments are to be repaid during the current season.

(b) Allotments shall be loaned only during the week in which such allotments are issued and can be used by the borrower only during the week in which the loan is secured. Handlers securing repayment of allotment loans shall use such allotments only during the week in which the repayment is made.

(c) The committee may act as agent for handlers in arranging loans of allotments. In each such case, the committee shall confirm all such transactions by memoranda, addressed to the parties thereto, immediately after the completion thereof; and the signing and return of such memoranda by each such handler shall satisfy the requirements of paragraph (a) of this section with respect to bona fide agreements evidencing such loans.

(d) No allotment which has been loaned may again be loaned by the borrower, or by the lender after repayment thereof.

§ 953.60 *Transfer of allotments.* Allotments shall not be transferred except upon the transfer of a quantity of lemons equal to the allotment which has been transferred.

§ 953.61 *Priority of allotments.* During any week in which a handler receives an allotment, and has the right to handle a quantity of lemons in addition to the quantity represented by his allotment, by reason of (a) an undershipment of lemons pursuant to § 953.58; or (b) a transferred allotment, pursuant to § 953.60; or (c) the repayment of a loaned allotment, pursuant to § 953.59; or (d) an assignment of an allotment, pursuant to § 953.63; or (e) a borrowed allotment, pursuant to § 953.59, and such handler handles a quantity of lemons which is less than the total quantity of lemons which such handler may handle during such week, the amount of lemons handled shall first apply to such handler's current weekly allotment (or to that portion thereof which is not used pursuant to §§ 953.57, 953.59, 953.60, or 953.63), and the remainder, if any, shall be applied in the following order: first, to any undershipment of lemons, pursuant to § 953.58; second, to any allotment repaid to him, pursuant to § 953.59; third, to any allotment transferred to him, pursuant to § 953.60; fourth, to any allotment assigned to him, pursuant to § 953.63; and fifth, to any allotment borrowed, pursuant to § 953.59.

§ 953.62 *Information to central marketing organizations.* (a) In order further to facilitate arranging allotment transactions pursuant to this subpart, the committee shall give any central marketing organization upon its request, the same notice with respect to prorate bases and allotments, applicable to each handler for whom it markets lemons, as is given to such handlers.

(b) Any central marketing organization which, pursuant to paragraph (a) of this section, receives information from the committee regarding prorate bases and allotments, applicable to handlers for whom it markets lemons, and which arranges allotment transactions for or on behalf of any of such handlers, shall keep records which will accurately reflect all such allotment transactions and such records shall be subject to examination by the committee and the Secretary. Any such central marketing organization shall make such reports and furnish such other information with respect thereto as may be required by the committee. If the Secretary finds that any such central marketing organization has failed to keep such records, or has assisted in effecting allotment transactions contrary to the provisions of this subpart, the provisions of paragraph (a) of this section shall not be applicable to such central marketing organization during such period as may be determined by the Secretary.

§ 953.63 *Assignment of allotments.* Any person who acquires lemons to be handled by him, and who does not have a prorate base on such lemons, may handle such lemons pursuant to an assignment of an allotment from the handler from whom such lemons were acquired and to whom the allotment had been issued, which assigned allotment shall be equal to the quantity of lemons acquired by such person.

Any such assignment shall be evidenced by a certificate which shall be in such form, and issued in such manner, as shall be prescribed by the committee.

§ 953.64 *Districts.* (a) "District 1" shall include that part of the State of California which is north of a line drawn due east and west through the Tehachapi mountains.

(b) "District 2" shall include that part of the State of California which is south of a line drawn due east and west through the Tehachapi mountains, but shall exclude Imperial County, California, and that part of Riverside County, California, situated south and east of the San Gorgonio Pass.

(c) "District 3" shall include the State of Arizona and that part of the State of California not included in District 1 and District 2.

REPORTS

§ 953.70 *Weekly report.* On or before such day of each week as may be designated by the committee, each handler shall report to the committee, on forms prepared by it, the following information with respect to lemons marketed by such handler during the immediately preceding week: (a) Quantity handled; (b) quantity shipped for distribution to persons on relief, including quantity donated for charitable purposes; (c) quantity sold or transported for consumption in fresh form in California or Arizona; (d) quantity sold or otherwise disposed of for canning or for manufacture into by-products; and (e) quantity disposed of otherwise.

§ 953.71 *Other reports.* Upon request of the committee made with the approval of the Secretary every handler shall furnish to the committee, in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in paragraph (a) of this section), such other information as will enable the committee to perform its duties and to exercise its powers under this subpart.

MISCELLANEOUS PROVISIONS

§ 953.80 *Lemons not subject to regulation.* Nothing contained in this subpart shall be construed to authorize any limitation of the right of any person to handle lemons (a) for consumption by charitable institutions or distribution by relief agencies; (b) for conversion into by-products; or (c) for export to foreign countries other than Canada; nor shall any assessment be levied on lemons so handled. The committee may prescribe adequate safeguards to prevent lemons handled for the purposes designated under paragraphs (a) and (b) of this section from entering commercial fresh fruit channels of trade contrary to the provisions of this subpart. The term "by-product" as used in this section includes all processed and manufactured products of lemons, including canned or bottled lemon juice.

§ 953.81 *Compliance.* Except as provided in this subpart, no handler shall handle lemons, during any week in which a regulation issued by the Secretary, pursuant to § 953.52, is in effect, unless such handler has an allotment, or an assignment of an allotment, covering such lemons, issued pursuant to this subpart, or unless such handler is otherwise permitted to handle such lemons, under the provisions of this subpart; and no handler shall handle lemons except in conformity to the provisions of this subpart.

§ 953.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary. In the event the committee, for any reason, fails to perform its duties or exercise its powers under this subpart, the Secretary may designate another agency to perform such duties and to exercise such powers.

§ 953.83 *Effective time.* The provisions of this subpart shall become effective April 10, 1941, and shall continue in force until terminated in one of the ways specified in § 953.84.

§ 953.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year, have been engaged in the production for market of lemons: *Provided*, That such majority has, during such year, produced for market more than fifty percent of the volume of such lemons produced for market; but such termination shall be effected only if announced on or before October 31 of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 953.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds property and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 953.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 953.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 953.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 953.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 953.90 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 953.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 953.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

Issued at Washington, D. C., this 7th day of June 1951, to be effective upon publication in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-6790; Filed, June 11, 1951; 8:53 a. m.]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

SUBPART—LEMON ADMINISTRATIVE COMMITTEE RULES AND REGULATIONS

Simultaneously herewith, the Secretary of Agriculture is issuing an amended order[1] regulating the handling of lemons grown in the States of California and Arizona, in which the section and paragraph designations of said order are completely revised. The rules and regulations of the Lemon Administrative Committee contain references to the section and paragraph designations of the order prior to the aforesaid amendment. The purpose of this amendment to the Lemon Administrative Committee's rules and regulations is solely to correct such section and paragraph references. It is not intended, nor shall this amendment be construed, to change any of the substantive provisions of said rules and regulations.

Wherefore, it is hereby found that it is unnecessary to engage in public rulemaking with respect to the amendment of said rules and regulations herinafter set forth and that good cause exists for making this amendment effective upon the publication thereof in the FEDERAL REGISTER, which is the effective date of the aforesaid amendment to the marketing order.

The rules and regulations of the Lemon Administrative Committee under the order, as amended, regulating the handling of lemons grown in the States of California and Arizona are hereby amended to read as follows:

Sec.
953.110 Nomination procedure.
953.120 Regulation.
953.130 Interpretative rules.
953.140 Reports.

AUTHORITY: §§ 953.110 to 953.140 Issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 953.110 *Nomination procedure.* (a) The time of nominating members and alternate members of the Lemon Administrative Committee shall be not later than 20 days preceding the date of expiration of the terms of the members and alternate members of the said committee, and the manner of nominating members and alternate members of said committee shall be as follows:

(1) The California Fruit Growers Exchange, a California nonprofit cooperative marketing association with its principal place of business at Los Angeles, California, so long as it continues to market more than 60 percent of the total volume of lemons marketed in fresh form, as provided in the marketing agreement and order, shall by resolution adopted by its board of directors, nominate not less than 6 growers for 3 members and 6 growers for 3 alternate members of the committee.

(2) A meeting shall be held, at such time and place as may be designated by the agent of the Secretary, at which all cooperative marketing organizations, other than the California Fruit Growers Exchange (which includes its affiliated district exchanges and local associations), shall nominate not less than 2 growers for a member and 2 growers for an alternate member of the committee. The vote of each such organization shall be weighted by the quantity of lemons which it marketed in fresh form during the fiscal year (as defined in the marketing agreement and the order), the end of which is nearest the date on which the meeting is held. Any person who votes at any such meeting shall submit to the agent of the Secretary written evidence of his authority to vote for such an organization.

(3) Not less than 5 and not more than 10 meetings shall be held, at such times and places, throughout the lemon-producing areas in California and Arizona, as may be designated by the agent of the Secretary, at which growers who are not members of, or affiliated with, the organizations included under subparagraphs (1) and (2) of this paragraph may vote. At each such meeting, the growers present shall nominate 1 grower. The number of ballots to be cast in selecting the 1 nominee for each meeting shall be determined at the respective meeting. All growers voting at any such meeting shall submit their names and addresses to the agent of the Secretary.

(4) The name and address of the grower who has been selected at each of the grower meetings to be held pursuant to subparagraph (3) of this paragraph shall be placed on a ballot which shall be mailed to all growers of record, and otherwise made available to growers, who are not members of, or affiliated with, a cooperative marketing organization which markets lemons with instructions to vote for only 1 grower whose name appears on the ballot, and to sign the ballot and return it within such reasonable time as may be determined by the agent of the Secretary.

(5) The agent of the Secretary shall give adequate notice of any meeting to be held pursuant to this section and of the voting for nominees by growers who are not members of, or affiliated with, a cooperative marketing organization, as provided in subparagraph (4) of this paragraph.

§ 953.120 *Regulation* — (a) *Application for prorate base.* Handlers shall submit an application for a prorate base and allotment to the Lemon Administrative Committee at the beginning of each season.

(b) *Central points.* "Central points" shall mean the handler's packinghouse. This term shall include lemons assembled elsewhere if such assembly has been approved by the committee.

(c) *Computation of available lemons.* (1) Any handler requesting a computation of available lemons in accordance with § 953.53 (e) shall submit a written application to the Lemon Administrative Committee. This application shall be submitted not less than 5 days prior to the date as of which the computation of available lemons is to be made and shall include the following and any other pertinent information which may be requested by the committee:

(i) The lemon acreage and number of trees under the control of the applicant during the current season and for the 2 preceding seasons. Handlers shall furnish contracts or other evidence of title to the lemons upon which their applications are based. The committee may require applicants to furnish the following information for the current season and each of the 2 preceding seasons: (*a*) The number of acres of lemon trees and the number of trees owned by the applicant; (*b*) The number of acres of lemon trees and the number of trees the applicant has contracted t buy; and (*c*) the number of acres of lemons and the number of trees the lemons from which the applicant has authority to market under written contract.

(ii) The estimated crop of lemons on the trees which are under the control of the applicant. The committee may require the submission of such estimate for each of the 2 preceding seasons.

(iii) Description of facilities within the area of production which are owned or controlled by the applicant for the assembling of lemons or which are available to the applicant for such assembly.

(iv) A record of the quantity of lemons picked, by weeks, during the current season and during the 2 preceding seasons.

(v) Record of the quantity of lemons disposed of by weeks, during the current season and during the 2 preceding seasons, in the following channels: (*a*) Interstate commerce including Canada; (*b*) intrastate commerce; (*c*) exported; (*d*) diverted to by-products uses; and (*e*) disposed of otherwise.

(vi) Description of the marketing methods and policies followed by the applicant in the handling of lemons.

(vii) Record of the quantity of lemons the applicant has in storage.

(2) The committee shall consider the evidence submitted by a handler pursuant to subparagraph (1) of this paragraph to determine whether such evidence establishes unavailability of facilities. In making this determination the committee will consider the following factors as well as such other factors as may seem appropriate:

(i) The facilities for assembling lemons available to such handler compared with the facilities for such assembly available to other handlers.

(ii) The established handling and shipping policy of such handler as related to the handling and shipping policies generally followed by all handlers.

(iii) Weather conditions, labor supply, and any other factor that would limit the picking and assembly of lemons by the applicant.

(3) If the committee from the available information determines that the handler is entitled to a computation of his available lemons under § 953.53 (e), it shall compute for each such handler the quantity of lemons available for current shipment during the applicable 2-week period which such handler would have picked and assembled if facilities were available to him.

(d) *Allotment loans.* Allotment loans shall be repaid in the week following that in which such loans are made; such loans shall be deemed repaid if they fall due in a week in which there is no limitation of shipments.

§ 953.130 *Interpretative rules* — (a) *Overshipment tolerances.* Under the provisions of § 953.57, an overshipment tolerance is not available to a handler during any week or weeks in which he is required to reduce the quantity of lemons which he may handle by reason of prior shipments of lemons in excess of his allotment therefor: *Provided,* That repayments of borrowed allotments shall not preclude a handler from claiming and using overshipment tolerances in cases otherwise appropriate.

§ 953.140 *Reports.* Handlers shall submit the following reports containing the following information to the Lemon Administrative Committee, 111 West Seventh Street, Los Angeles 14, California. Copies of the report forms may be obtained from said committee.

(a) *Available lemon count* (L. A. C. Form 1). Name, address, and location of applicant handler; actual number of boxes of lemons in specified containers; packed box equivalent of actual number of boxes of lemons; and certification of handler.

(b) *Advanced credit count* (L. A. C. Form 2). Name, address, and location of handler; block or description of lemon; loose boxes gross; percentage of slack boxes or unmerchantable boxes of lemons; loose boxes net; packed boxes; number of counts; purpose for which lemons are diverted; ending date of diversion period; and certification of handler.

(c) *Lemon diversion report* (L. A. C. Form 5). Name and address of approved by-products plant or charitable organization or other diversion of lemons from fresh fruit channels; number of loose gross boxes and advanced credit count number of juice grade or nonjuice grade lemons; net weights of juice grade and nonjuice grade lemons, respectively, and total net weight of such lemons; and certification of handler.

(d) *Certificates of assignment of allotments* (L. A. C. Form 6). Certificates of Assignment of Allotment as provided in § 953.63 of the amended marketing agreement and order shall be issued by all handlers at the time of sale or transfer of any lemons from such handlers. Such certificate shall cover the total quantity of lemons sold or transferred and shall contain the following information: Date lemons are delivered; handler's invoice number when and if available; name of consignee (purchaser or receiver); destination (address of consignee); truck driver's name; truck driver's address; number of packed boxes of lemons covered by the assignment. Each certificate of assignment of lemons shall be signed by the handler or his authorized agent and shall show the address of the handler issuing it.

(e) *Reports of transfers of allotments* (L. A. C. Form 7). Reports of all transfers of allotments shall be made to the Lemon Administrative Committee, by mailing to the committee the original of each Certificate of Transfer of Allotment issued. Such certificate shall be submitted daily by the handler who issues it.

(f) *Weekly report form* (L. A. C. Form 8). The weekly report required by § 953.70 of the amended marketing agreement and order shall be submitted to the Lemon Administrative Committee on or before 12:01 p. m., P. s. t., Monday of each week, and shall contain the following information: The period covered by the report; the movement of fresh lemons subject to prorate in interstate commerce and intrastate commerce; exports (other than to Canada); quantities sold or disposed of to canners or by-product manufacturers; quantities shipped for distribution to persons on relief or donated for charitable institutions. This report shall be signed by the handler submitting it, or his authorized agent. The reverse side of the report shall contain the following information; the railroad car number, or if shipment is made by truck or other means, the date and number of the Certificate of Assignment of Allotment; the number of packed boxes shipped in interstate commerce and intrastate commerce; if shipments are exported to points other than to Canada the railroad car number, or if shipment is made to steamship by truck or other means, the number of the Certificate of Assignment of Allotment; the name of the steamship, if any; the destination, and the number of packed boxes.

(g) *Conversion factors.* All lemons shall be reported in terms of packed "boxes" as defined in § 953.9 of the amended marketing agreement and order. Where shipment is made in any form other than in packed boxes the lemons shall be converted to packed boxes on the basis of 79 pounds per packed box: *Provided,* That the following conversion tables may be used:

One box fresh loose lemons equals 81 percent of one packed box.

One box by-products lemons equals 63.3 percent of one packed box.

(h) *Application for a prorate base and allotments.* Name and address of applicant handler; information on net cubical content of standard lemon and orange boxes, of field boxes, and of irregular containers; copies of forms used under which applicant has authority to market under written contract or has contracted to buy lemons; name, post office address, and acreage of each grower, and production information by growers; location of packing and storage

PART 962—FRESH PEACHES GROWN IN GEORGIA

DETERMINATION RELATIVE TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1951–52 FISCAL PERIOD

Notice was published in the May 5, 1951, daily issue of FEDERAL REGISTER (16 F. R. 4145) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1951–52 fiscal period under the marketing agreement, as amended, and Order No. 62, as amended (7 CFR, Part 962; 15 F. R. 4105), regulating the handling of fresh peaches grown in the State of Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Industry Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 962.205 *Expenses and rate of assessment for the 1951–52 fiscal period*—(a) *Expenses.* The expenses necessary to be incurred by the Industry Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning March 1, 1951, will amount to $23,220.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles peaches shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at one and one-half cents ($0.015) per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipments of peaches from Georgia are now being made and the mandatory maturity regulation and inspection requirement contained in the aforesaid amended marketing agreement and order are in effect; (2) the rate of assessment is applicable to all fresh peaches shipped during the 1951–52 fiscal period; (3) a large volume of the Georgia peach crop is handled by itinerant truckers and cash buyers who operate in the area only part of the season; and (4) in order for the regulatory assessment to be collected, especially from those handlers who do not have definite or established places of business in the production area, it is essential that the specification of the assessment rate be issued immediately so as to enable the said Industry Committee to perform its duties and functions under said amended marketing agreement and order.

As used herein, the terms "handler," "handles," "shipped," "peaches," "production area," and "fiscal period" shall have the same meaning as is given to each such term in the said amended marketing agreement and order.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5839]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

SAMSON CORDAGE WORKS ET AL.

Subpart—*Combining or conspiring:* § 3.425 *To enforce or bring about resale price maintenance;* § 3.430 *To enhance, maintain or unify prices;* § 3.452 *To limit production;* § 3.470 *To restrain and monopolize trade.* I. In connection with the offering for sale, sale and distribution in commerce, of "cordage products", including cotton sash cords, awning cords, clothes lines, and other cotton cordage similarly constructed or used for substantially similar purposes and on the part of respondent Samson Cordage Works, and six other corporations, and on the part of two individual respondents, and on the part of said respondents' officers, etc., entering into, continuing, cooperating in, or carrying out any planned common course of action, understanding, mutual agreement, combination or conspiracy between and among any two or more of said respondents or between any one or more of said respondents and another or others not parties, to (1) fix, establish or maintain prices, discounts, terms or conditions of sale; (2) fix, modify, or eliminate trade discounts; (3) curtail, restrict, or regulate production by reducing the total number of work hours or by any other means; (4) eliminate grades or weights of "cordage products" in conjunction

with, pursuant to, or in furtherance of, the fixing or stabilizing of prices; (5) make uniform deductions or allowances from actual shipping costs; (6) establish standards or specifications for sizes, weights and descriptions for "cordage products" when the action taken or information exchanged is for the purpose of fixing or maintaining prices or differentials in prices or has the tendency to fix or maintain prices or differentials in price; (7) deny purchasers the benefit of market price declines; or, (8) exchange, distribute or relay between or among the respondents, or between or among any of them, or between or among any of their representatives, agents or employees, or through any medium or central agency the following information with respect to the business practices or sales policies of any particular respondent, to wit: Current or future prices, or terms or conditions of sale, or trade discounts, or freight charges or allowances therefrom, or price quotations submitted or to be submitted on any prospective piece of business; and II, in said connection and on the part of said various respondents, or any of them, their officers, etc., and whether acting separately or in concert, entering into or continuing in operation any contract, agreement or understanding with customers which provides that said products are not to be advertised, offered for sale or sold by said customers at prices other than those specified or fixed by said respondents, whether acting separately or in concert; prohibited, subject to the provision, however, that nothing contained in the order shall be construed to prohibit (a) any seller from independently entering into an agreement with a purchaser as to the price to be charged such purchaser, the terms or conditions of sale, trade discounts, weights, grades, standards or specifications for "cordage products", price differentials, and freight charges or allowances, independently determined and offered by either such seller or buyer and independently accepted by either such seller or buyer in any bona fide transaction, or (b) any prospective seller from making, or any prospective purchaser from receiving, an offer of sale in contemplation of a bona fide transaction between such prospective seller and prospective purchaser; provided that such agreement or offer of sale is not for the purpose nor has the effect of restraint of trade; to the further provision that nothing contained in the order shall be construed to prohibit any of the respondents from entering into such contracts or agreements relating to the maintenance of resale prices as are permitted under the provisions of the Miller-Tydings Act; and to the further provision that nothing contained in the order shall be construed to affect the duty, authority, or power of the Commission to reopen this proceeding, as provided for by law, and to alter, modify or set aside, in whole or in part, any provision of the order whenever, in the opinion of the Commission, conditions of fact or of law have so changed as to require such action or if the public interest shall so require.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Samson Cordage Works et al., Docket 5839, March 26, 1951]

This proceeding was heard by Everett F. Haycraft, trial examiner, upon the complaint of the Commission and respondents' answers in which they admitted all material allegations of fact set forth in said complaint and waived all intervening procedure and further hearings as to the said facts.

Thereafter the proceeding regularly came on for final consideration by said trial examiner, theretofore duly designated by the Commission, upon said complaint, and answers thereto (all intervening procedure having been waived) and said trial examiner, having duly considered the record in the matter and having found that said proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts, conclusion drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII, became the decision of the Commission March 26, 1951.

The said order to cease and desist is as follows:

It is ordered, That Samson Cordage Works, a corporation, Puritan Cordage Mills, a corporation, Shuford Mills, Incorporated, a corporation, Cleveland Mill & Power Company, a corporation, Southern Mills Corporation, a corporation, Rockford Manufacturing Company, a corporation, Wm. E. Hooper & Sons Company of Baltimore City, a corporation, and Paul B. Halstead, an individual, and Bascom B. Blackwelder, an individual, their officers, directors, agents, representatives and employees, directly or through any corporate or other device, in connection with offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of "cordage products," including cotton sash cords, awning cords, clotheslines, and other cotton cordage similarly constructed or used for substantially similar purposes as any of the foregoing, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, understanding, mutual agreement, combination or conspiracy between and among any two or more of said respondents, or between any one or more of said respondents and another or others not parties hereto, to do or perform any of the following:

Fixing, establishing or maintaining prices, discounts, terms or conditions of sale.

Fixing, modifying, or eliminating trade discounts.

Curtailing, restricting, or regulating production by reducing the total number of work hours or by any other means.

Eliminating grades or weights of "cordage products" in conjunction with, pursuant to, or in furtherance of, the fixing or stabilizing of prices.

Making uniform deductions or allowances from actual shipping costs.

Establishing standards or specifications for sizes, weights and descriptions for "cordage products" when the action taken or information exchanged is for the purpose of fixing or maintaining prices or differentials in prices or has the tendency to fix or maintain prices or differentials in price.

Denying purchasers the benefit of market price declines.

Exchanging, distributing or relaying between or among the respondents, or between or among any of them, or between or among any of their representatives, agents or employees, or through any medium or central agency the following information with respect to the business practices or sales policies of any particular respondent, to wit: Current or future prices, or terms or conditions of sale, or trade discounts, or freight charges or allowances therefrom, or price quotations submitted or to be submitted on any prospective piece of business.
